BRL 284

NEW HIGH POTENCY

Beecham Research Laboratories,
the House of the New British
Penicillins, announce yet another
significant addition to their
range—Brocillin, an Oral
PENICILLIN Penicillin:

- * is highly effective against streptococci,
pneumococci and sensitive staphylococci
- * is the most effective oral penicillin against
mildly resistant staphylococci
- * gives serum levels considerably higher than
those achieved with injections of penicillin G and
FOUR times those obtained with penicillin V

LEDERMYCIN

With the dramatic introduction of AUREOMYCIN† chlortetracycline in 1948, Lederle Laboratories not only provided the medical profession with the first tetracycline — it established its leadership in broad spectrum research. Today this lead is more apparent than ever. After seven years of extensive clinical use ACHROMYCIN* tetracycline is now the most widely prescribed tetracycline — a striking tribute to its effectiveness and reliability in all its many forms of administration. Now, LEDERMYCIN* demethylchlortetracycline the latest and by far the most active of the tetracyclines is emerging as a distinct refinement in tetracycline therapy. Characterized by its increased potency and simplicity of dosage, LEDERMYCIN* carries on a worthy tradition of progress in medical research.

WELLDORM IS SAFE...

for the
anxious patient...

in obstetrics...

for old people...

for adolescents...

for children...

For daytime sedation without drowsiness and for sound sleep at night without hangover, Welldorm is safer than tranquillisers or barbiturates, and for many patients, just as effective.

Neither toxic nor habit forming, Welldorm can be given over long periods or left in the hands of emotionally unstable people with little danger of accident or abuse. For anxiety, tension, agitation and restlessness, for teething in infants or to reduce apprehension during labour; for all these conditions and many more, Welldorm is safe.

WHEN **PAIN** IS DUE TO MUSCULAR SPASM

P.R. Spray gives Prompt Relief

The pain associated with lumbago, fibrositis, renal colic, dysmenorrhoea, and sprains can now be quickly dispelled. P.R. Spray is entirely suitable for use at home by the patient as, unlike ethyl chloride, it is non-toxic and non-inflammable. Its vapour has no general anaesthetic effect and there is no risk of 'cold burn' when used as directed.

P.R. Spray

contains fluorochloromethanes and is supplied in pressurised containers, each holding approximately 5 fl. oz.

'OTOSPORIN'

clears infected ears

The modern method of treatment in otitis externa, chronic suppurative otitis media, and infected mastoid cavities, is 'Otosporin' brand Drops.

'Otosporin' is an aqueous suspension containing both neomycin and polymyxin B sulphate which are together effective against practically all the bacteria found in ear infections.

They are unlikely to induce bacterial resistance or skin sensitisation, and neither of them gives rise to cross-resistance or cross-sensitisation to penicillin and other antibiotics. Their effectiveness is visibly enhanced by the hydrocortisone in 'Otosporin'; this, by reducing inflammation, not only relieves pain, but provides greater access for the antibiotics

Which would you recommend for patients with arterial disease?

In planning diets for patients with arterial disease and coronary heart disease, many doctors recommend the substitution of a vegetable fat to aid in lowering the patient's serum cholesterol level. Look carefully at the two bottles above: which would you recommend to a patient? **ANSWER:** They are identical. The bottle on the right contains Mazola Corn Oil, labelled with its fatty-acids percentages. The bottle on the left contains *exactly the same oil*, and bears the label under which it is sold in thousands of grocery stores throughout the country. (Where your patients can buy it easily and inexpensively.) Mazola Pure Corn Oil: 3/7 for 16 fluid ounces.

THE MEDICAL SERVICE OF THE ROYAL NAVY

VACANCIES FOR MEDICAL OFFICERS

The Royal Navy offers Short Service Commissions of 3 or 5 years' duration to registered medical practitioners. Opportunity exists for transfer to Permanent Commission, by selection, after one year's service. There are facilities for postgraduate study and training for higher degrees with a view to specialization, in the case of officers entered on 5-year short service and on Permanent Commissions. Specialities include Underwater Physiology, Nuclear and Aviation Medicine, as well as the usual clinical subjects.

Pay: On entry a Surgeon Lieutenant married and over the age of 25 years will receive £1,195, with annual pay increments thereafter and a tax-free ration allowance of £112 p.a. if unaccommodated. Additional allowances are paid for children's education, disturbances involving essential moves of family, and for service overseas.

Gratuities and Pensions:

Gratuities are payable on completion of short service commissions:

3 years' service £1,500 tax free

5 years' service £3,000 tax free

Those officers accepted for Permanent Commissions receive £1,500 (Taxable).

Service becomes pensionable after 16 years.

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Third Collection with classified contents list to volumes 1, 2 and 3

Price 25s. (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the *British Medical Journal*. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments.

They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

BADEN | BADEN

The queen of spas

set luxuriously amidst the natural beauty of the Black Forest, is one of the oldest and possibly the finest in the world, with the hottest springs in Europe. (158° F)

The thermal waters are helpful in the treatment of many diseases. Natural healing processes are stimulated by the combined effect of the temperature, mineral content and massaging action of these pure thermal waters.

Early balneological treatment has often alleviated suffering from rheumatism, arthritis and similar complaints.

The success of treatment at Baden-Baden is not only ensured by a reputation 2,000 years old, but by unceasing attention to the latest technological developments in hydrotherapy the world over.

**COUGH
RELIEF**

**at the
right time
for hours at a time**

PHOLTEx

**up to ten hours relief
from one teaspoonful
through ion-exchange release**

hours of relief from one dose

because Pholtex contains *pholcodine* and *phenyltoloxamine* as ion-exchange resin complexes to give smooth and prolonged effect — up to ten hours in many cases.

more complete relief of unproductive cough

because the cough depressant action of *pholcodine* is potentiated and reinforced by the antihistaminic and anti-spasmodic activity of *phenyltoloxamine*.

economy of treatment

because a 2 oz. bottle of Pholtex contains sixteen doses — enough for one week's treatment for as little as 8d a day (basic NHS cost).

dosage

One teaspoonful (4 ml.) at minimum intervals of eight hours.

composition

One teaspoonful (4 ml.) contains *pholcodine* 15 mg. and *phenyltoloxamine* 10 mg. as resin complexes in a pleasantly flavoured thixotropic vehicle.

basic NHS prices

2 fl. oz. 5/4

20 fl. oz. 49/4 (dispensing pack)
