EACH TABLET CONTAINS Aluminium glycinate 0.9 G

Light magnesium carbonate, B.P. 0.1 G

Franol eases the patient's breathing by dilating the bronchioles and reducing mucous congestion. It helps the patient by freeing him from distressing symptoms and allowing him to get unbroken rest at night. Since its introduction, the prescribing of Franol for the relief of bronchitis and asthma has increased every year. More and more doctors use Franol to relieve bronchial spasm in the treatment of these conditions.

"We have tried out a considerable number of preparations, and the one which gives the best results is a compound of theophylline, ephedrine, and 'luminal', marketed under the trade name of 'Franol' (Bayer). The three ingredients act respectively on the bronchial musculature, the nerve endings, and the central nervous system, and there is probably some potentiation since the dose of each individual component is small. Its most striking effect is in suppressing those nocturnal attacks which may occur night after night with clockwork regularity. . . . It rarely has any side-effects, and the remarkable improvement in the patient's general condition . . . is most gratifying. Weight goes up, appetite improves, and the patient increasingly begins to be able to do more".*

Rinurel controls the symptoms of the common cold

Rinurel relieves sinus headache and the symptoms of the common cold, thus enabling the patient to continue normal activity with a minimum of discomfort to himself and others. Rinurel provides analgesic, antipyretic, antihistaminic and decongestant effects. It will control symptoms whether they arise from infection, allergy, or both. Rinurel gives prompt, lasting relief from pain and discomfort without rebound congestion, gastric disturbance or constipation.

for
Lucofen

Nottinghamshire in the Lawrence-Sillitoe era has gained a certain reputation for adultery; but the simple folk-tale of Robin Hood and Maid Marion allows of no such interpretation. Gluttony, however, is another carnal sin that has been immortalised in the person of Friar Tuck, of whom little is known save that he ate too much and too often, but was a loyal friend.

Overweight modern clergy desiring to reduce have another loyal friend—Lucofen. A new drug for the limitation of appetite, Lucofen acts without interfering with normal meal anticipation. It thus helps to gain the active co-operation of the patient, so essential in the treatment of obesity. Eating sensibly, and taking Lucofen, the co-operative patient is more ready to help the doctor and himself.

Lucofen, (chlorphentermine) acts without the frustration and irritability caused by many weight-reducing programmes.

The resultant weight loss is gradual, safe and dependable. Lucofen is free from the disadvantages of the usual amphetamine-like drugs, and thus causes no restlessness, sleeplessness or addiction. It is especially useful in combating the evening hunger felt by many patients. There is evidence of fat mobilization.

Dosage: The recommended dose is one tablet (25 mg.) three times a day before meals. This dosage normally results in an average loss of 1 lb. to 1½ lb. per week.

Presentation: Bottles of 50 and 500 tablets.

* There are 36 extant individual ballads of the Robin Hood story, dating back to the 16th century; but 300 years before that, the "Whitsun pastoral" or "May game", in which the same characters appear, was being denounced by the Church. The Robin Hood—Friar Tuck story that we know refers to the Anglo-Norman century 1150-1250.

dramatic clinical results in psoriasis

followed by medical successes
throughout the United Kingdom

Though modern medicaments have brought almost dramatic relief to many forms of skin affection, Psoriasis has so far remained intractable. Its aetiology continues to baffle investigation and many forms of tried therapy have yielded only partial or temporary results.

Now ALPHOSYL—after extensive clinical trials and medical successes throughout the United Kingdom—shows promise of bringing total clearances in many cases of Psoriasis.

In ALPHOSYL, for the first time, are presented in combination two agents: allantoin and a specially refined coal tar extract. The synergistic effects of these medicaments result in rapid clearance of the condition itself and positive stimulation of the healing process.

ALPHOSYL LOTION combines these two valuable agents in one preparation and has had impressive results where other medications have failed.

The successes obtained with ALPHOSYL indicate that it deserves a trial in all cases of Psoriasis—no matter how extensive the area of infection, how long the duration of the condition, or whatever the therapy previously used. References: "Clinical Medicine," Vol. 5, No. 4, April, 1958; and "Ohio State Medical Journal," Vol. 55, No. 6, June, 1959.

FOR SUB-ACUTE and chronic dermatoses TAR + HYDROCORTISONE

combined in

TARCORTIN

CREAM

have pronounced advantages over
either medicament alone.

The established germicidal, stimulating and anti-pruritic properties of tar in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

*Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM is supplied in 7 gm. and 15 gm. tubes, containing 0.5% hydrocortisone in a special coal-tar extract.

*Literature available on request.

Drapolene specific for napkin rash

The success of Drapolene as a preventive and treatment of napkin rash is due to its activity against the urea splitting organisms which are known to be the causative factor of this common skin condition.

Drapolene is formulated in a pleasant water miscible base which promotes residual activity, thus preventing the liberation of free urinary ammonia.

Drapolene is quick acting, even where an ulcerated condition has developed. It also assists cleansing of the affected area.

FORMULA

Benzalkonium chloride: 0.01 per cent in a water miscible base.

Shorten the road to recovery with **Anabolex**

the protein anabolic compound

ANABOLEX promotes return of appetite, increased weight and a sense of well-being

Convalescence following serious and debilitating disease or major surgery can be shortened by the administration of Anabolex (androstanolone).

Anabolex stimulates protein anabolism and increases the body's capacity to replace lost protein. Patients feel better, eat better and gain weight.

Anabolex is non-virilizing in therapeutic doses and is safe for patients of all ages and both sexes.

INDICATIONS: Middle aged or elderly debilitated patients. Convalescence following major surgery, serious disease, or severe burns and traumata. Pre-surgical preparation. Senile, post-menopausal and corticosteroid-induced osteoporosis. Wasting diseases. Malnutrition and emaciation.

PRESENTATION: Tablets each containing 25 mg. androstanolone in vials of 25, 100 and 250 at a basic NHS cost of 20/-, 70/- and 160/-.

Samples and literature will gladly be sent on request

LLOYD-HAMOL LIMITED, 11 WATERLOO PLACE, LONDON S.W.1 

EFFICIENCY ECONOMY IN OXYGEN THERAPY

WITH AN ENTIRELY
NEW TYPE OF
DISPOSABLE MASK

Rate of flow of oxygen 2 litres/minute

This oxygenates the blood in all cases except where a shunt is present.

EXAMPLES OF ARTERIAL OXYGEN SATURATIONS

	Before O ₂	After O ₂ with MC mask
Patient 1 (Systemic Sclerosis)	82%	95%
Patient 2 (Emphysema)	85%	95%
Patient 3 (Mitral Stenosis)	82%	100%
Patient 4 (Cor Pulmonale)	50%	82% (controlled at this level to prevent rise in pCO ₂)

No accumulation of carbon dioxide

Due to its size, shape and position of oxygen inflow pipe, there is an organized movement of gases. **Controlled percentage of inspired oxygen.** This is of extreme importance in respiratory failure, where CO₂ narcosis must be avoided. The MC Mask can oxygenate the blood without increasing the level of CO₂. **Transparent**—lips can be seen. **Disposable**—no sterilization required. Can be used quickly and effectively by the ambulatory patient.

OXYGEN ECONOMY

2 litres per minute

The MC Mask reduces oxygen consumption by at least 66%, this means $\frac{1}{3}$ less expenditure on oxygen cylinder hire and refill, $\frac{1}{3}$ less portage in exchanging cylinders and gives 28½ hours of controlled, effective oxygen therapy from a 120 cu. ft. cylinder—with increased efficiency.

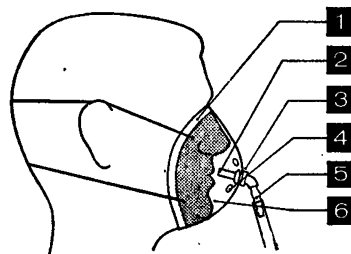

Duration of 120 cu. ft. cylinder

Run at 10 l/min.—4½ hrs.
Run at 6 l/min.—9½ hrs.
Run at 2 l/min.—28½ hrs.

Cost MC masks are individually packed in polythene bags containing full instructions and are available at quantity discounts or 3/6 singly. The improved efficiency and great economy in oxygen more than repay the slight extra initial cost.

used successfully by a leading Northern Teaching Hospital

- (1) Plastic foam ensuring close fit to face. (2) Oxygen delivered to close proximity of patient's mouth or nose.
- (3) Swivelling inflow pipe reducing drag from cylinder tubing. (4) Transparent mask giving clear view of lips.
- (5) Tapered end to fit different bore tubing from cylinder. (6) Mask of small volume and maintaining its shape, producing an organized movement of gases and preventing formation of dead space.

no need to sugar this pill

Fersamal tablets differ from other iron tablets in that they contain ferrous fumarate, a form of iron that is palatable and stable enough to need no sugar coating. It is well absorbed and well tolerated and rarely causes gastro-intestinal upset, even in patients who are unable to tolerate other iron salts.

Being small, Fersamal tablets are easy to swallow although they may be chewed or crushed if preferred. Their dull brown colour makes them unattractive to children, but they are unlikely to be harmful even if taken accidentally.

Each Fersamal tablet contains 200 mg. anhydrous ferrous fumarate. This provides a high content of ferrous iron at low cost.

Fersamal

iron that's nice

peptic ulcer

ROTER

has particular
advantages

ROTER achieves a high cure rate and often gives effective control of even refractory chronic cases which have resisted other treatments.

ROTER in many cases obviates the need for hospitalization or surgical intervention.

ROTER helps patients to keep ambulant and symptom-free with a minimum of medication and with few, if any, dietary restrictions.

ROTER in general practice enables the physician to take adequate care of his gastric cases without frequent or prolonged supervision.

ROTER has no known side effects.

ROTER requires no supplementary medication such as sedatives or anti-spasmodics.

ROTER shows a saving in cost when compared with conventional methods of treatment.

TO TREAT THE PATIENT AS WELL AS HIS ANGINA

PERIFENIL

for the patient with Angina

FOR THE ANGINA

Peritrate is an established coronary vasodilator, increasing coronary blood flow and maintaining its effect for 4 to 5 hours. Nardil, perhaps by virtue of its MAO inhibitory action, also increases coronary blood flow and cardiac output.

FOR THE PATIENT

Nardil, the exemplar of the newer anti-depressants, relieves the depressive or psychosomatic element seen in many anginal patients.

(Note: Patients receiving Perifenil should be warned against strenuous exercise.)

Both the constituents of Perifenil have just received the cachet of official approval, for it is proposed to include monographs on both substances in the 1963 British Pharmacopoeia.

Each Perifenil tablet contains:—

Peritrate (pentaerythritol tetranitrate) 20 mg.

Nardil (phenelzine) 7.5 mg.

DOSAGE

One tablet four times a day before meals.

ADAPRIN

Tablets for Chilblains

Among predisposing factors to chilblains are assumed to be defective peripheral circulation and diminished coagulability of the blood.

Each Adaprin tablet contains nicotinamide (50 mg.) and acetomenaphthone (10 mg.) as the logical drugs to counteract these defects. Nicotinamide is preferred to nicotinic acid because of the unpleasant symptoms of rapid vasodilatation associated with the latter compound. Adaprin is non-toxic and may safely be given to children and adults for long periods for prevention. Relief from existing chilblains may be expected in a few days. In containers of 25, 100, and 500 tablets.

PAVACOL

Syrup and Pastilles for Coughs

Pavacol Syrup (Improved Formula)—a distinctively flavoured cough remedy containing papaverine and pholcodine. Papaverine relaxes the bronchi by direct action. Pholcodine, the new ingredient, is a central cough suppressant which is as effective as heroin (diamorphine), but without the disadvantages of that dangerous drug. Pholcodine is much less toxic even than codeine, and it does not cause constipation. Pavacol Syrup and Pavacol Diabetic Syrup are supplied in bottles of 4, 16 and 80 ozs.

Pavacol Pastilles—contain the powerful, wide-range, quaternary ammonium antiseptic, Octaphen, together with the antitussive compounds, papaverine and codeine, and the demulcents and volatile oils present in Pavacol Syrup. For the prophylaxis and treatment of bacterial and fungal infections of the mouth and throat—and for symptomatic treatment of cough. In tins of 24 pastilles.

HOW MANY JOURNALS DO YOU READ?

Every day the flow of medical literature increases in volume to meet the ever-growing needs of medical progress. Papers, theses, reports, studies, pour from the presses of the world in many languages.

Every day the task of keeping closely in touch with new developments having an important bearing on your work becomes more difficult.

ABSTRACTS OF WORLD MEDICINE solves your problem . . .

This journal covers the whole field of clinical medicine and allied medical sciences in each issue, and presents to you each month concise, informative, readable abstracts of the best of the original papers published throughout the world—selected from over 1,500 medical journals.

ANNOUNCEMENT

Efficiency and safety of Calcium B-PAS (Wander) in concurrent tuberculotherapy

In a recent British trial¹ with double-blind technique,
involving 132 patients,
it has been confirmed that
Calcium B-PAS (calcium benzamidosalicylate)
is as efficient in equal dosage as sodium PAS,
both as regards therapeutic results and its ability
to delay the emergence of bacterial resistance to isoniazid
given concurrently.

Because, moreover, Calcium B-PAS is better tolerated² and
'the most acceptable of the available PAS preparations'³,
CALCIUM B-PAS (Wander) and 'B-PASINAH' (Wander)
are therefore particularly indicated for patients who find it
difficult to take or to tolerate sodium PAS in its various forms.

These preparations are thus of special value
in domiciliary treatment
to minimize drug-default.

PRESENTATION

'**B-PASINAH**' Powders, each packet containing
Calcium B-PAS 3.5 g. and Isoniazid B.P. 87.5 mg.
Four packets provide a daily regimen of 14 g. and 350 mg. respectively.
'**B-PASINAH**' Cachets, each containing
Calcium B-PAS 1 g. and Isoniazid 25 mg.
B-PAS (Wander) Powders: packets of 3.5 g., cachets of 1 g. and as bulk powder.

PENETRATION

PENETRATION

Transvasin* relieves muscular pain. It contains esters that possess a high degree of skin penetration, and produce erythema and analgesia. Transvasin induces deep hyperaemia which promotes the local repair of damaged tissues. Analgesic compounds are carried to the muscles and relieve pain. The basic NHS cost of Transvasin is 2/6d. and it is available on EC10.

* Tetrahydrofurfuryl salicylate, 14%; ethyl nicotinate, 2%;
n-hexyl nicotinate, 2%; ethyl p-aminobenzoate, 2%.

TRANSVASIN 

a SAFE
hypnotic/analgesic
combination

'Valgis'

'VALGIS' is a combination of 'Distaval' with aspirin and phenacetin for administration at night to relieve pain and give restful sleep. The inclusion of 'Distaval' as the hypnotic element avoids such undesirable side-effects as the confusion and initial excitement associated with barbiturates.

The combination in 'VALGIS' of the safe hypnotic with two well-tried analgesics offers an effective hypnotic/analgesic preparation which is suitable for a wide range of conditions in general practice.

Each 'Valgis' tablet contains:

'Distaval' (thalidomide)	50 mg.	
Acetylsalicylic acid	250 mg.	(4 grains)
Phenacetin	250 mg.	(4 grains)

Dosage:

One or two tablets at night before retiring.
The dose should be reduced proportionately for children.

Packs:

Tubes of 12, containers of 100.
Basic cost to N.H.S.—1/9½d. for twelve tablets from dispensing pack of 100.

RYOTOL Ear Drops are the result of extensive clinical research, following very successful results in the veterinary field.

The formula was developed particularly to combat *Ps. pyocyanea*, the highly resistant organism which causes abundant pus and which, unaffected by penicillin, sulphonamides and other bactericides, is present in 90% of cases of chronically discharging ears.

RYOTOL is lethal to *Ps. pyocyanea* and also to *Staphylococcus aureus*, *Proteus vulgaris* and *Streptococcus pyogenes* found in C.S.O.M. and Otitis Externa.

Formula:

Monophenyl ether of ethylene glycol	2.0%	v/v
Phenylmercuric Nitrate	0.1%	w/v
Phenyl-dimethyl iso-pyrazolone	5%	w/v

in a stabilised non-irritant base.

Samples and literature gladly forwarded on request.

Which would you recommend for patients with arterial disease?

In planning diets for patients with arterial disease and coronary heart disease, many doctors recommend the substitution of a vegetable fat to aid in lowering the patient's serum cholesterol level. Look carefully at the two bottles above: which would you recommend to a patient? **ANSWER:** They are identical. The bottle on the right contains Mazola Corn Oil, labelled with its fatty-acids percentages. The bottle on the left contains *exactly the same oil*, and bears the label under which it is sold in thousands of grocery stores throughout the country. (Where your patients can buy it easily and inexpensively.) Mazola Pure Corn Oil: 3/4 for 16 fluid ounces.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent* testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

* SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than one year after full registration as a medical practitioner and held normally for two years: £1,250 in the first year; £1,400 in the second and any subsequent years. Deduction of £215 per annum for compulsory residence; £255 per annum for voluntary residence.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than three years after full registration and held normally for four years: £1,500 by £100 to £1,800 in the fourth year; thereafter, £1,900 in the fifth and sixth years; £2,000 in the seventh and eighth years; £2,100 in the ninth and any subsequent years. Deduction of £250 per annum for compulsory residence; £275 per annum for voluntary residence.

Other Grades, Whole-time

(a) **HOUSE OFFICERS**: Each post in this grade shall be tenable for six months.

£675 per annum for the first post held; deduction of £155 per annum for compulsory residence or £195 per annum for voluntary residence;

£750 per annum for the second post held; deduction of £160 per annum for compulsory residence or £195 per annum for voluntary residence;

£825 per annum for the third and any subsequent posts held; deduction of £165 per annum for compulsory residence or £195 per annum for voluntary residence;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £750 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff; provided further that where a House Officer has previously held two such outside posts the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that his remuneration shall be £825 per annum. Any House Officer who on first appointment is paid at the appropriate rate to the second or third post held in accordance with the above provision shall be paid at the third post rate for any subsequent appointments in this grade.

(b) **SENIOR HOUSE OFFICERS**: Posts obtained by fully registered medical practitioners and held normally for one year only: £1,050 on appointment at age 27 or under; £1,100 on appointment at age 28 or over. Deduction of £180 per annum for compulsory residence or £215 per annum for voluntary residence.

(c) **JUNIOR HOSPITAL MEDICAL OFFICERS**: Officers who have held house appointments but who are not registrars and who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or indefinite period, not less than one year after full registration as a medical practitioner: £1,100 by £60 (8) to £1,580. Deduction of £215 per annum for compulsory residence or £255 per annum for voluntary residence.

Allowances at rates of up to £100 per annum shall be payable to house officers, senior house officers, junior hospital medical officers and registrars occupying posts approved for such allowances in peripheral hospitals.

Applications are invited for

ASSISTANT MEDICAL OFFICER

in the Child Welfare and School Medical Departments. Duties include Nursery Schools and liaison with the Hospital Services and Antenatal Services. Salary £1,295 by £65 to £1,620 by £75 to £1,845 per annum, commencing according to experience and qualifications. Canvassing will disqualify. Relationship to any member or senior official of the Council must be disclosed. Appointment subject to medical examination. Further particulars and application forms obtainable from Medical Officer of Health, Public Health Department, Baillie Street, Rochdale.—K. B. Moore, Town Clerk, Town Hall, Rochdale. (6856)

COVENTRY CORPORATION**DEPUTY MEDICAL OFFICER OF HEALTH AND DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER**

required by Coventry Corporation. Salary £2,316 13s. 4d. to £2,570, according to service and experience. Applicants must be registered medical practitioners holding in addition a degree in sanitary science, public health or State medicine. Full details from Medical Officer of Health, Council Offices, Earl Street (South Side), Coventry. Applications, with two recent testimonials and names of two referees, to the Town Clerk, Council House, Coventry, by October 30, 1961. (6305)

DURHAM COUNTY COUNCIL
Health Department

Applications are invited from registered medical practitioners (female) for appointment as

ASSISTANT MATERNITY AND CHILD WELFARE MEDICAL OFFICERS

Salary £1,295 by £65 (5) by £75 (3) to £1,845. Travelling expenses will be paid in accordance with the scale approved by the County Council. The appointment is subject to certain conditions, particulars of which, together with application forms, may be obtained from the County Medical Officer, Shire Hall, Durham. Closing date October 31, 1961. Personally canvassing members of the Council is prohibited, and the Council may declare any candidate infringing this rule to be disqualified for appointment.—J. T. Brockbank, Clerk of the County Council. (6715)

WARWICKSHIRE COUNTY COUNCIL**Appointment of an ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH AND SCHOOL MEDICAL OFFICER combined with a bursary scheme for taking the Diploma in Public Health**

Applications are invited from young medical practitioners wishing to make a career in Public Health. A minimum of two years' medical experience is required. The selected candidate may elect to join the Bursary Scheme, which enables him to attend on paid leave, in the fourth or fifth year of service, the London University, to take the Diploma in Public Health, with assistance towards living, travelling and course expenses. The post is kept open, and a satisfactory candidate may return to the Council's service on the appropriate point in the salary scale. A brochure explaining the scheme in full is supplied with the application form. Conditions of service and salary are in accordance with the Whitley Council scale, £1,295 to £1,845, commencing salary according to experience, a Bursary candidate having certain deductions. Post superannuable from date of appointment. Successful candidate will be required to produce satisfactory medical certificate. Car is essential, for which Whitley Council scale of allowance is payable. Car purchase loan scheme available. Consideration will be given to financial assistance towards removal expenses. Forms of application can be obtained from the County Medical Officer of Health, Shire Hall, Warwick. Closing date for applications is October 31.—L. Edgar Stephens, Clerk of the Council, Shire Hall, Warwick. (6304)

GOVERNMENTAL**THE WAR OFFICE**

Clothing and Equipment Physiological Research Establishment, Farnborough, Hants

MEDICAL OFFICER (Research)

required, to lead team of scientific staff in Applied Physiology Section covering field of military ergonomics, including practical climatology. Should be registered medical practitioner of British nationality and medically trained physiologist, preferably with experience in Service problems and interested in physiological instrumentation and statistics. Required to co-ordinate and supervise research work, and initiate a programme of applied research. Work involves close liaison with the establishment's Experimental Psychology and Scientific Facilities Sections. Starting salary, according to age, quals. and exp., within the scale £2,150 (at age 35), to £2,561 (at age 40 or over), rising to max. of £2,875. Forms from Ministry of Labour, Technical and Scientific Register (K), 28 King Street, London S.W.1, quoting Reference G.333/1A. (6870)

SERVICES**16 PARACHUTE BRIGADE GROUP****TWO MEDICAL OFFICERS**

will be required to fill vacancies in the Parachute Brigade in March, 1962. In order to allow time for adequate training, including the selection test and parachute course, suitable applicants will be accepted any time, preferably before the end of the year. Service in the Regular Army's only Parachute Brigade offers a challenge to the right man and gives opportunity for short trips abroad. In the last year officers have visited Cyprus, Malta, Tripoli, Singapore, Germany, Sudan and the Persian Gulf. Outdoor training is combined with active hospital work.

The Medical Element of the Brigade has always been up to strength, and will only accept fit men who are self-reliant and games players.

Suitable applicants may join on Short Service Commissions for three years or more on the active list of the Royal Army Medical Corps for service only in airborne units, or on Permanent Commissions for a tour of three years.

For further information apply to: Officer Commanding, 23 Parachute Field Ambulance, Parsons Barracks, Aldershot, Hants. (6871)

COMMERCIAL APPOINTMENTS**PHARMACOLOGIST REQUIRED**

for Research Laboratories in Surrey to work on evaluation of newly synthesized compounds for therapeutic properties. University training in pharmacology or physiology as main subjects or in medical or veterinary course. Some experience preferable. Please write for application form to Personnel Manager, Vitamins Ltd., Upper Mall, W.6. (6881)

REPUBLIC OF IRELAND**COMHAIRLE CHONNDAE CHIARRAIDHE****Kerry County Council****SURGICAL REGISTRAR**

required. Applications are invited from suitably qualified medical practitioners for the whole-time non-pensionable post of Registrar at the County Hospital, Tralee. Candidates must be between the ages of 24 and 40 on October 1, 1961, and must have had at least three years' experience (including at least two years' satisfactory surgical experience) since qualification. Remuneration for the post will be at the approved rate and an additional allowance will be payable where the appointee holds or acquires a higher degree in surgery. The appointment will be for a period of 12 months in the first instance, renewable for further periods, and will be subject to the sanction of the Minister. The Registrar will reside in the Medical Staff Residence, and deductions at approved rates will be made in respect of emoluments provided in kind. Married quarters will be available if required. Duly completed application forms will be received by the Secretary, Kerry County Council, County Council Offices, Killarney, up to 5 p.m. on Thursday, November 2, 1961. (6891)

AUCKLAND HOSPITAL BOARD New Zealand**RESEARCH OFFICER**

Cardio-Thoracic Surgical Unit, Green Lane Hospital

The Life Insurance Medical Research Fund of Australia and New Zealand has made a grant to the Auckland Hospital Board in order that cardiac research may be carried out in the Cardio-Thoracic Surgical Unit, Green Lane Hospital, Auckland. The main research project concerns the effect on the lung of pulmonary occlusion of the artery flow. A second project will also be included, and if required this could concern a subject of the candidate's own choosing. Applications are therefore invited from qualified medical practitioners eligible for registration in New Zealand for this position. The term of appointment is for a period of 12 months from January 1, 1962, or as soon as is possible thereafter. The salary for this position will be either £(N.Z.)1,420 per annum or £(N.Z.)1,500 per annum, living out. The commencing salary will be determined in accordance with the appointee's qualifications and experience. Conditions of appointment and form of application are available from the office of the High Commissioner for New Zealand, New Zealand House, 415 The Strand, London W.C.2. Applications close with the Secretary, Auckland Hospital Board, P.O. Box 5546, Auckland C.1, New Zealand, at noon on Friday, November 17, 1961. (6774)

GREY HOSPITAL, Greymouth, New Zealand**PATHOLOGIST**

Applications from registered medical practitioners with qualifications and/or experience in Pathology are invited for the above position. Commencing salary at rate of £1,900 to £2,800 (N.Z.) per annum, according to Hospital Employment Regulations, 1957. An attractive three-bedroomed unfurnished house, with some floor coverings, is available at £133 per annum. Annual leave and sick leave are prescribed in regulations. Reasonable travelling expenses incurred by a United Kingdom appointee will be refunded up to £165 each for self and dependent relatives. The appointment is terminable by three months' notice on either side. Conditions of appointment may be obtained from the office of this journal. Applications (by airmail) should be addressed to the Surgeon Superintendent, P.O. Box 120, Greymouth, New Zealand.—K. A. O'Leary, Secretary, Grey Hospital Board, Greymouth, New Zealand. (6766)

APPLICATIONS AND ENQUIRIES ARE INVITED for the position of Senior Intern and Assistant Resident in Anaesthesia at Sunnybrook Hospital, Toronto. The appointment is for six months to one year. Credit for training is given by the Royal College of Physicians and Surgeons of Canada for those proceeding to Certification and Fellowship in the specialty. Applicants may also be enrolled in the Diploma Course in Anaesthesia given by the University of Toronto. The salary range is between \$2,700 and \$3,300 per annum, depending upon previous experience. Address all replies to the Superintendent, Sunnybrook Hospital, Toronto. (6193)

THE UNIVERSITY OF OTAGO

The Otago Hospital Board, Dunedin, New Zealand
Department of Obstetrics and Gynaecology

FULL-TIME ASSISTANT AND LECTURER

Applications are invited from persons who hold a degree in medicine of an approved university, and who hold in addition the M.R.C.O.G., for the position of Full-time Assistant or Lecturer in the Department of Obstetrics and Gynaecology at Dunedin Hospital. The salary will be determined within the following scale, in accordance with the qualifications and experience of the appointee: Junior Specialist £1,900 to £2,300. The appointee's duties will include the teaching of obstetrics and gynaecology to medical undergraduates, research and clinical work in the Dunedin Hospital. Travelling expenses will be paid in accordance with the information contained in the Conditions of Appointment, which, together with the prescribed form of application, may be obtained from the Office of the High Commissioner of New Zealand, 415 The Strand, London, or the undersigned. Applications, together with testimonials, names of referees, health and chest certificates, will be received by the undersigned until 10 o'clock a.m. on Monday, November 20, 1961.—W. A. Williamson, Secretary, Otago Hospital Board, P.O. Box 946, Dunedin, New Zealand. (6468)

TURKS AND CAICOS ISLANDS

TWO MEDICAL OFFICERS

required for general duties; one for the Caicos Islands in January, 1962, and the other for Grand Turk in May, 1962. Appointments are on contract for one tour of three years; officers would be appointed to the Jamaican Medical Service and seconded to the Islands. Superannuation rights during the period of the contract may be safeguarded. Salaries will be reviewed within the next two or three months, but present salary scale is from £1,100 to £1,750; doctors with six or more years' experience would receive the maximum of the scale. In addition an overseas allowance of £250 for married officers and £150 for single officers is payable. No income tax at present. Free return passages for officer, his wife and up to three dependent children under 18. Free quarters with heavy furniture are provided, but soft furnishings are the responsibility of the officer. Approximately 19 weeks' home leave on satisfactory completion of contract. Application forms from Director of Recruitment, Department of Technical Co-operation, 3 Sanctuary Buildings, Great Smith Street, London S.W.1, quoting BCD 117/365/01/L1. (6770)

UNIVERSITY COLLEGE HOSPITAL Ibadan, Nigeria

SENIOR HOUSE OFFICER/REGISTRAR Department of Pathology

Applications are invited from fully registered medical practitioners for appointment as Senior House Officer/Registrar in the Department of Pathology of the above Teaching Hospital. Candidates for appointment as Senior House Officer should normally have completed one year after full registration, and those for appointment as Registrar should have held a Senior House Officer post and have some post-registration experience in Clinical Pathology.

MENTAL HEALTH RESEARCH FUND

STUDENT PRIZES AND TRAVELLING FELLOWSHIP IN PSYCHIATRY

The Mental Health Research Fund awards annually to medical students and doctors in their pre-registration year three Monetary Prizes and a Travelling Fellowship as the result of an essay competition on a subject relating to mental health, and a subsequent interview.

Applicants gaining the top three places in the essay competition will be given prizes of £100, £50, and £25 respectively.

The Travelling Fellowship, tenable in a Psychiatric or other department abroad for up to six months, will be awarded as the result of an interview combined with consideration of the candidate's undergraduate record. Persons interviewed will be chosen from the top ten in the essay competition. The travelling fellowship will normally be taken up at the end of the pre-registration year or, in the event of it being awarded to a medical student, may be taken up after qualification.

The subject for the essay this year is "Discuss the Role that Parental Attitudes Play in Shaping the Personality of the Child."

The Panel of Examiners consists of two members of the Research Committee of the Mental Health Research Fund and one member of the Association of Teachers of Psychiatry in Undergraduate Medical Schools.

Essays should be sent, before March 1, 1962, to the Secretary, Research Committee, Mental Health Research Fund, 39 Queen Anne Street, London W.1 (Tel. WELbeck 1272), from whom further details may be obtained. (6557)

DRUGS IN THE TREATMENT OF DISEASE

Medium 8vo. 570 pages. Price 35s. (by post 36s. 9d.)

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the *British Medical Journal*, the book presents an up-to-date, indexed, authority on medicinal treatment—of considerable help to the doctor in choosing the best drug for his patient.

"Nulacin has revolutionized the treatment of duodenal ulcer"

Proc. R. Soc. Med., 1958, 51, 1063.

Nulacin tablets, dissolved slowly in the mouth, provide intragastric milk-alkali drip therapy, obviating the necessity for a tube. Treatment is easy and convenient for the ambulant as well as the bedridden patient. Nulacin may be relied on to provide an effective treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity. No undesirable

side effects occur and no cases of alkalosis or acid rebound due to Nulacin have ever been reported. The safety and effectiveness of Nulacin therapy has been proven by *in vivo* clinical work carried out in many countries.

Nulacin tablets have no B.P. equivalent. The basic N.H.S. price of the 25-tablet tube is 2/-.

NULACIN is a Horlicks pharmaceutical product
