

THEN Queen Elizabeth I refused to have a tooth drawn because she feared the pain, Bishop Aylmer "though he were an old Man, and had not many Teeth to spare, immediately had the Surgeon come and pull out one of his Teeth . . . in her Majestie's Presence. Which accordingly was don: and She was hereby encouraged to submit to the Operation herself."

Today such heroism is unknown, and indeed unnecessary. We aim to keep our teeth, and to keep them healthy. And we know, for example, that the earlier we start our children in good dental habits-by teaching them the C D E F rule for good teeth—the more promise we give them of healthy teeth both now and in adult life.

CLEANING Often and thorough, to remove food particles that can cause decay. After each meal if possible.

DENTIST Regular visits to catch any trouble early.

EXERCISE Lots of chewing-apples, celery, chewing gum, raw vegetables. Helps to clean teeth, promotes flow of saliva (nature's mouthwash); stimulates gums, aids proper jaw development.

FOOD Plenty of milk, butter, cheese and eggs: rich in minerals and vitamins for strong teeth and healthy gums.

For over-acidity prescribe

CELESTING

WORLD-FAMOUS FRENCH SPA WATER

Bottled as it flows from the Spring

Holding an undisputed place in the therapeutics of rheumatism and arthritis, as well as in disorders of the digestive and urinary tract, Vichy-Celestins is invaluable sufferers from these ailments.

... but we've advanced since then in every technological direction. In medicine, too, drugs like LEDERMYCIN are revolutionizing therapy.

LEDERMYCIN demethylchlortetracycline has quickly established itself as the superior broad-spectrum antibiotic—because it improves on every virtue of earlier tetracyclines. Its dosage is lower—its stability is greater—its peak levels are higher—and its side effects are fewer.

Ledermycine emetylchortetracycline ledermycine trademark

CYANAMID OF GREAT BRITAIN LTD. London W.C.2,

no

ifs and buts

about

Terramycin*

backed by
overwhelming
clinical evidence

in chronic bronchitis

'The most useful [oral antibiotic] is oxytetracycline [Terramycin] and there is no doubt as to its value in reducing the amount and the purulence of sputum.'

Practitioner, 1955, 175, 670.

'Of the treatment regimes tested, oxytetracycline [Terramycin] stood out as an effective single therapeutic agent, . . .'

Brit. med. J., 1957, ii, 263.

in sinusitis

'Clinical and roentgen-ray examination confirmed that 72.6 per cent of the oxytetracycline [Terramycin] -treated patients . . . were completely cured.'

Antibiot. Med., 1956, 2, 57.

in urinary infections

'Terramycin is an effective antibiotic for treating many urinary infections caused by both gram-positive and gram-negative organisms and has cured where all other antibiotics have failed.'

J. Urol. (Baltimore), 1953, 69, 319.

in infectious diarrhoea

'Results of treatment of 205 premature and very young infants with Terramycin demonstrate the possibility of treating this infection successfully without dietary restriction. Tolerability of Terramycin was excellent, even in the very young.'

SCIENCE FOR THE WORLD'S WELL-BEING

Abstracted (Medizinische, 1955, 46, 1601.)

'Middle-aged and elderly people with bronchitis are not suitable subjects for experimentation with the newest antibiotic that has come along and in such cases it is best to rely on a well-tried preparation so long as it gives good results.'

Practitioner, 1958, 181, 684-5.

DC.

Ismelin is a potent antihypertensive which replaces ganglion blocking agents yet does not produce ganglionic blockade.

It exerts a smooth antihypertensive effect of exceptional duration; once-daily dosage controls blood pressure without fluctuations characteristic of earlier drugs.

Ismelin does not affect the parasympathetic system; constipation, paralytic ileus and dry mouth do not occur.

Please see detailed literature for unique dosage scheme.

Novel chemistry and pharmacology

Tablets of 10 mg. and 25 mg. in 25's, 100's and 500's. Ismelin is 2-perhydroazocin-1'-yl-ethylguanidinium sulphate.

NULACIN "has revolutionized the treatment of duodenal ulcer"

"This new method of the administration of antacids (Nulacin) has revolutionized the treatment of duodenal electronal milk drip is no longer part of our therapeutic stock in trade."

PROG. ROY. SOG. MED., December, 1958, 51, 1063

NULACIN tablets, when allowed to dissolve slowly in the mouth, provide intragastric milk-alkali drip therapy safely and effectively for both the bedridden and ambulant patient. They may be relied on to provide a treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity.

The safety and effectiveness of Nulacin therapy has been proven by "in vivo" clinical work carried out in many countries. References to this work include:—

PACKS
Bottles of 50 and 250.
PRICE
Basic N.H.S. cost,
4/- for 50 tablets
DOSAGE
Average soult dessibility to a labels may be taken
In several cases
For general southors—
I ablet ever 8 to 8 hours.

Nebrinal is a balanced combination of muscle-relaxant mephenesin and intermediate-acting pentobarbitone, presented in the form of specially designed 'timed-release' tablets to provide 'tapered' dosage.

The outer layers of the tablet rapidly releases about two-thirds of the two drugs to induce relaxation and sleep; the balance of the drugs is released from the inner core 3 to 4 hours later to sustain relaxed sleep on a reduced dosage.

The amount of barbiturate to be inactivated at any one time is thus kept low.

Nebrinal provides:

INDUCTION OF SLEEP through relaxant plus hypnotic action

SUSTAINED EFFECTIVENESS through 'timed-release' action

REFRESHED AWAKENING WITHOUT 'HANGOVER' through 'topered' dosage

BOOTS PURE DRUG COMPANY LIMITED, STATION ST., NOTTINGHAM

... relief is always within reach

Immediate action is the key to successful treatment of migraine. And 'Migril' is tailor-made for such action. The tablets can be taken anywhere—at any time—to avert an attack. And thanks to their adequate content of ergotamine, they provide really prompt relief. Each tablet contains 2 mgm. ergotamine tartrate; yet this dosage can be taken with minimal risk of nausea or vomiting—for 'Migril' also incorporates the powerful anti-emetic, cyclizine hydrochloride. Caffeine is added, too, to potentiate the action of ergotamine. For these good reasons the patient who carries 'Migril' carries constant insurance against attacks.

... means more intensive

action against migraine

Each compression-coated tablet contains ergotamine tartrate, 2 mgm; caffeine (alkaloid), 100 mgm; cyclizine hydrochloride, 50 mgm. In bottles of 10 and 100.

BURROUGHS WELLCOME & CO.

(THE WELLCOME FOUNDATION LTD.)

LONDON

Please note also-

How easy it is for your patients to insert.

How gentle its contact with the vaginal epithelium.

How positive its wick action in absorbing the flux.

How dainty it is for the patients to remove.

How well it is adapted to individual needs.

The Tampax tampon is unique in providing "flat expansion"—conforming to the flat cross-section of the normal collapsed vagina. The Medical Profession realizes the essential physiological advantages of this feature; and patients appreciate the comfort of Tampax in situ.

Indeed, because Tampax was designed by a physician the most thorough scientific consideration was given to all such essential details. To meet individual requirements Tampax is available in two absorbencies (Regular and Super). The surgical cotton is compressed to one-eighth of its original size, and is supplied in a simple individual applicator to assure easy insertion and a hitherto unknown degree of hygiene. When placed within the vaginal canal, Tampax expands without irritation or pressure on the cervix—its positive wick action drawing the flux freely away from the cervix and preventing any blockage of the flow.

The comfort, convenience and complete hygiene, which this modern form of menstrual protection provides, can contribute so much to your patient's peace of mind and encourage her to lead a normal life during the period.

If you have not closely examined Tampax, Professional samples and literature will gladly be supplied by Medical Department, Tampax Ltd., Havant, Hanta

Griseofulvin is a Glaxo research development. Extensive experience with this substance in Britain, the U.S.A. and elsewhere has shown that griseofulvin, when given by mouth. will produce quite remarkable and consistent activity against dermatophyte infections of the skin, hair and nails. Infections even of many years duration have made a striking response to this unique substance.

"A new era in the therapy of the common mycotic infections of the human skin, hair and nails may be at hand with the discovery of the almost unbelievable therapeutic effectiveness of the oral antibiotic, griseofulvin."

Milestones in Dermatology XXXIX Griseofulvin. An Oral Antibiotic for the Treatment of Many Common Fungous Infections of the Skin, Hair and Nails. Excerpta Medica, 1959, 13 (Section XIII) 145.

the more potent diuretic that promotes physiological diuresis

CENTYL—THE SELECTIVE DIURETIC

selective sodium and chloride excretion without potassium depletion

Centyl is a new and improved diuretic discovered in the Leo Laboratories in Copenhagen, Denmark. Given orally, Centyl is 100 times more potent than chlorothiazide, weight for weight, and almost twice as effective as the parenteral mercurials. Further, although the sodium excretion rate is greatly increased, potassium excretion normally remains within physiological limits. Thus Centyl, promoting physiological diuresis, approaches the criteria for the ideal diuretic.

CENTYL promotes physiological diuresis

Centyl is bendrofluazide: It is available in 2.5 mg. or 5 mg. tablets, in bottles of 25, 100 and 500. Average basic NHS cost of Centyl treatment is as low as 8d to 2/- per week.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scotlish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registra Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years; £972 8s, per annum in the first year; £1,103 19s, per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made,

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year: £1,372 16s, per annum in the second year; £1,487 4s. per annum in the third year: £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time (a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held: provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post

respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s, by £57 4s, to £1,229 16s, per annum. If the post is resident a deduction of £170 per annum is made.

Departments of Physics and of Biology as Applied to Medicine

Applied to Medicine

M.Sc. IN RADIATION BIOLOGY AND RADIATION PHYSICS

A two-year course leading to an M.Sc. by examination will be offered from October, 1960. The course is open to selected graduates in the physical or biological sciences or in medicine.

In their first year students will take a course in the fundamentals of modern biology (those with little or no previous biological training) and/or in physics (those with little background in physics). After a qualifying examination at the end of their first year students will proceed to a common course in advanced radiation biology and physics. The course will be designed to qualify those taking it for later independent research in the field, or for exercising responsibility for radiological protection in the nuclear energy industry. The D.S.I.R. has accepted this M.Sc. course as suitable for the tenure of its Advanced Course Studentships.

The fee for the course will be £30 per Term. Further details and application forms may be obtained from the Secretary Department of Biology as Applied to Medicine, Middlesex Hospital Medical School, London, W.I. Applications must be received before September 1, 1960. (7104)

be received before September 1, 1960. (7104)

ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent. M.D., F.R.C.P., D.P.H., D.P.M.

This registered hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical biochemical, bacteriological, and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in the grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main hospital there are several branch establishments and villas suituated in a park and farm of 650 acres. Milk. meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-servoing fruit-growing.

fruit-growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds, with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department of Diathermy and high-frequency treatment. It also contains laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sca-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the scashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 34354 (3 lines)), who can be seen in London by appointment.
