### SECROSTERON

DIMETHISTERONE TABLETS

RADE MARK

### the established oral progestational agent

Because of the absence of androgenic, anabolic or estrogenic side effects, 'Secrosteron' has become established as the treatment of choice when a pure progestational action is necessary. 'Secrosteron' is orally active and highly potent. There are no side effects and the dosage schedule is low and uncomplicated.

'Secrosteron' is especially indicated in habitual and threatened abortion. Other indications for Secrosteron include: dysfunctional uterine bleeding, premenstrual tension and subfertility.

Average dosage: 5 mg. three times daily.

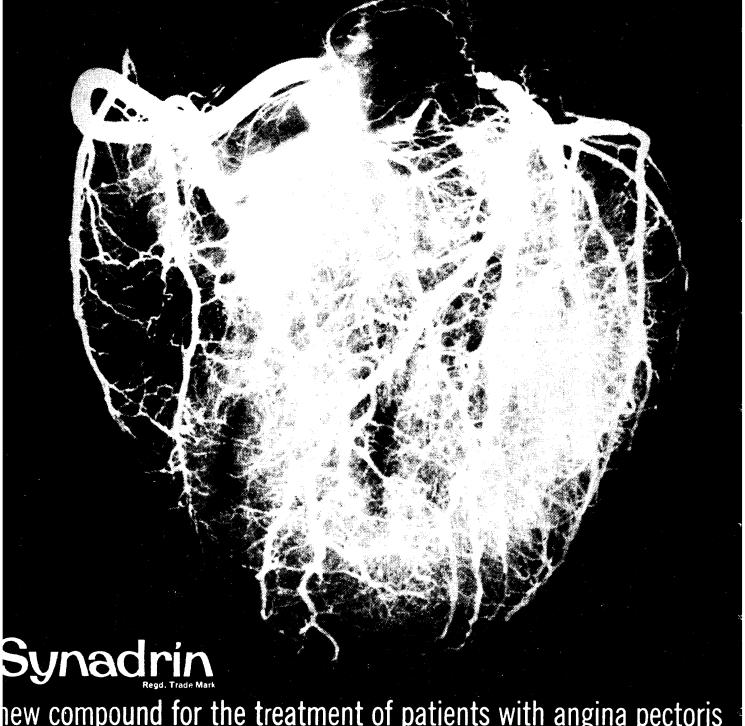

Bottle of 30 18/6 ..., 100 52/-..., 500 221/-

Basic N.H.S. prices

THE BRITISH DRUG HOUSES LTD . LONDON NA

new compound for the treatment of patients with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments11-17 and it has been tested in over 1,000 patients<sup>1-10</sup>. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

### Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

### Dosage

Treatment may be initiated with 2 tablets, three times daily, reducing after three days to a maintenance dosage of 1 tablet two or three times daily.

Synadrin is presented as tablets, each containing 15 mg. of prenylamine lactate in bottles of 30 and 150 at basic NHS prices of 8/8d. and 34/8d. (subject to P.T.). Synadrin is known in some other countries as Segontin.

## in mild to moderate hypertension

## simple, effective, acceptable therapy

## SALUPRES

TABLETS: Hydrochlorothiazide 12.5 mg., Reserpine 0.0625 mg., and Potassium Chloride 572 mg.

REGD

SALUPRES is singularly effective in many cases of mild to moderate hypertension. In the elderly hypertensive patient, simplicity, safety and gradual, smooth control of blood pressure make SALUPRES an ideal therapy.

SALUPRES also forms an excellent foundation on which to base therapy with ganglion and adrenergic blocking agents, permitting reduction in the dosage of the blocking agents, and thus in the incidence of their side effects.

Full information on the use of SALUPRES is available on request.

SALUPRES is made in England by

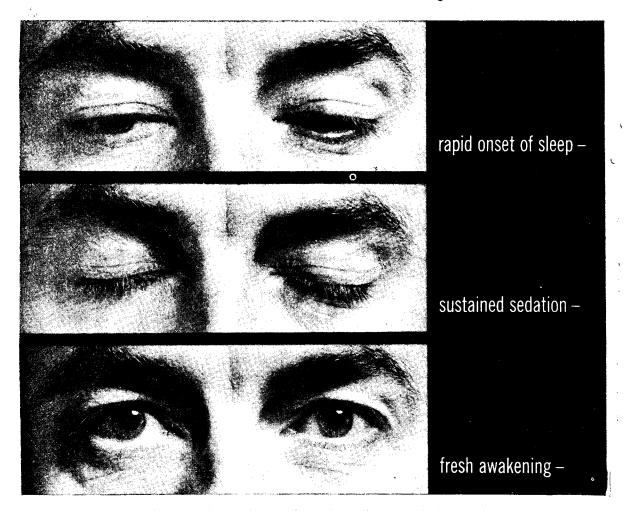

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

For all sufferers from insomnia not due to pain, CARBRITAL\* can provide sleep of natural duration and depth. Combined in this preparation are a quick-acting hypnotic (pentobarbitone sodium), and a mild longer-acting sedative (carbromal). Thus, CARBRITAL brings about rapid onset of sleep and sustains it for several hours, yet leaves the patient free from undesirable residual depression on awakening.

### CARBRITAL

### in all types of insomnia

CAPSULES: In bottles of 25 and 250 capsules, each containing pentobarbitone sodium (1 $\frac{1}{2}$  grs) and carbromal (4 grs).

ELIXIR: In bottles of 4, 16 and 80 fl. ozs. Each fluid drachm (one teaspoonful) represents pentobarbitone sodium ( $\frac{1}{4}$  gr) and carbromal ( $\frac{3}{4}$  gr).

safe and reliable sleep-promoting agent newly developed by GLAXO

**TRICLORYL** 

**TABLETS** 

TRICLORYL (triclofos) is a new pharmaceutically flexible compound developed by Glaxo research.

Presented as a *tablet*, Tricloryl offers all the outstanding advantages of chloral hydrate without the latter's objectionable taste or gastric irritant properties.

### Safe alternative to barbiturates

Despite their well recognised hazards, and mainly because of lack of suitable alternatives, the barbiturates are still widely prescribed. Although it does not entirely replace the barbiturates, Tricloryl is of much greater benefit and safer to use in the great majority of patients.

### Relationship to chloral hydrate

After oral administration chloral hydrate is converted to trichlorethanol, its active sleep-promoting principle. Tricloryl is a chemically stable phosphoric ester of this substance which in the body is rapidly hydrolysed back into trichlorethanol. It shows all the characteristic and well known properties of the parent compound without any unpleasant after-effects.

### Sound sleep without daytime drowsiness

Tricloryl produces a sound sleep which is of the same degree and duration as that induced by chloral hydrate. The patient is easily aroused, if need be. He wakes refreshed in body and mind and there is no drowsy daytime aftermath.

Tricloryl not only has a much higher safety factor than the barbiturates—there is also much less fear of habituation.

The tablets are small and easily taken with water. Dosage is from 1 to 4 tablets daily.

Tricloryl is a safe and reliable way of promoting sound sleep in the great majority of patients.

### TRICLORYL

Tablets of 0.5 gram triclofos monosodium salt. In bottles of 20, 100 and 500.

The name Tricloryl is a Glaxo trade mark

## Triominic WANDER

### Each Tablet contains:

Phenylpropanolamine-HCI 50 mg.
Mepyramine maleate B.P. 25 mg.
Pheniramine maleate 25 mg.

Also available: 'Triominic' Syrup for children and for adults requiring greater flexibility of dosage. Each teaspoonful is equivalent to  $\frac{1}{4}$  'Triominic' Tablet.

**Dosage:** 1 Timed-release Tablet 6 to 8-hourly. Syrup to be taken 3 to 4-hourly; 1 fl. dr.= $\frac{1}{4}$  Tablet.

Basic N.H.S. Price: 50 Tablets 7/-; 2 fl. oz. Syrup 2/6.

IPATION FANT hadinalis badinzard ladona?

A number of reports have shown that Senokot therapy has an important part to play in the treatment of constipation in infants and young children. The following extracts illustrate some typical findings:

"For some years we have used a preparation of senna (Senokot) in the treatment of children with stubborn constipation. The usual dose is one teaspoonful nightly and this is gradually reduced and eventually discontinued. There has been no evidence of habit formation."

"Surgery in Infancy and Childhood," 1958, London, p. 196.

In a study of "The Treatment of Bowel Dysfunction in Infants and Young Children," one thousand cases of infants of two weeks and children of various ages up to five years were investigated. Of sixty cases which did not respond to general measures it was stated:

"Carefully graded doses of standardized senna (Senokot) were found to be of considerable value in establishing normal habits in 58 of these 60 cases. Its action is educative, it is easy to give and liked, and it is cheap."

Practitioner, 1959, 183, 732.

Senokot is half the cost of liquid paraffin and is the most widely prescribed stimulant laxative under the National Health Service.

STANDARDIZED SENNA Granules: 56 G. (2 oz.), 170 G. (6 oz.), 900 G. (2 lb.). Tablets: 50, 100, 200, 1000.

### Whatever the Season...

'Actifed' relieves nasal and respiratory congestion from the inside. It is taken by mouth and reaches areas inaccessible to sprays and nasal drops.

Rapidity of action is an outstanding feature of 'Actifed' products — relief of symptoms is felt within 10 to 30 minutes.

'Actifed' combines the most potent antihistamine, triprolidine, with pseudoephedrine, a powerful vasoconstrictor and bronchodilator. Unlike its analogue ephedrine, pseudoephedrine causes no marked central stimulation.

With 'Actifed' there is no risk of secondary engorgement or inhibitions of ciliary activity. 'Actifed' Tablets are recommended for adults, while the Syrup is particularly suitable for children. Also available—'Actifed' Compound Linctus, which contains code in einaddition to the other two ingredients, for relief of coughs or coughs and congestion.

## Counteracting protein loss in the elderly

In the elderly, the lack of interest in food is both cause and result of failing energy and vitality.

ORABOLIN ensures full use of such nitrogen as is available in the food, thus counteracting body protein loss; the renewed vigour and appetite lead to improved independence and gain in weight.

ORABOLIN is effective in doses as low as 0.05 mg. per kilo body weight, well tolerated and free from liver toxicity or other harmful effects.

### Introducing FUCIDIN ZN6-Na

## an oral antibiotic of completely new personality original product of Leo Research

In releasing FUCIDIN, LEO PHARMACEUTICAL PRODUCTS DENMARK appreciate that a number of pharmaceutical preparations have been introduced with high expectations, only to exhibit in subsequent widespread clinical use properties limiting their usefulness.

Initially therefore, LEO restrict themselves to the following statements:

- 1. In laboratory and clinical trials over a period of two years, FUCIDIN, the sodium salt of fusidic acid, a substance unrelated to any available antibiotic, has demonstrated outstanding activity against the staphylococcus whether antibiotic sensitive or resistant.
- 2. While it is probably inappropriate to use the word 'safe' with respect to any chemotherapeutic substance, no serious side-effects have been reported to date following extensive clinical trials with FUCIDIN. Its basic steroid structure, far from causing any of the untoward reactions that have become associated with the steroids, may be responsible for the efficient diffusion of FUCIDIN throughout the majority of body fluids and tissues.
- 3. There is substantial reason for believing that FUCIDIN will be shown, in further work currently under way, to possess a range of antibacterial activity different from any antibiotic at present available. Furthermore the absence of effect on gram-negative coliform organisms eliminates the risk of sterilization of the gastro-intestinal tract, a phenomenon predisposing to fungal superinfection which has often followed therapy with oral antibiotics.

### The following reports of laboratory and clinical investigations have been published:

Fucidin: A New Orally Active Antibiotic. Lancet (1962) May 5th. I: 928 Antibacterial Activity in vitro of Fucidin. Lancet (1962) May 5th. I: 931 In vitro Studies of a New Antibiotic (Fucidin). Lancet (1962) May 5th. I: 932 A Case of Staphylococcal Septicaemia Treated with Penicillin and Fucidin. Lancet (1962) May 5th. I: 933 Antistaphylococcal Activity of Fucidin. Lancet (1962) May 5th. I: 935 Fusidic Acid: a New Antibiotic. Nature (1962) March 10th. 193: 987 Ugeskr. Laeg. (1962) May 11th. 124: 715-719 Ugeskr. Laeg. (1962) May 18th. 124: 745-767 Ugeskr. Laeg. perity of Victorian poets there is a consistent strand of melancholia which pervades their poetry. This trait is particularly marked in Tennyson. It should be remembered that all Tennyson's brothers were eccentric and that Tennyson himself displayed a morbid fascination with death. She only said, My life is dreary. He cometh not', she said; She said, 'I am aweary, aweary. I would that I were dead! Mariana, TENNYSON.

The major part of Tennyson's eighty years of public and private life was full of happiness and success. It could not be said that he was afflicted with involutional depression but he was certainly capable of describing this disease in his verse—a disease which we now know commences in middle age in a personality that has previously been rigid, obsessional, asocial, intolerant, reticent and conscientious.

MILD TO MODERATE DEPRESSION

NARDIL is safe and effective at low dosage levels. Toxic effects on blood or liver are extremely rare. NARDIL acts quickly. Response is usually seen within the first weeks or even days of treatment. NARDIL provides reliable treatment for depressives-often the problem patients of a busy practice.

### Searle announce a further development in oral contraception

### provides the same unsurpassed effectiveness as Conovid

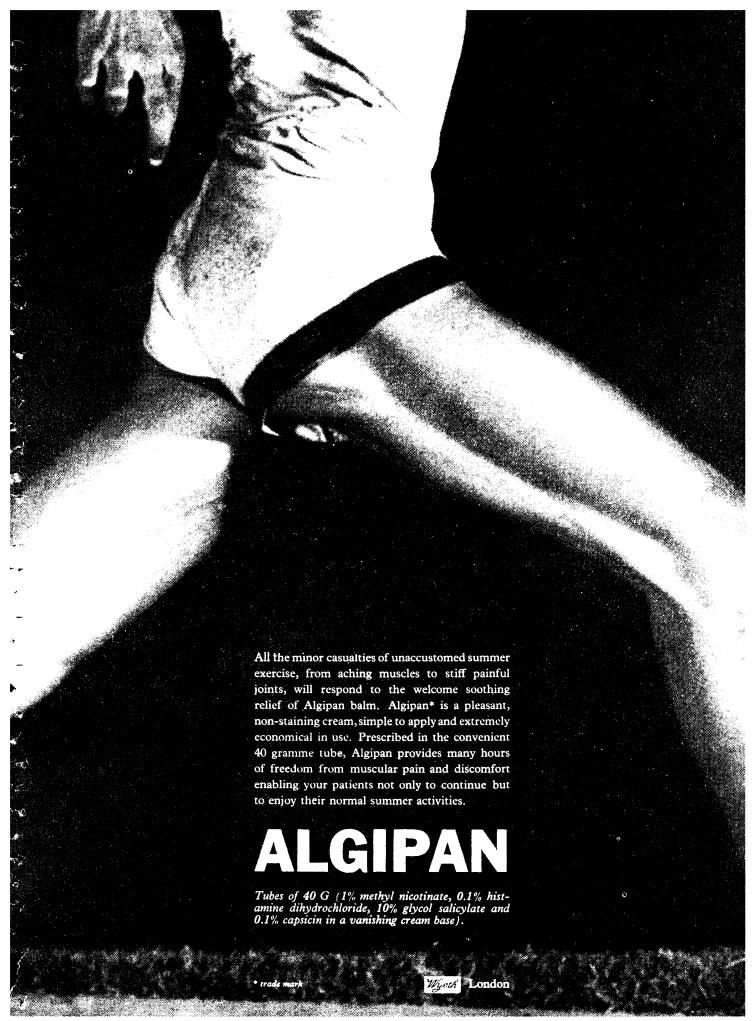

unsurpassed contraceptive effectiveness marked aesthetic acceptability simplicity of dosage no impairment of subsequent fertility no effect on later pregnancies

CONOVID-E contains the same active ingredients as Conovid but in different proportions: Conovid-E tablets contain 2.5 mg. norethynodrel with 0.1 mg. ethinyloestradiol 3-methyl ether (EE3ME). Conovid tablets contain 5 mg. norethynodrel with 0.075 mg. EE3ME. The EE3ME content was shown to be critical by a trial in Birmingham using an experimental low dosage tablet. Trials in more than 1,500 women for over 9,000 cycles, using 2.5 mg. of norethynodrel with additional oestrogen (CONOVID-E), have, however, been very satisfactory. CONOVID-E is much cheaper than Conovid and costs only 10/- for a month's course of 20 tablets.

Full medical literature on Conovid and CONOVID-E is available on request.

"Conovid" is a Registered Trade Mark

It's a fact that medical men, like busmen, have difficulty in getting away from it all, but it can be done easily and wonderfully well in Northern Ireland.

There are coastal resorts aplenty, countryside and scenery and countless castles, towers and Celtic crosses providing an impressive illustration of how to grow old gracefully. Driving is a joy, by the way. Traffic pressure (and blood pressure) is far from frantic, and the scenery's some of the most picturesque in the world.

Stay awhile...

## VASOGEN SILICONE SPRAY

Contains a new silicone fluid which gives better results in the treatment of decubitus, skin disorders (bedsores and predisposing conditions) etc.

(Polymethylphenylsiloxane)

### ADVANTAGES

The use of this new silicone fluid in an aerosol does not give the patient the discomfort that use of alcoholic solutions causes.

It is more economical in use than such alcoholic solutions since it does not run off the treated area.

Takes but a few seconds to administer, thus saving nursing time.

Relatives can easily continue the treatment, in the nurse's absence, when the patient is at home.

In dispensing size (12 oz) aerosol canisters.

### added

New Regal Full Cream Milk contains OPTIMAL Vitamins C & I

added Salety

The golden-lacquered lining of the New Regal can does not rust or discolour after opening.

These unique features are found only in New Regal Milk—the best and safest for infant feeding, hospital dietary and general home consumption.

NEW REGAL HALF-CREAM MILK

(also in golden-lacquered cans) This milk is specially formulated to meet the specific demands of premature, marasmic or other babies unable to tolerate a full-cream feed. It is invaluable, too, for all adults on 'reduced fat' diets.

### SUNFLO SUNFLOWER OIL WITH S.G.C.

A RICH AND PALATABLE SOURCE OF UNSATURATED FATTY ACIDS

Sunflower Seed Oil is rich in linoleic acid, an essential unsaturated fatty acid. "Sunflo" with S.G.C. is pure sunflower oil reinforced with synergistol concentrate derived from fish oil. In therapy which includes the substitution of saturated by unsaturated fatty acids—as in the treatment of atherosclerosis, hypercholesteremia and coronary insufficiency—"Sunflo" Oil is welcomed by the patient for its palatability and practical usefulness in salads and cooking. An independent analysis of "Sunflo" Oil is available on request.

### AEVORA

### in general practice

Over the past 10 years clinical and metabolic studies have established that Laevulose (fructose) occupies a special place among the various sugars available for carbohydrate therapy. Laevoral is a 65% concentration of Laevulose for oral administration and provides the following. clinical advantages over other forms of carbohydrate therapy.

### FASTER LIVER GLYCOGEN REPLENISHMENT **GREATER ENERGY PRODUCTION ENHANCED PROTEIN-SPARING** METABOLIZED INDEPENDENTLY OF INSULIN

Significant advantages are shown in the treatment of the debilitated patient, the chronic sick and all conditions of metabolic stress encountered in general practice where carbohydrate therapy is indicated.

### **DOSAGE**

1-3 tablespoonfuls daily or as prescribed. Laevoral may be taken with fruit juice or with the usual beverages.

### **PACKS**

10 fl. oz. Basic N.H.S. Cost 11/6 + P.T.

# LAGOS UNIVERSITY TEACHING HOSPITAL, LAGOS, NIGERIA

Applications are invited from suitably qualified registered medical practitioners for

### CONSULTANT RADIOLOGIST

at the above Hospital

Lagos University Teaching Hospital and University of Lagos Medical School

The Lagos University Teaching Hospital is situated on the mainland of Lagos, the Federal capital of Nigeria. With the University of Lagos Medical School it provides medical teaching and training leading to the degree of Bachelor of Medicine and Bachelor

of Surgery of the University of Lagos.

The Hospital is scheduled to receive patients in July/August, 1962, and the Medical School, on the same site as the Hospital, will admit preclinical students in October, 1962. Although now a 350-bed hospital, expansion of the Teaching Hospital has been phased so that in 1965-8 there will be over 800 beds for patient accommodation. The Medical School, a multi-storied building, centrally air-conditioned, will be completed in 1964 and will be ready for the academic year 1964-5. The School will provide full accommodation for teaching and research and will be close to the Teaching Hospital so as to facilitate accommodation between the two accommodation between the two.

The initial intake of preclinical students in 1962 will be 25, rising by 1967-8 to an annual intake of 150 and 50 medical and dental students respectively.

Lagos-Federal Capital of Nigeria

Lagos is a rapidly developing seaport town and offers ample opportunity for clinical work and research. Recreations available include tennis, golf, riding, sailing, surf-riding and deep sea-fishing. Tarkwa Bay and the Victoria Beach provide the most popular resorts in Nigeria.

**Qualifications** 

Candidates must hold the D.M.R.D. and have considerable experience in radiology, and must have worked in a radiology department of a Teaching Hospital. Salary

£3.150 inclusive

Air or sea passages paid for appointee, wife and up to three children under 11 years on appointment, overseas leave and termination. Part-furnished accommodation at rent not exceeding 7% of salary. Car allowances.

Other Conditions

Appointment is for two tours of 12 months each in the first instance, with three months' leave granted at the expiration of each tour. The contract is renewable by agreement. Method of Application

Applicants should give particulars of:
(1) Name in full.
(2) Date and place of birth.
(3) Nationality.

(4) Marital status.

(5) Number of children with their ages.
(6) Degree (stating dates and Institutions).
(7) Experience, including full details of previous posts.

(8) Publications.

(9) Names and addresses of three referees.

Applications (six copies) and any supporting material should be sent not later than

August 8, 1962, to:
Overseas Representative in London, University of Lagos Medical School, Stafford House, Norfolk Street, London W.C.2.

MARTIN HASSECK TRANSLATORS, 114
Junction Road, London N.19, ARC 4009, for prompt, efficient translating service. Medical translations competently dealt with.

### COMMERCIAL APPOINTMENTS

### MEDICAL DIVISION

# MERCK SHARP & DOHME

A new full-time post has been created that requires the appointment of a young, male physician. Neither previous experience nor extensive clinical background is essential, but evidence of a flair for teaching or writing would be an asset. The duties will be broad in scope, involving medical information, the training of Representatives, the scrutiny of promotional literature, and the arranging of clinical trials.

This appointment would suit a young doctor who has decided not to settle in general or hospital practice, but who would be interested in a permanent career with a Company having an impressive background in therapeutic research.

Working conditions are excellent and a contributory pension scheme is in operation. The salary will be by arrangement, but opportunity for advancement is considerable.

Applications (endorsed "Strictly Private") should be made to:

The Medical Director, MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS.

(9384)

A private clinic for the treatment of patients
suffering from early nervous disorders, alcoholism,
and drug addiction. The clinic is situated in six
acres of grounds within half an hour of Central
London, and can accommodate 25 in-patients and
an additional number of day patients. It is staffed
by a resident medical officer and fully trained State
Registered Nurses. Specialist services are fully
available when required. Apply Medical Director.

# HITCHAM PLACE, BURNHAM, BUCKS (Late Fenstanton, Christchurch Road, S.W.)

A Private Home for the treatment of LADIES with mental and nervous disorders. Psychotherapy, Physiotherapy, etc. A large country mansion with 20 acres in Green Belt. Apply to Dr. Madeline R. Lockwood, Resident Physician Superintendent. Tel.: Burnham 624. Station: Taplow.

# ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS NORTHAMPTON

President: The Earl Spencer. Medical Superintendent D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fourteen guineas per week. Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc.

WANTAGER HOUSE

### WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

### MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

BRYN-Y-NEUADD HALL

The seaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. on the seashore.

For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by

# THE MEDICAL PROTECTION SOCIETY 1892 - 1962

# IMPORTANT SEVENTIETH ANNIVERSARY ANNOUNCEMENT UNLIMITED INDEMNITY FOR OVERSEAS MEMBERS

The Society was the first to defend and indemnify Overseas Doctors and Dentists. Its Overseas Membership remains many times that of any other similar organization and its experience in this field is consequently incomparable.

THE COUNCIL OF THE SOCIETY IS PLEASED TO ANNOUNCE THAT AS FROM 1ST JULY, 1962, THE UNLIMITED INDEMNITY ENJOYED BY HOME MEMBERS IS EXTENDED TO ALL OVERSEAS MEMBERS.

MAXIMUM ANNUAL SUBSCRIPTION—£5 FOR MEDICAL PRACTITIONERS; £4 FOR DENTAL PRACTITIONERS (subscriptions are reduced for those joining within three years of registration).

The Society's financial resources built up over 70 years have enabled it, with a membership of nearly 40,000, to make this CONCESSION TO OVERSEAS MEMBERS.
