

In light diets . . .

In light diets, as well as under more normal regimes, Lucozade fulfils a most valuable role, not only in abating thirst and protecting the mucosa of the mouth, but also in arousing the appetite and contributing to the retention of more solid food. Lucozade is especially useful in the diet of patients in whom nausea of pregnancy, dehydration, or other special conditions make it necessary to supply an easily tolerated, nutritious fluid intake.

Lucozade is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose and its energy value is 21 Calories per fluid ounce. It is supplied in 6 oz. and 26 oz. bottles.

RASTINON

PROVIDES COMPLETE ORAL CONTROL
without risk of hypoglycaemia

WHEN ELDERLY DIABETIC PATIENTS *live alone* they can be a special source of concern because nobody will know of their distress or come to their assistance should hypoglycaemia occur.

It is reassuring to know that a large number of these patients* can now be controlled *orally* with RASTINON (tolbutamide)—without the risk of hypoglycaemia.

In patients in whom maintenance dosage has been established, RASTINON lowers the blood sugar to normal levels but almost never beyond that point, regardless of dosage. RASTINON is a true euglycaemic agent.

In many cases, one tablet by mouth once or twice a day is all that is necessary for maintenance. Thus, even with patients not capable of accurate self-injection, correct dosage is possible.

There is no added cost of treatment for the patient previously on insulin.

* Over 1,250,000
diabetics all over the
world owe their well-being
to RASTINON. The rate
of response increases
steeply with advancing age.

the HIGH PEAK oral penicillin

BROXIL produces a greater concentration of antibiotic in the blood after oral administration than any other oral penicillin. It produces blood level peaks two to three times as high as those following oral potassium penicillin V, and at least equal to those following intramuscular injections of penicillin G.

BROXIL has an antibiotic spectrum similar to other forms of penicillin.

BROXIL is the first of the new antibiotics prepared from the penicillin "nucleus" — 6-aminopenicillanic acid — isolated in the Beecham Research Laboratories.

Do you make full use of 'Largactil'?

Since its introduction some five years ago, 'Largactil' brand chlorpromazine hydrochloride has been used in over ten million patients. Its use has become established in such specialized fields as Psychiatry, Obstetrics, Geriatrics, Paediatrics and Anaesthesia.

The value of 'Largactil', however, is in no way confined to the specialist. Some general practitioners have successfully applied the pharmacological properties of this drug to the treatment of conditions they encounter in their everyday practice. It is as a result of their experience that we invite other practitioners to consider the following applications of 'Largactil'.

- ▶ The treatment of moderate to severe mental and emotional disturbances and many somatic conditions complicated by emotional stress.
- ▶ The prevention and treatment of severe nausea, vomiting and hiccough.
- ▶ The relief of otherwise intractable pain. 'Largactil' enhances the actions of analgesics and hypnotics and thereby allows smaller amounts of these agents to be used.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

**MEDICAL RESEARCH COUNCIL/WORLD
HEALTH ORGANIZATION/INDIAN
GOVERNMENT****Tuberculosis Chemo-therapy Centre, Madras****SENIOR MEDICAL OFFICER (Director)**

The post of Senior Medical Officer and Director of this Project will become vacant in 1960, and the Medical Research Council, on behalf of the World Health Organization, wish to obtain a man of first-class attainments to fill it. The Centre, for which the Council have scientific responsibility, was started in 1956, and is in a fully productive state of research development. In addition to an Out-patient Clinic, it has a well-equipped routine and research laboratory, a Statistical Department, and a Sanatorium Unit. Therapeutic trials are being made on the best forms of domiciliary chemotherapy for tuberculosis in the Indian setting; studies are in progress also on the epidemiology of the disease in contacts, and on many laboratory questions. The results are expected to be of benefit in solving certain outstanding tuberculous problems, not only in India but generally. The candidate must have initiative and drive; be interested in clinical and epidemiological research; have experience in the social and preventive, as well as clinical, aspects of tuberculosis; be able to direct a large staff; and be prepared to do some postgraduate teaching. He should be aged under 50, and must have a higher medical qualification. The successful candidate will be employed by W.H.O. by contract for two years in the first instance, probably extendable to 1966. Salary £7,300, income tax-free under the usual W.H.O. arrangements, with yearly increments of £225. In addition, there are certain local and general allowances, e.g., dependant and installation allowances, and educational grants, and service benefit on termination, all tax-free. First-class air passages for successful applicant and dependants to India and back. Appointment to start as soon as possible so as to ensure overlap in Madras, and to include initial training in London. It may be possible to arrange for the secondment of the successful candidate if he is at present employed by the National Health Service or the Medical Research Council. Applications (two copies), giving age, qualifications, details of experience, and the names of three professional referees, should be sent to the Personnel Officer, Medical Research Council, 38, Old Queen Street, Westminster, London, S.W.1, within two weeks of the publication of this notice. Candidates placed on the short list will be asked to fill up World Health Organization questionnaires. (7499)
