ALDOMET

Regd

METHYLDOPA

a significant advance in the treatment of hypertension

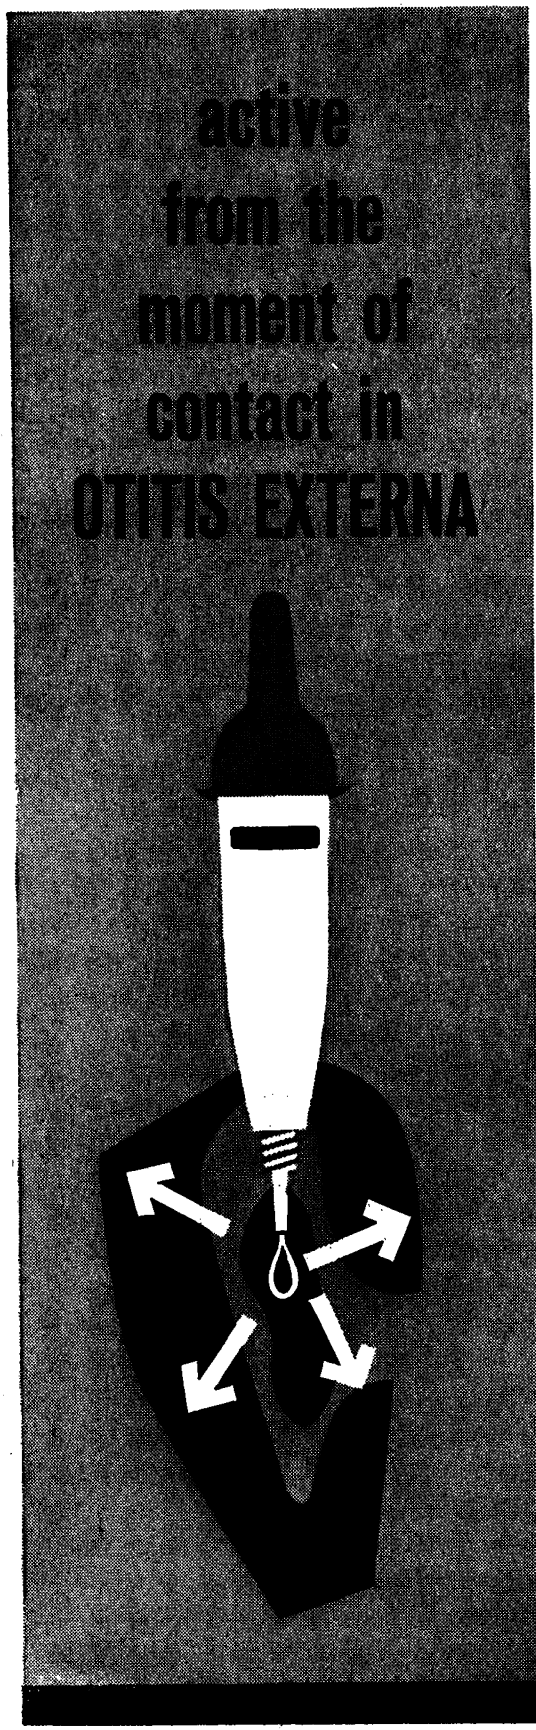

Evidence as to the clinical efficacy of ALDOMET continues to appear in the medical press. To date, eight publications have appeared in British journals. (The complete bibliography on ALDOMET numbers over sixty papers.)
These reports give independent confirmation of the advantages of ALDOMET—in brief, reduction of lying as well as standing blood pressure, with less exertional hypotension and less diurnal fluctuation than hitherto, simplicity of administration and general lack of severe side effects.

for the simpler management of hypertension

ALDOMET is supplied as yellow, film-coated tablets containing 250 mg. methyldopa. Detailed information on dosage, administration, indications, precautions and bibliography is available on request.

ALDOMET is a product of Merck Sharp & Dohme research and is made in England by

Immediately Betnesol-N touches the skin its anti-inflammatory, anti-bacterial action starts to take effect. Betnesol is betamethasone phosphate, a soluble form of this new steroid developed in Britain by Glaxo Laboratories. In Betnesol-N it is combined with the effective topical antibiotic neomycin for use when bacterial infection is present or suspected.
Being soluble and active in low concentrations Betnesol-N is most effective for topical use. Presented in the unique dropule pack developed by Glaxo to make application easier and ensure that every drop of solution is used, Betnesol-N is the immediate, effective and economical treatment for otitis externa.

alidine regd.

a new analgesic for the treatment of severe pain and with some advantages over morphine and pethidine.

alidine is Duncan Flockhart's brand of Anileridine, a synthetic substance closely related to pethidine. It has advantages over pethidine in being more active, and fully effective when given by mouth. It has less tendency than morphine to produce nausea and vomiting and it is not constipating.

A paper (*J.A.M.A. 1958*), reporting the use of anileridine in 632 patients, states that mental side-effects were rare, even in the elderly, and that tolerance seemed to develop more slowly and to a less extent than with morphine or pethidine.

alidine may, therefore, be used whenever a potent morphine-like analgesic is needed.

Durex Gossamer and the post-partum period

The new, pre-lubricated protective—Durex Gossamer—is advocated by many gynaecologists and obstetricians, as an important adjunct to the treatment of certain abnormal vaginal conditions.

A most important application of the Durex Gossamer is in preventing an exacerbation—*during coitus*—of the inflammation and discomfort which frequently accompanies the post-partum period, vaginitis and leucorrhea. Furthermore, this type of protective is recommended where insufficient vaginal secretion is manifest, as in early marriage, frigidity and menopausal atrophy.

Where there is risk of transferring infection, Durex Gossamer has been shown to reduce the incidence of vaginal infection during the post-partum period.

But the outstanding advantage of Durex Gossamer is the confidence it instils, and the comfort it provides during the post-partum period. The physician and patient know it to be an effective and reliable contraceptive.

CLIMATE AS PLANNED

Cool and calm, (under hot arc lights), a surgeon works without pause. In Maternity a baby takes a first breath of clean, temperature-right air. Patients sleep in an atmosphere that makes sleeping easier. In wards, in labs, in store-rooms, in therapy departments, people, equipment and supplies are better for an ideal, controlled, dehumidified climate. This is Chrysler Airtemp in action. Chrysler Airtemp: the world's finest, more reliable Air Conditioning Equipment... to create a planned climate.

PACKAGED UNITS: neat, compact almost silent self-contained units in the 3 through 35 h.p. range. A 3 h.p. model takes up only 20" x 35" floor space. Or where necessary.

SPLIT SYSTEMS: the Air Handling Unit Section is incorporated in or adjacent to the area to be conditioned, with remote Water or Air Cooled Condensing Units.

SPECIAL PROBLEMS—SPECIALIST ADVICE Two main considerations are involved in Hospital Air Conditioning: creating the ideal climate for the well-being of patients and staff, and meeting the highly-specialised climatic requirements of each separate section and department. Please contact our free Advisory Service which will be pleased to help solve both these problems.

"one immense negative"

"I don't know if my gloomy mood will ever leave me . . this earth seems to me a purgatory for divine spirits who have been assailed by sinful thoughts. I feel that our world has become one immense Negative, and that everything noble, beautiful and divine, has turned itself into a satire."

Thus, Fyodor Dostoievsky in a letter to his brother Michael.

In the treatment of depression—whether reactive, endogenous or atypical—Nardil has proved its lasting value as one of the most effective and versatile antidepressants so far discovered. Nardil does not merely mask depressive symptoms; it seems to modify the basis of depression by a specific action on the brain.

Treatment with Nardil alone is sufficient in a great number of depressive illnesses. In more severe cases it may be given to enhance and prolong the therapeutic effect of ECT.

Each Nardil tablet contains 15 mg. of β-phenylethyl hydrazine (phenelzine) as the dihydrogen sulphate.

SMOKING AND HEALTH

Do you agree with the findings of the Royal College of Physicians' report on smoking in relation to cancer of the lung and other diseases?

If you do, then you must accept the following facts about the nicotine and tars in cigarette smoke:

1. tars are linked with the high incidence of lung cancer
2. nicotine *must* be avoided in thrombo-angiitis obliterans
3. nicotine *can* be damaging in coronary artery disease
4. nicotine *does* affect the heart in many normal people.

Cigarette smoking is not an easy habit to control; but now there is a way to reduce the nicotine and tars in cigarette smoke, without affecting smoking pleasure. How? By smoking through an Aquafilter.

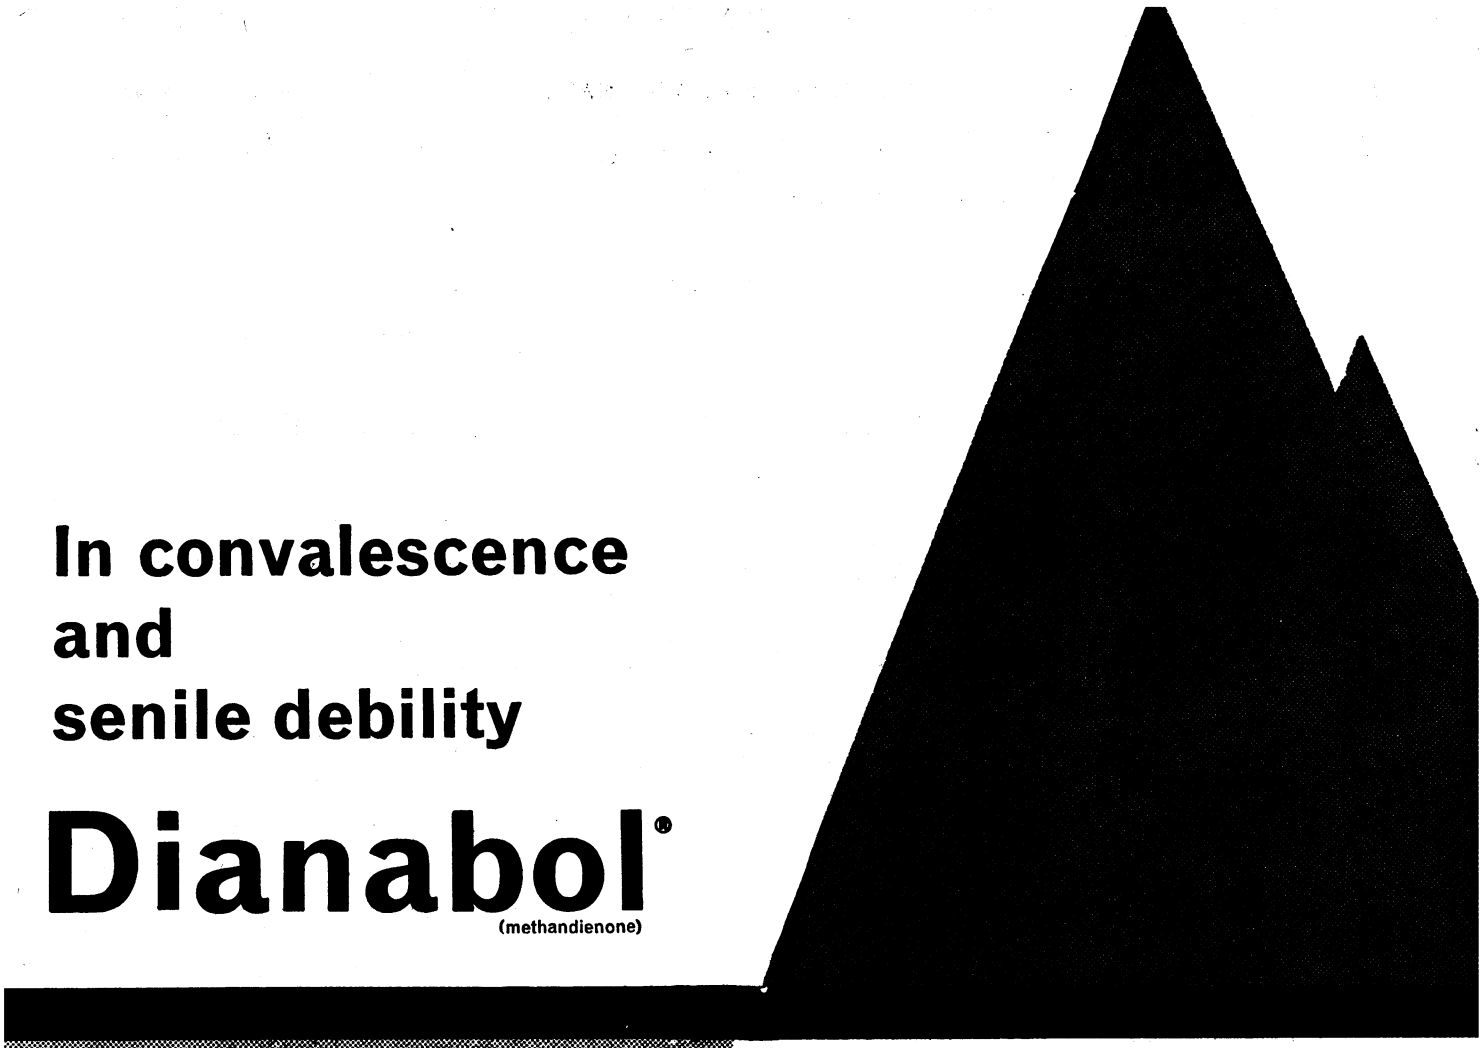

The Aquafilter is a disposable cigarette holder containing a patented filter cartridge of treated fibres which have been *water-activated* (on the principle of the oriental Hookah, which filters smoke through water to remove irritants without affecting tobacco taste).

Independent laboratory tests were conducted on ten of the leading brands of cigarettes, plain and filter-tipped, small, standard and king size (between them accounting for the great majority of all cigarettes smoked in Britain). In these tests, which were made under standardised conditions of smoking as laid down by the Tobacco Manufacturers Standing Committee, the Aquafilter was found to remove an average of 76% of the nicotine and 77% of the tars from cigarette smoke. No significant difference was found in the average elimination percentages between the plain and filter-tipped cigarettes tested.

If you have patients who should give up smoking, but insist that they can't, they should be advised to smoke through an Aquafilter, always.

Details of the actual percentages of nicotine and tars extracted by the Aquafilter from each of the different brands of cigarettes tested are available to doctors on application, together with samples of the Aquafilter. Please write to the address below.

Staphylococcal infections of the respiratory tract

respond to FUCIDIN

Patients who are in hospital for more than seven days tend to become infected with hospital strains of Staph. aureus in their lungs ... The lung is a common primary site of staphylococcal septicaemia ... Staphylococcal bronchopneumonia, or lung abcess, is a common accessory and occasionally a primary factor in death after abdominal operation, or indeed after admission to hospital at all ... A major reservoir of hospital staphylococci, and a possible source of skin and wound infection, is the lungs of patients.'[1]

Doctor's Ditty

"Oh! Guinness is a noble brew,
It's good for me it's good for you,
It's good-for-the-meek, it's good-for-the-bold,
It's good-for-the-young, it's good-for-the-old.
The Doctor says so.

Oh! Guinness is a noble brew,
It goes so well with Irish stew,
With a round of beef or saddle of lamb,
With leg of pork or cold boiled ham.
The Doctor says so.

Oh! Guinness is a noble brew,
Its tonic qualities are true.
It speeds the convalescent male,
And brings back colour to the pale,
The Doctor says so.

Oh! Guinness is a noble brew,
It is unknown to but a few.
And they—poor souls—they must be told
That a Guinness is worth its weight in gold.
The Doctor says so."

ANTIBIOTIC-INDUCED DIARRHOEA*

There is good evidence in continental literature, for which further confirmation is being sought in this country, that this troublesome complication of broad-spectrum antibiotic treatment can be relieved or prevented by administering living antibiotic-resistant *Lactobacillus acidophilus* in the form of ENPAC.

The lactobacilli can be shown to establish themselves and multiply in the bowel, and their presence is inimical to that of pathogens, including, according to some reports, *Salmonella* species, and to *Candida* and staphylococci.

" Patients in hospital who have had an operation, and a course of ' broad-spectrum ' antibiotics, sometimes develop diarrhœa which may be severe and even fatal."—*Lancet* Annotations, 25th February, 1961.

A valuable new treatment

'Tremonil' represents a considerable advance in the control of tremor. This new drug greatly reduces, and in some cases abolishes, Parkinsonian and Senile Tremor. At the same time, 'Tremonil' also decreases rigidity and diminishes the psychic and autonomic disturbances which often accompany Parkinsonism. 'Tremonil' is generally well tolerated, and may when necessary be given concurrently with other drugs which are mainly effective against rigidity.

FORMULA:
Each tablet (scored) contains 5 mg. of:
9-(1'-methylpiperidine-3'-methyl)-thioxanthene hydrochloride.

PACKS and BASIC N.H.S. PRICE:
Tube of 100 tablets 14/- + P.T.
Special hospital packs:

GET THE NEW DUNLOP GRIP ON WINTER ROADS

Here is the tyre that so many people are talking about... the tyre that gives you a totally new road grip as well as new steering control. You can actually *feel* the extra security as you corner, brake or accelerate in wet, slippery conditions!

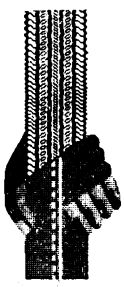

THE FACTS BEHIND THE NEW SAFETY

To drive on Dunlop 'Gold Seal C41' is to enjoy a completely new experience in road-holding and steering control.

● For this 'Gold Seal' has no less than three revolutionary features. (1) The sensational *road-hug* rubber invented and developed by Dunlop for international motor racing; (2) the unique *safety shoulder* and (3) the *safety tread* from the world-famous Dunlop 'Road Speed' tyre.

● The results are well known to *thousands* with cars already fitted with the 'C41 Gold Seal'. Cornering is far more sure and secure in the wet. Braking is better, emergency-stop distances are shorter.

● More, you enjoy a new, accurate steering control over raised white lines, cat's eyes, road-joints, tram line ruts and the like. Squeal is virtually eliminated and tread life increased.

● This is in every respect the finest, *safest* tyre ever produced for the everyday motorist.

● *Give yourself and your family 'Gold Seal' safety from now on. It costs no more! 'Gold Seal C41' is available in black or with slim white sidewalls.*

DUNLOP GOLD SEAL C41

In England now...

... the incidence of frank vitamin deficiency diseases is very low. But there are many circumstances in which sub-clinical deficiency may occur. A vitamin C supplement is generally needed, for example, during growth in prenatal life and infancy.

The simplest and most pleasant way of ensuring an adequate vitamin C intake in such cases is by giving Ribena. This natural product contains 45% of pure blackcurrant juice and provides not less than 20 milligrams of vitamin C per fluid ounce. The energy value is 83 Calories per fluid ounce.

Ribena

a man plays many roles in his everyday, workaday life. He is a motorist, a householder; a family man as well as a professional man. Each role has its own risks; its own special responsibilities. But sound insurance can take care of many of the worries they bring. It means peace of mind in the present and in the future.

Synadrin

Regd. Trade Mark

new compound for the treatment of patients with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments[11-17] and it has been tested in over 1,000 patients[1-10]. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."[1]

Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

ST. ANDREW'S HOSPITAL
FOR NERVOUS AND MENTAL DISORDERS
NORTHAMPTON
President : The Earl Spencer.
Medical Superintendent :
D. J. O'Connell, M.D., D.P.M.
This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fourteen guineas per week. Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc.
WANTAGE HOUSE
This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.
MOULTON PARK
Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.
BRYN-Y-NEUADD HALL
The seaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore.
For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by appointment.
