

# Can home cooking ever be second best?

You've probably often said to a mother on the subject of weaning, "Make sure there is plenty of variety in your baby's diet." But, although she may grasp the importance of variety, she probably has no very clear idea as to how she is to provide it.

*This is one of the reasons why so many medical practitioners go on to recommend Heinz Baby Foods. With 31 Strained Foods, and 16 Junior Foods for the older baby, they offer a simple and practical way of achieving the variety you advise.*

**H**EINZ Baby Foods are prepared from the finest ingredients, which are inspected at every stage of production. They're cooked by a special process which keeps loss of mineral salts, vitamins and soluble nutrients down to the minimum. Finally, they're finely sieved or chopped to exactly the right consistency.

Endless variety all the year round. Carefully, hygienically cooked foods made from the finest ingredients. And there's yet another reason why Heinz can justifiably claim that their Baby Foods are better than home-prepared. Heinz Baby Foods, as the basis of her baby's diet, give a mother more time to spend with her baby, and so promote that calm, close relationship between mother and child which is probably just as important as a well-balanced diet.

**Lucofen**

Nottinghamshire in the Lawrence-Sillitoe era has gained a certain reputation for adultery; but the simple folk-tale of Robin Hood and Maid Marion allows of no such interpretation. Gluttony, however, is another carnal sin that has been immortalised in the person of Friar Tuck, of whom little is known save that he ate too much and too often, but was a loyal friend.

Overweight modern clergy desiring to reduce have another loyal friend—Lucofen. A new drug for the limitation of appetite, Lucofen acts without interfering with normal meal anticipation. It thus helps to gain the active co-operation of the patient, so essential in the treatment of obesity. Eating sensibly, and taking Lucofen, the co-operative patient is more ready to help the doctor and himself.

**Lucofen**, (chlorphentermine) acts without the frustration and irritability caused by many weight-reducing programmes.

The resultant weight loss is gradual, safe and dependable. Lucofen is free from the disadvantages of the usual amphetamine-like drugs, and thus causes no restlessness, sleeplessness or addiction. It is especially useful in combating the evening hunger felt by many patients. There is evidence of fat mobilization.

**Dosage:** The recommended dose is one tablet (25 mg.) three times a day before meals. This dosage normally results in an average loss of 1 lb. to 1½ lb. per week.

**Presentation:** Bottles of 50 and 500 tablets.

\* There are 36 extant individual ballads of the Robin Hood story, dating back to the 16th century; but 300 years before that, the "Whitsun pastoral" or "May game", in which the same characters appear, was being denounced by the Church. The Robin Hood—Friar Tuck story that we know refers to the Anglo-Norman century 1150-1250.

**ROTER** achieves a high cure rate and often gives effective control of even refractory chronic cases which have resisted other treatments.

**ROTER** in many cases obviates the need for hospitalization or surgical intervention.

**ROTER** helps patients to keep ambulant and symptom-free with a minimum of medication and with few, if any, dietary restrictions.

**ROTER** in general practice enables the physician to take adequate care of his gastric cases without frequent or prolonged supervision.

**ROTER** has no known side effects.

**ROTER** requires no supplementary medication such as sedatives or anti-spasmodics.

**ROTER** shows a saving in cost when compared with conventional methods of treatment.

● **Dosage once a day, every day.**

Even in frank oedema, once daily is all you need. Easy for patient to remember and stick to, easy for physician to supervise.

● **No therapeutic gap between doses.**

Round the clock effectiveness. Your first dose provides good diuretic and hypotensive action that's sustained right up to the time next day's dose takes over.

● **Peak natruresis at 10 mg. level.**

Maximum sodium output occurs with each single 10 mg. dose. Natruresis remains well above control (i.e. undosed) level more than 24 hours. Larger single doses give no added effect.

● **Enhanced potassium-sparing effect.**

Enduron's single daily dose causes but a temporary single peak of potassium loss (compared to multiple daily peaks with multiple-dose thiazides). Basic ratio of sodium excretion versus potassium is enhanced too. Potassium depletion is rarely seen.

**ENDURON** is a distinctive analogue of the thiazide family, created by Abbott. Usual adult dose is only 2.5 to 10 mg. once daily; this low multigramme dosage provides the security of a very safe therapeutic ratio.

# DEEP SKIN PENETRATION IN ARTHRITIS AND RHEUMATISM

## NICOTINIC, SALICYLIC AND p-AMINOBENZOIC ACIDS in Ester form

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.\*

Transvasin not only induces vasodilatation of the skin with a superficial erythema, but also brings about deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low. Transvasin can be prescribed on Form E.C.10.

The fact that the walls of the dishes made by the most up-to-date manufacturing processes are free from bubbles, streaks, rings and discoloration guarantees undisturbed examination and accurate counting of the microbe colonies.

Its material, in accordance with the use to which the dish is put, resists perfectly to chemical and thermal effects.

The glass does not contain any harmful internal tension detectable with an optical stress tester, and this circumstance guarantees the high breaking strength necessary during sterilization in an autoclave.

# CICATRIN

**accelerates healing rates by 25-50%\***

Prolonged and expensive treatment of chronic ulcers may be avoided by the use of Cicatrin, the leading amino-acid/antibiotic preparation for topical application.

Further evidence of its efficacy is provided by a recently controlled clinical trial to evaluate the influence of various topical applications on the healing rates of stasis ulcers which shows that Cicatrin with its combination of selected amino-acids and antibiotics accelerates the healing rates by 25-50%.

It is also significant that in one group where the main difference between the two preparations was that one contained amino-acids and antibiotics (Cicatrin) and the other antibiotics only, the healing time in the Cicatrin treated group was shortened considerably both in bed rest and ambulatory cases.

**MEDICAL OFFICER**

Applications are invited for a full-time appointment in the medical services of a leading British company in Commonwealth West Africa. Candidates should preferably be not more than thirty-five years of age, and should have had a good amount of experience since qualifying.

The scope of the work done by the Company's medical services varies from place to place in West Africa, but in general may be said to cover the health supervision of working communities and their dependants. In many cases this involves taking charge of a small hospital. There is also considerable opportunity for the practice of preventive medicine, public health and industrial medicine in the widest sense.

While each doctor is administratively responsible to his local manager, his professional links are with the Assistant Principal Medical Adviser, Unilever Limited, to whom applications should be made at Unilever House, Blackfriars, London E.C.4.

The successful candidate will spend an initial period attached to the London Medical Centre of Unilever Limited. **THE SOCIETY FOR MEDICAL AND DENTAL HYPNOSIS**

(formerly Dental and Medical Society for the Study of Hypnosis and Hypnotherapy Group) will hold two Study Groups on the "Theory and Practice of Hypnosis" for medical and dental practitioners in October and December, 1961. On October 16, a series of eight consecutive twice-weekly evening lectures will begin at 8 p.m. This Full Course will cover the use of hypnosis in medical, dental, and psychological fields and will include individual tuition on the technique of hypnosis.

On December 2 and 3, an Intensive Week-end Study Group will be held in London for those members who live too far away to attend the evening lectures on the Full Course. Medical practitioners are invited to apply to the Secretary, Society for Medical and Dental Hypnosis, Manson House, 26 Portland Place, London W.1. (5627)

**UNIVERSITY OF LONDON**  
(British Postgraduate Medical Federation)  
**INSTITUTE OF NEUROLOGY (Queen Square)**

Two Courses of Clinical Demonstrations, open to postgraduates, will be held at the National Hospital, Queen Square, on Wednesdays at 4.15 p.m., from October 11 to December 19, 1961, inclusive, and on Saturdays at 10.30 a.m., from October 7 to December 16, 1961, inclusive. The fee for attending either of these courses is three guineas. Applications for a ticket should be made to the Dean, Institute of Neurology, The National Hospital, Queen Square, W.C.1, and a remittance to cover the fee enclosed. Only postal applications will be considered. (5623)

**UNIVERSITY OF SHEFFIELD**  
Department of Child Health

A short course on the "Assessment of the Development of the Infant and Pre-school Child" will be conducted in Sheffield by Professor R. S. Illingworth and colleagues, on November 23-25, 1961. The number attending will be strictly limited, so that full opportunity will be available for personal clinical observation and instruction. The fee is four guineas, but N.H.S. practitioners are (subject to certain conditions) eligible to have fees paid on their behalf and to receive also certain allowances for expenses. Applications (stating whether or not these are made under the scheme for N.H.S. practitioners, and whether it is desired that accommodation should be arranged, if possible, by the organizers of the course) should be addressed as soon as possible to the Dean of the Faculty of Medicine, The University, Sheffield 10, from whom further particulars may be obtained. (5661)

**Educational and Lectures—contd.****WEEK-END COURSE IN CLINICAL ORTHOPAEDICS**

## DRUGS IN THE TREATMENT OF DISEASE

Medium 8vo. 570 pages. Price 35s. (by post 36s. 9d.)

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the *British Medical Journal*, the book presents an up-to-date, indexed, authority on medicinal treatment — of considerable help to the doctor in choosing the best drug for his patient.
