BROXILE SYRUP RAPIDLY EFFECTIVE PENICILLIN SYRUP

Gives most efficient and rapid clinical results in Gram-positive infections. Palatability and ease of administration are further recommendations for its use in all patients, and it is of particular value to the young, the old and the 'difficult'.

Dosage: 1-2 teaspoonfuls 4-6 hourly

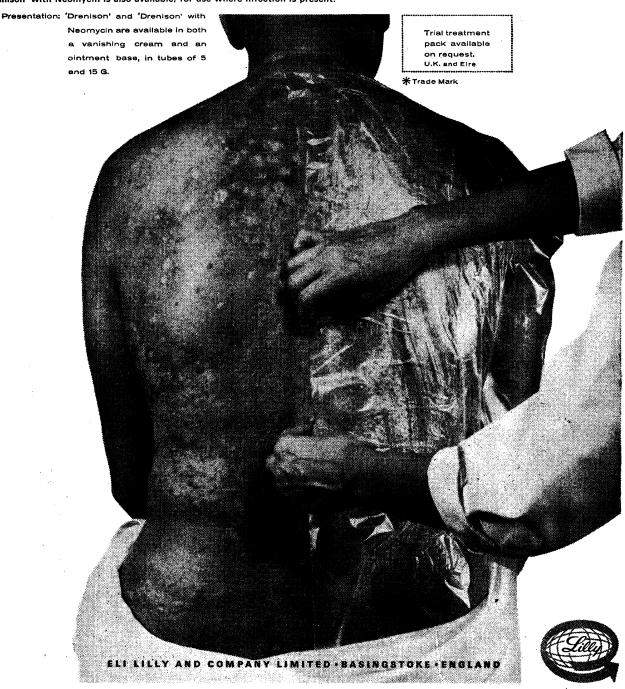

Broxil (potassium phenethicillin) is a product of British research at **BEECHAM RESEARCH LABORATORIES LIMITED** Brentford, England. *Telephone*: ISLeworth 4111

Even in psoriasis...

'DRENISON'*

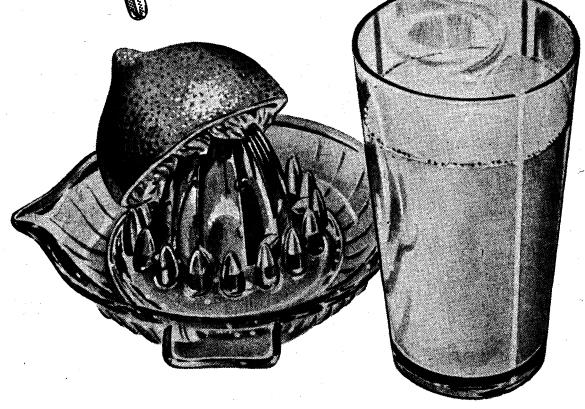

dressings has proved highly successful in the treatment of resistant dermatoses—even in psoriasis. 'Drenison' cream or ointment is applied to the area which is then covered with thin flexible plastic sheeting. This technique facilitates penetration into the skin and hastens recovery. Drenison' with Neomycin is also available, for use where infection is present.

Glucodin

SECROSTERON

DIMETHISTERONE TABLETS

RADE MARK

the established oral progestational agent

Because of the absence of androgenic, anabolic or estrogenic side effects, 'Secrosteron' has become established as the treatment of choice when a pure progestational action is necessary. 'Secrosteron' is orally active and highly potent. There are no side effects and the dosage schedule is low and uncomplicated.

'Secrosteron' is especially indicated in *habitual* and *threatened* abortion. Other indications for Secrosteron include: dysfunctional uterine bleeding, premenstrual tension and subfertility.

Average dosage: 5 mg. three times daily.

THE BRITISH DRUG HOUSES LTD . LONDON N.4

Benger Laboratories Ltd. Holmes Chapel, Cheshire

In chronic bronchitis, bronchial asthma and certain other respiratory disorders one of the known distressing features is bronchospasm. The Prenomiser Plus*, now introduced by Benger Laboratories Ltd., combines in micro-aerosol form isoprenaline sulphate and atropine methonitrate which provide at least three hours relief from one inhalation—far longer than isoprenaline alone.

Average response 74% after 180 minutes

In a report¹ of a recent trial it was stated: "While isoprenaline alone produced its greatest response very quickly the effect might last for only a relatively short time; after sixty minutes the response remaining was, on average, less than 40%...On the other hand, 180 minutes after isoprenaline and atropine methonitrate the average response was still 74%..."

The Prenomiser Plus

The Prenomiser Plus delivers a measured dose containing 0.1 mg. of isoprenaline sulphate and 0.04 mg. of atropine methonitrate in microaerosol form. Systemic side-effects at this very low dose are avoided; occasional dryness of the mouth has been observed in some patients.

The Prenomiser Plus is simple to use, cannot be triggered off accidentally and delivers a constant, standard and predetermined dose of the drugs throughout the life of the container.

Presentation

The Prenomiser Plus is a micro-aerosol presentation of isoprenaline sulphate B.P. 0·1% w/w plus atropine methonitrate B.P. 0·04% w/w in an inert propellant. Each aerosol container provides 200 doses. When empty, the complete unit including mouthpiece, is disposable.

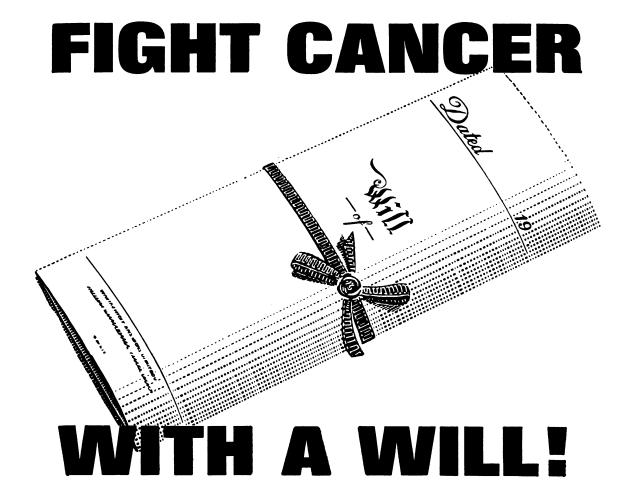

Simple instructions for use are enclosed with each Prenomiser Plus.

Heinz have added 2 exciting new varieties to their famous range of Baby Foods

Egg and Bacon Breakfast (the first 'grown-up' breakfast for a baby) and Vegetables and Bacon add still more variety to the range of Strained and Junior Foods from Heinz. Altogether there are now 57 foods available to mothers! Heinz Strained Foods are suitable for

young babies as young as 11 weeks old, while Junior Foods are recommended for older babies up to the second or third year. Together, they encourage mothers to give their babies a varied diet by offering a wide range of wholesome foods that are nutritious, convenient and economical.

6

IN ASTHMA NEHI

TWO-STAGE ACTION ISO-BROVA TABLETS

PROVIDE IMMEDIATE AND SUSTAINED RELIEF

- Swiftly opens the airway through the rapid bronchodilatory action provided by sub-lingual absorption of the isoprenaline sulphate from the coating of the tablet.
- Keeps the airway open through the sustained bronchodilatory action of theophylline and 'Metheph', provided by normal alimentary absorption of these substances from the core of the tablet.

In ISO-BROVON Tablets, the physician has at his command a valuable combination for the treatment of pulmonary insufficiency. ISO-BROVON Tablets are specially indicated for hypertensive subjects because 'Metheph' (a non-toxic derivative of ephedrine) has a blood pressor action only about one-tenth that of ephedrine.

ISO-BROVON Tablets are issued in bottles of 25 tablets (basic N.H.S. price 3/2, exempt P. Tax).

Each tablet contains :-

For Chronic Discharge of the Ear

RYOTOL Ear Drops are the result of extensive clinical research, following very successful results in the veterinary field.

The formula was developed particularly to combat Ps. pyocyanea, the highly resistant organism which causes abundant pus and which, unaffected by penicillin, sulphonamides and other bactericides, is present in 90% of cases of chronically discharging ears.

RYOTOL is lethal to Ps. pyocyanea and also to Staphylococcus aureus, Proteus vulgaris and Streptococcus pyogenes found in C.S.O.M. and Otitis Externa.

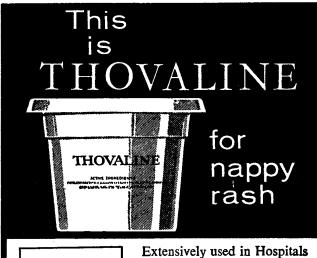

Formula:

Monophenyl ether of ethylene glycol 2.0% v/v
Phenylmercuric Nitrate 0.1% w/v
Phenyl-dimethyl iso-pyrazolone 5% w/v
in a stabilised non-irritant base.

Samples and literature gladly forwarded on request.

NKERTON.

Spray on Thovaline for burns. Now available in aerosol pack.

throughout the country.

ACTIVE INGREDIENTS:

Talc. B.P.C. 7.4%; Kaolin (light) B.P. 3.5%; Zinc Oxide B.P. 21.8%; Cod Liver Oil B.P. 2.15%; Wool Fat B.P. 1.075%.

Write to-day to THOVALINE, Dept. A2, Ilon Laboratories, Hamilton, Scotland, for full information.

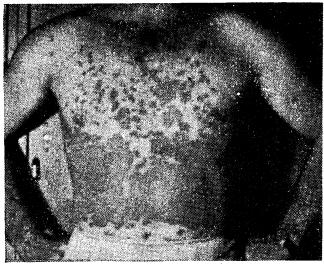

Almost every week fresh evidence is received of Alphosyl's success in even those cases of Psoriasis which have defied all other treatment of years.

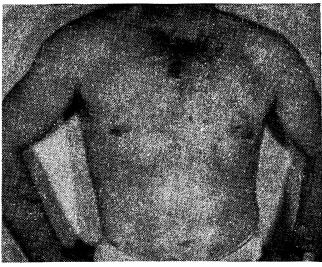

The most recent controlled study showed that in 55 cases out of 62–89% of the group – psoriatic lesions were cleared by 75% to 100% and nearly half of them were completely cleared after use of Alphosyl.

In Alphosyl allantoin and a specially refined coal tar extract are presented together for the first time. This combination not only causes a rapid clearance

of the condition but positively stimulates the healing process. Alphosyl is particularly safe. The fact that potentially hazardous measures—arsenicals, mercury, corticosteroids, x-rays—need not be used, further commends the medication. It can be confidently employed for scalp to toe psoriasis in even the most tender parts of the body. It is non-greasy and non-staining; it vanishes on application and thus is acceptable cosmetically especially for use on the scalp, face, hands or any parts of the body which may be exposed.

Even obstinate cases of Psoriasis yield to Alphosyl—75% to 100% clearance overall

Completely cleared in 6 months: Adult male, Alphosyl therapy initiated 7th June, Marked improvement by 4th August, progressing until skin cleared of all lesions by 6th December.

Psoriasis R. Alphosyl

Formula:

special coal tar extract 5% and allantoin 2% in a smooth non-greasy lotion base.

Alphosyl Lotion

${ m WHY~WE}$ ARE MENTIONING MUCUS

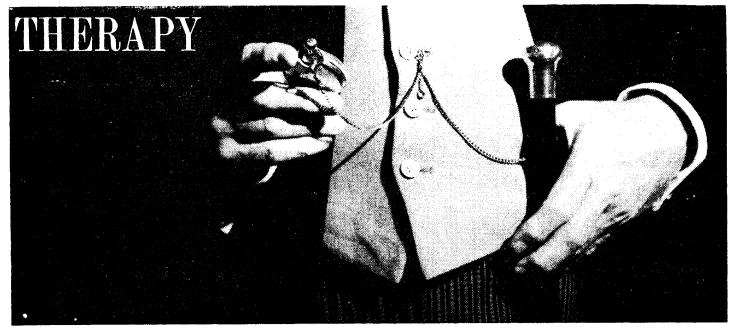

Put an ulcer patient on an anticholinergic drug like Daricon, and two things happen. One—gastric acid secretion is inhibited. Two-and almost as important-gastric juice is rendered more mucoid as a result. What exactly is the rôle of mucus in the stomach? Mucus is adhesive, cohesive, highly viscous, adsorbs pepsin, neutralizes acid.1 And '. . . in the treatment of peptic ulcer, anticholinergic drugs [like Daricon] will have a beneficial effect because of their action on the mucus secretion as well as because of their action on acid secretion'.2

All anticholinergic drugs have this effect, but not all have as prolonged an action as Daricon. Daricon exerts an antisecretory action lasting up to twelve hours. And Daricon is naturally long acting. No need for coatings to prolong its effectiveness.

Certainly Daricon gets results, both in duodenal and gastric ulceration. This is typical of the evidence: 'Good symptomatic responses were achieved and maintained in 77 [of 80] duodenal patients, in all 7 patients with gastric ulcers, in both jejunal patients, and in 5 of those with hiatus hernia and associated peptic oesophagitis. ... Response of ulcer symptoms including severe night pain occurred promptly after initiation of therapy with oxyphencyclimine [Daricon]'.3

NEW DEVELOPMENT IN PROTECTION AGAINST TETANUS

The new 'Wellcome' brand Tetanus Toxoid (Adsorbed) can be administered at the same time as Tetanus Antitoxin (A.T.S.). It has these major advantages:

- * enables an immediate start on actively immunizing a casualty.
- the "follow-up" examination) completes the primary course. Thus the practical difficulty of getting patients to return for completion of primary immunization is overcome.
- primary protection is conferred up to twelve months sooner than with existing routines.
- in casualties with a reliable history of tetanus immunization it is an efficient reinforcement.
- for routine active immunization—it confers complete immunity more efficiently.

Full details and recommended procedures on request.

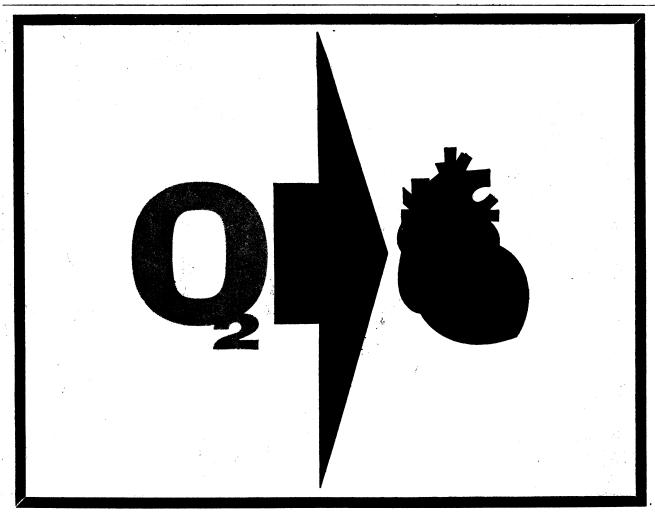

'WELLCOME' TETANUS TOXOID (Adsorbed)

"ANTI-FUNGAL PROPHYLAXIS DURING BROAD-SPECTRUM ANTIBIOTIC THERAPY"

Therapeutic
spectrum of
MYSTECLIN-V
compared to other
antimicrobial
agents

"The danger of superinfection with monilia and other fungi occurring during oral broad-spectrum antibiotic therapy is a real one, especially if dosage is heavy and treatment prolonged.*

For this reason it is a wise precaution to administer an antifungal compound with the broad spectrum antibiotic and both nystatin and amphotericin B have been used for this purpose.

Preparations are available in which one of these anti-fungal drugs is combined with a broad-spectrum antibiotic in a single tablet [capsule] and have much to recommend them."

Diet and Antenatal Care

During pregnancy nutritional deficiencies which may normally pass undetected are liable to produce frank clinical symptoms, as all demands on the maternal organism are increased. Thus fissures at the angles of the mouth may indicate an inadequate supply of vitamins of the B complex, particularly riboflavin. Special attention to the diet is therefore an important part of antenatal care.

Marmite yeast extract is a useful source of all known factors of the vitamin B complex. It is easily incorporated in the diet, as it can be added to soups, stews and other savoury dishes, or spread on bread and butter or hot toast, or taken as a drink in hot water or milk.

yeast extract

The importance of safety

in the Nowhere is safety more important control than in drugs intended for long-term -even life-long-use. One reason for of diabetes the extensive use of Rastinon in oral anti-diabetic therapy is that no serious side-effects are associated with the product even after its use in some two million patients. The few side-effects reported have been transient and have rarely necessitated cessation of treatment.

> Rastinon is the standard oral treatment of diabetes and is especially indicated for patients in whom the condition is first diagnosed at middle age. Rastinon tablets are remarkable for their safety, simplicity,

effectiveness and economy.

PORTABLE 2-FLOW

OXYGEN THERAPY

AND FIRST AID RESUSCITATION SETS

Specially designed for personal use, this set provides an accurately controlled oxygen supply at flow rates of 2 or 4 litres per minute.

The selected flow is obtained simply by turning a clearly marked control knob and the rate of flow is maintained automatically to within very fine limits throughout the life of the cylinder.

Home Office approved oxygen cylinders of 120 or 200 litres capacity are available.

PRIORY LABORATORIES LTD

The new deal for doctors

FULLY REGISTERED PRACTITIONERS can now enter the R.A.M.C. in the minimum rank of Captain earning £2,000 p.a., and rising to £4,000-£5,000 p.a. in the higher ranks.

- * Credit is given for civilian experience: e.g., a candidate with six years' practice would enter as a Major.
- * There is full scope for general-practice work with training to diploma level. Tied quarters are provided for married officers engaged in general practice.
- * There are excellent opportunities for specialisation. Consultants in the higher ranks can earn £4,850 and more.
- * For permanent officers there is an initial (taxable) grant of £1,500, a non-contributory pension scheme, and employment guaranteed to age 65.
- * For short service officers there are terminal taxfree gratuities of £1,500 for three years and £3,000 for five years. Short service commissions may lead to permanent commissions.

DOCTORS IN THEIR PRE-REGISTRATION YEAR can be granted commissions as Lieutenants, being promoted to Captain on full registration, after which they are required to serve for a minimum of three years. Pre-registration appointments may be done in N.H.S. hospitals of choice and there will be no charge for board and lodging. Pay and allowances will amount to a minimum of £848 p.a., with an increase in marriage allowance of £137 p.a. on reaching age 25. Total tax-free terminal gratuity for a three-year short service commission is £1,700 and £3,200 for a five year short service commission.

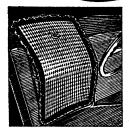

All salary scales quoted above include marriage allowances.

MEDICAL STUDENTS who have passed their second M.B. (or equivalent) may be granted cadetships with a view to permanent or short service commissions. Cadets receive pay and allowances amounting to £871 p.a. Tuition fees are paid, and books and instruments provided.

Further details of terms and conditions of service may be obtained from: The Director General, Army Medical Services, The War Office (HN/11), London S.W.1. Tel: GRO 8040, ext. 740.

Prescription for DRIVING COMFORT

Comfortable and correct posture is of vital importance to motorists. And that is where the K-L SIT-RITE BACK REST scores! Because it provides correct support, it reduces travel fatigue, prevents backache and aids concentration whilst driving by easing tension. Air circulates between the seat and your back, keeping you fresh and cool in summer, relaxed and comfortable all the year round. Available is neutral and coloured patterns—models fobench and bucket seats. Price 49/5 Only the genuine SIT-RITE carries the K-L badge.

PRE-SHAPED ANTI-MIST PANEL

The very latest technical development which makes all previous panels out of date. Neat—simple—effective—the only ANTI-MIST PANEL to be moulded into shape. No cumbersome rubber frame to restrict view. Conforms easily to the curved window—easy to fit—light-weight ensures firm fitting. 35 in. x 14 in., 33/6. 23 in. x 11 in., 15/9. 17 in. x 8 in., 14/6.

PERMANENT

THE ROYAL NAVY offers you MORE

You can serve almost anywhere in almost any field of Naval activity, combining your calling as a doctor with the stimulus of a life as a commissioned officer in the Royal Navy. You could serve in almost any vessel from a frigate to an aircraft carrier, sail with the fleet to the Far East or work with a squadron in the West Indies. You could apply your care to Royal Marines Commandos, among parachutists, frogmen or rock climbers. You could fly with the Fleet Air Arm as a specialist in aviation medicine or investigate the problems of deep diving and advanced submarine development. You could work in a laboratory, hospital or medical school; serve at home or abroad, on shore or afloat; or study any one of a variety of subjects ranging from radio-biology to tropical diseases. And throughout your service as a Naval Medical Officer you would be working with the finest equipment in complete clinical freedom -and perhaps a greater opportunity to exercise your versatility than would ever be possible in civilian life.

YOU CAN ENTER BY ONE OF THREE METHODS All schemes lead to Short Service Commissions of 3-5 years' duration. Holders of such commissions can apply for permanent commissions after one year following appointment as Surgeon Lieutenant.

PAY ON

CDATILITIES

	ENTRY	(tax free) COA	MISSION GRANTS		
As a registered Medical Practitioner in rank of SURGEON LIEUTENANT.	£2,002 p.a. married, over 25	On completion of Short Service Com- mission of 3 years: £1,500; 5 years £3,000	£1,500 (nullifies gratuity)		
As a qualified doctor during pre-registration year in rank of ACTING SURGEON LIEUTENANT.	* £630 p.a. or up to £1,339 with mar- riage allow- ance.	As above plus £200 for pre-registration year in each case.	£1,500 (nullifies gratuity)		
As a medical student under Medical Cadetship in rank of SURGEON SUB-LIEUTENANT.	* £557 p.a.	Following 5 years' S.S.C., up to £2,600 subject to service.	Up to £1,000 subject to service.		
	* These rates of pay to be increased April 1, 1963.				

ALLOWANCES Cover overseas service, rations, lodging, marriage, children's education, U.K. travel, London allowance, etc.

OPPORTUNITIES You can rise automatically to SURGEON LIEUTENANT COMMANDER (£2,304 p.a.) in 5 years or less (civilian experience counts towards seniority). Further promotion, by selection, could take you to the highest ranks in the Medical Branch of the Royal Navy.

1962.—Vincent Collinge, Secretary to the Board.
(5574)-

SERVICES

You can earn £2000 a year on entry in the Royal Air Force

New Conditions for Registered Practitioners

Under a new scheme announced by the Air Ministry, if you are a qualified doctor you can enter the Royal Air Force immediately after full registration and be commissioned as a Flight Lieutenant, earning, with full allowances, £2,000 a year. If you have post-graduate experience you can be granted up to seven years back-dated seniority; a doctor with six years' civilian experience will be appointed Squadron Leader on entry, earning, with full allowances, £2,300 a year.

Tax free gratuities are payable on completion of short service commissions. These are £1,500 after three years or £3,000 after five years.

You can be offered a permanent commission and guaranteed pensionable employment to the age of 65 with excellent prospects of promotion to Group Captain rank and a salary of well over £3,000 a year. If you are married and serving at a Station you may be allocated an official married quarter. This will be a comfortably furnished house near your surgery.

You will have full clinical freedom and your practice will normally include the families of serving members of the Royal Air Force. You will have opportunities for specialising, and study leave is granted on full pay and allowances to permanent officers who wish to read for further qualifications.

'Pre-Registration Year' Scheme

If you are a medical graduate you may be commissioned in the Royal Air Force immediately in the rank of Flying Officer. You may then spend your pre-registration year seconded to a civilian hospital. This means that during your year as house physician or surgeon you may earn, with full pay and allowances, up to £1,339 a year. On registration, you will become a Flight Lieutenant with possible earnings of £2,000 a year. To qualify for this scheme you must undertake to serve for at least three years after full registration. Your pre-registration year counts towards your gratuity following a short service commission and towards retired pay on a permanent commission. The gratuity on completion of a three year commission is £1,500 plus £200 for the full pre-registration year; on completing a five year commission the gratuity is £3,000 plus £200 for the full pre-registration year. These gratuities are tax free.

'Medical Cadetship' Scheme

If you are a medical student and have passed your second M.B. examination or the equivalent you may be commissioned now in the Royal Air Force. During the remainder of your medical training your fees will be paid and you will receive the full pay and allowances of a Pilot Officer which can amount to £1,090 a year.

To qualify for this scheme, you must undertake to serve for at least five years in the Medical Branch of the Royal Air Force after full registration.

At the end of the five years you may enter civilian practice with a tax free gratuity of between £1,400 and £2,600, or you may be selected for a permanent commission which guarantees pensionable employment to the age of 65 and which may take you to the most senior ranks in the Service.

For full information on the new conditions for doctors, specialists, graduates and cadets in the Royal Air Force, write to the Director-General of Medical Services, Air Ministry (M.A.1), (HN 893 S),1 Tavistock Square, London, W.C.1.

COMMERCIAL APPOINTMENTS

MEDICAL ADVISER

Boots Pure Drug Company Limited invite applications from registered medical practitioners for the appointment of a Medical Adviser in their Medical Department. This vacancy has arisen as a result of a promotion within the company. The post is a senior one and the successful applicant must have a keen interest in pharmacology and therapeutics as he will be expected to take an active part in the search for, and investigation of, new therapeutic substances. work will involve close collaboration with colleagues in the Research Department and also with clinicians at home and abroad.

Applicants should preferably be under 40 years of age and must have had several years' hospital experience.

Preference will be given to applicants with special experience in tropical medicine and clinical or laboratory research. higher qualification would be an advantage. There will be ample opportunity for original work, and a part-time clinical assistantship at one of the local hospitals can probably be arranged.

The appointment is permanent and full-time, and the salary will be according to qualifications and experience. The Company operates a contributory pension scheme.

Applicants should forward full details to the Head of the Medical Department, Boots Pure Drug Company Limited, Station Street, Notting-(5837)

ROCHE

Roche Products Limited have a vacancy for a Medical Officer, to be based on their Clinical Research Department at Welwyn Garden City. Some travelling in this country will be necessary in connection with the duties of the post. These are, broadly, to initiate and supervise clinical trials of the products of Roche research.

A good starting salary will be negotiated; this will then be subject to annual review. There is an exceptional pension scheme. Other conditions are also attractive.

Interested registered medical practitioners should write, in confidence, to the Staff Officer, Roche Products Limited, 15 Manchester Square, London W.1.
