

GRIP ALONE IS NOT ENOUGH!

NEW Firestone F7

gives you the strength behind the grip!

Grip is important but grip alone is not enough: it's the strength behind the grip that counts. The world's finest grip is of little use if the carcass won't stand up to the strain or if the tread wears out too quickly. There's more to a tyre than grip alone: you need grip plus strength.

Firestone development engineers have spent years of research and testing to produce the F7, the perfect tyre, round shouldered, strong, cooler running, flexible: a new standard in safety; a tyre by which to judge all others. Perhaps some day all tyres will be as good—today the F7 is paramount.

STRONGER TYRE BODY

F7 cord body is built to stand up to the toughest of everyday motoring conditions.

GREATER STABILITY

F7 tread profile gives a smooth, true ride, even over cats' eyes and raised white lines.

BETTER CORNERING

F7 grip acts superbly when needed most—on corners. Safer cornering than ever before.

HIGHER MILEAGE

F7 tread has special stabilisers built-in to give more miles.

ADVANCED TREAD PATTERN

F7 tread has seven ribs—five main ribs, plus two round the shoulders to give non-skid safety.

REMARKABLE WET WEATHER GRIP

F7 tread pattern is scientifically designed to squeeze water away from the point of road contact.

NEW RUBBER COMPOUND

F7 is made with the latest Firestone miracle rubber compound SUP-R-TUF for safety and long life.

the oral penicillin with the injectable performance

Not only is Ultrapen a first-class oral penicillin for routine use, its reliability is such that it . . . can with confidence be used in all conditions in general practice in which injections of benzylpenicillin would normally be employed. *J. Pharm. Med.* 1964, 29, 209.

of what value are microdoses of
folic acid in anaemia of pregnancy?

folaemin provides sounder protection against anaemia of pregnancy than oral iron alone

Recent investigations* indicate that folic acid added to iron provides a sounder prophylactic approach to anaemia of pregnancy than oral iron alone. *Folaemin* has been formulated with this in mind and is significantly different from other haematinic preparations in one major respect. In addition to iron, *Folaemin* contains a *microdose* of folic acid (50 micrograms). Microgram doses of folic acid routinely administered from the early months of pregnancy not only ensure increased response to oral iron but can prevent folic acid deficiency and the emergence of a frank megaloblastic anaemia, without masking a true pernicious anaemia.

LAEVADOSIN

a treatment for Muscular Dystrophy

Following a two-year clinical and biochemical assessment on patients suffering from Muscular Dystrophy of the Duchenne type, it has been reported* that LAEVADOSIN may prove of value in arresting the wasting processes of this myopathy. According to published findings the dosage regime should commence with intravenous infusions followed by domiciliary maintenance with LAEVADOSIN.

†It is also reported in a follow up check over a period of from 5 to 28 months (average 15 months) 14 out of 19 maintained their improvement or improved further, 5 lost some of the improvement but only 1 patient deteriorated to the point where treatment was begun.

LAEVADOSIN is a mixture of nucleotides and nucleosides essential to the vitality of the normal cell.

Further particulars of dose regime and technique of application available on request.

SIDROS—FOR THE PATIENT DEFICIENT IN IRON well tolerated iron compound plus reducing agent to aid absorption

In the treatment of iron-deficiency anaemia many iron salts can produce the desired increase in haemoglobin level. Some also have a tendency to produce side-effects, and there can be a great deal of wastage through non-absorption.

SIDROS is designed to overcome these disadvantages, and provides a reliable treatment for iron-deficiency anaemia.

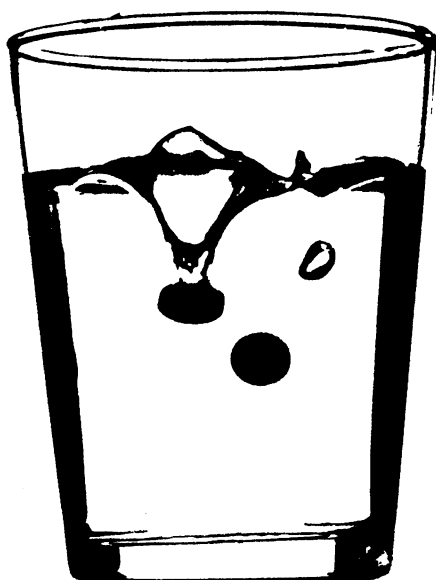

Ferrous gluconate Each Sidros tablet contains 300 mg of ferrous gluconate which produces a highly satisfactory clinical response and is very well tolerated.

Ascorbic acid Sidros also contains ascorbic acid (30 mg per tablet) which is known to aid absorption by maintaining iron in the reduced state.

The basic NHS price of 100 Sidros tablets is 2/8 as dispensed from 1000 tablet bottle. Samples of Sidros are available on request.

SIDROS is effective, well absorbed, well tolerated and economical

Betnesol the corticosteroid tablets patients drink

Betnesol is a water soluble tablet of betamethasone phosphate which when given in this fluid form represents oral corticosteroid therapy in its most rapidly absorbed form.

A much better tolerance and less risk of gastric disturbance result because no solid steroid particles reach the stomach.

Betnesol offers rapid and maximum absorption, the most constant therapeutic effect and in some cases, allows reduction of dosage.

“Doctor,
I feel awful”

Once she might have been diagnosed as “anxiety state”. Today, you know she might be a depressive, but it doesn’t seem as simple as all that. The truth of the matter is that patients don’t always fit neatly into diagnostic categories. They may suffer from such diverse symptoms as depression, agitation, loss of appetite and tension-fatigue at the same time.

The great strength of ‘Aventyl’ is that its beneficial actions range widely over the symptoms which plague these

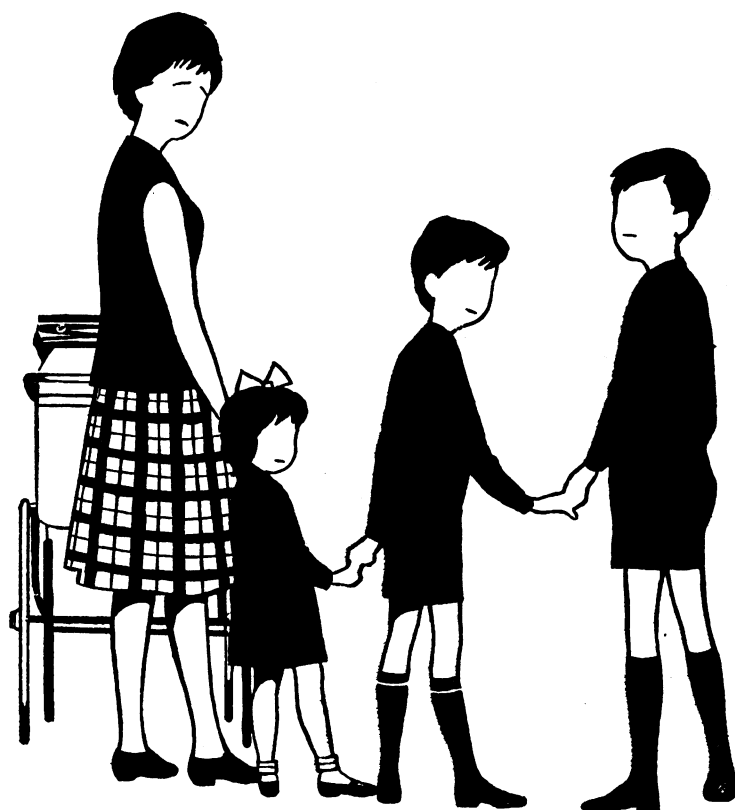

problem patients. ‘Aventyl’ is not merely an anti-depressant, nor is it a combination of drugs. It is a *single substance* which relieves a constellation of mental and emotional symptoms embracing depression, anxiety and their effects on awareness and mood.

‘Aventyl’ is not a monoamine oxidase inhibitor, and no serious side-effects have been reported at the recommended dosage.

In the treatment of inflammatory dermatoses, *Remiderm*, which combines a highly effective antiseptic, halquinol, with the well-established topical corticosteroid, triamcinolone acetonide, rapidly relieves the inflammatory, pruritic or allergic symptoms, and at the same time, protects the lesion from secondary infection. Where infection is already present *Remiderm* hastens recovery by controlling the causative organisms, but, unlike the antibiotic-corticosteroid combinations, *Remiderm* has not been found to cause skin sensitization and cannot induce the development of antibiotic-resistant bacteria.

Remiderm is available in two forms: cream and ointment. Each contains triamcinolone acetonide 0.025% and halquinol (Squibb chlorhydroxyquinoline) 0.75%. Packs: 15 gm. tubes, 7/9 basic NHS price.

continuous drip control of ulcer
by tablet

PRODEXIN tablets give all the benefits of continuous intragastric drip therapy¹ without any of its disadvantages.

The slow suck down tablets are specially formulated to give prolonged antacid buffer effect, unaffected by stomach emptying rate.²

Immediate relief of pain is achieved by rapidly raising pH to 2 neutralising excess acid and controlling the acid secretion by slowly building up the pH to a desirable level of pH3.5 and pH4.5

DOSAGE:

For continuous therapeutic effect one tablet at a time should be sucked slowly.
For peptic ulcer one or more tablets an hour.

ADMINISTRATIVE

THE MEDICAL RESEARCH COUNCIL
invite applications from medical graduates aged between 30 and 50 years, for the post of Administrative Medical Officer at their Clinical Research Centre, to be built at Northwick Park, near Uxbridge, in close association with a new District Hospital. The Centre, which is in an advanced stage of planning, will include extensive clinical and laboratory facilities, so that a multidisciplinary approach can be brought to bear on current medical problems by a large staff of research workers of different skills.
The medical officer to be appointed will assist the Director with the administration of the Centre and will be responsible to him for liaison with the District Hospital and for relations with the public and press. The successful applicant is likely, therefore, to be interested in administrative aspects of medical research and in the opportunity of keeping abreast of the latest developments in medical science. A pleasant personality, tact and the ability to get on well with people are essential qualifications for the post.
Initially the Administrative Medical Officer will be attached to the Medical Research Council's Headquarters Office in order to become familiar with the Council's organization and methods of administration. He will also work closely with the Director-designate (Professor J. R. Squire, M.D. F.R.C.P.) on the final detailed planning and early phases of commissioning of the Centre.
The starting salary will be a point on a scale from £2,026 rising to £3,450 per annum. The appointment will be to the Council's established staff, subject to satisfactory completion of a probationary period of two years, and superannuation provision will be made from the outset.
Applicants should write (giving full details of education, qualifications and experience, with the names and addresses of two professional referees) to the Personnel Officer, Medical Research Council, 20 Park Crescent, London W.1, by August 17, 1964. (7839)

SINGLE-DOSE TREATMENT FOR BOTH THREADWORMS AND ROUNDWORMS

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis...The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects."

Lancet, 1960, i, 256.

"Pripsen...is a highly effective agent against ascariasis."

"Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and, in the remaining 14, repeated dosage...resulted in a 100% cure-rate...Apart from one patient...there were no undesirable side-effects in this series, which included babies of 4 and 5 months."

S. Afr. med. J., 1962, 36, 240.

*The Sherry of
all Sherries...*

RICH, LUSCIOUS AND OF VERY GREAT AGE

Domecq's

CELEBRATION CREAM

Domecq's 'CELEBRATION CREAM' sets a standard of high quality and excellence in Sherry which is probably unique. Aged in the wood in the Bodegas of the great Spanish Sherry House of Pedro Domecq—shippers to this country continuously since 1730—'CELEBRATION CREAM' is a Sherry of rare and distinctive appeal.

Obtainable everywhere from Wine Merchants and in the best bars and hotels. If you have not yet tasted this superb and outstanding Sherry, do so to-day.

Remembering the most popular 'DOUBLE CENTURY' the exquisite dry 'FINO LA INA' ... and the choice Amontillado 'CASINO'
