

CELBENIN *BRL 1241*

REGD. TRADE MARK

effective against *all* resistant staphylococci

BEECHAM RESEARCH LABORATORIES have pleasure in announcing Celbenin—the first non-toxic antibiotic effective against all resistant staphylococci.

Celbenin is bactericidal to all strains of staphylococci irrespective of their resistance to penicillin or any other antibiotic. Clinical results show that the problem of resistant staphylococcal infection can be overcome with Celbenin.

- * effective against *all* resistant staphylococci
- * non-toxic
- * bactericidal in action
- * no cross-resistance with other antibiotics
- * resistance unlikely to develop

Celbenin is chemically: Sodium 6-(2,6-dimethoxybenzamido)penicillanate monohydrate.

ADMINISTRATION

Celbenin is given by intramuscular injection.

AVAILABILITY

Celbenin is presented as 1 gramme vials, in cartons of 5, 25, and 100.

SQUIBB HYDROFLUMETHIAZIDE (DI-ADEMIL)

AND SQUIBB STANDARDIZED WHOLE ROOT RAUWOLFIA

SERPENTINA (RAUDIXIN) WITH POTASSIUM CHLORIDE

RAUTRAX IMPROVED

*better than any
diuretic antihypertensive
compound available
because . . .*

Rautrax Improved contains DI-ADEMIL a diuretic which produces diuresis equivalent to that seen with chemically related hydrochlorothiazide type diuretics, but with a LOWER POTASSIUM LOSS (Di-Ademil also has an antihypertensive effect of its own), and RAUDIXIN a superior antihypertensive with gentle, sustained antihypertensive action. Raudixin produces less gastrointestinal side effects than reserpine, and is less likely to cause depression. Although Di-Ademil produces diuresis with a LOWER POTASSIUM LOSS than any hydrochlorothiazide type diuretic available, 625 mg. of potassium chloride has been added to give patients maximum protection against possible potassium and chloride loss during long-term therapy.

SUPPLY: Rautrax Improved is supplied as capsule-shaped tablets containing 50 mg. Di-Ademil, 50 mg. Raudixin and 625 mg. potassium chloride. ALSO AVAILABLE: Di-Ademil-K capsule-shaped tablets containing 25 mg. hydroflumethiazide and 625 mg. potassium chloride and Di-Ademil scored tablets containing 50 mg. hydroflumethiazide. All available in bottles of 25, 100 and 500.

CRYSTAPEN G SYRUP

clinically as effective as 'V' syrup and over one-third less costly

Crystapen G Syrup is suitable for patients suffering from mild to moderate penicillin sensitive infections. It has an appealing apricot flavour which completely masks the bitter taste of penicillin. Each teaspoonful provides 125 mg (200,000 units.) penicillin and each bottle of Crystapen G Syrup costs over a third less than the equivalent penicillin V syrup.

Available in 60 ml bottles

CRYSTAPEN G SUGAR-COATED TABLETS

Small and convenient, Crystapen G tablets are easy to swallow. The sugar-coating makes them pleasant to take and gives the tablets their long storage life of up to 3 years. The 2 potencies, 125 mg (200,000 units) and 250 mg (400,000 units) provide flexible dosage and each strength is available in bottles of 12, 100 and 500 tablets.

BRAND

PROPIONYL ERYTHROMYCIN ESTER LAURYL SULPHATE

'Ilosone' is an important development in antibiotics. It is the lauryl sulphate salt of propionyl erythromycin ester, which has been shown to give earlier, higher, more prolonged and more consistent antibacterial activity than any other antibiotic of the erythromycin group.

'Ilosone' has a specific spectrum, and in normal dosage does not destroy the colon bacillus. It is supremely safe, causing neither serious toxic reactions nor allergic symptoms. In common bacterial diseases such as pneumonia, bronchitis, breast abscess, otitis media and many other infections, 'Ilosone' is eminently suitable for prescribing as a first choice oral antibiotic.

DEMETHYLCHLORTETRACYCLINE

†TRADEMARK

the foremost tetracycline of today

Of all the antibacterial agents used in the past in the fight against chronic bronchitis, the tetracyclines unquestionably rank the highest in the opinion of a growing number of doctors. Today, the newest of the tetracyclines — LEDERMYCIN demethylchlortetracycline—is rapidly taking pride of place among this group of drugs because of the many immediate advantages it exhibits over earlier tetracycline derivatives. More and more doctors are recognising LEDERMYCIN as the most active tetracycline yet. Logic therefore points to the use of LEDERMYCIN in chronic bronchitis as in all conditions where a tetracycline is called for.

Mackie and McCartney's

HANDBOOK OF BACTERIOLOGY

A Guide to the Laboratory Diagnosis and Control of Infection

Edited by Professor ROBERT CRUICKSHANK, M.D., F.R.C.P., D.P.H., F.R.S.E.

Tenth edition. 992 pages. Illustrated. 40s.

Inevitably, with the many advances in microbiology, extensive revision and considerable expansions were necessary, and this edition contains some 230 pages more than its predecessor.

The practical aspects of the laboratory diagnosis of infection in the individual and of the epidemiology of specific infectious diseases in the community has been given fuller consideration in the hope that this textbook will become even more widely used by medical students and doctors in many lands as a laboratory guide to the rational treatment and prevention of infective disease.

Stelazine*

**pre-eminent in psychiatry
— and in general practice**

One of the most powerful and selective of the tranquillizing phenothiazines, 'Stelazine' occupies a pre-eminent position in clinical practice today.

The outstanding efficacy of 'Stelazine' in the treatment of severe mental illness has firmly established its place in psychiatric medicine, while its ability to control anxiety and tension in the ambulant patient, and its potent anti-emetic action, have rendered it invaluable in the wider field of general practice.

Smith Kline & French Laboratories Ltd
Welwyn Garden City, Herts

FORMULA : 'Stelazine' contains 2-trifluoromethyl-10-(3'[1"-methyl piperazinyl-4"-propyl) phenothiazine dihydrochloride.

*'Stelazine' (trade mark) brand of trifluoperazine.

*SZL:PA510

SEARLE

Aldactone

Brand of Spironolactone (SC9420)

The new therapeutic principle embodied in this drug effectively extends the control of *oedema and ascites* in

Congestive Heart Failure
Hepatic Cirrhosis
The Nephrotic Syndrome
Idiopathic Oedema

Aldactone provides satisfactory relief of resistant or advanced oedema even when all other agents, alone or in combination, are ineffective or are only partially effective.

Aldactone blocks the effect of aldosterone which is the major cause of resistance to diuretics, and because of its different site and mode of action, Aldactone has a true and highly synergistic activity when used with a mercurial or thiazide diuretic.

the first specific aldosterone – blocking agent

Aldactone

has the following advantages

- Satisfactory relief where all other agents fail.
- Does not induce potassium loss.
- No serious toxic or side effects.
- Exerts true, striking, synergistic activity in a programme of treatment including mercurial or thiazide diuretics.
- Offsets the potassium loss from concomitantly administered mercurial or thiazide diuretics.

What physicians may expect of Aldactone

It is fully expected that Aldactone will change present medical concepts of therapeutic limitations in the management of oedema. Many patients living in a greater or lesser state of oedematous invalidism can now be oedema-free. To others, gravely ill, Aldactone will be life-saving.

When Aldactone is used in a comprehensive therapeutic regimen, which includes a mercurial or a thiazide diuretic, a satisfactory diuresis and relief of oedema may be expected in approximately 85 per cent of oedematous patients who would not otherwise respond.

FOR GERIATRIC PATIENTS safe, comfortable, effective HERNIAL SUPPORT

Because each Spencer Support is designed in order to meet the patient's individual needs, results are demonstrably superior.

The patient shown on left, aged 74, developed a left ventral hernia following surgery fourteen years previously. A left inguinal hernia resulted from the long wearing of a cast following a hip injury 3 years ago. "Stock" supports proved ineffective. A Spencer Support as shown was prescribed with excellent results. Her Spencer gives safe, comfortable and effective control of the hernias—improves and maintains posture—protects and supports the weak muscles of old age. With the aid of her Spencer, the patient runs her household, does all her own work, and—as she says—still has time "to enjoy life."

Prescribe Spencer with confidence for men, women, children—for abdomen, back, breasts. No case is too difficult for Spencer Designers!

Great Advance in Aerosol Therapy for **ASTHMA**

PRESSURISED

BROVON

Asthma Inhalant provides an effective therapeutic dose *within seconds*

1 High Production of Utilisable Aerosol

Obviously, particles of an aerosol are therapeutically useless if either:—(a) The particles are too large to pass into the respiratory bronchioles. (b) The particles are so small that they are swept back in the expired air. By incorporation of a new and unique device, about 80% of the particles yielded by Pressurised Brovon Inhalant are within the optimum range for penetration into the finest ramifications of the bronchial tree, and absorption there.

Approximately 80% of the particles yielded by Pressurised Brovon Inhalant are utilisable—the highest proportion yet achieved in any aerosol therapy from a liquid inhalant.

Less than 30% of the particles yielded by an asthma inhalant from a hand-operated inhaler are utilisable, the remainder being too coarse.

Less than 10% of the particles yielded by conventional aerosols are utilisable; in fact, their performance is much inferior to that of a manually-operated inhaler.

2 Pharmacological soundness

Pressurised Brovon Inhalant combines the rapid action of adrenaline with the slower but prolonged action of atropine, providing an antispasmodic combination with an immediate yet sustained action.

3 Visual check on contents of bottle

... so that the user has full warning when his inhalant is running low.

4 Accurate dosage

An accurate metering device allows a measured quantity—and no more—to be emitted, and pressure must be released for a few seconds to allow the device to reset. Needless or unintentional over-dosage and waste are thus eliminated.

5 Complete safety

The propellant is non-toxic, non-inflammable and stable. The bottle is very strong and, as an additional safeguard, is enclosed in a tough, shatterproof, plastic cover which prevents splintering of the bottle if broken.

6 Compactness

The complete unit is smaller than even a small hand-operated inhaler and can be carried inconspicuously in the handbag or pocket.

Eczema (INFECTIVE)

Acute Infective Eczema before treatment

After 5 days' treatment (Cambison 0.5% twice a day)

Steroid ointments are frequently successful in varieties of eczema that have resisted other therapy

They have the advantage of being anti-allergic, anti-inflammatory and anti-pruritic. Even severe itching is usually relieved in a few hours, and hyperaemia, swelling, and exudation reduced during the first day of treatment.

Cambison ointment combines the steroid prednisolone with a two-fold protection against infection. Not only does it include the antibiotic neomycin, which is highly effective against staphylococci and streptococci, but also a quinolylurea compound with chemotherapeutic action particularly directed against gram-positive organisms. This combination widens the antimicrobial spectrum and enhances the antibacterial effect.

Cambison is indicated in cases of acute and chronic eczema and dermatitis, particularly where infection is present or threatened.

Packs: Tubes of 5 G and 20 G. Available with prednisolone 0.25% or 0.5%

Eczema (CHRONIC)

*Chronic exudative eczema on back of the left hand.
Severe itching and weeping.*

Result after 2 days of treatment.

New ointment combines advantages of the corticosteroids with traditional ichthammol type therapy

In chronic dermatoses, steroid ointments alone do not always effect radical cures.

Tumeson (Tumenol Prednisolone Ointment) combines the advantages of the corticosteroids with more traditional therapy.

It has two components:—

Prednisolone 0.25%, with its well-known anti-inflammatory and anti-allergic properties.

Tumenol Ammonium, a bituminous shale tar-oil similar to ichthammol, which is widely used in sub-acute and chronic skin conditions. As well as having an anti-inflammatory and antipruritic effect, it is a vasoconstricting agent with fungicidal and bacteriocidal properties.

Where a rapid, pronounced and sustained antipruritic and anti-eczematous action is called for, Tumeson is especially useful.

Packs: tubes of 5 G. and 20 G.

But perhaps you
don't have to look
beyond your noses!

The anterior nares of both patients and staff probably form by far the largest breeding ground for the pathogenic staphylococci¹.

- * 'Naseptin' Nasal-Carrier Cream is the most effective preparation for preventing colonisation of the nose with pathogenic hospital strains².
- * 'Naseptin' is easy and pleasant to use and suitable for new-born infants as well as for older patients.
- * Resistant bacterial strains and sensitivity reactions have not been encountered.
- * Treatment is extremely cheap.

Terra-Cortril^{*} Spray

brand of oxytetracycline and hydrocortisone

... the new non-touch technique for

burns

infected dermatoses

leg ulcers

Spray treatment applies the full potency of Terra-Cortril directly on to the inflamed area. Its effect is immediate because the action is not retarded by a base.

Infection is prevented, inflammation and pain reduced, scar tissue development decisively checked and the healing process accelerated. Spray treatment prevents softening of surrounding tissue sometimes caused by dressings or ointments. The spray has a soothing effect much welcomed by patients.

Patients and nurses will find it easy and simple to use. Any part of the body can be sprayed in a few seconds.

Dressings may not be required. Spray treatment can be used with modern exposure techniques.

AN ORGANON PRODUCT

'Valledrine'

trade mark

brand

COUGH LINCTUS

'Valledrine' linctus is for the relief of all types of unproductive cough. It contains the antitussive pholcodine which is rarely constipating, ephedrine hydrochloride for bronchodilatation and trimeprazine tartrate, a central sedative and local analgesic. The inclusion of ephedrine counteracts any tendency to drowsiness.

The palatability of 'Valledrine' makes it of particular value in the treatment of both young and elderly patients.

'Valledrine' is presented in containers of 4 fl. oz.

Each 3.6 ml. (approx. one teaspoonful) of linctus contains:

<i>Trimeprazine Tartrate</i>	2.5 mg.
<i>Pholcodine (as citrate)</i>	4.0 mg.
<i>Ephedrine Hydrochloride B.P.</i>	7.5 mg.

Polybactrin

antibiotic powder spray

This new presentation of POLYBACTRIN is the result of intensive research into the mechanics of pressure packing antibiotics in powder form. While the formula and potency of POLYBACTRIN remain unchanged, radical modification of the valve mechanism and design of the unit provides several advantages :— **positive directional, wide-angle spray gives wider coverage of the area under treatment** — **all metal container provides additional safety** — **special valve eliminates impacting of powder and clogging of nozzle.**

The use of Polybactrin during surgical procedures is a positive method of inhibiting wound pathogens which may become implanted in the tissues.

INDICATIONS : General surgery — gynaecological operations — orthopaedic surgery — Burns etc.

FORMULA : Powder content 1.5 g.

Each gramme contains :

Neomycin Sulphate (as base)	330 mg.
Polymyxin B Sulphate	100,000 units
Zinc Bacitracin	25,000 units

Pressurised with :

dichlorotetrafluoroethane and
dichlorodifluoromethane.

Almacarb

ALMACARB tablets are prepared from an aluminium hydroxide-magnesium carbonate co-dried gel made by an entirely new process. (Brit.Pat.812503) Aluminium hydroxide gel has been used for some years as an antacid in suspension, but until the introduction of Almacarb no means had been discovered by which its full acid-neutralising capacity could be retained through the process of drying and tableting. In Almacarb the full antacid potential is retained and its action is rapid and sustained.

ALMACARB—dosage. One tablet to be chewed as an initial dose, and thereafter one tablet to be sucked slowly at frequent intervals.

THE NEW IMPROVED ANTACID TABLET

ALMACARB is presented as peppermint-flavoured tablets, each containing 0.375 g. of aluminium hydroxide-magnesium carbonate co-dried gel.

In strips of ten foil-wrapped tablets in cartons of 40 at 3/- and 200 at 12/-.

Basic NHS prices subject to purchase tax.

DEEP SKIN PENETRATION IN ARTHRITIS AND RHEUMATISM

NICOTINIC, SALICYLIC AND p-AMINOBENZOIC ACIDS in Ester form

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilatation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau 1952, 8, 143

LLOYD-HAMOL LIMITED

11 Waterloo Place, London, S.W.1. Whitehall 8654/5/6

Transvasin is available in 30g. tubes, N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

Transvasin is the registered trade mark of Lloyd-Hamol Ltd.

'OTOSPORIN'

clears infected ears

The modern method of treatment in otitis externa, chronic suppurative otitis media, and infected mastoid cavities, is 'Otosporin' brand Drops.

'Otosporin' is an aqueous suspension containing both neomycin and polymyxin B sulphate which are together effective against practically all the bacteria found in ear infections.

They are unlikely to induce bacterial resistance or skin sensitisation, and neither of them gives rise to cross-resistance or cross-sensitisation to penicillin and other antibiotics. Their effectiveness is visibly enhanced by the hydrocortisone in 'Otosporin'; this, by reducing inflammation, not only relieves pain, but provides greater access for the antibiotics

'OTOSPORIN' BRAND drops
issued in bottles of 5 c.c.

BURROUGHS WELLCOME & CO. (THE WELLCOME FOUNDATION LTD.) LONDON

When your patient complains of pain—**Zactirin**

Zactirin* is a new analgesic, particularly effective in the range of moderately severe, painful conditions you meet in general practice. It allows patients to remain at work who previously had to stay at home. It achieves effective relief without the constipation, daytime sedation and disorientation or other side-effects that can be so disturbing with codeine medication. Prescribe Zactirin and let your patients judge the results.

Bottles of 10 and 100 tablets. Each tablet contains 75 mg. etioheptazine citrate plus 325 mg. aspirin and 97 mg. calcium carbonate. Write for detailed literature.

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, the entire Vitamin B Complex should always be administered concurrently.

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

- Aluzyme is not advertised to the public and may be prescribed on Form E.C.10

Information Service on New Drugs

The need for standardized record cards giving the essential facts about modern therapeutic agents is met by

The Index of New Products

Subscribers receive cards giving concise independent information ready for filing alphabetically, on all new preparations that can be prescribed in the National Health Service. The details are tabulated under such headings as:

COMPOSITION	DOSAGE
PHARMACOLOGICAL ACTION	REFERENCES TO THE LITERATURE
INDICATIONS	PACKING AND PRICE
CONTRAINDICATIONS	SUPPLIERS

The annual fee of two guineas covers all cards issued during the year, together with a filing drawer (inland subscribers only) and a cross-reference booklet. Cards previously issued (about 1,700) can be supplied for a further fee of four guineas.

WHEN BARBERS PULLED TEETH

IN 1399 Henry IV awarded a London barber 16d a day to draw the teeth of the poor without charge. So began the second stage of our state dental service. (The first was already thriving in the hands of the Public Executioner, who pulled teeth as a handy punishment for minor offences.)

We have come far since then. The law no longer claims our teeth, and neither does the barber. In fact these days everyone wants us to keep our teeth, and to keep them healthy. We know too that the earlier we start our children in good dental habits—by teaching them the C D E F rule for good teeth—the more promise we give them of healthy teeth both now and in adult life.

C **CLEANING** Often and thorough, to remove food particles that can cause decay. After each meal if possible.

D **DENTIST** No longer barberous. Regular visits to catch any trouble early.

E **EXERCISE** Lots of chewing—apples, celery, chewing gum, raw vegetables. Helps to clean teeth, promotes flow of saliva (nature's mouth-wash); stimulates gums, aids proper jaw development.

F **FOOD** Plenty of milk, butter, cheese and eggs: rich in minerals and vitamins for strong teeth and healthy gums.

** The Mayas of Central America chewed chicle (the basis of today's chewing-gum) more than 1,000 years ago. And they were renowned for their splendid teeth.*

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Third Collection with classified contents list to volumes 1, 2 and 3
Price 25s. (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the *British Medical Journal*. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments.

They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

(For Deputy Divisional Medical Officer on scale £865 by £32 10s. by £35 to £1,135 per annum, and Deputy Medical Officer of Health £451 2s. 2d. by £15 11s. 1d. by £14 8s. to £511 2s. 2d.) Application forms obtainable from County Medical Officer, County Health Department, Love's Grove, Castle Street, Worcester. (D.217.) (9564)

ADMINISTRATIVE**WESTERN REGIONAL HOSPITAL BOARD**

Applications are invited for the following appointment:

ADMINISTRATIVE MEDICAL OFFICER
on the staff of the Western Regional Hospital Board, with duties as Deputy Group Medical Superintendent at the hospital administered by the Board of Management for Glasgow South-Western Hospital. Salary (at age 33 and over) on the scale £1,545 4s. by £54 12s. (4) to £1,763 12s. by £71 (1) to £1,834 12s. Applications (16 copies), stating date of birth, qualifications, experience, present appointment, and the names of three referees, to reach the Secretary, Western Regional Hospital Board, 351 Sauchiehall Street, Glasgow, C.2, not later than 30 days after the publication of this advertisement. (5953)

SERVICES**THE MEDICAL SERVICE OF THE ROYAL NAVY****VACANCIES FOR MEDICAL OFFICERS**

Candidates are invited for Short-service Commissions of three years, on termination of which a gratuity of £690 (tax free) is payable. Ample opportunity is granted for transfer to Permanent Commissions on completion of one year's total service. Officers so transferred are paid instead a grant of £1,500 (taxable). All entrants are required to be British subjects whose parents are British subjects, medically qualified, physically fit, and to pass an interview. Full particulars from the Admiralty Medical Department, Queen Anne's Mansions, St. James's Park, London S.W.1.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958, and amended by the Council in June, 1960), which is available on request from the Secretary.

THE UNITED STEEL COMPANIES LIMITED

The Steel, Peech and Tozer branch of the above company invite applications from male registered medical practitioners for the post of Assistant Works Medical Officer at their steel works near Sheffield.

Candidates should be aged about 30 and have a good clinical background with an interest in industrial medicine. There is excellent opportunity for gaining the necessary knowledge and experience to take the D.I.H. Starting salary according to B.M.A. Scale, Contributory Pension Scheme. The successful candidate would be expected to work under the general direction of the Works Medical Officer and take up his duties on November 1 or soon thereafter. Applications, giving details of qualifications and experience, together with the names of three referees, should be sent to the Works Medical Officer, Steel, Peech and Tozer, The Ickles, Rotherham.

REPUBLIC OF IRELAND**CAVAN COUNTY COUNCIL****VACANCY FOR SURGICAL REGISTRAR**

Salary, £1,030 to £1,240, according to experience, plus £105 per annum for special qualifications. Application forms and particulars may be had from the undersigned, to whom completed forms should be returned.—M. J. Smith, County Secretary, Courthouse, Cavan, Ireland. (9501)

NORTH CANTERBURY HOSPITAL BOARD
Christchurch, New Zealand**POSITION OF PSYCHIATRIC OFFICER**

Applications are invited from qualified medical practitioners possessing experience, and preferably a qualification, in psychiatry, for the position of Psychiatric Officer to the Board. The appointee will be required to initiate a psychiatric service for the Board's public hospitals, which serve a population of some 250,000. The position is intended initially to be a whole-time one, without the right of private practice, but after the Psychiatric Department has been established for a reasonable period, the Board would be prepared to consider converting the appointment to a visiting basis, with the right of private practice. The salary paid will be determined by the provisions of the Hospital Employment (Medical Officers) Regulations. At present these provide scales between £2,100 per annum and £2,650 per annum (New Zealand currency), for a suitably qualified whole-time appointee. The Board will grant liberal assistance with travelling expenses to New Zealand to a successful applicant, his wife and dependent children, provided the applicant is resident in the United Kingdom at the time of appointment and subject to a guarantee of at least two years' service to the Board. Conditions of appointment and schedule of information obtainable on request from the Secretary, North Canterbury Hospital Board, Private Bag, Christchurch, New Zealand, to whom applications should be addressed, to arrive before 9 a.m. on Wednesday, November 30, 1960. Applications must contain full details of age, marital status, qualifications, positions held, experience, etc., and be supported by copies of three recent testimonials, as well as the names of referees. All overseas correspondence should be forwarded by airmail. (9063)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****MEDICAL RESEARCH COUNCIL****TRAVELLING FELLOWSHIPS IN MEDICINE AND MEDICAL SCIENCE****Rockefeller Travelling Fellowship in Medicine**
Sir Henry Wellcome Travelling Fellowship

The Medical Research Council invite applications for Travelling Fellowships to be awarded for the academic year 1961-62. These fellowships are intended for graduates of medicine or science, resident in this country, who have had some training in research work in clinical medicine or surgery, or in some other branch of medical science, and who are likely to profit by a period of work at a centre abroad, before taking up appointments for higher teaching or research in the United Kingdom. Fellowships held in the United States will provide maintenance allowances at rates varying from 3,000 dollars per annum, according to individual circumstances, and travelling expenses will also be provided. Further particulars of these Fellowships and forms of application may be obtained from the Secretary, Medical Research Council, 38 Old Queen Street, Westminster, S.W.1, to whom the completed form should be returned not later than October 31, 1960. (8959)

MEDICAL RESEARCH COUNCIL**TRAVELLING FELLOWSHIPS IN MEDICINE AND MEDICAL SCIENCE****United States Public Health Services Fellowships**
Lilly Foreign Educational Fellowships
The Lederle Travelling Fellowship

The Medical Research Council invite applications for the above-mentioned Travelling Fellowships available for nomination for the academic year 1961-62. These fellowships are intended for graduates in medicine, and also to science graduates in the case of the U.S. Public Health Services Fellowships, resident in this country, who have had some training in research work in clinical medicine or surgery, or in some other branch of medical science, and who are likely to profit by a period of work at a centre in the United States before taking up appointments for higher teaching or research in the United Kingdom. Fellowships will provide maintenance allowances in the United States at rates varying from \$3,000 per annum, according to individual circumstances, and travelling expenses will also be provided. Further particulars of these Fellowships, and forms of application, may be obtained from the Secretary, Medical Research Council, 38 Old Queen Street, Westminster, S.W.1, to whom the completed form should be returned not later than October 31, 1960. (8960)

MEDICAL RESEARCH COUNCIL**TRAVELLING FELLOWSHIPS IN MEDICINE AND MEDICAL SCIENCE**

The Medical Research Council invite applications for the following special Travelling Fellowships for the academic year 1961-62.

Alexander Fagott-Wernher Memorial Travelling Fellowships in Ophthalmology and Otolaryngology

These Fellowships are intended for suitably qualified medical graduates who are likely to profit by a period of work in Ophthalmology or Otolaryngology at a centre abroad before taking up positions for higher teaching and research in these branches of medical science. Candidates will be required to submit an outline of their proposals for work at a selected centre. The awards will normally be tenable for one year; no provision can be made for travelling grants for short-term visits abroad. The Fellowships provide for the payment of a maintenance allowance at the rate of £650 per annum for a single Fellow, or £900 per annum for a married Fellow, if the Fellowship is held in sterling areas, or \$3,000 for a single Fellow, and \$4,200 for a married Fellow, if the Fellowship is held in the United States; in addition, an allowance is made for travelling and other approved expenses.

Dorothy Temple Cross Research Fellowships in Tuberculosis

The object of the Fellowships, as defined in the Trust Deed, is to give special opportunities for study or research to suitably qualified British subjects of either sex "intending to devote themselves to the advancement by teaching or research of curative or preventive treatment of tuberculosis in all or any of its forms." The Fellowships will, as a rule, be awarded to candidates who wish to make their studies or inquiries elsewhere than in the United Kingdom. The Fellowships provide for the payment of a maintenance allowance at the rate of £650 per annum for a single Fellow, and £900 per annum for a married Fellow, if the Fellowship is held in sterling areas, or \$3,000 per annum for a single Fellow, and \$4,200 per annum for a married Fellow, if the Fellowship is held in the United States; in addition, an allowance will be made for travelling and other approved expenses.

French Government Exchange Scholarships in Medical Science

Under the terms of a reciprocal arrangement with the Centre National de la Recherche Scientifique, the Medical Research Council invite applications from British workers in medical science for two scholarships tenable at research institutions in France during the academic year 1961-62. The scheme is intended for young graduates in medicine or science who have already had some experience in a branch of medical science. Candidates must be of British nationality, and have at least a working knowledge of French. The scholarships will normally carry a maintenance allowance within the range of 500-700 new francs a month, according to qualifications and experience, and married men will receive a supplementary allowance (payable in sterling by the Council): the grade appropriate to each individual will be decided by the C.N.R.S. in consultation with the Council. Provision will also be made for travelling expenses to and from the place of work.

Further particulars of these awards, and forms of application, may be obtained from the Secretary, Medical Research Council, 38 Old Queen Street, Westminster, S.W.1, with whom applications must be lodged not later than October 31, 1960. (8961)

RESEARCH REGISTRAR IN OBSTETRIC PHYSIOLOGY**REGISTRAR GRADE**

Applications are invited from medical graduates to work with Mr. G. W. Theobald, at St. Luke's Maternity Hospital, on problems of uterine physiology for a period ending June 30, 1961. There will be no clinical responsibilities. This appointment could suit those interested in research and working for higher degrees in medicine, surgery or obstetrics. Applications to the Secretary, Royal Infirmary, Bradford, 9, Yorkshire, not later than October 7, 1960. (9421)

University and Research**Appointments, etc.—contd.****ST. GEORGE'S HOSPITAL MEDICAL SCHOOL**
(University of London), London S.W.1**LECTURER IN BACTERIOLOGY**

Applications are invited for the above appointment. Applicants should hold a medical qualification and have some previous experience in the field of medical bacteriology. The salary scale (at present £1,150 to £1,750) is under review. Superannuation and children's allowances are included. Applications, with the names of two referees, should reach the Secretary by November 1, 1960. (9503)

ST. THOMAS'S HOSPITAL MEDICAL SCHOOL
London, S.E.1

Applications are invited for the post of

SENIOR LECTURER

in the Department of Bacteriology

The initial salary will depend on the age and previous experience of the applicant, but will be between £1,650 and £1,950, with participation in the F.S.S.U. scheme. Applications, stating age, academic qualifications, and experience, together with the names of three referees, should be sent as soon as possible to Professor Ronald Hare, from whom further details of the appointment may be obtained. (9550)

THE UNIVERSITY OF LEEDS
Department of Anaesthetics

Applications are invited from registered medical practitioners for appointment as

LECTURER IN ANAESTHETICS

at a salary on the scale £1,200 by £100 to £1,600 (efficiency bar) by £100 to £1,900 a year, according to qualifications and experience. Applications (three copies), stating date of birth, qualifications, and experience, together with the names of three referees, should reach the Registrar, The University, Leeds, 2 (from whom further particulars may be obtained), not later than October 31, 1960. (9585)

UNIVERSITY OF EDINBURGH
Department of Pathology

Applications are invited from persons with medical or science degrees for the post of

GRADUATE ASSISTANT

to participate in a research programme on experimental hypertension. Experience of biological laboratory work is required. Salary, according to experience, in the range £900 to £1,100, with superannuation and allowances at standard rates. Further particulars may be obtained from the undersigned, with whom applications should be lodged by October 22, 1960.—Charles H. Stewart, Secretary to the University. (9520)

PERSONAL

ADOPTION, SYMPATHETIC AND CONFIDENTIAL help and advice.—Church Adoption Society, 4a, Blom-bury Square, W.C.1. HOL 3310. Secretary, Mrs. P. Heynert, A.M.I.A.

LADY DESIRES SHARE, WITH CONGENIAL person, lovely comfortable country home, car, expenses. Open suggestions. Interests driving, walking, garden.—Mrs. Moss, The Crest, Sissinghurst, Kent.

MEETINGS**LONDON JEWISH HOSPITAL**

Stepney Green, E.1

CLINICAL MEETING, Sunday, October 9, 1960
Cases in Out-patient Department at 10 a.m. Discussion in Nurses' Lecture Room, 11 a.m. to 12 noon. Members of the London Jewish Hospital Medical Society, local general practitioners, senior medical students, and any other doctors who are interested are most cordially invited. (9569)

No fee for the Course. Applications to be sent to the Secretary, Harlow Wood Orthopaedic Hospital. Limited accommodation available, if required, at associated hospital.

INSTITUTE OF BASIC MEDICAL SCIENCES

Royal College of Surgeons of England
British Postgraduate Medical Federation
(University of London)

A course of study in Anatomy, Physiology, Pathology, Biochemistry, and Pharmacology has been arranged, commencing on October 2, 1961, and continuing for a period of two terms to March 9, 1962. This course includes systematic revision lectures, practical demonstrations and tutorials covering topographical Anatomy with Histology and Embryology, general Pathology with Microbiology, applied Physiology including Biochemistry, and Pharmacology. It is designed for all postgraduate students proceeding to higher diplomas in Surgery, Medicine, and Anaesthetics, and will include tutorials and demonstrations for small groups. The fee for the full course (limited to 90 students) will be £73 10s. Additional students for the lectures only will be accepted at a fee of £42. Applications should reach Mr. W. F. Davis, Secretary, Institute of Basic Medical Sciences, Royal College of Surgeons of England, Lincoln's Inn Fields, London W.C.2, by May 29, 1961. (9525)

POSTGRADUATE STUDY.—Diploma in Anaesthetics; Diploma in Psychological Medicine; Diploma in Ophthalmology; Diploma in Radiology; Diploma in Laryngology; Diploma in Child Health; M.R.C.S.Ed. and all Surgical Examinations. M.R.C.P.Lond. and all Medical Examinations. M.D. thesis of all Universities. Courses for all qualifying examinations. Complete Guide to Medical Examinations sent free on application. Applicants should state in which qualification they are interested. Address Secretary, Medical Correspondence College, 19 Welbeck St., London W.1.

SOCIETY OF APOTHECARIES OF LONDON (M.M.S.A.)

The Mastery of Midwifery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Child Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent: the examination, written, oral and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maternal and Infant Mortality. Examinations are held twice yearly, in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of Apothecaries, Black Friars' Lane, E.C.4.

THE DENTAL AND MEDICAL SOCIETY FOR THE STUDY OF HYPNOSIS

The above Society will hold two Study Groups on the "Theory and Practice of Hypnosis" in October, November, and December this year. These Study Groups are open to dental and medical practitioners only. On October 17, 1960, a series of eight consecutive Monday and Friday evening lectures will begin. This course will cover the use of hypnosis in dental and psychological fields. Coaching is given on the technique of hypnosis. On December 3 and 4 an intensive Week-end Course will be held in London for those members who live too far away to attend the full course. Medical practitioners who wish to attend are invited to apply to the Secretary, 63 Twyford Abbey Road, London N.W.10. (8984)
