

DEFICIENT intestinal bulk is one of the main causes of constipation. In such cases Andrews is particularly useful. It swells the bowel content by osmosis and stimulates peristalsis. In this perfectly natural way, Andrews induces a mild aperient action that does not irritate the intestine.

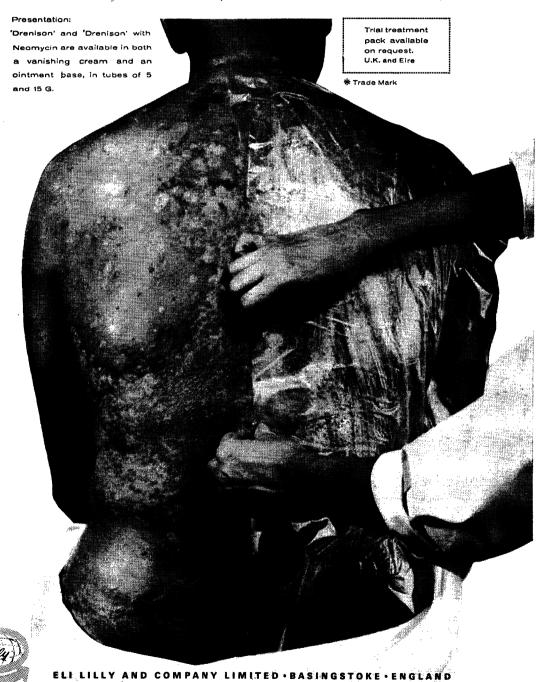

Andrews relieves constipation arising from decreased food intake during illness or restricted diet. It is also mildly antacid and relieves gastric discomfort; it helps to check biliousness and sick headaches. Andrews is readily acceptable because of its pleasant taste and refreshing effervescence.

# Even in psoriasis...

# 'DRENISON'\*

brand Flurandrenolone in conjunction with

occlusive dressings has proved highly successful in the treatment of resistant dermatoses—even in psoriasis. 'Drenison' cream or ointment is applied to the area which is then covered with thin flexible plastic sheeting. This technique facilitates penetration into the skin and hastens recovery 'Drenison' with Neomycin is also available, for use where infection is present.

# Riker

# Medihaler

provides relief in seconds because it is specifically designed to deliver measured doses of premicronised particles directly to the site of action. Over 80% (by weight) of the particles are 2 - 5 microns in diameter — optimum for retention in the lungs.

Treatment with *Medihaler\** costs only ½d per dose because each 15 ml. vial contains 300 doses. One or two doses can provide profound relief in most cases.

# BASIC NHS PRICES

# PHOLTEX

# UP TO TEN HOURS RELIEF FROM ONE TEASPOONFUL THROUGH ION-EXCHANGE RELEASE

# hours of relief from one dose

because *Pholtex* contains *pholcodine* and *phenyltoloxamine* as ion-exchange resin complexes to give smooth and prolonged effect — up to ten hours in many cases.

# more complete relief of unproductive cough

because the cough depressant action of pholocodine is potentiated and reinforced by the antihistaminic and antispasmodic activity of phenyltoloxamine.

# economy of treatment

because a 2 oz. bottle of *Pholtex* contains sixteen doses — enough for one week's treatment.

# dosage

One teaspoonful (4 ml.) at minimum intervals of eight hours—for children: half to full adult dosage according to age.

### composition

Each teaspoonful (4 ml.) contains pholcodine 15 mg. and phenyltoloxamine 10 mg. as resin complexes in a pleasantly flavoured thixotropic vehicle.

# **NEW** from Glaxo TRICLORYL SYRUP

Tricloryl, the new hypnotic/sedative recently introduced in the form of tablets, is now available as a syrup. An outstanding advantage is its sweet orange flavour which makes it remarkably pleasant to take either straight from the spoon or mixed with water. With Tricloryl syrup there is a wide margin of safety, and dosage ranges between half a spoonful for infants to four spoonfuls for adults. After taking the syrup,

most patients become drowsy within 15 to 30 minutes and soon fall into a sound 'physiological' type sleep from which they can be easily aroused if necessary. On awakening they feel refreshed and there is no unpleasant hangover effect. Tricloryl syrupisin 60 ml 'non-spill' bottles with a spoon showing full and half measures. Each spoonful (5 ml) contains 500 mg monosodium triclofos (trichlorethyl phosphate).

GLAXO LABORATORIES LIMITED

The name Tricloryl is a Glaxo trade mark

# What is a 'Parstelin' patient?

The patient suffering from concurrent symptoms of depression and anxiety; the businessman with the tension-fatigue syndrome; the menopausal woman; and the many patients with psychosomatic illness who exhibit symptoms of depression and anxiety. These are your 'Parstelin' patients.

Why 'Parstelin'? Because 'Parstelin' is the antidepressant/ tranquillizer preparation that relieves both depression and anxiety. Because 'Parstelin' acts fast—response is usually seen within 1 to 3 days. And because 'Parstelin' has a balanced action to ensure that the patient's recovery is smooth and unmarred by exacerbation of depression or anxiety.

Literature containing prescribing information is available on request.

# PARSTELIN

provides swift symptomatic relief when depression is complicated by anxiety

But when your patient is suffering from depression—without anxiety symptoms—'Parnate' is the preparation of choice. 'Parnate', the antidepressant component of 'Parstelin', is specific for depression.

Each 'Parstelin' tablet contains 1 mg. 'Stelazine' (brand of trifluoperazine) and 10 mg. 'Parnate' (brand of tranylcypromine). In containers of 50 and 500.

ergotamine alone is not enough

To combat an incipient attack of migraine, oral ergotamine alone is inadequate. It needs the potentiating effect of caffeine. Above all, it needs a rapidly acting anti-emetic to counter its main defect as well as the vomiting resulting from migraine itself.

'Migril' contains every one of the necessary ingredients—ergotamine tartrate, caffeine, and the proven anti-emetic cyclizine hydrochloride. 'Migril', the ever-present companion of thousands of migraine sufferers, is their reliable insurance against an attack.

# ALDOMET

METHYLDOPA

# a significant advance in the treatment of hypertension

Evidence as to the clinical efficacy of ALDOMET continues to appear in the medical press. To date, eight publications have appeared in British journals. (The complete bibliography on ALDOMET numbers over sixty papers.)

These reports give independent confirmation of the advantages of ALDOMET—in brief, reduction of lying as well as standing blood pressure, with less exertional hypotension and less diurnal fluctuation than hitherto, simplicity of administration and general lack of severe side effects.

# for the simpler management of hypertension

ALDOMET is supplied as yellow, film-coated tablets containing 250 mg. methyldopa. Detailed information on dosage, administration, indications, precautions and bibliography is available on request.

ALDOMET is a product of Merck Sharp & Dohme research and is made in England by
MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

# one immense negative"

"I don't know if my gloomy mood will ever leave me..this earth seems to me a purgatory for divine spirits who have been assailed by sinful thoughts. I feel that our world has become one immense Negative, and that everything noble, beautiful and divine, has turned itself into a satire."

Thus, Fyodor Dostoievsky in a letter to his brother Michael.

In the treatment of depression—whether reactive, endogenous or atypical—Nardil has proved its lasting value as one of the most effective and versatile antidepressants so far discovered. Nardil does not merely mask depressive symptoms; it seems to modify the basis of depression by a specific action on the brain.

Treatment with Nardil alone is sufficient in a great number of depressive illnesses. In more severe cases it may be given to enhance and prolong the therapeutic effect of ECT.

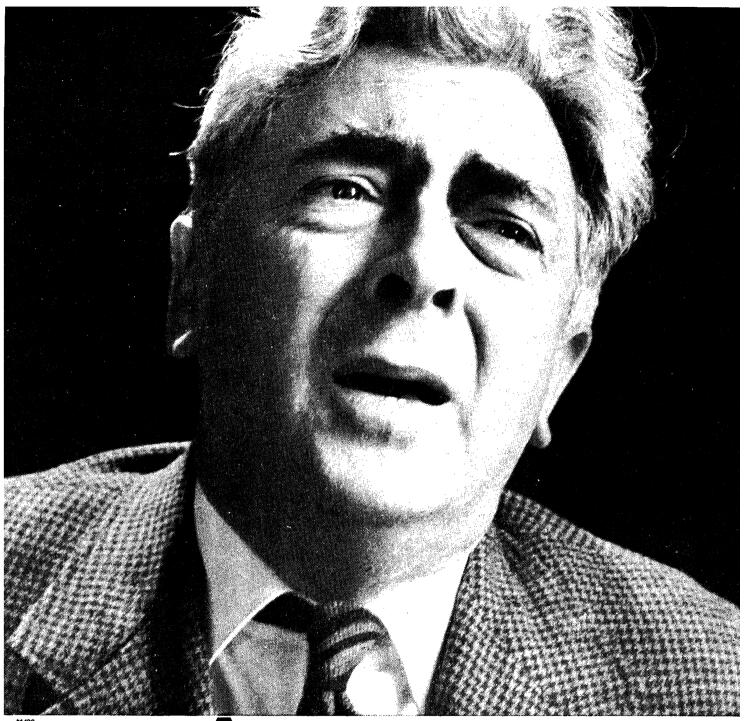

Each Nardil tablet contains 15 mg, of  $\beta$ -phenylethyl hydrazine (phenelzine) as the dihydrogen sulphate.

# Nardil strikes depression at its blackest root

# **NARDIL**

Asmac WANDER

# for comprehensive relief of bronchial asthma

'Asmac' Tablets provide symptomatic relief of the bronchial tree both during actual dyspnoeic attacks of bronchial asthma, and during remissions. In a single prescription, 'Asmac' Tablets comprise well-established drugs recognized for their reliability to effect bronchodilatation, decongestion, expectoration, mental sedation. Thus, with 'Asmac' Tablets, treatment of the respiratory disturbances, and of the psychic factor recognized to precipitate them, can be carried out at one and the same time.

FORMULA PER TABLET:
Aminophylline B.P 150 mg
Ephedrine hydrochloride B.P 15 mg.
Ipecacuanha liquid extract B.P 0.02 ml.
Allobarbitone B.P.C 30 mg.
Caffeine B.P 100 mg.
DOSAGE: Schedule 4A
Adult single dose 1 tablet; up to 2 tablets in
severe cases as ordered by the physician.
Maximum dosage: 6 tablets in 24 hours

PRESENTATION AND BASIC N.H.S. PRICE:

# Counteracting protein loss in the elderly

In the elderly, the lack of interest in food is both cause and result of failing energy and vitality.

ORABOLIN ensures full use of such nitrogen as is available in the food, thus counteracting body protein loss; the renewed vigour and appetite lead to improved independence and gain in weight.

ORABOLIN is effective in doses as low as 0.05 mg. per kilo body weight, well tolerated and free from liver toxicity or other harmful effects.

DOSAGE

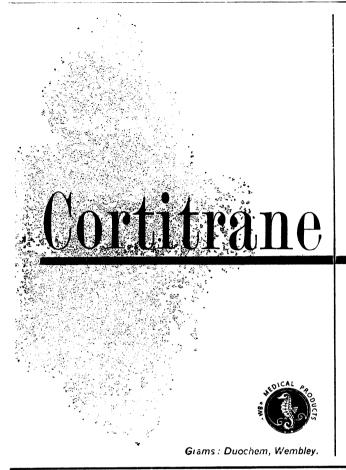

FORM AND PACKS

1 to 2 tablets daily. Scored tablets containing: 2 mg. ethylestrenol. Bottles of 25 and 100

# (Penotrane/prodnisolone)

for monilial and bacterial infection of the skin.

### **Monilial Infections**

The frequency of monilial infections has increased markedly in recent years. The present widespread use of antibiotics may be partly responsible for this.

In dermatology Monilia is commonly found in association with intertrigo and napkin rash.

Clinical response to Cortitrane is usually rapid. Any concurrent or secondary bacterial infection responds at the same time.

### **Bacterial Infections**

Cortitrane clears superficial bacterial infections both gramnegative and gram-positive. Any concurrent or secondary monilial infection responds at the same time. The sensitivity reactions which sometimes occur with topical antibiotics are very seldom seen with Cortitrane. Resistant bacteria have not been encountered.

Cortitrane contains 0·1 % Penotrane (hydragraphen), a penetrating antiseptic, the activity of which is not impaired by the presence of serum or pus, and 0·25 % Prednisolone, a weli-tried and effective corticosteroid.

# THE ROYAL NAVY offers you MORE

You can serve almost anywhere in almost any field of Naval activity, combining your calling as a doctor with the stimulus of a life as a commissioned officer in the Royal Navy. You could serve in almost any vessel from a frigate to an aircraft carrier, sail with the fleet to the Far East or work with a squadron in the West Indies. You could apply your care to Royal Marines Commandos, among parachutists, frogmen or rock climbers. You could fly with the Fleet Air Arm as a specialist in aviation medicine or investigate the problems of deep diving and advanced submarine development. You could work in a laboratory, hospital or medical school: serve at home or abroad, on shore or afloat; or study any one of a variety of subjects ranging from radio-biology to tropical diseases. And throughout your service as a Naval Medical Officer you would be working with the finest equipment in complete clinical freedom -and perhaps a greater opportunity to exercise your versatility than would ever be possible in civilian life.

YOU CAN ENTER BY ONE OF THREE METHODS All schemes lead to Short Service Commissions of 3-5 years' duration. Holders of such commissions can apply for permanent commissions after one year following appointment as Surgeon Lieutenant.

PAY ON

	ENTRY	(tax free)	GRANTS
As a registered Medical Practitioner in rank of SURGEON LIEUTENANT.	£2,002 p.a. married, over 25	On completion of Short Service Com- mission of 3 years: £1,500; 5 years £3,000	£1,500 (nullifies gratuity)
As a qualified doctor during pre-registration year in rank of ACTING SURGEON LIEUTENANT.	* £630 p.a. or up to £1,339 with mar- riage allow- ance.	As above plus £200 for pre-registration year in each case.	£1,500 (nullifies gratuity)
As a medical student under Medical Cadetship in rank of SURGEON SUB-LIEUTENANT.	* £557 p.a.	Following 5 years' S.S.C., up to £2,600 subject to service.	Up to £1,000 subject to service.

\* These rates of pay to be increased April 1, 1963. **ALLOWANCES** Cover overseas service, rations, lodging, marriage, children's education, U.K. travel, London allowance, etc.

**OPPORTUNITIES** You can rise automatically to SURGEON LIEUTENANT COMMANDER (£2,304 p.a.) in 5 years or less (civilian experience counts towards seniority). Further promotion, by selection, could take you to the highest ranks in the Medical Branch of the Royal Navy.

# UNIVERSITY AND RESEARCH **APPOINTMENTS**

# IMPERIAL CHEMICAL INDUSTRIES LIMITED INDUSTRIAL HYGIENE RESEARCH LABORATORIES There will be a vacancy in these laboratories in the second half of 1963 for a Medical Pathologist

with some years of experience. Applicants should be medically qualified men, preferably with a science degree. Some experience in the experimental field would be an advantage and an interest in and a desire to do experimental work is essential. The work is in the rapidly developing field of Industrial Toxicology, and provides a succession of problems of scientific interest. The department, which is controlled by a senior medical pathologist, is expected to be a developing one. The laboratories, which are at present being built, and which will be completed in the second half of 1963, are in pleasant though not isolated rural surroundings in Cheshire, and will be among the most up-to-date and well-equipped in the country.

There is a Staff Pension Fund and Profit-sharing Scheme, and some help may be given to a married man with housing and removal expenses.

Please apply, with brief details, to the Staff Manager, Head Office, Staff Department, Imperial Chemical Industries Limited, Millbank, London S.W.1.

### THE UNIVERSITY OF MANCHESTER

Applications are invited from persons with medical qualifications registrable in this country for a second full-time post of LECTURER IN CHILD HEALTH in the Department of Child Health. # ROYAL COLLEGE OF PHYSICIANS AND SURGEONS OF GLASGOW Notice to L.R.F.P.S., L.D.S. and other Diplomates of the Royal Faculty of Physicians and Surgeons of Glasgow

of Glasgow

The name of the Royal Faculty has now been changed by Act of Parliament to "Royal College of Physicians and Surgeons of Glasgow." New licentiates and diplomates will belong to the College and their diplomas and degrees will be so worded. Licentiates in Medicine and Surgery or in Dentistry and all other diplomates admitted before the change of name (December, 1962) will remain licentiates or diplomates of the Royal Faculty. It will therefore not be processary for such licentiates will therefore not be necessary for such licentiates or diplomates to alter their title or style in any way and no change in registration need be made. This will in no way affect the professional status or rights of such licentiates or diplomates whose registrations will remain in the appropriate register. registrations will remain in the appropriate register unaltered. As at present contemplated, the licentiates will continue to have the same rights in respect to the College as they enjoyed in the Faculty.—C. F. W. Illingworth, President, 242 St. Vincent Street, Glasgow C.2.

# DRUGS IN THE TREATMENT OF DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the British Medical Journal, the book presents an up-to-date, indexed, authority on medicinal treatment —of considerable help to the doctor in choosing the best drug for his patient.

Medium 8vo.

570 pages.

Price 36s. 9d. by post (cover price 35s.)
