

A case of natural selection

Would Mr. D. have charted the Origin sooner with his tomes of reference conveniently arrayed in a Minty bookcase? Did he realise that books are also prone to extinction through wear and tear? Too bad that Minty was not available to him. Today, book-loving homo sapiens has the advantage.

Minty have survived supreme for years as the makers of bookcases most naturally selected to house valued volumes. Behind sliding glass doors your books are protected in dust-free distinction and discernibility. And, since Minty bookcases are sectional, your library can evolve to any size you wish, starting from as little as £12.19.0.—on deferred terms if you prefer.

Only at the Minty Centres shown below can you see and buy Minty bookcases (and furniture). The Centres are so placed that Minty furniture is within easy reach of most people. If for any reason you can't call, Minty will send you a catalogue and particulars of post ordering. Write to Dept. B.24, Minty Ltd., 44-45 High St., Oxford.

PHARMACEUTICAL SPECIALITIES (MAY & BAKER) LTD · DAGENHAM MA 8693/85

Patients with depression and anxiety complain of a bewildering variety of symptoms. One of the most consistent is chronic fatigue—a fatigue for which there is no obvious physical cause and which makes even trivial activities require prodigious effort.

Searle announce a further development in oral contraception

provides the same unsurpassed effectiveness as Conovid

unsurpassed contraceptive effectiveness marked aesthetic acceptability simplicity of dosage no impairment of subsequent fertility no effect on later pregnancies CONOVID-E contains the same active ingredients as Conovid but in different proportions: Conovid-E tablets contain 2.5 mg. norethynodrel with 0.1 mg. ethinyloestradiol 3-methyl ether (EE3ME). Conovid tablets contain 5 mg. norethynodrel with 0.075 mg. EE3ME. The EE3ME content was shown to be critical by a trial in Birmingham using an experimental low dosage tablet. Trials in more than 1,500 women for over 9,000 cycles, using 2.5 mg. of norethynodrel with additional oestrogen (CONOVID-E), have, however, been very satisfactory. CONOVID-E is much cheaper than Conovid and costs only 10/- for a month's course of 20 tablets.

Full medical literature on Conovid and CONOVID-E is available on request.

'Conovid' is a Registered Trade Mark

Psychogenic fatigue responds swiftly and dramatically to 'Parstelin', a preparation designed to relieve symptoms of concurrent depression and anxiety. Parstelin' is remarkable for its prompt action; within 3 days most patients report some improvement, and the full effects of medication are often established before the end of the first week.

Tablets containing 1 mg. 'Stelazine' (brand of trifluoperazine) and 10 mg. 'Parnate' (brand of tranylcypromine)

IN ANXIETY NEUROSES AND DEPRESSED STATES

Drazine (phenoxypropazine) has been found effective in all recognised forms of mental depression. Again and again it has helped patients with widely differing symptoms who have had no relief from earlier forms of treatment, including other MAO inhibitors and even ECT. Drazine is indicated in both reactive and endogenous depressions, either moderate or severe. It has been equally successful in anxiety states and neurasthenia in which 'a return of energy, activity and drive'* has been noted. Drazine produces a remarkably high degree of mental stability as well as elevation of mood. Basic N.H.S. cost: 100 5 mg. tablets 11/7d. (dispensing). Subject to P.T. *Brit. med. J., 1961, 2, 1353

The 4 features of Elastoplast

During 30 years of development, stringent laboratory standards have been laid down to ensure the superiority of Elastoplast bandage. But there are four simple working standards, which you can easily demonstrate for yourself, by which an Elastic adhesive bandage can be judged. Only Elastoplast conforms to all four. Try them yourself!

STRETCH AND REGAIN

Stick the first three inches of an Elastoplast bandage to the edge of a table top. Mark a foot length of it with paper clips and stretch it firmly as far as it will go. The foot length will extend to 21 inches with little effort—a 75% increase. When you let it go it will return to nearly its original length; no more than 13 inches. In most surgical techniques, this stretch and regain is critically important. It is at its maximum in Elastoplast.

Only Elastoplast has all

TRY THESE TESTS FOR YOURSELF

1 POSITIVE ADHESION Press the handle of a pair of heavy scissors on to the adhesive halfway along a strip of Elastoplast and suspend the scissors from it. You will be surprised how long they hang before they fall. Elastoplast has always been known for its powerful adhesive spread, which sticks at the moment of contact and keeps the bandage firmly in position during the longest treatment.

EVEN, ALL-OVER POROSITY Cut a hole about 2 inches in diameter in a piece of card and stretch a piece of Elastoplast over it. Hold it between a clear electric lamp and a white surface so that the pores project images of the filament. See how close, even and uninterrupted the filament pattern is. This even porosity, over the whole adhesive surface, is characteristic of Elastoplast. It leaves no occluded patches or bands of skin beneath the bandage, even when there is more than one layer.

SOFT NON-ADHESIVE EDGES
Feel the softness of the selvedge of an Elastoplast bandage and note that it is neither sharply cut nor ragged, but luxuriously fluffy. This is why Elastoplast does not cut nor mark the skin. The edges are free from adhesive so that the bandage cannot stick to the clothing and does not ruck during weeks or months of wear.

It costs no more to specify
ELASTOPLAST

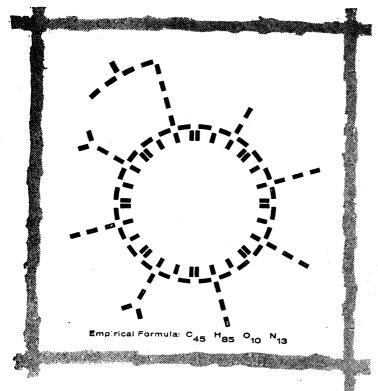

four advantages

SMITH & NEPHEW LIMITED WELWYN GARDEN CITY - HERTFORDSHIRE

"...the best antibiotic so far available..."

against Pseudomonas pyocyanea

'It (COLOMYCIN) is clinically effective in the treatment of infections due to *Ps. pyocyanea* and is thought to be the best antibiotic so far available for this purpose. The development of resistance to COLOMYCIN and toxic side-effects were insignificant.'*

*Latest reference—Brit. med. J., (1962) 2, 161.

'...bactericidal...
against *Pseudomonas*pyocyanea and most
coliform organisms.'*

Clinical reports on COLOMYCIN clearly show that it fills a gap in the treatment of infections due to Gram-negative organisms. It is of outstanding value in the treatment of gastroenteritis and urinary tract infections, particularly those cases which have been found resistant to antibiotics in common use.

COLOMYCIN

'Diconal' Tablets for relief of intractable pain

Diconal' Tablets provide analgesia comparable with that produced by morphine. They are therefore of great value in carcinoma. Because the tablets are given by mouth and not by injection, the patient can be kept oblivious of the fact that his condition calls for so potent an analgesic.

Disconal Tablets contain dipipanone and cyclizine. Dipipanone relieves severe pain, while cyclizine appreciably reduces the incidence of nausea and vomiting, even in patients new to this type of therapy.

'Diconal' Tablets are:

Of high value in relief of pain due to neoplastic disease, and other conditions where narcotic drugs would be employed.

A balanced formulation which permits flexibility in dosage, according to the needs of each patient.

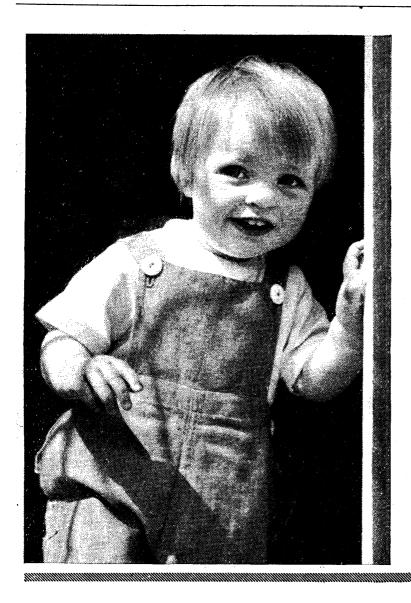

Often effective in morphine- and pethidineresistant cases.

'Diconal' Tablets are subject to the D.D.A.

'Diconal' Tablets

Each tablet contains dipipanone hydrochloride, B.P.C. 10 mgm., and cyclizine hydrochloride, B.P.C. 30 mgm. Coloured red and scored for easy division.

and gastro-intestinal infections yield promptly to **IVAX**

Diarrhoea and infections of the intestinal tract are commonly encountered at this time of year. The majority of cases are bacterial in origin but dietary factors also play their part. Ivax provides effective treatment in such cases. Both the infecting bacteria and the debilitating diarrhoea will yield to the special combination of neomycin, sulphaguanidine and kaolin. Ivax quickly controls infection, consolidates the stools, and soothes irritated and inflamed mucosa.

Ivax is palatable and ready-prepared suitable for children and adults.

Bottles of 6 fl. oz. Basic N.H.S. price 7/8.

BOOTS PURE DRUG COMPANY LIMITED STATION STREET · NOTTINGHAM

In contrast to the outward success and prosperity of Victorian poets there is a consistent strand of melancholia which pervades their poetry. This trait is particularly marked in Tennyson. It should be remembered that all Tennyson's brothers were eccentric and that Tennyson himself displayed a morbid fascination with death.

She only said, My life is dreary, He cometh not', she said; She said, 'I am aweary, aweary, I would that I were dead! Mariana, TENNYSON.

The major part of Tennyson's eighty years of public and private life was full of happiness and success. It could not be said that he was afflicted with involutional depression but he was certainly capable of describing this disease in his verse—a disease which we now know commences in middle age in a personality that has previously been rigid, obsessional, asocial, intolerant, reticent and conscientious.

MILD TO MODERATE DEPRESSION

NARDIL is safe and effective at low dosage levels. Toxic effects on blood or liver are extremely rare. NARDIL acts quickly. Response is usually seen within the first weeks or even days of treatment. NARDIL provides reliable treatment for depressives-often the problem patients of a busy practice.

Brand of phenelzine Trade Mark

IN GENERAL PRACTICE Available in bottles of 100 and 500 sugarcoated tablets each containing 15 mg. phenelzine. Nardil is known in some countries as "Nardelzine" (trade mark)

THAT OLD **FAMILY TRUST**

It is always a responsibility. But with the coming of the Trustee Investments Act the position becomes more onerous. Trustees will be able, and may be expected, to invest the funds to the extent permitted by the Act, in Ordinary Shares. To the Trustee's present armoury of talents, must now be added an expert knowledge of equity investment and the ability to manage a complicated system of book-keeping. Help, however, is no further away than the nearest branch of the Westminster Bank, where the Manager will give you full information about services of the Trustee Department.

WESTMINSTER BANK LIMITED

HEAD OFFICE: 41 LOTHBURY, LONDON, E.C.2

The problem of the dirty mouth

Even in 1962 the dangers, and the unpleasantness, of the dirty mouth are still present in the post-operative period, as well as in many fevers; the geriatric patient being especially prone to them. Careful attention to oral hygiene will usually, of course, keep the patient comfortable and prevent complications. Such attention, however, is very time-consuming to the nurse; and it is not often realised that for most patients it can be replaced or supplemented by the use of chewing gum.

The regular use of chewing gum, by stimulating salivary flow, keeps the mouth clean in the most natural way possible. The patient is in a sense providing his own nursing care with the minimum of energy expenditure by himself.

Child patients, of course, need no encouragement to chew gum. The older patient may need encouraging—but not once he has appreciated the very obvious cleansing and refreshing effect that chewing gum has upon the mouth. Chewing gum is also of value to patients who are forbidden to smoke.

**

THE WRIGLEY COMPANY LIMITED, WEMBLEY, MIDDLESEX

Manufacturers of Pure Chewing Gum

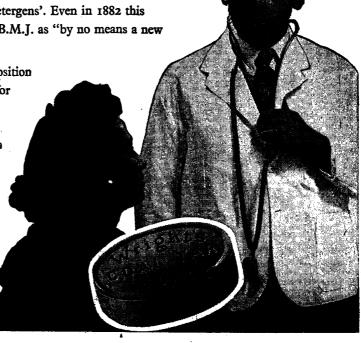

Wright's Coal Tar Soap has been in continuous use by the Medical Profession for nearly a century. Its world-wide use is largely due to professional approval of its quality, and to the fact that it contains the original 'Liquor Carbonis Detergens'. Even in 1882 this ingredient was described by the B.M.J. as "by no means a new preparation".

To maintain this front-rank position has not been easy. It has called for unremitting effort, continuous improvements in technique, ever higher analytical standards, and a record of service in which we take modest pride.

PSYCHIATRY

MANCHESTER REGIONAL HOSPITAL BOARD

MANCHESTER REGIONAL HOSPITAL BOARD

CONSULTANT PSYCHIATRIST and RESIDENT MEDICAL DIRECTOR

at Brockhall Hospital for the Subnormal, Langho, Blackburn (2,100 beds)

The hospital admits and treats a wide variety of severely subnormal and subnormal patients, including some with psychosis or psychopathy. It provides a consultant service in a mainly industrial community of over a million and a quarter inhabitants, and out-patient clinics are being developed. The major portion is modern (built 1937-40) and is attractively situated within its own estate of 375 acres in the Ribble Valley. Adequate bus services to schools and neighbouring towns.

The Medical Director will be the chief officer for the whole of the therapeutic sphere and will be required to visit general hospitals and other units in a consultative capacity. The appointment is nominally whole-time, but the appointee may elect to be paid on a maximum part-time basis.

Modern centrally heated four-bedroomed house with the usual amenities (rent and rates approximately £140 per annum).

Applicants must have had wide experience and possess the appropriate higher qualifications.

Application forms, from the Senior Administrative Medical Officer to the Board, Cheetwood Road, Manchester 8, to be returned by September 28, 1962.

NEWCASTLE REGIONAL, HOSPITAL BOARD

Applications are invited for the appointment of Registrar from November 1, 1962, for three periods each of eight months in succession at the hospitals—Knowle, Farcham, St. James's, Portsmouth, and Coldeast, Sarisbury, near Southampton.

These appointments afford wide experience in the treatment of all forms of mental and nervous disorder. In addition, there are special opportunities for experience in the Department of Child Psychiatry (in-patients and out-patients) in electro-encephalography, and in neurology whilst at St. James's. Candidates may visit the hospitals by appointment with the Physician Superintendent.

Salary, etc., in accordance with the agreed terms

and conditions of service for hospital medical staff.

Application forms may be obtained from the Group Secretary, Knowle Hospital, Fareham, Hants, to whom they should be returned by September 17, 1962. (6510)

MENDIP HOSPITAL Wells, Somerset

Applications are invited for the appointment of a JUNIOR HOSPITAL MEDICAL OFFICER at the above psychiatric hospital. Salary and conditions of service in accordance with the Whitley Council terms for Hospital Medical Staff.

The post is designed to meet the needs of a junior intending to study for the D.P.M., and all necessary training facilities are available.

An unfurnished house, or single accommodation, available to the successful applicant.

Applications, giving particulars and names and addresses of two referees, to be addressed to the Physician Superintendent, Mendip Hospital, Wells, Somerset.

OAKWOOD HOSPITAL Maidstone, Kent

JUNIOR HOSPITAL MEDICAL OFFICER
(Psychiatry)

Required immediately. Salary £1,100 by £60 (8) to £1,580 per annum. Full residential accommodation is provided for a single officer, charge for which is at present £215 per annum. This is a large progressive Psychiatric Hospital offering Day Hospital facilities. The hospital is within easy reach of London, and is recognized for the D.P.M. Study leave and assistance with travelling expenses in attending approved courses of study can be arranged. Applications, giving full details of training, experience and qualifications, together with the names of two referees, to be sent to the Physician Superintendent, Oakwood Hospital, Maidstone, Kent, forthwith.

PARK PREWETT GROUP HOSPITAL

PARK PREWETT GROUP HOSPITAL MANAGEMENT COMMITTEE NO. 10

Applications are invited for the post of JUNIOR HOSPITAL MEDICAL OFFICER (Psychiatry)

The duties will offer experience with all types of psychiatric cases, neurotic and psychotic, recent and long-stay. The hospital has an admission rate of approximately 1,400 a year. All forms of modern treatment are undertaken. Ancillary departments include two full-time Psychologists, and the hospital is recognized by the London University and Royal Colleges for the Diploma in Psychological Medicine. Clinical conferences are held weekly. There is a good medical library. Arrangements can be made to attend sessions of neurology and child psychiatry; travelling and subsistence will be paid up to three attendances weekly for doctors who study for the D.P.M. (The appointment will, in the first instance, be limited to three years.) Residential accommodation is available for a single person. There are frequent train services from Basingstoke to London (one hour). Candidates may visit the hospital by appointment. Applications, together with the names and addresses of two referees, to be forwarded to the Group Secretary, Park Prewett Hospital, Basingstoke, Hants, as soon as possible.

Terramycine *Trade Mark

gets the results

PATION pooling boding si rosions? A number of reports have shown that Senokot therapy has an important part to play in the treatment of constipation in infants and young children. The following extracts illustrate some typical findings:

"For some years we have used a preparation of senna (Senokot) in the treatment of children with stubborn constipation. The usual dose is one teaspoonful nightly and this is gradually reduced and eventually discontinued. There has been no evidence of habit formation."

"Surgery in Infancy and Childhood," 1958, London, p. 196.

In a study of "The Treatment of Bowel Dysfunction in Infants and Young Children," one thousand cases of infants of two weeks and children of various ages up to five years were investigated. Of sixty cases which did not respond to general measures it was stated:

"Carefully graded doses of standardized senna (Senokot) were found to be of considerable value in establishing normal habits in 58 of these 60 cases. Its action is educative, it is easy to give and liked, and it is cheap."

Practitioner, 1959, 183, 732.

Senokot is half the cost of liquid paraffin and is the most widely prescribed stimulant laxative under the National Health Service.

Senokot

STANDARDIZED SENNA Granules: 56 G. (2 oz.), 170 G. (6 oz.), 900 G. (2 lb.). Tablets: 50, 100, 200, 1000.

THE ROYAL MARSDEN HOSPITAL, IN COL-THE ROYAL MARSDEN HOSPITAL, IN COLlaboration with the Institute of Cancer Research,
has recently formed a Clinical Research Department under the part-time direction of Dr. P. E.
Thompson Hancock, the hospital's senior physician.
The new department will be a meeting ground for
the research interests of the hospital's clinicians
and for the clinical interests of the medical and
scientific staff of the Institute, which will itself
have units working within the department. The
department will provide not only better physical
facilities for the carrying out of research projects,
but improved co-ordination and direction in the
clinical research field.

The research programme will include much of

The research neid.

The research programme will include much of the clinical research work that is now being undertaken, together with several new projects of which the most ambitious is the "Characterization of Human Tumour" programme. This includes a study of the biochemical, histochemical, trace metal, chromosome and karyotype characteristics of the tumours and an attempt at tissue culture; also the sociological background of the patient from whom the tumour came.

The department is at present financed in the

The department is at present financed in the main by a generous grant from the Endowment Funds of the Royal Marsden Hospital. It has also already received a grant from the United States Public Health Service for a specific project, and it is hoped in the future to receive further financial help from the Medical Research Council and the British Empire Cancer Campaign.

COMMERCIAL APPOINTMENTS

CYANAMID OF GREAT BRITAIN LIMITED (LEDERLE LABORATORIES DIVISION) MEDICAL ADVISER

We have an opportunity for a qualified medical practitioner, aged 28-35, to assist the Medical Director in all aspects of the Medical Department's work, and deputise for him, as necessary

His duties would include the preparation of medical information bulletins, initiating and following up clinical trials, and lecturing to sales staff; he would be given every encouragement to develop his own ideas within the general framework of the Department's activities.

The commencing salary will not be less than £2,000 per annum, and employee benefits include the use of a Company car.

If such a prospect is of interest to you, please send brief outline details, in complete confidence, to:

Company Personnel Manager, Cyanamid of Great Britain Ltd., Bush House, London W.C.2.

TRAINING IN PSYCHIATRY AT McGILL UNIVERSITY

The Department of Psychiatry, McGill University, Montreal, has a limited number of openings for training, and applications are now being considered for July 1, 1963.

Applicants must have graduated from an approved medical school and have had a general internship for one year.

The four-year Diploma Course provides general basic preparation during the first two years. The last two years provide special patterns of instruction for those:

- (a) Planning to enter the field of general hospital, community or university psychiatry:
- (b) Preparing themselves for a career in child-psychiatry;
- (c) Intending to enter the field of research

psychiatry.

Credit may be allowed for previous training.

Shorter periods of instruction may be arranged, as well as instruction in special fields.

Training in psychoanalysis also may be undertaken within the Department of Psychiatry by suitably prepared candidates. Separate application for this training is required.

The Department of Psychiatry of McGill University is granted full recognition in respect of the two years' experience required by the regulations for admission to the Diploma in Psychological Mcdicine in England.

All those accepted for training are assigned to

Medicine in England.

All those accepted for training are assigned to one of the eight teaching centres in Montreal. These positions carry with them board and lodging, or, in lieu of lodging, a living-out allowance, together with an honorarium ranging from \$175 to \$300 per month, depending upon the clinical position to which the applicant is assigned. For those in the advanced years of the course, clinical positions carrying higher salaries are often available. In several centres, additional emoluments of \$2,400 a year are available, mainly in the form of bursaries, these being issued subject to certain conditions, information of which will be given on request. request.

Applications should be sent, by December, Chairman, Department of Psychiatry, M University, Montreal, Canada.

Educational and Lectures.-contd.

Calcium-SANDOZ Effervescent Tablets

in osteoporosis

of postmenopausal

or senile origin

"Studies are reported here
which suggest that calcium deficiency
is an important factor in many cases
of postmenopausal and senile osteoporosis.

Many patients with these forms
of osteoporosis absorb and retain calcium
abnormally avidly when on a high calcium
intake in the form of supplements
(calcium gluconate Sandoz),
and moreover may continue
to retain it avidly for at least
three and a half years.

Symptoms of the disease are relieved
and no further fractures take place."

Lancet (1961) 1, 1015

Calcium-Sandoz Effervescent Tablets (orange-flavoured):
calcium gluconogalactogluconate
(equivalent to 4 g. calcium gluconate)
and 20 mg. ascorbic acid

2 to 5 effervescent tablets daily
