DRUGS in the TREATMENT of DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side-effects.

Compiled from the series of articles published in the *British Medical Journal*, the book gives authoritative guidance, fully indexed, on medicinal treatment—of considerable help to the doctor in choosing the best drug for his patient.

“Doctor,
I feel awful”

Once she might have been diagnosed as “anxiety state”. Today, you know she might be a depressive, but it doesn’t seem as simple as all that. The truth of the matter is that patients don’t always fit neatly into diagnostic categories. They may suffer from such diverse symptoms as depression, agitation, loss of appetite and tension-fatigue at the same time.

The great strength of ‘Aventyl’ is that its beneficial actions range widely over the symptoms which plague these

problem patients. ‘Aventyl’ is not merely an anti-depressant, nor is it a combination of drugs. It is a *single substance* which relieves a constellation of mental and emotional symptoms embracing depression, anxiety and their effects on awareness and mood.

‘Aventyl’ is not a monoamine oxidase inhibitor, and no serious side-effects have been reported at the recommended dosage.

‘AVENTYL’TM lightens the troubled mind

Nortriptyline

‘Pulvules’ of 10 mg. and 25 mg. Liquid: 10 mg. in each 5 ml., in bottles of 120 and 480 ml.

Psoriasis

Clinical tests confirm Alphosyl's effectiveness

Accumulating evidence increasingly underlines Alphosyl's effectiveness in cases of psoriasis, even in those that have proved intractable to other forms of treatment. Its success is attested by the fact that after only 2 years Alphosyl Lotion became the leading branded preparation for psoriasis in this country.

New Alphosyl Cream Following the success of Alphosyl Lotion, this coal-tar and allantoin combination is now available in Britain as a lubricating cream. The cream base has proved a particularly effective vehicle for Alphosyl as it incorporates a combination of free fatty acids (saturated and unsaturated) naturally occurring in triglycerides, sterols and esters to give the lipid phase of the base a significant resemblance to the lipid array of normal human skin¹.

Clinical Trials The table below gives the results of four different clinical trials which show the effectiveness of Alphosyl in lotion and in cream form.

No. of patients	100% cleared	75%-99% improved	50%-74% improved	25%-49% improved	No improvement
62 ³	29	26	7	0	0
50 ⁴	11	16	17	6	0
41 ¹	27	9	5	0	0
96 ²	44	29	15	0	8

Why Alphosyl is so effective In Alphosyl, allantoin and a specially refined coal-tar extract were combined for the first time. Allantoin has been found to be particularly effective in loosening psoriatic scales⁵, while the keratoplastic effect of coal-tar is well known⁵. Alphosyl is non-greasy and non-staining and vanishes on application. It is notably safe,⁵⁻⁴ being free from the risks which are found in other forms of treatment such as arsenicals, mercury, corticosteroids, x-ray, etc. It certainly deserves a trial in all cases of psoriasis.

Stafford-Miller Limited, Hatfield, Herts. by arrangement with Reed & Carnrick, Kenilworth, New Jersey, USA.

Alphosyl Lotion formula—special coal-tar extract 5% + allantoin 2% in a smooth, non-greasy lotion base.

Alphosyl Cream formula—allantoin 2% + 90% alcoholic extract of coal-tar (5=1) 5% in a vanishing cream type base.

SINGLE-DOSE TREATMENT FOR BOTH THREADWORMS AND ROUNDWORMS

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis... The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects."

Lancet, 1960, *i*, 256.

"Pripsen... is a highly effective agent against ascariasis."

"Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and, in the remaining 14, repeated dosage... resulted in a 100% cure-rate... Apart from one patient... there were no undesirable side-effects in this series, which included babies of 4 and 5 months."

Leprosy in Theory and Practice

Second
Edition

Edited by R. G. Cochrane
assisted by T. F. Davey

With the collaboration of recognized authorities in various fields, the editor has produced a book which covers both practical and theoretical aspects of the subject, and one which has become the standard textbook. This book has been written in an endeavour to present a comprehensive account of leprosy in its modern setting, and to stimulate and encourage a greater interest in, and a better understanding of, this disease.

TEVIOT PLACE, EDINBURGH

Too much IRON?

Too much iron delivered in any one place at any one time is difficult to deal with, to say the least. In the stomach, excessive ferrous sulphate causes irritation and unpleasant side effects, often leading to the patient's abandoning therapy.

The **FERRO-GRADUMET**® is a unique approach to the treatment of iron-deficiency anaemia; for just one tablet daily gives steady, trouble-free assimilation of ample amounts of iron. Instead of releasing a corrosively large dose of ferrous sulphate in the stomach, the Gradumet slowly leaches out its contents over a period of hours throughout the gastro-intestinal tract until, finally, the empty matrix is excreted.

This once-daily haematinic is made to be taken on an empty stomach. The predetermined release pattern, which is independent of body chemistry, retains the greater part of the ferrous sulphate until the tablet has passed into the small intestine, where it is better absorbed with less irritation.

The secret of the Gradumet lies in an inert spongelike matrix, the pores of which are permeated with ferrous sulphate and a soluble 'channelling agent'. Each **Ferro-GRADUMET** tablet contains 525 mg ferrous sulphate, equivalent to 105 mg elemental iron—a sufficient daily dose in all but the most severe cases of iron-deficiency anaemia.

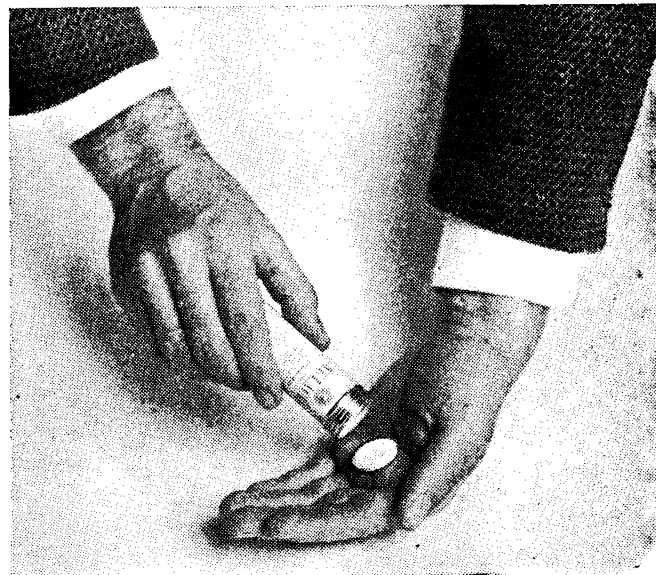

In pregnancy and other conditions where gastro-intestinal side effects are particularly to be avoided, a course of **Ferro-GRADUMET** tablets makes an ideal oral iron treatment—so sure that it may often obviate the need for parenteral administration, and more acceptable than the needle.

PRESENTATION Each red Filmtab® (film-coated tablet, Abbott) contains 525 mg ferrous sulphate (in exsiccated form), equivalent to 105 mg elemental iron. A complete month's treatment (30 **Ferro-Gradumet** tablets) has a basic NHS cost of 5/5 from largest pack.

Indications

There are very many conditions met with in general practice in which corticosteroids are indicated—ranging from diseases of comparatively minor severity to major, life-threatening conditions. Those in which systemic steroid treatment can be of definite value include:

Allergic states

(asthma, hay fever, angioneurotic oedema, serum sickness, drug sensitisation)

Inflammatory dermatoses

Rheumatoid arthritis

Shock and overwhelming infections

Chronic bronchitis

(complicated by circulatory collapse)

Betamethasone, introduced 5 years ago, represented the end of a long search by Glaxo Laboratories for a safer low-cost corticosteroid. The resulting products, Betnelan tablets and Betnesol solution tablets, may be used with confidence in hospital and in general practice.

HYDRATENE

"In domiciliary practice generally, almost half of those people who regularly require hypnotics, but who are not mentally or physically ill, can be satisfactorily sedated by means of a small dose of chloral given in some palatable form." *Practitioner*, 1963, 191, 353.

Each Hydratene tablet contains the equivalent of
Chloral Hydrate 4 grains
Paracetamol 6 grains

To ease pain and induce sleep Hydratene combines the well-known hypnotic Chloral Hydrate, with the modern analgesic Paracetamol, and has the fundamental merit of being both effective and mild. In this compound form Chloral Hydrate has little odour or taste and shares with the analgesic, Paracetamol, the advantage of being singularly free from side effects and habituation. Hydratene, in the appropriate dosage, is therefore safe for adults and children as well as senile patients who are intolerant to alcohol and barbiturates but not of Chloral Hydrate.

Dosage: 1-3 tablets as may be directed by the physician.

Available in packings of 25 and 250.

Basic N.H.S. prices: 2/6 and 13/4.

Bovril helps
to put them
on their feet
again

Savoury Bovril is more than just a delicious drink. It has a way of stimulating the jaded appetites of patients recuperating after sickness or surgery. Bovril's palate-tempting properties enable them to take more interest in mealtimes and so help speed recovery. Moreover, Bovril contains the extracted goodness of prime lean beef and B vitamins (Riboflavin and Niacin). Always enjoyable and easy to digest, Bovril on the menu can hasten convalescence.

AUSTRALIA
New South Wales Public Service
Department of Public Health

Applications are invited for positions as **ASSISTANT MEDICAL OFFICERS OF HEALTH**

During the past five years the Department has greatly extended its functions throughout the State and it is expected that there will be further growth in the next five-year period.

Applicants should possess a qualification in Public Health recognized in New South Wales.

On appointment applicants will be attached to Central Administration in Sydney and later will be expected to take appointment in one of the larger country towns. In these centres, offices have been established with two Medical Officers of Health, a Principal and a Deputy.

Most services such as the School Medical Service, Maternal and Baby Welfare and Tuberculosis, have been decentralized. Encouragement is given to medical officers to initiate and conduct field research, for example, surveys of immunity against diphtheria, the health of aborigines, and the zoonoses in abattoir workers, are taking place at present.

The salary is £A.3,460 per annum. Details of the superannuation scheme, one of the most generous in the Commonwealth, will be sent on application. Subject to signing a three-year bond of service, fares will be paid for successful applicants, their wives and children, with allowances for incidental expenses.

In addition, there are two similar positions as Permanent posts, available in the Sydney Office, which are suitable for two older applicants who are not seeking advancement to appointments as Medical Officer of Health.

Applications available from the Agent General for New South Wales, 56 Strand, London W.C.2, and must be submitted by July 20, 1964. (5918)

ST. ANDREW'S HOSPITAL,
NORTHAMPTON

FOR NERVOUS AND MENTAL DISORDERS

President: The Earl Spencer

Medical Superintendent:

D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fifteen guineas per week. Private rooms with special nurses can be provided, either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recreation and Occupation Centre, known as Gloucester House, has been opened recently which includes an occupational therapy department, a swimming pool, a squash court, and a library with an adjoining reading room.

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: 34354 Northampton), who can be seen in London by appointment.

WYKE HOUSE, ISLEWORTH

A private hospital, established in 1826 for the individual treatment and care of a limited number of psychiatric patients. Apply Resident Physician. Tel.: ISL 7000

Osteoporosis ?

Calcium-SANDOZ Effervescent Tablets

“Studies are reported here which suggest that calcium deficiency is an important factor in many cases of postmenopausal and senile osteoporosis. Many patients with these forms of osteoporosis absorb and retain calcium abnormally avidly when on a high calcium intake in the form of supplements (calcium gluconate Sandoz), and moreover may continue to retain it avidly for at least three and a half years.

Symptoms of the disease are relieved and no further fractures take place.”
