

The problem of the dirty mouth

Even in 1963 the dangers, and the unpleasantness, of the dirty mouth are still present in the post-operative period, as well as in many fevers; the geriatric patient being especially prone to them. Careful attention to oral hygiene will usually, of course, keep the patient comfortable and prevent complications. Such attention, however, is very time-consuming to the nurse; and it is not often realised that for most patients it can be replaced or supplemented by the use of chewing gum.

The regular use of chewing gum, by stimulating salivary flow, keeps the mouth clean in the most natural way possible. The patient is in a sense providing his own nursing care with the minimum of energy expenditure by himself.

Child patients, of course, need no encouragement to chew gum. The older patient may need encouraging—but not once he has appreciated the very obvious cleansing and refreshing effect that chewing gum has upon the mouth. Chewing gum is also of value to patients who are forbidden to smoke.

In hypertension

ALDOMET

METHYLDOPA

ADVANTAGES

'Aldomet' usually reduces blood pressure in the lying (and sitting) as well as the standing position.

Postural hypotension is less of a problem than is the case with other potent antihypertensive agents. Exertional hypotension is rare.

Diurnal variation in blood pressure rarely occurs.

Dosage is simple, flexible and easily established. Side effects are seldom a serious problem.

BENEFITS TO THE PATIENT

Hypertension is under control throughout day and night, awake or asleep.

'Aldomet' allows the patient a more normal and active life. Dizziness is rare.

Control of hypertension is smooth and even throughout the 24 hours without excessive swings of pressure.

'Aldomet' is generally very well tolerated and the patient is therefore cooperative.

a fuller life for the hypertensive patient

'Aldomet' is supplied as yellow, film-coated tablets containing 250 mg methyldopa. For the treatment of acute hypertensive crises, 'Aldomet' is also available as an injection, supplied in 5 ml ampoules containing, per ml, 50 mg methyldopate hydrochloride. Detailed information on indications, dosage, administration, precautions and bibliography is available on request.

NEW REFERENCE BOOK ON **ERYTHROCIN**

(Erythromycin, Abbott)

REGD.

Abbott announce the publication of an important new edition of the physician's reference book on Erythrocin (erythromycin, Abbott). In the ten years that this major antibiotic has been available much new information has been published on its wide clinical spectrum, its lack of toxicity and the low level of bacterial resistance. At the same time, the production of new antibiotics has made it necessary to reconsider the place of Erythrocin in clinical usage. All these points are dealt with in this new edition of the reference book, which contains a bibliography of some 200 articles. Copies are now available to the medical profession from **ABBOTT LABORATORIES LIMITED • QUEENBOROUGH • KENT**

Erythrocin is supplied as 100 mg and 250 mg Filmtabs; 100 mg/5 ml and 200 mg/5 ml suspension; 300 mg vials Lactobionate for intravenous injection and 50 mg/1 ml Erythrocin for intramuscular injection.

a new antacid palatable effective economical

Alcin is a new antacid offering several important advantages. It provides safe and effective treatment of symptoms associated with gastric hyperacidity and peptic ulceration.

Palatability Having an absence of chalkiness and an agreeable flavour, Alcin is non-nauseating.

Buffering Activity Alcin not only rapidly neutralises excess acid, but at the same time its sustained buffering activity maintains the level of acidity of the gastric contents within the desired range.

Safety Alcin is safe for prolonged administra-

tion. There is no risk from overdosage as Alcin cannot cause either alkalosis or acid rebound.

No Digestive tract ill-effects Alcin has no known laxative or constipating effects.

Economy Alcin is economical in use. The basic N.H.S. cost of 50 tablets is 1/9½d.

Composition: Each tablet contains 360 mg. anhydrous co-prepared sodium magnesium aluminium silicate and basic magnesium aluminate.

Tarcortin—tar plus hydrocortisone (a healing combination for sub-acute and chronic dermatoses)

In Tarcortin cream the combination of tar with hydrocortisone has provided a preparation with spectacular results in cases of eczema and other dermatic affections—both sub-acute and chronic. Clinical trials have shown that the combination of tar with hydrocortisone is more effective than either preparation alone. The photographs show the response of a case of eczema to only two days' treatment with Tarcortin.

Tarcortin is supplied in 7 gm. and 15 gm. tubes containing 0.5% hydrocortisone and 5% special coal tar extract in a vanishing type base. Literature and samples are available on request.

NATURAL ACTION BULK LAXATIVE

DEFICIENT intestinal bulk is one of the main causes of constipation. In such cases Andrews is particularly useful. It swells the bowel content by osmosis and stimulates peristalsis. In this perfectly natural way, Andrews induces a mild aperient action that does not irritate the intestine.

Andrews relieves constipation arising from decreased food intake during illness or restricted diet. It is also mildly antacid and relieves gastric discomfort; it helps to check biliousness and sick headaches. Andrews is readily acceptable because of its pleasant taste and refreshing effervescence.

Psoriasis

All the time fresh evidence is received of Alphosyl's effectiveness in cases of psoriasis, even in those which have defied all other treatment for years.

Excellent clinical trials. In a recent controlled study¹ of 62 cases of psoriatic lesions, 29 were completely cleared after use of Alphosyl and altogether 55 obtained between 75% and 100% clearance. In no case was the condition less than 50% cleared.

Patients observed included those with total scalp-to-toe psoriasis, psoriasis of many years' duration, psoriasis involving tender areas and psoriasis refractory to all previous treatment. These results confirm others obtained under comparable conditions.

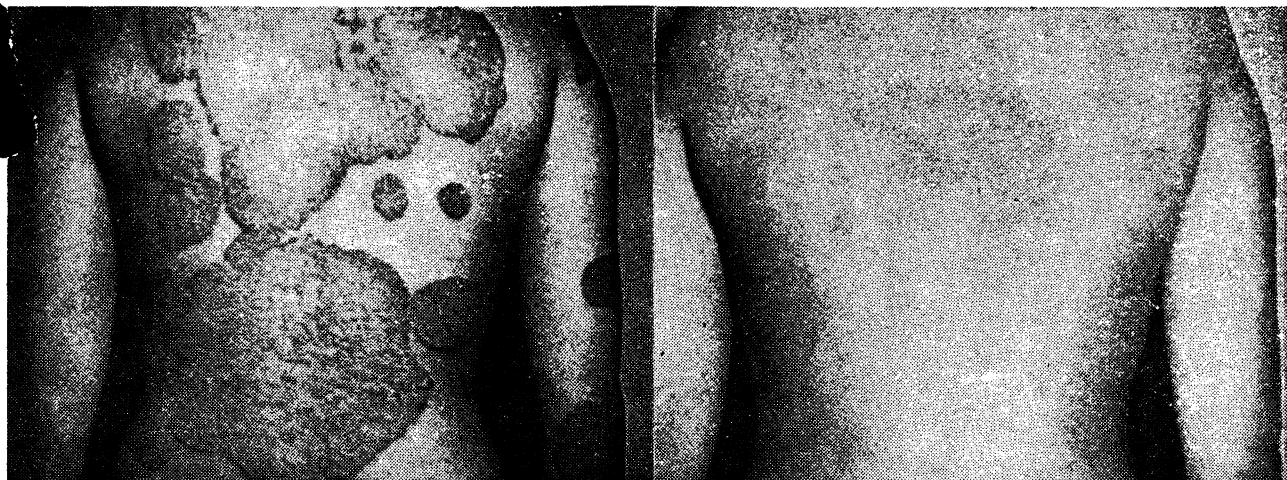

Why Alphosyl is so successful. In Alphosyl allantoin and a special refined coal tar extract are presented together for the first time. Allantoin has been found to be particularly effective in loosening psoriatic scales,² while the keratoplastic effect of coal tar is well known.² Alphosyl is non-greasy and non-staining and vanishes on application.

Freedom from side effects. Alphosyl is notably safe,^{2,3} being free from the risks which are found in other forms of treatment such as arsenicals, mercury, corticosteroids, x-ray, etc. It certainly deserves a trial in all cases of psoriasis, for which it is so widely prescribed.

Lomotil

BRAND OF DIPHENOXYLATE HYDROCHLORIDE with atropine sulphate

prompt and safe symptomatic relief from diarrhoea

LOMOTIL is a non-specific remedy for the treatment of diarrhoea which acts rapidly, effectively and safely.

It is recommended as a first line of treatment in diarrhoea, enabling the physician to reserve antibacterial agents for the treatment of diarrhoea due to pathogenic organisms. Thus immediate recourse to sulphonamides and antibiotics in diarrhoea can often be avoided.

LOMOTIL acts by reducing excessive gastro-intestinal motility.

LOMOTIL has been subjected to widespread clinical trials and is already firmly established in the United States and Europe as a major therapeutic measure in the treatment of diarrhoea.

Although LOMOTIL is distantly related to pethidine it has no analgesic action at therapeutic dose levels. Its addiction potential is comparable with that of codeine.

A sub-therapeutic amount of atropine sulphate is, however, included to discourage over-dosage.

information on oral contraception

The research carried out by Searle during the last eight years into oral contraception has led to a considerable number of publications in the world medical press. Many of these publications deal specifically with the two Searle oral contraceptive products, CONOVID* and CONOVID-E† and are the basis of an information service available to the medical profession on request. This consists of fully documented reference manuals on CONOVID and CONOVID-E, a booklet in question and answer form dealing with many of the inquiries received regarding the use of the two products, and a booklet for patients available in quantity to the medical profession for distribution to their patients.

★ **SERVICE MEMBERS** may have difficulty in supplying recent
testimonials, but this should not deter them from applying.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR.** Posts obtained normally not less than one year after full
registration as a medical practitioner and held normally for two years: £1,425 in
the first year; £1,595 in the second and any subsequent years. Deduction of
£255 per annum for compulsory residence, £300 per annum for voluntary residence.
(b) **SENIOR REGISTRAR.** Posts obtained normally not less than three years
after full registration and held normally for four years: £1,710 to £1,940 in
the third year; by £110 to £2,050 in the fourth year; thereafter £2,165 in the
fifth and sixth years; £2,280 in the seventh and eighth years; £2,395 in the ninth
and any subsequent years. Deduction of £295 per annum for compulsory resi-
dence; £325 per annum for voluntary residence.

Other Grades, Whole-time

(a) **HOUSE OFFICERS.** Each post in this grade shall be tenable for six
months.
£770 per annum for the first post held; deduction of £175 per annum for
compulsory residence or £220 per annum for voluntary residence;
£855 per annum for the second post held; deduction of £180 per annum for
compulsory residence or £220 per annum for voluntary residence;
£940 per annum for the third and any subsequent posts held; deduction of
£190 per annum for compulsory residence or £220 per annum for voluntary
residence;
provided that the employing authority (subject in the case of a Hospital Manage-
ment Committee to the consent of the Regional Hospital Board) shall have discre-
tion to determine that the remuneration of any officer holding his first post in
the National Health Service as a House Officer shall be £855 per annum if they
are satisfied that the officer has held at least one hospital post outside, of not
less than six months' duration, involving clinical responsibilities equivalent to
those of house posts in the National Health Service and supervised by appropriate
specialist staff provided further that where a House Officer has previously held
two such outside posts the employing authority (subject in the case of a Hospital
Management Committee to the consent of the Regional Hospital Board) shall have
discretion to determine that his remuneration shall be £940 per annum. Any
House Officer who is paid at the appropriate rate to the second or third post held in accordance with the above provisions shall be paid
at the third post rate for any subsequent appointments in this grade.

(b) **SENIOR HOUSE OFFICERS.** Posts obtained by fully registered medical
practitioners and held normally for one year only: £1,195 on appointment at age
27 or under; £1,255 on appointment at age 28 or over. Deduction of £210 per
annum for compulsory residence or £255 per annum for voluntary residence.

(c) **JUNIOR HOSPITAL MEDICAL OFFICERS.** Officers who have held
house appointments but who are not registrars and who have less responsibility
than other hospital officers of non-consultant status, and who have been appointed
for a limited or indefinite period, not less than one year after full registration as
a medical practitioner: £1,255 (3) to £1,450 by 70 (5) to £1,800. Deduc-
tion of £255 per annum for compulsory residence or £300 per annum for voluntary
residence.

Allowances at rates of up to £100 per annum shall be payable to house
officers, senior hospital officers, junior hospital officers and registrars
occupying posts approved for such allowances in peripheral hospitals.

All National Health Service hospital appointments are in accordance with the
Terms and Conditions of Service of Hospital Medical Staff.

The above revised rates of salary, payable as from April 1, 1963, were notified
to employing authorities on July 2, and advertisements quoting salaries at the old
rates are accepted on the assumption that the new rates will apply.

**All National Health Service hospital appointments are in accordance with
the Terms and Conditions of Service of Hospital Medical Staff. (9/7/63)**

METHRAL* OINTMENT

brand of fluperolone acetate

*Trade Mark

The quality that singles out Methral from other topical steroids is not so much its anti-inflammatory activity; this is indeed impressive, but what really distinguishes Methral is its speed of onset of action in pruritus. In this respect, it is superior to hydrocortisone. Moreover, in terms of reducing erythema, size of lesion and exudate formation, Methral achieves an outstanding security of response. It is this speed of action, this security of response, that thrusts Methral to the very forefront of today's topical steroids.

'... clinical evidence demonstrates that the fluperolone [Methral] relieves pruritus more rapidly than hydrocortisone, and has a quicker onset of action.'

G. D. SEARLE & CO. LTD.

DOCTOR

This leading and progressive pharmaceutical company in High Wycombe specializes in the development of new synthetic drugs. It now seeks to add another Doctor to its increasingly important Medical Department. His work will include the inception and organization of clinical research, the production of medical literature and the running of a first-class medical information service, and the technical training of representatives. Some part-time clinical work outside the company will be encouraged, but the post will entail considerable travelling both in the U.K. and abroad. A Medical Practitioner with good hospital experience, and preferably with a bent for scientific medicine, in the age range 27-35 is the man likely to be appointed, but strength of personality and breadth of experience will be the deciding factors; to the right man an attractive salary will be paid with excellent side benefits. (Ref.: M10/1124/BM.)

The identity of candidates will not be revealed to our clients without prior permission. Applicants should forward brief details, quoting the reference number, to:

**2 DOCTORS
or
Physiologists**

PHARMACIA is the oldest, and one of the largest, Swedish ethical pharmaceutical companies. It is backed by a heavy research programme, the most recent result of which is Rheomacrodex, the low-molecular weight dextran. A young, enthusiastic British subsidiary is already expanding at twice the rate originally anticipated. Both posts will probably, but not necessarily, be filled by medical

men with a physiological leaning, or by physiologists, and will involve close liaison on Rheomacrodex with some of the most advanced surgical and medical teams in Britain and Scandinavia, together with new product and other clinical trials, representative training and general advisory work. One post is in England, the other in Sweden.

In England: Working from West London. Age: probably between 25 and 35, with a realistic salary, a car, pension and expenses. To be taken up as soon as possible.
In Sweden: Working from Uppsala, particularly with the export

department, in liaison with the large research team and the University. Languages are an asset but not vital. Age: up to 45; salary, etc., by negotiation. To be taken up within 6 months. Please send full details of your age, background, qualifications and experience to **R. S. Price, Managing Director, Pharmacia (Great Britain) Ltd., Sinclair House, The Avenue, West Ealing, London, W.13.** All correspondence will be treated in the strictest confidence and will be answered personally. **ELEANOR ROOSEVELT
INTERNATIONAL CANCER FELLOWSHIPS**

Fellowship programme administered by
The International Union Against Cancer

1964

THE International Union Against Cancer, with the funds provided by the Eleanor Roosevelt Cancer Foundation, will award fellowships for research on cancer.

The awards will be granted to experienced investigators who have demonstrated their ability for independent research and who wish to broaden their experience by a period of study at a single institution in another country.

Fellowships will be granted only to persons on the staff of universities, teaching hospitals, research laboratories or similar institutions.

Awards will be made to investigators who are devoting themselves either to the experimental or the clinical aspects of cancer research.

Fellowships will not be granted to persons who wish primarily to perfect their training in methods of cancer detection or in therapeutic techniques, or who wish to visit briefly several institutions abroad. The duration of the fellowships ordinarily will be one year, but this period may be longer or shorter in special circumstances.

The stipend will be based on the current salary of the applicant and the salary of persons of comparable qualifications in the place where the applicant expects to study.

An allowance will be made for the cost of travel of the fellow and of those dependants who will accompany him from his place of residence to the institution where he will work, and return.

Applications must be received prior to September 1, 1963, for a fellowship to begin within the twelve months' period following March 1, 1964.

Application forms and additional information may be obtained from:

ONE MAN'S VISION

The Southern Province of Tanganyika is a vast poverty-stricken area. People scratch for a living from the soil and find little reward. They have no knowledge of modern agricultural methods and leave the land starved as they themselves are. Yet people and land could become healthy.

The Bishop of the area is the Right Rev. Trevor Huddleston, C.R. His vision is for an Agricultural School so that keen and promising lads could be instructed to tackle problems of crop rotation, soil conservation, water supply, and the complete cycle of sound farming which will revitalize the whole province.

To build and endow this school
£50,000 IS REQUIRED

War on Want has been asked by Bishop Huddleston to raise this sum.

We are honoured by the request. We know that his many sympathizers will rally to answer the prayers of this beloved man in this venture.

Please help us. Building should begin at once. We call on all people to respond **speedily** and gladly. Gifts, small and large, will be received with gratitude. Cheques, etc., should be marked:

"BISHOP HUDDLESTON APPEAL"
and sent to:
