# Rinurel

TABLETS

A unique formulation which secures in a single tablet the greatest possible relief from the pain of sinus headache and the discomfort of the common cold. Rinurel affords prompt and lasting action without rebound congestion, gastric disturbance or constipation.

Rinurel decongests sinus and nasal mucosa to relieve pressure and promote drainage; aborts pain with two analgesics; reduces rhinorrhoea and sneezing with an antihistamine.

The prompt action of paracetamol and the more extended action of phenacetin combine to produce rapid and prolonged antipyresis. Rinurel relieves the discomfort of sinus headache and controls the symptoms of the common cold.

**Formula:** Paracetamol 150 mg. Phenacetin 150 mg.  
Phenylpropanolamine hydrochloride 25 mg.  
Phenyltoloxamine dihydrogen citrate 22 mg.

**Dosage:** Two tablets initially followed by  
one every 4 hours.  
Prophylactically one tablet every 4 hours.

# Discord into Harmony...

*"The sympathetic is like the loud and soft pedals,  
modulating all the keys together; the cranial and  
sacral innervations are like the separate keys."*

CANNON, W. B., The Wisdom of the Body.

Mental and emotional stress may set the keys a-jangling  
and throw the autonomic system into discord—  
a discord which reverberates through every function of the body  
and shows itself as one or other form of psychosomatic disorder.

Elimination of the cause if possible,  
reassurance of course and psychotherapy if need be—  
are the essentials of treatment—  
but the first aid the distressed patient needs is symptomatic relief.

Bellergal acts by controlling the exaggerated responses  
of the autonomic nervous system—  
ergotamine and belladonna block the passage of impulses  
at the sympathetic and parasympathetic nerve-endings  
and phenobarbitone renders the higher centres less reactive  
to mental and emotional stimuli.

Bellergal acts at different levels—central and peripheral—  
to control the somatic manifestations of mental and emotional stress.

Bellergal restores the harmony of autonomic functions  
and once again the body becomes a well-tuned  
—and well-tempered—instrument.

# PREDSOL ENEMA

THE FIRST PRESENTATION OF A CORTICOID IN A DISPOSABLE PLASTIC BAG

A water-soluble corticoid given as a rectal infusion has produced complete symptomatic relief and considerable improvement, as judged by sigmoidoscopic and histological findings,<sup>1</sup> in a high proportion of patients with ulcerative colitis. This technique has now been further simplified<sup>2</sup> by presenting a small quantity of Predsol (water-soluble prednisolone) in solution as an enema to avoid the inconvenience of prolonged administration by rectal drip.

The course of treatment is one Predsol Enema contained in a disposable plastic bag, self administered nightly for about a month ... a course to which the majority of patients will respond.

**'PHYSEPTONE' LINCTUS** is not constipating, and seldom causes other side-reactions. Although subject to D.D.A., the Linctus in therapeutic doses carries negligible risk of addiction since only a small amount of the drug is contained in such doses.

**'PHYSEPTONE' LINCTUS** contains 2 mgm. of methadone hydrochloride in each fluid drachm (the recommended adult dose). For children it should be diluted with simple syrup in the proportion of one part linctus and seven parts syrup—one to two teaspoonfuls (0.25—0.5 mgm.) of this *diluted* linctus to be given according to the age of the child.

## SALT-FREE MARMITE

Salt-free Marmite is an unsalted yeast extract which has in the past been supplied chiefly to hospitals, but is now available through chemists in 4 oz. and 8 oz. jars. Salt-free Marmite is suitable for inclusion in low-sodium diets and there is, in fact, a growing demand for this extract from patients who have to adhere to a salt-free regime.

Salt-free Marmite adds a pleasant piquant flavour to the rather monotonous dishes permitted in low-sodium diets. Moreover, it is a source of all known factors of the vitamin B complex and its high potassium content is of importance to patients on certain oral diuretic drugs which tend to deplete the potassium stores of the body.

## ADAPRIN

### Tablets for Chilblains

Among predisposing factors to chilblains are assumed to be defective peripheral circulation and diminished coagulability of the blood.

Each Adaprin tablet contains nicotinamide (50 mg.) and acetomenaphthone (10 mg.) as the logical drugs to counteract these defects. Nicotinamide is preferred to nicotinic acid because of the unpleasant symptoms of rapid vasodilatation associated with the latter compound. Adaprin is non-toxic and may safely be given to children and adults for long periods for prevention. Relief from existing chilblains may be expected in a few days. In containers of 25, 100, and 500 tablets.

## PAVACOL

### Syrup and Pastilles for Coughs

**Pavacol Syrup (Improved Formula)**—a distinctively flavoured cough remedy containing papaverine and pholcodine. Papaverine relaxes the bronchi by direct action. Pholcodine, the new ingredient, is a central cough suppressant which is as effective as heroin (diamorphine), but without the disadvantages of that dangerous drug. Pholcodine is much less toxic even than codeine, and it does not cause constipation. Pavacol Syrup and Pavacol Diabetic Syrup are supplied in bottles of 4, 16 and 80 ozs.

**Pavacol Pastilles**—contain the powerful, wide-range, quaternary ammonium antiseptic, Octaphen, together with the antitussive compounds, papaverine and codeine, and the demulcents and volatile oils present in Pavacol Syrup. For the prophylaxis and treatment of bacterial and fungal infections of the mouth and throat—and for symptomatic treatment of cough. In tins of 24 pastilles.
