

In all
oedematous
conditions

HYDRENOX

HYDROFLUMETHIAZIDE
ORAL DIURETIC

offers the following important advantages:-

- Hydrenox is at least ten times as potent as chlorothiazide.
- The cost of treatment with Hydrenox is lower than with any other potent oral diuretic.
- In many cases a single daily dose produces an adequate response.

**PACK AND
PRICE**

Each tablet contains 50 mg. of hydroflumethiazide. Available in containers of 100 and 500 tablets. Basic N.H.S. price 24/- and 116/- respectively. Normal dosage 1-4 tablets daily.

Literature and further information gladly sent on request

NULACIN "has revolutionized the treatment of duodenal ulcer"

"This new method of the administration of antacids (Nulacin) has revolutionized the treatment of duodenal ulcer... milk drip is no longer part of our therapeutic stock in trade."

PROC. ROY. SOC. MED., December, 1958, 51, 1063

NULACIN tablets, when allowed to dissolve slowly in the mouth, provide intragastric milk-alkali drip therapy safely and effectively for both the bed-ridden and ambulant patient. They may be relied on to provide a treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity.

The safety and effectiveness of Nulacin therapy has been proven by "in vivo" clinical work carried out in many countries. References to this work include:—

- * prompt, aggressive antibiotic action
- * a reliable defence against monilial complications

both are often needed when
bacterial infection occurs

for a direct strike at infection

Mysteclin -V contains tetracycline—phosphate potentiated

It provides a direct strike at all tetracycline-susceptible organisms (most pathogenic bacteria, certain rickettsias, certain large viruses, and *Entamoeba histolytica*).

It provides the new chemical form of the world's most widely prescribed broad spectrum antibiotic.

It provides unsurpassed initial blood levels—higher and faster than older forms of tetracycline—for the most rapid transport of the antibiotic to the site of infection.

for protection against monilial complications

Mysteclin -V contains Nystatin

It provides the antifungal antibiotic, first tested and clinically confirmed by Squibb, with specific action against *Candida (Monilia) albicans*.

It acts to prevent the monilial overgrowth which frequently occurs whenever tetracycline or any other broad spectrum antibiotic is used.

It affords protection against antibiotic-induced intestinal moniliasis and its complications, including vaginal and anogenital moniliasis, even potentially fatal systemic moniliasis.

MYSTECLIN-V

Squibb Tetracycline—Phosphate potentiated and Nystatin

Capsules (250 mg./250,000 u.), bottles of 12 and 100

Suspension (125 mg./125,000 u. per 5 c.c.) 60 c.c. bottles (on reconstitution)

LOMU

70.9% SUBJECTIVE IMPROVEMENT IN CHRONIC BRONCHITIS

Doctors in eight industrial areas report on revolutionary mucolytic

Recently sixty doctors in eight industrial areas with a high incidence of chronic bronchitis were asked to carry out a six weeks investigation on selected chronic bronchitics. The object of this study was to determine the effectiveness of Lomudase, a new mucolytic; Lomupren, a new presentation of the bronchodilator isoprenaline; and the Lomulizer, the new drug-powder disperser by which these drugs are topically applied.

Results of this investigation show that 70.9% of patients treated showed an overall subjective improvement.

THE PROBLEM

Treatment for chronic bronchitis has so far been palliative. It has not touched upon the central fact emerging from pathological studies carried out in recent years; that quite early in the disease the respiratory tract fluid becomes more viscous, sticky and tenacious. As a result, the normal physiological mechanism for removing bronchial secretions is drastically interrupted. The importance of the role played by this fundamental disorder has never been assessed—because up to now no method has existed of freeing the patient from the handicap of this retained sputum.

THE NIDUS OF INFECTION

Now that broad spectrum antibiotics are available, the recurrent episodes of pulmonary infection can be treated, but only at the cost of leaving behind a residuum of highly

viscous mucoid sputum which cannot be coughed up. The patient's disability is thus enhanced, his return to work postponed and a nidus of infection prepared for the next exacerbation.

MUCOLYSIS BY ENZYME

The latest approach has been based on a search for an appropriate mucolytic enzyme, delivered to the site of action with maximum efficiency. These studies indicate that chymotrypsin is the enzyme of choice. Lomudase is chymotrypsin presented as an ultra-fine powder within the particle size range of 2-6 μ .

EFFECTIVE BRONCHODILATION

In the course of clinical investigations it has become clear that a great many bronchitics are also handicapped by spasm of the bronchial musculature to a greater degree than is generally realised. The evidence points to the need for the concomitant use of anti-spasmodic and mucolytic therapies. The highly effective bronchodilator, isoprenaline, is also presented in a 2-6 μ ultra-fine powder form as Lomupren. This produces none of the side-effects that ordinarily accompany the use of sublingual isoprenaline. 0.1 mg. in this unique form produces immediate and maximal bronchodilation.

THE INVESTIGATION

It was considered that Lomudase, Lomupren and the Lomulizer would find their main use in general practice where an investigation was arranged. In order to obtain the fairest possible results, more than 50 exacting criteria were evolved. Only patients with chronic bronchitis of considerable severity were asked to be included; many had underlying emphysema and bronchiectasis.

IMPROVEMENT IN BRONCHITIS

and bronchodilator therapy

The 253 patients investigated lived in Manchester, Stoke, South Wales, Newcastle, West and N.E. London, Glasgow and Belfast. 47 were excluded from the final assessment because their symptoms appeared to point to primary asthma rather than chronic bronchitis.

58 patients received Lomudase and Lomupren together during the whole six weeks. Of these 84.5% showed an overall subjective improvement.

72 patients received Lomupren alone in the first three weeks; Lomudase was added to their treatment during the last three weeks. 91.7% showed overall subjective improvement.

Records of 76 further patients contained insufficient information to be included in the detailed assessment. On the assessment given, 40.8% achieved a satisfactory subjective improvement.

LOMU RANGE OF PRODUCTS

LOMUDASE—0.01 Anson units of chymotrypsin and 0.1 mg. isoprenaline sulphate presented as an ultra-fine powder within the particle size range 2-6 μ . Bottles of 25 cartridges—Basic N.H.S. price 17/9.

LOMUPREN—a similar presentation of 0.1 mg. isoprenaline. Bottles of 25 cartridges—Basic N.H.S. price 6/-.

LOMULIZER—a unique drug-powder disperser which ensures even distribution of the Lomu powders throughout the bronchial tree in their original 2-6 μ particle form. Complete with carrying pouch and comprehensive instructions—Basic N.H.S. price 8/3.

Lomu, Lomudase, Lomupren, Lomulizer are trade marks; patents pending.

GENERAL ANAESTHESIA

Edited by

FRANKIS T. EVANS,

M.B., B.S., F.F.A.F.C.S., D.A.

and

CECIL GRAY, M.D., F.F.A.R.C.S.

The whole wide field of anaesthesia is covered in these two volumes. The first takes in basic principles, covering those specialized aspects of anatomy, physiology and neurophysiology which are important to anaesthetists in their everyday work, pre-anaesthetic considerations, apparatus, blood transfusions, the different methods of administration and many other subjects. Techniques, special fields and hazards are detailed in the second, where the appropriate anaesthetic approach to every type of operation is minutely examined by accepted authorities writing on their own subjects.

In two volumes: Vol. I: Pp. xiv + 545 + Index;
Vol. II: Pp. xii + 443 + Index. 190 illustrations.
£7 7s. net per set, by post 2s. 9d. extra.

Deep skin penetration in Arthritis and Rheumatism

NICOTINIC, SALICYLIC AND
p-AMINOBENZOIC ACIDS in Ester form

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau 1952, 8, 143

an

ENTIRELY NEW

hypnotic

MELSEDIAM

The background of the advertisement is a dark, grainy image featuring a series of concentric, slightly irregular circles or ellipses that create a hypnotic, tunnel-like effect. These lines are superimposed over a lighter, cloud-like texture that is more visible on the right side of the image. The overall color palette is monochromatic, consisting of various shades of gray and black.

- * **Produces natural sleep**
- * **Free from the disadvantages of barbiturates**
- * **Non-habit-forming**

M_E**L**_S**E****D**_I**N**—methaqualone hydrochloride—is a new non-barbiturate hypnotic which produces *natural* sleep and is often effective where other hypnotics have failed. MELSEDIN is of low toxicity, quick-acting—within 15-30 minutes—and its effect lasts for 6-8 hours. Side-effects are negligible; rapid excretion obviates cumulative effects, and neither tolerance nor addiction has been demonstrated in MELSEDIN therapy.

MELSEDIN is an entirely new product chemically unrelated to all other hypnotics. It is the ideal alternative to barbiturates in the treatment of insomnia.

DOSAGE: A dose of 150 mg. 15-30 minutes before retiring will usually be sufficient. In some cases, a dose of 300 mg. may be necessary at first, reducing later as the condition responds.

MELSEDIN is supplied in tablets of 150 mg.

vomiting
of pregnancy

Mornidine for morning sickness

Mornidine is a new phenothiazine in which a useful separation of activities has been achieved. Even at maximum therapeutic dosage levels Mornidine does not have the specific tranquillising action of previous phenothiazine drugs and is therefore not liable to produce the characteristic side effects associated with this type of activity.

Mornidine (brand of Pipamazine) is available as a sugar-coated tablet containing 5 mg.

G. D. **SEARLE** & CO. LTD., HIGH WYCOMBE, BUCKS.

FOR SUPPRESSION OF

severe cough

'PHYSEPTONE' LINCTUS has a direct suppressive action on the cough reflex. It is especially valuable in such conditions as bronchiectasis, pertussis, post-influenzal tracheitis, chronic passive pulmonary congestion, pulmonary tuberculosis, and other conditions requiring a powerful cough suppressant.

'PHYSEPTONE' LINCTUS is not constipating, and seldom causes other side-reactions. Although subject to D.D.A., the Linctus in therapeutic doses carries negligible risk of addiction since only a small amount of the drug is contained in such doses.

'PHYSEPTONE' LINCTUS contains 2 mgm. of methadone hydrochloride in each fluid drachm (the recommended adult dose). For children it should be diluted with simple syrup in the proportion of one part linctus and seven parts syrup—one to two teaspoonfuls (0.25—0.5 mgm.) of this *diluted* linctus to be given according to the age of the child.

how broad is a 'broad spectrum'?

That is no longer the real issue. Today the effectiveness of an antibiotic cannot be assessed on the breadth of its activity. Many strains of the organisms within the spectrum have developed resistance, thus much of the once formidable coverage of broad-spectrum antibiotics is now nullified. This problem is effectively answered by ALBAMYCIN T. Not only does ALBAMYCIN T exert the broad antibacterial activity of tetracycline; it reinforces, intensifies and complements that coverage with the bactericidal action of novobiocin.

Studies¹ confirm that, combined as they are in ALBAMYCIN T, tetracycline and novobiocin are effective against many bacterial strains resistant to either substance used alone. It is this effective **comprehensive** coverage that ensures a more rapid, more certain response with ALBAMYCIN T.

Each 5 cc. teaspoonful of the suspension contains 62.5 mg. novobiocin and 62.5 mg. tetracycline. Bottles of 60 cc.

Brit. Med. J. ii, 658, Oct. 10th 1959

A new approach to combating cross-infection and recurrent staphylococcal infection

Naseptin
TRADE MARK

NASAL-CARRIER CREAM

'Naseptin' Cream offers a new approach to the problem of staphylococcal nasal-carriage, both in hospitals and in general practice.

Staphylococcal infections in general practice

At least 85% of patients with recurrent boils and styes carry the causative staphylococcus in the anterior nares. The importance of dealing with nasal carriage in these patients is now well recognised. Treatment of the anterior nares greatly reduces the number of recurrences of infection.

Hospital cross-infection

Carriers of pathogenic strains in the hospitals, both patients and staff, require treatment with 'Naseptin'. This specially-formulated combination of 'Hibitane' and neomycin has been widely used, and its advantages have been clearly demonstrated.

Advantages

- * Effectively suppresses the staphylococcus in the anterior nares.
- * Easy and pleasant to use.
- * No risk of bacterial resistance.
- * Sensitivity reactions have not been observed.
- * Its use in prophylaxis and treatment will materially reduce the cost to the Health Service of treating staphylococcal infections.

Reference

Lancet, 1957, ii, 1157

'Naseptin' contains 'Hibitane' (chlorhexidine) Hydrochloride 0.1% and Neomycin Sulphate B.P. 0.5% in a water-miscible cream base.

Basic N.H.S. cost 2/4d. plus P.T.

**a NEW ointment for the treatment
of all bacterial skin infections**

A NEW ANTIBIOTIC

ECOMYTRIN Ointment contains amphomycin, 0.5%, a potent new antibiotic derived from *Streptomyces canus* which has substantially the same antibacterial spectrum as penicillin and bacitracin. Neomycin, 0.33%, is also included and these two antibiotics are effective against virtually all pathogenic bacteria. Neither antibiotic is used systemically.

A NEW BASE

ECOMYTRIN differs from other antibiotic ointments in one important respect. Because amphomycin is stable in water, it is possible to make an oil-in-water preparation with the whole of the antibiotic content in the aqueous phase. This has three advantages:

- 1 The antibiotics are brought into very intimate contact with the skin and response is rapid.
- 2 In acute infected weeping lesions, there is no interference with the weeping process (in contrast to greasy ointments).
- 3 ECOMYTRIN is cosmetically acceptable.

rapidly effective · economical · non-greasy · pleasant to use · stable

INDICATIONS: Primary infective skin disorders. Secondly infected skin disorders.

ADMINISTRATION: Ecomytrin should be used three or four times daily in a thin layer applied directly to the affected skin area.

ACTIVE INGREDIENTS: Amphomycin 0.5% Neomycin 0.33%.

PRESENTATION: Ecomytrin is available in tubes of 15 G.

When you examine

TAMPAX

please note...

How easy it is
for your patients
to insert

Please note also—

How flat Tampax expands to fit the vaginal canal.

How gentle its contact with the vaginal epithelium.

How positive its wick action in absorbing the flux.

How dainty it is for the patient to remove.

How well it is adapted to individual needs.

Ease of insertion—so imperative for the successful employment of internal menstrual protection—has been achieved by Tampax in two equally efficient ways. Firstly, by compression of the surgical cottonwool to one-eighth its original size, and secondly by the unique individual applicator that facilitates insertion without orificial stress or irksome effort.

Patients appreciate these practical niceties; and the Medical Profession recognizes the hygienic advantages assured by the unhampered placement of the Tampax in the vaginal canal.

Designed by a physician, Tampax is available in two absorbencies (Regular and Super) to meet individual requirements. Its superior absorbency assures a safe margin of protection, while in addition Tampax serves to minimize the risk of odour...eliminates vulvar irritation...abolishes conspicuous bulging...permits eliminative functions without disturbance...and promotes complete hygiene. It also enables the normal shower or bath to be taken.

If you have not examined Tampax recently, Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Havant, Hants.

PYCAMISAN B.D.

**New PAS+INAH
presentation
for
twice-daily
dosage**

These 5 advantages make T.B. treatment easier for both doctor and patient

- a smaller cachet, which is easier to swallow.
- a safer cachet, because it is wet-sealed, so that patients cannot tip out the contents with consequent risk of wastage or making themselves feel sick.
- twice-daily dosage, which means there is no midday dose to 'forget.'
- one day's supply in each tube, marked 'morning' and 'evening' to tell the patient when his next dose is due.
- new technique for swallowing cachets, described in a leaflet in each box (extra supplies available on request).

Because of these advantages, the patient is more likely to understand and stick to this simple regimen with PYCAMISAN B.D. PYCAMISAN B.D. is an addition to the present Pycamisan range, but its popularity may make it possible to reduce the range.

PYCAMISAN B.D. cachets each contain 1.5 G. Sodium PAS B.P. and 37.5 mg. Isoniazid B.P.

They are wrapped in polythene tubes of eight, providing a total daily dosage of 12 G. PAS and 300 mg. INAH, and are available in boxes of 240 (one month's supply) and 480 (two months' supply).

THE QUÉRE TITROMETER

has wide applications in
recording physico-chemical processes

The Quére Titrometer is a precision instrument for recording titrations accurately. Equipped with an automatically variable recording table to suit the gradient of the curve, it permits the rate of advance to be reduced when the rate of change increases. Reagent flow is controlled by the table mechanism and by changing the jet of the syringe, the volume being represented by the abscissa of the graph and the state of mixture by the ordinate. The circle method determines accurately the end points of titration. *The circuits permit all kinds of potentiometric titrations and with special attachments it is possible to perform conductimetric or polarised-electrode titrations.*

- **PHOTOMETRY** The Quére strip photometer attachment is provided with filters and a vacuum type photocell giving accurate and stable readings.
- **USING A LIQUID MEDIUM** photometric attachment to this Recorder allows any photocolourimetric titration, recording photometric variations instead of equivalent points.
- **INTEGRATION** The Recorder automatically integrates the curve as it is traced. The results are entered on the axis of the ordinate of the curve by means of an electric pen marking 'tens' and 'units'.
- **RECORDING TIME FUNCTIONS** The Titrometer is fitted with a zero drift correcting circuit using an automatic potentiometer. To make accurate measurements it is necessary only to check the zero periodically: the instrument itself will then introduce the necessary corrections.

Write for fully illustrated and descriptive leaflet.

When rest and tonic air are what the patient needs

HASTINGS AND ST. LEONARDS

are what the doctor might order

Hastings is one of the nearest places to London that combines a mild climate with complete absence of smog, plus excellent hotels—and the peace and quiet a convalescent needs.

A patient can hardly fail to benefit by (literally) a 'breather' at Hastings. There is, on average, 400 hours more sunshine a year than in

London. There are cleverly designed suntrap shelters on the Promenades. And there is a delightfully relaxed feeling about the whole town. As a spot for taking it easy, Hastings is hard to better.

A postcard to the P.R. 37 Bureau, Hastings, Sussex, will bring you more information.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £9/2 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

(6521)

Public Health—contd.**CITY OF BIRMINGHAM**
Public Health Department**ASSISTANT MEDICAL OFFICERS**

For Maternity and Child Welfare (male or female)
Applications are invited for the above appointments. The duties are of a clinical nature at Maternity and Child Welfare Clinics, and are also concerned with medical aspects of the care of deprived children. Opportunities are available for candidates with D.P.H. to gain administrative experience in a large active department. There is excellent clinical liaison with the Children's Hospital. Salary scale £1,150 by £60 to £1,510 by £65 to £1,640 per annum, as prescribed by Medical Whitley Council Committee "C." Superannuation scheme, medical examination. Applications, giving full particulars of qualifications and experience, together with names of two persons to whom reference may be made, to be sent to the Medical Officer of Health, Council House, Birmingham, 3, not later than December 28, 1959. (6544)

COUNTY BOROUGH OF ROTHERHAM

Applications are invited from registered medical practitioners (male) for the post of **DEPUTY MEDICAL OFFICER OF HEALTH AND DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER** at a salary within the range of £1,645 by £45 (4) by £40 (1) to £1,865. **THE COMMENCING SALARY WILL BE DETERMINED AT A POINT WITHIN THE SCALE HAVING REGARD TO THE EXPERIENCE OF THE SUCCESSFUL CANDIDATE.**

Applicants must possess a D.P.H. and have had previous experience in school health, maternity, and child welfare, and general public health work. The person appointed will be responsible, under the direction of the Medical Officer of Health, for carrying out administrative and other duties in all sections of the work of the Health Department, and must be capable of assuming full responsibility for the department when necessary. The appointment is whole-time, and the successful candidate will not be allowed to engage in private practice.

The appointment will be terminable at any time by three months' notice in writing on either side and will be subject to the Medical Whitley Council's General Conditions of Service for Public Health Medical Officers. The successful candidate will be required to pass a medical examination.

HOUSING ACCOMMODATION IS AVAILABLE IF REQUIRED.

Forms of application and further information may be obtained from the Medical Officer of Health, Municipal Offices, Rotherham, and must be returned to him, giving the names of three referees and endorsed "Deputy Medical Officer of Health," by January 4, 1960. Canvassing will disqualify.

JOHN S. WALL,
Town Clerk.

Municipal Offices,
Rotherham.

AUSTRALIA
BLACKALL SHIRE COUNCIL.

MEDICAL OFFICER OF HEALTH

The Blackall Shire Council desires to assist a medical practitioner to establish a private practice in the town of Blackall, and for that purpose has constructed a new and modern doctor's surgery and residence combined, which will be made available, unfurnished, at a nominal rental of 50s. a week. The successful applicant will be appointed Medical Officer of Health to the Council and will be paid a salary of £A.800 per annum, and he will be required to carry out immunization campaigns from time to time without additional payment. The Council's object is to have two doctors exercising the right of private practice in the town, the other doctor having this right being the part-time Superintendent of the Blackall Hospital. Blackall is a modern township in Central Western Queensland, being serviced by rail, motor transport, and air. The town is completely sewered, has alternating current, and an unrestricted water supply. The population of the town and district is approximately 3,000. Gentlemen interested in this proposition are invited to apply to the Shire Clerk, Blackall Shire Council, Blackall, Queensland, Australia. (6580)

Applicants should send an outline of their university education, two letters of recommendation, and a small photograph. All replies to be mailed to the Superintendent. (4070)

WAITAKI HOSPITAL BOARD**ACTING SURGEON SUPERINTENDENT
Oamaru Hospital**

Inquiries are invited for the above position for the period of overseas study leave in the United Kingdom of the Surgeon Superintendent in 1960. A higher surgical qualification is essential. A comfortable furnished house is available. Address urgent inquiries to the Surgeon Superintendent, Public Hospital, Oamaru, New Zealand. (6062)

**UNION OF SOUTH AFRICA
Natal Provincial Hospitals Service: Vacancies**

1. The undermentioned posts in the Hospitals Department are vacant and applications are invited from suitably qualified persons for appointment thereto.

2. Applications must be made on the prescribed forms P.H.9, which are obtainable from the Immigration Attaché, South Africa House, Trafalgar Square, London, W.C.2, and should be forwarded to the Director of Provincial Hospitals, P.O. Box 20, Pietermaritzburg, Natal.

3. The closing date for the receipt of applications is January 1, 1960.

MEDICAL OFFICER, Special Grade (Anaesthetics)

Hospital: Wentworth, Durban.
Salary: £2,250 per annum.

Qualifications: A higher diploma in Anaesthetics. Experience of cardiothoracic anaesthesia, including that in operations using extracorporeal and hypothermia technique will be a recommendation.

Duties: The successful applicant will be utilized as an anaesthetist in the Durban Group of Provincial Hospitals, but his services will primarily be required in the Cardiothoracic Surgery Unit at Wentworth Hospital.

Note: A three-bedroomed house close to the hospital is available at statutory Provincial rates.

MEDICAL OFFICER, Grade II or III

Hospital: Addington, Durban.
Salary: £1,740 per annum (fixed); or £1,380 by £60 to £1,560, depending on experience.

Qualifications: Registration as a Medical Practitioner with the South African Medical and Dental Council. For appointment as Medical Officer, Grade II, at a salary of £1,740, an additional requirement is that applicants must have at least three years' experience after qualification.

Duties: Addington Hospital, being an approved hospital, two years' service counts as one year for specialist registration purposes. This post is particularly recommended to a surgeon completing his training who requires practice experience.

Department: Department of Urology.

MEDICAL OFFICER, Special Grade (Anaesthetics)

Hospital: King Edward VIII Hospital, Durban.

Salary: £2,250 per annum.
Qualifications: The Department of Anaesthetics at King Edward VIII Hospital is accepted by the South African Medical Council for specialist training, and King Edward VIII Hospital is a Teaching Hospital attached to the Durban Non-European Medical School. A higher qualification in anaesthetics will be a recommendation. (6357)

UNIVERSITY OF MELBOURNE**SENIOR LECTURER IN CLINICAL
BIOCHEMISTRY**

Applications are invited for the above-mentioned position. The Senior Lecturer's duties will be chiefly with medical students and it is essential that he should be familiar with modern methods in clinical biochemistry. It is also desirable that he should hold a medical qualification. The salary range is £A.2,200 per annum to £A.2,600 per annum or, if medically qualified, £A.2,300 per annum to £A.2,850 per annum. Commencing salary will be fixed according to qualifications. Superannuation similar to F.S.S.U. in Great Britain will be provided. It is desirable that the appointee should commence duty early in March, 1960, or as soon thereafter as possible. Conditions of appointment may be obtained from the Secretary, Association of Universities of the British Commonwealth, 36, Gordon Square, London, W.C.1. Applications close on January 4, 1960. (6558)

**WAIKATO HOSPITAL BOARD
Hamilton, New Zealand****ANAESTHETIST**

Applications are invited from suitably qualified medical practitioners of the British Empire for the position of full-time Anaesthetist at the Rotorua Hospital, Rotorua. The salary will be that applicable to a Junior Specialist, £1,660 to £1,960 per annum, and the commencing rate within this scale will be determined by the Medical Officers' Salaries Grading Committee as constituted under the Hospital Employment (Medical Officers) Regulations. Conditions of appointment and official application forms are available from the office of the High Commissioner for New Zealand, 415, Strand, London, W.C.2. Applications close with the Secretary, Waikato Hospital Board, P.O. Box 934, Hamilton, New Zealand, on Friday, February 12, 1960. (6158)

UNIVERSITY COLLEGE HOSPITAL
Ibadan, Nigeria
Department of Pathology**SENIOR REGISTRAR IN MORBID ANATOMY**
SENIOR REGISTRAR IN HAEMATOLOGY

The Board of Management invite applications from medical practitioners with the requisite post-graduate experience and qualifications for appointment as Senior Registrars in Morbid Anatomy and Haematology. The salary offered is £1,542 per annum, rising by three increments to £1,722 per annum, plus an inducement addition payable to an expatriate doctor of £300 per annum. Candidates should have had three years' experience in pathology. The appointments will be initially for one tour of 12 months and will be renewable by mutual agreement for a further tour of 12 months. On satisfactory completion of the agreement, a gratuity of £37 10s. will be paid for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Liberal leave and passage allowances are granted and full particulars will be sent to applicants, together with additional information and details of a scheme whereby doctors can continue to pay N.H.S. Superannuation scheme contributions. Requests for application forms should be addressed to Adviser on Staff Recruitment, University College Hospital, Ibadan, 91, Regent Street (Third Floor), London, W.1, by whom completed application forms should be received not later than December 22, 1959. (6561)

UNIVERSITY COLLEGE HOSPITAL
Ibadan, Nigeria
General Out-patient Department**SENIOR HOUSE OFFICER/REGISTRAR**

The Board of Management invite applications from registered medical practitioners for the above appointment in the General Out-patient Department of the new teaching hospital. The General Out-patient Clinic selects cases for the Consultant Clinics and with 3,000 new patients a month provides clinical work of great variety and interest in both general and tropical medicine in adults and children. The salaries offered for the posts are: Registrar £1,266 per annum, rising by one annual increment to £1,320 per annum; Senior House Officer £1,212 per annum. In addition an inducement addition of £270 per annum on a salary less than £1,285 per annum, or £300 per annum when the salary is £1,285 per annum or over, is payable to an expatriate doctor. The appointment will be initially for one tour of 12 months and will be renewable, in the case of a Registrar, by mutual agreement for a second tour. On satisfactory completion of the agreement a gratuity of £37 10s. will be paid for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Liberal

leave and passage allowances are granted and full particulars will be sent to applicants, together with additional information and details of a scheme whereby doctors can continue to pay N.H.S. Superannuation scheme contributions. Requests for application forms should be addressed to Adviser on Staff Recruitment, University College Hospital, Ibadan, 91, Regent Street (Third Floor), London, W.1, by whom completed applications should be received not later than December 19, 1959. (6560)

WELLINGTON HOSPITAL BOARD
Wellington, New Zealand

ASSISTANT RADIOLOGIST, Wellington Hospital
Immediate applications are invited from registered medical practitioners for the full-time position of Assistant Radiologist at the Wellington Hospital. Applicants, who are required to possess a higher qualification in Diagnostic Radiology, must either be registered in New Zealand or hold qualifications entitling them to registration in New Zealand and should qualify as Senior or Junior Specialist as defined in the New Zealand Hospital Employment Regulations, 1957. The position is subject to grading. The minimum salary in accordance with the regulations for Senior Specialists is £2,060 per annum, New Zealand currency, and for Junior Specialists is £1,660 per annum, New Zealand currency. Duties are to commence as soon as possible. Intending applicants should apply to the High Commissioner for New Zealand, 415, The Strand, London, W.C.2, for a schedule of information regarding this position. Applications, giving full details as to age, qualifications, experience, and stating the earliest date upon which duty can be commenced, should be forwarded by airmail and addressed to the Secretary, Wellington Hospital Board, Private Bag, Wellington Hospital, Wellington, New Zealand.—A. F. Wilton, Secretary. (6392)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.**

APPLICATIONS ARE INVITED FROM
persons trained in Psychological Medicine to undertake a survey which is being financed by the Nuffield Provincial Hospitals' Trust into mental health needs in the County of Anglesey. The survey is expected to take 2-3 years and affords an excellent opportunity to conduct original research. The Departments of Studies in Psychological Medicine and Social Science, University of Liverpool, are co-operating in the survey. Salary scale for Senior Registrars, travelling allowance, superannuation. Further details obtainable from the undersigned, to whom application forms must be returned by January 15, 1960.—G. Wynne Griffith, County Medical Officer of Health, Shire Hall, Llangefni, Anglesey. (6572)

BEIT MEMORIAL FELLOWSHIPS FOR MEDICAL RESEARCH

Notice is hereby given that an election of Junior Fellows to begin work on October 1 next will take place in May, 1960. Junior Fellowships have successive annual values of £900, £950, and £1,000 for three years. As a rule, superannuation benefits are provided, to which the successful candidates will be required to contribute 5% of the annual stipend and to which the Trust will make a contribution of 10%. Candidates must have taken a degree in a faculty of a university approved by the Trustees in Her Majesty's Dominions, Protectorates and Mandated Territories, India, Pakistan and the Republic of Ireland, or a medical diploma registrable in the United Kingdom. Elections to Junior Fellowships are rarely made above the age of 35 years. Applications from candidates must be received not later than April 1. Candidates must submit evidence that they can be given accommodation in the departments where they propose to work, which must be either in Great Britain or Ireland. Forms of application and all information may be obtained by letter only, addressed to Sir Roy Cameron, F.R.S., Beit Memorial Fellowships for Medical Research, University College Hospital Medical School, University Street, London, W.C.1. For overseas candidates forms of application may be obtained from the Secretary, South African Medical Council, P.O. Box 205, Pretoria, South Africa; the Ministry of Health, the Government of India, New Delhi, India; the Government of East Pakistan, Eden Buildings, Ramna, Dacca, East Pakistan; the Director, Commonwealth Office of Education, Box 3879, Sydney, Australia; the Department of Health, Wellington, New Zealand; and the Canadian Medical Association, 244, St. George Street, Toronto, Canada. (6415)

LONDON SCHOOL OF HYGIENE AND TROPICAL MEDICINE
Keppel Street, London, W.C.1

Applications are invited for

- (a) **SENIOR LECTURESHIP** and
(b) **LECTURESHIP**

in the Department of Human Nutrition

Appointments will be made from April 1, 1960. Candidates for post (a) should be qualified in medicine, but not necessarily for post (b). For both posts knowledge and experience of applied nutrition will be an advantage. Salary scale: (a) Senior Lecturer £1,650 by £100 to £1,950, with possibility of extension to £2,150; (b) Lecturer £1,100 by £100 to £1,650, plus £60 London allowance. Initial salaries according to qualifications and experience. F.S.S.U. and family allowances of £50 for each child. Applications, with names of three referees, should be sent to the Dean by December 31, 1959. (6457)

NUFFIELD FOUNDATION**DENTAL FELLOWSHIPS AND SCHOLARSHIPS**

The Nuffield Foundation invites applications, from citizens of the United Kingdom, for Fellowships and Scholarships in Dentistry. To help the advancement of teaching and research in the United Kingdom on dental health and diseases, the Foundation is prepared to award a number of Fellowships: (i) to enable selected men and women with dental qualifications to receive such additional training in pure and applied science as is desirable to fit them for an academic career in dentistry (but not to obtain a medical qualification) and (ii) to enable selected university graduates in medicine and science to receive training that will qualify them to undertake teaching and fundamental research on dental health and diseases. The Foundation is also prepared to award a limited number of Scholarships to assist students of outstanding ability attending a university dental school to devote one or two years to further studies of the basic sciences. All applications must first be endorsed by the executive authority of the appropriate dental or medical school or scientific faculty of a university in the United Kingdom. They must be received by the Foundation by March 1 in the case of Fellowships, which are awarded once a year; and by January 31 and June 30 in the case of Scholarships, which are awarded twice a year. Copies of the conditions of both Fellowships and Scholarships and the application forms are obtainable from the Director, the Nuffield Foundation, Nuffield Lodge, Regent's Park, London, N.W.1.—L. Farrer-Brown, Director of the Nuffield Foundation. (6377)

ROYAL NORTHERN HOSPITAL
Holloway Road, London, N.7**SENIOR HOUSE OFFICER**

required for medical aspects of research (British Empire Cancer Campaign) for the determination of extent of the spread of breast cancer utilizing tracer doses of radioactive phosphorus. One year from January 1, 1960, in first instance. Post might be suitable for candidate reading for a higher examination. Application forms obtainable from Hospital Secretary. (6107)

University and Research**Appointments, etc.—contd.****UNIVERSITY OF LONDON****READERSHIP IN PHYSIOLOGY**
at Middlesex Hospital Medical School

The Senate invite applications for the Readership in Physiology tenable at Middlesex Hospital Medical School (salary scale £1,650 to £2,250 a year, plus £80 London Allowance). Educational and Lectures—contd.**INSTITUTE OF OBSTETRICS AND GYNAECOLOGY**
(University of London)

A three-day Course for Senior Registrars and Registrars in Obstetrics and Gynaecology will be held at Queen Charlotte's Maternity Hospital, the Hammersmith Hospital, and the Chelsea Hospital for Women, from February 10 to 12, inclusive, 1960. Applications to attend should be submitted to the Secretary, Institute of Obstetrics and Gynaecology, Chelsea Hospital for Women, Dovehouse Street, London, S.W.3. Early application is advisable as there is an agreed limit to the optimum number for acceptance. Preference will be given to Senior Registrars, particularly Regional Senior Registrars. (6435)

SCHOOL OF HYGIENE
UNIVERSITY OF TORONTO

DIPLOMA IN BACTERIOLOGY COURSE, 1960
The School of Hygiene provides instruction in medical microbiology to physicians and other university graduates with suitable laboratory experience. The instruction prepares candidates for the Diploma in Bacteriology of the University of Toronto. The next course begins September 9, 1960, and covers in a period of nine months the following subjects: systematic bacteriology, systematic virology, sanitary bacteriology, medical parasitology, medical mycology, and statistical methods. Fees, approximately \$540. Overseas candidates should consult their Governments about Fellowships for study in Canada. For further details apply to Dr. A. J. Rhodes, Director, School of Hygiene, University of Toronto, Toronto, 5, Canada. (6378)

THE UNIVERSITY and the ROYAL FACULTY OF PHYSICIANS and SURGEONS OF GLASGOW**Postgraduate Medical Education Committee****COURSE ON THE USE OF ISOTOPES IN MEDICAL AND BIOLOGICAL RESEARCH**

Two courses of instruction for research workers in universities and hospitals will be held in Glasgow: (1) from Monday, March 28, to Friday, April 8, 1960; and (2) from Monday, September 19, to Friday, September 30, 1960. The courses will be directed by Dr. J. M. A. Lenihan, Regional Physicist to the Western Regional Hospital Board of Scotland, and Mr. F. W. Jennings, Senior Lecturer in Veterinary Biochemistry. The object of the courses is to give instruction in the techniques by which radioactive isotopes are used in medical and biological research. Lectures, demonstrations and laboratory classes will be held in the Glasgow University Veterinary School, the Physics Department of the Western Regional Hospital Board and the Gardiner Institute of Medicine. Twelve places will be available in each course. Applicants must be graduates in medicine or in one of the biological sciences. The fee is £10 10s. Application forms may be obtained from the Convener of the Postgraduate Medical Education Committee, the University, Glasgow, W.2, to whom they should be returned before February 1, 1960, for the first course, and July 15, 1960, for the second course. Candidates who are accepted will be notified shortly after these dates. Anyone who applied for admission to a previous course and failed to obtain a place should submit a fresh application if he wishes to be considered for one of the forthcoming courses. (6379)

UNIVERSITY OF CAMBRIDGE**School of Postgraduate Medical Teaching and Clinical Research**

A colloquium on Clinical Aspects of Nutrition will be held on April 6, 7, 8, and 9, 1960, and will consist of lectures and discussions on the fundamental principles of nutrition, undernutrition, overnutrition, growth, bony development, and the hazards of strontium-90. This course is open to university and hospital medical and scientific staffs and registered medical practitioners. Course fee £5 5s. Enrolment forms, provisional programme, and particulars of college accommodation arrangements may be obtained from the Secretary, The Medical School, Tennis Court Road, Cambridge. (6436)

WESTMINSTER MEDICAL SCHOOL
(University of London)
Department of Clinical Measurement**INSTRUMENTATION FOR CLINICAL MEDICINE**

A course will be held on the above subject from January 6 until May 25 on Wednesday evenings from 6-7 p.m. and 7.30-8.30 p.m. An account will be given of the basic principles of physical and physico-chemical requirements in instruments for various branches of medicine, including cardiology, anaesthetics, neurology, obstetrics and surgery.

The course will be limited to 25 applicants and is designed for Registrars undergoing training which includes clinical measurement, and for medical staff responsible for equipping medical and surgical units.

The fee will be £10 10s. Further particulars may be obtained from the Secretary, Westminster Medical School, Horseferry Road, London, S.W.1. (6557)

SOCIETY OF APOTHECARIES OF LONDON.—Medicine and Surgery: December 7, January 11, February 8. Midwifery and Pathology: December 8, January 12, February 9. Mastery of Midwifery: May and November. Diploma of Industrial Health: July and December. For regulations, apply Registrar, Apothecaries' Hall, Black Friars' Lane, London, E.C.4.

SITUATIONS VACANT**Experimental Cancer Research**

Research worker required to take part in investigations into problems connected with cancer and radiation effects. Biological, radiobiological or pathological research experience desirable. Salary up to £1,150 per annum. Apply, in writing, to Secretary, St. Mary's Hospital Medical School, Paddington, W.2. (6417)

University of Khartoum

Applications are invited for a

Technician or Senior Technician

in the Department of Pathology, University of Khartoum. Salary scales: Technician £S.950 by £S.50 to £S.1,200 per annum; Senior Technician £S.1,250 by £S.50 to £S.1,500 per annum. CRUISES AND TOURS**CHRISTMAS IN AUSTRIA**

Spend Christmas in Austria this year at fashionable St. Anton or Kitzbuhel. We have parties leaving on December 19 by air, staying a fortnight, and returning on January 2. There is a wide choice of hotel accommodation, but the overall inclusive charge is incredibly low. Both resorts are gay and full of life at this time of year, and the skiing should be good, too. Why not take your children for an exciting Christmas abroad this year, at prices you can afford?

Kitzbuhel fortnight from £34

St. Anton fortnight from £38 15s.

Also weekly departures for ski-ing in these two centres and Obergurgl from December 26.

Fully illustrated brochure from

LORD BROTHERS,
54/62, Regent Street, London, W.1.

SPRINGFIELD HOUSE, near BEDFORD

Phone: Bedford 3417

For Mental Cases (including the aged). Fees from ten guineas per week. For terms of admission, etc., apply to the Resident Physician, Cedric W. Bower. Interviews in London by appointment.

WYKE HOUSE, ISLEWORTH, MIDDLESEX

Tel.: ISLeworth 7000

A Private Nursing Home for the individual treatment and care of all forms of Nervous and Mental Illness, including addiction. The number of patients is limited to twenty-five, and all modern treatments are available. This well-known home for men and women and the aged stands in a park of 15 acres, seven miles from Marble Arch. Resident Physicians: H. Pullar-Strecker, M.D., G. W. Smith, O.B.E., M.B.

BOWDEN HOUSE

HARROW-ON-THE-HILL, MIDDLESEX

Established in 1911. Tel.: BYR on 1011 and 4772. (Incorporated Association not carried on for profit)

A private nursing home for patients suffering from the neuroses and nervous disorders. Patients under certificate not accepted. 30 minutes from Marble Arch. Six acres of grounds. Intensive psychotherapy. Analytical therapy. All modern forms of physical psychiatric treatment. Occupational therapy, both indoor and outdoor. All treatment by the members of the staff is inclusive and the fees range from 25 to 30 guineas per week, depending on the room occupied.—Apply Medical Director.

HAYDOCK LODGE

Newton-le-Willows, Lancs

For treatment of mental and nervous diseases. Apply Medical Superintendent for terms, etc.

ST. ANDREW'S HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt. Thomas Tennent, M.D. F.R.C.P., D.P.H., D.P.M. This registered hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided. **MOULTON PARK.**—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department of Diathermy and high frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

WOODSIDE NURSING HOME

Combe Down, Bath. Tel.: Combe Down 3227. Medical, Chronic, and borderline cases received. Trained nurses, day and night. Moderate fees.

Elegance costs nothing extra

The cost to the N.H.S. of 4-fl. ozs. of RUBELIX is the same as that of the National Formulary equivalent Linctus Pholcodine. RUBELIX, a more elegant preparation is of equal potency (4 mg of Pholcodine in 60 m.) and contains in addition Ephedrine Hydrochloride (6 mg in 60 m.)

COUGH SYRUP
sedative and anti-spasmodic
for cough sedation

Each teaspoonful (4 ml.) of Rubellx
contains 4 mgm. Pholcodine
(Morpholinylethylmorphine) and 6 mgm.
Ephedrine Hydrochloride in a palatable
demulcent base.

"Rubelix" is indicated where the suppression of cough is required in the treatment of bronchial or pulmonary disorders. It has proved excellent for children.

29 ways to guarantee healthy mixed feeding

HEINZ Baby Foods are a "team" of 29 different varieties, and you know that planned variety is the essential factor in a modern mixed diet.

HEINZ Baby Foods are all made to the Heinz standard. That means only the very best meat, fruit and vegetables—cooked by methods which retain maximum nutrients. The result is a product more hygienic, more nutritious than could be prepared in most homes.

HEINZ Baby Foods are good for babies—and mothers too. When Heinz do the cooking, mothers have more time to spend with baby, and meal times are fuss-free, happy and contented.

Why parents need special aspirin for their children...

Many parents find it difficult to measure sub-doses of adult aspirins when they have to administer them to children. Angiers Junior Aspirin overcomes this difficulty because it is correctly measured to the safe child's dose of $1\frac{1}{2}$ grains of aspirin per tablet.

Not only is Angiers Junior Aspirin easy for parents to administer safely but children find it pleasant to take because it is orange-flavoured. Angiers Junior Aspirin also contains $1\frac{1}{2}$ grains of Di-calcium Phosphate per tablet, to check any possible acid irritation of sensitive stomachs.

ANGIERS JUNIOR ASPIRIN

Nutritional needs in convalescence

Convalescents in general require a full well-balanced diet. Specific needs vary with individuals, but it is always important to ensure an adequate supply of all the essential nutrients. It is now known also that it is specially necessary to build up a nutritional reserve before operation. Lack of proper attention to nutrition may be one of the factors causing a delayed recovery.

As a dietary source of the B vitamins Marmite has proved particularly useful, since it can readily be included in the menu in a variety of ways.

MARMITE

yeast extract

contains

Riboflavin (vitamin B₂) 1.5 mg. per oz.
Niacin (nicotinic acid) 16.5 mg. per oz.

Special terms for packs for hospitals, welfare centres and schools
