

BRITISH HEART FOUNDATION

A Progress Report

The British Heart Foundation has already made a number of specific grants to doctors and other scientific investigators engaged in a wide range of research. A great deal more money is now required to continue this valuable work.

Grants totalling more than £300,000 have already been promised to Institutions and individuals in over 50 centres. Among interesting projects being supported are:

* A clinical trial to determine whether reduction of elevated serum lipids in healthy men reduces their risk of developing ischaemic heart disease. (Royal Infirmary, Edinburgh) £10,000.

* A study of the haemodynamics of congenital heart disease (Post-graduate Medical School of London) £11,145.

* A Research Fellowship and technical assistance to study techniques for the correction of transposition of the great arteries in infants under one year. (Institute of Child Health, London) £12,500.

* A study of atherosclerosis in wild animals under natural conditions and in captivity. (The Nuffield Institute of Comparative Medicine) £21,000.

* Application of simultaneous biplane cine-angiography to the study of cardiac function. (Royal Infirmary and University of St. Andrews, Dundee). £6,000 for photographic apparatus.

* Dietary trials in healthy school children. (University of Ibadan, Western Nigeria). £5,000 for an automatic amino-acid analyser and an ultraviolet spectrophotometer.

As all doctors will recognise, this work represents only a fraction of the tremendous problem. The Foundation aims at a minimum income of £500,000 a year. There is a long way yet to go and we urgently appeal for support. Help us by not only making a donation or by taking up membership, or by remembering us in your will, but also by bringing this worthy cause to the attention of patients—particularly patients with a personal interest in heart disease. The idea of an "In Memoriam" donation to the fund has also commended itself to many people.

Donations to, and details from, the Director of Appeal (Dept. B.M.8), British Heart Foundation, Tavistock Square, London, W.C.99.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. This organism itself forms an antibiotic which may contribute to its rapid preponderance over other species.^{1, 2}

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight^{3, 4} and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

"INSTANT BREATH"

In the asthmatic attack—profound relief in seconds

One or two inhalations from *Medihaler-iso* Forte can provide relief of bronchospasm comparable in speed and degree to that achieved by injection. Yet for the patient there is nothing simpler or more convenient to use whenever required. Each dose (0.4 mg. isoprenaline sulphate) contains over 85% by weight of particles between 2 and 7 microns in diameter—optimum for retention in the lungs. Treatment economy is assured because

each vial delivers over 300 doses at a cost of less than $\frac{3}{4}$ d. per dose.

Medihaler-iso Forte, *Medihaler-iso* and *Medihaler-epi* are now supplied with a new-style plastic oral adapter.

Manufacturer's Information

New Product

A new anti-inflammatory antibiotic for the treatment of respiratory infections

Brand Name

LOCABIOTAL

Active Ingredient

LOCABIOTAL contains a new topical antibiotic of fungal origin—fusafungine developed from a strain of *Fusarium lateritium* 437. Approved name: Fusafungine.

LOCABIOTAL NASAL SPRAY contains 0.5% fusafungine.

LOCABIOTAL PRESSURIZED contains 0.25% fusafungine.

Indications

Locabiotol has a wide spectrum and is effective against those bacteria most frequently found in the nasal passages and the tracheobronchial system. Sinusitis, pharyngitis, tonsillitis, laryngitis, bronchitis (acute or chronic).

Contraindications

None are known. This product is also suitable for children above the age of 3 years.

Dosage

LOCABIOTAL NASAL SPRAY, 5 instillations a day.

LOCABIOTAL PRESSURIZED, 4 metered doses 4 times a day.

Side-effects

None are known.

Availability

LOCABIOTAL NASAL SPRAY nebulizer of 15 ml.

LOCABIOTAL PRESSURIZED metered aerosol of 15 ml. contains 300 doses, with two attachments; one nasal (yellow) and one oral (white) packed in a handy plastic bag. Refill of 15 ml.

Manufacturer

Selpharm Laboratories Ltd., 15 Hanover Square, London, W.1.

Manufacturer's Information

Infective Eczema, Varicose Ulcers, Industrial Dermatoses

Brand Name

AUREOCORT* SPRAY

Active Ingredients

Chlortetracycline/triamcinolone acetonide.

Indications

For rapid anti-infective and anti-inflammatory action in the treatment of infective eczema, varicose ulcers and industrial dermatoses.

Administration

AUREOCORT Spray should be applied sparingly, holding the can upright and 4 to 6 inches away from the affected area, two or three times daily in spray bursts of 1 to 3 seconds at a time.

Side-effects

If reactions or idiosyncrasies to this spray are encountered, its use should be discontinued and appropriate measures taken.

Contraindications

The use of AUREOCORT Spray is contraindicated in tubercular, fungal or viral lesions of the skin (herpes simplex, vaccinia and varicella).

Presentation and Basic N.H.S. Cost

Making foods for babies is an all-absorbing job (so we do nothing else)

We are lucky. We enjoy our work. That's why for 30 years we have *specialised* in making baby foods, and the baby foods we make are now famous. All over the world babies are thriving on Gerber... and loving it. For the Gerber range is so wide that even mothers with difficult babies can find the dietetically correct foods in forms that their babies will accept. *Gerber supply foods for every stage of a baby's development*, from first cereals to strained and junior. Our 'Cradle-to-Table' service.

No other leading manufacturer does this. Mothers find it helpful. They tell us it gives them confidence. May we send you copies of our medically approved booklet 'Your Baby's Food', for the home guidance of mothers attending your clinic? (There is very little about Gerber in it!). Our address is:

The Gerber Baby Council,
10 New Fetter Lane, London, EC4.

CYCLOSPASMOL

CYCLANDELATE

Cyclospasmol is indicated for the elderly and delicate patient showing signs of mental confusion, passing strokes and memory loss due to vascular impairment. Peripheral vascular disorders will also benefit from Cyclospasmol therapy. Cyclospasmol is a safe and effective vasodilator. It does not affect blood pressure and can be given in the presence of coronary vascular disorders. The daily dosage is usually 4 x 200 mg. which may be raised to 1600 mg. with safety. The maintenance dosage is 400 mg. daily.

continuous drip control of ulcer by tablet

PRODEXIN tablets give all the benefits of continuous intragastric drip therapy¹ without any of its disadvantages.

The slow suck down tablets are specially formulated to give prolonged antacid buffer effect, unaffected by stomach emptying rate.²

Immediate relief of pain is achieved by rapidly raising pH to 2 neutralising excess acid and controlling the acid secretion by slowly building up the pH to a desirable level of pH3.5 and pH4.5

DOSAGE:

For continuous therapeutic effect one tablet at a time should be sucked slowly.
For peptic ulcer one or more tablets an hour.

the advantages of oxygen mask

PAT. NO. 920 216

RELIABILITY

Oxygen is delivered direct to the patient's nose and mouth. The small volume prevents accumulation of carbon dioxide. The semi-rigid plastic holds the mask away from face if oxygen supply fails. No danger of suffocation.

COMFORT

Mask is light, transparent and edged with plastic foam. This makes close fit, without the discomfort of wire. Swivelling inflow pipe reduces drag from tubing of cylinder.

ECONOMY

Only 2 l./min. of oxygen are required. Blood gas analyses show that the blood becomes normally saturated at this low flow.

ADAPTABILITY

The mask can easily be adapted to fit young children by folding up the lower corner and fixing with adhesive tape.

USED BY LEADING HOSPITALS THROUGHOUT THE COUNTRY
Cost. MC masks are individually packed in polythene bags containing full instructions and are available at quantity discounts or 3/6 singly. The improved efficiency and great economy in oxygen more than repay the slight extra initial cost.

EVERED ELECTRALIFT hospital bed

**Chosen for
Moscow Exhibition**

The Electralift PD701, the only motorised hospital bed of its type manufactured by a British company and the first bed ever to incorporate a motorised lifting backrest on a short wheelbase, has been selected by the Council of Industrial Design for the exhibition being held in Moscow publicising "The Role of the Industrial Designer in British Industry". The PD701 hospital bed with its highly functional yet streamlined appearance has proved a major breakthrough in intensive care nursing. Operating at the touch of a button the PD701 eliminates all manual effort. Quiet-running motors gently raise and lower the bed chassis.

Other important features

- Head and foot tilt • Adjustable backrest • Hand Control for use by Patient
- Built-in provision for transfusion pole, lifting pole and cot sides • Low voltage operation

The P.D. Range of Beds is exhibited in London at the Building Centre and the Hospital Centre

The problem of the dirty mouth

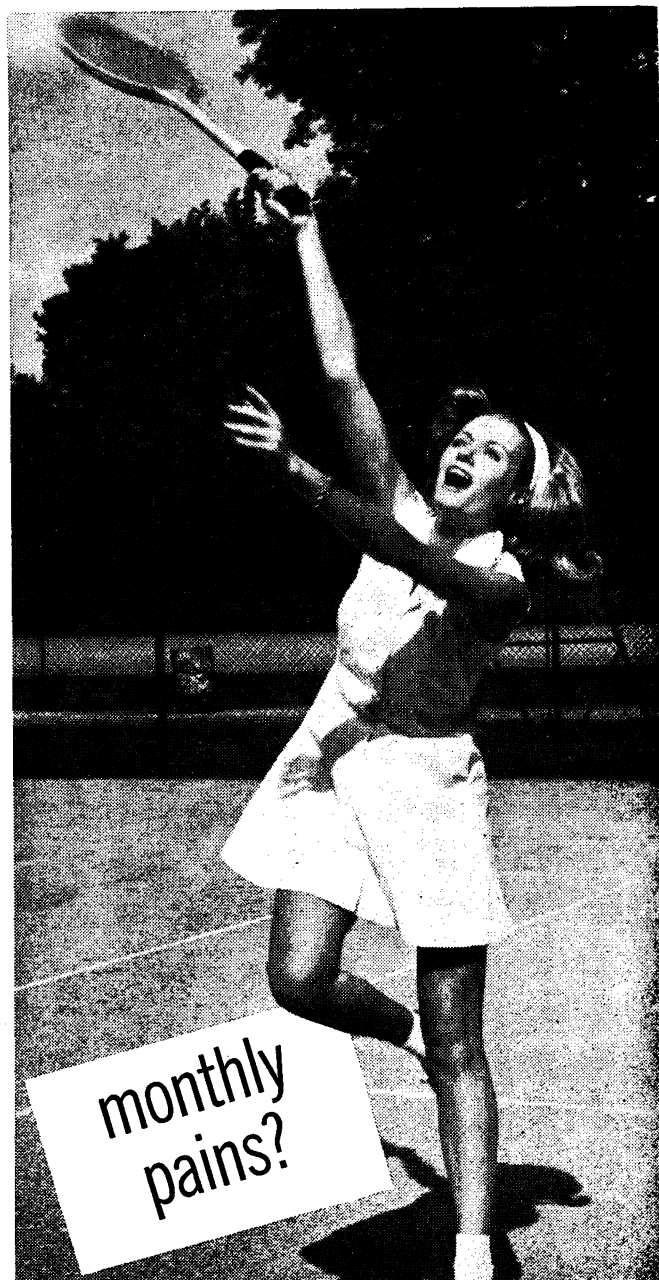

Even in 1964 the dangers, and the unpleasantness, of the dirty mouth are still present in the post-operative period, as well as in many fevers; the geriatric patient being especially prone to them. Careful attention to oral hygiene will usually, of course, keep the patient comfortable and prevent complications. Such attention, however, is very time-consuming to the nurse; and it is not often realised that for most patients it can be replaced or supplemented by the use of chewing gum.

The regular use of chewing gum, by stimulating salivary flow, keeps the mouth clean in the most natural way possible. The patient is in a sense providing his own nursing care with the minimum of energy expenditure by himself.

Child patients, of course, need no encouragement to chew gum. The older patient may need encouraging—but not once he has appreciated the very obvious cleansing and refreshing effect that chewing gum has upon the mouth. Chewing gum is also of value to patients who are forbidden to smoke.

Four tablespoons of corn oil and the reduction of high serum cholesterol levels

A recent article in the medical press¹ published the results of a study in the use of corn oil with a low animal fat diet in the reduction of high serum cholesterol levels.

The article ended: *'It is concluded that corn oil, together with a diet low in animal fat, is feasible as a long-term measure for the lowering of serum cholesterol, being safe, acceptable to the great majority of patients, and having virtually no clinical contraindications.'*

The oil used in the study, corn oil, linoleic acid content 56%—was added to diets of 1,630 and 2,080 calories, and comprised 41·5% of the total fat in the former, 40·0% in the latter. The

quantity of oil added to each diet was 57 grams; just four tablespoons of corn oil a day.

Mazola Pure Corn Oil has a fatty-acid composition (56·2% linoleic) identical to that of the oil used in this experiment. In addition, Mazola is palatable; it is widely used as a cooking oil. Thus Mazola, available from grocers throughout the country, is probably the most accessible and appetising source of supplementary dietary oil.

NORVAL

AN ORAL TREATMENT FOR HAEMORRHOIDS

Norval capsules contain dioctyl-sodium sulphosuccinate 60 mg. and taken orally will reduce the tendency to haemorrhoidal bleeding. Taken regularly Norval will ensure a softened stool without increasing bulk or having a laxative effect. Dioctyl-sodium sulphosuccinate works by reducing surface tension, penetrating into the hard impacted faecal mass, softening the faeces and eliminating the need for the patient to strain.

SAFETY

Dioctyl-sodium sulphosuccinate is not absorbed and does not break down during its passage through the intestine.

There is no evidence to suggest that Norval will decrease in effectiveness when used regularly for indefinite periods of time. Norval eliminates the strain to stool and is a rational approach to the prevention of haemorrhoidal bleeding.

PRESENTATION AND BASIC N.H.S. PRICE

Norval capsules are available in bottles of 30 and 250 at basic N.H.S. prices of 3/10d. and 20/- respectively. Norval is not advertised to the public and has no B.P. equivalent. Norval is subject to purchase tax.

Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

“In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy.”
(Medical Times 1958, 1: 74)

NULACIN TABLETS have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

The Development of the Treatment of Duodenal Ulcer. *Proc. Roy. Soc. Med.*, 1958, 51: 1063

Antacids. *The Practitioner*, 1957, 178: 43

Antacids in Peptic Ulcer. *The Practitioner*, 1956, 176: 103

HORLICKS LIMITED, PHARMACEUTICAL DIVISION, SLOUGH, BUCKS

NORMAX

THIS CAPSULE

PROMOTES REGULARITY

It contains dioctyl-sodium sulphosuccinate 60 mg, and 1-8 dihydroxyanthraquinone 50mg.

Normax acts by softening the faeces and gently stimulating colonic peristalsis. It is indicated especially during pregnancy and for the elderly patient, when its gentle action in restoring regularity is most appreciated.

1-8 dihydroxyanthraquinone acts on the lower bowel and has no irritant actions. Dioctyl-sodium sulphosuccinate is not absorbed and does not break down during its passage through the intestine.

Dioctyl-sodium sulphosuccinate acts by lowering the surface tension of the impacted faecal mass and in association with the mild peristaltic movement induced by the 1-8 dihydroxyanthraquinone, leads to facilitated passage of soft stools. Animal experiments and extensive clinical observations have failed to reveal evidence of toxicity.^{1,2}

Because of this the therapeutic effect of Normax can be obtained without the danger of toxicity. Normax has a wide application in the treatment of constipation and it retains its effectiveness even when used regularly over long periods.¹ Normax restores regularity and is a rational approach to the treatment of constipation.

Normax capsules are available in bottles of 30 and 250 at basic NHS price of 4/10d. and 26/10d. respectively. Normax is subject to purchase tax.

ALONE OR IN SINISTER ALLIANCE

Insidious in undermining health, the blood-sucking hookworm waxes in numbers with the explosive growth of world population. The patient who harbours hookworm often harbours roundworm, and sometimes trichostrongylus too.

There is one complete answer—single-dose 'Alcopar'. Whether the infection be single or multiple, whether the patient be an infant in arms or a person advanced in years, 'Alcopar' will safely expel these burdensome parasites.

Neither hospitalisation nor purging is needed.

'ALCOPAR' brand Dispersible Granules

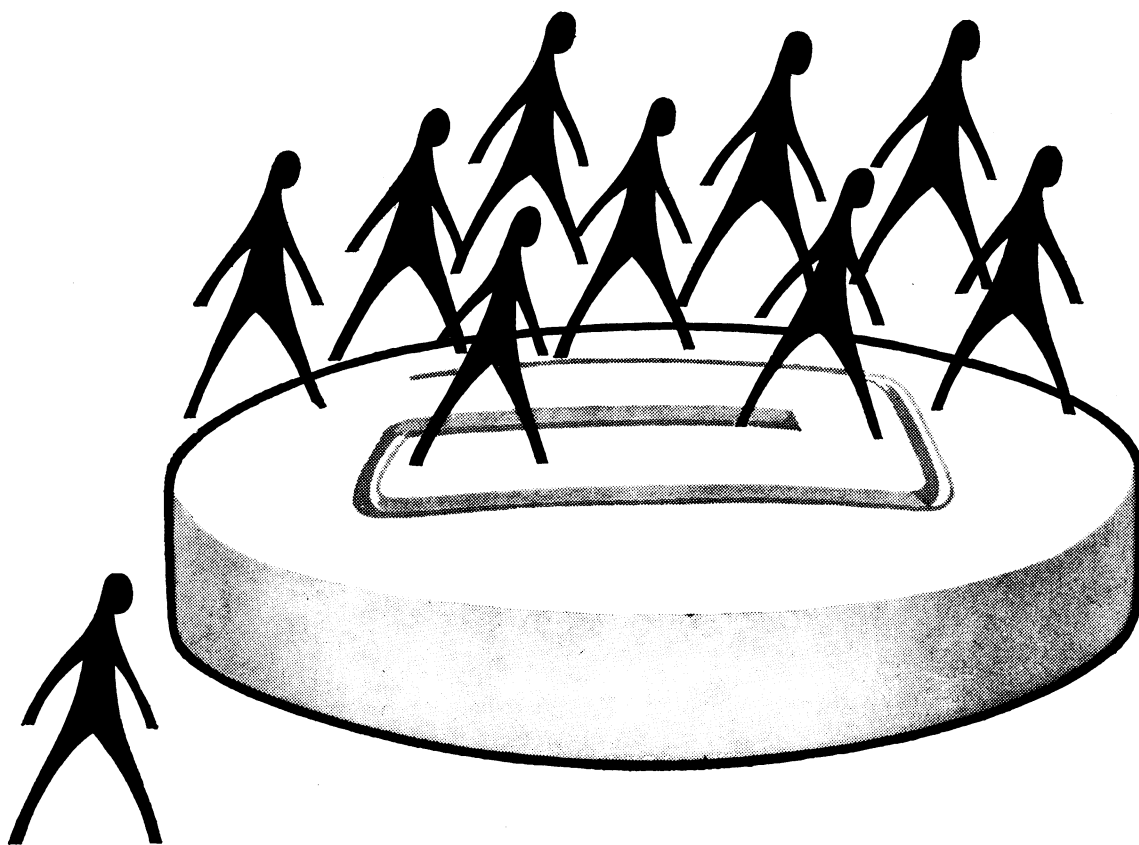

The proven multi-purpose worm expellent

Issued in single-dose sachets of 5 G. containing Bephenium Hydroxynaphthoate, B.P.C. equivalent to 2.5 G. bephenium base. Packs of 25 sachets.

Burroughs Wellcome & Co. London
(The Wellcome Foundation Ltd.)

In trials, 90% of hypertensive patients remained on **Eutonyl**

Eutonyl is a major advance in the control of hypertension. Mood elevation may occur, due to MAO inhibition. Side effects are not common, and are rarely intolerable. The simple dosage gives positive control. Eutonyl (pargyline hydrochloride, Abbott) treats severe essential hypertension by reducing peripheral resistance, without significantly affecting cardiac output. It has been shown to produce an antihypertensive response in some 80—85% of cases, and it is as successful against the more severe as against the moderately severe cases. In clinical trials, 90% of patients remained on Eutonyl, for side effects are rarely sufficiently severe to require the withdrawal of therapy. Eutonyl gives significant reductions in the blood pressure—especially the diastolic pressure—in the sitting and lying positions, as well as standing.

The concurrent use of Enduron® (methyclothiazide, Abbott)

permits the use of a lower dosage of Eutonyl, thus further reducing the likelihood of side effects. Enduron particularly enhances the sitting and lying response to Eutonyl.

Information on these points is more fully covered in the physician's reference book, which contains a bibliography of 74 published references. This book should be consulted on dosage, side effects and precautions.

Instruction cards are available advising patients of the dietary restrictions (notably cheese and alcohol) and other precautions which they should observe while taking Eutonyl, which is an MAO inhibitor.

Eutonyl (pargyline hydrochloride, Abbott) is supplied in Filmtab® tablets under the names Eutonyl (25 mg, orange) and Eutonyl-Ten (10 mg, pink). Enduron (methyclothiazide, Abbott) is supplied in square grooved tablets of 5 mg.

Whether your patient is an overworked housewife whose irritability and insomnia are making her life intolerable ● OR a harassed clerk whose worries about his job and difficulties at home are threatening to overwhelm him ● OR a cantankerous old granny who cannot adjust herself to dependence on her offspring ● OR a middle-aged woman at the climacteric suffering from psychogenic symptoms ● OR a problem child whose temporary lapse into enuresis is aggravating other behaviour disturbances

She's herself again...

allegron 
MULTI-PHASIC PSYCHOTROPE

gives your patient a fresh start

Allegron rapidly relieves mental and emotional symptoms. It lifts the gloom of the depressed patient and frees her from guilt, self-reproach and anorexia. At the same time Allegron eases tension and helps the nervous, irritable patient to live peacefully and sleep soundly. Allegron brand of nortriptyline hydrochloride gives your patient a fresh start.

Allegron is not a monoamine oxidase inhibitor. It is available as tablets of 25 and 10 mg. and liquid containing 10 mg. per 5 ml. Further information available on request.

REMIDERM

new for the
most effective
management
of inflammatory
dermatoses

In the treatment of inflammatory dermatoses, *Remiderm*, which combines a highly effective antiseptic, halquinol, with the well-established topical corticosteroid, triamcinolone acetonide, rapidly relieves the inflammatory, pruritic or allergic symptoms, and at the same time, protects the lesion from secondary infection. Where infection is already present *Remiderm* hastens recovery by controlling the causative organisms, but, unlike the antibiotic-corticosteroid combinations, *Remiderm* has not been found to cause skin sensitization and cannot induce the development of antibiotic-resistant bacteria.

Remiderm is available in two forms: cream and ointment. Each contains triamcinolone acetonide 0.025% and halquinol (Squibb chlorhydroxyquinoline) 0.75%. Packs: 15 gm. tubes, 7/9 basic NHS price.

Both 'Synalar' and 'Synalar'-N are available as Cream,
Ointment, Lotion and in an Aerosol, at new reduced prices.

“Doctor,
I feel awful”

Once he might have been diagnosed as “anxiety state”. Today, you know he might be a depressive, but it doesn’t seem as simple as all that. The truth of the matter is that patients don’t always fit neatly into diagnostic categories. They may suffer from such diverse symptoms as depression, agitation, loss of appetite and tension-fatigue at the same time.

The great strength of ‘Aventyl’ is that its beneficial actions range widely over the symptoms which plague these

problem patients. ‘Aventyl’ is not merely an anti-depressant, nor is it a combination of drugs. It is a *single substance* which relieves a constellation of mental and emotional symptoms embracing depression, anxiety and their effects on awareness and mood.

‘Aventyl’ is not a monoamine oxidase inhibitor, and no serious side-effects have been reported at the recommended dosage.

‘AVENTYL’TM lightens the troubled mind

Nortriptyline

‘Pulvules’ of 10 mg. and 25 mg. Liquid: 10 mg. in each 5 ml., in bottles of 120 and 480 ml.
Full information will be sent on request.

SYNADRIN

IN ANGINA PECTORIS
TREATS THE PATIENT
RATHER THAN HIS ATTACK

"AN EFFECTIVE DRUG FOR TREATING ANGINA PECTORIS" ³

Synadrin reduces the incidence of anginal attacks during long-term treatment by producing a prolonged improvement in the coronary blood supply. Its effectiveness has been shown by a number of double blind studies, ¹⁻⁷ and it is indicated in all forms of ischaemic heart disease. ⁸⁻¹⁵ Synadrin tablets contain 15 mg. prenylamine lactate. Treatment is initiated with two tablets three times a day and this dose may be reduced as beneficial effects become apparent.

Synadrin is known in some other countries as Segonin.

STEPS TO PROGRESS

Over fifty years of research and experience in the field of infant nutrition has produced a wide range of Cow & Gate products which covers the metabolic needs of almost every infant. Details of all these products are contained in the Cow & Gate

Medical Handbook available free on application to:

The Medical and Research Department, Cow & Gate Ltd., Guildford, Surrey.

The problem of weaning, so often a source of worry to the young mother, can be solved by the introduction of Cow & Gate Cereal Food and of Cow & Gate Dairy Junior Foods. Cow & Gate Cereal Food is made from specially selected oat flour and, in consequence, is particularly suited to cases where there is evidence of gluten idiosyncrasy. The protein content has been reinforced by the addition of milk solids.

Cow & Gate Dairy Junior Foods combine the nutritive qualities of rich English milk with specially selected and finely ground cereals, in the case of the milk puddings, and with nourishing egg yolk in the case of the Egg Custard.

RYOTOL

for chronic discharge of the ear

RYOTOL is lethal to *Ps. pyocyanea*, *Staphylococcus aureus*, *Proteus vulgaris* and *Streptococcus pyogenes* found in C.S.O.M. and Otitis Externa.

The presence of *Ps. pyocyanea* has been demonstrated in 90% of cases of chronically discharging ears. This gram-negative, highly resistant organism is unaffected by penicillin, sulphonamides and many other bactericides. It produces abundant pus and is therefore extremely troublesome.

RYOTOL Ear Drops are the outcome of clinical work on humans, following outstanding results obtained in the veterinary field.

Formula:

Monophenyl ether of ethylene glycol ... 2.0% v/v
Phenylmercuric Nitrate ... 0.1% w/v
Phenyl-dimethyl iso-pyrazolone ... 5% w/v
in a stabilised non-irritant base.

TO-DAY'S DRUGS

A book under this title will be published in November 1964.

It is based on a series of review articles which were printed in the "To-day's Drugs" section of the *BRITISH MEDICAL JOURNAL* between January 1963 and May 1964. These articles have been edited and brought completely up to date so as to form an authoritative and practical guide to modern therapeutics. The book is designed to cover the drug treatment of those common conditions which are met with in general and hospital practice. There are important sections dealing with antibiotic therapy, cardiovascular conditions, rheumatic disorders, oral contraceptives, and the special problems involved in paediatric and geriatric prescribing. Special attention has been paid to the precautions which should be taken in using these drugs and their toxic and side-effects. This book should be of value to all doctors concerned in the day-to-day treatment of patients.

UNIVERSITY AND RESEARCH APPOINTMENTS

(See also under "Overseas")

MEDICAL RESEARCH COUNCIL'S PNEUMOCOCCUS RESEARCH UNIT

Llandough Hospital, Penarth, Glamorgan

Required a REGISTRAR OR SENIOR HOUSE OFFICER

(non-resident). Duties include supervision of patients admitted to hospital and out-patient work. Opportunity and time available to assist in clinical trials and pulmonary physiological research. Much may also be learned about the epidemiological method approach to the study of common diseases. Salary according to age, qualifications and experience. N.H.S. superannuation. Applications, with names of two professional referees, to the Director at the above address, (7341)

MEDICAL RESEARCH COUNCIL Toxicology Research Unit, Medical Research Council Laboratories, Woodmysters Road, Carshalton, Surrey

It is hoped to make the following superannuable appointments to the scientific staff:

1. PHARMACOLOGIST

To undertake research of action of toxic substances. This is a senior post.

2. PHYSIOLOGIST

(Ph.D. or medical degree) to engage in research on the physiological changes produced by injury. Current research includes work on the effects of injury on heat production, catecholamines and cold-acclimation.

3. BIOCHEMIST (Ph.D.)

To engage in research on the biochemical changes produced by injury (physical and chemical) with particular reference to the changes in tissue nucleic acids. The work will involve metabolic investigations in vivo.

For further information write to Dr. J. M. Burnes at the above address before November 30. (7633)

NEWCASTLE REGIONAL HOSPITAL BOARD

Applications are invited for the appointment of a **RESEARCH ASSOCIATE** who will be required to collaborate in neurophysiological studies at the Regional Neurological Centre, Newcastle General Hospital.

Preference will be given to a medically qualified applicant, but applications from scientists with a degree in physiology will be considered. Much of the research will be carried out in man, but facilities for animal experiments are available; previous experience in neurophysiology is advantageous but not essential.

Appointment for one year in the first instance, renewable for a maximum period of three years. The initial salary would be comparable to that of a registrar or senior lecturer in the National Health Service, depending upon qualifications and experience.

Applications, with names and addresses of three referees, to the Senior Administrative Officer, Newcastle General Hospital Board, Berfield Road, Newcastle upon Tyne 6, within 21 days. (7376)

THE MEDICAL COLLEGE OF ST. BARTHOLOMEW'S HOSPITAL, West Smithfield, E.C.1

Applications are invited for the posts of **LECTURER** and of **PHYSIOLOGY LECTURER**

tenable as from December 1, 1964, or as soon after as possible. Salary for the Lecturer will be on the scale of £1,805 by £100 to £2,505 per annum, plus £60 London Allowance, and for the Junior Lecturer £1,305 by £85 to £1,690 plus £60 London Allowance, together with membership of the F.S.S.U. Forms of application, which should be returned not later than October 30, 1964, may be obtained from the Secretary of the Medical College, from whom further particulars may be obtained. (7552)

THE UNIVERSITY OF MANCHESTER Department of Social and Preventive Medicine**RESEARCH FELLOWS: MEDICAL AND SOCIAL SCIENCE**

Applications are invited for three new positions in the Medical Care Research Unit to examine the clinical and social needs for medical care in hospital, general practice and in the community. The four-year study is based on the needs of the Liverpool Region, and the project is closely related to the other work of the Unit, including its international studies in the care of patients.

The medical candidates are expected to have had clinical experience and would be encouraged to continue. There would be an opportunity for taking the Diploma of Public Health and for working for an M.D. The training could lead to careers in operational studies in the Health Services or in social medicine.

The candidates from the social sciences may have a background in sociology, economics, statistics or social administration. A university graduate interested in studying administration may be considered. There would be opportunity for working for higher degrees.

The salary ranges will be the same as for Lecturers in the University and will depend upon qualifications and experience. Applications, giving full details, should be sent as soon as possible after the appearance of this advertisement, to Dr. R. F. L. Logan, Director, Medical Care Research Unit, Dursley House, 295 Upper Brook Street, Manchester 13 (telephone RUSHOME 3306), from whom further information may be obtained. (7248)

REGIUS CHAIR OF ZOOLOGY UNIVERSITY OF GLASGOW

The Secretary of State for Scotland invites applications for the

REGIUS CHAIR OF ZOOLOGY

in the University of Glasgow, which will fall vacant on January 1, 1965.

A note of the conditions of appointment may be obtained on request from the Secretary, Scottish Education Department, Room 206, St. Andrew's House, Edinburgh 1. Three copies of applications, accompanied by the names of three referees, should be sent not later than October 31, 1964, to the Private Secretary, Room 505, St. Andrew's House, Edinburgh 1. (7174)

UNIVERSITY OF BRISTOL

Applications are invited for appointment as Demonstrator in Pathology. Salary scale £1,400 by £85 to £1,740 per annum according to qualifications and experience. Previous experience in pathology is not necessary. The duties include assistance with the teaching of medical and dental students and general pathology for veterinary students, and the conduct of autopsies. Facilities for research and experience of diagnostic histology are available. Applications, giving full name, qualifications and details of previous experience, together with the names of not more than three referees, should reach the undersigned, from whom further particulars may be obtained, on or before November 2, 1964.—H. C. Butterfield, Registrar, and Secretary. (7537)

UNIVERSITY OF BELFAST

LECTURESHIP IN ANAESTHETICS. The Senate of the Queen's University of Belfast invites applications for a Lectureship in Anaesthetics from January 1, 1965, or such later date as may be arranged. The salary range is £2,935 by £115 to £3,150 by £110 to £3,030, plus provision for superannuation. In certain circumstances the salary may rise to £3,650. Applications should be received by November 13, 1964. Further particulars may be obtained from G. R. Cowling, M.A., LL.B., J.P., Secretary. (7704)

UNIVERSITY OF LONDON

CHAIR OF RESTORATIVE DENTISTRY at the London Hospital Medical College.—The Senate invite applications for the Chair of Restorative Dentistry tenable at the London Hospital Medical College (salary in the range £4,445 to £4,445 a year). Applications (10 copies) must be received not later than November 16, 1964, by the Academic Registrar, University of London, Senate House, W.C.1, from whom further particulars may be obtained. (7679)

EDUCATIONAL

CORRESPONDENCE COURSE FOR THE London and Edinburgh M.R.C.P. Completed up-to-date and includes help in the clinical.—Write J. Arnold, 189 Regent Street, W.1.

M.R.C.P. COACHING. J. ARNOLD is prepared to accept a small group of students as a class for tuition in London.—Write J. Arnold, 189 Regent Street, W.1.

LECTURE DEMONSTRATIONS IN THE Clinical Applications of Respiratory Physiology will be given at the Brook General Hospital on five consecutive Fridays, commencing on November 6, 1964, from 4.30 to 6 p.m. The fee will be free. Applications are to be forwarded to the Secretary, South-East London Association for Postgraduate Medical Studies, Brook General Hospital, Shooters Hill Road, S.E.18. (7588)

UNIVERSITY OF LONDON

A lecture entitled "Virus-induced leukaemia" will be delivered by Professor Sven Gard (Stockholm) at 5.30 p.m. on October 28, at the University College (Botany Theatre), Gower Street, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (7504)

Educational—contd.

MENTAL HEALTH RESEARCH FUND

STUDENT PRIZES AND TRAVELLING FELLOWSHIP IN PSYCHIATRY

The Mental Health Research Fund awards annually to Medical Students and Doctors in their pre-registration year three monetary prizes and a Travelling Fellowship as the result of an essay competition on a subject relating to mental health, and a subsequent interview.

Applicants gaining the top three places in the essay competition will be given prizes of £100, £50 and £25 respectively.

The Travelling Fellowship, tenable in a Psychiatric or other Department abroad for up to six months, will be awarded as the result of an interview combined with consideration of the candidate's undergraduate record. Persons interviewed will be chosen from the top ten in the essay competition. The travelling fellowship will normally be taken up at the end of the pre-registration year or, in the event of it being awarded to a medical student, may be taken up after qualification.

The subject for the essay this year is "Discuss, with illustrations, the scientific value and the methodological difficulties of cross-cultural surveys of mental illness."

The Panel of Examiners consists of two members of the Research Committee of the Mental Health Research Fund and one member of the Association of Teachers in Psychiatry in Undergraduate Medical Schools.

Essays should be sent before March 1, 1965, to the Secretary, Research Committee, Mental Health Research Fund, 38 Wigmore Street, London W.1 (Tel. WELbeck 4102), from whom further details may be obtained. (7543)

PATRICK BUXTON MEMORIAL PRIZE

The Patrick Buxton Memorial Prize, endowed by his relatives in memory of the late Professor Patrick Alfred Buxton, M.C.G., F.R.S., Director of the Department of Entomology at the London School of Hygiene and Tropical Medicine from 1926 to 1955, is open to competition among past or present students and staff of the London School of Hygiene and Tropical Medicine.

The Prize of £150 will be awarded for the best essay relating to medical or veterinary entomology or an allied subject based on a candidate's published or unpublished research. Essays should be sent to the Secretary, London School of Hygiene and Tropical Medicine, Keppel Street (Gower Street), London W.C.1, not later than September 30, 1965. (7589)

POSTAL COACHING FOR ALL MEDICAL EXAMINATIONS.

Carefully designed courses under the supervision of specialist tutors. Advice on reading, guidance notes to each lesson, and solutions to all test papers are provided. The courses available include the Primary and Final F.R.C.S. Eng. and Edin., the M.R.C.P., Lord, and Edin., the D. and M.R.C.O.G., the D.A., C.H., D.P.H., F.F.A., D.P.M., D.O., D.L.H., D.I.H., D.T.M.&H., D.M.R.D., and D.M.R.T. (Part 2), and all qualifying examinations. Prospectus, list of tutors, etc., on application to G. E. Oates, M.D., 100, P. (London), University Examination Postal Institution, 17 Abchurch Lane, London W.C.1. Phone HOLborn 6313.

THE MIDLANDS BRANCH OF THE Society for Medical and Dental Hypnosis will hold an Intensive Week-End Study Group in Birmingham on the "Theory and Practice of Hypnosis" on November 14 and 15, 1964. Medical Practitioners are invited to apply to the Hon. Secretary, Midlands Branch, S.M.D.H., Mr. D. A. Hobbs, 2142 Coventry Road, Birmingham 26. (6640)

TRAINING SERVICE FOR MEDICAL PRACTITIONERS

The Family Planning Association arranges training Courses throughout Britain and the member 1964 Course will be held in London as follows:

PART 1
Four Lectures:
(a) Contraceptive Technique and Clinic Routine.
(b) The Sub-fertile Couple.
(c) Sex Difficulties in Marriage.
(d) Oral Contraception.
London: December 14, 1964.

PART 2
Practical work at F.P.A. Training Clinics. Details and application forms from the Medical Secretary, Family Planning Association, 231 Tottenham Court Road, London W.1.

UNIVERSITY OF LONDON

A lecture entitled "Physiological disposition and biotransformation of C14-labelled neocadone" will be delivered by Professor Carl G. Chatterlin (Stockholm) at 5.30 p.m. on October 28, at the Charing Cross Hospital Medical School, Charing Cross Place, W.C.2. Admission free, without ticket. James Henderson, Academic Registrar. (7505)

MEETINGS

A JOINT MEETING OF THE BRITISH Society for Immunology and the British Allergy Society will be held in Courten House, Westminster, S.W.1, on Friday, October 30, from 10 a.m. until 6 p.m. and on Saturday morning from 9.30 a.m. until 1.05 p.m. The programme consists of open papers and on Friday includes contributions of clinical interest. (7517)

THERE WILL BE A PUBLIC MEETING of the Autoimmunity Committee of the European Academy of Allergy on Thursday afternoon, October 29, 1964, at 2 p.m. in the Bland-Sutton Lecture Theatre of the Middlesex Hospital Medical School, Riding House Street, London W.1. The programme will include contributions from Professor U. Serafini, Dr. J. H. Humphrey, Dr. L. van Glynn, Dr. G. Holm, Professor J. M. van Loghem, Dr. J. M. East and Dr. I. M. Roitt. (7518)

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held. Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★ **SERVICE MEMBERS** may have difficulty in supplying recent testimonials, but this should not deter them from applying.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR.** Posts obtained normally not less than one year after full registration as a medical practitioner and held normally for two years: £1,425 in the first year; £1,595 in the second and any subsequent years. Deduction of £255 per annum for compulsory residence, £300 per annum for voluntary residence.

(b) **SENIOR REGISTRAR.** Posts obtained normally not less than three years after full registration and held normally for four years: £1,710 in the first year; £1,940 in the second year; £2,050 in the third year; £2,165 in the fourth and any subsequent years; £2,280 in the seventh and eighth years; £2,395 in the ninth and any subsequent years. medical practitioners for the vacant post of

ASSISTANT MEDICAL OFFICER AND SCHOOL MEDICAL

OFFICER

to be centred at High Wycombe.
Salary within the scale £1,515 to £2,050 (rising to £2,300) commencing according to qualifications and experience. Travelling and subsistence allowances on the Council's scale will be paid. Appointment superannuable.

Further particulars and form of application obtainable from the County Medical Officer, County Offices, Aylesbury, Bucks, to whom completed applications must be submitted by October 28, 1964. (7010)

CITY AND COUNTY OF BRISTOL

FIRST ASSISTANT MEDICAL OFFICER

required for duties relating to arrangements for vaccination immunization and general health administrative duties. Salary £1,615/£2,150/£2,230 per annum. Post superannuable: medical. Senior Medical Officer for Epidemiology will be in overall charge but successful applicant will have direct responsibility for arrangements concerning B.C.G. vaccination, Diphtheria immunization, and injections for Poliomyelitis, Whooping Cough, etc. Applications should be sent to the Town Clerk, Bristol 2. (7734)

CITY OF STOKE-ON-TRENT EDUCATION

COMMITTEE

SCHOOL MEDICAL OFFICER

Applications are invited from registered medical practitioners for the post of full- or part-time School Medical Officer. Salary in accordance with the recommendations of the Whitley Councils for the Health Services.

Form of application may be obtained (send stamped, addressed envelope) from the Chief Education Officer, Education Department, P.O. Box No. 23, Town Hall, Hanley, Stoke-on-Trent.—H. Dibden, Chief Education Officer. (6998)

CORPORATION OF THE CITY OF

ABERDEEN

Applications are invited for the post of

SENIOR ASSISTANT MEDICAL OFFICER

Salary scale £1,830 by £75 (6) and £80 to £2,385 (1964) and £2,460 (1966), with placing according to experience.

Candidates should (a) be registered medical practitioners who also hold a postgraduate diploma in public health, (b) be under 45 years of age, (c) possess general public health experience and significant experience in at least one branch of public health services. The post is superannuable and medical examination is required.

Further details and forms of application are available from the Medical Officer of Health, Willowbank House, Willowbank Road, Aberdeen, with whom applications should be lodged by October 28, 1964.—J. C. Rennie, Town Clerk. (7736)

COUNTY BOROUGH OF

BARROW-IN-FURNESS

ASSISTANT MEDICAL OFFICER OF

HEALTH AND

SCHOOL MEDICAL OFFICER

Applications invited from fully qualified and registered Medical Practitioners for the above position.

The salary scale is £1,515 by £75 (5) by £80 to £2,050 (1964) and £2,130 (1966) after January 1, 1965, and the starting salary will be fixed according to qualifications and experience.

The appointment is subject to the Corporation's general conditions of service and is superannuable.

It is the practice of the Authority to grant a car allowance.

Duties are mainly in connexion with the School Health Service and Maternity and Child Welfare Service. There is ample opportunity to develop new ideas about these and other services. The possession of a D.P.H. or D.C.H. would be an advantage.

Further particulars and application forms may be obtained from the Medical Officer of Health, Town Hall, Barrow, to whom completed application forms should be sent as soon as possible. M. Woll, Town Clerk, Health Department, Town Hall, Barrow-in-Furness. (7271)

AMENDED ADVERTISEMENT WATFORD BOROUGH COUNCIL AND HERTFORDSHIRE COUNTY COUNCIL DEPUTY MEDICAL OFFICER OF HEALTH AND DEPUTY DIVISIONAL COUNTY MEDICAL OFFICER OF HEALTH

Applications are invited from duly qualified Medical Practitioners holding the D.P.H. or equivalent qualification for the combined post of Deputy Medical Officer of Health to the Watford Borough Council and Deputy Divisional Medical Officer of Health for the South-West Hertfordshire Division of the County of Hertfordshire.

A scheme for the delegation of health and welfare services has been approved by the County Council, which will be administered by a Divisional Executive for Health and Welfare, whose area will comprise South-West Hertfordshire with a population of nearly 200,000.

This post will afford good administrative experience in both the environmental health services of the Borough Council and the personal health services of the County Council respectively.

The inclusive salary will be within the range £2,043 16s. 0d. to £2,477 per annum, rising to a maximum of £2,477 per annum and, from January 1, 1966, to a maximum of £2,542 10s. 0d. per annum. The commencing salary within the grade will be fixed according to the experience of the successful candidate.

Housing accommodation or 100% mortgage facilities available, if required.

The present Medical Officer of Health of Watford is due to retire within the next few years.

Further particulars and application forms may be obtained from the Town Clerk, Town Hall, Watford, to whom they should be returned by October 30, 1964.—Gordon H. Hall, Town Clerk, Watford Borough Council, Neville Moon, Clerk, Hertfordshire County Council. (7270)
