PRELUDIN CALCULATOR If you wish a replacement of Preludin Overweight Calculator, please write to the Boehringer Products Division, Pfizer Ltd., 137-139 Sandgate Road, Folkestone, Kent.

It has been calculated that if carcinoma were cured, the average life-expectancy would be increased by two years, whereas if obesity were cured, it would be increased by four years.¹

This gives an indication of the prevalence of what has been described as one of the greatest medical problems of Western civilisation.²

As an example of the mathematics of mortality in overweight patients, a man aged 35, height 5' 8" who has passed the critical stage of 15 per cent excess weight, can expect a decrease in life-expectancy amounting to 8 years.³

The use of Preludin can increase the expectation of life in overweight patients by enabling them to adhere easily to a restricted diet. Preludin acts directly on the appetite-satiety centre in the hypothalamus. Unlike the amphetamines it does not destroy the appetite—it merely causes the feeling of satisfaction to occur earlier. There are no adverse side-effects and blood sugar levels, heart and blood pressure remain unaffected.

FERSAMAL SYRUP

does the
disappearing
trick
every time

Following highly successful Fersamal Tablets comes FERSAMAL SYRUP, specially prepared to appeal to infants and children. For them it has a flavour and colour quite untypical of iron tonics. For you it is unusual because it contains ferrous fumarate, a non-irritant stable compound for hypochromic anaemias; has a high ferrous iron content of 32.5 mg per teaspoonful (3.5 ml) and is remarkably well tolerated.

FERSAMAL SYRUP

In 6 fl. oz. bottles

For insomnia

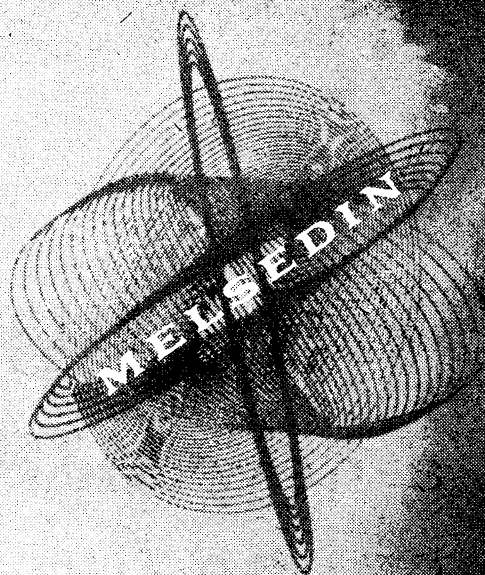

an

ENTIRELY NEW

hypnotic

MELSEDI^N

The background of the advertisement is a grayscale image. It features a cloudy sky, with a bright light source on the right side creating a glow. Overlaid on the sky are several sets of concentric, slightly tilted circles that intersect each other, creating a complex, web-like pattern. The circles are drawn with fine lines, giving them a delicate, ethereal appearance. The overall composition suggests a dreamlike or hypnotic state, consistent with the product being advertised.

- * **Produces natural sleep**
- * **Free from the disadvantages of barbiturates**
- * **Non-habit-forming**

MELSEDIN—methaqualone hydrochloride—is a new non-barbiturate hypnotic which produces *natural* sleep and is often effective where other hypnotics have failed. **MELSEDIN** is of low toxicity, quick-acting—within 15-30 minutes—and its effect lasts for 6-8 hours. Side-effects are negligible; rapid excretion obviates cumulative effects, and neither tolerance nor addiction has been demonstrated in **MELSEDIN** therapy.

MELSEDIN is an entirely new product chemically unrelated to all other hypnotics. It is the ideal alternative to barbiturates in the treatment of insomnia.

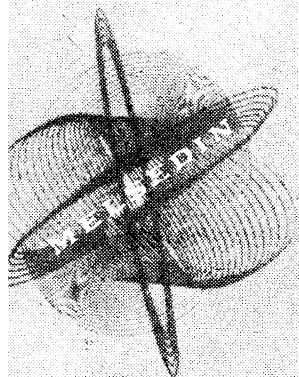

DOSAGE: A dose of 150 mg. 15-30 minutes before retiring will usually be sufficient. In some cases, a dose of 300 mg. may be necessary at first, reducing later as the condition responds.

MELSEDIN is supplied in tablets of 150 mg.

FEATURES

- 1 Absorption is rapid and complete as with 'Sulphamezathine'.
- 2 Effective blood levels.
- 3 Low toxicity.
- 4 Persistence, which makes single daily dosage practical.

'Bimez' Tablets. For routine treatment. Each tablet contains: 'Sulphamezathine' (Sulphadimidine B.P.) 0.375 gramme; sulphadimethoxypyrimidine 0.125 gramme. Issued in containers of 25, 100 and 500.

'Bimez' Suspension. Especially suitable for children and the elderly. A teaspoonful (3.5 ml.) is equivalent to one tablet. Issued in bottles of 30 ml.

THE PROBLEM

To obtain high blood levels of theophylline easily

THE SOLUTION

Oral 'Theodrox'

THE RESULT

A full Therapeutic response

For oral aminophylline therapy to be fully effective it is necessary to give a dose sufficient to produce high blood theophylline levels. However, because of gastric irritation vomiting often results. Alternative therapy with enteric coated tablets or suppositories is unreliable, and parenteral aminophylline is inconvenient.

The combination of dried aluminium hydroxide gel and aminophylline in 'Theodrox' ensures full therapeutic response with the minimum of gastric upset. Reproducible blood levels comparable with those obtained from intramuscular injection can be obtained.

THEODROX

To restore full vigour

Whatever the illness, whether infection, metabolic disorder or a condition requiring surgical intervention, the patient needs full nutritional support for the restoration of health. And this implies more than a good mixed diet. Not only must the appetite be stimulated but the tissues must respond to the extra demands for full physiological activity, and this means supplying them with more than the usual intake of vitamins, especially of the B complex and ascorbic acid.

For these purposes the three preparations BEFORTISS, BECOVITE and OROVITE are designed, the latter being pleasantly flavoured and acceptable to patients of all ages.

For maintenance therapy—

Befortiss: Tablets (100), 1 ml., Ampoules (boxes of 5), Elixir (6 fl. ozs.).

BEFORTISS

For intensive therapy—

Becovite: Tablets (100), Twin 1 ml., Ampoules (boxes of 3 pairs), Elixir (6 fl. ozs.).

BECOVITE

For concentrated oral therapy—

Tablets (100) and Elixir (6 fl. ozs.). (Vitamin C can be added as Ascorvel.)

OROVITE

An old friend

in a new guise

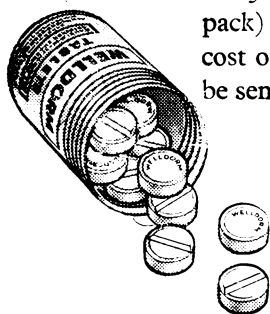

a molecular complex of chloral hydrate
in tablet form **WELLDORM**

(dichloralphenazone)

'Welldorm' has all the advantages that make chloral hydrate one of the best hypnotics. It has none of the disadvantages—the nauseating taste and smell, the gastric irritation—that restrict the use of chloral in daily practice. 'Welldorm' induces, without excitation, calm deep sleep with no hangover effect. 'Welldorm' is ideally suited for both the very old and the very young, because it is one of the safest of all hypnotics.

'Welldorm' is presented as tablets each containing 10 grains dichloralphenazone in 25s and 250s. The basic NHS cost of 12 tablets (supplied from a dispensing pack) is 1/- . There is also available a 2½ grain strength for children at a basic NHS cost of 6d. for 12 tablets (supplied from a dispensing pack). Clinical samples will be sent on request.

Brit. Med. J. ii, 658, Oct. 10th 1959

A new approach to combating cross-infection and recurrent staphylococcal infection

Naseptin

TRADE MARK

NASAL-CARRIER CREAM

'Naseptin' Cream offers a new approach to the problem of staphylococcal nasal-carriage, both in hospitals and in general practice.

Staphylococcal infections in general practice

At least 85% of patients with recurrent boils and styes carry the causative staphylococcus in the anterior nares. The importance of dealing with nasal carriage in these patients is now well recognised. Treatment of the anterior nares greatly reduces the number of recurrences of infection.

Hospital cross-infection

Carriers of pathogenic strains in the hospitals, both patients and staff, require treatment with 'Naseptin'. This specially-formulated combination of 'Hibitane' and neomycin has been widely used, and its advantages have been clearly demonstrated.

Advantages

- * Effectively suppresses the staphylococcus in the anterior nares.
- * Easy and pleasant to use.
- * No risk of bacterial resistance.
- * Sensitivity reactions have not been observed.
- * Its use in prophylaxis and treatment will materially reduce the cost to the Health Service of treating staphylococcal infections.

Reference

Lancet, 1957, ii, 1157

*The formula is now as follows :
Active constituents per 100 ml.*

p-dichlorobenzene B.P.	2 G.
Benzocaine B.P.	2.7 G.
Chlorbutol B.P.	5.0 G.
Ol. Terebinth B.P.	10 ml.

If you would like to test this slightly adjusted formula please write or telephone us for a sample.

Patients' preference . . .

Why has Lucozade a very special attraction for the patient? The answer lies in its remarkably refreshing flavour and fragrance, qualities that baffle precise description. The colour, the sparkle and the glucose content ensure equally its recommendation by the doctor and its ready acceptance by the patient.

Lucozade is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose and its energy value is 21 Calories per fluid ounce. It is supplied in 6 oz. and 26 oz. bottles.

LUCOZADE

When your patient complains of pain she expects really effective relief uncomplicated by side-effects. And that's what Zactirin allows you to provide, even over prolonged periods. When you prescribe Zactirin for moderately severe pain your patient is not subjected to constipation, daytime sedation or other disturbing effects that can complicate treatment with codeine and its combinations. Zactirin contains ethoheptazine — Wyeth's new, potent analgesic discovery. It is the ideal analgesic for your active patient who complains of pain.

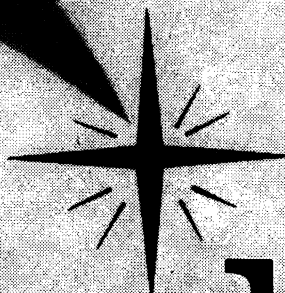

Zactirin *relieves pain safely*

Containers of 10 and 100 tablets (each contains 75 mg. ethoheptazine citrate, plus 325 mg. aspirin and 97 mg. calcium carbonate, Write for detailed information.

New concept...

Nebrinal

WANDER

relaxant-hypnotic
reproduces
the normal
sleep pattern

FORMULA
Each tablet contains—
Pentobarbitone 50 mg.
Mephenesin B.P. . . . 225 mg.
Schedule 4

PACKS
Bottles of 50 and 250.

PRICE
Basic N.H.S. cost,
4/- for 50 tablets.

DOSAGE
Average adult dose:
for insomnia—2 tablets;
Up to 4 tablets may be taken
in severe cases.
For general sedation—
1 tablet every 5 to 6 hours.

Nebrinal is a balanced combination of muscle-relaxant mephenesin and intermediate-acting pentobarbitone, presented in the form of specially designed '*timed-release*' tablets to provide '*tapered*' dosage.

The outer layer of the tablet rapidly releases about two-thirds of the two drugs to induce relaxation and sleep; the balance of the drugs is released from the inner core 3 to 4 hours later to sustain relaxed sleep on a reduced dosage.

The amount of barbiturate to be inactivated at any one time is thus kept low.

Nebrinal provides:

INDUCTION OF SLEEP
through relaxant *plus* hypnotic action

SUSTAINED EFFECTIVENESS
through '*timed-release*' action

**REFRESHED AWAKENING
WITHOUT 'HANGOVER'**
through '*tapered*' dosage

Sunshine and Warmth... for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions.

Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

Philips Ultra-violet ULTRAPHIL (Made in Holland)

Philips Sunlamp gives the blessing of "Mountain sunshine"—a boon in convalescence and, as many doctors know, is useful for treating skin troubles, such as psoriasis. Price: £5.17s.6d. (including goggles).

Philips Infra-red INFRAPHIL (Made in Holland)

Philips Infraphil was installed in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain. Infraphil Infra-red lamp costs only £3.3s.0d. (as illustrated). De-luxe model "A" Price: £4.4s.0d.

AMBULATION...

It is efficient compression bandaging which promotes the healing processes in the ambulatory treatment of leg ulcers—and what better bandage for the work than Elastoplast elastic porous adhesive bandages? Successful compression treatment of leg ulcers means that, as well as efficient and *comfortable* bandaging of the limb, the patient must be ambulatory in every sense of the word. Normal use of the legs prevents recurrence of oedema and prepares the tissues for normal healing. Elastoplast porous adhesive elastic bandages provide the greatest degree of comfort possible with compression therapy. The adhesive is not spread to the edges of the bandage. This means that the bandage will not ruck and make ridges to irritate the skin. Elastoplast bandages have fluffy edges protecting devitalised skin which is unusually sensitive and liable to trauma under compression.

Limb should first be covered vertically, with overlapping strips of Elastoplast about 12" long. Small holes should be cut in strips covering the ulcer to permit drainage. An Elastoplast bandage is then applied from toes to knee, enclosing the heel. Holes are cut in the bandage overlying the ulcer. An absorbent pad is held in place on the outside of the bandaged leg, so that it can be changed.

Johnson & Johnson's

CLINICAL SHEETS

Sheets that are never on the Laundry Bill

Johnson's CLINICAL SHEETS minimise the risk of cross-infection. Made of soft, absorbent 'Masslinn' fabric, they are sterilisable, economical to use, strong, and easily disposed of. They are particularly suitable as a substitute for operating towels in minor surgery and ward dressings.

Available in four sizes

13½" x 9½" • 15½" x 13½"
15½" x 24" • 36" x 23½"

The average charge for laundering a hospital hand towel is 3d. Yet a large Clinical Sheet can cost as little as 1½d., and a small one about ½d. Thus several Clinical Sheets can be purchased for the laundry cost of one towel.

THE WORLD'S MOST TRUSTED NAME IN SURGICAL DRESSINGS

DIABETES

and the patient who fears injections

RASTINON

PROVIDES COMPLETE ORAL CONTROL
that is safe and convenient

THE DIABETIC PATIENT who suffers from an excessive fear of injections may undergo considerable psychic trauma.

A large number of these patients* can now be controlled orally with RASTINON (tolbutamide). In many cases, one tablet by mouth once or twice a day is all that is necessary for maintenance.

Not only does RASTINON make possible continued dosage administration that is free from psychological reactions; in addition, blood sugar levels approach the normal without risk of hypoglycaemia. RASTINON is a true euglycaemic agent.

In patients in whom maintenance dosage has been established, RASTINON lowers the blood sugar to normal levels, but almost never beyond that point, regardless of dosage.

Rapid excretion precludes cumulative effects. No cases of dyshaemopoiesis, jaundice, or other serious side effects have been reported.

There is no added cost of treatment for the patient previously on insulin.

* Over 1,250,000
diabetics all over
the world owe their well-
being to RASTINON. The
rate of response increases
steeply with advancing age.

New approach to PSORIASIS

Hitherto intractable—now good response to alphosyl

THOUGH modern medicaments have brought almost dramatic relief to many forms of skin affection, Psoriasis has so far remained intractable. Its aetiology continues to baffle investigation: many forms of tried therapy have yielded only partial or temporary results.

Now ALPHOSYL—after extensive clinical trials—shows promise of bringing total clearances in many cases of Psoriasis.

In ALPHOSYL, for the first time, are presented in combination two powerful and proved agents: allantoin and a specially refined coal tar extract. The synergistic effects of these medicaments result in rapid clearance of the condition itself and positive stimulation of the healing processes.

ALPHOSYL LOTION combines these two valuable agents in one preparation and has yielded good clinical results where other medications have failed.

Clinical Properties

ALPHOSYL LOTION

relieves the condition and promotes healing by breaking up the horny layer of psoriatic skin, removing non-viable tissue and combating both the scaling and underlying erythema and induration.

has produced successful results in cases of psoriasis when the whole of the body has been affected from scalp to toe, in cases of many years' duration or when tender areas such as the anogenital and sub-mammary regions are affected.

is notably safe to use. The potential hazards of other forms of treatment—arsenic, mercury, corticosteroids, X-rays—are avoided. No irritation has been observed in any case of psoriasis treated with ALPHOSYL, even those involving tender regions.

does not produce tolerance. Patients continue to benefit from prolonged therapeutic or maintenance applications.

is a welcome advance cosmetically, as it is pleasant to use, non-greasy, non-staining, and vanishes on application to the skin. It may be used freely on the scalp, and is ideal for day or night use.

The impressive successes obtained with ALPHOSYL indicate that it deserves a trial in all cases of Psoriasis—no matter how extensive the area of affection, how long the duration of the condition, or whatever the therapy previously used.

Firestone TYRES — consistently good

When rest and tonic air are what the patient needs

HASTINGS AND ST. LEONARDS

are what the doctor might order

Hastings is one of the nearest places to London that combines a mild climate with complete absence of smog, plus excellent hotels—and the peace and quiet a convalescent needs.

A patient can hardly fail to benefit by (literally) a 'breather' at Hastings. There is, on average, 400 hours more sunshine a year than in

London. There are cleverly designed suntrap shelters on the Promenades. And there is a delightfully relaxed feeling about the whole town. As a spot for taking it easy, Hastings is hard to better.

A postcard to the P.R. 37 Bureau, Hastings, Sussex, will bring you more information.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

Candidates should have had post-war hospital experience, and some evidence of administrative ability inside or outside the hospital service desirable. The appointment will be whole-time and subject to the approved Whitley Council conditions. Applications, stating age, qualifications and experience, with the names of three referees, to the Secretary, North-West Metropolitan Regional Hospital Board, 40, Eastbourne Terrace, W.2, by December 24, 1959, quoting reference 790. (6131)

COMMERCIAL APPOINTMENTS

A LARGE BRITISH PHARMACEUTICAL Company requires a young qualified Physician, preferably aged 25-35, to work in the Ethical Sales Division. The successful applicant will be expected to advise the Company on the use and application of its products and to make his own contribution to the marketing of these products. It will also include the writing of first rate technical sales literature in close co-operation with the Advertising Department, the technical training of medical representatives and the supervision of a department which will deal with technical enquiries from doctors. Applicants should have had at least two years' experience in the Ethical Pharmaceutical industry and should possess a definite flair for writing first-rate medical copy. We are looking for a man of enthusiasm and ability who can develop his own ideas into worthwhile projects and who can make a real contribution to the progress of a rapidly expanding company. Car is provided. There is in operation an excellent Pension and Sick Benefit Scheme. Salary range £1,500 to £2,000 per annum. Please apply, stating age, qualifications and experience, to Box 697, B.M.J.

**MEDICAL SERVICES MANAGER
RIKER**

We invite applications for the newly created post of Medical Services Manager. The successful applicant will be expected to advise the Company on the uses and applications of its products, and to make his own contributions to the formulation and development of new products. He will also be responsible for organizing and setting up clinical trials of established and experimental products. Age is not important, although it is unlikely that a person below the age of 30 would have sufficient experience of the kind we need.

Whilst a medical qualification is desirable, it is not absolutely essential if a degree in a biological science is held and the experience is right. Some knowledge in planning and setting up controlled clinical trials would be an advantage, as would be a better than average knowledge of modern therapeutic agents and their uses.

We are looking for a man of enthusiasm and ability who is prepared to travel about the country, who can develop his own ideas into worthwhile projects, and who can make a real contribution to the progress of the Company.

Salary and working conditions are appropriate to the importance of the position. Applications should be made in writing, in the first instance, to the General Sales Manager, Riker Laboratories Limited, Morley Street, Loughborough, Leicestershire.

Riker Laboratories Limited,
Loughborough, Leics. (5290)

REPUBLIC OF IRELAND**DONEGAL COUNTY COUNCIL****APPOINTMENT OF RADIOLOGIST**

Applications are invited for the post of whole-time, temporary Radiologist. Candidates should hold a recognized Diploma in Diagnostic Radiology and have had at least five years' experience in radiology. Appointment will, subject to satisfactory service, be for a period of six months or until a permanent appointment is made, whichever is the shorter. Salary £2,114 per annum, fully inclusive. Travelling expenses will be paid at approved rates for any travelling necessarily incurred on official duties. Application forms and full particulars of the post may be had from the Secretary, Donegal County Council, Lifford, with whom completed application forms must be lodged not later than December 11, 1959. (6156)

**ST. OTTERAN'S PSYCHIATRIC HOSPITAL
Waterford, Ireland**

Applications are invited for the post of **ASSISTANT PSYCHIATRIST** at the above hospital. Reasonable experience in the specialty is necessary and D.P.M. desirable. Salary £1,000, or with D.P.M. £1,200 per annum. This 600-bed hospital is the centre of the City and County of Waterford Mental Health Services, which are undergoing extensive development. Applications, giving details of age, experience, etc., together with the names of three referees, to be sent to Dr. Vincent Crotty, Medical Superintendent, from whom further information regarding scope of hospital work, O/P clinics and local amenities may be obtained. Latest date for the receipt of applications is December 15, 1959. (6147)

**MEDICAL OFFICER REQUIRED FOR
NIGERIA**

A Medical Officer is required by Dunlop Nigerian Plantations Limited, who are engaged in clearing 20,000 acres of tropical rain forest and planting rubber near Calabar. The Medical Officer selected must be prepared to deal with European and African staff together with a large labour force numbering several thousands. A fully equipped hospital is planned and will shortly be constructed. Preference will be given to a married man under 50 years of age holding a Diploma in Tropical Medical and Hygiene. Apply in writing to the Manager, Dunlop Plantations Limited, 10/12, King Street, London, S.W.1. (6099)

**ANGLO-AMERICAN CORPORATION
OF SOUTH AFRICA, LIMITED****ASSISTANT MEDICAL OFFICERS
South Africa**

There are vacancies in the Corporation's South African Mines Medical Service for Assistant Medical Officers whose qualifications must be registrable in the Union of South Africa. The commencing salary for these appointments is £125 (one hundred and twenty-five pounds) per month, plus a cost-of-living allowance amounting at present to approximately £13 10s. (thirteen pounds and ten shillings) per month. The starting salary may be upgraded should the experience of the successful applicant warrant it. There are regular annual increments in salary.

Leave is at the rate of 30 days per year annual leave, plus bonus and voluntary accumulative leave which amounts to 138 days after every completed five years of service. Study leave, or a grant for study purposes, may be given for approved courses after five years' service. A condition of this leave or grant is that a further three years of service with the Corporation is required.

A pension scheme and a medical benefit scheme are in operation and are a condition of employment.

Suitable houses are provided at a nominal rental of approximately £5 per month, and this includes a reasonable amount of light and water.

In most of our appointments, motor-cars are provided for professional purposes only, and an allowance covering the cost of petrol, oil, servicing, running repairs, and tyres is made. The cars are licensed and insured by the Company concerned.

Medical Officers are subject to transfer in accordance with the requirements of efficient operation of the service, and may be called upon to do relieving duties away from their bases. In the latter case their board, lodging, and travelling expenses are paid.

Application forms can be obtained from Anglo-American Corporation of South Africa, Limited, 40, Holborn Viaduct, London, E.C.1. (6110)

ASSOCIATION OF MEDICAL RECORDS OFFICERS

The Third Congress on Medical Records will be held at the Assembly Rooms, Edinburgh, from April 25 to 29, 1960. The Congress is sponsored by the Associations of Medical Record Librarians in America, Australia, and Canada, and the Association of Medical Records Officers in the United Kingdom, the latter Association being the organizing body. The Congress delegates will be welcomed by the Lord Provost of Edinburgh. The opening address will be given by Sir Kenneth Cowan, M.D., M.B., D.P.H., F.R.C.P., Chief Medical Officer, Department of Health for Scotland, followed by an address from a representative of World Health Organization, Dr. D. P. Stevenson, M.R.C.S., L.R.C.P., Secretary of the British Medical Association, will take the chair for one of the International Study Projects, "Individual Health Record." The programme includes addresses and papers from eminent medical, administrative and medical records speakers from various countries. Mr. John Williams, F.H.A., President of the Institute of Hospital Administrators, will formally open the associated Medical Records Exhibition. The Congress cordially invites all those interested in the science of medical record-keeping and allied subjects to participate in the Congress and assist in the development of techniques and systems, and the promotion of educational facilities in a field which is now accepted as an essential adjunct to good medicine. The attendance at the First Congress (London, 1952) was 306, representing nine countries. Twelve countries were represented in an attendance numbering 723 at the Second Congress (Washington, 1956). It is hoped that the attendance at the Third Congress will be indicative of increasing influence of professionally trained persons meeting internationally to discuss common interests at regular intervals. Details and registration forms may be obtained from the Registration Officer, Miss E. M. Beeby, A.M.R., Registration Officer, Third International Congress on Medical Records, Royal Infirmary, Hull, Yorkshire, England. (6177)

DENTAL AND MEDICAL SOCIETY FOR THE STUDY OF HYPNOSIS

The above society will hold an Intensive Week-end Study Group on the "Theory and Practice of Hypnosis" on December 5 and 6, 1959, in London. Medical practitioners who wish to attend are invited to apply to the Secretary, 63, Twyford Abbey Road, London, N.W.10, when further details will be sent. (5102)

ESSAY PRIZE

The Council of the Association of Anaesthetists of Great Britain and Ireland is at present especially interested in matters which may improve the efficacy and safety of dental anaesthesia. It has therefore been resolved to offer a prize of 200 guineas for the best essay based upon new and original work related to the subject of general anaesthesia for dental surgery. The Council would especially welcome essays dealing with the morbidity and the safe practice of general anaesthesia in the dental chair. Essays should be submitted to the Honorary Secretary, Association of Anaesthetists of Great Britain and Ireland, 47, Lincoln's Inn Fields, London, W.C.2, on or before March 1, 1961. Intending candidates should apply to the Honorary Secretary at the above address for the regulations governing the submission of essays. (6040)

GRESHAM COLLEGE, Basinghall Street, London, E.C.2. Tel.: MONarch 2433

Four lectures by Professor J. L. D'Silva, D.Sc., M.R.C.P. (Gresham Professor in Physic), on "Defence Mechanisms of the Body," on Monday to Thursday, November 30 to December 3. The lectures are free and begin at 5.30 p.m. (6138)

POSTGRADUATE STUDY.—Diploma in Anaesthetics; Diploma in Psychological Medicine; Diploma in Ophthalmology; Diploma in Radiology; Diploma in Laryngology; Diploma in Child Health; F.R.C.S.Ed., and all Surgical Examinations. M.R.C.P. Lond., and all Medical Examinations. M.D. thesis of all Universities. Courses for all qualifying examinations. Complete Guide to Medical Examinations sent free on application. Applicants should state in which qualification they are interested. Address Secretary, Medical Correspondence College, 19, Welbeck St., London, W.1.

ROYAL COLLEGE OF PHYSICIANS OF LONDON

William Sydney Charles Copeman, O.B.E., M.D., F.R.C.P., will deliver the FitzPatrick Lectures on Tuesday, December 8, and Thursday, December 10, 1959, at 5 p.m., at the College, Pall Mall East, S.W.1. Subject: (1) The "Scientific" Basis of Tudor Medicine. (2) Diagnosis, Disease, and Treatment in Tudor Times. Any member of the medical profession admitted on presentation of doctor's card. By order of the President.—Harold Bolddero, Registrar. (6100)

UNIVERSITY OF BRISTOL
Department of Psychiatry

A course of lectures and demonstrations in Psychiatry and Neurology, designed for Part II D.P.M. (Conjoint Board), will be given on Tuesdays and Wednesdays of the 12 weeks commencing March 8, 1960, at Barrow Hospital, Barrow Gurney, near Bristol. The course is open to candidates for Part II D.P.M. and a limited number of other practitioners working in psychiatry. The fee for the course is ten guineas. Applications should be made to the Medical Postgraduate Dean, the University, Bristol. (6:61)

For SUB-ACUTE and Chronic dermatoses TAR + HYDROCORTISONE

combined in

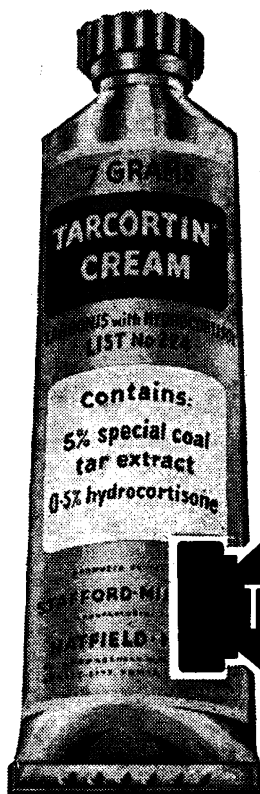

TARCORTIN

CREAM

have pronounced advantages over
either medicament alone

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

*Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM

is supplied in 7 gm. and 15 gm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

* Literature available on request.

RAUWILOID

simplifies anti-hypertensive
therapy.

Alone for mild hypertension.

In combination for severe forms.

'Rauwiloid' was introduced in November 1953—the first Rauwolfia product to be made available in Great Britain. Many reports have since been published reviewing its anti-hypertensive properties and comparing them with those of the barbiturates and single rauwolfia alkaloids, e.g. reserpine.

Where direct comparisons are possible 'Rauwiloid' inevitably emerges as the preferred drug because of its effectiveness, lower incidence of severe side effects such as mental depression and simplicity of dosage which is

2 tablets at night

Tablets containing 2 mg. of the alseroxylon fraction of rauwolfia serpentina.

Bottles of 60 and 500. The basic N.H.S. costs are 9/4d. and 64/-.

'Rauwiloid' is a registered trade mark. Regd. Users,
