

the new magic of Malta

The world's newest, year-round Mediterranean playground

> There's an accent on relaxation in Malta-where a holiday inspires the

feeling that one has at last got away from it all. Perhaps that is why it is becoming increasingly fashionable among people in search of a changing rhythm from the hurly-burly of life. Possibly the scenery accounts for itthe sands are whiter, the skies bluer, the sea warmer. Or it could be the year-round sunshine. Of course there's the kind of sport that helps one to limber up in a way all of us would like to-effortlessly. Or can we ascribe Malta's popularity to 'atmosphere'—an atmosphere fostered by the cultural legacies of civilizations going back 5000 years. In the silver shadows of its cathedrals and grand palaces history does seem to come alive.

When you recommend a rest, recommend Malta—In fact, take a trip there yourself sometime.

only a few hours by air-in the centre of the Mediterranean

Consult your travel agent—he will save you time and effort.

The successor to the tranquillizers

Literature & samples available from ROCHE PRODUCTS LIMITED, 15 MANCHESTER SQUARE, LONDON, W.1 THE TOWER
AND
THE BRIDGE-

twin symbols of a great pharmaceutical company

The people, animals, or objects displayed in symbols usually have two "lives"—one as what they are, and one as what they stand for. The lion that stalks the jungle is a real lion, very much alive. The symbolic lion of state stands for a set of national values—strength, courage, nobility—qualities of the lion itself.

Many trade symbols have this same "double life."

At Farbwerke Hoechst, A.G., Frankfurt, there is, indeed, a tower, to which is connected a bridge; they make an attractive pair of buildings, and are well-known to visitors to Hoechst.

But—in the Hoechst trade-mark—the tower and the bridge also stand for things valued by Hoechst. The soaring tower symbolizes the high-aiming endeavour and far-seeing research of the Company's personnel. The sweeping bridge for the far-flung connections, obligations, and trust that exists between Hoechst and the world at large—"the bridge of confidence."

300 graduate scientists—chemists, doctors, pharmacists—are employed by Hoechst in Frankfurt in the pharmaceutical field alone. They work in ultramodern laboratories with advanced equipment. And they work within a tradition of ambitious endeavour and significant discovery—inspired by such illustrious predecessors as Emil von Behring and Paul Ehrlich, originators respectively of the first diphtheria antitoxin and Salvarsan.

A soaring tower—and a sweeping bridge... these are fitting symbols for a pharmaceutical company that is second to none both in research and in production.

SOME OF THE MAJOR DISCOVERIES OF HOECHST SCIENTISTS

1958	Reverin	1921	Metamizol
1955	Rastinon	1910	Arsphenamine
1948	Normethadone	1906	Epinephrine
1945	Methadone	1905	Procaine
1939	Pethidine	1897	Amidopyrine
1931	Tetracaine	1892	Diphtheria Anti-toxin
1923	Mersalyl	1884	Phenazone
1922	Rivanol		

Diabetes

8 of these could be on Rastinon therapy

How many of your patients could be stabilized on Rastinon?

a case for

It is reported that twelve per thousand is the true incidence of diabetes in Great Britain. For every known case of diabetes there is another as yet undetected and untreated.* The majority of these undetected diabetics will be middle-aged and have diabetes of recent onset.

For the diabetic over forty years of age whose condition has been discovered recently, Rastinon tablets offer an oral treatment which is safe, effective and economical.

stelazine

pre-eminent in psychiatry
— and in general practice

One of the most powerful and selective of the tranquillizing phenothiazines, 'Stelazine' occupies a pre-eminent position in clinical practice today.

The outstanding efficacy of 'Stelazine' in the treatment of severe mental illness has firmly established its place in psychiatric medicine, while its ability to control anxiety and tension in the ambulant patient, and its potent anti-emetic action, have rendered it invaluable in the wider field of general practice.

Smith Kline & French Laboratories Ltd Welwyn Garden City, Herts

FORMULA: 'Stelazine' contains 2-trifluoromethyl-10-(3'[1"-methyl piperazinyl-4"]-propyl) phenothiazine dihydrochloride.

* Stelazine '(trade mark) brand of trifluoperazine.

*SZL:PA400(Col)

demethylchlortetracycline...

. . . but for doctors who want to prescribe the most active tetracycline so far introduced into medicine, it's simpler to write LEDERMYCIN.

LEDERMYCIN demethylchlortetracycline surpasses other tetracyclines in so many ways—lower dosage, greater stability, higher therapeutic blood levels, fewer side effects. Ledermycin maintains effective antibacterial action for as long as 48 hours after stopping dosage—giving added protection for the patient. These are virtues proved in clinical trials and supported by continually increasing prescription in both hospital and general practice.

Ledermycine

NARPHEN TRADE MARK BRAND

BRAND PHENAZOCINE (NIH 7519)

new synthetic analgesic more powerful than morphine

NARPHEN is chemically 2'-hydroxy-5,9-dimethyl-2-phenethyl-6,7-benzomorphan; its 'Approved Name' is phenazocine.

NARPHEN is a quick-acting and potent analgesic that is more powerful than morphine and pethidine. Early reports show that Narphen is from 3 to 10 times more effective an analgesic than morphine.

NARPHEN produces less respiratory depression, less hypotension, and less nausea and vomiting than morphine.

NARPHEN appears to produce addiction more slowly than morphine and the effects of withdrawal are less intense.

NARPHEN is available in boxes of 10 and 100 ampoules each containing 2 mg. per 1 ml. ampoule.

NARPHEN is subject to the Dangerous Drugs Regulations

involving extensive hairy and inaccessible areas.

- antipruritic relief.
- *minimal local irritation and less chance of local contamination.
- when Adcortyl-A is applied topically.
- easy to apply, gives broad, even coverage, and permits observation of lesions as they heal.

Indications: Atopic dermatitis, contact dermatitis, eczematous dermatitis, neurodermatitis, seborrhoeic dermatitis, insect bites, pruritus ani and vulvae, lichen simplex chronicus, exfoliative dermatitis, stasis dermatitis, nummular eczema, sunburn.

A convenient aerosol spray-for the treatment of dermatoses- Administration: Apply the spray to the affected areas from a particularly useful in acute, exudative, weeping lesions, or those distance of 3 to 6 inches, t.i.d. or q.i.d. A 3-second spray (delivering approximately 0.1 mg. of triamcinolone acetonide) covers an area *provides potent topical anti-inflammatory, anti-allergic and about the size of the hand. Cover the eyes when using Adcortyl-A Spray on or near the face.

Supply: Adcortyl-A Spray in 50 Gm. containers of 3.3 mg. *metabolic studies show electrolyte disturbance does not occur triamcinolone acetonide. Basic N.H.S. cost 10/4d. Also available— Adcortyl-A Ointment and Lotion with or without Graneodin.

A Century of Experience Builds Faith

Sound sleep . . . fresh awakening

Medomin[®] Geigy

Dose: 1 tablet taken ½ - 1 hour before retiring. Available in tablets of 200 mg Heptabarbitone (Cycloheptenylethyl barbituric acid) Containers of 10, 100, 1000

Medomin presents the surety of hypnosis through the barbituric acid nucleus. One tablet taken $\frac{1}{2}-1$ hour before retiring will give 8-8 hours natural sleep. Because of the rapid breakdown and elimination of this barbiturate there is a fresh awakening with no clouding of the mind. Medomin thus represents a genuine advance in hypnotic therapy. Its action is positive and yet so smooth and free from side effects that it may safely be given to children.

'209 patient-nights on Medomin and 79 patient-nights on butobarbitone are reported on. Results tell strongly in favour of Medomin (91 per cent very good response as compared to 58 per cent with control sedative). Out of the 209 there were only two cases of "hangover-like" symptoms.' Med. Press, 243, 131 (1960).

For the convalescent patient

Anabolex

the protein anabolizing, non-virilizing steroid promotes

- a return to appetite—an increase in weight—a sense of well-being

PATIENTS who are run down or who are recovering from illness frequently suffer from faulty protein metabolism. They are in negative nitrogen balance. Protein, in effect, is being broken down and lost faster than it is being built up.

Anabolex (androstanolone) restores the physiological balance. Many clinical trials have shown that, following the administration of Anabolex, there is an immediate return of the body's capacity to build up protein. The patient feels better, eats better and gains weight.

Here, then, is a physiological "tonic" with a wide therapeutic range. The weakness, lassitude, lack of energy and interest associated with many pathological states may be rapidly overcome by the administration of Anabolex.

Anabolex can be safely given to patients of all ages and both sexes; in therapeutic doses, its virilizing properties are almost negligible. The only known contra-indication is prostatic carcinoma.

PRESENTATION: In vials of 25 and 100 tablets, each tablet containing 25 mg. Androstanolone. Basic N.H.S. cost 20/- and 70/-. Anabolex is exempt from purchase sus. Samples and hiterature will be gladly sent on application.

INDIGATIONS Middle-aged or elderly people who are debilitated or "run down." Preparation for and recovery from planned surgery.

Convalescent patients. Premature infants. The child or adolescent who is under weight, Anorexia, Asthenia, Malnutrition, Wasting diseases.

*Each tablet contains Ferrous iron (as Ferrous carbonate) 50 mg. Ascorbic acid 12.5 mg. Pleasantly flavoured right to the core.

Almacarb

ALMACARB tablets are prepared from an aluminium hydroxide-magnesium carbonate co-dried gel made by an entirely new process. (Brit.Pat.812503) Aluminium hydroxide gel has been used for some years as an antacid in suspension, but until the introduction of Almacarb no means had been discovered by which its full acid-neutralising capacity could be retained through the process of drying and tabletting. In Almacarb the full antacid potential is retained and its action is rapid and sustained.

ALMACARE—dosage. One tablet to be chewed as an initial dose, and thereafter one tablet to be sucked slowly at frequent intervals.

THE NEW IMPROVED ANTACID TABLET

Almacarb is presented as peppermint-flavoured tablets, each containing 0.375 g. of aluminium hydroxide-magnesium carbonate co-dried gel.

In strips of ten foil-wrapped tablets in cartons of 40 at 3/- and 200 at 12/-.
Basic NHS prices subject to purchase tax.

In dermatoses

'response ... significantly superior'

with triamcinolone

A clinical comparison of triamcinolone 0.1% with hydrocortisone 1.0% and other steroids produced striking confirmation of the superiority of triamcinolone in topical applications. Results in 58 cases of various dermatoses showed that triamcinolone was more successful than hydrocortisone in 40 cases and equally successful in a further 14. Hydrocortisone was more effective in only one case. Similar results were achieved when triamcinolone was compared with the other steroids. ¹ Antibiot. Med. 6; 734, 1959.

Ledercort*

Such clinical results amply justify the ever-increasing use of LEDERCORT triamcinolone Cream and Ointment in the treatment of skin diseases. LEDERCORT is often dramatically active, it is safe, does not cause sodium or water retention, and is effective on sparing application. In anti-inflammatory, anti-pruritic and anti-allergic topical corticosteroid therapy, LEDERCORT is unsurpassed.

Safety with efficiency in antisepsis

Long and comprehensive experience has fully demonstrated the value of Dettol in general practice, obstetrics and surgery.

It is well-tolerated on the skin and tissues in high concentrations.

It is an efficient bactericide:-

Dettol will destroy the following organisms in 10 minutes at 20 degrees C. in the dilutions given:—

Staph. aureus:	•••••	I in 200
S. typhi:	•••••	1 in 350
Strept. pyogenes:	•••••	1 in 500
Bact. coli:	•••••	I in 250
Ps. pyocyanea:		1 in 40
Myco. tuberculosis:		I in 200
Sh. shigae:		1 in 400

Different strains can vary widely in resistance, but the figures quoted are representative.

Dettol efficiency is well maintained in the presence of organic material.

A dilution of 1 in 50 will kill Staph. aureus in the presence of 25% blood in 5 minutes.

It is compatible with soap.

"Unlike the other antiseptics, Dettol appeared to have its activity increased by the presence of soap, and against Staph. pyogenes the effect was one of true synergism." (British Medical Journal, 28th July, 1956.)

It is non-poisonous.

It does not stain linen, etc.

It is stable in solution.

Surgical Dettol, Orange, Blue or colourless — For pre-operative skin preparations.

Dettol Antiseptic Cream — For obstetrics and prevention of cross-infection.

Instrument Dettol—For instrument disinfection.

SALT-FREE= MARMITE

Salt-free Marmite is an unsalted yeast extract which has in the past been supplied chiefly to hospitals, but is now available through chemists in 4 oz. and 8 oz. jars. Salt-free Marmite is suitable for inclusion in low-sodium diets and there is, in fact, a growing demand for this extract from patients who have to adhere to a salt-free regime.

Salt-free Marmite adds a pleasant piquant flavour to the rather monotonous dishes permitted in lowsodium diets. Moreover, it is a source of all known factors of the vitamin B complex and its high potassium content is of importance to patients on certain oral diuretic drugs which tend to deplete the potassium stores of the body.

> 4 oz. jars—3/- per jar 8 oz. jars—5/- per jar

ADRENOXYL -

reduces the mean capillary bleeding time

Adrenoxyl is a capillary haemostatic which reduces the mean capillary bleeding time by increasing the contractility and resistance, and decreasing the permeability of the capillary wall.

Reduces capillary oozing

Reports have been received of the value of Adrenoxyl in diminishing capillary oozing both at the time of operation and post-operatively in many types of operation, including ear, nose and throat, ophthalmic, plastic and dental surgery. It has no effect on venous or arterial bleeding.

Safe and free from side-effects

Adrenoxyl is safe, and no side-effects have been reported following its use. It does not affect pulse rate, blood pressure, nor blood coagulation.

Packs

Adrenoxyl is available in ampoules for intramuscular or subcutaneous injection and in tablets for oral administration.

AMPOULES Each 2 ml. ampoule contains 0.75 mg. of

adrenochrome monosemicarbazone dihydrate. The ampoules are packed in boxes of 6 and 50.

TABLETS Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate. The tablets are packed in tubes of 25 and bottles of 500.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain rment of recruitment in writing from the Central Medical Recruitment Committee or Scotland) the Scottish Central Medical Recruitment Committee before accepting any deferme (in Scotland) the sectivilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year: £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year: £1,372 16s, per annum in the second year; £1,487 4s. per annum in the third year: £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time (a) HOUSE OFFICERS:

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £600 12s. per annum for any post held:

(ii) Fully registered medical practitioners: £600 12s, per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s, per annum. If the post is resident a deduction of £150 per annum is made.

a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.
