

ACHIEVEMENT

H.M.S. Victory, 2,162 tons, took 6 years to build and was launched in 1765. At the mercy of the wind, she was obliged to sail into battle at Trafalgar under full canvas, at a speed of 3 knots. The 45,000 ton Canberra was completed in 2 years and launched in March 1960. Her service speed is 27½ knots.

BROXIL ACHIEVES MORE RAPID CLINICAL RESULTS IN ALL GRAM-POSITIVE INFECTIONS

Quickly absorbed from the gastro-intestinal tract, Broxil produces within a period of half to one hour peak serum concentrations higher than can be obtained with any other penicillin. Clinical response with Broxil has been noted to be more rapid than with penicillin V and in most cases recourse to injections is unnecessary.

Broxil, the high peak penicillin, is the potassium salt of 6-(alpha-phenoxypionamido)-penicillanic acid. It is available in tablet or syrup form.

Broxil Tablets Basic NHS price: packs of 100 tablets: 125 mg. 54/9, 250 mg. 108/-.

Athlete's Foot

Ringworm of the feet

After 7 days' treatment with Jadit

potent fungicide—in vivo

Jadit has a potent fungicidal action *in vivo* and penetrates deep into the epidermis. Its action is practically unimpaired in the presence of tissue protein—unlike other antimycotics whose record *in vitro* is rarely borne out clinically. Jadit is cosmetically acceptable, simple and safe. It is indicated in fungus infections of the skin, especially athlete's foot. Jadit 'H', containing 0.5% hydrocortisone, is indicated when there is acute inflammation in addition to fungus infection.

for
Lucofen

Whenever Sir John Falstaff felt an urge to eat—he ate. Bread, sugar, meat, capons—washed down with flagons of sack—all helped to create “that stuffed cloak-bag of guts, that roasted Manningtree ox with the pudding in his belly”.

Look at him! Look at your patients too; wouldn't they benefit from Lucofen, a new treatment for obesity through appetite limitation? In the treatment of obesity, the active co-operation of the patient is essential. Lucofen secures this co-operation, because his normal anticipation of meals is unaffected—but he will be satisfied much earlier. Eating sensibly and taking Lucofen, the co-operative patient is more ready to help the doctor and himself.

Lucofen, 1-(*p*-chlorophenyl)-2-methyl-2-aminopropane hydrochloride acts without the frustration and irritability caused by many weight-reducing programmes.

The resultant weight loss is gradual, safe and dependable. Lucofen is free from the disadvantages of the usual amphetamine-like drugs, and thus causes no restlessness, sleeplessness or addiction. It is especially useful in combating the evening hunger felt by many patients. There is evidence of fat mobilisation.

Dosage: The recommended dose is one tablet (25 mg.) three times a day before meals, or three tablets before breakfast. This dosage normally results in an average loss of 1 lb. to 1½ lbs. per week.

Presentation: Bottles of 50 and 500 tablets.

* The action of Shakespeare's *Henry IV Part I* covers the years preceding the battle of Shrewsbury, July 1403. Falstaff at this time was “some fifty, or by'r lady, inclining to three score”. He owes his name, and perhaps more, to the denigrated soldier Sir John Fastolf (1378-1459).

NULACIN "has revolutionized the treatment of duodenal ulcer"

simply

safely

Nulacin tablets, dissolved slowly in the mouth, provide intragastric milk-alkali drip therapy, obviating the necessity for a tube. Treatment is easy and convenient for the ambulant as well as the bedridden patient. Nulacin may be relied on to provide an effective treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity. No undesirable side effects occur and no cases of alkalosis or acid rebound due to Nulacin have ever been reported. The safety and effectiveness of Nulacin therapy has been proven by 'in vivo' clinical work carried out in many countries.

The incidence of diarrhoea and infections of the intestinal tract is extremely high during the summer months. The majority of cases are bacterial in origin but dietary factors also play their part. Whatever the cause, effective treatment can be carried out with Ivax. Both the infecting bacteria and the debilitating diarrhoea will yield to the special combination of neomycin, sulphaguanidine and kaolin. Ivax quickly controls infection, consolidates the stools, and soothes irritated and inflamed mucosa.

Ivax is palatable and ready-prepared suitable for children and adults.

Lofenalac

Low-phenylalanine diet for phenylketonurics

Dear Doctor,

Since Fölling called attention to phenylketonuria 23 years ago, many aspects of the condition have been clarified and defined. Moreover, the introduction of simple diagnostic tests have switched emphasis from detection to effective management. Once you've found your phenylketonuric what do you do with him or her? This question will become more important as mass-screening programmes are organised throughout the country.

Lofenalac is the answer. Lofenalac is a scientifically balanced, low phenylalanine diet, suitable for both infants and children. Formulated with an enzymatically prepared casein hydrolysate and with a vegetable fat content of high iodine number it is palatable and easily managed. It is a complete diet for infants and forms the main basis of diet for the older phenylketonuric child.

Why Lofenalac especially? Mead Johnson are in a unique position: over 50 years of research on infant and invalid diets has given us incomparable experience with this kind of product.

ROTER

has particular
advantages

ROTER achieves a high cure rate and often gives effective control of even refractory chronic cases which have resisted other treatments.

ROTER in many cases obviates the need for hospitalization or surgical intervention.

ROTER helps patients to keep ambulant and symptom-free with a minimum of medication and with few, if any, dietary restrictions.

ROTER in general practice enables the physician to take adequate care of his gastric cases without frequent or prolonged supervision.

ROTER has no known side effects.

ROTER requires no supplementary medication such as sedatives or anti-spasmodics.

ROTER shows a saving in cost when compared with conventional methods of treatment.

No one disputes that spanners can be very useful: they can also bring work to a standstill if you are not careful. Most analgesics are rather like spanners—very useful so long as their side-effects do not interrupt the normal working of your patients. You would call Zactirin a very special-spanner. It can safely slacken off your patients' pains without the risk of work-stopping disturbances such as dizziness, gastric upsets, disorientation—that's because it contains Wyeth's new, specific analgesic, ethoheptazine. THE MEDICAL SERVICE OF THE ROYAL NAVY

VACANCIES FOR MEDICAL OFFICERS

The Royal Navy offers Short Service Commissions of 3 or 5 years' duration to registered medical practitioners. Opportunity exists for transfer to Permanent Commission, by selection, after one year's service. There are facilities for postgraduate study and training for higher degrees with a view to specialization, in the case of officers entered on 5-year short service and on Permanent Commissions. Specialities include Underwater Physiology, Nuclear and Aviation Medicine, as well as the usual clinical subjects.

Pay: On entry a Surgeon Lieutenant married and over the age of 25 years will receive £1,195, with annual pay increments thereafter and a tax-free ration allowance of £112 p.a., if unaccommodated. Additional allowances are paid for children's education, disturbances involving essential moves of family, and for service overseas.

Gratuities and Pensions:

Gratuities are payable on completion of short service commissions:

3 years' service £1,500 tax free

5 years' service £3,000 tax free

Those officers accepted for Permanent Commissions receive £1,500 (Taxable).

Service becomes pensionable after 16 years.

A natural action laxative

When advising a laxative, medical preference usually favours the use of a product which acts in a perfectly natural way. Andrews meets this demand admirably. Its effect is to increase the fluid content in the bowel by osmosis and so induce a mild and natural aperient action that does not irritate the intestine.

Andrews will be found particularly useful for relieving constipation arising from decreased food intake, either during illness or restricted diet.

Andrews has further advantages, it is mildly antacid and relieves gastric discomfort. It also improves the flow of bile and helps to check biliousness and sick headaches.

The pleasant taste and refreshing effervescence of Andrews make it readily acceptable to most patients.

Applications are invited for the post of

MEDICAL OFFICER

The post calls for postgraduate experience in anaesthetics and, in addition, the successful applicant will be required to carry out general duties in the European and African Hospitals and in the Out-patient Department, which will include domiciliary visits.

The initial basic salary offered for the post will be between £2,040 and £2,520 per annum, depending on experience. In addition, a bonus varying with the prosperity of the industry is paid annually; at the present time it is 37% of basic salary. There is also a generous Pension and Life Assurance Scheme to which employees contribute a minimum of 5% of basic earnings. The Company contributes 5% for the first year of service, increasing its contribution by 4% for each additional year of service.

Accommodation, with basic furniture, is provided at a sub-economic rental, and a car is available during the course of normal duties. Annual leave is at the rate of 51 days per annum and may be accumulated over three years' service.

The mine is situated at Luanshya and is approximately 13° south of the Equator on the high Central African Plateau. Being 4,000 feet above sea level the climate is a healthy and moderate one. The heat is never extreme, due to the altitude, and the winters are cool and dry.

The Federal Education Department provides a full range of education (infant, primary and secondary) up to university entrance standard, free of charge.

Facilities for all the most popular sports are available and are enjoyed the year round. A cinema provides programmes daily as well as matinees for children. There is also a swimming pool which is of international standard. A number of recreational societies such as the Amateur Dramatic and Operatic Society and Camera Club are active. A television service is scheduled to commence at the end of this year.
