

new compound for the treatment of patients with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments  $^{11-17}$  and it has been tested in over 1,000 patients<sup>1-10</sup>. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

#### Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

### Furamide

With Furamide, cure rates of 75-80% in the acute stage and 90-100% in the chronic condition have been achieved in clinical trials and may be expected in practice. Symptoms are relieved in a few days.

Treatment of amoebiasis with Furamide tablets is simple, safe, effective and readily accepted by the patient. Furamide causes no gastric or colonic irritation and is completely non-toxic. Side-effects, apart from occasional flatulence, have not been reported.

One tablet three times a day for ten days for adults is all that is necessary. Children may receive 20 mg./Kg. body weight daily in divided doses for 10 days. No injections, special diet or enemas are required.

Furamide tablets each contain 0.5G Entamide (diloxanide) furoate and are supplied in containers of 15 and 250. Furamide is a product of Boots Research.

Almost every week fresh evidence is received of Alphosyl's success in even those cases of Psoriasis which have defied all other treatment of years.

The most recent controlled study showed that in 55 cases out of 62–89% of the group – psoriatic lesions were cleared by 75% to 100% and nearly half of them were completely cleared after use of Alphosyl.

In Alphosyl allantoin and a specially refined coal tar extract are presented together for the first time. This combination not only causes a rapid clearance of the condition but positively stimulates the healing process. Alphosyl is particularly safe. The fact that potentially hazardous measures—arsenicals, mercury, corticosteroids, x-rays—need not be used, further commends the medication. It can be confidently employed for scalp to toe psoriasis in even the most tender parts of the body. It is non-greasy and non-staining; it vanishes on application and thus is acceptable cosmetically especially for use on the scalp, face, hands or any parts of the body which may be exposed.

# Even obstinate cases of Psoriasis yield to Alphosyl—75% to 100% clearance overall

Completely cleared in 6 months: Adult male, Alphosyl therapy initiated 7th June, Marked improvement by 4th August, progressing until skin cleared of all lesions by 6th December.

# Psoriasis R. Alphosyl

#### Formula:

special coal tar extract 5% and allantoin 2% in a smooth non-greasy lotion base.

a case for Femipausin is a Hoechst product containing methyltestosterone 5 mg. and ethinyl oestradiol 0.01 mg. per tablet. It is indicated in the treatment of symptoms of the menopause. The oral administration of combined androgen and oestrogen is accepted therapy; the combination has two advantages. One—the frequency of oestrogen-induced bleeding is greatly reduced; two—androgens increase the general sense of well-being. Femipausin has been formulated very carefully to provide an accurate hormonal balance, and it is well tolerated during prolonged therapy. Femipausin tablets are presented in bottles of 30 and 150 at basic NHS prices of 4/5d. and 21/4d.

# Whatever the Season...

'Actifed' relieves nasal and respiratory congestion from the inside. It is taken by mouth and reaches areas inaccessible to sprays and nasal drops.

Rapidity of action is an outstanding feature of 'Actifed' products—relief of symptoms is felt within 10 to 30 minutes.

'Actifed' combines the most potent antihistamine, triprolidine, with pseudoephedrine, a powerful vasoconstrictor and bronchodilator. Unlike its analogue ephedrine, pseudoephedrine causes no marked central stimulation.

With 'Actifed' there is no risk of secondary engorgement or inhibitions of ciliary activity. 'Actifed' Tablets are recommended for adults, while the Syrup is particularly suitable for children. Also available—'Actifed' Compound Linctus, which contains code in einaddition to the other two ingredients, for relief of coughs or coughs and congestion.

#### **CAN YOU TRUST HIM?**

Can you trust your patient's child not to get hold of his mother's iron tablets? Can you *always* rely on your anaemic patient to observe the necessary care and watchfulness?

Ferrodic virtually removes the toxic risks from iron therapy. It is 100 times less toxic than ferrous sulphate, 30 times less toxic than ferrous gluconate.\* Yet, because it is stabilised, this unique form of ferrous carbonate is readily absorbed to give maximum haemoglobin response ... And, in keeping with its low toxicity, Ferrodic is exceptionally well tolerated and free from unpleasant side effects.

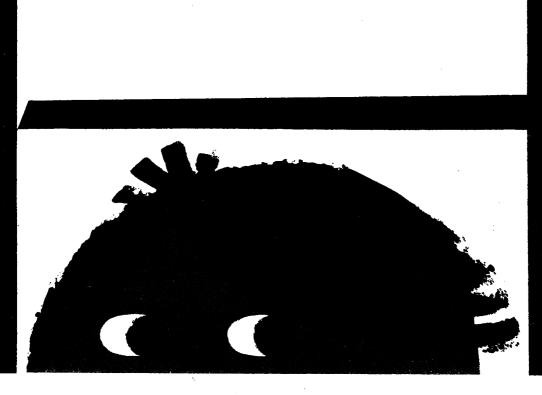

\*Lancet, 1960, 2, 1304

### MUCAINE your unique treatment for heartburn

You can now provide a greater measure of freedom from pain and discomfort for your heartburn patients when you prescribe Mucaine\*. A new Wyeth combination of the highly-stable, surface anaesthetic oxethazaine with aluminium hydroxide gel and magnesium hydroxide, Mucaine safely brings more effective relief than normal antacid therapy to your patients suffering from acid reflux into the oesophagus in pregnancy, hiatus hernia, dyspepsia and indigestion, and from radiation oesophagitis.

Packs: Bottles of 12 fluid ounces. Each 5 ml. of suspension contains: 10 mg. oxethazaine, 4.75 ml. Aluminium Hydroxide Gel, B.P. and 100 mg. Magnesium Hydroxide B.P.C.

# and gastro-intestinal infections yield promptly to **IVAX**

Diarrhoea and infections of the intestinal tract are commonly encountered at this time of year. The majority of cases are bacterial in origin but dietary factors also play their part. Ivax provides effective treatment in such cases. Both the infecting bacteria and the debilitating diarrhoea will yield to the special combination of neomycin, sulphaguanidine and kaolin. Ivax quickly controls infection, consolidates the stools, and soothes irritated and inflamed mucosa.

Ivax is palatable and ready-prepared suitable for children and adults.

Bottles of 6 fl. oz. Basic N.H.S. price 7/8.

for increased pain-**INCREASED ANALGESIA** with

# IE COMPOUND-65'

DEXTROPROPOXYPHENE & ACETYLSALICYLIC ACID COMPOUND

Analgesia is increased when you prescribe 'DOLOXENE COMPOUND - 65' because it contains twice the amount of 'DOLOXENE' as does regular 'DOLOX-ENE COMPOUND'. It combines 65 mg. 'DOLOXENE' with phenacetin, acetylsalicylic acid and caffeine to give pronounced analgesia, particularly in inflammation and pain associated with recurrent or chronic illness. Side effects are minimal.

'DOLOXENE', chemically unique among analgesics, elevates the pain threshold by depressing the sensory area of the brain. In extensive trials by over a hundred investigators in more than 6,300 patients, 89.8% experienced relief of pain after receiving 'Doloxene' alone or in combination.

#### INDICATIONS:

Acute, chronic or recurrent pain of: Rheumatism · Arthritis · Dysmenorrhoea Malignancy · Trauma · Neuritis · Migraine also in dental pain, post-operative pain and muscular pain.

# THE BEETLE CURE

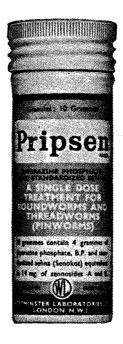

SUFFERERS from toothache in the Rhineland Palatinate were promised present relief and future protection if they helped to its feet a beetle that had fallen upon its back. No doubt in times of dental pestilence there was a great demand for upturned beetles, and the Rhenish peasantry would set out in drives to seek them. These were very probably the first Parish Beetle Drives.

Today our dental procedures have no such rustic charm, but they are a good deal more efficient. We know, for example, that the earlier we start our children in good dental habits—by teaching them the CDEF rule for good teeth—the more promise we give them of healthy teeth both now and in later life.

- CLEANING Often and thorough, to remove food particles that can cause decay. After each meal if possible, and always with a brush at bedtime.
- DENTIST Regular visits to catch any trouble early.
- EXERCISE Lots of chewing exercise—apples, celery, chewing gum, raw vegetables. Chewing helps to clean teeth, promotes flow of saliva (nature's mouthwash); stimulates gums, aids proper jaw development.
- FOOD Plenty of milk, butter, cheese and eggs: rich in minerals and vitamins for strong teeth and healthy gums.

Under the one name Betnesol there are four preparations for highly effective topical treatment in the majority of inflammatory skin conditions. Given below are some suggested uses for each preparation.

For wet lesions	Betnesol Cream with a non-greasy base. In 5 and 15 gram tubes.
For dry lesions	Betnesol Ointment with a greasy base. In 5 and 15 gram tubes.
For large areas	Betnesol Lotton which is most economical in use. 20 ml plastic bottles.
For non-touch treatment	Betnesol Spray avoids the risk of introduc- ing infection.

A complementary range of Betnesol-N preparations containing neomycin, is also available.

Each product contains betamethasone phosphate, the soluble corticosteroid which is active in low concentrations. The appropriate product applied two or three times daily will usually bring rapid improvement in conditions

such as: Anal and vulvar pruritus. Contact dermatitis of various types. Allergic eczema. Food eczema. Infantile eczema. Eczematoid reactions of the eyes and ears. Neurodermatitis. Nummular dermatitis. Seborrhoeic dermatitis.

This range of topical steroids is designed to make prescribing simpler and treatment less costly. For common skin conditions there is now only one name to remember, Betnesol. Each preparation is in one strength only and their cost compares very favourably with that of other steroids in common use.

#### BETNESOL

only one name, one strength to remember

#### Systemic treatment with Betnelan tablets

A short course of Betnelan tablets may be of considerable benefit in severe skin conditions or in controlling an exacerbation. A suggested dosage schedule with tablets of 0.5 mg. betamethasone is 2 tablets, 1 tablet and  $\frac{1}{2}$  a tablet, each dose given three times daily for two days.

Betnesol and Betnelan are Glazo trade marks

GLAXO LABORATORIES LIMITED

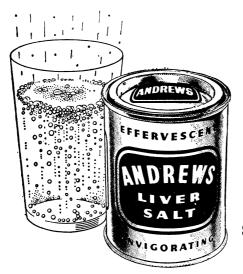

# A natural action laxative

When advising a laxative, medical preference usually favours the use of a product which acts in a perfectly natural way. Andrews meets this demand admirably. Its effect is to increase the fluid content in the bowel by osmosis and so induce a mild and natural aperient action that does not irritate the intestine.

Andrews will be found particularly useful for relieving constipation arising from decreased food intake, either during illness or restricted diet.

Andrews has further advantages, it is mildly antacid and relieves gastric discomfort. It also improves the flow of bile and helps to check biliousness and sick headaches.

The pleasant taste and refreshing effervescence of Andrews make it readily acceptable to most patients.

# NORTHERN IRELAND HOSPITALS AUTHORITY

MEDICAL

SPECIAL MENTAL HEALTH APPOINTMENTS
The Authority invite applications for posts in the Hospital Service, which will include the provision of services in the Department of Mental Health Units.

The posts will provide for not only the carrying out of duties in the several units, but also a carefully planned scheme of training of the holders in the several aspects of mental health work as set out in the next paragraph. The Department of Mental Health of the Oucen's University of Belfast will organize and supervise the training arrangements.

will organize and supervise the training arrangements.

A postgraduate training programme extending over a period of 2½ years has been approved for those intending to take up psychiatry as a specialty. The programme includes further postgraduate experience in general medicine and allied services. In addition to having preliminary training in adult psychiatry, holders of the posts will have opportunity to gain experience in child guidance and Special Care Service work.

Posts normally will be in the grade of Senior House Officer, but in exceptional circumstances a higher grade may be approved. The point of entry of successful candidates will depend upon their previous experience.

A form of application, together with further particulars of the posts, may be obtained from the Secretary. Northern Ireland Hospitals Authority, 27 Adelaide Street, Belfast 2. The closing date for receipt of applications will be August 31, 1962.

### **SERVICES**

# You can earn £2000 a year on entry in the Royal Air Force

### **New Conditions for Registered Practitioners**

Under a new scheme announced by the Air Ministry, if you are a qualified doctor you can enter the Royal Air Force immediately after full registration and be commissioned as a Flight Lieutenant, earning, with full allowances, £2,000 a year. If you have post-graduate experience you can be granted up to seven years back-dated seniority; a doctor with six years' civilian experience will be appointed Squadron Leader on entry, earning, with full allowances, £2,300 a year.

Tax free gratuities are payable on completion of short service commissions. These are £1,500 after three years or £3,000 after five years.

You can be offered a permanent commission and guaranteed pensionable employment to the age of 65 with excellent prospects of promotion to Group Captain rank and a salary of well over £3,000 a year. If you are married and serving at a Station you may be allocated an official married quarter. This will be a comfortably furnished house near your surgery.

You will have full clinical freedom and your practice will normally include the families of serving members of the Royal Air Force. You will have opportunities for specialising, and study leave is granted on full pay and allowances to permanent officers who wish to read for further qualifications.

## 'Pre-Registration Year' Scheme

If you are a medical graduate you may be commissioned in the Royal Air Force immediately in the rank of Flying Officer. You may then spend your pre-registration year seconded to a civilian hospital. This means that during your year as house physician or surgeon you may earn, with full pay and allowances, up to £1,339 a year. On registration, you will become a Flight Lieutenant with possible earnings of £2,000 a year. To qualify for this scheme you must undertake to serve for at least three years after full registration. Your pre-registration year counts towards your gratuity following a short service commission and towards retired pay on a permanent commission. The gratuity on completion of a three year commission is £1,500 plus £200 for the full pre-registration year; on completing a five year commission the gratuity is £,3,000 plus £200 for the full pre-registration year. These gratuities are tax free.

### 'Medical Cadetship' Scheme

If you are a medical student and have passed your second M.B. examination or the equivalent you may be commissioned now in the Royal Air Force. During the remainder of your medical training your fees will be paid and you will receive the full pay and allowances of a Pilot Officer which can amount to £1,090 a year.

To qualify for this scheme, you must undertake to serve for at least five years in the Medical Branch of the Royal Air Force after full registration.

At the end of the five years you may enter civilian practice with a tax free gratuity of between £1,400 and £2,600, or you may be selected for a permanent commission which guarantees pensionable employment to the age of 65 and which may take you to the most senior ranks in the Service.

For full information on the new conditions for doctors, specialists, graduates and cadets in the Royal Air Force, write to the Director-General of Medical Services, Air Ministry (M.A.1), (HN 893K), 1 Tavistock Square, London, W.C.1.

### GOVERNMENTAL

HOSPITALS

Applications are invited from medical practitioners holding primary qualifications registrable in Tasmania, and possessing higher qualifications in Diagnostic Radiology, for the post of Radiologist to the North-West Coast Hospitals.

The duties will be mainly at the Burnie General and Mersey General Hospitals. There may be occasional minor radiological procedures at the Ulversione and Spencer Hospitals. It is also envisaged that occasional visits to the Lyell District Hospital, Queenstown, will be required for the purpose of conducting screening examinations.

Salary : Specialist Medical Officer Class II, £A.2,847 to £A.3,471 by six annual increments of £A.104.

Specialist Medical Officer Class I, £A.3,549

Specialist Medical Officer Class I, £A.3,549 to £A.3,757 by two annual increments of £A.104.

£A.104.

To qualify for appointment to Class II, an applicant must possess a higher qualification in Radiology and must have had at least two years' practical experience in the specialty, not necessarily after obtaining the higher qualifications. To qualify for appointment to Class I, an applicant must have the requirements for Class II, plus four years' practical experience in radiology since obtaining his higher qualification.

Accommodation: Residential accommodation with

Accommodation: Residential accommodation with heavy furnishings, will be provided on a rental basis at Ulver-

stone.

Superannuation is available
Leave: Annual leave, sick leave and long-service leave are provided.
Note: Modern, comprehensive diagnos-

Note: Modern, comprehensive diagnostic equipment is available at both general hospitals.

Applications, in duplicate, from practitioners in the United Kingdom, accompanied by a curriculum vitae and copies of recent testimonials and/or names of referees, should be made to the Agent-General for Tasmania, 457 Strand, London W.C.2. (5591)

## UNIVERSITY OF LAGOS MEDICAL SCHOOL AND LAGOS UNIVERSITY TEACHING HOSPITAL, LAGOS, NIGERIA

Applications are invited for the following posts in the Department of Medicine, carrying honorary consultantship to the Lagos University Teaching Hospital:

## (i) SENIOR LECTURER—DEPARTMENT OF MEDICINE

## (ii) LECTURER—DEPARTMENT OF MEDICINE

The Medical School is a self-governing unit within the University of Lagos. It is on the same site as the Lagos University Teaching Hospital on the mainland of Lagos, the Federal Capital of Nigeria. In conjunction with the Lagos University Teaching Hospital it provides academic and clinical education leading to the degrees of Bachelor of Medicine and Bachelor of Surgery of the University of Lagos.

The Medical School will admit the first batch of medical students in October, 1962. At present there is provision in the Teaching Hospital for 350 beds, but expansion is under way to provide accommodation for 800 in-patients in 1964-5. A multi-storey building for the Medical School will be completed in 1964. It will house the preclinical and clinical departments, research laboratories, library and lecture theatres.

From an initial intake of 25 preclinical students in 1962 it is proposed that by 1967 the annual intake will be 150 medical and 50 dental students.

Lagos, besides being the Federal Capital of Nigeria, is a rapidly developing scaport town, which offers ample opportunity for clinical work and research. Recreations available include tennis, golf, riding, sailing, surf-riding, and deep sca-fishing.

Qualifications

**Qualifications** 

Candidates must hold the M.R.C.P. diploma, and must have had considerable experience in teaching and research. Salary

Senior Lecturer: £2,500 by £100 to £3,100 per annum

### ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS **NORTHAMPTON**

President: The Earl Spencer. Medical Superintendent D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fourteen guineas per week. Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, sports ground.

### WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

## MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

### BRYN-Y-NEUADD HALL

The scaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore.

For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by

# FINANCE
