

# PLEASE REMEMBER CANCER!

You may be asked from time to time to suggest a deserving cause as the subject of a bequest. Please remember that every year the British Empire Cancer Campaign for Research has to find more and more money for cancer research work not only in this country but in many parts of the Commonwealth. All this money must come from voluntary donations and bequests. The appropriate words to use in a will are: "I bequeath to the British Empire Cancer Campaign for Research the sum of £....." or "I devise and bequeath the residue of my estate to the British Empire Cancer Campaign for Research".

For further information please write to Sir Joseph Lockwood, Hon. Treasurer, British Empire Cancer Campaign for Research, Dept. BM L8., 11 Grosvenor Crescent, London SW1.

## continuous drip control of ulcer by tablet

PRODEXIN tablets give all the benefits of continuous intragastric drip therapy<sup>1</sup> without any of its disadvantages.

The slow suck down tablets are specially formulated to give prolonged antacid buffer effect, unaffected by stomach emptying rate.<sup>2</sup>

Immediate relief of pain is achieved by rapidly raising pH to 2 neutralising excess acid and controlling the acid secretion by slowly building up the pH to a desirable level of pH3.5 and pH4.5

### DOSAGE:

For continuous therapeutic effect one tablet at a time should be sucked slowly.  
For peptic ulcer one or more tablets an hour.

**How to save money  
(and like it)!***This booklet shows you the way*

The City Prudential Building Society has devised a really practical plan for building up savings. With Five-Year Bonus Shares, you set aside money at monthly intervals for five years — and earn a bonus rate of interest for doing so. You can pay in any sum you choose between 10/- and £20 each month. And your money is always accessible at very short notice. Five-Year Bonus Shares are not susceptible to Stock Market fluctuations. And they can produce 4½% tax paid — equivalent to £6.18.9d. per cent. if you pay income tax at the standard rate of 7/9d. This excellent rate of interest is backed by the security of a well-established Building Society. Read about Five-Year Bonus Shares for yourself. Write today, to the Managing Director for full details.

“Doctor,  
I feel awful”

Once he might have been diagnosed as “anxiety state”. Today, you know he might be a depressive, but it doesn’t seem as simple as all that. The truth of the matter is that patients don’t always fit neatly into diagnostic categories. They may suffer from such diverse symptoms as depression, agitation, loss of appetite and tension-fatigue at the same time.

The great strength of ‘Aventyl’ is that its beneficial actions range widely over the symptoms which plague these

problem patients. ‘Aventyl’ is not merely an anti-depressant, nor is it a combination of drugs. It is a *single substance* which relieves a constellation of mental and emotional symptoms embracing depression, anxiety and their effects on awareness and mood.

In the treatment of inflammatory dermatoses, *Remiderm*, which combines a highly effective antiseptic, halquinol, with the well-established topical corticosteroid, triamcinolone acetonide, rapidly relieves the inflammatory, pruritic or allergic symptoms, and at the same time, protects the lesion from secondary infection. Where infection is already present *Remiderm* hastens recovery by controlling the causative organisms, but, unlike the antibiotic-corticosteroid combinations, *Remiderm* has not been found to cause skin sensitization and cannot induce the development of antibiotic-resistant bacteria.

*Remiderm* is available in two forms: cream and ointment. Each contains triamcinolone acetonide 0.025% and halquinol (Squibb chlorhydroxyquinoline) 0.75%. Packs: 15 gm. tubes, 7/9 basic NHS price.

# GRIP ALONE IS NOT ENOUGH!

## NEW Firestone F7

**gives you the strength behind the grip!**

Grip is important but grip alone is not enough: it's the strength behind the grip that counts. The world's finest grip is of little use if the carcass won't stand up to the strain or if the tread wears out too quickly. There's more to a tyre than grip alone: you need grip plus strength.

Firestone development engineers have spent years of research and testing to produce the F7, the perfect tyre, round shouldered, strong, cooler running, flexible: a new standard in safety; a tyre by which to judge all others. Perhaps some day all tyres will be as good—today the F7 is paramount.

### STRONGER TYRE BODY

F7 cord body is built to stand up to the toughest of everyday motoring conditions.

### GREATER STABILITY

F7 tread profile gives a smooth, true ride, even over cats' eyes and raised white lines.

### BETTER CORNERING

F7 grip acts superbly when needed most—on corners. Safer cornering than ever before.

### HIGHER MILEAGE

F7 tread has special stabilisers built-in to give more miles.

### ADVANCED TREAD PATTERN

F7 tread has seven ribs—five main ribs, plus two round the shoulders to give non-skid safety.

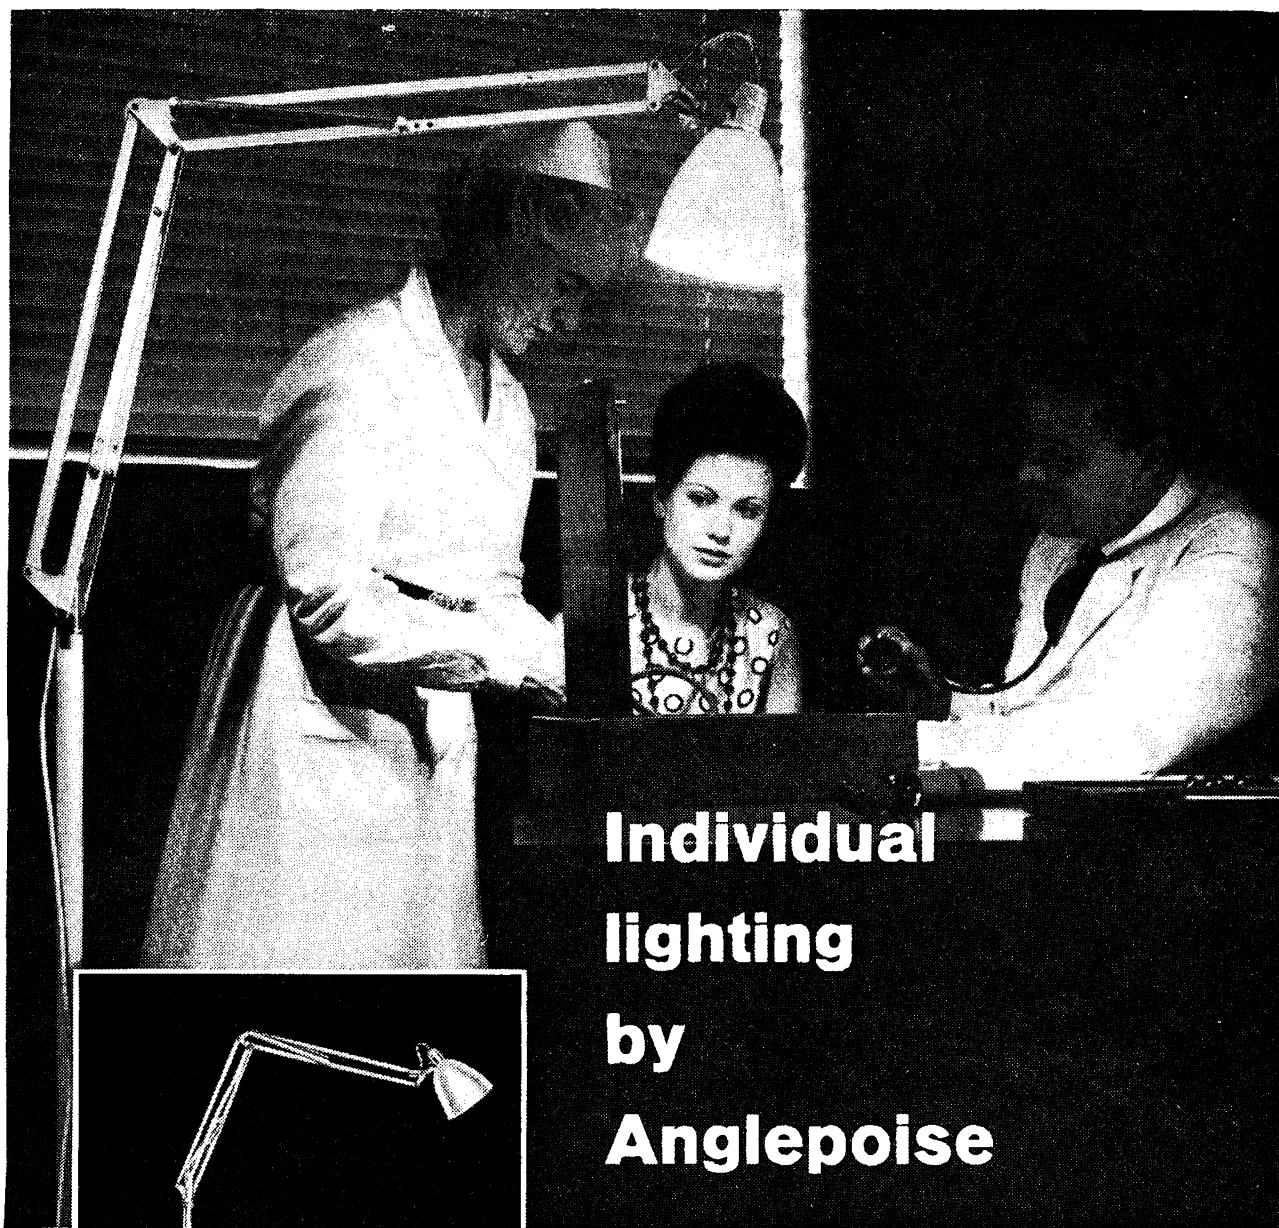

### REMARKABLE WET WEATHER GRIP

F7 tread pattern is scientifically designed to squeeze water away from the point of road contact.

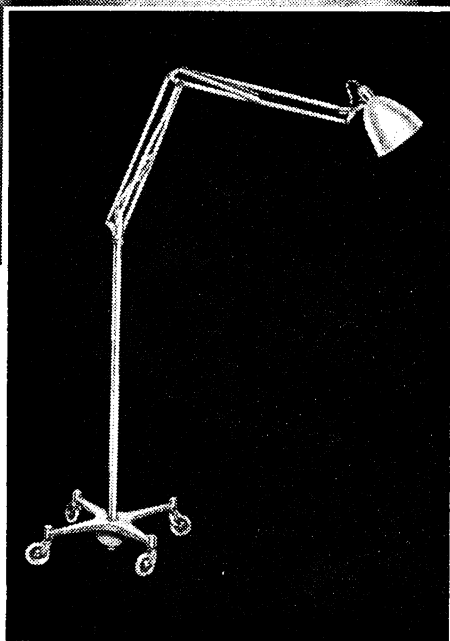

### NEW RUBBER

F7 is made with the latest Firestone miracle rubber SUP-R-TUF for safety and long life.

# An analysis of the nutritional properties of Mackeson

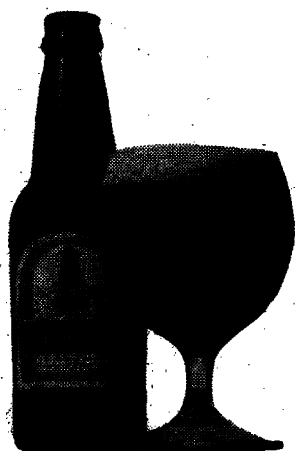

Of course, dark beers have long been regarded as a valuable aid in building up strength after illness. But Mackeson has the important advantage of being more acceptable to invalids and convalescents because of its taste. Instead of having the bitter taste usually associated with dark beer, it is smooth and mild in flavour and consequently 'goes down' much better with the patients.

## **SIDROS**—FOR THE PATIENT DEFICIENT IN IRON well tolerated iron compound plus reducing agent to aid absorption

In the treatment of iron-deficiency anaemia many iron salts can produce the desired increase in haemoglobin level. Some also have a tendency to produce side-effects, and there can be a great deal of wastage through non-absorption.

**SIDROS** is designed to overcome these disadvantages, and provides a reliable treatment for iron-deficiency anaemia.

**Ferrous gluconate** Each Sidros tablet contains 300 mg of ferrous gluconate which produces a highly satisfactory clinical response and is very well tolerated.

**Ascorbic acid** Sidros also contains stabilized ascorbic acid (30 mg per tablet) which is known to aid absorption by maintaining iron in the reduced state.

*The basic NHS price of 100 Sidros tablets is 2/8 as dispensed from 1000 tablet bottle. Samples of Sidros are available on request.*

8-10 hours' cough relief—longer than with any other cough preparation—is provided by each teaspoonful of *Pholtex*. Because of its prolonged action, two doses daily are usually adequate and 2 fl. oz. can provide treatment for one week for as little as 4/9 (basic NHS cost).

*Pholtex* contains pholcodine and phenyltoloxamine as ion-exchange resin complexes to give smooth and prolonged cough relief—up to ten hours in many cases—from each teaspoonful dose.

*Pholtex* is ideal for paediatric use. It is pleasantly flavoured and simple to administer—even to infants.

*Dosage:* one teaspoonful (4ml.) two or three times daily.  
*For children:* half to full adult dosage, according to age.

## UNCOMMON RELIEF for the common cold with 'EMPRAZIL'

'Emprazil' does more than merely clear stuffy noses — it relieves aches and pains, reduces depression; in fact it alleviates ALL the symptoms of the common cold and 'flu. Dosage for adults is two tablets three times a day; for children over six years, half this amount.

Each 'Emprazil' tablet contains pseudoephedrine, chlorcyclizine, acetylsalicylic acid phenacetin and caffeine.

Slight drowsiness and dry mouth may occur in a few patients. Although pseudoephedrine has negligible pressor effect, caution should be observed in patients with raised blood pressure.

# IRON

## on an empty stomach

To prescribe iron before breakfast would be asking for trouble with ordinary ferrous sulphate tablets. Even taken after meals and in divided doses, such tablets cause irritation and unpleasant side effects in many patients, often leading to the abandonment of therapy.

But "One **FERRO-GRADUMET**® tablet before breakfast" is right. This once-daily haematinic is made to be taken on an empty stomach, for the Ferro-Gradumet is a unique approach to the treatment of iron-deficiency anaemia. Just one tablet daily, before breakfast, gives steady, trouble-free assimilation of ample amounts of iron. Instead of releasing a corrosively large dose of ferrous sulphate in the stomach, the Gradumet slowly leaches out its contents over a period of hours throughout the gastro-intestinal tract until, finally, the empty matrix is excreted.

The secret of the Gradumet lies in this inert sponge-like matrix, the pores of which are permeated with ferrous sulphate and a soluble "channelling agent". The predetermined release pattern, which is independent of body chemistry, retains the greater part of the ferrous sulphate until the tablet has passed out of the stomach into the small intestine, where it is better absorbed with less irritation.

Each Ferro-Gradumet tablet contains the exsiccated equivalent of 525 mg ferrous sulphate, providing 105 mg elemental iron—a sufficient daily dose in all cases of iron-deficiency anaemia.

**PRESENTATION** Each red Filmtab® (film-coated tablet, Abbott) contains 525 mg ferrous sulphate (in exsiccated form), equivalent to 105 mg elemental iron.

## THE INTERNATIONAL STANDARD OF MASS...

... is this platinum-iridium cylinder kept at the International Bureau of Weights and Measures, Sèvres, near Paris. It was established in 1889, and is known as the International Prototype Kilogramme. Its height is equal to its diameter and it is composed of 90% platinum and 10% iridium. Replicas

have been distributed, as national reference copies, to other countries.

If the reference weights have a different composition from the standard, the different *buoyances in air* must be taken into account. This emphasizes the high degree of accuracy involved.

## who's the man in the volkswagen?

He's an individualist. A man of ideas. Revolutionary ideas they are too.

Like an air-cooled engine. Commonsense really. Air doesn't boil or freeze and you can't run out of it. Or an engine at the rear, over the driving wheels. Makes driving possible in impossible conditions. Try it on snow—or mud—or sand.

Then he has this thing about finish and workmanship and reliability. The kind that makes his car so airtight that he can't slam the door without first opening a window.

So now he's got a car built for him, on his principles. Is he satisfied? No! Neither are Volkswagen. Which is why Volkswagens keep on improving. Change not for fashion's sake but to make them better and better.

Like the VW 1200 this year—more space, bigger windows, better luggage room. Twenty improvements in all—made for this man, and the 8 million like him all over the world. People to whom a Volkswagen makes a lot of sense. How about you?

## A NEW JOURNAL

Though there are two journals published in English that are devoted to heredity in man, there is no journal confined to medical genetics, and papers on the subject have been scattered over a wide number of specialized medical journals. With the increasing interest in medical genetics it is felt that the time has come for a journal devoted to this new and growing specialty.

# JOURNAL OF MEDICAL GENETICS

It is intended that this journal should be broadly based and that papers should appear not only on clinical studies but also on the statistical, pathological, cytological, and biochemical and other aspects. Although the journal will be mainly concerned with human genetics, occasional animal studies will be published where they are relevant. In addition, authoritative review articles will appear at fairly regular intervals.

The first quarterly number of this Journal was published in September, 1964. In the first volume there will be two numbers (September and December). In subsequent volumes, starting in 1965, there will be four numbers published in March, June, September and December. Each issue will contain some 70 pages of text.

Annual Subscription, Inland £3 3s. Abroad £3 10s. (U.S.A. \$10.00)

## CAREER IN MEDICAL ADMINISTRATION

An Assistant Senior Medical Officer is required to assist the Board's Senior Administrative Medical Officer in the medical administration of the hospital and specialist services of the Region.

For direct appointment to this grade previous administrative experience, preferably in the hospital or public health service, is desirable. Alternatively the Board is prepared to make a trainee appointment in the Medical Officer grade for a probationary period of one year, during which suitability for promotion to the Assistant Senior Medical Officer grade will be assessed.

The work is largely concerned with aspects of the organization and planning of the hospital services in the Region which, with the expansion in the building programme, are in process of redevelopment.

Candidates for the trainee appointment need not have had any previous experience in medical administration. This affords an excellent opportunity for a young doctor to test his/her aptitude in the field of medical administration where there are good career prospects.

Salary scales:

Medical Officer: £1,935 at age 29 or less, rising to £2,140 at age 33, by £60(1) by £65(4) by £70(1) to £2,530.

Assistant Senior Medical Officer: £2,530 by £100(3) by £105(3) to £3,145.

Application forms (to be returned by October 16) from Secretary, North East Metropolitan Regional Hospital Board, 40 Eastbourne Terrace, London, W.2. (Tel.: AMBassador 8011, Ext. 143.) (6749)

UNIVERSITY OF AUCKLAND  
New ZealandCANCER BIOLOGIST  
(Department of Microbiology)

Applications are invited for a research fellowship as Cancer Biologist. Applicants should have been trained in Zoology, Veterinary Science or Medicine and should preferably have had some experience in the maintenance of experimental tumours in mammals, in the pathology of tumours and in animal tissue culture techniques. The position is primarily a research post but the person appointed may be required to supervise the research work of students enrolled for an M.Sc. or Ph.D. degree. The main research interest in the Department is in nucleic acids and proteins as they relate to viruses and tumour growth. The Department is well equipped for the major biochemical and biophysical techniques involved in such work. The remuneration of the Research Fellow will be determined according to his age and experience within the range £NZ.1,300 to £2,500 per annum.

The appointment will be for a period of three years in the first instance but the Council is prepared to consider applicants wishing to hold the appointment for a period of less than three years. Further particulars and information as to the method of application should be obtained from the Secretary, Association of Commonwealth Universities (Branch Office), Marlborough House, Pall Mall, London S.W.1. Applications close in New Zealand and London on November 2, 1964.

# FOR COMPLETE AVAILABILITY OF THE B VITAMINS

Deficiencies of single factors of the Vitamin B Complex do not occur. Thus, even when a deficiency condition seems to result from the lack of a single factor of the Complex, and it is considered necessary to give intensive treatment with this factor, the other members of the Complex should be administered concurrently. It is therefore essential that the source of the Vitamin B Complex selected for this purpose should release its full vitamin content to the body. Human experiments show that the rich, natural vitamin potency of Aluzyme is completely available to the human system. Basic N.H.S. Cost: Tablets 500 4/-, 1000 7/2d.
