

**BIG INSURANCE SAVING!**

# It's a new experience in motoring!

The Triumph Herald, with its super-safety features, introduces a new era in car insurance with a unique insurance plan for Triumph Herald owners. This plan can not only save you half-a-crown on every pound you pay for Triumph Herald insurance, but also gives you a No-Claim bonus of up to 50 per cent. Furthermore, repairs can proceed immediately when the work is carried out by a Triumph distributor or dealer. Here is practical proof of the safety built into the Triumph Herald... a new experience in safe, economical motoring for you.

# ORISULF<sup>Reg. T.M.</sup>

NEW, for trial in long-term prophylaxis in

## CHRONIC BRONCHITIS

Orisulf has been developed for preventing the upper respiratory tract infections which precede relapses in patients with chronic bronchitis. It has a prompt, potent action and is exceptionally well tolerated.

Clinical trials in this country\* have shown that Orisulf is safe. It has been given to children daily for over 2½ years without causing side effects.

### PROPHYLACTIC DOSE :

One or two tablets daily.  
Costs as little as 2d. a day at basic N.H.S. prices.

## ORISULF IN ACUTE INFECTIONS

Available as 0.5 G. tablets in 25's, 100's and 500's and 10% suspension in 50 c.c.m bottles.

*ORISULF is 1-phenyl-5-sulphanilamidopyrazole.*

Basic N.H.S. Cost of a 5-day course of treatment is approximately 2s. 4d.

\* Unpublished Report on work at the Walker Gate Hospital, Newcastle.

including  
bronchitis  
tonsillitis  
pneumonia  
sinusitis

urinary tract infections  
otitis media  
intestinal infections  
febrile illnesses

### Extremely well tolerated

"One of the authors himself took 25g. .... daily for five days and experienced no ill effects—a bold demonstration of lack of toxicity."

*Brit. med. J.* 1959, 2, 483.

### Convenient 12-hourly dosage

1 G. twice daily for 2 days then 0.5 G. twice daily for 3 days.

# Senokot

STANDARDIZED SENNA

**"The safest and  
most physiological  
laxative of today"**

*From an added foreword to "The Treatment of Constipation", Pharm. J., 1958, 181, 337.*

WESTMINSTER LABORATORIES LTD

**SENOKOT IN OBSTETRICS**

"For three years . . . I have found it unnecessary to prescribe any other laxative than standardized senna ('senokot') . . . The pregnant woman has a choice . . . of chocolate granules or tablets. And she can go on taking it nightly without ill effect".

*Extract of letter: British Medical Journal, 1957, 2, 1438*

**SENOKOT FOR THE NURSING MOTHER**

"A laxative must be entirely safe for both mother and baby and should not adversely affect nutrition or lactation performance or be excreted in breast milk. Standardized senna (Senokot) meets these requirements".

*Pharm. J. 1958, 181, 337*

# Senokot

GRANULES AND TABLETS

**The most  
widely prescribed  
stimulant laxative  
under the N.H.S.**

27 HARCOT ROAD, LONDON, N.W.1.

**SENOKOT IN PAEDIATRICS**

"For some years we have used a standardized preparation of senna (Senokot) in the treatment of children with stubborn constipation. The usual dose is one teaspoonful nightly and this is gradually reduced and eventually discontinued".

*"Surgery in Infancy and Childhood" (1959), Livingstone, Edinburgh, p. 100*

**SENOKOT IN GERIATRICS**

"The new standardized preparations of senna (Senokot) . . . do not cause pain or even abdominal discomfort, and there is never any incontinence. The need for enemata is reduced—a great advantage when dealing with aged patients".

*"Herald in the Field" Medical World, 1955, 22, 212*

# NULACIN "has revolutionized the treatment of duodenal ulcer"

*"This new method of the administration of antacids (Nulacin) has revolutionized the treatment of duodenal ulcer... milk drip is no longer part of our therapeutic stock in trade."*

PROG. ROY. SOC. MED., December, 1958, 51, 1063

NULACIN tablets, when allowed to dissolve slowly in the mouth, provide intragastric milk-alkali drip therapy safely and effectively for both the bed-ridden and ambulant patient. They may be relied on to provide a treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity.

The safety and effectiveness of Nulacin therapy has been proven by "in vivo" clinical work carried out in many countries. References to this work include:—

## AN ATLAS OF DENTAL AND ORAL RADIOLOGY

By Sydney Blackman

Ready November, 1959

This atlas presents a collection of radiographic illustrations of oral and dental conditions, normal and pathological, seen in the routine practice of dental surgery and in the out-patient department of a dental clinic or hospital.

We believe that this book will prove of value to students and practitioners alike, that the consultant dental surgeon may find in it material for differential diagnosis, that the pathologist will be able to correlate the findings with the radiograph, the radiologist will be stimulated in his interest in the field of dentistry, and that the research worker may use the compilation as a basis for further investigations.

384 pages. 816 illustrations. 84s.

## New Butterworth Books

### MODERN TRENDS IN PATHOLOGY

Edited by DOUGLAS H. COLLINS, O.B.E., M.D.(L'pool), F.R.C.P.(Lond.).  
Pp. x+334+Index. 135 illustrations. 70s. net, by post 1s. 9d. extra.

It may be truly said that no other book of this sort has been written by so many contributors of distinction in the field of pathology. It is designed to stimulate interest for the pathologist of every category, not only in his particular topic but in other branches where new progress is being made and offers a clear up-to-date account of modern pathological progress to serve both as a guide and as a source of reference for future studies.

### MODERN TRENDS IN SURGICAL MATERIALS

Edited by LEON GILLIS, M.B.E., M.Ch.(Orth.), F.R.C.S.(Eng.), F.R.C.S.(Edin.), D.L.O.  
Pp. x+270+Index. 135 illustrations. 72s. 6d. net, by post 1s. 9d. extra.

"To-day a bewildering variety of substances and ligature materials are introduced into surgical wounds and it is imperative for the surgeon to know something of their physical and chemical properties and the pathological responses which they elicit. This book sets out to supply such information to the busy practising surgeon. There is something in this book for every surgeon and it would appear to be of particular value to orthopaedic surgeons."—*Proceedings of Royal Society of Medicine.*

### A SYSTEM OF ORTHOPAEDICS AND FRACTURES

By A. GRAHAM APLEY, M.B., B.S., F.R.C.S.

Pp. viii+357+Index. Standard Edition 47s. 6d. net. Alternative Edition, interleaved with blank pages, 67s. 6d. net, by post 1s. 9d. extra.

Based on a series of lectures for the final F.R.C.S. examination, this book gives clearly and concisely the principles of diagnosis and treatment.

"From the diagnostic standpoint this book is excellent . . . it should be read by all those working for the final F.R.C.S. examination. It will also appeal to the doctor who wishes to grasp the essentials of an unfamiliar subject quickly and to the orthopaedic surgeon wishing to refresh his memory and for lecture purposes."—*The Practitioner.*

# A new advance in the

# NARDIL

BRAND OF PHENELZINE

TRADE MARK

## a safe and effective monoamine

- is a new kind of antidepressant which acts selectively on the brain
- modifies the basis of depression, while sedatives, tranquillizers and CNS stimulants merely mask symptoms
- does not interfere with appetite or sleep
- has a simple and convenient dosage schedule which helps patient co-operation
- acts rapidly, improvement is seen within the first week and often in the first few days
- abolishes symptoms in from 2-5 weeks and recovery is maintained for long periods after treatment has ceased
- is safe — no toxic effects on blood and liver have been reported
- early treatment may save many patients from the need of hospital care

# treatment of depression

oxidase inhibitor which acts selectively on the brain

Nardil is a fundamentally new means of treating depression. Nardil produces no toxic effects on blood or liver and is outstandingly safe.

*Nardil is not significantly taken up by the liver.*

*Nardil passes the blood-brain barrier rapidly. Nardil has been exhaustively assessed in many countries since 1957.*

**Dosage** is simple — one tablet three times a day. At this level side effects are practically never encountered.

Nardil is available for prescription on E.C.10 in bottles of 100 and 500 sugar-coated tablets each containing 15 mg. phenelzine.

## Deep skin penetration in Arthritis and Rheumatism

**NICOTINIC, SALICYLIC AND  
p-AMINO BENZOIC ACIDS** in Ester form.

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.\*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

\*Therapeutische Umschau 1952, 3, 143

Tetrahydrofurfuryl salicylate .....	14%
Ethyl nicotinate .....	2%
n-Hexyl nicotinate .....	2%

## *“But that’s just the point, Mr. Baxter...”*

... it’s quite important to remember the difference between the two. Globin insulin contains a foreign protein, globin, to modify the action of the insulin, whereas I.Z.S. contains no protein or peptide, other than the insulin itself. Let me stress once again, gentlemen, that the prolonged effect of I.Z.S. depends entirely on the appropriate adjustment of the particle size of the zinc insulin compound. It is because the effect of I.Z.S. is independent of any modifying protein, that allergic reactions following its use are practically unknown. That is precisely why I.Z.S. is so suitable as the single daily injection of insulin in a high percentage of diabetic patients. Any other questions?”

## ADHESIVE BANDAGING WITHOUT SKIN IRRITATION

PoroPlast considerably reduces the risk of skin irritation which often associates with the use of ordinary elastic adhesive bandages. It contains no rubber and none of the irritating natural resins or solvents usually embodied in adhesive plaster.

Consequently PoroPlast can remain in situ for long periods without causing irritation, and it has been well tolerated even on very sensitive skins.

PoroPlast is porous and has the same characteristics of elasticity, stretch and compression as ordinary elastic adhesive bandages. Its price is the same. It can be prescribed on N.H.S. In rolls 3" and 2½" wide (5-6 yards stretched). Sample roll of PoroPlast on request.

# nasal congestion orally

## with 'Triominic'

**WANDER**

*"timed-release tablets"*

### The *NEW* concept for relief of the Common Cold

In the common cold and postnasal drip, one "timed-release" 'TRIOMINIC' tablet brings welcome relief of symptoms in minutes. Running noses stop, clogged noses open—and stay open for 6 to 8 hours. The patient can breathe again. 'Triominic' is not likely to cause secondary congestion, and it eliminates local overtreatment and consequent nasal pathology, such as commonly follow the use of topical decongestants in the form of sprays and nasal drops.\*

\*Illinois med. J., 1957, 112, 259.

Each "timed-release" 'TRIOMINIC' Tablet contains:

Phenylpropanolamine-HCl ..... 50 mg.  
(norephedrine-HCl)  
Mepyramine maleate B.P. .... 25 mg.  
Pheniramine maleate ..... 25 mg.

*'Triominic' Wander is Schedule 4*

**Dosage:** 1 tablet in the morning, afternoon and in the evening if needed. An average prescription is 12 tablets.

**Packs:** Supplied for dispensing in bottles of 50 and 250.

**Price:** N.H.S. Basic Price for 12 tablets (4 days' treatment) is 2/1d. plus P.T.

**Also available:** 'Triominic' Syrup, for children and those adults who prefer a liquid medication, in bottles of 2 fl. oz. and 20 fl. oz. (dispensing). N.H.S. Basic Price for 2 fl. oz. is 2/6d. plus P.T.

Each "timed-release" tablet keeps nasal passages clear for 6 to 8 hours—provides "around-the-clock" freedom from congestion on just 3 tablets daily.

**FIRST**

the outer layer dissolves within minutes to produce 3 to 4 hours' relief

**THEN**

the inner core disintegrates to give 3 to 4 more hours' relief

**THUS**

3 tablets daily  
"unblock around the clock"

running noses ...   and open congested noses orally with 'Triominic'

## To restore full vigour

Whatever the illness, whether infection, metabolic disorder or a condition requiring surgical intervention, the patient needs full nutritional support for the restoration of health. And this implies more than a good mixed diet. Not only must the appetite be stimulated but the tissues must respond to the extra demands for full physiological activity, and this means supplying them with more than the usual intake of vitamins, especially of the B complex and ascorbic acid.

For these purposes the three preparations **BEFORTISS**, **BECOVITE** and **OROVITE** are designed, the elixirs being pleasantly flavoured and acceptable to patients of all ages.

**Standard Reference Cards.** Factual information on all our products is available. Produced in accordance with A.B.P.I. Specifications, cards can be obtained from Vitamins Ltd.

### BEFORTISS

# You have good reason to prescribe Carnation Milk

*"The Feeding of Infants"—a book specially prepared for doctors—together with reprints of clinical investigations and Carnation feeding charts are available from: The Medical Dept., General Milk Products Ltd., Bush House, Aldwych, London, W.C.2.*

*CARNATION solves mother's problems in feed preparation—as well as meeting your exacting requirements. Clinical studies have proved that babies thrive on Carnation.*

*You can prescribe Carnation with complete confidence for the following reasons:—*

**DIGESTIBILITY** Carnation Milk ensures maximum digestibility because of soft granular curds and homogenized butterfat.

**STERILITY** Carnation Milk is sterilized *after* the tins are sealed. No matter when or where Carnation is bought, its sterility is assured.

**EASE OF PREPARATION** Carnation Milk saves time in preparation of feeds because it blends *instantly* with boiled water.

**FLEXIBILITY** Carnation Milk feeds are easily adjusted to individual requirements.

**ACCURACY** Carnation Milk is a liquid and provides for accurate measurement of every feed.

**VITAMIN D INCREASE** Carnation Milk is adequately fortified to a safe level with Vitamin D.

**UNIFORMITY** Carnation Milk is uniform because every tin is processed to precise standards of butterfat and total solids.

*These advantages uphold the highest standards of Infant Feeding when you prescribe Carnation.*

*For the best start in life .... Carnation*

does  
'broad spectrum'  
mean  
comprehensive spectrum?

Not any more. As bacterial resistance to broad-spectrum antibiotics increases, so more and more bacterial strains within the spectrum escape control. In other words, serious blind spots are becoming increasingly evident in the coverage of broad-spectrum antibiotics. This problem is now resolved by ALBAMYCIN T, which combines the broad antibacterial coverage of tetracycline with the complementary bactericidal action of novobiocin. It has been found<sup>1</sup> that **in combination**, tetracycline and

novobiocin are effective against many strains of organisms resistant to either antibiotic given singly. Not only are already-resistant organisms eliminated; the actual development of resistant strains is intercepted. Thus, with ALBAMYCIN T, the coverage is markedly more comprehensive... the control more rapid and decisive.

*Each 5 cc. teaspoonful of the suspension contains 62.5 mg. novobiocin and 62.5 mg. tetracycline. Bottles of 60 cc.*

**a NEW ointment for the treatment  
of all bacterial skin infections**

**A NEW ANTIBIOTIC**

ECOMYTRIN Ointment contains amphomycin, 0.5%, a potent new antibiotic derived from *Streptomyces canus* which has substantially the same antibacterial spectrum as penicillin and bacitracin. Neomycin, 0.33%, is also included and these two antibiotics are effective against virtually all pathogenic bacteria. Neither antibiotic is used systemically.

**A NEW BASE**

ECOMYTRIN differs from other antibiotic ointments in one important respect. Because amphomycin is stable in water, it is possible to make an oil-in-water preparation with the whole of the antibiotic content in the aqueous phase. This has three advantages:

- 1 The antibiotics are brought into very intimate contact with the skin and response is rapid.
- 2 In acute infected weeping lesions, there is no interference with the weeping process (in contrast to greasy ointments).
- 3 ECOMYTRIN is cosmetically acceptable.

**rapidly effective · economical · non-greasy · pleasant to use · stable**

**INDICATIONS:** Primary infective skin disorders. Secondly infected skin disorders.

**ADMINISTRATION:** Ecomytrin should be used three or four times daily in a thin layer applied directly to the affected skin area.

**ACTIVE INGREDIENTS:** Amphomycin 0.5% Neomycin 0.33%.

**PRESENTATION:** Ecomytrin is available in tubes of 15 G.

WILLIAM R. WARNER & CO. LTD., EASTLEIGH, HAMPSHIRE.

ECO 428/4

The problem of a substitute for breast milk, where a mother is unable to feed her baby herself, is most satisfactorily solved by giving Humanised Trufood. This is not an ordinary dried milk; it is cows' milk so modified that it closely resembles the natural food that a normal infant should have from birth. As in human milk, lactose is the only carbohydrate present. The ratio of casein to soluble protein, as well as the total protein content, is remarkably close to that in human milk; and the high emulsification of the full fat content ensures perfect reconstitution. Further information can be obtained from Trufood Limited, 113 Newington Causeway, London, S.E.1.

*Formulated Baby Foods*

HUMANISED TRUFOOD • SPOONFOODS • TRUFOOD CEREAL FOOD

# PYCAMISAN B.D.

## These 5 advantages make T.B. treatment easier for both doctor and patient

- a smaller cachet, which is easier to swallow.
- a safer cachet, because it is wet-sealed, so that patients cannot tip out the contents with consequent risk of wastage or making themselves feel sick.
- twice-daily dosage, which means there is no midday dose to 'forget.'
- one day's supply in each tube, marked 'morning' and 'evening' to tell the patient when his next dose is due.
- new technique for swallowing cachets, described in a leaflet in each box (extra supplies available on request).

Because of these advantages, the patient is more likely to understand and stick to this simple regimen with PYCAMISAN B.D. PYCAMISAN B.D. is an addition to the present Pycamisan range, but its popularity may make it possible to reduce the range.

PYCAMISAN B.D. cachets each contain 1.5 G. Sodium PAS B.P. and 37.5 mg. Isoniazid B.P.

They are wrapped in polythene tubes of eight, providing a total daily dosage of 12 G. PAS and 300 mg. INAH, and are available in boxes of 240 (one month's supply) and 480 (two months' supply).

## A new approach to combating cross-infection and recurrent staphylococcal infection

**Naseptin**  
TRADE MARK

### NASAL-CARRIER CREAM

'Naseptin' Cream offers a new approach to the problem of staphylococcal nasal-carriage, both in hospitals and in general practice.

#### Staphylococcal infections in general practice

At least 85% of patients with recurrent boils and styes carry the causative staphylococcus in the anterior nares. The importance of dealing with nasal carriage in these patients is now well recognised. Treatment of the anterior nares greatly reduces the number of recurrences of infection.

#### Hospital cross-infection

Carriers of pathogenic strains in the hospitals, both patients and staff, require treatment with 'Naseptin'. This specially-formulated combination of 'Hibitane' and neomycin has been widely used, and its advantages have been clearly demonstrated.

#### Advantages

- \* Effectively suppresses the staphylococcus in the anterior nares.
- \* Easy and pleasant to use.
- \* No risk of bacterial resistance.
- \* Sensitivity reactions have not been observed.
- \* Its use in prophylaxis and treatment will materially reduce the cost to the Health Service of treating staphylococcal infections.

#### Reference

Lancet, 1957, ii, 1157

'Naseptin' contains 'Hibitane' (chlorhexidine) Hydrochloride 0.1% and Neomycin Sulphate B.P. 0.5% in a water-miscible cream base.  
Basic N.H.S. cost 2/4d. plus P.T.

## Why parents need special aspirin for their children...

Many parents find it difficult to measure sub-doses of adult aspirins when they have to administer them to children. Angiers Junior Aspirin overcomes this difficulty because it is correctly measured to the safe child's dose of  $1\frac{1}{4}$  grains of aspirin per tablet.

Not only is Angiers Junior Aspirin easy for parents to administer safely but children find it pleasant to take because it is orange-flavoured. Angiers Junior Aspirin also contains  $1\frac{1}{2}$  grains of Di-calcium Phosphate per tablet, to check any possible acid irritation of sensitive stomachs.

### ANGIERS JUNIOR ASPIRIN

## Sound reasons for this prescription . . .

Whenever you prescribe on E.C.10. in the wording shown above, you are safeguarding the well-being of your patient—and aiding the N.H.S.

### MAXIMUM SUPPORT

By prescribing Lastonet Elastic Net Stockings, you secure for your patient the maximum comfort and beneficial support—possible only when a stocking is made (as all Lastonet stockings are made) to perfect fitting, accurate individual measure.

### MINIMUM COST

Besides being superior in efficiency, Lastonet Elastic Net Stockings are low in initial cost. Because a new, light-resistant rubber is now used in their make-up, this lessens the deterioration occurring when rubber is exposed to light. These two factors make Elastic Net the

most economical form of surgical stocking for N.H.S. prescription.

### HOW TO PRESCRIBE

The words "Elastic Net Stockings" *must* be written on E.C.10. Also the quantity required, and whether thigh or knee length, when prescribing for supply under N.H.S.

## 30 years of Progress in Milk Research

safeguard the progress of Britain's bottle-fed babies.

During that time the Central Research Laboratory of the United Dairies—today the Commonwealth's largest privately-owned dairy laboratory—has pursued and augmented the Company's "clean milk" policy. Among many notable achievements has been the laboratory's contribution to the development of full cream evaporated milk, whose value in infant feeding, even with prematures and in difficult conditions such as coeliac disease and infantile eczema, is becoming ever more widely recognised by the medical and nursing professions.

Central Research Laboratories of the United Dairies Group of Companies

**WILTS**  
UNITED DAIRIES

## REGAL FULL CREAM EVAPORATED MILK FOR BABY FEEDING

### FOR DIGESTIBILITY

- Heat treatment results in a fine, soft curd; homogenisation reduces the fat globules thus exposing a greater area to the action of digestive enzymes.

### STERILITY

Having been sterilised in the sealed tin, Regal Milk will remain bacteriologically pure indefinitely.

### UNIFORMITY

Regal Milk is standardised to contain at all times of the year, not less than 31% total solids of which 9% is butter fat.

### VITAMIN CONTENT

The addition of a concentrate of Vitamin D3 ensures 500 International Units per reconstituted quart.

## How do *YOU* tackle flat foot?

... do you prescribe an external wedge on the shoes?

BUT the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's.

Surely it's more logical to have a wedge built-in between the inner and outer sole—invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made; why they are the only practical solution to this problem.

Information from Mr. W. J. Peake, James Southall & Co. Ltd.,  
Crome Road, Norwich.

## You, the doctor and the *Clarks* story

Clarks advertising is widespread—in the Press and on Television. Though it is not directed at the medical profession, you have probably seen it in the course of normal reading or viewing. Here we should like to tell you about the thinking which lies behind those advertisements.

Most doctors seem to agree that a large number of the foot ailments suffered by adults are the results of wearing badly fitting shoes in childhood. Clarks have long been concerned with this problem—in fact, we have built up our business in the sincere belief that something ought to be done about it. We have tried to make available well designed and well constructed shoes for growing children. We make these in a choice of widths and in half-sizes, and we try to see to it that they are sold through authorized stockists with fully trained fittings staffs. We feel so strongly about this that we actually train our stockists' staffs in the art of foot-fitting and in the use of the Clarks Foot-gauge. Every Clarks specialist has one of these. This specialised shoe-fitting service is now available in almost every town and city throughout the United Kingdom.

## *Clarks* shoes

## Everything under control - except the weather

### NOTEK VARIOMATIC ADJUSTMENT

An exclusive feature which enables the vertical aim to be instantly, accurately and easily directed according to weather conditions. Simply turn a screw.

Being ready for any emergency should include due preparation for adverse driving conditions. The call, whenever it comes, day or night, must be answered and the destination reached safely and swiftly, despite fog or rain. Notek Lamps are designed specifically to overcome the hazards of driving in the bad weather.

Matched in pairs they are matchless in performance . . . they provide the maximum illumination whatever the conditions. The Foglite, designed exclusively for fog, has a specially Wide Beam (46°). The Passlite has an anti-dazzle asymmetrical pencil beam, for town and passing. £4 4s. 0d. each complete with cable, switch and bracket.

# Corn Oil and Heart Disorders

## ESSENTIAL UNSATURATED FATTY ACIDS

All fats and oils, whether animal or vegetable, can be defined as "natural blends of the glycerides of fatty acids".

Fatty acids are of two types — saturated and unsaturated. Three of the latter type are of particular importance in everyday diet and are known as the *essential* unsaturated fatty acids. It is established beyond all reasonable doubt that they are vital to the well-being of man, as they have been proved to be for certain animals. Some experts, indeed, consider that our present-day intake of them is dangerously low.

## CORONARY THROMBOSIS

Of late, interest has been further stimulated by research and treatment of patients suffering from coronary thrombosis and other vascular disorders. The incidence of these disorders has been shown to be closely correlated with a high dietary "fat" intake. There is also a correlation between the incidence of vascular disease and a high level of cholesterol in the blood. It has been found, though, that this cholesterol level is effectively lowered by reducing the intake of saturated fatty acids (present in all fats) and increasing the consumption of essential unsaturated fatty acids. Many doctors treating heart patients now consider this advisable — and even imperative.

## MAZOLA CORN OIL

MAZOLA corn oil comes from maize and is rich in the most important of the essential unsaturated fatty acids — linoleic acid. Apart therefore from its own intrinsic merit as a cooking oil (it has long been popular for this purpose both in Canada and America) MAZOLA can be helpful in reducing blood cholesterol when this is unduly high.

Existing evidence supports the belief that MAZOLA loses none of its therapeutic properties after cooking. It can therefore be strongly recommended as a substitute for all kinds of fat used in frying, baking or grilling. Salad dressings made with MAZOLA are in every way as good as those made with other oils — such as olive oil or ground nut oil. Finally, MAZOLA can if desired be taken "medicinally" — that is to say neat, in prescribed quantity.

On  
her  
feet  
all  
day...

...yet never feels tired!

For the busy housewife, on her feet all day, varicose veins or even simple leg fatigue may become a major problem. Her long day's round of shopping, housework and catering for the demands of a growing family leaves her no time to 'put her feet up' and give her veins a rest.

For these patients Tru-Support stockings—combining the firm support of an elastic stocking with the light-weight elegance of nylon crepe—are an ideal aid to treatment. They provide the gentle vascular support that is required and yet retain the slender grace which means so much to fashion-conscious women. Tru-Support stockings, superbly strong yet fashionably fine, cost only 39/6 a pair.

# SINGLE-DOSE TREATMENT FOR BOTH THREADWORMS AND ROUNDWORMS

*Available  
only on  
Prescription*

1. With PRIPSEN Granules, the usual seven-day treatment for threadworms is reduced to a SINGLE DOSE.
2. The same single dose of PRIPSEN is also effective for roundworms.
3. PRIPSEN stimulates bowel peristalsis and the paralysed worms are promptly expelled.
4. The administration of a single dose can be easily controlled, thus avoiding any risk of treatment not being carried out.
5. The pleasant-tasting granules can be eaten direct from a spoon, or they may be sprinkled on food, or mixed with milk or water to make an agreeable drink.

PACKINGS: 160 gr. (10.4 grammes) — one full dose  
1 lb. (454 grammes) — 43 full doses

WESTMINSTER LABORATORIES LTD., CHALCOT ROAD, LONDON, N.W.1.

## Carefree Calendar Girl

In a very high percentage of cases Buscopan bridges what normally would be a painful monthly period. Except for the few 'difficult' cases, the patient can go about her usual business and social activities on a par with her more fortunate sisters. From the practitioner's point of view a regular prescription offers him the opportunity to dismiss the problem of spasmodic dysmenorrhoea. He can look forward to a welcome curtailing of consultations. Buscopan, unlike an analgesic, is a specific therapy and *not* symptomatic treatment. Its action is on the parasympathetic innervation of the uterus where it relieves the condition smoothly, promptly and without side-effects. Buscopan does not give rise to gastric upsets, has no effect on the higher centres and is excellently tolerated.

### PRICE REDUCTION

From November 1 the N.H.S. price of Buscopan tablets will be reduced by approximately 10% on all packs.

- \* prompt, aggressive antibiotic action
- \* a reliable defence against monilial complications

both are often needed when bacterial infection occurs

**for a direct strike at infection**

### **Mysteclin -V contains tetracycline—phosphate potentiated**

It provides a direct strike at all tetracycline-susceptible organisms (most pathogenic bacteria, certain rickettsias, certain large viruses, and *Entamoeba histolytica*).

It provides the new chemical form of the world's most widely prescribed broad spectrum antibiotic.

It provides unsurpassed initial blood levels—higher and faster than older forms of tetracycline—for the most rapid transport of the antibiotic to the site of infection.

**for protection against monilial complications**

### **Mysteclin -V contains Nystatin**

It provides the antifungal antibiotic, first tested and clinically confirmed by Squibb, with specific action against *Candida (Monilia) albicans*.

It acts to prevent the monilial overgrowth which frequently occurs whenever tetracycline or any other broad spectrum antibiotic is used.

It protects your patient against antibiotic-induced intestinal moniliasis and its complications, including vaginal and anogenital moniliasis, even potentially fatal systemic moniliasis.

## PAVACOL

COUGH SYRUP

Papaverine relaxes the bronchi by direct action. Pholcodine is a central cough suppressant. In PAVACOL these ingredients are combined with mild expectorants and demulcents. The apparent synergistic effect which this formula produces makes necessary only small doses, rendering PAVACOL suitable even for small children. PAVACOL is supplied in bottles of 4, 16 and 80 ounces.

PAVACOL diabetic syrup and pastilles are also available.

# 29 ways to guarantee healthy mixed feeding

HEINZ Baby Foods are a "team" of 29 different varieties, and you know that planned variety is the essential factor in a modern mixed diet.

HEINZ Baby Foods are all made to the Heinz standard. That means only the very best meat, fruit and vegetables—cooked by methods which retain maximum nutrients. The result is a product more hygienic, more nutritious than could be prepared in most homes.

HEINZ Baby Foods are good for babies—and mothers too. When Heinz do the cooking, mothers have more time to spend with baby, and meal times are fuss-free, happy and contented.

## To lessen the fear of mutilation . . arrange for Prosthesis before mastectomy

The psychological hazards of mastectomy are generally recognized. A woman's fear of mutilation—of its effect on her appearance—is often as great as her fear of surgery itself. That is why arranging for the correct prosthesis replacement *before* surgery helps to minimize the psychic trauma—enabling the patient to face the adjustment period with more calm and assurance.

The surgeon can prescribe Spencer Mastectomy Supports with complete confidence that they will meet both the medical and cosmetic indications. The reason: Each Spencer Breast Support and Breast Form is individually designed, cut and made for each patient.

Wherever support is indicated for breasts, back, abdomen—for women, men, children—you will find Spencer Supports demonstrably superior.

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

#### Other Grades, Whole-time

##### (a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

**ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF**

Application forms, to be returned by November 30, from County Medical Officer, Health Department, Love's Grove, Castle Street, Worcester. (T.27) (4808)

**COMMERCIAL APPOINTMENTS****C I B A****RESEARCH CLINICIAN**

With the growing output of its research laboratories, CIBA requires a well-qualified and experienced clinician to assist in the development of clinical trials in the U.K.

The work is rewarding in that at this final and vital stage in research, many positive results are obtained. It is unusually interesting because leading physicians and medical scientists depend upon such a man for the essential liaison with our chemical and pharmacological research, and it is from such research that most recent advances in drug therapy have come.

If the idea of playing this important part in clinical research attracts you, please apply with full particulars of education and experience.

**MEDICAL ADVISER**

Can you write?

To-day, conditions of practice often preclude systematic study of the medical literature. At a time of unprecedented advances in therapeutics, other means are therefore necessary to help the busy practitioner.

We need a doctor with wide experience in general practice to help us present to his colleagues the often complex data about our latest developments in the most appropriate and easily assimilable terms.

Other duties include editing a scientific journal and assisting in representative training. He will be responsible to the Sales Director, will work in close liaison with the Clinical Research Division, and will have the full backing of the exceptional knowledge and experience accumulated by CIBA from its wide and well-developed international organization.

Attractive salaries to the right men.

Contributory pension scheme.

Applications to the Secretary, CIBA Laboratories Limited, Horsham, Sussex

**GOVERNMENTAL****PERTH PRISON****MEDICAL OFFICER (Part-time)**

Work includes visits of approximately one hour daily except Sundays, emergency calls, occasional hygiene inspections and reports. M.O. must supply a deputy when he is not available. Salary presently under negotiation, but will not be less than £700 per annum (not superannuable). Application forms from the Director of Prison and Borstal Services, Government Buildings, Broomhouse Drive, Saughton, Edinburgh, 11. (4799)

**TREASURY MEDICAL SERVICE**

Applications are invited from medical practitioners, practising in the districts detailed below, for appointment, in a part-time and mainly advisory capacity, as

**LOCAL TREASURY MEDICAL OFFICER**

for each of the places or groups of places shown. The town shown in brackets after the place-names indicates the Head Post Office Area in which the place, or group of places, is situated. Successful applicants will be required to examine and report on the condition of certain Government Officers, teachers, candidates for appointment, etc., who may be referred to them from time to time; and to attend when summoned to an emergency case of accident or sudden illness occurring in a Government office in the neighbourhood. Fees for this work, and mileage allowance where necessary will be paid on a scale agreed with the British Medical Association. Intending applicants should write, within 14 days, to Treasury Medical Adviser, Treasury Chambers, Whitehall, S.W.1, for a form on which application may be made. Applicants should be not more than 60 years of age. The places for which applications are invited are as follows:

**England and Wales**

Belfort (Alnwick)  
Seaton, Devon (Axminster)  
Brackley, Northants (Banbury)

**GERIATRICIAN**

required by

**THE DEPARTMENT OF SOCIAL WELFARE AND REHABILITATION (Housing and Nursing Homes Branch), Province of Saskatchewan**

Headquarters: Regina, Saskatchewan. Salary range \$1,007 to \$1,225 per month. To develop and direct a provincial medical care and treatment programme for aged persons and persons with long-term illnesses. This will include research into the diseases and hygiene of old age, development of suitable treatment and care programme in the Provincial Geriatric Centres and provision of consultative services to other agencies in the field of geriatric care. Qualifications: Considerable experience in the practice of medicine, preferably including experience in geriatrics, graduation from a recognized medical school and eligibility for licence to practise medicine in Saskatchewan, preferably supplemented by a certificate as specialist in internal or physical medicine from the Royal College of Physicians and Surgeons of Canada or its equivalent. Application forms and further information may be obtained from the Public Service Commission, Room 328, Legislative Building, Regina, Saskatchewan, Canada. (4763)

**GOVERNMENT OF ADEN****MALE MEDICAL OFFICER**

preferably unmarried, with qualifications registrable in the United Kingdom, required for general duties in Eastern Aden Protectorate, especially to care for health of indigenous security forces, supervise rural health institutions, and understudy Assistant Health Adviser. Some experience in surgery would be an advantage, as would also some knowledge of Arabic and experience in hot climates. But readily adaptable youngish doctor would suit. Appointment on contract for two years with gratuity (taxable) of £37 10s. for each completed three months of satisfactory service. The contract may be converted later to permanent and pensionable terms of service if desired, but in that case gratuity would be forfeited. Salary £1,750 a year, and Protectorate Allowance of £226 10s. a year. Free return passages provided. Furnished quarters, with refrigerator, at low rental. Local leave permitted. Generous home leave after each tour of 18 to 24 months. Land-Rover provided for out-station work. Application forms from Director of Recruitment, Colonial Office, London, S.W.1 (quoting BCD 117/2/019). (4858)

**GOVERNMENT OF BARBADOS****BACTERIOLOGIST AND PATHOLOGIST**

required for duties as follows:  
(a) examination and reporting on bacteriological and pathological matters, including medico-legal materials submitted by Crown Law Officers, Coroners, or Commissioners of Police;  
(b) bacteriological and pathological research into medical and health problems;  
(c) advice on, and supervision of, any public health laboratories to be established by Government.

Candidates must possess qualifications registrable in United Kingdom, and special qualifications in pathology or bacteriology if possible. They should also be experienced in clinical pathology and all branches of laboratory work.

Appointment on (a) permanent and pensionable basis, or (b) on contract for three years with gratuity (taxable) of 20% of basic salary payable on satisfactory completion of service.

Officer with specialist qualifications would receive salary in the scale £1,350 to £1,550 per annum, plus allowance equal to one-half of fees paid into Public Treasury in respect of specialist services rendered within hospital. (Allowance may be increased to 75% of fees.) Present fees estimated at between £300 to £400 per annum. He would also retain full fees in respect of consultations outside the hospital.

Officer without specialist qualifications would receive salary in scale £1,400 to £1,600 per annum. Temporary cost-of-living allowance of £22 10s. without fees.

per annum, payable to all officers. Income Tax at local rates.

Basically furnished quarters provided at rental of £125 per annum.

Passages provided up to a maximum cost of £400. Permanent officers provided with leave passages for themselves and wives only. Climate healthy. Educational facilities available.

Application forms from Director of Recruitment, Colonial Office, London, S.W.1 (quoting BCD 117/28/08). (4859)

**GOVERNMENT OF THE GAMBIA****LADY HEALTH OFFICER**

with medical qualifications registrable in United Kingdom, required to co-ordinate and supervise activities of Maternity and Child Welfare Services and work of midwives and health visitors, to assist in health education, distribution of dietary supplements, examination of school children, and in training staff in preventive methods. D.P.H. and/or D.C.H. would be additional assets.

Appointment may be:

- On probation for permanent and pensionable employment with pension (non-contributory) at rate of 1/600th of final pensionable emoluments for each completed month of reckonable service;
- from National Health Service, with retention of superannuation rights, and a gratuity (taxable) of 20% of aggregate of salary; or
- on short-term contract (two or three tours each of 18-24 months) with gratuity (taxable) of 25% of emoluments.

Salary (with inducement pay) in scale £1,128 to £1,950 a year for (a) and (b); in scale £1,212 to £2,058 a year for (c). Entry point determined by age, experience and qualifications. Staff pay of £100 a year in addition. Four increments for higher qualifications.

Return passage provided. Quarters available at low rental. Local leave permissible, and generous home leave on completion of each tour. Taxes at local rates.

Application forms from Director of Recruitment, Colonial Office, London, S.W.1 (quoting BCD 117/12/08). (4806)

**HOLY CROSS HOSPITAL, Calgary, Alberta, Canada**

Applications are invited for appointments as **RESIDENT PHYSICIANS** (rotating). Applicants should be registered graduates of at least one year's standing. Salary \$200.00 per month all found. Apply to the Medical Director. (4686)

**ROTATING INTERNSHIPS**

for 12 months commencing July 1, 1960. Vigorous interne training programme. Opportunities for further appointments to more senior clinical posts and to research fellowships. Honorarium \$150 per month, plus full residential emoluments. Senior medical appointments. (4762)

## Oversea (Vacant)—contd.

LABORATORY TECHNICIAN  
Northern Rhodesia

There will be a temporary vacancy in Northern Rhodesia from about March 1, 1960, until September 30, 1960, for a Medical Laboratory Technician, A.I.M.L.T. or F.I.M.L.T.

Applicants must have had practical experience in a routine hospital laboratory, and must be conversant with bacteriological, biochemical, and haematological methods.

The basic salary will depend upon qualifications and experience, but will be not less than £99 19s. 6d. per month.

In addition to the basic salary there is a fluctuating cost-of-living allowance which, at the present time, is about £5 10s. per month.

There is also a metal bonus payable, which varies with the price of copper and which, at the present time, is at the rate of about 30% on basic salary.

Since the appointment is of a temporary nature, a single man would naturally be preferred: this does not mean that a married man would not be considered, but it would be unlikely that his wife would be able to accompany him.

The outward and return passage of the successful applicant would be paid.

Applications, giving full details of age, qualifications, experience, and marital status, should be sent to:—Nchanga Consolidated Copper Mines Limited, 40, Holborn Viaduct, London, E.C.1.

MIRIAM HOSPITAL, 164, Summit Avenue,  
Providence, Rhode Island

## INTERNSHIP

For immediate appointment to fill unexpected vacancies and for regular appointment July 1, 1960, 160-bed voluntary general hospital, U.S. Department of State's Exchange Visitor Programme P-II-1514. One year Internship, approved by American Medical Association (pre-requisite for specialty residency). Internship rotates trainee through supervised services in medicine, surgery, obstetrics, paediatrics, and various specialties. Remuneration \$150 per month, plus \$50 extra for married interns, plus full individual maintenance, two weeks' paid vacation. The Education Programme of this hospital is conducted by Alex. M. Burgess, M.D., Sc.D., Ed.D., F.A.C.P., Director of Medical Education. Write airmail to Alex. M. Burgess, M.D., Director of Medical Education, for application blank and detailed information. (4687)

## NEW ZEALAND—Health Department

Vacancy for a

## MEDICAL OFFICER

Queen Elizabeth Hospital, Rotorua. Qualifications desired: At least three years' experience in general medicine, and preference will be given to those with higher qualifications, e.g., M.R.C.P. or Dip. Phys. Medicine. Salary up to £1,190 per annum as merited, plus £200 per annum if required to live out. The hospital has 100 beds for the treatment of rheumatic diseases and a clinical research unit. Accommodation for a single person is available. Sea passages to New Zealand for the successful applicant and his family (if any) will be arranged and paid for by the department. In addition, a generous allowance will be made towards the cost of transporting personal effects. Enquiries, mentioning this publication and quoting reference number B11/11/12, should be addressed to the High Commissioner for New Zealand, 415, Strand, London, W.C.2, who will supply application forms and further details. Completed applications to be lodged in London not later than November 30, 1959. (4747)

PETERSBURG GENERAL HOSPITAL  
Petersburg, Virginia

Available July 1, 1960.

Stipend \$250 and maintenance, plus \$50 for married intern living off premises. Many benefits. For details write to George E. Bokinsky, Administrator. (4764)

PRINCESS MARGARET HOSPITAL FOR  
CHILDREN, Perth, Western Australia

## PATHOLOGY REGISTRAR

required for 200-bed acute teaching hospital (7,500 in-patients per annum). New and well-equipped laboratories with annual test output of 60,000, staffed by two Pathologists and ten Technicians. Salary range £A.1,443 to £A.2,178, with commencing rate according to previous experience. Further details on application. Applications close on January 31, 1960.—J. D. Clarkson, Manager. (4810)

## PUBLIC SERVICE OF SOUTH AUSTRALIA

CHILD PSYCHIATRIST  
(Mental Health Services of Hospitals Department  
for the State of South Australia)

Salary: Up to £A2,940.

Applications are invited from male medical practitioners for the post of Psychiatrist to the Child Guidance Clinic to be established in Adelaide—population about 600,000, with a University and Medical School.

Applicants should hold the D.P.M. and have had considerable experience in child psychiatry in particular.

The appointee will be responsible to the Director of Mental Health for the management of the Child Guidance Clinic and for some visiting to mental deficiency patients in mental hospitals.

Duty will be almost entirely on a five-day week (37½ hours) basis.

First-class steamer passages provided for appointee and family.

House on rental basis, if required.

Applications, stating age, marital status, qualifications and experience, and supported by copies of references, and a snapshot, to Agent General & Trade Commissioner, South Australia House, 50, Strand, W.C.2. (4656)

ROYAL ALEXANDRA HOSPITAL  
Edmonton, Alberta, Canada

## ANAESTHESIA RESIDENCIES

Applications invited for one- or two-year periods beginning January 1 and July 1, 1960. Approved by Royal College of Canada for two years' training towards certification in anaesthesia. This 700-bed teaching hospital has an organized staff, and the training programme is integrated with the University of Alberta. Salaries are as follows: first year resident receives \$175.00 per month, and each subsequent year it increases by \$25.00 per month to where a fourth year chief resident receives \$250.00 per month. Uniforms and laundry are supplied to all resident staff. Single persons are charged \$50.00 per month for room and board. Apply, Associate Superintendent. (4381)

## ROYAL PERTH HOSPITAL, Western Australia

## ASSISTANT HAEMATOLOGIST

Applications are invited for the full-time position of Assistant Haematologist. A postgraduate qualification in either medicine or clinical pathology is desirable. Experience in diagnostic haematology is essential. Salary £A.2,420 to £A.2,600 per annum by £A.60 increments. Travelling expenses will be granted for transport to Western Australia of appointee and dependent family, provided the appointee enters into a bond to remain at the hospital for a period of at least three years. Royal Perth Hospital has a bed capacity of 650. Details regarding general conditions in this State are obtainable from the Agent-General for Western Australia, Savoy House, 115, Strand, London, W.C.2. Enquiries regarding further details of the position should be addressed by airmail to the Medical Superintendent. In addition to relevant personal details, applications must include particulars of qualifications and experience, a recent photograph, a list of publications, the names of two referees, and should be addressed to the undersigned not later than December 1, 1959.—Joseph Griffiths, Administrator. (3566)

ST. LUKE'S HOSPITAL, 379, East Street,  
Pittsfield, Massachusetts

SEMI-DISPLAYED ADVERTISEMENTS are charged £7 per single column inch and pro rata.

MEMBERS ABROAD. Copies of vacancies advertised in the *Journal* can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to three separate headings: additional headings 1s. each. Please state type of vacancy and remit to the Advertisement Director, B.M.J.

Every effort is made to ensure the accuracy of advertisements appearing in the *Journal*. No recommendation is implied by acceptance, and the British Medical Association reserves the right to refuse or interrupt the insertion of any advertisement.

REPLIES TO BOX NUMBERS. The names and addresses of advertisers under box numbers are held by us in strict confidence and cannot be disclosed. Each Box No. should be addressed separately. Two or more replies can be enclosed in one envelope, addressed to the Advertisement Director. They will be forwarded to the advertisers in plain envelopes.

Advertisement Director, British Medical Journal, B.M.A. House, Tavistock Square, London, W.C.1.  
Telephone: Euston 4499. Telegrams: Britmedads, Westcent, London.

### HOMES

CHISWICK HOUSE, MOSS LANE, PINNER,  
Middlesex

Telephone: Pinner 234

Private Nursing Home for Nervous and Mild Mental Disorders and Alcoholism. Psychotherapy, E.C.T., modified insulin, etc. Fees from 18 guineas a week inclusive of nursing and medical attention. Forty patients of both sexes, including a small number of long-term elderly cases. Two country houses in 5 and 6 acres respectively in adjoining grounds. Twelve miles north-west of London. Easily accessible by Metropolitan train from Baker Street to Pinner. Ten minutes' walk from Pinner station. Apply to the Medical Director, Douglas Macaulay, M.D., D.P.M.

### SPRINGFIELD HOUSE, near BEDFORD

Phone: Bedford 3417

For Mental Cases (including the aged). Fees from ten guineas per week. For terms of admission, etc., apply to the Resident Physician, Cedric W. Bower. Interviews in London by appointment.

WYKE HOUSE, ISLEWORTH, MIDDLESEX  
Tel.: ISLEworth 7000

A Private Nursing Home for the individual treatment and care of all forms of Nervous and Mental illness, including addiction. The number of patients is limited to twenty-five, and all modern treatments are available. This well-known home for men and women and the aged stands in a park of 15 acres, seven miles from Marble Arch. Resident Physicians: H. Pullar-Strecker, M.D., G. W. Smith, O.B.E., M.B.

### ST. ANDREW'S HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This registered hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided. **MOULTON PARK.**—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**WANTAGE HOUSE.**—This is a reception hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department of Diathermy and high frequency treatment. It also contains laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

### CHEADLE ROYAL, CHEADLE, CHESHIRE (GATLEY 2231)

Medical Superintendent:

W. V. Wadsworth, B.S., M.B., M.R.C.P., D.P.M. This excellently appointed hospital receives all types of patients who are suffering from psychological and senile illness. The most modern psychiatric treatments are available. Special geriatric unit for mild and senile patients. *Glan-y-Don Nursing Home, Colwyn Bay, is the seaside branch of Cheadle Royal.*

### HAYDOCK LODGE

Newton-Je-Willows, Lancs

For treatment of mental and nervous diseases. Apply Medical Superintendent for terms, etc.

### NORTHUMBERLAND HOUSE

Tel.: Finchley 5283

Psychiatric Nursing Home, 235-7, Ballards Lane, N.3. Resident Med. Director: Dr. R. M. Riggall, Mem. Brit. Psycho-Analytical Society, and Assistant Psychiatrist. Stands in extensive well-wooded grounds. Central heating and running water in all rooms. Moderate inclusive fees. All modern treatments, including psychotherapy.

# For SUB-ACUTE and Chronic dermatoses **TAR + HYDROCORTISONE**

combined in

## **TARCORTIN**

### **CREAM**

have pronounced advantages over  
either medicament alone

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

\*Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

### **TARCORTIN CREAM**

is supplied in 7 grm.  
and 15 grm. tubes,  
containing 0.5% Hydrocortisone  
in a special coal-tar extract.

\* Literature available on request.

By arrangement with Reed & Carnrick, Jersey City, U.S.A. (Est. 1860)

## Dramatic results in post-menopausal low back pain

Low backache in the post-menopausal woman is, far more often than was formerly realised, due to, or associated with, decalcification arising from reduced osteoblastic activity and matrix formation caused by oestrogen deficiency. Dianabol relieves the pain by correcting decalcification. It is also effective in preventing osteoporosis and produces remarkable improvement when the condition is established.

### A TYPICAL CASE HISTORY

*I am very impressed by the result of giving the new compound Dianabol. Four weeks ago I had an old woman of seventy years of age who had so much pain from osteoporosis that she was taking the weight of her body on her arms with these resting on her thighs. I prescribed Dianabol and at the end of one month she is completely free from pain and is able to get about with a brace.*

# DIANABOL

T.M.

methandrostenolone

### NEW NON-VIRILISING ANABOLIC AGENT

DIANABOL produces the nitrogen retention and calcium deposition required for healthy bone and tissue formation.

It is indicated in cachexia of malignant disease, long-term surgery, recovery from chronic illness, corticosteroid-induced osteoporosis and under-developed children.

**DOSAGE:** Initially 15—20 mg. daily. For maintenance, 5—10 mg. daily or intermittently.

DIANABOL is available as 5 mg. tablets in 25's (Basic N.H.S. price 11s. 4d.), 100's and 500's.
