

Do you consider the vehicle when you prescribe steroid therapy with hydrocortisone cream?

Some vehicles have been implicated on grounds of sensitisation risk

(Practitioner, 1955, 175, 575).

Lacto-Calamine, the excipient in Cortoderm and Cortoderm-N.

has an unblemished reputation in this respect.

Soothing, bland, cosmetically acceptable,

it also contributes its own anti-inflammatory
action to successful treatment of

infected and non-infected dermatoses.

CORTODERM

10G tubes containing 0.25%, 0.5% or 1% hydrocortisone acetate

basic NHS cost 2/11, 4/2, 7/1 in a cream base of LACTO-CALAMINE

CORTODERM-N

10G tubes containing 0.25%, 0.5% or 1% hydrocortisone acetate with 0.5% neomycin sulphate.

basic NHS cost 4/2, 5/5, 8/4

What about the mortgage?

You own your own home? Good for you. You have insured it against fire?

A wise precaution.

But what about the mortgage?

Did you know that for every home destroyed by fire many, many home-owners die before they have paid off their mortgage?

It's a serious thought. And if you have dependants it's a frightening thought, too.

Why not take some advice about the insurance on *your* mortgage? Your Confederation Life man will be glad to discuss this with you—without obligation.

Children are easier to treat with new **Ledermycin** Drops and Syrup

The more acceptable the preparation, the simpler it is to secure a child's co-operation in treatment—he enjoys taking his medicine, and is therefore much easier to manage. Ledermycin demethylchlortetracycline is now available in two such forms—pleasantly-flavoured drops and syrup, ready for immediate use. High in activity—low in dosage—sustained in action—Ledermycin Drops and Syrup fight susceptible infections with all the now-recognised superior virtues of

this is a mark

you have never seen before

MJ 24

it is the mark of Mead Johnson

It is our symbol of service in medicine. Symbols are fascinating. Like Rorschach inkblots, they are interpreted differently by different people.

They may mean the same general things to most people, but they do not mean exactly the same things to all people.

A word about our mark, therefore, and what it means to us and to many of the people whom we serve may prove interesting to you.

Doctors, hospital people, chemists, merchants, the public, our employees—almost all recognise in it the shape of a flame. To them it symbolizes life.

And because the business of Mead Johnson is to aid human life through basic research, product development and better nutritional and pharmaceutical products, the flame seems an appropriate symbol of this Company and its aspirations.

These aspirations have shaped the work and progress of Mead Johnson throughout the Company's sixty years of leadership in the United States, and have been the background against which a world-wide reputation has been painstakingly built up.

These aspirations, too, include the eventual establishment of Mead Johnson as a symbol of service in medicine in the United Kingdom.

From our research in nutrition we have developed a dietary product which is a new concept in the management of obesity. Full information will be submitted to the medical profession soon.

Allergic conditions

A more potent antihistaminic—rapid, strong, and prolonged in its action... with no serious side-effects

Of the many antihistamine compounds available today, Daneral is exceptional for its strong, rapid, and prolonged action. Even small doses are sufficient to counteract the histamine effects that occur in antigenantibody reaction. Daneral also has a strong antispasmodic action; it also reduces capillary permeability.

It is exceptionally free of toxic side-reactions and has no pronounced action on blood-pressure or vascular resistance.

Indications: Extensive clinical trials have established the effectiveness of Daneral in most allergic conditions. It also has value in many conditions that have no clear allergic origin or tissue reaction.

In hay fever and vaso-motor rhinitis Daneral is especially effective. In dermatology it is used in urticaria and angioneurotic oedema; serum reactions; drug allergy; pruritus. In general medicine bronchial asthma and cardiac asthma are helped by Daneral.

Packs: 10 mg. tablets—tubes of 20 and bottles of 250. 50 mg. tablets—tubes of 10 and bottles of 100.

Eczema (INFECTIVE)

Acute Infective Eczema before treatment

After 5 days' treatment (Cambison 0.5% twice a day)

Steroid ointments are frequently successful in varieties of eczema that have resisted other therapy

They have the advantage of being anti-allergic, anti-inflammatory and antipruritic. Even severe itching is usually relieved in a few hours, and hyperaemia, swelling, and exudation reduced during the first day of treatment.

Cambison ointment combines the steroid prednisolone with a two-fold protection against infection. Not only does it include the antibiotic neomycin, which is highly effective against staphylococci and streptococci, but also a quinolylurea compound with chemotherapeutic action particularly directed against gram-positive organisms. This combination widens the antimicrobial spectrum and enhances the antibacterial effect.

Cambison is indicated in cases of acute and chronic eczema and dermatitis, particularly where infection is present or threatened.

Packs: Tubes of 5G and 20G. Available with prednisolone 0.25% or 0.5%

Eczema

Chronic exudative eczema on back of the left hand. Severe itching and weeping.

Result after 2 days of treatment.

New ointment combines advantages of the corticosteroids with traditional ichthammol type therapy

In chronic dermatoses, steroid ointments alone do not always effect radical cures.

Tumeson (Tumenol Prednisolone Ointment) combines the advantages of the corticosteroids with more traditional therapy.

It has two components:-

 $Prednisolone\,0.25\%$, with its well-known anti-inflammatory and anti-allergic properties.

Tumenol Ammonium, a bituminous shale tar-oil similar to ichthammol, which is widely used in sub-acute and chronic skin conditions. As well as having an anti-inflammatory and antipruritic effect, it is a vasoconstricting agent with fungicidal and bacteriocidal properties.

Where a rapid, pronounced and sustained antipruritic and anti-eczematous action is called for, Tumeson is especially useful.

Packs: tubes of 5 G. and 20 G.

Athlete's Foot

After 7 days' treatment with Jadit

An effective new treatment that is odourless and colourless

Fungus infections of the skin—and particularly 'athlete's foot'—still remain a prevalent cause of distress and morbidity. The need for a reliable and cosmetically acceptable local treatment is greater than ever before.

The advantage of Jadit (chlorhydroxybenzoic acid butylamide) is that it provides a potent fungicidal action that is practically unimpaired in the presence of tissue protein. It is elegant, simple and safe.

For inflammatory and allergic mycotic reactions, hydrocortisone is added

Jadit 'H' contains 0.5% of hydrocortisone, which has a reliable anti-inflammatory, anti-allergic and antipruritic action. In combination with Jadit's antimycotic action, hydrocortisone suppresses inflammatory reactions.

Packs

Jadit Ointment Tube of 20 g.

Jadit Solution Bottle of 30 ml.

Jadit Powder Container of 40 g.

Jadit 'H' Ointment....... Tube of 5 g.

Sound sleep . . . fresh awakening

Medomin[®] Geigy

Dose: 1 tablet taken ½-1 hour before retiring. Available in tablets of 200 mg Heptabarbitone (Cycloheptenylethyl barbituric acid) Containers of 10, 100, 1000 Medomin presents the surety of hypnosis through the barbituric acid nucleus. One tablet taken $\frac{1}{2}-1$ hour before retiring will give 6-8 hours natural sleep. Because of the rapid breakdown and elimination of this barbiturate there is a fresh awakening with no clouding of the mind. Medomin thus represents a genuine advance in hypnotic therapy. Its action is positive and yet so smooth and free from side effects that it may safely be given to children.

'209 patient-nights on Medomin and 79 patient-nights on butobarbitone are reported on. Results tell strongly in favour of Medomin (91 per cent very good response as compared to 58 per cent with control sedative). Out of the 209 there were only two cases of "hangover-like" symptoms.' Med. Press, 243, 131 (1960).

ADHESIVE BANDAGING WITHOUT SKIN IRRITATION

PoroPlast considerably reduces the risk of skin irritation which often associates with the use of ordinary elastic adhesive bandages. It contains no rubber and none of the irritating natural resins or solvents usually embodied in adhesive plaster.

Consequently PoroPlast can remain in situ for long periods without causing irritation, and it has been well tolerated even on very sensitive skins.

PoroPlast is porous and has the same characteristics of elasticity, stretch and compression as ordinary elastic adhesive bandages. Its price is the same. It can be prescribed on N.H.S. In rolls 3" and $2\frac{1}{2}$ " wide (5-6 yards stretched). Sample roll of PoroPlast on request.

Achromycine *

The patient with a sty... miserable and in pain... how familiar to the doctor! A speedy and reliable prescription for this condition is ACHROMYCIN tetracycline which is available in three convenient forms—Oil Suspension, Ophthalmic Ointment and Sterilized Powder. Each product quickly combats the infection that causes the condition.

ACHROMYCIN tetracycline has a wide antibacterial range, exceptional penetrating power and a very low sensitizing potential. It is indicated in the treatment of all ocular infections caused by tetracycline-sensitive organisms, in the control of infections of the conjunctiva, and to prevent infection in traumatic and operative injury to the eye.

PACKING:

ACHROMYCIN Ophthalmic Oil Suspension 1% 10 mg./cc.—6.cc. plastic dropper bottle 1 3.

For quick control of severe pain

'DOLOXENE'

TRADE MAR

A potent new oral analgesic which, unlike codeine, has practically no constipating effect and does not give rise to nausea. 'Doloxene' is purely an analgesic—it has no antipyretic action, neither does it reduce inflammation. The use of 'Doloxene' in relief of pain in malignant disease will delay the necessity for morphine.

No contra-indications or tolerance have been reported.

The average adult dose is 32-65 mg. three or four times daily.

'Pulvules' 'Doloxene' are available in strengths of 32 mg. and 65 mg.

When pain is associated with inflammation or fever

'DOLOXENE COMPOUND'

combines the analgesic value of 'Doloxene' with the antipyretic and anti-inflammatory properties of the salicylates. It is highly effective in treating the pain associated with rheumatic diseases, fevers and migraine.

The average adult dose is one or two 'Pulvules' taken three or four times daily.

Each capsule contains:

'Doloxene'32 mg.Phenacetin $162 \text{ mg.} (2\frac{1}{2} \text{ grs.})$ Acetylsalicylic Acid $227 \text{ mg.} (3\frac{1}{2} \text{ grs.})$ Caffeine $32.4 \text{ mg.} (\frac{1}{2} \text{ gr.})$

'Doloxene' brand dextropropoxyphene hydrochloride and 'Doloxene Compound' brand dextropropoxyphene and acetylsalicylic acid compound, are at present subject to the control of the Dangerous Drugs Acts.

DIABETES

and the patient who fears injections

RASTINON

PROVIDES COMPLETE ORAL CONTROL that is safe and convenient

THE DIABETIC PATIENT who suffers from an excessive fear of injections may undergo considerable psychic trauma.

A large number of these patients* can now be controlled orally with RASTINON (tolbutamide). In many cases, one tablet by mouth once or twice a day is all that is necessary for maintenance.

Not only does RASTINON make possible continued dosage administration that is free from psychological reactions; in addition, blood sugar levels approach the normal without risk of hypoglycaemia. RASTINON is a true euglycaemic agent.

In patients in whom maintenance dosage has been established, RASTINON lowers the blood sugar to normal levels, but almost never beyond that point, regardless of dosage.

Rapid excretion precludes cumulative effects. No cases of dyshaemopoiesis, jaundice, or other serious side effects have been reported.

There is no added cost of treatment for the patient previously on insulin.

Over 1,250,000
diabetics all over
the world owe their wellbeing to RASTINON. The
rate of response increases
steeply with advancing age.

An effective pattern of protection . .

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme... directed at raising the standards of personal hygiene... coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be the most active chemical disinfectants.' 2

'An oxidising agent of great potency is Domestos which, when used at concentration of from $\frac{1}{4}$ to 2 ozs. per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.' ³

A pattern of protection against Polio is assured by using DOMESTOS, which destroys Poliomyelitis virus—

- (a) For Lavatories. Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of children, should always be washed with a domestos solution.
- (b) For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.
- (c) For safeguarding against the infection of food by bluebottles, flies, vermin.
 - (d) For the disinfection of yards, paths, etc,
- (e) For the disinfection and cleaning of clogged drains.
- 'Topical Aspects of Poliomyelitis'; 'Journal of the Royal Society of Health' Dec. 1956.
- World Health Organisation Technical Report Series, No. 81, 'Expert Committee on Poliomyelitis'.
- 3. Domestos Technical Report D.R. 82A.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year: £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made,

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year: £1,372 16s, per annum in the second year; £1,487 4s. per annum in the third year: £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; first post held; £543 8s, per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s, per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £600 12s. per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

UNIVERSITY COLLEGE HOSPITAL Ibadan, Nigeria

Ibadan, Nigeria

HOUSE OFFICERS

Applications are invited from fully registered medical practitioners for appointment as Postregistration House Officers in the above Teaching Hospital, the posts becoming vacant on January 1, 1961. As some vacancies may occur earlier than January applicants should indicate whether or not they are able to assume duty at any time before January, 1961. House Officers will, as far as possible, serve in the department of their choice, but the number of vacancies in any department is limited and very often it is not possible to observe individual preferences. The salary offered is £1.168 per annum. On satisfactory completion of service a gratuity of £37 10s. will be paid for each completed three months' service. Other conditions of service are generally similar to those applying to contract Officers in the service of the Federal Government of Nigeria. Applications should be submitted not later than September 3, 1960, on the appropriate forms which will be forwarded, together with additional information, on receipt of an addressed foolscap envelope by the Advier on Staff Recruitment, London Office (University College Hospital, Ibadan), 91, Regent Street (Third Floor), London, W.1.

UNIVERSITY COLLEGE HOSPITAL Ibadan, Nigeria

Ibadan, Nigeria

PRE-REGISTRATION HOUSE OFFICER
Applications are invited from Nigerians for appointment as Pre-registration House Officers beginning on January 1, 1961. Applicants must be provisionally registered and be prepared to serve in any of the following departments: Medicine, Surgery, Obstetrics, Paediatrics. The salary offered is £762 per annum. Other conditions of service are generally similar to those applying to contract Officers in the service of the Federal Government of Nigeria. Applications should be submitted not later than September 3, 1960, on the appropriate forms, which will be forwarded, together with additional information, on receipt of an addressed foolscap envelope by the Adviser on Staff Recruitment, London Office (University College Hospital, Ibadan), 91, Regent Street (Third Floor), London, W.1. (7618)

UNIVERSITY COLLEGE HOSPITAL OF THE WEST INDIES

Applications are invited for the post of LOCUM SENIOR REGISTRAR IN ANAESTHETICS, at the above-named Teaching Hospital which is now expanding from 300 to 450 beds. Monthly operations exceed three hundred, and the hospital is recognized for the qualifying degrees of London University. Applicants with F.F.A.R.C.S. would receive favourable consideration, and D.A. or orimary fellowship essential. The successful candidate will be required to take up duties as early as possible. The appointment will be for one year at a salary of £1.400 per year, according to qualifications and experience. Superannuation benefit or its equivalent payable. Single accommodation available at a rental of 5% of salary plus charges for furniture. Return tourist air passages to and from the country of recruitment are provided for one person only. Further information may be obtained from the Hospital Manager and Secretary. University College Hospital, Mona, Jamaica, W.I., to whom applications, stating age, nationality, details of qual'fications and experience, together with names and addresses of three referees, should be sent not later than September 20, 1960. (7643)

UNIVERSITY OF WESTERN AUSTRALIA Faculty of Medicine

ECTURESHIP IN ANATOMY

Resident Physicians: H. Pullar-Strecker, M.D.:
G. W. Smith, O.B.E., M.B.

There's a <u>special</u> Andrews for diabetics

(and others on restricted diets)

IN RESPONSE TO REPEATED REQUESTS, a special formulation of Andrews, free of sugar but retaining Andrews' characteristic palatability, has now been produced for diabetic patients and others on a special diet.

Andrews Liver Salt is a pleasant-tasting effervescing aperient. Its reliable laxative action is brought about by an effervescent saline combined with magnesium sulphate, the osmotic action of which ensures the retention of sufficient fluid in the bowel for easy and comfortable evacuation.

Andrews is mildly alkaline. It is useful for counteracting stomach acidity, nausea and headaches of the migraine (bilious) type.

Andrews

for diabetics

(and others on restricted diets)

ACTIVE CONSTITUENTS

Tart. Acid B.P.....40.00% Dried Mag. Sulph.... 17.62% Sod. Bicarb. B.P....42.33% Saccharin Sod. B.P... 0.05% A medical sample is available free on request

PHILLIPS, SCOTT & TURNER LIMITED, 179 ACTON VALE, ACTON, LONDON, W.3

a new major tranquilliser...

"Melleril has fewer side-effects
than any other of the phenothiazine compounds . . . "

J. ment. Sci. (1960) 106, 732.

"Melleril is at least as effective in relieving psychiatric illness as other drugs of its class.

On a milligram for milligram basis it has the same order of potency as chlorpromazine.

In its low incidence of side-effects and toxicity it is superior to all other tranquillising drugs tested."

J. Amer. med. Ass. (1959) 170, 1283.

Meleril BY SANDOZ

Thioridazine hydrochloride 10 mg. 25 mg. 50 mg. 100 mg.

Bottles of 50 and 250 tablets

.. In mental and emotional disturbance
