

HERE'S A NEW ANTACID THAT'S FAR MORE ACCEPTABLE... AND MORE EFFICIENT

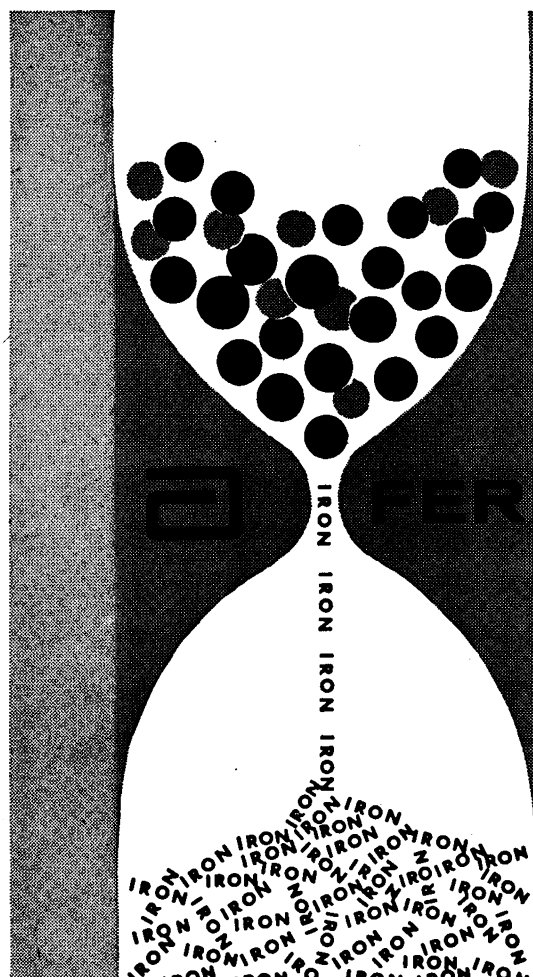

Glymaxil—the first soluble buffer antacid—is a solution of an entirely new chemical compound, an antacid chelate. ■ Glymaxil is presented as a clear liquid, attractive to the eye and pleasant to take. It is ideal for both short and long term therapy. ■ Glymaxil neutralises faster and will buffer more acid in the ideal pH range of 3 to 5 than the traditional mixtures, without constipating or laxative effect.

FERRO-GRADUMET
TRADE MARK

FOR MAXIMUM IRON
WITH MINIMUM
SIDE EFFECTS

Time and again you'll have listened to complaints of discomfort and gastric upset from patients undergoing treatment for iron-deficiency anaemia. The reason — iron intolerance; the cause—the action of the usual ferrous sulphate tablets resulting in unpleasant side effects. But ferrous sulphate is probably the most efficient form of iron; and as you know, it should be taken on an empty stomach for maximum effect. How then to reduce or prevent discomfort in anti-anaemia therapy?

IRON IN TIMED RELEASE

From Abbott comes the answer—the Ferro-Gradumet, the one-a-day oral haematinic in a plastic matrix that slowly leaches out its full day's dose of ferrous sulphate (525 mg, equivalent to 105 mg of elemental iron) in a predetermined pattern over a number of hours; and, thanks to its unique GRADUMET presentation, does not disintegrate in the stomach, where ferrous sulphate is most irritant and least well absorbed. Here at last is an efficient treatment for iron-deficiency anaemia that permits a day's requirements of iron to be taken in a single tablet, pleasantly and with a minimum of side effects.

FERRO-GRADUMETS are supplied in bottles of 30 or 100 tablets each containing 525 mg ferrous sulphate (in *exsiccated* form), equivalent to 105 mg elemental iron.

The importance of simplicity in the treatment of diabetes

The diabetic is condemned to a life-time of medication to control his condition.

In few other conditions is simplicity and ease of administration so important.

The introduction of the sulphonyl-ureas eight years ago relieved one group of diabetics from the burden of daily injections. The extensive use of Rastinon in oral antidiabetic therapy for over two million patients has shown that it is not only one of the safest drugs available, but also one of the

most effective in controlling diabetes when the condition is

first discovered at middle age. Rastinon is the standard oral treatment of diabetes, and it is remarkable for its

Drapolene specific for napkin rash

The success of Drapolene as a preventive and treatment of napkin rash is due to its activity against the urea splitting organisms which are known to be the causative factor of this common skin condition.

Drapolene is formulated in a pleasant water miscible base which promotes residual activity, thus preventing the liberation of free urinary ammonia.

Drapolene is quick acting, even where an ulcerated condition has developed. It also assists cleansing of the affected area.

ergotamine alone is not enough

To combat an incipient attack of migraine, oral ergotamine alone is inadequate. It needs the potentiating effect of caffeine. **Above all, it needs a rapidly acting anti-emetic to counter its main defect as well as the vomiting resulting from migraine itself.**

'Migril' contains every one of the necessary ingredients—ergotamine tartrate, caffeine, and the proven anti-emetic cyclizine hydrochloride. 'Migril', the ever-present companion of thousands of migraine sufferers, is their reliable insurance against an attack.

griseofulvin

GRISOVIN-FP

fine particle
griseofulvin for
greater absorption

DURATION OF TREATMENT

Treatment should be continued for at least four weeks, but it must vary with the site and nature of infection. Thus treatment should be extended for infections involving the nails or where the keratin layer is thickened as in the soles of the feet; in such cases, it is best continued for at least two weeks after clinical symptoms have disappeared. GrisoVin-FP given orally exerts its activity systemically, and endows newly formed keratin with the power to resist fungal attack. The time taken for this resistant barrier to reach the surface completely will vary with the different structures, e.g. thin body skin, thickened palms and soles, hair and nails etc.

Cure is demonstrably complete when it is no longer possible to see the fungus microscopically or by culture, but the infected skin in most cases shows a rapid and remarkable improvement in a very short time.

CLINICAL USE

Grisovin-FP given by mouth, has remarkable activity against dermatophyte (tinea) infections of the skin, hair and nails. Accurate diagnosis and selection of cases is desirable, and it should be recognised that minor superficial fungal infections can often be successfully treated by topical remedies.

DOSAGE

The significance of griseofulvin blood levels and their duration in relation to therapeutic effectiveness is not yet clearly established. However, as judged by comparative ability to produce blood levels, the dosage of GrisoVin-FP usually employed for adults is likely to be four tablets (500 mg) daily. Higher dosage may be needed in some cases to produce full therapeutic effect and in such instances up to eight tablets (1.0 gram) or more daily, may be given, at least for a period. Correspondingly, dosage for children usually will be two or three tablets (250 or 375 mg) daily.

THE BRITISH HEART FOUNDATION

Its composition and its purpose

The British Heart Foundation is appealing for nation-wide support in the cause of heart research. Direct approaches already made to certain leading organisations and generous friends have raised the sum of over £1,250,000—a magnificent start towards the goal of £3,500,000.

The British Heart Foundation, under the Patronage of H. R. H. Prince Philip, and with Field-Marshal the Rt. Hon. Earl Alexander of Tunis as its President, has been created through the efforts of physicians and surgeons specialising in diseases affecting the heart and circulation. It has the support of the Royal College of Physicians of England, the Royal College of Surgeons of England, the Royal College of Physicians of Edinburgh, the Royal College of Physicians and Surgeons of Glasgow, the British Post-graduate Medical Federation and the College of General Practitioners. The Foundation is the first, and only, body of its kind in this country to concern itself ex-

clusively with the problem of heart disease. The funds of the Foundation will be used, through grants, fellowships and other such channels, to support and originate research in Great Britain into every aspect of the causes and treatment of diseases of the heart and circulation.

We appeal for your support, not only in donations or subscriptions, but also in bringing the Foundation to the notice of all those who are especially interested in the problem of heart diseases.

The Foundation has a Membership scheme that provides an opportunity for personal participation. Full details of Membership, and information about the Foundation and its Committees are available from the address below.

The go-ahead OPPORTUNITY that is ROYAL NAVY

you find it as a MEDICAL OFFICER

As a Medical Officer, you have complete clinical freedom and a widely varied medical experience. Your practice is among 100,000 Naval men and women. Ashore or afloat, it can take you anywhere in the world from Malta to Singapore: and, when you have a shore appointment abroad, your family can be with you. Go-ahead, too, is your opportunity to specialize: not only in traditional categories, but in the modern sciences of aviation and nuclear medicine.

As a Medical Officer, your pay, allowances, and gratuity—or permanent commission pension—are very good: for example, your initial pay is considerably higher than that of a civilian hospital registrar.

You can enter by one of three ways: as a Registered Medical Practitioner—your civilian experience back-dating seniority—or as a qualified doctor doing your pre-registration year, or as a student with a 2nd M.B. For qualified women doctors, there is a special short service commission.

For fullest details of your Royal Navy life as a Medical Officer, write, mentioning your own qualifications and age to:

SERVICES

A PRACTICE AS WIDE AS THE WORLD

In the Medical Branch of the Royal Air Force you gain wide clinical experience. You travel the world and among the subjects with which you will become familiar are tropical medicine, rescue operations, the care of airborne patients and medicine in relation to flying. You will also be expected to contribute to research.

As Medical Officer on a Royal Air Force Station you have a vigorous general practice among the officers, men and their families. You enjoy complete clinical freedom in charge of sick quarters with your own beds, and you will be assisted by a well-trained nursing and clerical staff. You and your family can live comfortably and near your surgery.

Your salary and career prospects are good: as a married man drawing full allowances you could receive £2000 per year on entry. If you have post-graduate civilian experience you could be granted up to seven years back-dated seniority. Pensionable career commissions or short service engagements entitling you to a generous tax-free gratuity on completion are still available to the right applicants.

GRADUATES AND MEDICAL STUDENTS

If you are a pre-registration year graduate or a senior medical student you may apply for a commissioned cadetship. This will enable you to finish your pre-registration house jobs or medical training as an officer in the R.A.F. drawing full pay and certain allowances. On completion you will serve on a long or short service engagement in the Medical Branch of the Service.

For details of entry to the Royal Air Force as a registered doctor, a graduate or a medical student, write to the Director-General of Medical Services, Air Ministry (M.A.I.), (HN53J), 1 Tavistock Square, London, WC1.

ASSISTANT PATHOLOGIST

Applications are invited for the post of Assistant Pathologist. The department is under the control of the Professor of Pathology, who is the Director of Hospital and University Pathology.

The appointee will be required to assist in the routine histopathology, performance of necropsies, and to take part in a limited amount of teaching. Research interests are encouraged.

Conditions of Service: Salary within the range of £A.2,970-£A.3,515 per annum, commencing rate according to qualifications and experience. Salary commences from the date the appointee takes up duty.

Other conditions of service include four weeks' annual leave; long-service leave (three months on full pay after each seven years' service); sick leave, etc. Study leave may be granted as a privilege for some special purpose approved by the Board of Management. Contribution to the State Superannuation Scheme is required, or alternatively the hospital would consider subsidizing the appointed officer's existing commitments under an approved scheme or endowment policy.

Transport expenses: A travel grant equivalent to a minimum first-class sea passage will be provided for the successful applicant and family (under 16 years of age), together with an allowance of up to £A.200 for the cost of removal of personal effects (excluding furniture or motor vehicle), or £A.25 in the case of a single person, subject to a bond to remain in the hospital's service for a minimum period of three years.

A memorandum of information, including further details of the Department of Pathology, is available upon request.

Further information concerning Royal Perth Hospital and the Service of Western Australia may be obtained from the Agent General for Western Australia, Savoy House, 115 Strand, London W.C.2.

Applications should include date of birth, qualifications, experience, present and previous appointments, a schedule of publications, a recent photograph, and the names and addresses of three referees.

Closing date October 1, 1963.

Joseph Griffith,

Administrator.

THE R. H. MEDICAL SCHOLARSHIPS

The Board of Governors of the R. H. Medical Scholarships Trust invite applications from New Zealand graduates who are registered or eligible to be registered as Medical Practitioners under the Medical Practitioners' Act, 1954. A Scholarship to enable a selected scholar to pursue and undertake research in and/or obtain post-graduate training and experience in the fields of rheumatic disease, physical medicine, and manipulative treatment overseas.

The programme to be followed by the selected candidate during the tenure of the Scholarship must be one that is approved by the Board of Governors and must include a course of training in Physical Medicine and the spending of a specified period in one or more approved Rheumatism Units. The candidate would be expected to obtain the Diploma of Physical Medicine or its equivalent, and although the purpose of the Scholarship is as above set out, the candidate must at the same time, provided he does not neglect such main purpose, study for a higher qualification such as Membership of one of the Royal Colleges of Physicians.

The basic value of the Scholarship is EN.Z.1,000 per annum, but additional allowances may be granted if, in the opinion of the Board of Governors, a Scholar is in need of additional assistance. The term of the Scholarship shall be two years, but may be extended for a further period of one year, depending on the satisfactory nature of the Scholar's work and progress.

Applications close on September 30, 1963. Application forms and copy of the conditions and regulations governing such Scholarships are obtainable from:

The Board of Governors,
R. H. Medical Scholarship Trust,
P.O. Box 222,
Auckland C.1, New Zealand.

The Family Planning Association advises that for maximum safety any chemical contraceptive should be used with a mechanical barrier.

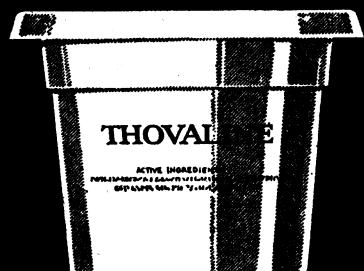

The doctor and the patient are the best judges of which method of family planning meets the circumstances of the individual. Obviously, aesthetic considerations are important. And this is one reason why Gynomin tablets and Antemin cream are so widely recommended. Both products are efficiently spermicidal, unobtrusive, easily applied and approved by the Family Planning Association. One or the other suits a great many fastidious people. We shall be pleased to send you professional samples, together with copies of our booklet, 'Planned Parenthood'.

*The Sherry of
all Sherries...*

RICH, LUSCIOUS AND OF VERY GREAT AGE

Domecq's

CELEBRATION CREAM

Domecq's 'CELEBRATION CREAM' sets a standard of high quality and excellence in Sherry which is probably unique. Aged in the wood in the Bodegas of the great Spanish Sherry House of Pedro Domecq—shippers to this country continuously since 1730—'CELEBRATION CREAM' is a Sherry of rare and distinctive appeal.

Obtainable everywhere from Wine Merchants and in the best bars and hotels. If you have not yet tasted this superb and outstanding Sherry, do so to-day.

Remembering the most popular 'DOUBLE CENTURY' the exquisite dry 'FINO LA INA' ... and the choice Amontillado 'CASINO'
