Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of Lactobacillus acidophilus which has been rendered antibioticresistant, and is thus able to multiply freely under these abnormal conditions. This organism itself forms an antibiotic which may contribute to its rapid preponderance over other species. 1, 2

Oral treatment with antibiotic-resistant L. acidophilus in the form of ENPAC has been shown to eliminate Candida from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight 3, 4 and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines. 5

#### INTERNATIONALLY DOCUMENTED

Approved in 5 continents-over 70 countries-the most widely used oral contraceptive in the Commonwealth

U.K. Subsidiary: Pharmethicals (London) Limited, Victoria Way, Burgess Hill, Sussex.

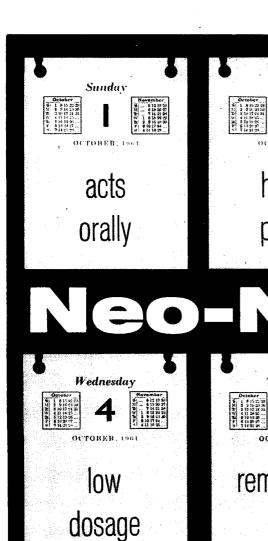

#### Nembutal (PENTOBARBITONE SODIUM, ABBOTT)

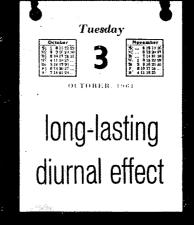

Short-acting Nembutal produces any desired degree of central depression—from light daytime sedation to deep hypnosis. The dosage required is small, less than that of many other barbiturates. Because there is less drug to be inactivated, the margin of safety is unsurpassed and there is minimal tendency to hangover. In equal oral doses, no other barbiturate offers quicker, more reliable effect. Supplied: In ½ gr, ¾ gr, and 1½ gr capsules and as Elixir Nembutal (1¼ grs, per fl. oz.) is also available in combination with other drugs. May we send you details of the complete range of Nembutal products?

# a new antacid palatable effective economical

Alcin is a new antacid offering several important advantages. It provides safe and effective treatment of symptoms associated with gastric hyperacidity and peptic ulceration.

Palatability Having an absence of chalkiness and an agreeable flavour, Alcin is non-nauseating.

Buffering Activity Alcin not only rapidly neutralises excess acid, but at the same time its sustained buffering activity maintains the level of acidity of the gastric contents within the desired range.

Safety Alcin is safe for prolonged administra-

tion. There is no risk from overdosage as Alcin cannot cause either alkalosis or acid rebound.

No Digestive tract ill-effects Alcin has no known laxative or constipating effects.

**Economy** Alcin is economical in use. The basic N.H.S. cost of 50 tablets is 1/9\fmathred{1}d.

**Composition:** Each tablet contains 360 mg. anhydrous co-prepared sodium magnesium aluminium silicate and basic magnesium aluminate.

Samples available on request to Reckitt & Sons Limited, Pharmaceutical Department, Hull.

# a new Riker antihypertensive

## with great potential in general practice

Thiaver is particularly valuable in general practice for that large group of hypertensive patients who are not adequately controlled by milder agents and their combinations. Thiaver provides an alternative to adrenergic or ganglion-blocking agents whose use is often limited by the side-effects they produce.

Potent yet suitable for prolonged use *Thiaver* combines the hypotensive properties of *Veriloid*, one of the few effective centrally-acting antihypertensives, with those of epithiazide, a new potent diuretic/hypotensive, to provide smooth but positive control of blood pressure with gradual onset of effect. Outstanding advantages of *Thiaver* are that it does not cause postural hypotension nor does tolerance develop.

**Very simple dosage** Treatment with *Thiaver* is free from the need for frequent and critical dosage adjustment. Satisfactory control of blood pressure is obtained in most patients with two or three tablets daily. Each tablet contains *Veriloid* (standardised alkaloids of *Veratrum viride*) 4 mg. and epithiazide 4 mg.

#### Synadrin for the patient with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments 11-17 and it has been tested in over 1,000 patients. 1-10 Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

#### Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

Treatment may be initiated with 2 tablets, three times daily, reducing after three days to a maintenance dosage of 1 tablet two or three times daily.

Synadrin is presented as tablets, each containing 15 mg. of prenylamine lactate in bottles of 30 and 150 at basic NHS prices of 8/8d. and 34/8d. (subject to P.T.). Synadrin is known in some other countries as Segontin.

## new hope for chronic bronchitics

'Daptazole 100' enables many bronchitics to start a new life free from the misery and enslavement of chronic 'shallow breathing' which so harshly limits their freedom of movement and enjoyment of the simple pleasures of life.

'Daptazole 100' is indicated in cases of respiratory insufficiency. Its most important role is in CO2 narcosis due to chronic bronchitis, emphysema and cor pulmonale.

Dosage: 1-2 tablets, four times a day.

Composition: Each tablet contains 100 mg. amiphenazole.

# 'Sulphamezathine' in urinary tract infections — cystitis, pyelitis pyelonephritis

Clinical experience over two decades has established the reputation of 'Sulphamezathine' as the best sulphonamide for routine use.

Consider the advantages of 'Sulphamezathine' in the treatment of acute or chronic urinary tract infections.

- Controls E. coli and other causative organisms;
- Quick relief of symptoms;
- Safe for all ages;
- Well tolerated;
- Renal complications are practically non-existent;
- Effective levels in the blood, tissues and urine can be readily maintained.

'Sulphamezathine' for safe, economic and effective treatment in genito-urinary infections.

- Contents increased by 50% (now over 300 doses)
- Cost reduced by 45% (now less than ½d. per dose)

THE MOST ADVANCED-THE LEAST EXPENSIVE

MOORE MEDICINAL PRODUCTS LTD., WAVERLEY HOUSE, ABERDEEN

British Medical Journal

The effectiveness of the coal-tar and allantoin combination in Alphosyl Lotion is well known and is confirmed nearly every week. Only two years after its introduction in this country, it became the leading branded preparation for the treatment of psoriasis. Now Alphosyl is also available as a lubricating cream.

#### **Good Results**

Extensive clinical trials show the effectiveness of Alphosyl Cream. In a study of 41 patients<sup>1</sup> response was good to excellent in 36 patients, complete clearance being achieved in 27 cases. In another study of 96 cases<sup>2</sup> some of

whom had had psoriasis for many years, 73 obtained 75%-100% clearance and another 15 had 50%-75% clearance.

#### **Advantages**

The cream has been found a particularly effective vehicle for the Alphosyl formula. The new vehicle incorporates a combination of free fatty acids (saturated and unsaturated), naturally occurring in triglycerides, sterols and esters to give the lipid phase of the base a significant resemblance to the lipoid array of normal human skin. There are also present certain bipolar (hydrophilic-lipophilic) substances which enhance the uptake and retention of

moisture by the amphoteric proteins of the stratum corneum<sup>1</sup>.

Alphosyl Cream is cosmetically acceptable in every way, being non-greasy, non-staining and virtually odourless. Its lubricating properties have been found specially valuable in psoriatic lesions of the scalp, in fissured areas, especially on the palms, and for intertriginous areas generally. It has been found notably safe, being free from the risks found with x-ray, corticosteroids, mercury, arsenicals etc.

Literature is available on request.

## CRYSTAPEN G

INJECTION · TABLETS · SYRUP

Despite the very many antibiotics now available penicillin G remains the first choice for the treatment of the majority of acute septic infections. It is generally agreed that other substances are used only if bacteriological or other factors indicate specific need or if the administration of penicillin G in full dosage fails to produce response.

The early treatment of boils, carbuncles, abscesses and other soft tissue infections is essential if treatment is to be effective. Crystapen (soluble sodium penicillin G Glaxo) with its rapid bactericidal action, is a logical first choice for the treatment of such conditions. It is also cheap to use and frequently costs only a quarter as much as alternative antibiotics.

The name Crystapen is a Glaxo trade mark

GLAXO LABORATORIES LIMITED

#### for the patient who WHEEZES

Alupent's potent bronchodilator action is valuable, both to treat the acute attack and as a prophylactic. Published evidence 1-2-3, has shown that Alupent tablets will provide effective prophylaxis of wheezing in chronic bronchitis and asthma, and these reports suggest an optimum dose of 20 mg. four times a day in these conditions. This dosage can be given more conveniently and economically by using the new ALUPENT 20 mg. tablet which is now available.

For routine use as a prophylactic against wheezing in chronic bronchitis, Alupent is of proven effectiveness

#### BIOGASTRONE

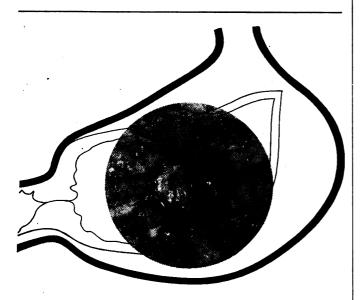

disodium salt of 3-0-(β-carboxypropionyl)-11-oxo-18β-olean-12-en-30-oic acid

# Amajor advance in the treatment of gastric ulcers

Following successful clinical trials over the past four years, Biogastrone is now available for general use. It has proved effective in a significantly high proportion of cases of gastric ulcer, yet causes few side effects. Biogastrone is the drug of choice in the treatment of early or chronic gastric ulcers.

**Dosage:** One or two tablets (50 mg.) three times daily after meals for four weeks.

Packings: Boxes of 24 and 100 tablets.

#### "...promotes the healing of gastric ulcers"

#### ...do you recommend an external wedge on the shoes?

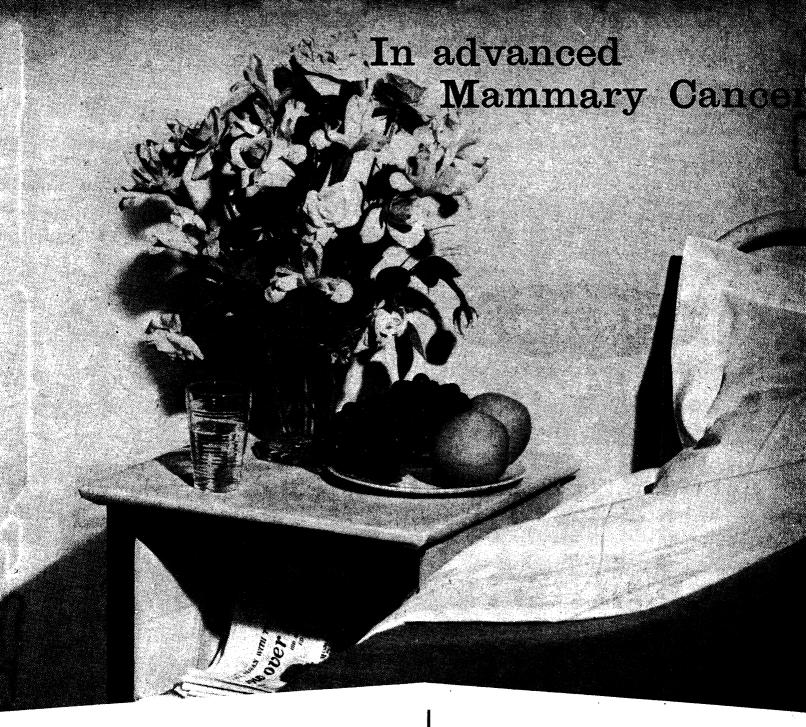

But the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's. As the diagram on the left clearly shows, any external wedge to heel disturbs the plane of forepart and heel. Surely it's more logical to have a wedge built-in between the inner and the outer sole—where it can correctly corset the foot, remain invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made—on remedial lasts specially adapted to accommodate the internal wedge. That is why they are the only practical and thoroughly effective solution to this problem.

Information from Mr. W. J. Peake, James Southall & Co. Ltd., Crome Road, Norwich. NOR 60A

#### INNERAZE INVISIBLE WEDGE SHOES BY START-RITE

(who make the finest children's shoes of all types)

The beneficial effects of Deca-Durabolin already reported are further confirmed among 175 patients studied.\*

Regression and control for periods of up to two years were obtained. The report concludes "The low incidence of side effects coupled with the well-marked general tonic effect suggest the wider use of this preparation as ancillary treatment in stage III carcinoma of the breast".

DOSAGE

25 mg.-50 mg. every third week.

FORMS AND PACKS

Ampoules containing Nandrolone decanoate 25 mg. and 50 mg. for intramuscular injection in boxes

 $1 \times 1$  ml. and  $3 \times 1$  ml.

# WHAT IT'S LIKE TO BE AN ARMY DOCTOR

# Extracts from an article by Major K.N. Murray, RAMC

WHEN SERVING WITH THE BRITISH ARMY OF THE RHINE

If a soldier knows that no matter where he may be posted on duty, his wife and children will soon join him, or indeed travel with him, he is a happy man. The British, however, have an inborn distrust of 'natives,' be they Germans, Indians, Malayans or Chinese, so that it can be a great source of confidence to a travelling family to know that anywhere in the world they will have the backing of typical British services, not least of all doctors, nurses and hospitals.

## A TYPICAL DAY

My day began with what has long been termed the sick parade. This is, in fact, not a parade of any kind, but a normal surgery, in this case at 8.30 in the

morning with the patients all men. The soldiers sit comfortably in the waiting room, reading magazines, until the sign goes on and it is their turn to see the doctor in the privacy of his consulting room.

Following this, there were usually three or four men to see each day for brief general medical examinations. In this way, the overall health of a regiment is under constant review, and men are given a chance to live the type of Army life for which they are most physically suited. The Army institution of injections still exists; but, after all, the modern soldier may travel anywhere in the world at very short notice, and it is greatly to the benefit of him and his family, that we should be able to give them protection against so many diseases which used to be fearful scourges.

Half an hour on one or two mornings a week are often set aside for this, when the protection of a few men would be brought up to date and so, in this way, the whole regiment is kept as immune as possible to disease. As in all good professions, there was then a suitable break for coffee, biscuits and cigarettes, which in Germany only cost a shilling for twenty.

The rest of my morning was then normally taken up with calls to visit families in their quarters. All the normal childhood ailments were there in abundance, and with a close-living community there were seasons of spots. While there is nothing like the

same proportion of old people, who tend to take up so much of a civilian doctor's time in Britain, families often have older friends or parents staying with them on holiday, who present the doctor with a medical surprise in the way of a complicated or interesting diagnosis.

With the visits finished, I could then have a peaceful hour and a half at home for lunch with my wife and children, though it wasn't unheard of for the phone to go in the middle of it and to be told, 'come quick, Trooper Jones has dropped a tank on his fingers.' But this is a doctor's lot, or privilege, in all walks of life, and I soon became quite an expert at the minor surgery of everyday cuts and bruises.

## **FAMILY CLINICS**

Four afternoons a week I had a family clinic in the Medical Centre from two to four o'clock. For this we had a separate consulting room and waiting room for families only. Assisting at those clinics were a SSAFA sister, who is a combination of sister, midwife and health visitor, and a German qualified sister.

One of those afternoon clinics was usually set aside for babies only, and in this it was rather I who assisted the SSAFA sister, and a vast number of infants were duly weighed and filled up with their triple antigens, polio inoculations and vaccinations, according to age.

35

This particular clinic always seems to be the greatest attraction abroad, and the mothers find a great moral boost in Sister's encouraging words as the infants go off until next time. One morning each week a gynaecologist visited the Medical Centre from the nearby Military Hospital to hold an antenatal clinic, where an expert eye was kept on the well-being of all expectant mothers.

The tie-up with the Army Hospital Services is indeed close in all aspects. The hospitals have staffs of physicians and gynaecologists, specialists in skin diseases, eyes and ENT, and even psychiatrists, all RAMC personnel. When I wished to make a specialist appointment for a patient, a letter quickly arranged it, and when the day came around, the journey to hospital was made free by army car or bus.

Drugs, too, are free. Each medical centre contains a completely stocked dispensary—the old joke of the number 9 is dead now; in fact, I've never been quite sure what it was. The doctor has available the drugs of his choice, and presentation of his prescriptions to the dispensary brings them to the patient free of charge.

## ARMY LIFE ABROAD

Beyond my medical duties, I have found great attraction in the Army life out here. In any unit or regiment, the doctor is a valued and honoured citizen and attempts are always made to keep him a happy one. Most important is a good house and garden to live in, and I may say that never in civilian life could I hope to live in a house so good and so well equipped as that provided for me by the Army. You may gather I like it, both the work and the play. I like to travel abroad, not just to see a place, but to live there and find out what it is really like.

If you wish to know more about service as an Army Doctor, a booklet, 'A Career for Doctors in the RAMC,' may be obtained from the Director-General, Army Medical Services, The War Office, (HNR/35/A), London S.W.1. Tel: GRO 8040, Ext. 602. Or you may care to come in and discuss your particular case with us personally; if so, please write or telephone for an appointment.

## DRUGS IN THE TREATMENT OF DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the British Medical Journal, the book presents an up-to-date, indexed, authority on medicinal treatment —of considerable help to the doctor in choosing the best drug for his patient.

#### **NOTICES**

#### UNIVERSITY OF GLASGOW APPLICATIONS FOR ADMISSION IN OCTOBER, 1964

Candidates for admission in Session, 1964-5, must make application as follows:

(1) DIRECT APPLICATION is to be made on a form obtainable from the Registrar after October 1, 1963. The completed form is to be returned to the Registrar

egistrar
by December 31, 1963, for the Faculty of
Medicine (degrees of M.B., Ch.B.,
B.D.S., B.V.M.S.)
by March 31, 1964, for all other
Faculties.

Applications should be sent in as early as possible, since the University may be able to give early acceptance to some particularly well-qualified candidates before the closing date.

(2) UNIVERSITIES CENTRAL COUN-CIL ON ADMISSIONS

The University of Glasgow is participated ing in the U.C.C.A. Scheme to the extent shown below:

shown below:

(i) An applicant whose home is in Scotland is to apply direct (as in (1) above) to the University of Glasgow (and similarly for the Universities of St. Andrews and Aberdeen), and may also apply through the U.C.C.A. to universities participating fully in the Scheme.

in the Scheme.

(ii) An applicant whose home is elsewhere in the United Kingdom, including an overseas applicant living in the United Kingdom at the time of application, is to apply direct, but if applying to any of the universities through the U.C.A. is to apply through the Central Office only and to include any Scottish Universities within the permitted total of four.

Overseas applicants (other than those in (ii)) are to apply direct to the Registrar through the agency in the United Kingdom which handles their applications.

which handles their applications.

The last date for the receipt of applications by the Central Office of the U.C.C.A. is December 31. 1963, for all Faculties. Applications received after this date will be considered at the discretion of the individual universities or colleges. U.C.C.Atapplication forms are obtainable at school, roi the applicant is not at school, from the Central Office. U.C.C.A., 29 Tavistock Square, London W.C.1.

#### THE COLLEGE OF PATHOLOGISTS 12 Grosvenor Crescent, London S.W.1

12 Grosvenor Crescent, London S.W.1

MEMBERSHIP BY EXAMINATION
Examinations for Membership of the
College will begin in 1964. The examination will be in two parts: a broadly based
Primary Examination taken after a minimum of two years' full-time work in the
field of pathology, and a Final Examination in one main branch of pathology
taken after a minimum of five years' work
in pathology. In certain circumstance
exemption may be granted from the whole
or part of the Primary Examination. It
may be necessary to limit the number of
entrants to each examination.

It will greatly assist the officers of the
College in organizing these examinations
if those intending to enter will notify the
Registrar, who will forward further details.

Hals (Bergen) at 5.30 p.m. on October 7 at the London School of Hygiene and Tropical Medicine, Keppel Street, Gower Street, W.C.I. Admission free, without ticket.—James Henderson, Academic Registrar. (9325)

#### THE COLLEGE OF PATHOLOGISTS MEMBERSHIP WITHOUT EXAMINATION

EXAMINATION

Founder Membership

Applications from those eligible will be considered up to April 30, 1964. The names of some 1,100 senior pathologists have now been accepted by Council and these will be formally admitted when the College has been incorporated. Membership

(a) According to the Articles of Association, medically qualified pathologists reaching consultant status or its equivalent during the three year period April 1963 to 1966 will automatically be eligible for admission to Membership.

(b) The Council now intends to proceed to consider application by these who have not yet reached consultant status or its equivalent, but whose training and experience would appear to exempt them from the whole or part of the furthcoming examination for Membership.

Application is now invited from pathologists, other than those undergoing training, who have held an established hospital, teaching, or whole-time research appointment for five or more years.

Each of those wishing to claim exemp-tion will be considered on an individual basis: such application should be made as soon as possible and, in any e.ent, not later than April 30, 1964.

tater tnan April 30, 1964.

(c) In certain circumstances, Membership may be granted to those submitting published works on pathology or related subjects adjudged to be of sufficient distinction.

Application forms and further informa-tion may be obtained from the Registrar, the College of Pathologists, 12 Gres.encr Crescent, London S.W.1. (9304)

#### UNIVERSITY OF LONDON

A lecture entitled "Clostridial toxins in clostridial infections" will be delivered by Professor C. L. Oakley (Leeds) at 4 p.m. on October 8 at the Royal Veterinary College, Camden Town, N.W.I. Admission free, without ticket.—James Henderson, Academic Registrar. (9326)

## ST. ANDREW'S HOSPITAL, **NORTHAMPTON**

NORTHAMPTON
FOR NERVOUS AND MENTAL
DISORDERS
President: The Earl Spencer
Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.
This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fifteen guineas per week. Private rooms with special nurses can be provided, either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recreation and Occupation Centre, known as Gloucester House, has been opened recently which includes an occupational therapy, department, a swimming pool, a squash court, and a library with an adjoining reading room.

WANTAGE HOUSE
This is a separate reception unit to which patients may be admitted. It is

reading room.

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acress Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: 34354 Northampton), who can be seen, in London by appointment.
