## THE RAPID CONTROL OF

# DIARRHOEA

## CREMOSUXIDINE REGD.

'SULFASUXIDINE' (SUCCINYLSULPHATHIAZOLE) AND KAOLIN

Non-absorbed sulphonamide plus soothing, absorbent kaolin, in a microfine, palatable suspension, highly effective in many cases.

## CREMOSTREP REGD.

'SULFASUXIDINE', STREPTOMYCIN AND KAOLIN

Two antibacterial agents which are very quickly effective against many intestinal pathogens. Their combination is apparently a synergistic one.\*

\*The Pharmacological Basis of Therapeutics, 2nd Ed., MacMillan, New York, 1955, p. 1374

### CREMOMYCIN REGD.

'SULFASUXIDINE', NEOMYCIN AND KAOLIN

The sulphonamide plus the broad spectrum antibiotic give an extremely wide antibacterial coverage. Neither agent is absorbed to a significant extent from the intestine, and therefore toxic effects are most unlikely.

Detailed information on these products is available on request

# ew compound for the treatment of patients with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments11-17 and it has been tested in over 1,000 patients1-10. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

#### Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

## causal therapy in rheumatoid arthritis

Resochin attacks the cause of rheumatoid arthritis rather thanthe symptoms alone, bringing hope of lasting remission. Low cost\* Resochin is positive and progressive in its treatment of rheumatoid arthritis. It is easily administered, easily supervised and has a high degree of safety and acceptability.

INDICATIONS

Rheumatoid arthritis, especially in the early stages.

CONTRA INDICATIONS

Long-term therapy is not advised for patients with severe liver disorders or gastric ulceration. In the dosage recommended, retinopathy is unlikely if the course is limited to 2 years.

1 tablet daily, after the main meal.

COMPOSITION

each tablet of Resochin is lacquered, and contains

250 mg. chloroquine phosphate.

\*BASIC NHS COST

Average week's treatment (standard dosage 1 tablet Resochin daily) approx. 1/-.

# Terra-Contini

Spray

 $\ldots$  the new non-touch technique for

# burns infected dermatoses leg ulcers

Spray treatment applies the full potency of Terra-Cortril directly on to the inflamed area. Its effect is immediate because the action is not retarded by a base.

Infection is prevented, inflammation and pain reduced, scar tissue development decisively checked and the healing process accelerated. Spray treatment prevents softening of surrounding tissue sometimes caused by dressings or ointments. The spray has a soothing effect much welcomed by patients.

Patients and nurses will find it easy and simple to use. Any part of the body can be sprayed in a few seconds.

Dressings may not be required. Spray treatment can be used with modern exposure techniques.

## AVIATION ACCIDENT PATHOLOGY

## A Study of Fatalities

#### J. K. Mason

Price 90s.

This monograph reports the results obtained in the British series of investigations of fatal aircraft accidents which are described from the theoretical, factual and applied aspects. It is intended as a guide to those in medical charge of aircrew who may be called upon to assist in a fatal accident investigation and especially to pathologists whose knowledge of aviation is limited.

## THE CASUALTY OFFICER'S HANDBOOK

M. Ellis

Price 42s.

Written with clarity, in a most concise manner, this book will answer a very great need for it has been specially designed to help the newly appointed Casualty Officer, House Surgeon and House Physician who have to do duty irregularly in the Casualty Department.

## PRINCIPLES OF CHEST X-RAY DIAGNOSIS

#### Second Edition

G. Simon

Price 50s.

This edition is written for the student radiologist and for the clinician who is particularly concerned with chest diseases, whether he interprets the radiographs himself or has the co-operation of a radiologist.

Throughout this volume a very concise pattern is followed, with each shadow being firstly described in factual detail and then discussed from the point of view of interpretation and misinterpretations. An approach that will clearly help the reader extract the maximum knowledge from an important ancillary aid to diagnosis.

# SAROTEN (AMTRIPTYLINE) is the specific treatment for DEPRESSION WITH ANXIETY

The depressed patient is a common enough sight to most doctors. The anxious patient who is suffering from depression, although equally important clinically, is far more difficult to recognise. These patients often present with symptoms so similar to those associated with simple anxiety states that the underlying depression escapes unnoticed.

SAROTEN, because it has both an antidepressive and an anti-anxiety effect, simplifies the treatment of such patients. It is indicated at one end of the scale, for patients overtly depressed with a secondary anxiety component, right through to the other extreme where symptoms of anxiety predominate and depression is not obvious.

Moreover, whichever the primary cause—anxiety or depression—saroten effectively controls symptoms and helps the patient once again to take an active and useful place in society.

SAROTEN is available as sugar-coated tablets in two strengths: 10 mg. and 25 mg.

'Pro-Actidil', in reality three special tablets in one, gives sustained relief to the allergic patient. It contains triprolidine hydrochloride, the most potent of the anti-histamines, specially formulated to give continuous action for up to 24 hours in most patients.

If given in the evening, four to five hours before retiring, 'Pro-Actidil' ensures a good night's sleep for the patient, free from sneezing, irritation and restlessness. Any side-effects, such as drowsiness, should therefore occur at bedtime.

'Pro-Actidil' is recommended for adults and children over ten years.

# 'PRO-ACTIDIL'

SUSTAINED ACTION triprolidine tablets

BURROUGHS WELLCOME & CO., LONDON

(The Wellcome Foundation Ltd.)

For obstetrics and prevention of

cross infection

Dettol Antiseptic Cream is a new and highly germicidal preparation for routine use in obstetrics, including disinfection of the hands and gloved hands, preparation of patients, and as an antiseptic lubricant for instruments and in examinations. It is well tolerated by the skin and tissues and may be applied repeatedly. It is bland and pleasant to use.

Dettol Antiseptic Cream is particularly suitable for general use in the prevention of cross infection. It has rapid bactericidal effect against a wide range of micro-organisms. For instance, the following are destroyed in vitro in less than one minute at skin temperature:

Staph. aureus; Staph. aureus phage type 80; Ps. pyocyanea; Strept. pyogenes; Strept. anaerobicus; Sh. sonnei; E. coli.

#### HAND DISINFECTION

Should be applied after washing. Quickly absorbed by light friction, it leaves the skin non-oily, non-tacky, and replaces fats removed by constant washing.

The Cream also helps to prevent bedsores.

## for increased pain-**INCREASED ANALGESIA** with

# DOLOXENE COMPOUND-65'

DEXTROPROPOXYPHENE & ACETYLSALICYLIC ACID COMPOUND

Analgesia is increased when you prescribe 'DOLOXENE COMPOUND - 65' because it contains twice the amount of 'DOLOXENE' as does regular 'DOLOX-ENE COMPOUND'. It combines 65 mg. 'DOLOXENE' with phenacetin, acetylsalicylic acid and caffeine to give pronounced analgesia, particularly in inflammation and pain associated with recurrent or chronic illness. Side effects are minimal.

'DOLOXENE', chemically unique among analgesics, elevates the pain threshold by depressing the sensory area of the brain. In extensive trials by over a hundred investigators in more than 6,300 patients, 89.8% experienced relief of pain after receiving 'Doloxene' alone or in combination.

#### INDICATIONS:

Acute, chronic or recurrent pain of: Rheumatism · Arthritis · Dysmenorrhoea Malignancy · Trauma · Neuritis · Migraine also in dental pain, post-operative pain and muscular pain.

## Introducing FUCIDIN ZN6-Na

# an oral antibiotic of completely new personality original product of Leo Research

In releasing FUCIDIN, LEO PHARMACEUTICAL PRODUCTS DENMARK appreciate that a number of pharmaceutical preparations have been introduced with high expectations, only to exhibit in subsequent widespread clinical use properties limiting their usefulness.

Initially therefore, LEO restrict themselves to the following statements:

- 1. In laboratory and clinical trials over a period of two years, FUCIDIN, the sodium salt of fusidic acid, a substance unrelated to any available antibiotic, has demonstrated outstanding activity against the staphylococcus whether antibiotic sensitive or resistant.
- 2. While it is probably inappropriate to use the word 'safe' with respect to any chemotherapeutic substance, no serious side-effects have been reported to date following extensive clinical trials with FUCIDIN. Its basic steroid structure, far from causing any of the untoward reactions that have become associated with the steroids, may be responsible for the efficient diffusion of FUCIDIN throughout the majority of body fluids and tissues.
- 3. There is substantial reason for believing that FUCIDIN will be shown, in further work currently under way, to possess a range of antibacterial activity different from any antibiotic at present available. Furthermore the absence of effect on gram-negative coliform organisms eliminates the risk of sterilization of the gastro-intestinal tract, a phenomenon predisposing to fungal superinfection which has often followed therapy with oral antibiotics.

Reports of laboratory & clinical investigations have been published in

(1962) Lancet (May 5th) 1: 928-937 (1962) Nature (March 10th) 193: 987 (1962) Ugeskr. Laeg. (May 11th) 124: 715-719 (1962) Ugeskr. Laeg. (May 18th) 124: 745-767

## MARMITE

yeast extract

contains

**Ribofla**vin (vitamin  $B_8$ ) 1.5 mg. per oz. **Niacin** (nicotinic acid) 16.5 mg. per oz.

### in the diabetic diet

Clinical references to the diabetic syndrome can be traced to ancient Egyptian writings, and various forms of dietary treatment have been practised for centuries. The discovery of insulin in 1921 completely changed the outlook in diabetes, but adherence to a low-carbohydrate diet often remains an essential part of the treatment.

Marmite yeast extract is widely recommended as an addition to the diabetic diet, as it provides all known factors of the vitamin B complex which may be in short supply in a carbohydrate-restricted regime. Moreover, its pleasant taste and the ease with which it can be incorporated in the diet, ensure ready acceptance.

# **TRICLORYL**

## **TABLETS**

TRICLORYL (triclofos) is a new pharmaceutically flexible compound developed by Glaxo research.

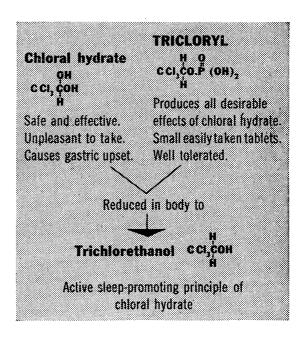

Presented as a *tablet*, Tricloryl offers all the outstanding advantages of chloral hydrate without the latter's objectionable taste or gastric irritant properties.

## Safe alternative to barbiturates

Despite their well recognised hazards, and mainly because of lack of suitable alternatives, the barbiturates are still widely prescribed. Although it does not entirely replace the barbiturates, Tricloryl is of much greater benefit and safer to use in the great majority of patients.

## Relationship to chloral hydrate

After oral administration chloral hydrate is converted to trichlorethanol, its active sleep-promoting principle. Tricloryl is a chemically stable phosphoric ester of this substance which in the body is rapidly hydrolysed back into trichlorethanol. It shows all the characteristic and well known properties of the parent compound without any unpleasant after-effects.

## Sound sleep without daytime drowsiness

Tricloryl produces a sound sleep which is of the same degree and duration as that induced by chloral hydrate. The patient is easily aroused, if need be. He wakes refreshed in body and mind and there is no drowsy daytime aftermath.

Tricloryl not only has a much higher safety factor than the barbiturates—there is also much less fear of habituation.

The tablets are small and easily taken with water. Dosage is from 1 to 4 tablets daily.

Tricloryl is a safe and reliable way of promoting sound sleep in the great majority of patients.

# TRICLORYL

Tablets of 0.5 gram triclofes monosodium salt. In bottles of 20, 100 and 500.

American Physiological Society:

# HANDBOOK OF PHYSIOLOGY

## Section 2 Volume I CIRCULATION

Section Editor: William F. Hamilton. Executive Editor: Philip Dow, both from the Medical College of Georgia, Augusta, Georgia. With 30 Contributors.

This is the first volume of the second section of the American Physiological Societies Handbook of Physiology. This volume on circulation covers primarily the background material including the physiology and biophysics of the blood and exchangeable fluids together with the action and control of the heart. The distinguished authors of this section are well qualified to give an intimate, wise and comprehensive survey of the field from many viewpoints.

753 pages. 385 illus. 192

The complete work under the Editor-in-Chief, J. Field, Ph.D., Professor of Physiology, University of California School of Medicine, Los Angeles, will appear in five sections dealing with I: Neurophysiology; II: Circulation; III: Respiration; IV: Kidney; V: Metabolism.

### SECTION I ALREADY PUBLISHED

### Neurophysiology

Volume 1. 800 pages. 450 illus. 176s. Volume 2. 650 pages. 251 illus. 160s. Volume 3. 700 pages. Illus. 160s. Postage on each volume 3s.

WRIGHT'S of BRISTOL

# THE

# ROYAL NAVY offers you MORE

You can serve almost anywhere in almost any field of Naval activity, combining your calling as a doctor with the stimulus of a life as a commissioned officer in the Royal Navy. You could serve in almost any vessel from a frigate to an aircraft carrier, sail with the fleet to the Far East or work with a squadron in the West Indies. You could apply your care to Royal Marines Commandos, among parachutists, frogmen or rock climbers. You could fly with the Fleet Air Arm as a specialist in aviation medicine or investigate the problems of deep diving and advanced submarine development. You could work in a laboratory, hospital or medical school; serve at home or abroad, on shore or afloat; or study any one of a variety of subjects ranging from radio-biology to tropical diseases. And throughout your service as a Naval Medical Officer you would be working with the finest equipment in complete clinical freedom -and perhaps a greater opportunity to exercise your versatility than would ever be possible in civilian life.

YOU CAN ENTER BY ONE OF THREE METHODS All schemes lead to Short Service Commissions of 3-5 years' duration. Holders of such commissions can apply for permanent commissions after one year following appointment as Surgeon Lieutenant.

PAY ON ENTRY

| 1 | registered        |  |
|---|-------------------|--|
|   | ner in<br>ON LIEU |  |

# £2,002 p.a. married, over 25

## GRATUITIES (tax free) COMMISSION GRANTS On completion of Short Service Commission of 3 years: £1,500; 5 years £3,000

£1,500 (nullifies gratuity)

PERMANENT

- As a qualified doctor during pre-registration year in rank of ACTING SURGEON LIEUTENANT.
- \* £630 p.a. or up to £1,339 with marriage allow-
  - As above plus £200 for pre-registration year in each case.

£1,500 (nullifies gratuity)

- As a medical student under \*£557 p.a. Medical Cadetship in rank of SURGEON SUBLIEUTENANT.
- Following 5 years' S.S.C., up to £2,600 subject to service.

Up to £1,000 subject to service.

\* These rates of pay to be increased April 1, 1963. **ALLOWANCES** Cover overseas service, rations, lodging, marriage, children's education, U.K. travel, London allowance, etc.

OPPORTUNITIES You can rise automatically to SURGEON LIEUTENANT COMMANDER (£2,304 p.a.) in 5 years or less (civilian experience counts towards seniority). Further promotion, by selection, could take you to the highest ranks in the Medical Branch of the Royal Navy.

### ROYAL PERTH HOSPITAL Western Australia

### HOSPITAL MICROBIOLOGIST

ROYAL PERTH HOSPITAL

Western Australia

HOSPITAL MICROBIOLOGIST

Applications for the above post are invited from medical graduates with suitable experience in microbiology. The hospital Department of Microbiology is under the control of the Director of Hospital and University Services in Microbiology.

The successful candidate will be required to assist the Director (Professor N. F. Stanley) in the administration of the routine laboratory and clinical services of the Hospital Department of Microbiology, to act in the absence of the Director, and to carry out special investigations from time to time. Royal Perth Hospital is the main teaching hospital of the Medical School of the University of Western Australia. The hospital Department of Microbiology is well equipped, adequately staffed for the performance of all modern microbiological techniques, functions in close association with the University Department of Microbiology in the adjacent School of Medicine and the Virus Research and Diagnostic Laboratory of the Department of Public Health.

Salary: Within the range of £A.3,318 to £A.4,038 per annum, commencing rate according to qualifications and experience. Salary will commence from the date the appointee takes up duty.

Conditions of Service: Include long-service leave (three months on full pay after each seven years's service), sick leave, etc. Study leave may be granted as a privilege for some special purpose approved by the Board. Contribution to the State Superannuation Scheme is required, or, alternatively, the hospital would consider subsidizing the appointed officer's existing commitments under an approved scheme or endowment policy.

Transport Expenses: A travel grant equivalent to minimum first-class sea passage will be provided for successful applicant and family (under 16 years of age), together with an allowance of £A.200 for the cost of removal of personal effects, etc. (excluding furniture and motor vehicle), subject to a bond to remain in the hospital's service for a minimum period of three

birth, qualifications, experience, present and pre-vious appointments, a list of publications, a recent photograph, and the names and addresses of three referees.
Closing date: August 31, 1962.—Joseph Griffith

Administrator.

### ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS NORTHAMPTON

FOR NERVOUS AND MENTAL DISORDERS NORTHAMPTON

President: The Earl Spencer.

Medical Superintendent:

D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fourteen guineas per week. private rooms with special nurses can be provided, either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc.

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

BRYN-Y-NEUADD HALL

The seaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore.

on the seashore.

For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by

# THE MEDICAL DEFENCE UNION

## Important Announcement for all Overseas Practitioners

THE MEDICAL DEFENCE UNION is able to announce a SUBSTANTIAL REDUCTION in the subscription rates available to doctors practising overseas together with—for the first time—an offer of UNLIMITED INDEMNITY in respect of damages and/or costs awarded against any Member as a consequence of litigation involving a question of professional principle. As from the 1st July, 1962, the sliding subscription scale and the fixed indemnity ceiling are abolished. From this date the annual subscription rate for overseas medical practitioners will be £5. For practitioners joining within one year of registration the annual rates will be £3 for the first three years, £4 for the fourth year and £5 thereafter.

THE MEDICAL DEFENCE UNION IS THE OLDEST AND LARGEST ORGANIZATION OF ITS KIND IN THE WORLD. ITS VAST RESOURCES AND UNRIVALLED EXPERIENCE ARE AT THE DISPOSAL OF ALL ITS MEMBERS WHEREVER THEY MAY BE PRACTISING, OTHER THAN IN THE U.S.A.

Membership is open to all practitioners holding a qualification which is registrable with the General Medical Council in London. For full particulars and Membership forms apply to the London office,

Secretary:

Philip H. Addison, M.R.C.S., L.R.C.P.

Dental Secretary:

A. H. R. Rowe, B.D.S., F.D.S.

# Calcium-SANDOZ Effervescent Tablets

in osteoporosis

of postmenopausal

or senile origin

"Studies are reported here
which suggest that calcium deficiency
is an important factor in many cases
of postmenopausal and senile osteoporosis.

Many patients with these forms
of osteoporosis absorb and retain calcium
abnormally avidly when on a high calcium
intake in the form of supplements
(calcium gluconate Sandoz),
and moreover may continue
to retain it avidly for at least
three and a half years.

Symptoms of the disease are relieved
and no further fractures take place."

Lancet (1961) 1, 1015

Calcium-Sandoz Effervescent Tablets (orange-flavoured):
calcium gluconogalactogluconate
(equivalent to 4 g. calcium gluconate)
and 20 mg. ascarbic acid

2 to 5 effervescent tablets daily
