

KENT INTRODUCE THE FIRST EVER

# 100% BACTERIA-PROOF FILTER

FITTED IN A HOSPITAL VACUUM

\* **The KENT**

## WHAT IS SO DIFFERENT ABOUT THE KENT FILTER?

Its remarkable 100% effectiveness. Kent research over the past three years has been towards the development of a filter that would allow free air flow yet be capable of filtering and retaining 100% of all bacteria drawn into the machine. Even 99% effectiveness could mean that a great number of micro-organisms are re-circulated in the atmosphere, but according to reliable reports the KENT MICROSTAT is 100% bacteria-proof and EXHAUSTS STERILE AIR.

## WHO DEVELOPED IT?

The Kent Company of America. After an official enquiry into the problems of cross-infection, the U.S. Federal National Institute of Health invited the Kent Company to co-operate in the development of a suitable filter. Earlier this year the Kent Microstatic Impaction Filter was perfected, and exhaustive American tests by leading authorities in this field have conclusively proved that it gives 100% retention of any bacteria which might be attached to dust particles.

† J.A.M.A. 170: 261, 1959 (and further research data to be published).

## HAS IT BEEN TESTED IN THIS COUNTRY?

Yes. By various hospital bacteriologists who have reported on their findings to Hospital Management Committees. It has been offered for test to the Ministry of Health, and the Microstat machine is at present undergoing a mechanical test in the Ministry of Works. Kent will loan, entirely without obligation, a MICROSTAT to any hospital wishing to carry out their own tests.

## WHAT IS THE LIFE OF THE FILTER?

The filter is a bacteria trap of an essential physical nature and as such does not quickly lose its effectiveness. Continuous tests have so far been unable to detect any reduction in efficiency whatsoever.

### \* "Hospital Sepsis—A Communicable Disease"

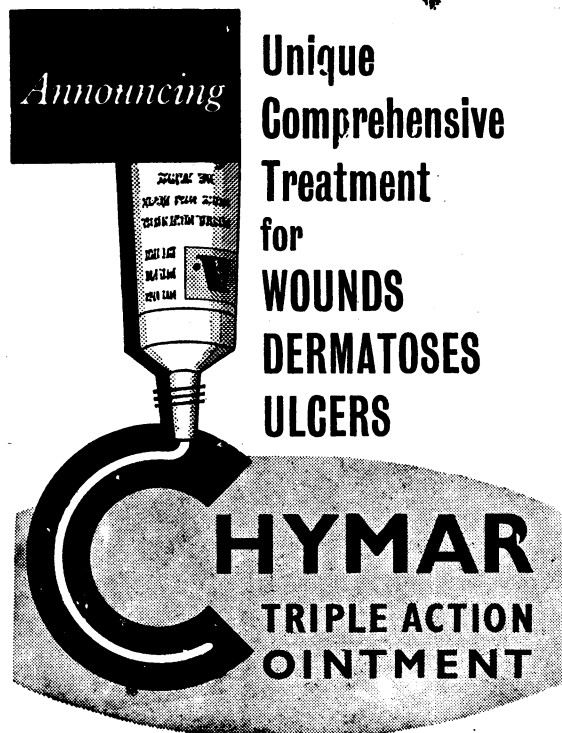

The new and most informative American film dealing with the problem of cross-infection was made in the U.S.A. under the auspices of three leading medical associations and was sponsored by Johnson & Johnson Ltd. The film is exciting much comment and creating intense interest.

The Microstat Vacuum Machine, now being manufactured in Great Britain by the wholly British Kent Company, plays a leading part in the film and the latest Kent floor cleaning techniques are prominently featured.

## \* CONTROLS INFLAMMATION

by reducing erythema, oedema and pruritus without systemic effects or local interference with the healing process.

## \*\* CLEARS INFECTION

by destroying both gram-positive and gram-negative organisms and preventing further bacterial invasion.

## \*\*\* CLEANS THE LESION

by removing necrotic tissue, crusted cell debris and exudates. Exposes wound surfaces to full effects of the anti-infective and anti-inflammatory agents.

### Formula:

Each Gramme contains:

- \* Hydrocortamate Hydrochloride 1.25 mg.
- \*\* Neomycin Palmitate 3.5 mg.
- \*\*\* Proteolytic Activity. 10,000 Armour Units in a water-miscible ointment base.

Available in tubes of 5 G. Basic N.H.S. Price 6/8d. in tubes of ½ oz. (14.2 G.). Basic N.H.S. Price 16/8d.

**FOLKESTONE  
KENT**

In our new Monograph, we have surveyed chronic bronchitis. The aetiology of the disease is discussed. The influence of personal habits and environmental factors is examined. The specific stages of bronchitis from its earliest onset in the apparently healthy youth to its culmination in the middle-aged respiratory cripple are precisely described. In conclusion, the Monograph proposes a practical approach to prevent the depredations of chronic bronchitis, alleviate personal suffering and save doctors' time.

# ORISULF Reg. T.M.

NEW, for trial in long-term prophylaxis in

## CHRONIC BRONCHITIS

Orisulf has been developed for preventing the upper respiratory tract infections which precede relapses in patients with chronic bronchitis. It has a prompt, potent action and is exceptionally well tolerated.

Clinical trials in this country\* have shown that Orisulf is safe. It has been given to children daily for over 2½ years without causing side effects.

### PROPHYLACTIC DOSE:

One or two tablets daily.  
Costs as little as 2d. a day at basic N.H.S. prices.

## ORISULF IN ACUTE INFECTIONS

Available as 0.5 G. tablets in 25's, 100's and 500's and 10% suspension in 50 c.c.m bottles.

*ORISULF is 1-phenyl-5-sulphonamidopyrazole.*

Basic N.H.S. Cost of a 5-day course of treatment is approximately 2s. 4d.

\* Unpublished Report on work at the Walker Gate Hospital, Newcastle.

including  
bronchitis  
tonsillitis  
pneumonia  
sinusitis

urinary tract infections  
otitis media  
intestinal infections  
febrile illnesses

### Extremely well tolerated

"One of the authors himself took 25g.... daily for five days and experienced no ill effects—a bold demonstration of lack of toxicity."

*Brit. med. J.* 1959, 2, 483.

### Convenient 12-hourly dosage

1 G. twice daily for 2 days then 0.5 G. twice daily for 3 days.

CIBA LABORATORIES LIMITED, HORSHAM, SUSSEX

**WILLIAM HARVEY (1578-1657).**

Born in Folkestone. By finding how much blood the heart drove out at each beat, and measuring the rate of each beat, Harvey showed that in half an hour it must pump as much blood as there is in the whole body. So, by calculation, verified by careful dissection and experiment, he discovered the circulation of the blood, a fact upon which all modern physiology and medicine are based.

# VASCULIT

## verified

But for a more recent verification—

*"Vasculit caused an increase in blood flow in the infused hand which averaged 57% . . . it may be anticipated that Vasculit will be capable of producing vasodilatation even in patients in whom therapeutic sympathectomy has been carried out".<sup>1</sup>*

**MINOR DISORDERS AND SYMPTOMS.**

The haemokinetic action of Vasculit is immediate in this group. Chilblains, cold hands and feet, night cramps, 'restless legs', acrocyanosis.

**MAJOR DISORDERS AND SYMPTOMS.**

Vasculit promotes the formation of collateral circulation. Treatment should be continued over a period of weeks in these indications :— Intermittent claudication, trophic changes (including gangrene), peripheral arteriosclerosis, Buerger's disease, Raynaud's disease.

Even in the major condition of Raynaud's disease, where spasm rather than obstruction plays the more important part, results are immediate, though treatment should be continued.

*Contra-indication—recent myocardial infarction.*

**VASODILATATION WITHOUT SIDE-EFFECTS.**

Vasculit produces Haemokinesis—that is, vasodilatation without side-effects. There is no change in the heart rate and no significant fall in blood pressure.

<sup>1</sup> Brit. Med. J., I, 1007 (1959).

Further information may be obtained from the Medical Department, Boehringer Products Division, Pfizer Ltd., Folkestone.

(phenformin)  
Trade Mark

## New oral hypoglycaemic agent

### DIBOTIN IS DIFFERENT FROM THE SULPHONYLUREAS IN:

- 1 Mode of action; it lowers the blood sugar in ALL diabetics.
- 2 Chemical structure.

**DIBOTIN** (N¹ — phenethyldiguanide hydrochloride)

*Results of widespread trials in the United States have produced extensive literature, and clinical trials already published in Britain show that DIBOTIN is indicated in:*

1. **Stable Adult Diabetes.** Satisfactory regulation of diabetes may be achieved with DIBOTIN alone without the necessity for insulin.
2. **Sulphonylurea Failures** frequently respond to DIBOTIN alone or combined with sulphonylureas.
3. **“Brittle” Diabetes in Juvenile or Adult.** DIBOTIN, combined with insulin, improves the control of many diabetics in this group.
4. **Juvenile Diabetes.**

NOTE: Well tolerated on a “start-low-go-slow” dosage scheme.  
Absence of acute or chronic toxic effects.  
Effective in dosage range 50–150 mg. per day.

DIBOTIN (N¹-phenethyldiguanide hydrochloride) is available as white scored tablets of 25 mg. each, container of 100.

At the present time DIBOTIN is being made available to Hospitals and Diabetic Clinics only.

Early Clinical Evaluation of a New Oral Non-Sulphonylurea Hypoglycaemic Agent. *Proc. Soc. Exper. Biol. & Med.*, June 1957, 95: 345.

Clinical Use of Biguanides in Oral Treatment of Diabetes Mellitus. *Clinical Research*, January 1958, 6: 90.

PIPERAZINE PHOSPHATE WITH STANDARDIZED SENNA (SENOKOT)

*Available  
only on  
Prescription*

**PACKINGS:**

160 gr. (10.4 grammes)

—one full dose

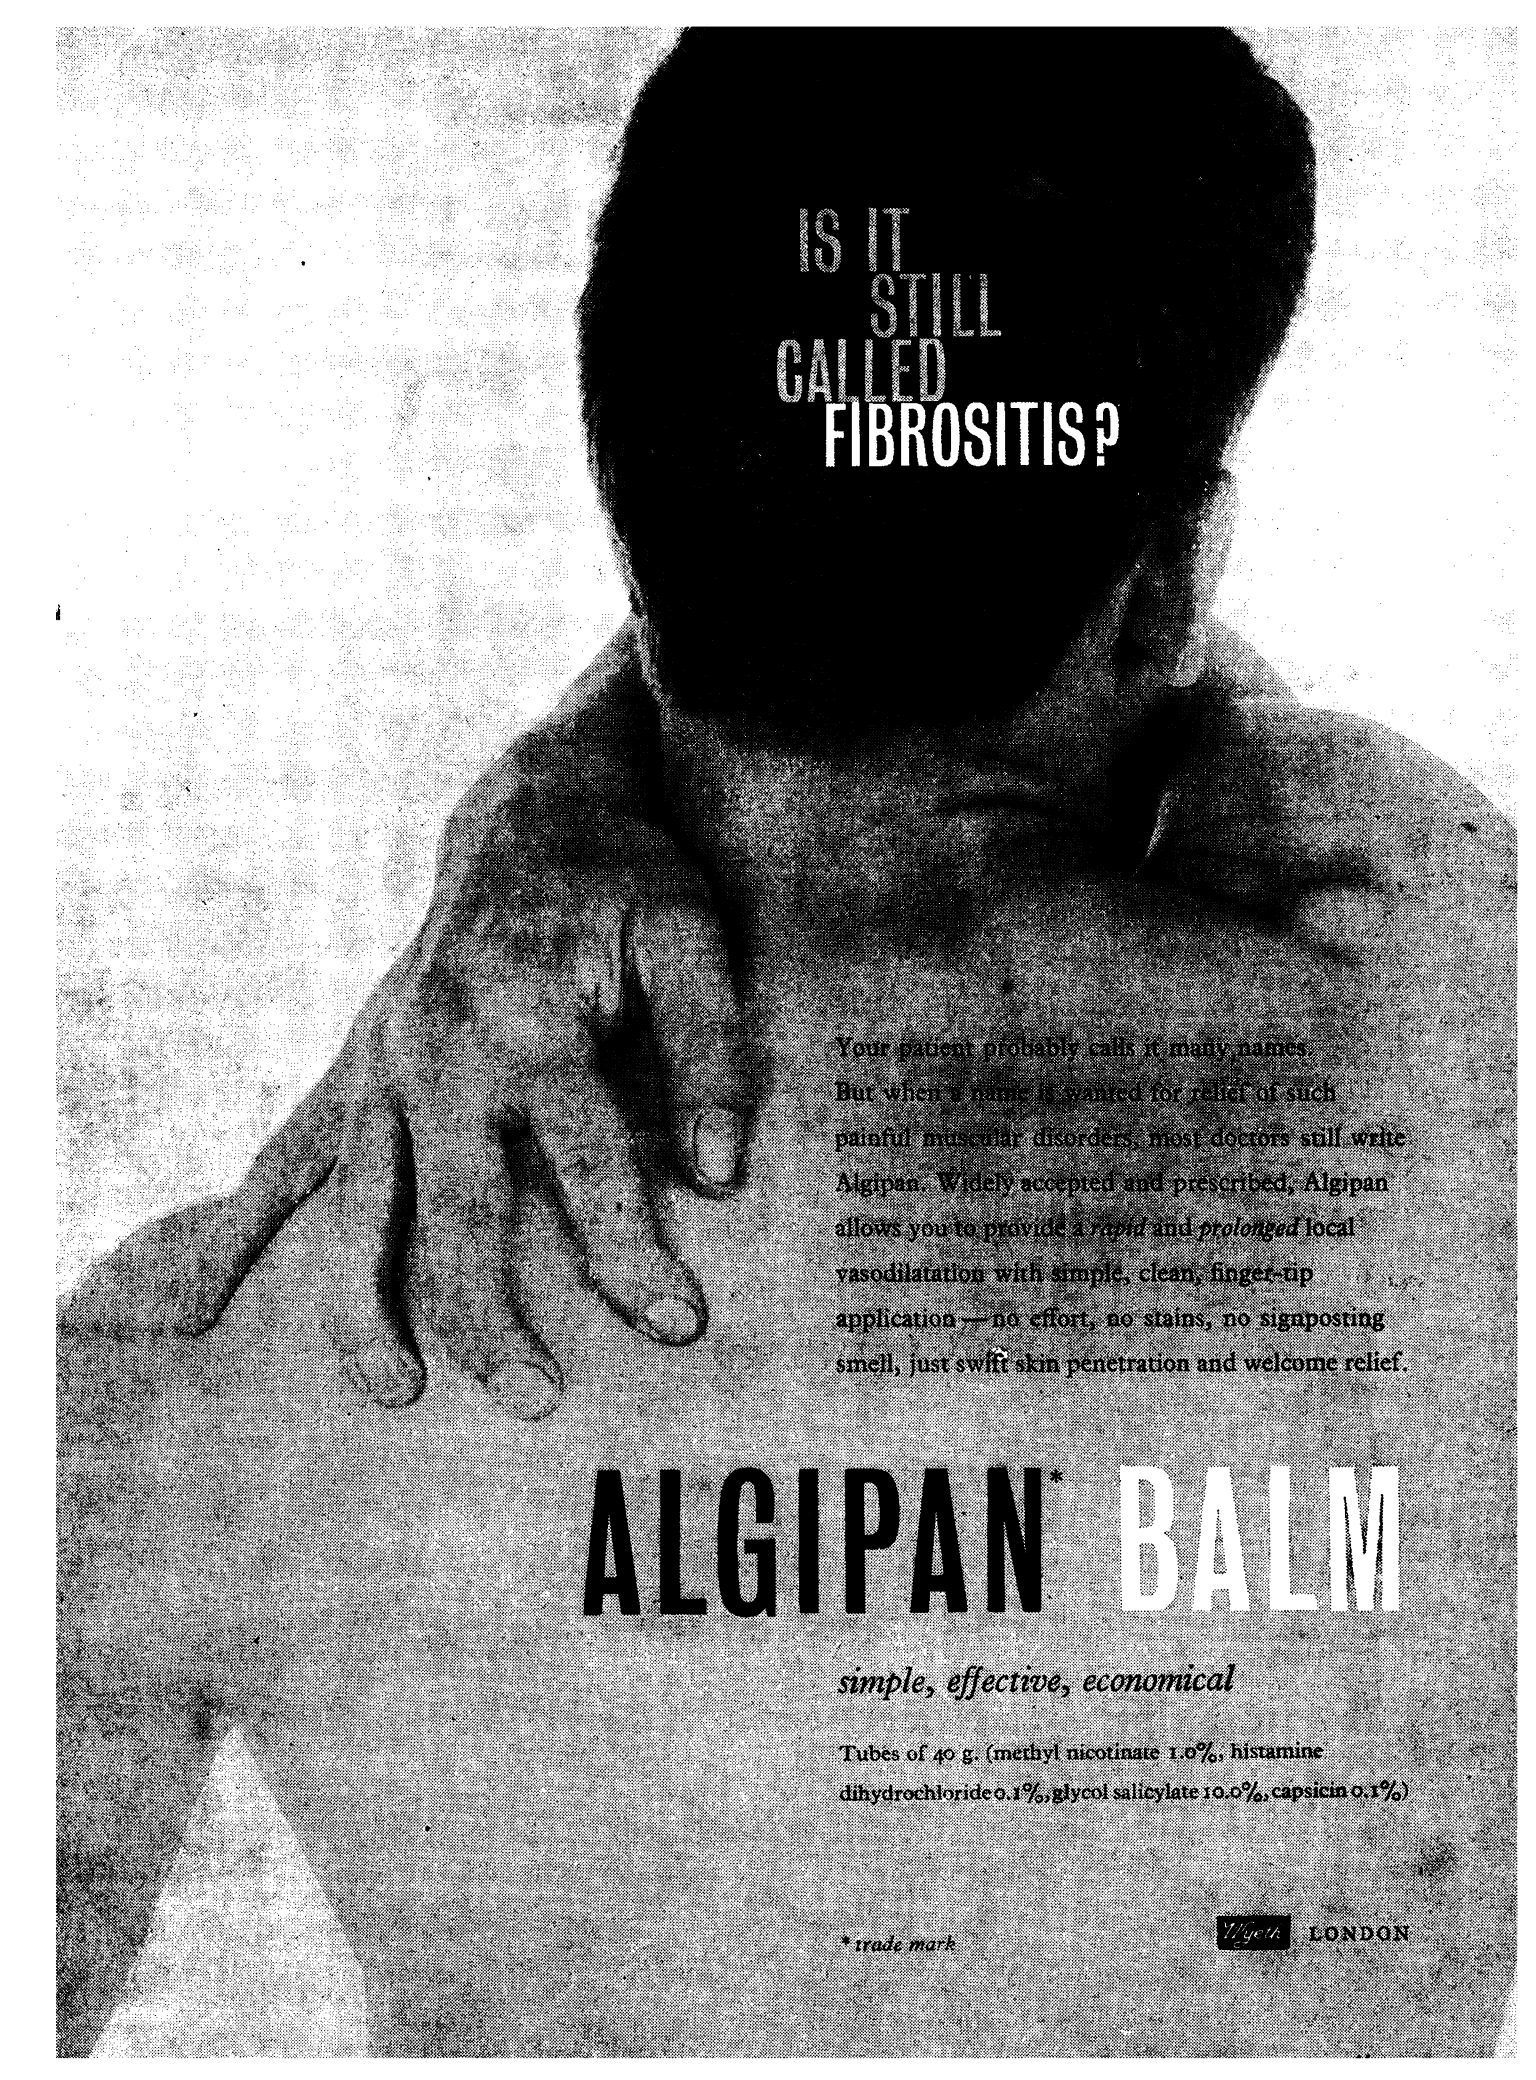

1 lb. (454 grammes)

—43 full doses

1. With PRIPSEN Granules, the usual seven-day treatment for threadworms is reduced to a SINGLE DOSE.
2. The same single dose of PRIPSEN is also effective for roundworms.
3. Severe infections may require repeat dosage.
4. PRIPSEN stimulates bowel peristalsis and the paralysed worms are promptly expelled.
5. The administration of a single dose can be easily controlled, thus avoiding any risk of treatment not being carried out.
6. The pleasant-tasting granules can be eaten direct from a spoon, or they may be sprinkled on food, or mixed with milk or water to make an agreeable drink.

WESTMINSTER LABORATORIES LTD., CHALCOT ROAD, LONDON, N.W.1.

IS IT  
STILL  
CALLED  
FIBROSITIS?

Your patient probably calls it many names. But when a name is wanted for relief of such painful muscular disorders, most doctors still write Algipan. Widely accepted and prescribed, Algipan allows you to provide a *rapid* and *prolonged* local vasodilatation with simple, clean, finger-tip application — no effort, no stains, no signposting smell, just swift skin penetration and welcome relief.

# ALGIPAN\* BALM

 LONDON

# RASTINON

One synthetic hypoglycaemic substance was chosen from over a thousand...

because it combined high therapeutic effectiveness with absolute safety

MORE THAN A THOUSAND hypoglycaemic substances have been synthesized. But in Rastinon (tolbutamide), Farbwerke Hoechst A.G. offer an anti-diabetic agent which has proved, after comprehensive laboratory and clinical tests, to combine *high therapeutic effectiveness* with *absolute safety*.

The primary consideration which led to the selection of Rastinon by Hoechst was its safety. Rastinon is better tolerated than any other oral anti-diabetic agent.

This factor, together with its reliable hypoglycaemic action, determines its optimal pharmacological properties.

Here then is a new era in the therapy of diabetes—already proved for over 1,250,000 diabetics all over the world.

## SUBJECTIVE ADVANTAGES:

Rastinon, the standard *oral* anti-diabetic agent, eliminates all problems of self-administration associated with injections. In many cases one tablet by mouth once or twice a day is all that is necessary for maintenance. In diabetic patients with tremor, physical disability, or psychic problems, the advantages of Rastinon's oral control may be especially relevant.

## OBJECTIVE ADVANTAGES:

There is virtually no danger of hypoglycaemic reactions as a result of Rastinon therapy, regardless of dosage. Rastinon is a true euglycaemic agent. In patients in whom maintenance dosage has been established, it lowers the blood sugar *to* normal levels, but almost never *beyond* that point.

The Rastinon combination of *high therapeutic effectiveness*, *absolute safety* and *low cost* cannot be matched by any other oral anti-diabetic agent.

# HOECHST

## ...AND THE SEARCH FOR NEW ANSWERS

The greatest pharmaceutical companies are those that are never satisfied with what they have achieved so far. Farbwerke Hoechst, A.G., the great German pharmaceutical company, is one of these companies. Although it has to its credit an outstanding list of medical discoveries—ranging from the first diphtheria antitoxin to the successful orally-administered anti-diabetic drug, Rastinon—it has never been content to rest on past successes.

And recently it has again been preparing the ground for greater things. Between 1952 and 1957 Hoechst increased its expenditure on pharmaceutical research and has modernized and expanded its great laboratories at Frankfurt. Its outstanding team of over 300 graduate scientists—chemists, doctors, pharmacists—are at work on a number of pharmaceutical research projects of the first importance to world medicine.

The scientists at Hoechst today are carrying on a great tradition created by men such as Paul Ehrlich and Emil von Behring (whose work with Hoechst gained them each the Nobel Prize).

Almost every year, the restless search for new answers at Hoechst brings forth another new and more effective weapon against disease.

# **A Statement to the Medical Profession**

by

## **BEECHAM RESEARCH LABORATORIES LTD.**

In order to correct any misconception arising from speculative reports and comments on the properties of new penicillins now in course of development and evaluation at Beecham Research Laboratories, practitioners may welcome a restatement of our original announcement defining the composition and activity of Broxil (BRL 152) :—

“ Broxil is the first of the new antibiotics prepared from the penicillin “nucleus” — 6-aminopenicillanic acid — isolated in the Beecham Research Laboratories. It exhibits considerable advantages over all kinds of penicillin.

\* Broxil produces greater antibiotic activity in the blood following oral administration than has ever before been achieved with penicillins — twice as great as that of penicillin V.

\* Blood levels after oral doses are superior to those following intramuscular injections of penicillin G.

We wish to emphasise that Broxil is only the first of the new penicillins. Our continuing research has resulted in new compounds showing promising activity in areas where existing penicillins are not effective—for example, in dealing with resistant Staphylococci and Gram-negative organisms. These compounds are undergoing further evaluation. They should not be confused with Broxil (BRL 152), the particular properties of which are as defined in this and other announcements by Beecham Research Laboratories to the Medical Profession.

**'Darenthin'**

**HYPERTENSION**

'DARENTHIN', an original discovery by Wellcome research workers, provides a new approach to the problem of hypertension: it selectively blocks post-ganglionic impulses of the sympathetic nervous system and is a conspicuous advance on former methods of treatment.

'Darenthin' lowers blood pressure but is free from the hazards associated with ganglion-blocking agents. Where side-effects occur they are trivial, such as slight stuffiness of the nose.

'Darenthin' is issued as compression-coated tablets (scored for division) each containing 200 mgm. bretylium tosylate.

## Deep skin penetration in Arthritis and Rheumatism

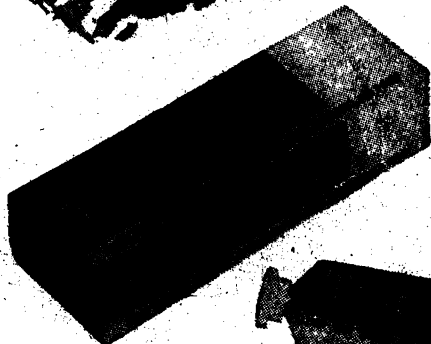

NICOTINIC, SALICYLIC AND  
p-AMINO BENZOIC ACIDS in Ester form

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.\*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

\*Therapeutische Umschau 1952, 8, 143

**An old friend**

**in a new guise**

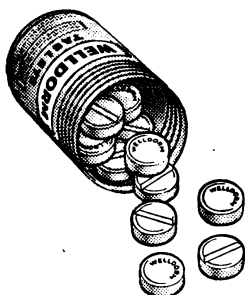

**A molecular complex of chloral hydrate in tablet form — WELLDORM — that has all the advantages and none of the disadvantages of chloral**

Welldorm is dichloralphenazone. Welldorm tablets induce drowsiness, without excitation, within 15 minutes, leading shortly to sound sleep. Patients can be aroused easily and experience no unpleasant after-effects. Welldorm has none of the unpleasant odour or nauseating tendency that has up to now restricted the use of chloral in practice.

**In paediatric practice** Young children and babies tolerate Welldorm tablets very well and for paediatric use quarter strength tablets are available.

**In geriatric practice** Welldorm is especially suited to the needs of the elderly because it is not followed by restlessness, mental confusion or constipation.

**Indications** Welldorm is indicated in all cases of sleeplessness associated with anxiety, hyperexcitability or mild pain and as a day time sedative.

## ***NOW—one tablet as basic therapy for all grades of hypertension***

**S**ALUPRES is a completely new product offering the most modern and most convenient method of treating hypertension

*Advantages of SALUPRES*

- Provides effective treatment for most hypertensives
- Potentiation lowers the effective dosage of reserpine and hydrochlorothiazide
- Potassium content makes hypotassaemia unlikely
- New type of reliable enteric coating effectively prevents nausea
- Permits a palatable amount of salt in the diet
- Simple dosage—average, 2 tablets twice a day
- In severe and malignant hypertension when ganglion blocking agents are required, their dosage is reduced and side-effects minimised

**SALUPRES is convenient therapy—ONE prescription instead of three**

**SALUPRES is comfortable therapy—side-effects unlikely to be troublesome**

COMPOSITION: Hydrochlorothiazide 12.5 mg., Reserpine 0.0625 mg. and Potassium Chloride 572 mg., in each tablet

The United Kingdom N.H.S. basic cost is 20s. 0d. per 100 tablets (plus P.T.)

**CODIS**  
Analgesic — Antipyretic  
Sedative

"CODIS" is a combination of aspirin, phenacetin, and codeine phosphate—a combination well known and accepted medically as giving pain relief in a wide range of conditions.

The unique feature of the tablets is that the aspirin is formulated in a special form which is soluble in water.

## CODIS AND SOLUBILITY

THE GREAT ADVANTAGE of Codis is that it provides a codeine compound tablet in which the aspirin content is soluble in water. (The codeine constituent is also soluble, and the phenacetin is in very fine suspension.)

This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

**CODIS** REGD. AVAILABLE FOR DISPENSING

*Not advertised to the public*

**Composition.**

Each Codis tablet contains: Acid. Acetylsalicyl. B.P. 4 gr., Phenacet. B.P. 4 gr., Codein. Phosph. B.P. 0.125 gr., Calc. Carb. B.P. 1.2 gr., Acid. Cit. B.P. (essenc.) 0.4 gr.

# PYCAMISAN B.D.

New PAS+INAH  
presentation  
for  
twice-daily  
dosage

## These 5 advantages make T.B. treatment easier for both doctor and patient

- a smaller cachet, which is easier to swallow.
- a safer cachet, because it is wet-sealed, so that patients cannot tip out the contents with consequent risk of wastage or making themselves feel sick.
- twice-daily dosage, which means there is no midday dose to 'forget.'
- one day's supply in each tube, marked 'morning' and 'evening' to tell the patient when his next dose is due.
- new technique for swallowing cachets, described in a leaflet in each box (extra supplies available on request).

Because of these advantages, the patient is more likely to understand and stick to this simple regimen with PYCAMISAN B.D. PYCAMISAN B.D. is an addition to the present Pycamisan range, but its popularity may make it possible to reduce the range.

PYCAMISAN B.D. cachets each contain 1.5 G. Sodium PAS B.P. and 37.5 mg. Isoniazid B.P.

They are wrapped in polythene tubes of eight, providing a total daily dosage of 12 G. PAS and 300 mg. INAH, and are available in boxes of 240 (one month's supply) and 480 (two months' supply).

## Anaemia of Pregnancy

It has been generally accepted that the incidence of megaloblastic anaemia of pregnancy in this country is very low. Reports indicate, however, that this type of anaemia may occur more frequently than has been suspected hitherto, but remains undetected in many cases. These observations suggest that it may be advisable to administer folic acid to all women in the last trimester of pregnancy.

Marmite yeast extract is a source of all known members of the vitamin B complex and has been used with conspicuous success in the treatment of nutritional megaloblastic anaemia of pregnancy. Its haemopoietic potency may be associated with the folic or folinic acid fraction. Marmite is readily incorporated in the diet and its pleasant taste ensures easy administration.

### MARMITE

yeast extract

contains

Riboflavin (vitamin B<sub>2</sub>) 1.5 mg. per oz. Niacin (nicotinic acid) 16.5 mg. per oz.

## Modern Trends in Industrial Disease

### "EXECUTIVITIS"

## MARE NOSTRUM

BY

ADAM LEGGE-PULLAR, Q.K.

Experience has taught us to recognize that an overwrought, dystonic patient, normally splenetic and even dictatorial, may, as part of his stress disorder, be looking to his doctor to make for him a simple decision that he realizes would solve many of his problems. The raising of the threshold for anxiety is likely to be therapeutically rewarding. The point may be illustrated as follows.

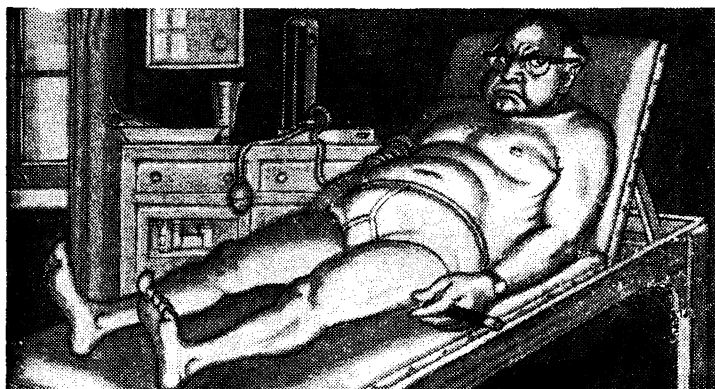

Fig. 1 (above). Mr. M. P. before his trip to South Africa.

Fig. 2 (below). Mr. M. P. on his return.

Mr. M. P., a large, balding man of 52, was earning about £7,000 p.a. Self-made and proud of it. Work was his hobby. His time, he said, was money. Everything about him was festinant, except his gait. But he was worried about his health.

**Symptomatology.** He was a stone overweight, probably due to expense-account lunching. He lost his temper often. He was having dizzy headaches. He was taking business problems to bed, with resultant insomnia and night starts. He couldn't get the messenger service at his office to run properly, and his wife kept forgetting to order more coke. He had developed acute loathing for anyone who stood in his way (Fig. 1). This tendency was severing him from his co-directors, his family and his friends, who complained of his opening snap and increasing Tabby-cat striation.

**Examination** was negative except for a degree of rhinophyma with incipient varicose veins in the cheeks and itching palms.

**Treatment.** He was advised to cut down alcohol and tobacco, to avoid those lunches, and to order the coke himself. He was also recommended to go on a cruise. This was what he had been hoping for, but he quickly raised opposition and talked about seasickness. This symbolic raising of his diminished ego-strength was countered by the use of an 1819 Travel Brochure which read: "The sickness and vomiting, which often accompany sailing, is in the highest degree wholesome. It cleanses the first passages from bad humors which, if retained, might irritate the chyle, and render the blood impure and disordered. It also restores the tone of the stomach and its appendages, and is a sure remedy in many diseases which have their seat in, and depend on, the distempered state of the alimentary tube." But it was pointed out that if he went to South Africa, and by Union-Castle, he wouldn't be bothered by bad weather, bad seamanship, sea-sickness or anything at all.

**Course.** The patient had a thoroughly relaxing trip without intestinal or other hurry. The splendid weather enabled him to dispense with even a penicillin umbrella. The sea was entirely smooth, and he met some beautiful women. He fixed up a big deal with a man who had a large concern in Johannesburg. A keen traveller, he made a tour of the Caves of Meckel and Retzius, spent a day on the Island of Reil, and, interested in big game always, visited the Prognostic Reserves. He looked forward to the Decussation of the Pyramids on a future Round Africa trip. The patient returned tanned, fitter, even somewhat straighter. He told me in his big, booming voice of the fantastic merger he was about to bring off in the City—nothing could stop him now. His office messenger service had sorted itself out, and he had decided to get oil central-heating installed at home. He advised me to try a Union-Castle trip myself.

### DISCUSSION

The increase of stress disorders under the pressures of present-day life should draw our attention to the fact that every Thursday at 4 p.m. a Union-Castle mail ship leaves Southampton for Cape Town and Southern sunshine, First and Tourist Class. About twice a month Union-Castle ships leave London for the Round Africa trip, calling at more than 18 ports, a nine weeks' journey. Every ship has a doctor on board, who will take care of your patients (or you). The chefs are adept at catering for special diets.

### CONCLUSION

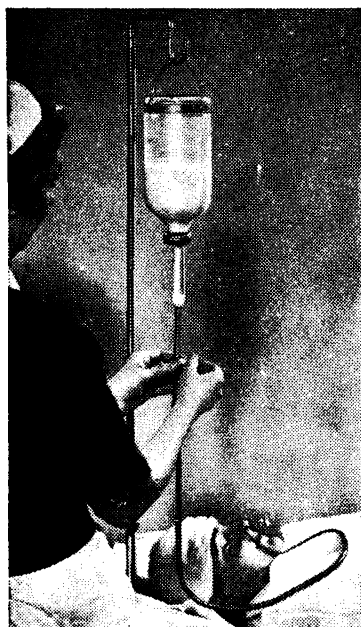

the going's good by **UNION-CASTLE**

## New approach to PSORIASIS

*Hitherto intractable—now good response to alphosyl*

**T**HOUGH modern medicaments have brought almost dramatic relief to many forms of skin affection, Psoriasis has so far remained intractable. Its aetiology continues to baffle investigation: many forms of tried therapy have yielded only partial or temporary results.

Now ALPHOSYL—after extensive clinical trials—shows promise of bringing total clearances in many cases of Psoriasis.

In ALPHOSYL, for the first time, are presented in combination two powerful and proved agents: allantoin and a specially refined coal tar extract. The synergistic effects of these medicaments result in rapid clearance of the condition itself and positive stimulation of the healing processes.

**ALPHOSYL LOTION** combines these two valuable agents in one preparation and has yielded good clinical results where other medications have failed.

### Clinical Properties

#### ALPHOSYL LOTION

*relieves the condition and promotes healing by breaking up the horny layer of psoriatic skin, removing non-viable tissue and combating both the scaling and underlying erythema and induration.*

*has produced successful results* in cases of psoriasis when the whole of the body has been affected from scalp to toe, in cases of many years' duration or when tender areas such as the anogenital and sub-mammary regions are affected.

*is notably safe to use.* The potential hazards of other forms of treatment—arsenic, mercury, corticosteroids, X-rays—are avoided. No irritation has been observed in any case of psoriasis treated with ALPHOSYL, even those involving tender regions.

*does not produce tolerance.* Patients continue to benefit from prolonged therapeutic or maintenance applications.

*is a welcome advance cosmetically,* as it is pleasant to use, non-greasy, non-staining, and vanishes on application to the skin. It may be used freely on the scalp, and is ideal for day or night use.

The impressive successes obtained with ALPHOSYL indicate that it deserves a trial in all cases of Psoriasis—no matter how extensive the area of affection, how long the duration of the condition, or whatever the therapy previously used.

# Concerto

for amplifier  
and two  
loudspeakers

Years of research and development have made Avantic amplifiers and loudspeakers instruments of perfection—musically and electronically—instruments that will bring the orchestra right into your room. There is nothing quite like Avantic Natural Sound—except, of course, the original music.

The DL7-35 is the power amplifier for the connoisseur. It has a peak power output of 54 watts and a distortion content of less than 0.05% at 20 watts sine wave output. The power response at this level is linear from 30c/s to 20kc/s.

**30 gns.**

The Avantic SP21 Stereophonic Pre-amplifier Control Unit (illustrated) is specifically designed for use with the DL7-35.

**£28. 10.**

The Avantic SL12-21 Loudspeaker incorporates a 12" diameter unit and a high frequency pressure unit, mounted in an acoustically designed cabinet to give a frequency response of from 40c/s to 17kc/s which is smooth and free from colouration.

**22 gns.**

Please send your card with this advertisement for full details.

British Oxygen Equipment and Gases...

# Pipelines for Medical Gases

In modern hospitals piped supplies of medical gases are now an essential part of routine efficiency. They enable medical gases to be used immediately in wards, operating theatres and any other part of the hospital, without transporting cylinders from place to place. Increased safety and lower gas costs are additional advantages of installing pipelines. For details of the design and installation of pipelines, please write to British Oxygen Gases Limited, Medical Division, Great West Road, Brentford, Middlesex.

...used every day to ease pain and save lives

BRITISH OXYGEN

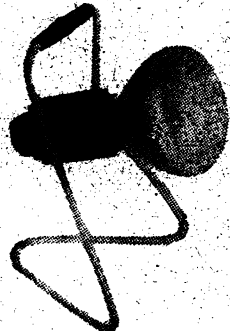

## *Sunshine and Warmth...* for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions.

*Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.*

### Philips Ultra-violet **SUNLAMP** (Made in Holland)

Philips Sunlamp gives the blessing of "Mountain sunshine"—a boon in convalescence and, as many doctors know, is useful for treating skin troubles, such as psoriasis. Price: £5.17s.6d. (including goggles).

### Philips Infra-red **INFRAPHIL** (Made in Holland)

Philips Infraphil was installed in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle strain. Infraphil Infra-red lamp costs only £3.3s.0d. (as illustrated). De-luxe model "A" Price: £4.4s.0d.

# Memory

or

**Memorette**  
is the battery-operated  
dictating machine by

**GRUNDIG**

PRICE  
55 GUINEAS

Complete with Microphone  
and Batteries, Cassette  
and spare Spool.

Dimensions: Length 10½", Width 3½", Depth 3½".

**GRUNDIG (GT. BRITAIN) LTD.**

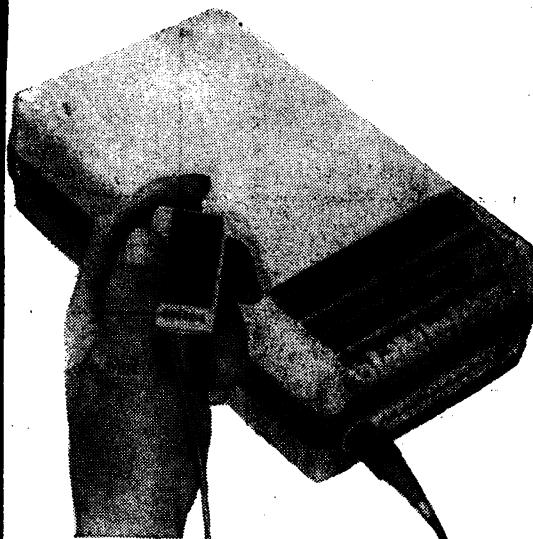

Advertising & Showrooms: 39/41 New Oxford Street, London WC1  
38.199

Even the best memory—under pressure of conflicting demands—lets one down occasionally. That's why the Memorette is so useful. It is a miniature self-contained dictating machine that can be used anywhere. With it you can record your clinical findings, the treatment prescribed, even the dates of future visits, with the assurance that nothing will be forgotten. You have only to press a switch and talk into a small microphone which, should you be driving or need to have both hands free, can be clipped into the lapel of your coat.

The Memorette operates independently of mains power and it records your voice on magnetic tape. The tape can be played back as soon as needed and as often as you require. Alternatively, once committed to paper the recording can be automatically erased and the tape used again for further recordings. It can, in fact, be used tens of thousands of times over. Each cassette of tape provides over 30 minutes continuous dictation. Simple to operate, robust and well-designed, powered by rechargeable batteries of an advanced kind, the Memorette gives the equivalent service of a trained shorthand operator anywhere, at anytime.

# Memorette

And, where hospitals and practices have Stenorette dictating machines in use (as is so often the case), it will be found that the Memorette is complementary. Both machines use the same tape cassette and recordings are interchangeable. Your local Grundig Dealer will be pleased to demonstrate the Memorette.

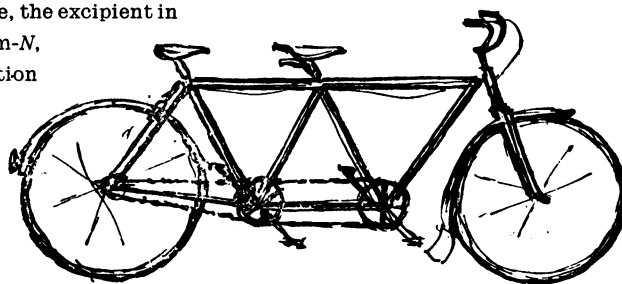

Do you consider the vehicle when you prescribe steroid therapy with hydrocortisone cream?

Some vehicles have been implicated on grounds of sensitisation risk (Practitioner, 1955, 175, 575).

Lacto-Calamine, the excipient in Cortoderm and Cortoderm-N, has an unblemished reputation in this respect.

Soothing, bland, cosmetically acceptable, it also contributes its own anti-inflammatory action to successful treatment of infected and non-infected dermatoses.

# There's a special Andrews for diabetics

*(and others on restricted diets)*

IN RESPONSE TO REPEATED REQUESTS, a special formulation of Andrews, free of sugar but retaining Andrews' characteristic palatability, has now been produced for diabetic patients and others on a special diet.

Andrews Liver Salt is a pleasant-tasting effervescent aperient. Its reliable laxative action is brought about by an effervescent saline combined with magnesium sulphate, the osmotic action of which ensures the retention of sufficient fluid in the bowel for easy and comfortable evacuation.

Andrews is mildly alkaline. It is useful for counteracting stomach acidity, nausea and headaches of the migraine (bilious) type.

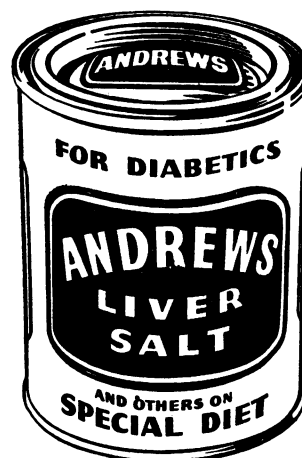

## Andrews for diabetics

## **NEW COLUMBUS SUCTION POLISHER**

**minimises dust-borne cross infection**

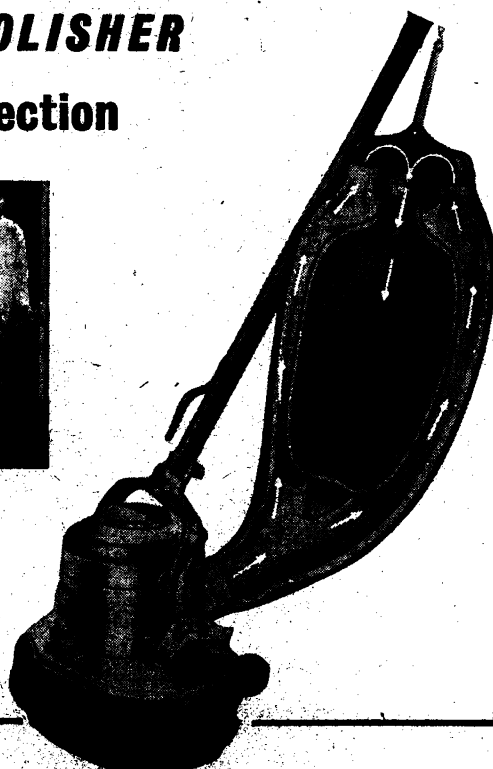

### **PROVED BY LABORATORY TESTS**

The Columbus suction polisher and cleaner, which has been successfully used in hospitals for 25 years, now incorporate: new two-stage dust control that traps 98% of all floor dust and dirt. The white arrows indicate the direction of dust flow into the bag . . . up through twin protected channels . . . into the inlet at the top of the bag . . . and down in a controlled flow into a disposable paper bag. Notice how, instead of entering the bag at the bottom, as in ordinary cleaners, the dust and dirt enter at the top, thereby preventing drop-back or fall-out, and also making removal of the disposable bag much more hygienic.

Literature on this new Columbus machine, including details of hospital laboratory tests reported in "The Lancet," will be forwarded on request.

## **COLUMBUS**

# For SUB-ACUTE and Chronic dermatoses **TAR + HYDROCORTISONE**

combined in

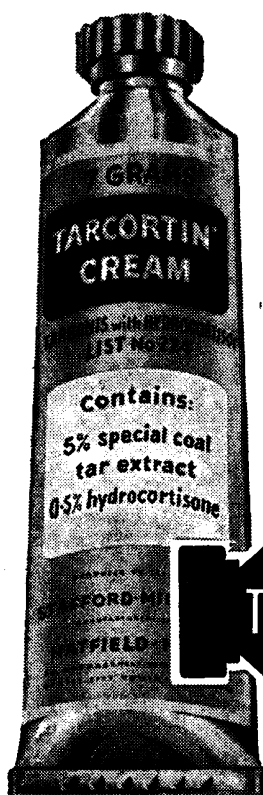

## **TARCORTIN**

### **CREAM**

have pronounced advantages over  
either medicament alone

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

\*Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

### **TARCORTIN CREAM**

is supplied in 7 gm. and 15 gm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

\* Literature available on request.

By

W. H. McMENEMY, M.A., D.M., F.R.C.P., D.P.M.  
528 pp. 75 illustrations. 50s.

"Hitherto a complete and authoritative biography of Hastings has been lacking. This need is now supplied by Dr. McMenemy, a medical historian of distinction, who has spared no trouble and pains to search out all available information, and gives a vivid account of this medical pioneer and his times. Indeed, the author has gleaned so much from past history that, occasionally, he must have felt overwhelmed by the very wealth of his material. But with literary skill and judicious criticism he has unravelled what must have been a tangled skein."

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

#### Other Grades, Whole-time

##### (a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenanted for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

**ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF**

### VACANCY—ASSISTANT EDITOR

Applications are invited from medical practitioners for the full-time post of Assistant Editor in the service of the Medical Association of South Africa at its Head Office, Cape Town. The salary scale attaching to the post is £2,180 by £60 to £2,600 per annum. The successful applicant must join the Association's Superannuation Fund. He must also have a knowledge of the Afrikaans language. Applications, which should contain details of status, qualifications and experience, must reach the Secretary, Medical Association of South Africa, P.O. Box 643, Cape Town, before December 31, 1959.—A. H. Tonkin, Secretary, Medical House, Cape Town.

### PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelope "Vacancy."

#### BIRMINGHAM, Sandwell

Applications invited for vacancy (urban) due to death. Intermediate area. List approximately 3,300. Residence and surgery will be available. Applications, on E.C.16A, to be received not later than November 23, 1959, to the undersigned.—K. F. G. Day, Clerk of Birmingham Executive Council, Sutton New Road, Erdington, Birmingham, 23. (5255)

#### CARLISLE EXECUTIVE COUNCIL

Applications invited to fill medical practice vacancy (mainly urban). List approximately 1,600. Area, intermediate. House with two garages and surgery accommodation may be available. Successful applicant to take over on January 1, 1960. Apply on Form E.C.16A not later than November 21, 1959, to the Clerk, Carlisle Executive Council, 1, Brunswick Street, Carlisle. (4849)

#### ISLINGTON (Mildmay Ward)

"Intermediate" area. Retiring practitioner female. List at present approximately 1,200. Surgery and living accommodation available for sale. Forms E.C.16A obtainable from the Clerk, London Executive Council, Insurance House, Insurance Street, W.C.1. Completed applications to be received not later than 12 noon, Monday, November 23, 1959. (5198)

### NATIONAL HEALTH SERVICE COUNTY OF ORKNEY EXECUTIVE COUNCIL

#### VACANCY—ISLAND OF NORTH RONALDSHAY

Applications are invited from registered medical practitioners for a vacancy in the Island of North Ronaldshay. Approximate population 170. A house is available for rent. Further information may be obtained from the undersigned, with whom applications, stating age, qualifications and experience, together with copies of recent testimonials, and the names of three referees, should be lodged not later than November 28, 1959.—John R. Tulloch, Clerk to the Council, 8, Broad Street, Kirkwall. (5202)

### NATIONAL HEALTH SERVICE ACT, 1946 WEST RIDING OF YORKSHIRE EXECUTIVE COUNCIL

#### BAWTRY (near Doncaster), Yorks

Applications are invited for a general practice vacancy (rural). Vacancy arises from resignation of a partner whose list is 3,873 (including 2,106 dispensing patients). Considerable mileage. Residential and surgery accommodation available for purchase. Applications, on Form E.C.16A (obtainable from the undersigned), should be submitted not later than November 27, 1959, to B. England, Clerk, West Riding Executive Council, 5, St. John's North, Wakefield. (5256)

#### SCUNTHORPE, Lincolnshire

Applications invited for vacancy, chiefly urban. List at present approximately 2,450. Apply on E.C.16A before November 25, 1959, to Lincolnshire (Lindsey) Executive Council, 17, Tentercroft Street, Lincoln. (5301)

**Practices (Executive Councils)—contd.****WANDSWORTH (Southfields Ward)**

"Intermediate" area. Retiring practitioner female. List at present approximately 1,300. Surgery and living accommodation may be available. Forms E.C.16A obtainable from the Clerk, London Executive Council, Insurance House, Insurance Street, W.C.1. Completed applications to be received not later than 12 noon, Monday, November 23, 1959. Brownhills Urban District Council

Applications are invited for the separate part-time appointments of

**ASSISTANT COUNTY MEDICAL OFFICER and SCHOOL MEDICAL OFFICER, and MEDICAL OFFICER OF HEALTH of the Brownhills Urban District**

The appointments together will constitute whole-time, the allocations being eight half-days and three half-days, respectively. The proportionate salary for each appointment is calculated in accordance with the latest agreed scale, and increments will be given for previous service in the same capacity, the ranges being: County Council, £914 15s. 5d. by £47 14s. 6-7d. (6) by £51 14s. 1d. (2) to £1,304 10s. 11d. Brownhills U.D.C., £553 12s. 9d. by £19 1s. 10d. (2) by £17 14s. 6-7d. (2) to £627 5s. 6d. A car will be an advantage, and an appropriate allowance will be paid. The posts are superannuable, and the successful candidate must pass a medical examination and produce his birth certificate. Applicants must be fully qualified medical practitioners, with experience in public health duties, and must hold the Diploma of Public Health or its equivalent. The candidate appointed will, as regards the County Council duties, act under the direction of the County Medical Officer of Health and will be required to perform such duties as may from time to time be prescribed. As regards the duties of Medical Officer of Health he will be subject to the Public Health Officers Regulations, 1959, and to the sole control and direction of the Urban District Council. The County Council appointment will be subject to three calendar months' notice in writing on either side. Forms of application may be obtained from the County Medical Officer of Health, County Buildings, Stafford, and should be returned to him not later than by first post on November 30, 1959.—T. H. Evans, Clerk of the County Council. N. Waine, Clerk of the Brownhills Urban District Council, County Buildings, Stafford. (5288)

The Wellington Hospital Board invites immediate applications from registered medical practitioners for the full-time position of Director of Anaesthesia. Applicants should qualify as Senior Specialist under the New Zealand Hospital Employment (Medical Officers') Regulations, 1957, and the salary and grading for the position will be in accordance with these Regulations. The salary scale for Senior Specialist will be within the range £2,060 to £2,610 (New Zealand currency), dependent on experience and qualifications. Intending applicants should apply to the High Commissioner for New Zealand, 415, The Strand, London, for a schedule of information regarding the position. Applications, giving full particulars as to age, qualifications, experience, and stating the earliest date upon which duty can be commenced, should be forwarded by airmail and addressed to the Secretary, Wellington Hospital Board, Private Bag, Wellington Hospital, Wellington, New Zealand.—A. F. Wilton, Secretary. (4804)

**WELLINGTON HOSPITAL BOARD  
Wellington, New Zealand**

**ASSISTANT RADIOLOGIST, Wellington Hospital**

Immediate applications are invited from registered medical practitioners for the full-time position of Assistant Radiologist at the Wellington Hospital. Applicants, who are required to possess a higher qualification in Diagnostic Radiology, must either be registered in New Zealand or hold qualifications entitling them to registration in New Zealand, and should qualify as Senior or Junior Specialist as defined in the New Zealand Hospital Employment Regulations, 1957. The position is subject to grading. The minimum salary in accordance with the regulations for Senior Specialists is £2,060 per annum, New Zealand currency, and for Junior Specialists is £1,660 per annum, New Zealand currency. Duties are to commence as soon as possible. Intending applicants should apply to the High Commissioner for New Zealand, 415, The Strand, London, W.C.2, for a schedule of information regarding this position. Applications, giving full details as to age, qualifications, experience, and stating the earliest date upon which duty can be commenced, should be forwarded by airmail and addressed to the Secretary, Wellington Hospital Board, Private Bag, Wellington Hospital, Wellington, New Zealand.—A. F. Wilton, Secretary. (5238)

**INDUSTRIAL APPOINTMENTS**

Attention is drawn to the B.M.A. statement of policy on the remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958), which is available on request from the Secretary.

**B.E.A. REQUIRE A MEDICAL OFFICER ON** a temporary basis for six months, but eligible for permanent pensionable appointment on satisfactory completion of that period. Applicant's (male) should be of British nationality aged 28-35, and must hold a British medical registration. Experience in General Practice necessary. Knowledge or experience in Industrial or Aviation Medicine would be an advantage. Commencing salary, according to age and experience, will be within the range of B.M.A.'s recommended scale. Application forms can be obtained from the Personnel Services Manager, Personnel Department, British European Airways, Beaulieu House, Ruislip, Middlesex, to whom they should be returned, together with a recent photograph, by November 23, 1959. (4157)

**Industrial Appointments—contd.****NATIONAL COAL BOARD**  
South-western Division

Applications are invited for the post of

**AREA MEDICAL OFFICER**

in their No. 2 (Maesteg) Area, with Headquarters at Tondy, Aberkenfig, near Bridgend. Applicants must be registered medical practitioners, and have had a good clinical background. Previous experience in general practice and industry, and a knowledge of the coal industry would be advantageous. The successful applicant will be responsible for the supervision of industrial health services in the area, including the examination of new entrants, and will be required to live in or near the Area. Salary within the range £1,600 to £2,400 per annum. Candidates should write, quoting S.V. No. 270/42B, for an application form, which should be completed and returned to Divisional Chief Staff Officer, National Coal Board, Cambrian Buildings, Mount Stuart Square, Cardiff, to reach him not later than November 30, 1959. (5289)

**FACTORY DOCTORS****FACTORIES ACTS, 1937 and 1948**

The following appointment as Appointed Factory Doctor is vacant: Bedale, in the County of York. Applications, which should be received not later than November 28, 1959, should be sent to H.M. Chief Inspector of Factories, 19, St. James's Square, London, S.W.1. (5081)

**COMMERCIAL APPOINTMENTS****MEDICAL SERVICES MANAGER**  
**RIKER**

We invite applications for the newly created post of Medical Services Manager. The successful applicant will be expected to advise the Company on the uses and applications of its products, and to make his own contributions to the formulation and development of new products. He will also be responsible for organizing and setting up clinical trials of established and experimental products. Age is not important, although it is unlikely that a person below the age of 30 would have sufficient experience of the kind we need.

Whilst a medical qualification is desirable, it is not absolutely essential if a degree in a biological science is held and the experience is right. Some knowledge in planning and setting up controlled clinical trials would be an advantage, as would be a better than average knowledge of modern therapeutic agents and their uses.

We are looking for a man of enthusiasm and ability who is prepared to travel about the country, who can develop his own ideas into worthwhile projects, and who can make a real contribution to the progress of the Company.

Salary and working conditions are appropriate to the importance of the position. Applications should be made in writing, in the first instance, to the General Sales Manager, Riker Laboratories Limited, Morley Street, Loughborough, Leicestershire.

Riker Laboratories Limited,  
Loughborough, Leics. (5290)

**THE WELLCOME FOUNDATION LIMITED**  
require a Manager for**MEDICAL INFORMATION DEPARTMENT**

The Medical Information Department is a service department of Burroughs, Wellcome & Co., and is responsible for the extraction and collation of information and for various other activities of the Company.

Applicants, who should be between 30 and 40 years of age, must be registered medical practitioners and preferably possess a postgraduate qualification. A further qualification in pharmacy, biochemistry or law will be an asset. The ability to write good technical literature is essential. The successful candidate will be required to keep abreast of developments in medicine and will receive assistance from the Medical Research Department. Salary will be in accordance with qualifications and experience.

Applications should be made in writing (giving brief details) to the Personnel Director, the Wellcome Foundation Ltd., Wellcome Building, Euston Road, London, N.W.1.

**UNIVERSITY AND RESEARCH****APPOINTMENTS, etc.****COUNCIL OF EUROPE****MEDICAL FELLOWSHIPS, 1960**

The Council of Europe is again offering a number of medical fellowships, some of which will be given to doctors of the United Kingdom. These fellowships afford opportunities for the holders to study medical and surgical techniques in which they are interested in other European countries. They are tenable for a period of not less than three months, and not greater than 12 months. The Council will pay fellows a monthly allowance of 850 new French francs (£60 approximately), together with all travelling expenses. Interested doctors are invited to obtain application forms and any further information they need from the Secretary, Ministry of Health (Division 5A), Savile Row, London, W.1. The closing date for the return of completed application forms is January 9, 1960. (5293)

**GUY'S HOSPITAL MEDICAL SCHOOL**  
London Bridge, S.E.1

Applications are invited for  
**FULL-TIME RESEARCH FELLOWSHIP**  
in the Thoracic Surgical Unit for research on Cardiovascular problems. It is desirable that applicants should possess a higher qualification in Surgery. Initial salary normally within the range £972 to £1,258 per annum, according to the experience and qualifications of the person appointed, but in special circumstances a higher initial salary would be considered. Applications, with the names of three referees, should be sent to the Dean. (5197)

**MEDICAL RESEARCH COUNCIL**  
Pneumoconiosis Research Unit

Applications are invited for post of  
**REGISTRAR (non-resident)**  
Duties include supervision of patients admitted to ward and out-patient work. Opportunity and time available to assist in clinical trials and pulmonary physiological research. Much may also be learnt about the epidemiological method approach to the study of common diseases. Apply, in writing, to Director of above Unit, at Llandough Hospital, Penarth, Glam. (4936)

**THE UNIVERSITY OF MANCHESTER**

Applications are invited from candidates with medical qualifications registrable in this country for the post of

**ASSISTANT LECTURER or**  
**DEMONSTRATOR IN PATHOLOGY**

Previous experience in pathology is not essential. Duties will consist of teaching and of participation in the morbid anatomy service of Manchester Royal Infirmary. Opportunities will be available for research. Salary scales per annum attached to the posts: Assistant Lecturer £900 by £100 to £1,300; Demonstrator £850 by £50 to £1,000. Status according to qualifications and experience. Membership of children's allowance scheme, and in the case of an Assistant Lecturer, of F.S.S.U. Applications should be sent, not later than November 28, 1959, to the Registrar, the University, Manchester, 13, from whom further particulars and forms of application may be obtained. (4749)

**C I B A****RESEARCH CLINICIAN**

With the growing output of its research laboratories, CIBA requires a well-qualified and experienced clinician to assist in the development of clinical trials in the U.K.

The work is rewarding in that at this final and vital stage in research, many positive results are obtained. It is unusually interesting because leading physicians and medical scientists depend upon such a man for the essential liaison with our chemical and pharmacological research, and it is from such research that most recent advances in drug therapy have come.

If the idea of playing this important part in clinical research attracts you, please apply with full particulars of education and experience.

**MEDICAL ADVISER**

Can you write?

To-day, conditions of practice often preclude systematic study of the medical literature. At a time of unprecedented advances in therapeutics, other means are therefore necessary to help the busy practitioner.

We need a doctor with wide experience in general practice to help us present to his colleagues the often complex data about our latest developments in the most appropriate and easily assimilable terms.

Other duties include editing a scientific journal and assisting in representative training. He will be responsible to the Sales Director, will work in close liaison with the Clinical Research Division, and will have the full backing of the exceptional knowledge and experience accumulated by CIBA from its wide and well-developed international organization.

Attractive salaries to the right men.

Contributory pension scheme.

Applications to the Secretary, CIBA Laboratories Limited, Horsham, Sussex

# SENIOR EXECUTIVE REQUIRED

BY

## SURGICAL PRODUCT MANUFACTURERS

Leading London Manufacturer of Rubber Surgical Products requires high grade Executive. The Bartlett Home,  
Liverpool Road South,  
Maghull, Nr. Liverpool.

## QUICKLY READY TO HAND

### London Hospital Catgut in non-splintering 'spot' tubes

Speed is a matter of urgency in the Operating Theatre—which is why the London Hospital 'spot' tubes are so popular. Just a slight pressure, and instantly the tube breaks cleanly at the 'spot' position, and the sterilised suture is ready for use.

*These are the advantages :*

- The spot indicates the exact breaking point of the tube.
- If the thumbs are placed about  $\frac{3}{4}$ " apart, exactly opposite the spot, the tube breaks cleanly and easily under slight pressure.
- No filing is needed, no instruments required, no need to hold the tube in a swab.
- There are no dangerous glass splinters.

*Always use* **L**ondon **H**ospital **C**atgut
