

CODIS AND SOLUBILITY

THE GREAT ADVANTAGE of Codis is that it provides a codeine compound tablet in which the aspirin content is soluble in water. (The codeine constituent is also soluble, and the phenacetin is in very fine suspension.)

This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

PRELUDIN CALCULATOR If you wish a replacement of Preludin Overweight Calculator, please write to the Boehringer Products Division, Pfizer Ltd., 137-139 Sandgate Road, Folkestone, Kent.

It has been calculated that if carcinoma were cured, the average life-expectancy would be increased by two years, whereas if obesity were cured, it would be increased by four years.¹

This gives an indication of the prevalence of what has been described as one of the greatest medical problems of Western civilisation.²

As an example of the mathematics of mortality in overweight patients, a man aged 35, height 5' 8" who has passed the critical stage of 15 per cent excess weight, can expect a decrease in life-expectancy amounting to 8 years.³

The use of Preludin can increase the expectation of life in overweight patients by enabling them to adhere easily to a restricted diet. Preludin acts directly on the appetite-satiety centre in the hypothalamus. Unlike the amphetamines it does not destroy the appetite—it merely causes the feeling of satisfaction to occur earlier. There are no adverse side-effects and blood sugar levels, heart and blood pressure remain unaffected.

***NOW—one tablet as basic therapy
for all grades of hypertension***

MERCK SHARP & DOHME LIMITED • HODDESDON • HERTS

SALUPRES is a completely new product offering the most modern and most convenient method of treating hypertension

Advantages of SALUPRES

- Provides effective treatment for most hypertensives
- Potentiation lowers the effective dosage of reserpine and hydrochlorothiazide
- Potassium content makes hypopotassaemia unlikely
- New type of reliable enteric coating effectively prevents nausea
- Permits a palatable amount of salt in the diet
- Simple dosage—average, 2 tablets twice a day
- In severe and malignant hypertension when ganglion blocking agents are required, their dosage is reduced and side-effects minimised

SALUPRES is *convenient* therapy—ONE prescription instead of three

SALUPRES is *comfortable* therapy—side-effects unlikely to be troublesome

COMPOSITION: Hydrochlorothiazide 12.5 mg., Reserpine 0.0625 mg. and Potassium Chloride 572 mg., in each tablet

Deep skin penetration in Arthritis and Rheumatism

NICOTINIC, SALICYLIC AND
p-AMINOBENZOIC ACIDS in Ester form

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau 1952, 8, 143

Lomu in

FROM THE LOMU TRIALS

Retired gateman, aged 69. History of chest troubles over the last ten years; chronic bronchitis 8 years, emphysema six. Treatment: one cartridge of Lomudase in the mornings, 4-6 cartridges of Lomupren during the day. Found no difficulties in using the Lomulizer and had great confidence in its effectiveness. Derived a great improvement in his chest condition and is able to get about without the previous stops for breath. Appetite has improved; sleeps better. Very pleased with his improvement in health.

Chronic Bronchitis

A SEVEN-IN-TEN SUBJECTIVE IMPROVEMENT

A TRIAL IN GENERAL PRACTICE

A general practitioner investigation of the Lomu range of products in the treatment of chronic bronchitis has recently been completed. It involved 206 chronic bronchitic patients and 60 doctors in eight highly industrialised areas of Great Britain and was timed for the spring and early summer of 1959 to ensure that only the more severe cases were treated.

Each practitioner supervised treatment during a six-week period and was asked to summarise weekly such details as ability to expectorate without exhausting cough, reduction of thick viscid sputum and sputum volume, reduction in wheezing and subjective improvement associated with less disturbed sleep, improved effort tolerance and general well-being.

THE RESULTS

- * 58 patients received Lomudase and Lomupren together during the whole six weeks. A satisfactory improvement (taking all aspects of the patient's symptomatology into account) was noted in 84.5%.
- * 72 patients received Lomupren only in the first three weeks and during the next three weeks these patients received both Lomudase and Lomupren. 91.7% showed an overall subjective improvement.
- * Of the 206 patients in the trial, the records of 76 patients could not be fully assessed owing to incomplete information, but on the assessment given 40.8% achieved a satisfactory improvement.

OVERALL IMPROVEMENT

Of the 206 chronic bronchitic cases (including the 76 patients not fully assessed), 70.9% showed an overall clinical improvement. The results indicate that long-term therapy may produce an even more marked improvement.

Lomudase, the first safe and effective mucolytic is a revolutionary and unique presentation of the enzyme chymotrypsin. Each cartridge contains 0.01 Anson units of chymotrypsin and 0.1 mg. of isoprenaline sulphate as an ultra-fine powder, homogeneous by weight, and within a particle size range of 2-6 μ . *Lomudase* acts specifically on viscid mucus plugs. Liquefaction of the sputum enables the chronic bronchitic to clear his chest of thick tenacious mucus within minutes of application.

Lomupren, is a presentation of the highly efficient bronchodilator, isoprenaline, as an ultra fine powder, homogeneous by weight, within the particle size range of 2-6 μ . Each cartridge contains 0.1 mg. of isoprenaline sulphate and in this unique form, is more effective than 200 times the dose administered sublingually. Side effects with this minute dose are avoided.

The *Lomulizer*, is a simple yet ingenious pocket dispenser which ensures that the Lomu range of products penetrates in predetermined doses to the distal parts of the respiratory tract. The *Lomulizer* ensures that each dose of these drugs is only released at the correct point in inspiration, and is distributed throughout the pulmonary tree in the particle size range of 2-6 μ .

Note: A preliminary report of the investigation will be made available to all general practitioners in the near future.

Lomu, Lomudase, Lomupren, Lomulizer are trade marks, property of the manufacturers.

An old friend

in a new guise

A molecular complex of chloral hydrate in tablet form — WELLDORM — that has all the advantages and none of the disadvantages of chloral

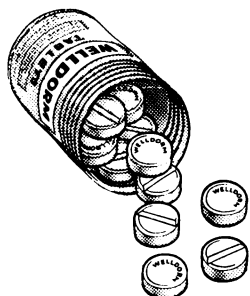

Welldorm is dichloralphenazone. Welldorm tablets induce drowsiness, without excitation, within 15 minutes, leading shortly to sound sleep. Patients can be aroused easily and experience no unpleasant after-effects.

Welldorm has none of the unpleasant odour or nauseating tendency that has up to now restricted the use of chloral in practice.

In paediatric practice Young children and babies tolerate Welldorm tablets very well and for paediatric use quarter strength tablets are available.

In geriatric practice Welldorm is especially suited to the needs of the elderly because it is not followed by restlessness, mental confusion or constipation.

Indications Welldorm is indicated in all cases of sleeplessness associated with anxiety, hyperexcitability or mild pain and as a day time sedative.

Welldorm

ADHESIVE BANDAGING WITHOUT SKIN IRRITATION

PoroPlast considerably reduces the risk of skin irritation which often associates with the use of ordinary elastic adhesive bandages. It contains no rubber and none of the irritating natural resins or solvents usually embodied in adhesive plaster.

Consequently PoroPlast can remain in situ for long periods without causing irritation, and it has been well tolerated even on very sensitive skins.

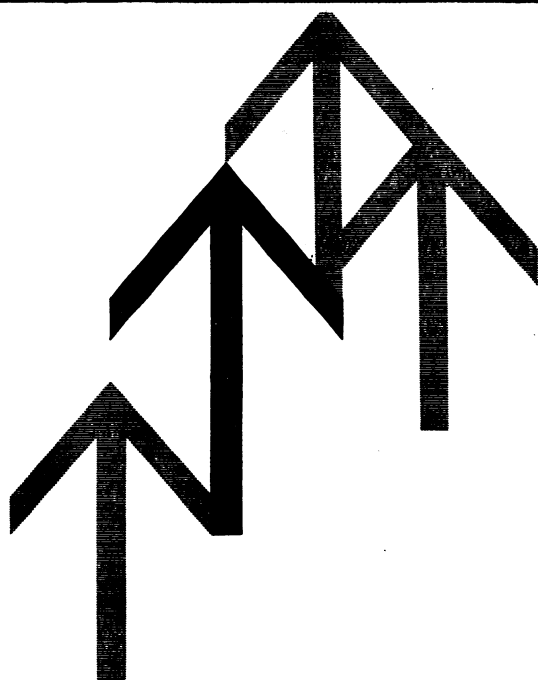

PoroPlast is porous and has the same characteristics of elasticity, stretch and compression as ordinary elastic adhesive bandages. Its price is the same. It can be prescribed on N.H.S. In rolls 3" and 2½" wide (5-6 yards stretched). Sample roll of PoroPlast on request.

A new advance in the

NARDIL

BRAND OF PHENELZINE

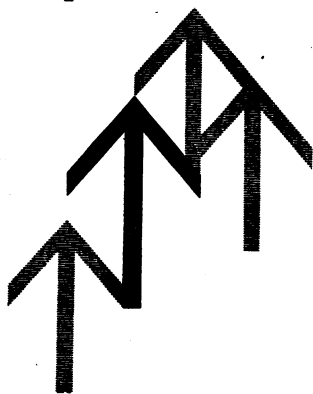

TRADE MARK

a safe and effective monoamine

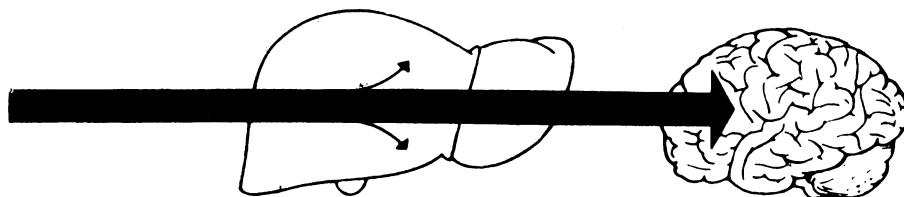

- is a new kind of antidepressant which acts selectively on the brain
- modifies the basis of depression, while sedatives, tranquillizers and CNS stimulants merely mask symptoms
- does not interfere with appetite or sleep
- has a simple and convenient dosage schedule which helps patient co-operation
- acts rapidly, improvement is seen within the first week and often in the first few days
- abolishes symptoms in from 2-5 weeks and recovery is maintained for long periods after treatment has ceased
- is safe — no toxic effects on blood and liver have been reported
- early treatment may save many patients from the need of hospital care

treatment of depression

oxidase inhibitor which acts selectively on the brain

Nardil is a fundamentally new means of treating depression. Nardil produces no toxic effects on blood or liver and is outstandingly safe.

Nardil is not significantly taken up by the liver.

Nardil passes the blood-brain barrier rapidly. Nardil has been exhaustively assessed in many countries since 1957.

Dosage is simple — one tablet three times a day. At this level side effects are practically never encountered.

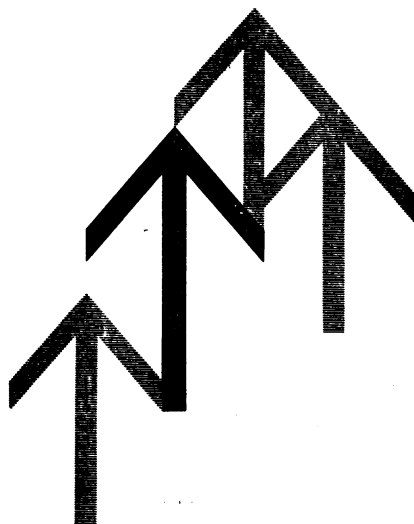

Nardil is available for prescription on E.C.10 in bottles of 100 and 500 sugar-coated tablets each containing 15 mg. phenelzine.

Modern Trends in ACCIDENT SURGERY AND MEDICINE

Edited by F. G. BADGER, B.Sc., F.R.C.S.(Ed.), A. RUSCOE CLARKE, M.B.E., M.B.(Lond.), F.R.C.S.(Eng.), and SIMON SEVITT, M.D., M.Sc., M.A., F.R.C.P.I., D.P.H. In preparation. Pp. vii+300+Index. Approx. 194 illustrations. Price to be announced.

The Birmingham Accident Hospital is a pioneer centre developed to deal exclusively and immediately with accidents to the exclusion of every other type of case, and this book, where the editors and contributors all are, or have been, associated with the hospital, is the outcome of years of experience concentrated in the management of every type of accident—a fund of unique, specialised and practical knowledge.

SURGICAL ASPECTS OF MEDICINE

By H. DAINTREE-JOHNSON, M.A., M.B., B.Chir., F.R.C.S. In preparation. Pp. xi+382+Index. 18 illustrations. 65s. net.

The aim of this book is to give guidance in deciding on the time to adopt operative treatment, and on the choice of operative treatment, having regard to all circumstances, while providing the fullest information on mortality, morbidity, side-effects and late complications of surgical procedures, as well as advice on the management of the patient's life after operation.

A HISTORY OF THE MAIDA VALE HOSPITAL FOR NERVOUS DISEASES

By ANTHONY FEILING, B.A., M.D., B.Ch.(Cantab.), F.R.C.P.(Lond.). Pp. viii+63. 12 illustrations. 15s., by post 7d. extra.

A century ago the science of neurology was in many respects little in advance of its state two thousand and more years earlier. This book traces the history of a pioneer hospital which has done so much to establish for London the unquestioned reputation as the foremost centre of neurological research and teaching in the world.

new FUROXONE

This new antibacterial nitrofurantoin is indicated in non-specific diarrhoeas, bacillary dysentery and bacterial food poisoning caused by the many susceptible species and strains of

Salmonella

Shigella

Bact. coli

Proteus

Streptococcus

Staphylococcus

and organisms classified as coliforms and enterococci.

It has an antibacterial spectrum that is exceptionally well suited to controlling gastro-intestinal infections, and works fast. It seldom evokes bacterial resistance; cross-resistance has not been reported. The toxicity of 'Furoxone' is very low, and in therapeutic dosage it gives rise to few side-effects, which are never severe.

PRESENTATION 'Furoxone' is available in 100 mg. tablets in packs of 20 and 200. There is also a suspension in 8 oz. bottles containing—1624 mg. furazolidone, with kaolin and pectin.

FORMULA 'Furoxone' tablets each contain 100 mg. furazolidone; one medical tablespoonful of 'Furoxone' suspension contains 100 mg. furazolidone.

When you examine
TAMPAX
please note...

How positive
its wick action in
absorbing the flux

Please note also—

How easy it is for your patients to insert.

How flat Tampax expands to fit the vaginal canal.

How gentle its contact with the vaginal epithelium.

How dainty it is for the patient to remove.

How well it is adapted to individual needs.

The high absorptive efficiency of Tampax is the best assurance your patients can have of dependable internal protection. For the strong capillary 'wick' action of the fine surgical cotton—from which the Tampax tampon is made—enables it to absorb the flux with active freedom, and transmit it evenly throughout its full length.

This advantage may be readily demonstrated by immersing one end of a dry, opened tampon in a glass of water, with the other end hanging outside over the edge. The tampon, like a wick, unfailingly conveys water up over the rim to saturate the free end.

When the Tampax is inserted intravaginally, this positive wick action prevents any blockage of the flow—since, with equal sureness, it draws the menstrual fluid away from the cervix uteri.

The ease and convenience of using Tampax lend additional appeal to its efficacy. The compressed tampon may be inserted high in the vaginal vault by the simple operation of the individual applicator. Here it gently undergoes flat expansion, held intact by special cross-fibre stitching. A moisture-proof cord facilitates gentle removal.

HAVE YOU TRIED THIS 'WATER-TEST' FOR ABSORPTIVE EFFICIENCY? Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Havant, Hants.

Tampax provides better physical management of menstrual hygiene

'Darenthin'

a fundamental advance
in the treatment of
hypertension

'Darenthin', an original discovery by Wellcome research workers, provides a new approach to the problem of hypertension. Its action, that of sympathetic inhibition, is a conspicuous advance on former methods of treatment. 'Darenthin' is issued as scored compression-coated tablets of 200 mgm.

Nicer than injection— just as effective!

Where injection is inconvenient or undesirable, 'Icipen' V provides adequate oral penicillin therapy—for about 2/9d. a day. Therapeutic levels are reached in 15 minutes, peak concentrations in half an hour. Clinical results are comparable to those obtained with intramuscular penicillin.

'Icipen' V is available as tablets or suspension. The suspension is pleasantly flavoured, and acceptable to children and old people. Each teaspoonful (3.5 ml.) of

prepared 'ICIPEN' suspension contains 150 mg. penicillin V, as calcium salt, available in bottles of 1 and 2 fl. oz. Basic N.H.S. costs when dispensed: 1 fl. oz. for a day's treatment for an infant, 1/6d; 2 fl. oz. for a day's treatment for a child, 3/-.

'Icipen' V 300 scored tablets contain the equivalent of 300 mg. penicillin V as potassium salt. In packs of 12, 100, and 500. Average basic N.H.S. cost for a day's treatment (3 tablets) is 2/9d.

You have good reason to prescribe Carnation Milk

"The Feeding of Infants"—a book specially prepared for doctors—together with reprints of clinical investigations and Carnation feeding charts are available from: The Medical Dept., General Milk Products Ltd., Bush House, Aldwych, London, W.C.2.

CARNATION solves mother's problems in feed preparation—as well as meeting your exacting requirements. Clinical studies have proved that babies thrive on Carnation.

You can prescribe Carnation with complete confidence for the following reasons:—

DIGESTIBILITY Carnation Milk ensures maximum digestibility because of soft granular curds and homogenized butterfat.

STERILITY Carnation Milk is sterilized *after* the tins are sealed. No matter when or where Carnation is bought, its sterility is assured.

EASE OF PREPARATION Carnation Milk saves time in preparation of feeds because it blends *instantly* with boiled water.

FLEXIBILITY Carnation Milk feeds are easily adjusted to individual requirements.

ACCURACY Carnation Milk is a liquid and provides for accurate measurement of every feed.

VITAMIN D INCREASE Carnation Milk is adequately fortified to a safe level with Vitamin D.

UNIFORMITY Carnation Milk is uniform because every tin is processed to precise standards of butterfat and total solids.

These advantages uphold the highest standards of Infant Feeding when you prescribe Carnation.

For the best start in life Carnation

Why TWO oral diuretics?

Can't think why the 'SALURIC' people brought out 'HydroSALURIC'.

Oh, I use both in my practice.

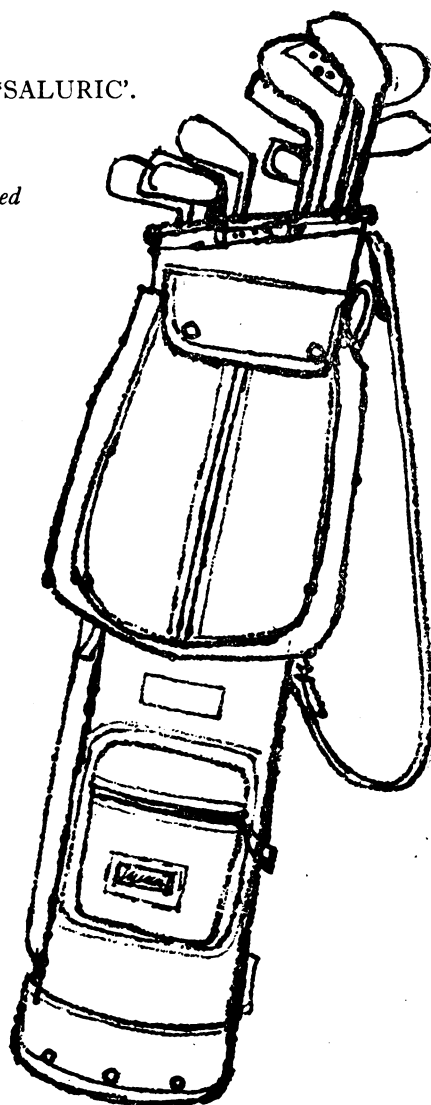

Both? The last time we met you used nothing but 'SALURIC'. Changed your mind?

Not in the least! All my patients are still on 'SALURIC' alone, except a couple who have needed an occasional injection of mersalyl. I have changed these two to 'HydroSALURIC' and they've not needed any further injections.

I've only one patient like that. I'll try this 'HydroSALURIC'.

Yes, do! Borrow my dosage card. I prefer to give it Monday, Wednesday, and Friday. Keeps them comfortable all week and they don't "fill-up" and call me out of bed in a hurry.

My Consultant told me they rarely see that type of case now, thanks to 'SALURIC'. It has changed the whole of diuretic therapy, especially for the G.P.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

The United Kingdom N.H.S. basic costs of 12 tablets (ex. dispensing packs) are:

'Saluric' (chlorothiazide, 0.5G.) — 5s. 0d.

'Hydrosaluric' (hydrochlorothiazide, 25 mg.) — 3s. 10d.

'Hydrosaluric' (50 mg.) — 6s. 11½d.

'Saluric' and 'Hydrosaluric' are trademarks.

Trademarks outside the United Kingdom: 'Saluric'—'Chlotride', 'Clotride', 'Diuril'. 'Hydrosaluric'—'Dichlotride', 'Dichlotride', 'Hydrodiuril'.

**a NEW ointment for the treatment
of all bacterial skin infections**

ECOMYTRIN

ointment

A NEW ANTIBIOTIC

ECOMYTRIN Ointment contains amphomycin, 0.5%, a potent new antibiotic derived from *Streptomyces canus* which has substantially the same antibacterial spectrum as penicillin and bacitracin. Neomycin, 0.33%, is also included and these two antibiotics are effective against virtually all pathogenic bacteria. Neither antibiotic is used systemically.

A NEW BASE

ECOMYTRIN differs from other antibiotic ointments in one important respect. Because amphomycin is stable in water, it is possible to make an oil-in-water preparation with the whole of the antibiotic content in the aqueous phase. This has three advantages:

- 1 The antibiotics are brought into very intimate contact with the skin and response is rapid.
- 2 In acute infected weeping lesions, there is no interference with the weeping process (in contrast to greasy ointments).
- 3 ECOMYTRIN is cosmetically acceptable.

rapidly effective · economical · non-greasy · pleasant to use · stable

INDICATIONS: Primary infective skin disorders. Secondarily infected skin disorders.

ADMINISTRATION: Ecomytrin should be used three or four times daily in a thin layer applied directly to the affected skin area.

ACTIVE INGREDIENTS: Amphomycin 0.5% Neomycin 0.33%.

PRESENTATION: Ecomytrin is available in tubes of 15 G.

WILLIAM R. WARNER & CO. LTD., EASTLEIGH, HAMPSHIRE.

ECO 428/4

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, *the entire Vitamin B Complex should always be administered concurrently.*

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural Vitamin potency of Aluzyme is totally available to the human system.

- Aluzyme is not advertised to the public and may be prescribed on Form E.C.10

DIABETES

and the patient with tremor

RASTINON

PROVIDES COMPLETE ORAL CONTROL

—self-administration is no problem

THE ELDERLY DIABETIC PATIENT with a tremor may experience difficulty with self-administered injections of insulin.

It is reassuring to know that a large number of these patients* can now be controlled *orally* with RASTINON (tolbutamide)—without problems of self-administration, and without risk of hypoglycaemia.

In patients in whom maintenance dosage has been established, RASTINON lowers the blood sugar to normal levels but almost never beyond that point, regardless of dosage. RASTINON is a true euglycaemic agent.

In many cases, one tablet by mouth once or twice a day is all that is necessary for maintenance. Rapid excretion precludes cumulative effects. No cases of dyshaemopoiesis, jaundice, or other serious side-effects have been reported.

* Over 1,250,000 diabetics
all over the world owe
their well-being to RASTINON.
The rate of response increases
steeply with advancing age.

Anabolex

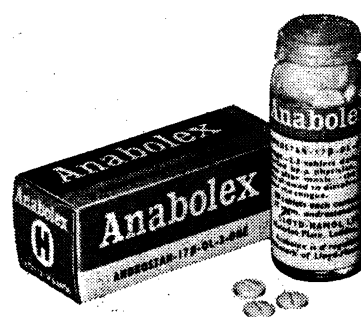

the protein-anabolizing steroid

restores normal protein metabolism

PATIENTS who are recovering from illness frequently suffer from faulty protein metabolism. They are in negative nitrogen balance. Protein, in effect, is being broken down and lost faster than it is being built up.

Anabolex (Androstanolone) restores the physiological balance. Many clinical trials have shown that, following the administration of *Anabolex*, there is an immediate return of the body's capacity to build up protein. The patient feels better, eats better and gains weight.

Anabolex can be safely given to patients of all ages and both sexes; in therapeutic doses, its virilizing properties are almost negligible. The only known contra-indication is prostatic carcinoma.

PRESENTATION:

In vials of 25 and 100 tablets, each tablet containing 25 mg. Androstanolone.
N.H.S. prices are 20/- and 70/-.

INDICATIONS:

Convalescent patients. Premature infants. Asthenia. Malnutrition. Wasting diseases. Preparation for and recovery from planned surgery.

Sunshine and Warmth... for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions.

Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

Philips Ultra-violet **ULTRAPHIL** (Made in Holland)

Philips Sunlamp gives the blessing of "Mountain sunshine"—a boon in convalescence and, as many doctors know, is useful for treating skin troubles, such as psoriasis. Price: £5.17s.6d. (including goggles).

Philips Infra-red **INFRAPHIL** (Made in Holland)

Philips Infraphil was installed in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain. Infraphil Infra-red lamp costs only £3.3s.0d. (as illustrated). De-luxe model "A" Price: £4.4s.0d.

EMERGENCIES IN GENERAL PRACTICE

from the British Medical Journal
470 Pages (cloth bound), with full index

This book deals with medical emergencies in a wide sense; acute clinical emergencies requiring prompt and skilful treatment; conditions such as faints and fits and giddy turns, the careful elucidation of which may mean the difference to a patient between a life of activity and one of restriction; acute psychiatric states; accidents of treatment, such as dangerous reactions to drugs or collapse during anaesthesia; and emergency calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which appeared originally in the *British Medical Journal*.

The author of each is an acknowledged authority. This collection, now revised by the authors, will be of value not only to general practitioners but also to senior students, house-physicians, house-surgeons, and to those supervising their work in hospitals.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

MEDICAL OFFICER

on the staff of the Western Regional Hospital Board with whole-time duties at the Board's Headquarters in the first instance. Salary (at age 33 and over) on the scale £1,545 4s. by £54 12s. to £1,763 12s. by £71 to £1,834 12s. Applications (16 copies), stating date of birth, qualifications, experience, present appointment, and the names of three referees, to reach the Secretary, Western Regional Hospital Board, 64, West Regent Street, Glasgow, C.2, not later than 30 days after the publication of this advertisement. (9804)

COMMERCIAL APPOINTMENTS

LEADING BRITISH PHARMACEUTICAL COMPANY operating internationally wish to appoint a Doctor, preferably under the age of 35, to their Marketing Department. The person we are looking for may well be of Registrar status and may also have had some experience in general practice. His duties will include the organization and control of post-marketing clinical trials, lecturing to medical audiences and visits to overseas territories, and a pleasing and commanding personality is therefore an essential qualification. For the successful candidate, able to marry medical knowledge to sound commercial sense, a rewarding career is assured. Letters of application, which will be treated in strict confidence, should give details of background and career to date, and it would be helpful if the applicant could give reasons why he feels he would be particularly suited to this type of work. The commencing salary will depend very much on the experience, qualifications and age of the particular applicant, and a wide range is therefore contemplated. It will not, however, be less than £1,500 per annum. Contributory pension schemes are in operation. Reply to Box 2726, B.M.J.

GOVERNMENTAL**CIVIL SERVICE COMMISSION****Ministry of Health:****SENIOR MEDICAL OFFICER**

Post for registered medical practitioner (man or woman) with recent experience as Medical Officer of Health or Deputy M.O.H., or comparable administrative experience, and degree or Diploma in Public Health. Duties concerned with medical aspects of work of Hospital and Local Health Authority Services under National Health Service, and liaison with officers of Regional Hospital Boards, Medical Officers of Health of Local Authorities, etc.

Department of Health for Scotland:**MEDICAL OFFICER**

Post in Edinburgh for registered medical practitioner (man or woman) with wide experience in maternal and child health.

Home Office:**INSPECTOR UNDER CRUELTY TO ANIMALS ACT, 1876**

Post for registered medical practitioner (man or woman) abreast of current trends in medical and scientific thought. Duties include inspection of premises registered for experiments, study of papers describing results of experiments, and advising research workers and others on modifications likely to be required in the conduct of experiments.

Ministry of Labour and National Service:**MEDICAL INSPECTOR OF FACTORIES**

Post for registered medical practitioner (man or woman) with sound knowledge of medicine acquired after considerable postgraduate experience. Some up-to-date knowledge of physics or chemistry in relation to applied medicine an advantage. Duties include investigation of industrial conditions affecting health and of instances of industrial disease and injury. Field investigations in factories in regard to health hazards may have to be undertaken.

Welsh Board of Health:**MEDICAL OFFICER**

Post in Cardiff for registered medical practitioner (man or woman) with Public Health Service or comparable experience. Knowledge of Welsh desirable. D.P.H. an advantage. Duties concerned with Local Health Authorities' Services, general Public Health Services, liaison with Public Health Laboratory Services, Food and Drugs Acts, vital statistics, port health, general epidemiology, and radioactivity.

Candidates for all the above posts must be at least 28 on October 1, 1959. National salaries: Senior Medical Officer £2,950; Medical Officers, starting salary £1,470 at 28 to £2,300 at 40 or over (exceptionally, higher in appropriate cases), scale maximum £2,600. Promotion prospects, five-day week in general. Interview in London and (for Scottish post) Edinburgh. Write Civil Service Commission, Burlington Gardens, London, W.1, for application form, quoting 537/59. Closing date October 22, 1959.

TREASURY MEDICAL SERVICE

Applications are invited from medical practitioners practising in the districts detailed below for appointment, in a part-time and mainly advisory capacity, as

LOCAL TREASURY MEDICAL OFFICER

for each of the places or groups of places shown. The town shown in brackets after the place-names indicates the Head Post Office Area in which the place, or group of places, is situated. Successful applicants will be required to examine and report on the condition of certain Government Officers, teachers, candidates for appointment, etc., who may be referred to them from time to time; and to attend when summoned to an emergency case of accident or sudden illness occurring in a Government office in the neighbourhood. Fees for this work, and mileage allowance where necessary, will be paid on a scale agreed with the British Medical Association. Intending applicants should write, within 14 days, to Treasury Medical Adviser, Treasury Chambers, Whitehall, S.W.1, for a form on which application may be made. Applicants should be not more than 60 years of age. The places for which applications are invited as follows:

England and Wales

Barnsley (Barnsley)
Handsworth and Hockley (Birmingham)
Wolverton (Bletchley)
Wingham, Adisham and Aylesham (Canterbury)
Barnetby (Grimsby)
Cowfold (Horsham)
Hyde (Cheshire) (Hyde-Cheshire)
Stanningley and Farsley (Leeds)
Newhaven (Lewes)
Aldford, Lincs (Louth)
Goldthorpe (Rotherham)
Gosberton (Spalding)
Edenbridge (Tonbridge)
Chigwell (Woodford Green)
Llangollen (Wrexham)

Northern Ireland

Glenarm (Ballymena)

Scotland

Knockando, Rothes, etc. (Elgin)
Glasgow, W.1 (Glasgow)
Moffat (Lockerbie)

SERVICES**THE MEDICAL SERVICES OF THE ROYAL NAVY****VACANCIES FOR MEDICAL OFFICERS**

Candidates are invited for Short Service Commissions of three years, on termination of which a gratuity of £600 (tax free) is payable. Ample opportunity is granted for transfer to permanent commissions on completion of one year's total service. Officers so transferred are paid instead a grant of £1,500 (taxable). All entrants are required to be British subjects, whose parents are British subjects, medically qualified, physically fit, and to pass an interview. Full particulars from the Admiralty Medical Department, Queen Anne's Mansions, St. James's Park, London, S.W.1.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the B.M.A. statement of policy on the remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958), which is available on request from the Secretary.

ASSISTANT AREA MEDICAL OFFICER

required for National Coal Board, Durham Division, No. 1 Area, with Headquarters at Whitburn, near Sunderland. The salary range will be £1,400-£1,700 for men with a reasonable amount of postgraduate experience. The successful candidate should preferably have had at least five years' postgraduate experience. Duties include all aspects of industrial medicine from pre-employment medical examinations to rehabilitation and supervision of medical centres and first-aid rooms. Frequent visits underground will be necessary. Apply within seven days, quoting SG/348/9(23), and giving details of age, education, qualifications and experience, to N.C.B., 7, Side, Newcastle upon Tyne, 1. (9978)

NAVY, ARMY AND AIR FORCE INSTITUTES

Applications are invited from general practitioners in the under-noted towns for appointment in a part-time capacity as

MEDICAL OFFICERS

to this Corporation. Successful applicants would be required to examine and report on the condition of the employees of the Corporation who may be referred to them from time to time. Fees for this work will be paid on a scale agreed with the British Medical Association. Applications, giving details of qualifications and experience, should be sent to the Chief Medical Officer, Navy, Army and Air Force Institutes, Kennington Lane, London, S.E.11, not later than October 13, 1959. The towns for which applications are invited are: EDINBURGH ELGIN INVERNESS.

FACTORY DOCTORS**FACTORIES ACTS, 1937 and 1948**

The following appointment as Appointed Factory Doctor is vacant: Woburn Sands, in the County of Bedford. Applications, which should be received not later than October 17, 1959, should be sent to H.M. Chief Inspector of Factories, 19, St. James's Square, London, S.W.1. (9879)

REPUBLIC OF IRELAND**SAINT LUKE'S HOSPITAL****RESIDENT SURGICAL OFFICERS**

- Senior R.S.O. required. Salary scale £500 per annum, plus board and residence. Two years' experience as House Physician or Surgeon essential.
- Junior R.S.O. required. Salary scale £312 per annum, plus board and residence. One year's experience as House Physician or Surgeon essential.

Term one year in each case. Applications, in writing, giving details of qualifications and experience, to the Registrar at Highfield Road, Rathgar, Dublin. (9969)

Oversea (Vacant)—contd.**ALBANY MEDICAL COLLEGE OF UNION UNIVERSITY, Albany, New York**

Applications are invited from qualified medical practitioners for

INTERNSHIPS AND RESIDENCIES IN PATHOLOGY

in a university department with hospital training fully approved by the American Board of Pathology in anatomical and clinical pathology; training in experimental pathology included for those who desire. The basic stipend in first year is \$2,400, second year \$3,000, third year \$3,600, fourth year \$4,200. In addition, a limited number of special fellowships are available (at both internship and residency level) for training in both academic and practical pathology with first year stipends of \$4,200 and annual increases. Write to Wilbur A. Thomas, M.D., Professor and Head of Department of Pathology, Albany Medical College, Albany 8, New York, for further particulars. (8050)

AUSTRALIAN ANTARCTIC EXPEDITIONS**VACANCIES—MEDICAL OFFICERS**

Applications are invited for vacancies in the 1960 Expeditions to Macquarie Island and Davis.

PERIOD OF EMPLOYMENT

Two months' preparatory work in Melbourne, followed by approximately twelve months at the Station. Tentative sailing dates: Macquarie Island—early December, 1959; Davis—late December, 1959. Whilst absent from Australia, kitting and maintenance are provided free by the Commonwealth, and there is an allowance of £850 per annum for married men, and £750 per annum for single men while in Antarctica. Recreation leave accrues at rate of five weeks per annum. Subject to the provisions of the Income Tax Assessment Act, Zone Allowance deduction of £270 may be allowable. Salaries commence within the appropriate range according to qualifications and experience. Employment will be in a temporary capacity under the Public Service Act, 1922-1958. The Expeditions will return to Australia from Macquarie Island in December, 1960, and from Davis in March, 1961.

Duties: To care for the health of the party at the station and to conduct certain research in biology, physiology, and psychology.

Qualifications: Applicants must be registered medical practitioners, preferably with surgical experience. An appendectomy prior to sailing is essential.

Salary per annum: £A.1,935 to £A.2,595.

Applicants must be in robust health and have experience in out-door life, such as ski-ing, mountaineering, bushwalking, camping, etc. Applications, which must be accompanied by a recent photograph, and the names of at least two referees, should reach:

The Administrative Officer (Staff).

Office of the High Commissioner for Australia, Australia House, Strand, London, W.C.2, by October 14, 1959. (9353)

CANADA. DEPARTMENT OF PSYCHIATRY, QUEEN'S UNIVERSITY, Kingston, Ontario, at Kingston General Hospital

A graduate training programme covering the requirements for Certification of Fellowship of the Royal College of Physicians and Surgeons of Canada is now in operation. Applications are invited from those who have completed one year's house job equivalent to a Canadian rotating internship. Appointments as Senior Interns in the Department of Psychiatry of the Kingston General Hospital are paid \$125 a month, plus maintenance. Graduates who have already completed a second year, namely the equivalent of a Senior Internship, may be appointed as Assistant Residents with an honorarium of \$175 a month, plus maintenance. The department is in process of expansion, providing ample facilities for extensive clinical experience and research. Mental health bursaries are available, and further details will be sent on request to R. B. Sloane, M.D. (9499)

SEKONDI-TAKORADI MUNICIPAL COUNCIL**APPOINTMENT OF MEDICAL OFFICER OF HEALTH**

Applications are invited from suitably qualified persons for the post of Medical Officer of Health, Sekondi-Takoradi Municipal Council. Qualifications: Applicants must have a registrable qualification and a Diploma in Tropical Medicine and Hygiene or its equivalent. Experience in public health work and clinical medicine, preferably in the tropics, will be an advantage. Duties: The Medical Officer of Health will be responsible for the public health aspect of the Municipal area of the Sekondi-Takoradi Municipal Council. Age: Applicants should not be more than 45 years of age on the closing date of the advertisement. This is applicable only in respect of pensionable appointment. Salary: The salary attached to the post, which is pensionable, is £G1,120, £G1,340, £G1,440, £G1,540, £G1,650 per annum. Contract terms for not less than two tours of 18 months' duration each, and up to a maximum of five years, may be offered in the scale: Overseas: £G1,800, £G2,100, £G2,230, £G2,360, £G2,500. Ghanaian: £G1,250, £G1,320, £G1,390, £G1,460, £G1,560, £G1,660, £G1,790, £G1,920, £G2,060, with gratuity calculated at the appropriate proportionate rate for each month's completed service. Conditions of service will generally be the same as in the Ghana Civil Service. Point of entry in the salary scale in both the pensionable appointment and the contract/gratuity terms will be according to experience and qualifications. Applications, stating age, qualifications and experience, together with the names of three referees, should be sent to the Town Clerk, Sekondi-Takoradi Municipal Council, P.O. Box 74, Sekondi, Ghana, not later than October 28, 1959. (9984)

THE NIGERIAN RAILWAY CORPORATION

Applications invited for the following post:

MEDICAL OFFICER (Grade II)

Duties: The Medical Officer will be required to work at a Railway District Hospital and/or Dispensary and to be responsible to the District Medical Officer for the medical and surgical care of the staff of the Corporation and their families, with such administrative and public health duties as pertain to effective railway working.

Qualifications: Candidates must be legally qualified practitioners entitled to practise in Great Britain and possess good clinical experience. Additional postgraduate medical qualifications and medical administrative experience, preferably in the tropics, will be considered an advantage but not essential.

Salary in scale £1,250 by £50 per annum to £1,900 (inclusive of overseas pay). Appointments may be on pensionable terms or on contract terms, with a gratuity payable on completion of contract at the rate of £20 16s. 8d. to £31 13s. 4d. for each completed month of service.

Tours: Fifteen months in Nigeria followed by 15 weeks' leave on full pay.

Quarters: Partly furnished quarters are provided at low rental.

Allowances: There are attractive family, travelling, transport and other allowances.

Send postcard before October 20, 1959, mentioning the post and this paper, for further particulars and application form, to:

The London Representative,
Nigerian Railway Corporation,
Nigeria House, 9, Northumberland Avenue,
London, W.C.2.

Up-to-date courses for the above and for the Primary F.R.C.S., M.R.C.P.Edin., F.R.C.S.Edin., D.P.H., F.F.A., D.P.M., D.O., D.L.O., D.I.H., D.T.M.&H., D.M.R.D. and D.M.R.T. (Part 2). Assistance with M.D. Thesis. Prospectus, list of tutors, etc., on application to G. E. Oates, M.D., M.R.C.P.(Lond.), University Examination Postal Institution, 17, Red Lion Square, London, W.C.1. Phone HOLborn 6313.

POSTGRADUATE STUDY.—Diploma in Anaesthetics; Diploma in Psychological Medicine; Diploma in Ophthalmology; Diploma in Radiology; Diploma in Laryngology; Diploma in Child Health; F.R.C.S.Ed., and all Surgical Examinations. M.R.C.P.Lond., and all Medical Examinations. M.D. thesis of all Universities. Courses for all qualifying examinations. Complete Guide to Medical Examinations sent free on application. Applicants should state in which qualification they are interested. Address Secretary, Medical Correspondence College, 19, Welbeck St., London, W.1.

SOCIETY OF APOTHECARIES OF LONDON.—Medicine and Surgery: October 12, November 9, December 7. Midwifery and Pathology: October 13, November 10, December 8. Mastery of Midwifery: May and November. Diploma of Industrial Health: July and December. For regulations, apply Registrar, Apothecaries' Hall, Black Friars' Lane, London, E.C.4.

SOCIETY OF APOTHECARIES OF LONDON
(M.M.S.A.)

The Mastery of Midwifery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Child Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent; the examination, written, oral and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maternal and Infant Mortality. Examinations are held twice yearly, in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of Apothecaries, Black Friars' Lane, E.C.4.

THE LONDON HOSPITAL MEDICAL COLLEGE

COURSE IN ADVANCED MEDICINE

A postgraduate course in Medicine will be held at the London Hospital, commencing on Monday, January 11, and finishing Friday, March 18, 1960. The Anatomy Lesson by Dr. Sebastian Egbertz, 1619.

DURABOLIN (19-NORANDROSTENOLONE PHENYL PROPIONATE)

*the most potent, long-acting anabolic preparation
Non-virilising in the recommended dosage*

Because it ensures a positive nitrogen balance when the rebuilding of new tissues is necessary (Brit. med. J. 2, 785-786, Sept. 27th 1958) DURABOLIN is being increasingly recommended as the anabolic agent of choice. Additionally DURABOLIN induces re-deposition of calcium in depleted bone and also relieves associated pain.

DURABOLIN has no progestational effects or other contra-indications.

Form and Administration 25 mg. 19-norandrostenedione phenyl propionate in 1 c.c. oily solution; for intramuscular injection.

Dosage 25 to 50 mg. weekly.

Presentation 3 x 1 c.c. ampoules.

Indications

Nitrogen loss
occurring post-operatively,
and in association
with corticoid therapy
Metastatic carcinoma
Osteoporosis
Paget's disease
Terminal stages of
all malignant disease
Chronic infectious diseases
Anorexia nervosa
Uraemia.

MILD ENDOGENOUS DEPRESSION

*** "the first step in making the diagnosis is to realise the possibility"**

**The mild depression
has to be sought for"**

'DEANER' is of particular interest to the General Practitioner because patients suffering from mild endogenous depression do not usually reach the Psychiatrist.

'DEANER' can alleviate this condition and elevate the mood to normality.

'DEANER' does not affect the appetite nor does it adversely affect the heart rate or the blood pressure.

Pharmacological evidence suggests that 'Deaner' is metabolised primarily to acetylcholine in the brain. Clinical effects are thought to be due to parasympathetic stimulation.

Maximum symptomatic improvement is usually apparent within a few days, and the optimum effect is maintained for several weeks.

* Brit. med. J. (1957) 1:4

COMPOSITION		
Para-acetamidobenzoic acid salt of 2-dimethylaminoethanol.
