new compound for the treatment of patients with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments11-17 and it has been tested in over 1,000 patients¹⁻¹⁰. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

Dosage

Treatment may be initiated with 2 tab lets, three times daily, reducing afte three days to a maintenance dosag of 1 tablet two or three times daily.

Presentation

Synadrin is presented as tablets, eac containing 15 mg, of prenylamine lad tate in bottles of 30 and 150 at basi NHS prices of 8/8d. and 34/8d. (sub ject to P.T.). Synadrin is known i some other countries as Segontin.

HOECHST PHARMACEUTICALS LIMITED. SLOUGH

Sole distributors in the United Kingdom: Horlicks Limited, Slough, Bucks

Under the one name Betnesol there are four preparations for highly effective topical treatment in the majority of inflammatory skin conditions. Given below are some suggested uses for each preparation.

For wet lesions	Betnesol Cream with a non-greasy base. In 5 and 15 gram tubes.
For dry lesions	Betnesol Ointment with a greasy base. In 5 and 15 gram tubes.
For large areas	Betnesol Lotion which is most economical in use. 20 ml plastic bottles.
For non-touch treatment	Betnesol Spray avoids the risk of introducing infection. 30 ml aerosol packs.

A complementary range of Betnesol-N preparations containing neomycin, is also available.

Each product contains betamethasone phosphate, the soluble corticosteroid which is active in low concentrations. The appropriate product applied two or three times daily will usually bring rapid improvement in conditions

such as: Anal and vulvar pruritus. Contact dermatitis of various types. Allergic eczema. Food eczema. Infantile eczema. Eczematoid reactions of the eyes and ears. Neurodermatitis. Nummular dermatitis. Seborrhoeic dermatitis.

This range of topical steroids is designed to make prescribing simpler and treatment less costly. For common skin conditions there is now only one name to remember, Betnesol. Each preparation is in one strength only and their cost compares very favourably with that of other steroids in common use.

BETNESOL

only one name, one strength to remember

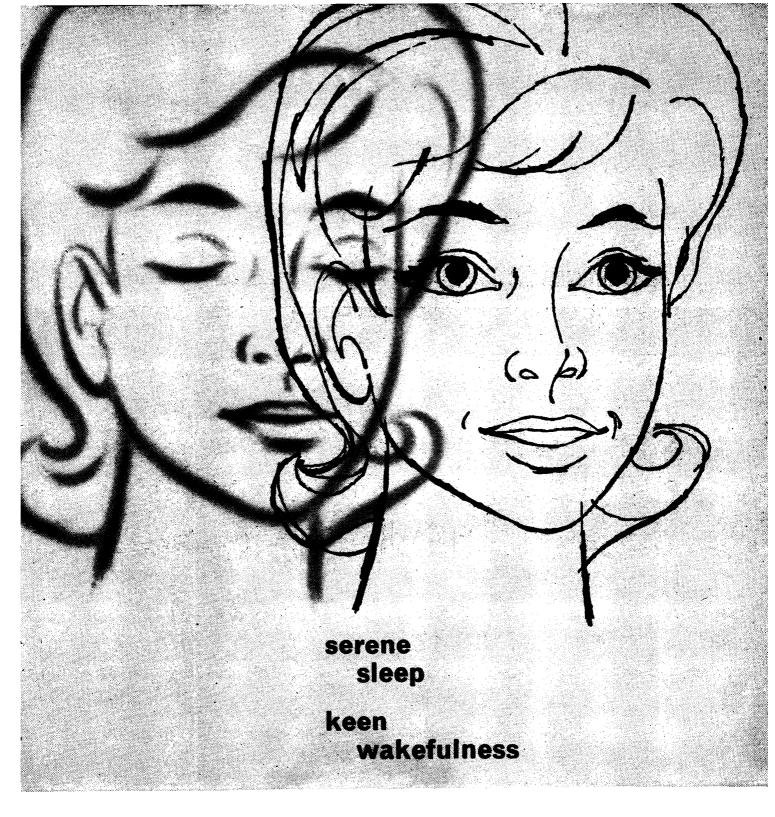

Systemic treatment with Betnelan tablets

A short course of Betnelan tablets may be of considerable benefit in severe skin conditions or in controlling an exacerbation. A suggested dosage schedule with tablets of 0.5 mg. betamethasone is 2 tablets, 1 tablet and $\frac{1}{2}$ a tablet, each dose given three times daily for two days.

Betnesol and Betnelan are Glaxo trade marks

GLAXO LABORATORIES LIMITED

Hypnosis without hangover or sedation without sleepiness; Welldorm provides either—or both—safely. Welldorm is safe for the emotionally unstable adolescent. It is safe for all ages—all round the clock—all the year round.

WELLDORM IS SAFE for hypnosis and sedation

Welldorm (dichloralphenazone) is a safe, non-barbiturate sedative and hypnotic. It is non-cumulative and does not build up dependence. Side-effects are rare and trivial.

"The most popular antibiotics for topical application . . .

... are bacitracin, polymyxin, and neomycin because of their stability, limited diffusion, low allergenic potential and high clinical efficacy against organisms..."

(New England J. Med. (1959) 261, 756.)

'CORTISPORIN' OINTMENT

issued in tubes of 4 gm. and 10 gm. has all these merits, for it contains all three antibiotics. In each gramme of petrolatum base is: polymyxin B sulphate $5{,}000$ units · zinc bacitracin 400 units · hydrocortisone 10 mgm. · neomycin sulphate 5 mgm.

'CORTISPORIN' LOTION

issued in bottles of 10 c.c. is indicated for larger, moist or abraded lesions. It contains, in each c.c. of aqueous vehicle: polymyxin B sulphate 10,000 units · hydrocortisone 10 mgm. neomycin sulphate 5 mgm.

The hydrocortisone in 'CORTISPORIN' products reduces inflammation and therefore enables the potent antibiotics to reach bacteria more easily.

Skin sensitisation has not been reported with 'Cortisporin' products. Cross-resistance or cross-sensitisation to other antibiotics does not occur.

Durex Gossamer and the post-partum period

The new, pre-lubricated protective—Durex Gossamer—is advocated by many gynaecologists and obstetricians, as an important adjunct to the treatment of certain abnormal vaginal conditions.

A most important application of the Durex Gossamer is in preventing an exacerbation during coitus—of the inflammation and discomfort which frequently accompanies the post-partum period, vaginitis and leucorrhea. Furthermore, this type of protective is recommended where insufficient vaginal secretion is manifest, as in early marriage, frigidity and menopausal atrophy.

Where there is risk of transferring infection, Durex Gossamer has been shown to reduce the incidence of vaginal infection during the post-partum period.

But the outstanding advantage of Durex Gossamer is the confidence it instils, and the comfort it provides during the postpartum period. The physician and patient know it to be an effective and reliable contraceptive.

> For further details and samples of Durex Gossamer write to:-

MEDICAL DIVISION, (Dept. 12e), LONDON RUBBER INDUSTRIES LTD., LONDON, E.4

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, the entire Vitamin B Complex should always be administered concurrently.

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

• Aluzyme is not advertised to the public and may be prescribed under J.S.C. Classification Category "S."

QUESTIONS, PLEASE?

Women doctors acclaim the advantages of tampons

Many female patients say the real "curse" in their menstrual periods is the soggy, smelly, bulky pad they have been wearing. Is recommending "Tampax" a worthwhile solution?

A The male physician can get a good idea of the real value and importance of menstrual tampons from his women colleagues, several of whom have published subjective reactions. A woman doctor writes: "Only those who have experienced the misery of having to play games and do gymnastics hampered by the chafing of a soaking and malodorous sanitary towel can appreciate how very unpleasant it is." She compares the wearing of a soaked menstrual pad with the effects of urinary incontinence, and adds: ". . . I very much doubt whether any man would tolerate such discomfort if any alternative offered."

Another woman doctor says, "I feel that tampons are a tremendous advantage to women for many reasons, including comfort, ease of carrying spares and of disposal, and for the psychological advantages,"2 and a third adds her enthusiasm in a statement which affirms that millions of women appreciate the comfort and other advantages of internal tampons.3

Once a Tampax is inserted, it lies in "the great silent area of the pelvis".4 Your patient will neither feel it nor will she be bothered or embarrassed by the odour that inevitably accompanies the use of an external pad. Indeed, the use of Tampax may very well improve her entire attitude toward menstruation.⁵ Available in Regular and Super absorbencies to meet varying needs.

TAMPAX MENSTRUAL TAMPONS Preferred because they

- Eliminate vulval chafing
- and irritation. Do not block the flow.
- 3. Permit freedom from
- 4. Eliminate danger of infection from the anal region.
- 5. Promote mental and physical well-being.
- Ensure hygienic, medically correct insertion via their unique container-applicator.
- 7. Provide protection in a convenient, comfortable, hygienic and disposable form.

ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS NORTHAMPTON

President: The Earl Spencer.
Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.

D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and temale, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fourteen guineas per week. Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc.

WANTAGE HOUSE

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment available. It contains laboratories for biochemical, bacteriological and pathological research.

MOULTON PARK
Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

BRYN-Y-NEUADD HALL

The seaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore.

on the seashore.
For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by

appointment.

THE MEDICAL DEFENCE UNION

Important Announcement for all Overseas Practitioners

THE MEDICAL DEFENCE UNION is able to announce a SUBSTANTIAL REDUCTION in the subscription rates available to doctors practising overseas together with—for the first time—an offer of UNLIMITED INDEMNITY in respect of damages and/or costs awarded against any Member as a consequence of litigation involving a question of professional principle. As from the 1st July, 1962, the sliding subscription scale and the fixed indemnity ceiling are abolished. From this date the annual subscription rate for overseas medical practitioners will be £5. For practitioners joining within one year of registration the annual rates will be £3 for the first three years, £4 for the fourth year and £5 thereafter.

THE MEDICAL DEFENCE UNION IS THE OLDEST AND LARGEST ORGANIZATION OF ITS KIND IN THE WORLD. ITS VAST RESOURCES AND UNRIVALLED EXPERIENCE ARE AT THE DISPOSAL OF ALL ITS MEMBERS WHEREVER THEY MAY BE PRACTISING, OTHER THAN IN THE U.S.A.

Membership is open to all practitioners holding a qualification which is registrable with the General Medical Council in London. For full particulars and Membership forms apply to the London office.

Secretary:

Philip H. Addison, M.R.C.S., L.R.C.P.

Dental Secretary:

A. H. R. Rowe, B.D.S., F.D.S.

Varbert, Loch Fyne, Argyll

"Thioridazine is so well tolerated that it appears an excellent phenothiazine for ambulatory patients,

in particular for maintenance of patients after they leave hospital."

J. ment. Sci. (1960) 106, 1417.

Melleril

"The most striking aspect of Melleril therapy
is the poverty of side-effects."

J. Amer. med. Ass. (1959) 170, 1283.
