

eating is a serious business...

Heinz have all day to take care of a baby's meals

No mother could take more trouble over a baby's meals than Heinz. More important, no mother can spare so much time! But Heinz have all day to plan, prepare and cook for the nursery. And the well-balanced diet they serve up covers so many of the essentials a baby needs: the nourishment, the proteins, the good fresh tastes.

Heinz, above all, give a baby an exceptionally *varied* diet. (There are now over 57 different Baby Foods—Strained and Junior.) Sun-

ripened fruits and vegetables. Juicy tomatoes. Best cuts of meat. Plump farm chickens. Fish, eggs, cheese, butter, milk . . . What mother could cherish her child with wonderful summery foods like this all year round? Only a Heinz mother! Which is why a Heinz mother and baby get the best of all worlds.

If you would like further information about Heinz Strained and Junior Foods, please write to: Food Science Advisory Service, H. J. Heinz Co. Ltd., Harlesden, London N.W.10.

Lomotil

BRAND OF DIPHENOXYLATE HYDROCHLORIDE with atropine sulphate

prompt and safe symptomatic relief from diarrhoea

LOMOTIL is a non-specific remedy for the treatment of diarrhoea which acts rapidly, effectively and safely.

It is recommended as a first line of treatment in diarrhoea, enabling the physician to reserve antibacterial agents for the treatment of diarrhoea due to pathogenic organisms. Thus immediate recourse to sulphonamides and antibiotics in diarrhoea can often be avoided.

LOMOTIL acts by reducing excessive gastro-intestinal motility.

LOMOTIL has been subjected to widespread clinical trials and is already firmly established in the United States and Europe as a major therapeutic measure in the treatment of diarrhoea.

Although LOMOTIL is distantly related to pethidine it has no analgesic action at therapeutic dose levels. Its addiction potential is comparable with that of codeine.

A sub-therapeutic amount of atropine sulphate is, however, included to discourage over-dosage.

- Reduces the frequency and fluid nature of the stool
- Diminishes abdominal cramping
- Controls diarrhoea safely and rapidly in many patients in whom other drugs have proved inadequate
- Enables the physician to reserve sulphonamide and antibiotic therapy for those conditions where such treatment is necessary and may be life-saving

A Brilliant New (11th) Edition

of the world famous

CECIL AND LOEB'S TEXTBOOK OF MEDICINE

The W. B. Saunders Company are pleased to announce the imminent publication of this new edition of Cecil's Medicine, edited this time by Paul B. Beeson, of Yale, and Walsh McDermott of Cornell.

There are 67 new contributors to this edition, new emphasis on pathological physiology, new disease entities discussed—but the basic philosophy of this classic textbook remains unchanged. Its aim, as in previous editions, is to provide students and practitioners with accurate and detailed descriptions of the disease entities they will encounter in the broad compass of internal medicine.

Other changes in this New (11th) edition include: a completely new section on genetics and genetic diseases—significant expansion in the section on viral diseases—reorganisation and expansion of the sections on broncho-pulmonary disease and gastroenterology—a brilliant new foreword on nucleic acids, genes, viruses and immunity.

Cecil-Loeb's Textbook of Medicine, by 173 American Authorities. Edited by Paul B. Beeson, Ensign Professor of Medicine, Yale University; and Walsh McDermott, Livingston Farrand Professor of Public Health, Cornell University. Available either as a single volume or two-volume set.

A copy of this book can be seen on Stand No. 31.

Single Volume £6 16s. 6d.

Two-volume Set £8 4s. 6d.

W. B. SAUNDERS COMPANY LIMITED

12 Dyott Street, London, W.C.1

The Exhibition of Pharmaceutical Products, Instruments Appliances and Medical Publications held every year in conjunction with the B.M.A. Meeting will be opened on July 15 in University Parks at the rear of the University Laboratory of Physiology, Oxford, by Sir George Pickering, President of the British Medical Association for 1963-64.

This year 33 firms or organizations will be exhibiting and many more would have been included but, unfortunately, the amount of room available is very limited. Nevertheless, there will be a wide range of products and services, including the latest drugs and treatment, new and forthcoming books and publications, diagnostic instruments and surgical equipment.

While in Oxford . . .

Advice is freely given by the Medical Insurance Agency, Ltd., on all insurance and many financial problems, and with Branches in most parts of the country it renders to members of the medical profession a personal service of a wholly unbiased character. In Oxford there is a Branch Office and the Manager—Mr. D. G. Guest—will be pleased to help with insurance problems, and advise on house purchase and car and equipment hire purchase.

BRITISH MEDICAL ASSOCIATION

Meeting, Oxford, July 15-18

This Exhibition, which has been a much appreciated feature of the Meeting for many years, provides an opportunity for doctors to see much that is new or has only recently been introduced by the Industry together with many well-established products.

An occasion of this nature is particularly helpful to everyone as it is an excellent opportunity for the discussion of any problems that have arisen and an interchange of information and ideas in a friendly but appropriate atmosphere away from the cares of surgery or hospital.

The Exhibition is well situated as it shares an area of marquees with the Scientific Exhibition, Registration Bureau and the bar and buffet.

a new antacid palatable effective economical

Alcin is a new antacid offering several important advantages. It provides safe and effective treatment of symptoms associated with gastric hyperacidity and peptic ulceration.

Palatability Having an absence of chalkiness and an agreeable flavour, Alcin is non-nauseating.

Buffering Activity Alcin not only rapidly neutralises excess acid, but at the same time its sustained buffering activity maintains the level of acidity of the gastric contents within the desired range.

Safety Alcin is safe for prolonged administra-

tion. There is no risk from overdosage as Alcin cannot cause either alkalosis or acid rebound.

No Digestive tract ill-effects Alcin has no known laxative or constipating effects.

Economy Alcin is economical in use. The basic N.H.S. cost of 50 tablets is 1/9½d.

Composition: Each tablet contains 360 mg. anhydrous co-prepared sodium magnesium aluminium silicate and basic magnesium aluminate.

AN ORAL DIURETIC
OF HIGH POTENCY,
LONG DURATION
OF ACTION, AND
LOW TOXICITY

Enduron is the Abbott trade mark for methyclothiazide, a new oral diuretic agent. Chemically, Enduron is a member of the thiazide family of diuretics.

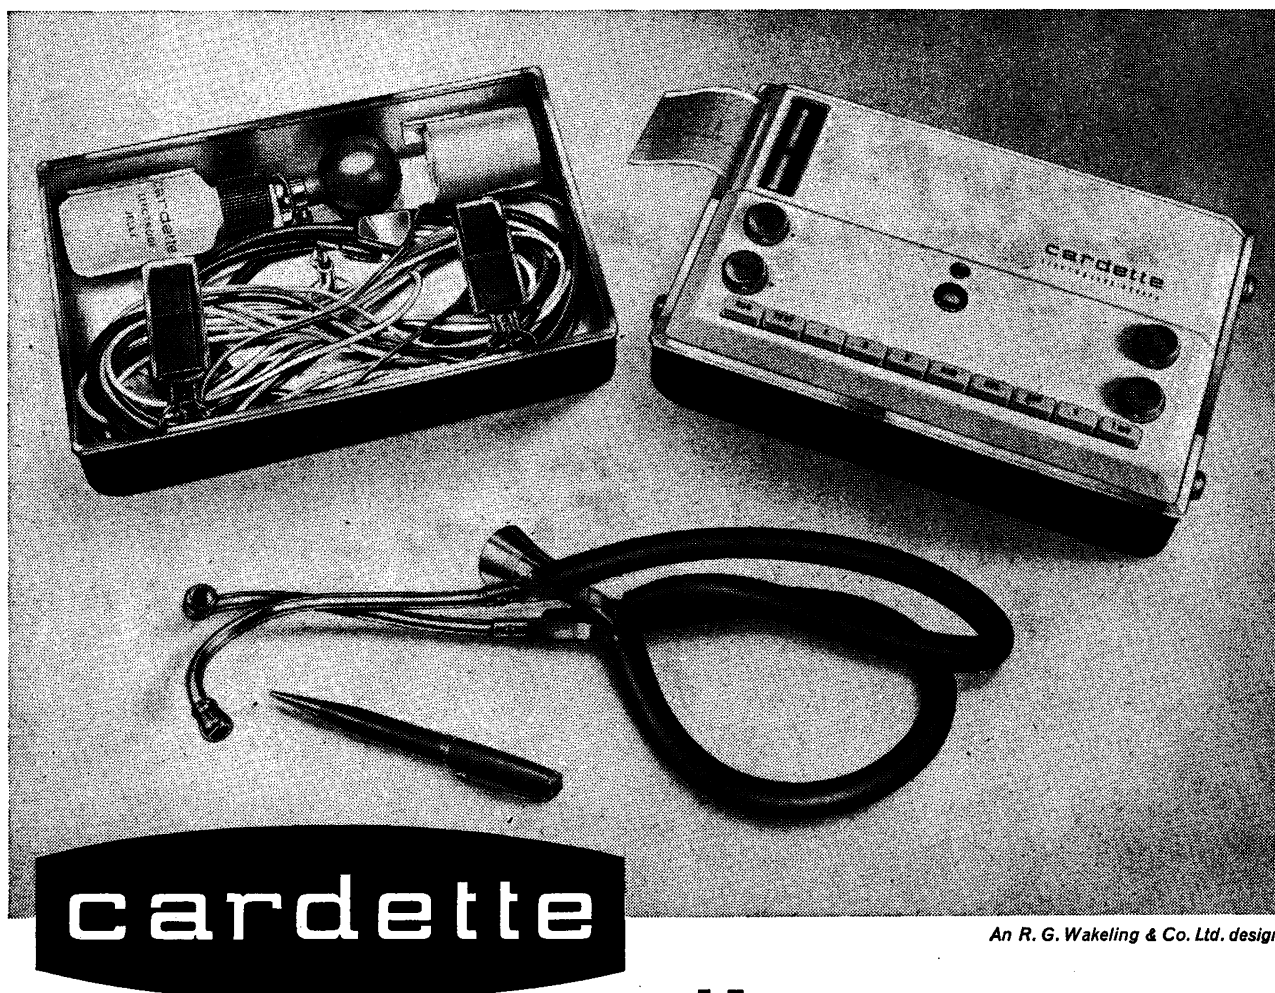

The predominant effects of Enduron are diuresis, natruresis, and chloruresis. Serum potassium levels are little affected. Although the excretion of sodium is greatly enhanced, the excretion of potassium is not increased proportionally. Consequently, potassium depletion infrequently presents a problem in patients treated with Enduron. Clinically Enduron offers several important advantages when compared with the older thiazides: Enduron is highly potent; 10 mg. produce as great a natruresis as the peak effect of any available thiazide. Enduron has a duration of effect of at least 24 hours—longer than most thiazides—affording satisfactory therapy with one dose daily.

Enduron leads to greater sodium excretion per unit of potassium excreted and to less total potassium loss than many other thiazides.

2.5 mg. Enduron tablets are available in bottles of 25 and 100. 5 mg. Enduron tablets also in bottles of 25 and 100. Basic NHS prices 3/9 and 6/9 per 25.

METHRAL* OINTMENT

brand of flupersolone acetate

*Trade Mark

The quality that singles out Methral from other topical steroids is not so much its anti-inflammatory activity; this is indeed impressive, but what really distinguishes Methral is its speed of onset of action in pruritus. In this respect, it is superior to hydrocortisone. Moreover, in terms of reducing erythema, size of lesion and exudate formation, Methral achieves an outstanding security of response. It is this speed of action, this security of response, that thrusts Methral to the very forefront of today's topical steroids.

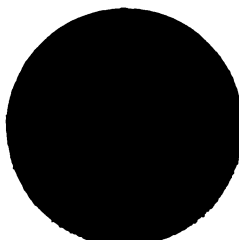

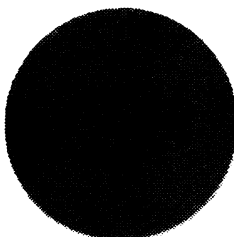

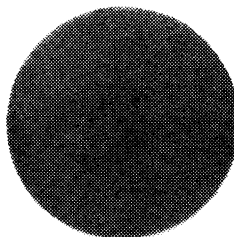

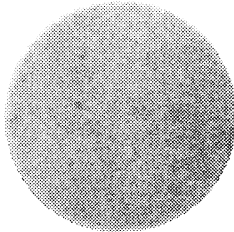

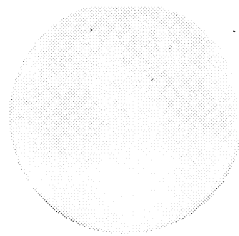

'... clinical evidence demonstrates that the flupersolone [Methral] relieves pruritus more rapidly than hydrocortisone, and has a quicker onset of action.'

Synadrin[®] for the patient with angina pectoris

Regd. Trade Mark

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments¹¹⁻¹⁷ and it has been tested in over 1,000 patients¹⁻¹⁰. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."¹

Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

Dosage

Treatment may be initiated with 2 tablets, three times daily, reducing after three days to a maintenance dosage of 1 tablet two or three times daily.

Presentation

Synadrin is presented as tablets, each containing 15 mg. of prenylamine lactate in bottles of 30 and 150 at basic NHS prices of 8/8d. and 34/8d. (subject to P.T.). Synadrin is known in some other countries as Segontin.

Long and comprehensive experience has fully demonstrated the value of Dettol in general practice, obstetrics and surgery.

It is well-tolerated on the skin and tissues in high concentrations.

It is an efficient bactericide :—

Dettol will destroy the following organisms in 10 minutes at 20 degrees C. in the dilutions given:—

Staph. aureus:	I in 200
S. typhi:	I in 350
Strept. pyogenes:	I in 500
Bact. coli:	I in 250
Ps. pyocyanea:	I in 40
Myco. tuberculosis:	I in 200
Sh. shigae:	I in 400

Different strains can vary widely in resistance, but the figures quoted are representative.

Dettol efficiency is well maintained in the presence of organic material.

A dilution of 1 in 50 will kill Staph. aureus in the presence of 25% blood in 5 minutes.

It is compatible with soap.

“Unlike the other antiseptics, Dettol appeared to have its activity increased by the presence of soap, and against Staph. pyogenes the effect was one of true synergism.” (British Medical Journal, 28th July, 1956.)

It is non-poisonous.

It does not stain linen, etc.

It is stable in solution.

Surgical Dettol, Orange, Blue or colourless — For pre-operative skin preparations.

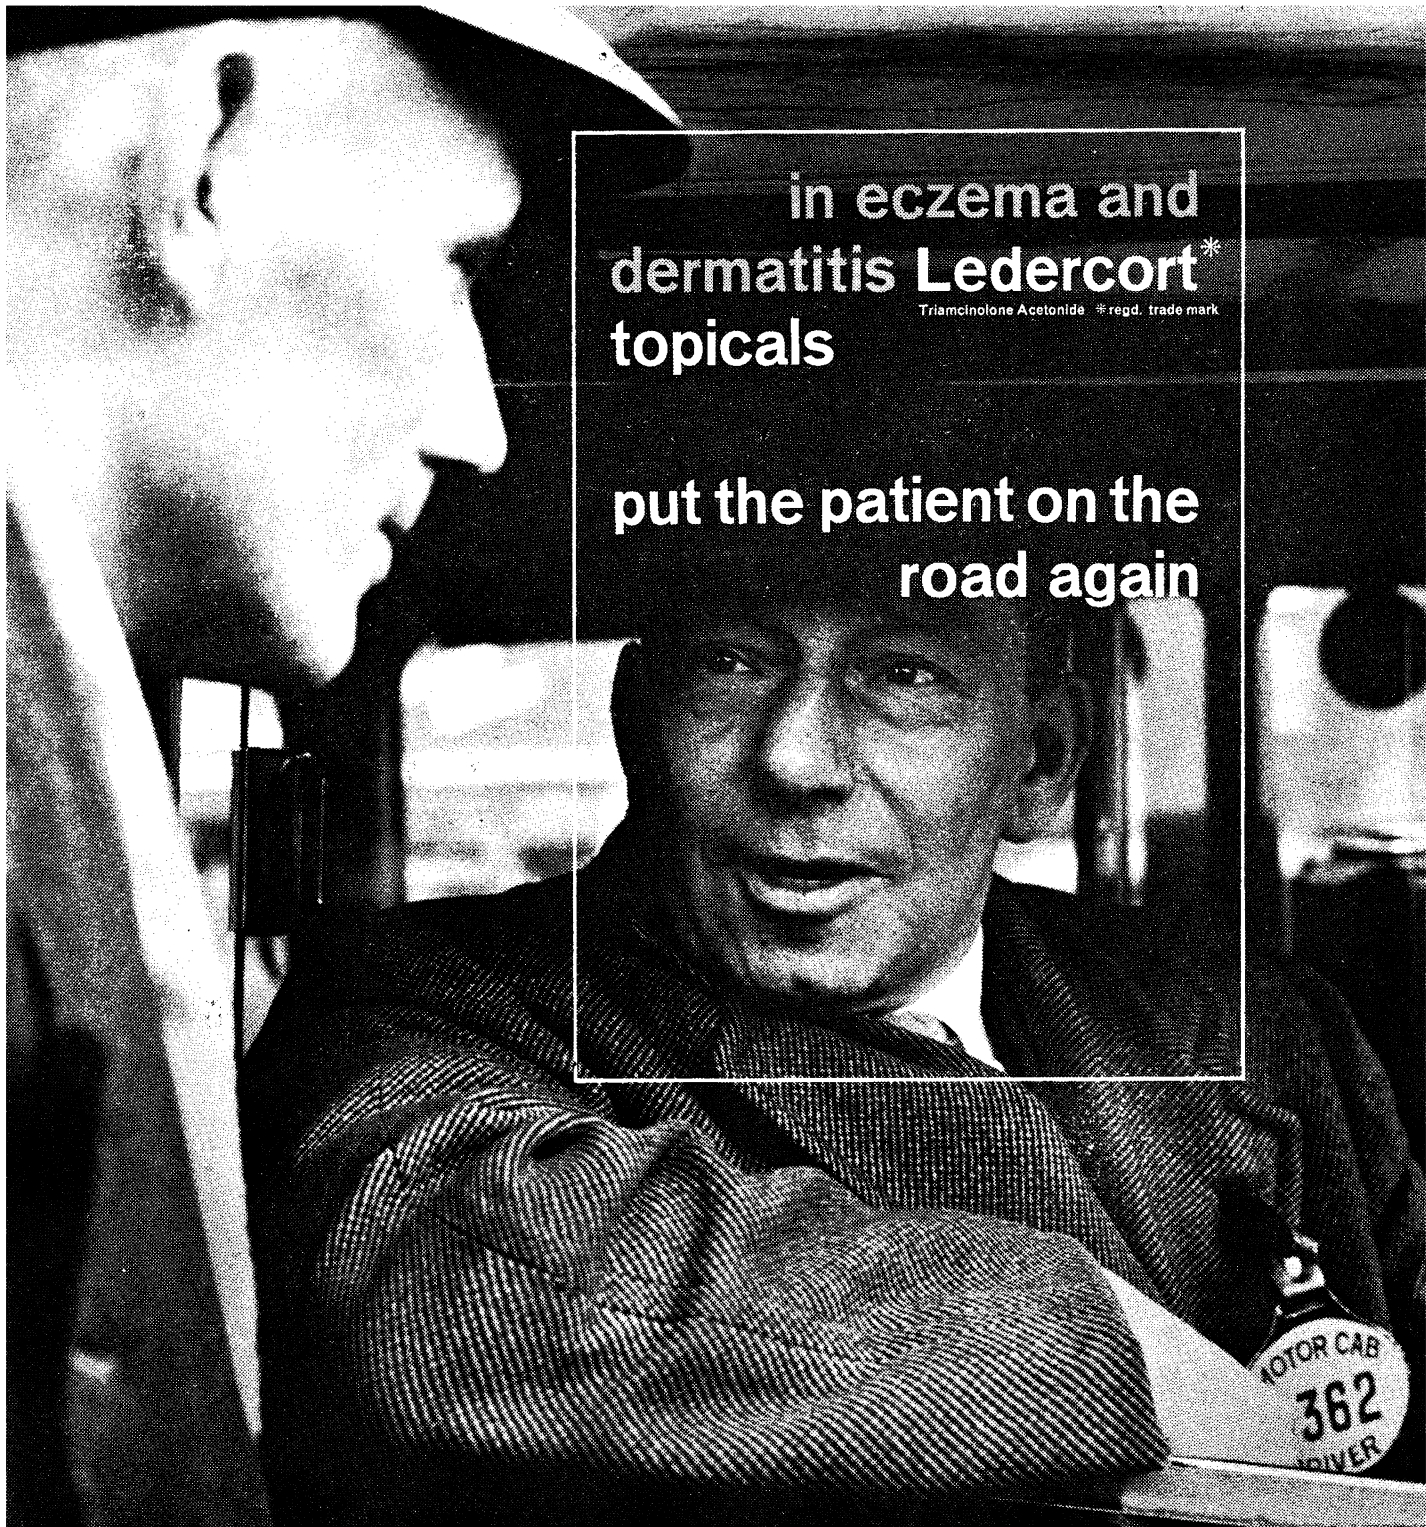

Dettol Antiseptic Cream — For obstetrics and prevention of cross-infection.

Instrument Dettol—For instrument disinfection.

medihaler-ergotamine

Medihaler-Ergotamine offers unique advantages in the treatment of migraine and recurrent vascular headaches. An entirely new route, oral inhalation, enables ergotamine to provide the speed and degree of relief expected only of injections. Yet *Medihaler-Ergotamine* is as simple to use and carry as a tablet. Attacks are aborted by a much smaller dose than is needed orally, with correspondingly less risk of side-effects. One to three inhalations ensure profound relief in most cases, at a cost of only 3d to 9d per treatment. Basic NHS prices are: complete unit 17/4, refill 15/-.

Medihaler-Ergotamine contains Ergotamine Tartrate B.P. 9 mg./ml. and delivers 60 measured doses (0.36 mg. per dose).

ATROMID is indicated for patients who exhibit raised serum lipid levels and thus carry an enhanced risk of developing coronary heart disease.

An average regime is 8 capsules daily taken in divided doses after meals. Only minor side effects of gastro-intestinal discomfort have been reported in a small proportion of patients.

Caution. Potentiation of anticoagulants has been observed and concurrent medication usually requires a lower dosage of anticoagulant.

A comprehensive booklet is available on request.

In the great majority of cases 'Atromid' restores the serum towards normality by

Diet *and Antenatal Care*

During pregnancy nutritional deficiencies which may normally pass undetected are liable to produce frank clinical symptoms, as all demands on the maternal organism are increased. Thus fissures at the angles of the mouth may indicate an inadequate supply of vitamins of the B complex, particularly riboflavin. Special attention to the diet is therefore an important part of antenatal care.

Marmite yeast extract is a useful source of all known factors of the vitamin B complex. It is easily incorporated in the diet, as it can be added to soups, stews and other savoury dishes, or spread on bread and butter or hot toast, or taken as a drink in hot water or milk.

MEDIHALER-ISO FORTE

One or two inhalations from *Medihaler-Iso Forte* can provide speed and degree of relief comparable to that obtained by injection, yet for the patient there is nothing simpler or more convenient to use than *Medihaler-Iso Forte*.

Smallest dose for profound effect ensured by micronising drug particles during manufacture. Each dose (0.4 mg.

isoprenaline sulphate) contains over 80% by weight of particles 2.5 microns in diameter—optimum for retention in the lungs.

Each dose accurately measured by the special valve incorporated in the vial.

Low cost of treatment is assured because each vial contains over 300 doses, enough for up to two months' treatment

or more at a cost of only 1¹/₂d. per dose.

MEDICAL DIRECTOR

Eli Lilly and Company Limited invite applications for this post, which will be based at Basingstoke.

The man appointed will be in the 28-40 age group, preferably with a higher qualification and with some years' experience in general practice. The duties include initiation and follow-up of clinical trials within the United Kingdom and elsewhere, and will involve contact with the medical profession in hospital and general practice. In addition to organizing clinical and pre-marketing trials, other duties will include acting as adviser on medical matters concerned with the marketing of the Company's products, reviewing the Company's promotional literature and conducting medical correspondence.

The Company is part of a group of which the parent, Eli Lilly and Company of Indianapolis, was established in 1876. Eli Lilly and Company of Basingstoke was formed in 1934 and is one of twenty-six manufacturing units distributed over North and South America, Europe and Australia. The group has recently acquired other substantial manufacturing interests in Britain, and is among the larger world producers of ethical medical products. Its investment in research in 1962 was approximately eight million pounds, and the successful candidate can expect to operate against a background of continuing research, including the recently established research unit in Britain.

Further information about the post and the Company, together with a special form of application, can be obtained from the Director of Personnel, Eli Lilly and Company Limited, Basingstoke, Hampshire.

ONE MAN'S VISION

The Southern Province of Tanganyika is a vast poverty-stricken area. People scratch for a living from the soil and find little reward. They have no knowledge of modern agricultural methods and leave the land starved as they themselves are. Yet people and land could become healthy.

The Bishop of the area is the Right Rev. Trevor Huddleston, C.R. His vision is for an Agricultural School so that keen and promising lads could be instructed to tackle problems of crop rotation, soil conservation, water supply, and the complete cycle of sound farming which will revitalize the whole province.

To build and endow this school
£50,000 IS REQUIRED

War on Want has been asked by Bishop Huddleston to raise this sum.

We are honoured by the request. We know that his many sympathizers will rally to answer the prayers of this beloved man in this venture.

Please help us. Building should begin at once. We call on all people to respond **speedily** and gladly. Gifts, small and large, will be received with gratitude. Cheques, etc., should be marked:

"BISHOP HUDDLESTON APPEAL"

and sent to:

ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS NORTHAMPTON

President: The Earl Spencer.
Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.
This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fourteen guineas per week. Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, gardening, fruit growing, etc.

WANTAGE HOUSE
This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

MOULTON PARK
Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

BRYN-Y-NEUADD HALL
The seaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore.
For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by appointment.

WYKE HOUSE, ISLEWORTH

A private hospital, established in 1826, for the individual treatment and care of a limited number of psychiatric patients. Apply Resident Physician. Tel.: ISL 7000.

Osteoporosis?

Calcium-SANDOZ

Effervescent Tablets

“Studies are reported here which suggest that calcium deficiency is an important factor in many cases of postmenopausal and senile osteoporosis. Many patients with these forms of osteoporosis absorb and retain calcium abnormally avidly when on a high calcium intake in the form of supplements (calcium gluconate Sandoz), and moreover may continue to retain it avidly for at least three and a half years.

Symptoms of the disease are relieved and no further fractures take place.”
