

## SCOTTISH POSTGRADUATE MEDICAL ASSOCIATION

*Chairman:*  
PROFESSOR SIR DERRICK DUNLOP

The Scottish Postgraduate Medical Association is constituted by the Universities of St. Andrews, Glasgow, Aberdeen and Edinburgh and by the Royal College of Physicians of Edinburgh, the Royal College of Surgeons of Edinburgh, and the Royal College of Physicians and Surgeons of Glasgow.

The object of the Association is to develop postgraduate medical education in Scotland by means of co-operative endeavour and co-ordinated planning.

All the requirements of postgraduate medical education are available in Scotland and the Postgraduate Deans and Directors in Edinburgh, Glasgow, Dundee and Aberdeen are prepared to organise integrated courses of training for postgraduate students.

General enquiries should be directed to Professor R. B. Hunter, Secretary of the Scottish Postgraduate Medical Association, Department of Pharmacology and Therapeutics, Queen's College, Dundee, from whom further information can be obtained.

## Infections

### *Brand Name*

**ORAL PENIDURAL**

### *Active Ingredients*

Each 5 ml. contains 250 mg. Benzathine Penicillin B.P. (equivalent to 300,000 units Penicillin G) in a palatable, fruit-flavoured suspension.

### *Indications*

All penicillin-sensitive infections including acute tonsillitis, otitis media, bronchitis, secondary bacterial infection in measles, cellulitis and upper respiratory tract infections.

### *Dosage*

The normal dosage in most infections is 1 teaspoonful every 6-8 hours.

### *Contraindications*

Penidural should not be administered to patients with a known hypersensitivity to penicillin.

### *Side-effects*

Side-effects with oral Penidural are very rare, and when they have occurred have consisted principally of gastro-intestinal upsets.

### *Availability*

Bottle of 60 ml.

### *References*

# Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

“In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy.”  
(Medical Times 1958, 1: 74)

**NULACIN TABLETS** have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

The Development of the Treatment of Duodenal Ulcer. *Proc. Roy. Soc. Med.*, 1958, 51: 1063

Antacids. *The Practitioner*, 1957, 178: 43

Antacids in Peptic Ulcer. *The Practitioner*, 1956, 176: 103

Recent Advances in the Ulcerative Diseases of the Gastrointestinal Tract. *Amer. J. Gastro.*, 1956, 26: 665

Ambulatory Continuous Drip Method in the Treatment of Peptic Ulcer. *Amer. J. Dig. Dis.*, 1955, 22: 67

Management of Peptic Ulceration in General Practice. *Med. World*, 1954, 81: 591

Clinical Investigation into the Action of Antacids. *The Practitioner*, 1954, 173: 46

Further Studies on the Reduction of Gastric Acidity. *Brit. Med. J.*, 1954, 1: 183

Control of Gastric Acidity by a New Way of Antacid Administration. *J. Lab. & Clin. Med.*, 1953, 42: 955

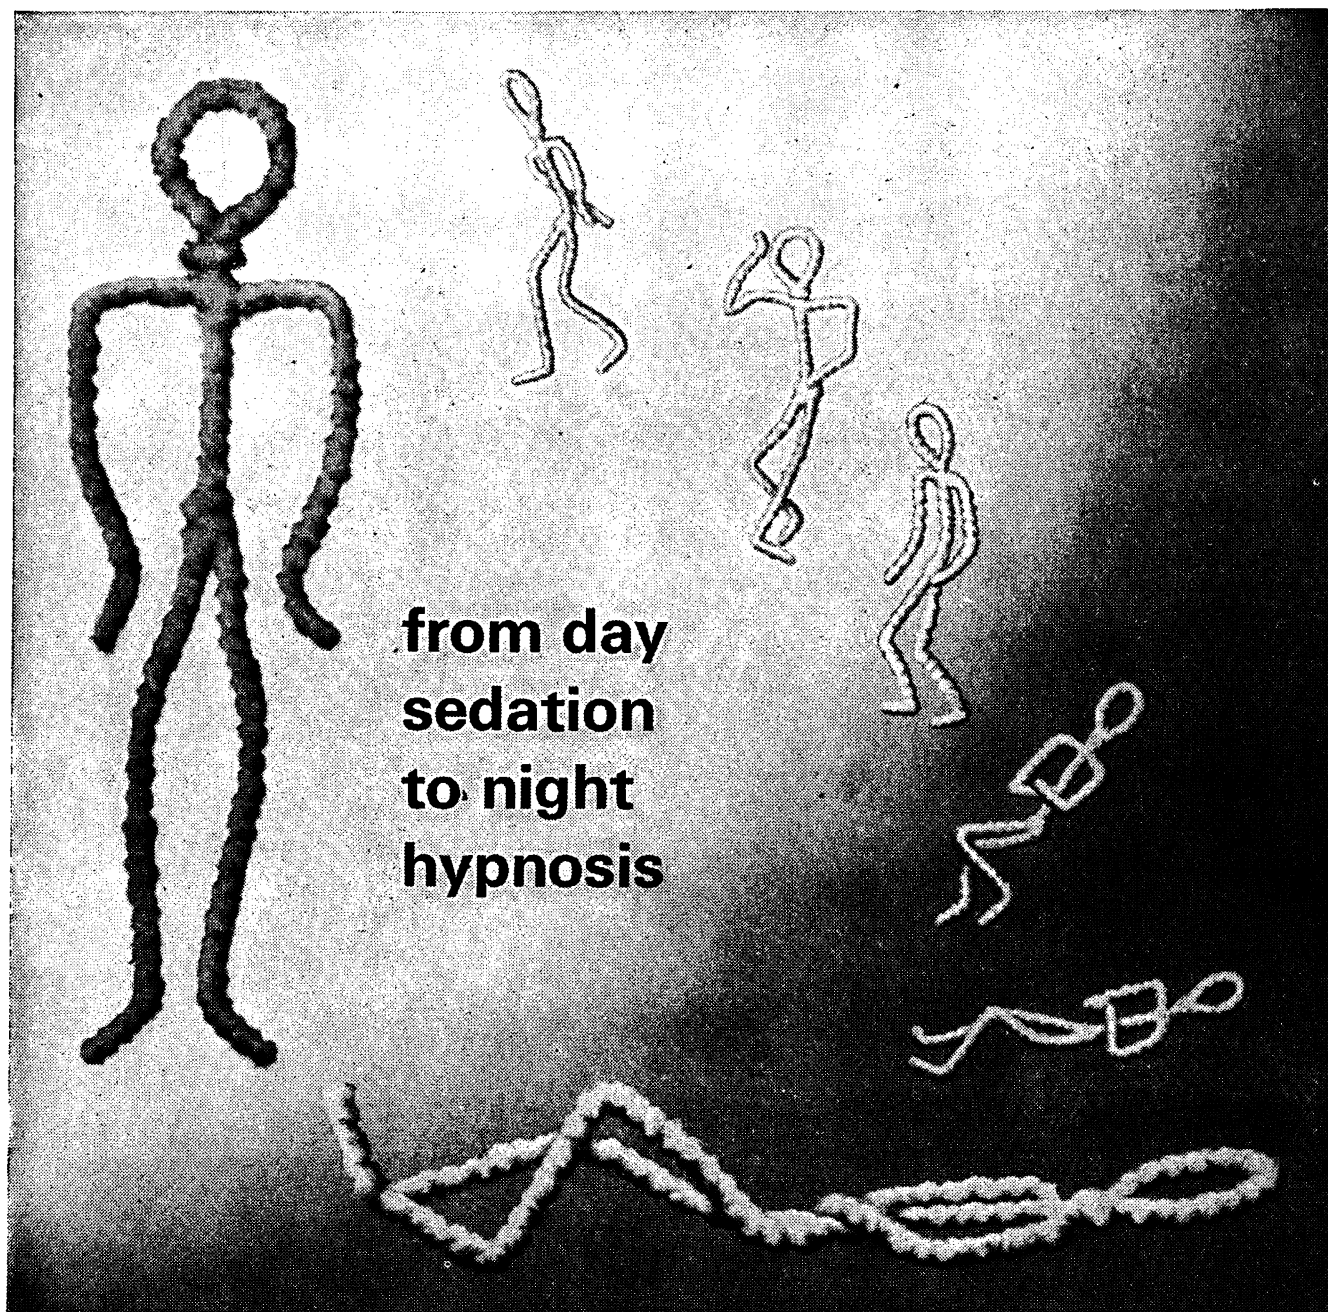

Nulacin tablets have no B.P. equivalent. The basic N.H.S. price of a 25 tablet tube is 2/-. A special dispensing pack of 4 tubes of 25 tablets is available.

A Nulacin tablet of 48 grs. contains Magnesium Trisilicate B.P. 3.5 grs., Heavy Magnesium Oxide B.P. 2.0 grs., Calcium Carbonate B.P. 2.0 grs., Heavy Magnesium Carbonate B.P. 0.5 gr., Ol. Menth. Pip. B.P. q.s.

from day  
sedation  
to night  
hypnosis

**The value of NEMBUTAL.** The harassed housewife who needs light sedation during the day; the stress-loaded businessman who cannot get to sleep; the true insomniac . . . all these are candidates for Nembutal therapy. A small dose of Nembutal t.d.s. helps to smooth out life's rough edges, calming the patient and helping them to face life's problems rationally. Where insomnia is due to mild tension, a slightly larger sedative dose is often enough to let the patient drift into a natural sleep. Larger hypnotic doses bring sleep to even the most stubborn case.

**The qualities of NEMBUTAL.** It is rapid in onset, and has a duration of action of about 4 to 6 hours, which lessens the possibility of hangover. It may be used for any degree of CNS depression, from mild sedation to deep hypnosis, by adjusting the dose.

Nembutal is available in three strengths 30 mg ( $\frac{1}{2}$  gr), 50 mg ( $\frac{3}{4}$  gr), 100 mg ( $1\frac{1}{2}$  gr) also as Elixir containing approx. 20 mg/5 ml. For daytime sedation: One 30 mg capsule t.d.s. (One 50 mg

capsule t.d.s. if required). As an aid to natural sleep: One 50 mg capsule nocte. For hypnosis: One (or two) 100 mg capsules nocte (up to four capsules for basal hypnosis).

You avoid the unexpected  
and have the safety and  
assurance of a classic drug

# Triominic

Oral Nasal Decongestant **WANDER**

'Triominic' timed-release tablets and orange-flavoured syrup contain antihistamines and a decongestant in balanced proportions to ensure relief from nasal congestion for between 6 and 8 hours. The active constituents of 'Triominic'—the original *oral* decongestant—reach the nasal mucosa systemically. This obviates the rebound congestion which may follow the topical use of decongestants.

## Formula per timed-release tablet.

Phenylpropanolamine hydrochloride.....	50 mg.
Mepyramine maleate B.P.....	25 mg.
Pheniramine maleate.....	25 mg.

S.2 Part 1

'Triominic' is also available  
as an orange-flavoured Syrup.

Basic N.H.S. prices: 50 tablets 5/9½; 2 fl. oz. 2/6.

Literature and sample on request

A. WANDER LIMITED · 42 UPPER GROSVENOR STREET · LONDON W1

RO5-2807, one of 20,000 new compounds synthesised by Roche in the past ten years, was tested in seven different animal species and clinically evaluated by more than 900 physicians in over 21,000 patients during a period of four years before being made generally available to the medical profession as

# VALIUM ROCHE

FOR THE TREATMENT  
OF TENSION STATES  
AND INSOMNIA ASSOCIATED  
WITH ANXIETY

Already more than 250 reports on Valium Roche have been published in journals, or read at scientific meetings, and many other papers await publication. Research continues to demonstrate the widening field in which Valium Roche may be used.

\*registered trade mark for preparations containing 7-chloro-1, 3-dihydro-1-methyl-5-phenyl-2H-1, 4-benzodiazepin-2-one.

# ALUSAC

'ALUSAC' ANTACID tablets provide a pleasant and convenient means of CONTINUOUS ANTACID "DRIP" THERAPY. Each tablet contains: Sucralox 500 mg., Methylpolysiloxane 40 mg., in a spearmint flavoured base. Sucralox is a complex of Sucrose and aluminium hydroxide—it exhibits a rapid and prolonged acid-neutralizing action within the clinically preferred range (pH3-pH4). Methylpolysiloxane breaks up froth and quickly minimises discomfort from the abdominal distention caused by excessive gas.

*Presented in packs of 40 tablets and dispensing packs of 200 tablets.*

BEECHAM RESEARCH LABORATORIES

# NORMAX

THIS CAPSULE

PROMOTES REGULARITY

It contains dioctyl-sodium sulphosuccinate 60 mg, and 1-8 dihydroxyanthraquinone 50mg.

Normax acts by softening the faeces and gently stimulating colonic peristalsis. It is indicated especially during pregnancy and for the elderly patient, when its gentle action in restoring regularity is most appreciated.

1-8 dihydroxyanthraquinone acts on the lower bowel and has no irritant actions. Dioctyl-sodium sulphosuccinate is not absorbed and does not break down during its passage through the intestine.

Dioctyl-sodium sulphosuccinate acts by lowering the surface tension of the impacted faecal mass and in association with the mild peristaltic movement induced by the 1-8 dihydroxyanthraquinone, leads to facilitated passage of soft stools. Animal experiments and extensive clinical observations have failed to reveal evidence of toxicity.<sup>1,2</sup>

Because of this the therapeutic effect of Normax can be obtained without the danger of toxicity. Normax has a wide application in the treatment of constipation and it retains its effectiveness even when used regularly over long periods.<sup>1</sup> Normax restores regularity and is a rational approach to the treatment of constipation.

Normax capsules are available in bottles of 30 and 250 at basic NHS price of 4/10d. and 26/10d. respectively. Normax is subject to purchase tax.

## **Betnesol<sup>®</sup> the corticosteroid tablets patients drink**

Betnesol is a water soluble tablet of betamethasone phosphate which when given in this fluid form represents oral corticosteroid therapy in its most easily administered form.

A much better tolerance with less risk of gastric disturbance results because no solid steroid particles reach the stomach.

Betnesol offers rapid and maximum absorption, the most constant therapeutic effect and in some cases, allows reduction of dosage.

Detailed literature available.

**New—Foil Strip Packs.** Both the 0.5 mg and 0.25 mg strengths are now available in foil strip packs of 100 and 500 tablets.

Glaxo Laboratories Limited

# SYNADRIN

IN ANGINA PECTORIS  
TREATS THE PATIENT  
RATHER THAN HIS ATTACK

## "AN EFFECTIVE DRUG FOR TREATING ANGINA PECTORIS"<sup>3</sup>

Synadrin reduces the incidence of anginal attacks during long-term treatment by producing a prolonged improvement in the coronary blood supply. Its effectiveness has been shown by a number of double blind studies,<sup>1-7</sup> and it is indicated in all forms of ischaemic heart disease.<sup>8-15</sup> Synadrin tablets contain 15 mg. prenylamine lactate. Treatment is initiated with two tablets three times a day and this dose may be reduced as beneficial effects become apparent.

*Synadrin is known in some other countries as Segontin.*

# Alphosyl-today's most widely prescribed product used specifically for the treatment of Psoriasis

In case after case, Alphosyl's effectiveness in controlling psoriasis is repeatedly confirmed. Even in chronic and refractory cases outstanding results have been achieved despite the failure of all previous forms of therapy. Evidence of four recent clinical trials<sup>1,4,5,6</sup> shows that from a total of 249 patients treated with Alphosyl, 111 were completely cleared, 80 were 75%–99% improved, 44 were 50%–74% improved and only 14 showed less than 50% improvement.

**Why Alphosyl is so effective** In Alphosyl, allantoin and a specially refined coal-tar extract were combined for the first time. Allantoin has been found to be particularly effective in loosening psoriatic scales,<sup>3</sup> while the keratoplastic effect of coal-tar is well known.<sup>3</sup> Alphosyl

is non-greasy and non-staining and vanishes on application. It is notably safe,<sup>1,3</sup> being free from the risks which are found in other forms of treatment such as arsenicals, mercury, corticosteroids, x-ray, etc. It certainly deserves a trial in all cases of psoriasis.

**New Alphosyl Cream** Following the success of Alphosyl Lotion, this coal-tar allantoin combination is now available in Britain as a lubricating cream. The cream base has proved a particularly effective vehicle for Alphosyl as it incorporates a combination of free fatty acids (saturated and unsaturated) naturally occurring triglycerides, sterols and esters to give the lipid phase of the base a significant resemblance to the lipid array of normal human skin.<sup>6</sup>

**Alphosyl Lotion** formula—special coal-tar extract 5%+allantoin 2% in a smooth, non-greasy lotion base.

**Alphosyl Cream** formula—allantoin 2%+90% alcoholic extract of coal-tar (5=1) 5% in a vanishing cream base.

Ethinylloestradiol B.P. 0.0044 mg.  
Methyltestosterone B.P. 3.6 mg.  
Bottles of 25 and 100.

# Mixogen

PIONEERS OF

HORMONE THERAPY

# Alupent<sup>®</sup>

Where the problem is **wheezing** in chronic bronchitis

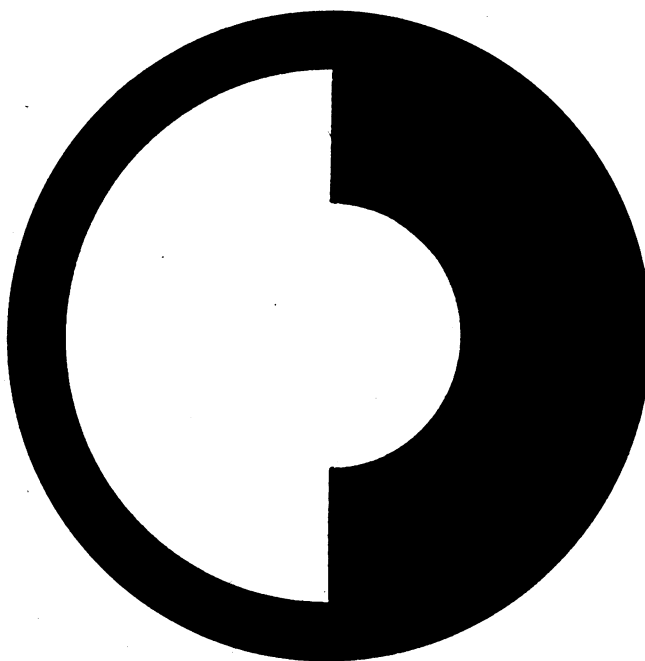

Effective routine treatment requires a bronchodilator which is both potent and well-tolerated by the patient.

Published evidence has shown that **Alupent** 20 mg. fulfils these requirements.

In an objective study comparing **Alupent**, ephedrine, isoprenaline and methoxyphenamine by mouth spirometric measurements showed that **Alupent** 20 mg. produced the largest and most sustained bronchodilator effect over a period of four hours<sup>1</sup>.

In a double-blind, controlled study of 35 chronic bronchitic patients, **Alupent** 20 mg. produced a significant mean increase of 21.5% in F.E.V.<sub>1</sub> in 32 patients. The incidence of side-effects with **Alupent** in this series was no different from that with the placebo tablet<sup>2</sup>. This evidence shows that for effective prophylaxis of wheezing in chronic bronchitis

the Answer is **Alupent** 20 mg. q.d.s.

# MIGRAINE

Medihaler-Ergotamine sets a new standard of speed, predictability and convenience of treatment. An entirely new route, oral inhalation, enables ergotamine to provide the speed and predictability of relief expected only of injections. Yet Medihaler-Ergotamine is as simple to use and carry as a tablet. Attacks are aborted by a much smaller dose than is needed orally, with correspondingly less risk of side-effects. One to three inhalations ensure profound relief in most cases, at a cost of only 3d. to 9d. per treatment. Basic NHS prices are: complete unit 17/4, refill 15/-

**medihaler ergotamine**

Medihaler: registered trade mark  
Medihaler-Ergotamine contains Ergotamine Tartrate B.P. 9 mg./ml. and delivers 60 measured doses.

# 'EMPRAZIL'

provides uncommon relief  
for the common cold

---

One preparation for the relief of all cold symptoms. Adults should take two tablets three times a day. Children over six years, one tablet three times a day.

Slight drowsiness and dry mouth may occur in a few patients. Although pseudoephedrine has negligible pressor effect, caution should be observed in patients with raised blood pressure.

---

## 'EMPRAZIL' brand Tablets

Each 'Emprazil' tablet contains pseudoephedrine, chlorcyclizine, acetylsalicylic acid, phenacetin and caffeine.

THE QUEEN ELIZABETH HOSPITAL  
North-East Metropolitan Regional Hospital Board

**REGISTRAR IN PSYCHIATRY**  
(male or female) required. Hospital recognized for the D.P.M. and Registrars are encouraged to attend recognized courses. This is an active psychiatric hospital, situated in Colchester, a 55-minute train journey from London. Hospital has extensive out-patient commitments in North-East Essex, together with Departments of Electroencephalography, Psychology, and Industrial Therapy. The hospital is run on a firm system, and the Registrar will work on a unit having 250 beds, in charge of the Physician Superintendent. Complete range of treatment carried out, and there are opportunities for research and teaching.

Applications, with names of two referees, to the Group Secretary, St. Helena Group H.M.C., 14 Pope's Lane, Colchester, Essex. (8349)

“Doctor,  
I feel awful”

Once he might have been diagnosed as “anxiety state”. Today, you know he might be a depressive, but it doesn’t seem as simple as all that. The truth of the matter is that patients don’t always fit neatly into diagnostic categories. They may suffer from such diverse symptoms as depression, agitation, loss of appetite and tension-fatigue at the same time.

The great strength of ‘Aventyl’ is that its beneficial actions range widely over the symptoms which plague these

problem patients. ‘Aventyl’ is not merely an anti-depressant, nor is it a combination of drugs. It is a *single substance* which relieves a constellation of mental and emotional symptoms embracing depression, anxiety and their effects on awareness and mood.

*‘Aventyl’ is not a monoamine oxidase inhibitor, and no serious side-effects have been reported at the recommended dosage.*

**‘AVENTYL’<sup>TM</sup>** lightens the troubled mind

Nortriptyline

‘Pulvules’ of 10 mg. and 25 mg. Liquid: 10 mg. in each 5 ml., in bottles of 120 and 480 ml.  
Full information will be sent on request.

*Remember him?*

*He's the patient who complained of shoulder pains and headache.*

You provided rapid relief by prescribing Ponstan (2 initially, followed by 1 six hourly). Ponstan\* (mefenamic acid, Parke-Davis) is the new oral analgesic which is superior to acetylsalicylic acid, non-toxic in recommended doses, potent even with repeated administration and seldom likely to cause gastric disturbance. It is indicated in headaches of most aetiologies and for the relief of muscular pain.

## **PONSTAN**

Ponstan is available in 250 mg. Kapseals in containers of 12, 100 and 500.

**PARKE-DAVIS** Parke-Davis, Hounslow, London. \*Trademark

**Psychiatry—contd.****BIRMINGHAM REGIONAL HOSPITAL BOARD****WHOLE-TIME SENIOR REGISTRAR IN PSYCHIATRY**

Duties at St. Edward's Hospital, Cheddleton and City General Hospital, Stoke-on-Trent. Wide experience in Psychiatry, D.P.M. required. **Surgery—contd. on p. xl.**

IS THIS YOUR PRE-REGISTRATION YEAR?

# Before you commit yourself to a practice work 3 or 5 years in the R.A.F.

When is the right time for you to make the big, once-and-for-always decisions about the way it's best for you to work and live your life? Straight away, now, at once? Or when you have had the chance to do a little out-of-hospital doctoring 'on your own', seen some common ailments and got a bit of capital together? Many people feel that it is only prudent not to be in too much of a hurry. If you are one of them, here is a thought for you:

*You don't, now, have to choose either an R.A.F. career or a civilian one. You can have both. And there are good reasons why you should—not only for your own sake and your family's, but in the interests of the profession and the public generally.*

## Interesting, out-of-the-rut medicine

Your first job in the R.A.F. (which you'll get three months after you join) will probably be Junior M.O. at a Station—rather like being an "Assistant with a view". In a typical case, you'd be one of two doctors, with, between you, 1500 to 2500 people to take care of. These would be the officers and men serving with you on the Station, and their families, plus any civilians who might be working there.

*You'd have a much shorter list than you would as a civilian G.P., and to this extent you would live a less strenuous life. To compensate, you would give much more comprehensive care. It is this—and the variety of your work—that makes practice in the R.A.F. so interesting.*

In the R.A.F., you combine several functions. You are in medical care not only of people, but of the environment they live in, and of the work they do. In proportion, you do less curative work, and more preventive work than most civilian doctors.

A lot of people hold the view that this is the way all medicine should be practised: with the closest possible intermingling of the doctor and his patients.

## You see a bit of the world

Think of two doctors, both aged 40. One went to his practice straight from his teaching hospital, and has been there ever since. The other went from hospital into the R.A.F. on a 5-year commission. He lived—and lived well—in the tropics with his family for 2½ years, and visited 7 countries on leave or duty, two European, three Asian, and two Australasian. All this, of course, was some time ago—he's been in civilian practice 10 years now; he's as well established as the other doctor. But which of the two has got more out of life, and has the richer memories to look back upon?

*In many ways, the transition from hospital into the R.A.F. seems much more 'natural' than the movement to civilian practice. The two communities have much more in common: both are young, cheerful, energetic, rather self-contained—and at the same time very professional, with a marked sense of purpose about what they do. If you can feel, now, that you are going to miss Medical School when you leave it, think about going into the R.A.F.: Service life would probably be 'right' for you.*

## 'Retire' with up to £3,000, tax-free

Next year, if you were in the R.A.F. as a married officer, your pay and allowances could be over £2,000. You would get regular 'rises' and regular promotion. In hard cash terms you would be literally *hundreds of pounds* better off than your civilian opposite-numbers. Besides which, your cost-of-living would be lower: if you were single, living in the Mess, you would get the equivalent of first-class hotel accommodation for, perhaps, 2/- a day out of your pay; if you were married, and the R.A.F. provided you with a house furnished right down to the last coffee cup, and they probably would—the rent would be £192 p.a.

*Leave the Service after 3 years, and you get a gratuity of £1,500, tax-free; stay on for 5, and you get £3,000. With this, you could put down a deposit on a house and furnish it very well indeed, attic to cellar.*

Five years from now. You'd probably still be the right side of thirty. What a start to a career!

## In all your life, when will you have a chance like this again?

Today, because you are young and at the beginning of your career, you can take a short time out from the main stream of civilian practice just by deciding to do it.

Now, you are free to go. In a few years time, you probably won't be.

At this stage in life, you have none of the commitments that might make an older man hold back; things like a practice that has your name on it; obligations to a community that you have become a part of; the ownership of property . . . and suchlike hostages to fortune.

All these things will, quite properly, come along in due time.

Meanwhile, you have this chance and now is the time to find out about it. If you can't write off straight away, ~~take~~ this advertisement out and put it in your pocket to remind you.

## Do not let this chance go by default

For full information, please write giving your age and qualifications to Wing Commander D. G. M. HILLS, M.B., B.S., D.P.H., R.A.F., Ministry of Defence (MA1/HN 171B), 1-6 Tavistock Square, London WC1.

The Royal  
Air Force

## COMMERCIAL APPOINTMENTS

Hoechst  
Pharmaceuticals Limited

the associate company of Farbwerke Hoechst A.G., one of the largest international pharmaceutical organizations backed by an annual research expenditure of over £12 million, wish to appoint a medical practitioner to take charge of

THE DEPARTMENT OF  
CLINICAL INVESTIGATION

The duties will include the initiation and evaluation of clinical studies in the United Kingdom, preparation and handling of submissions to the Committee on Safety of Drugs, and liaison with other departments of clinical investigation in the organisation. It is envisaged that the successful applicant will spend an initial period in Frankfurt and thereafter will be prepared to undertake travel in the United Kingdom and occasionally to Germany.

This appointment presents a unique opportunity for a medical practitioner, probably with a higher qualification, with several years' hospital experience, to join an organization of international repute with a proved record of scientific achievement. The successful candidate will have a thorough understanding of the methods used in clinical evaluation and assessment, and must be prepared to make himself proficient in the use of the German language.

The company operates Non-Contributory Superannuation and B.U.P.A. Schemes and an annual bonus, and a car will be provided. Salary will be by negotiation.

## M&amp;B

## ASSISTANT MEDICAL OFFICER

May & Baker Ltd., Dagenham, Essex, invite applications from male registered medical practitioners, aged about 30 years, for appointment as Assistant Medical Officer in their Health Department. Candidates should have a good clinical background and an interest in industrial medicine. The additional qualification of D.P.H. or D.I.H. is desirable, but not essential. Salary according to B.M.A. scale. Contributory Pension scheme.

Applications, giving full details of qualifications and experience, together with the names of three referees, should be sent to the Personnel Officer quoting reference No. BM/134/64. (8314)

AUTOMATIC TELEPHONE AND ELECTRIC  
COMPANY LIMITED

## COMPANY MEDICAL OFFICER

Applications are invited from registered Medical Practitioners for appointment to a large organization in Liverpool engaged in the manufacture of telecommunication equipment.

Candidates, preferably with experience in industry, should be prepared to accept responsibility for Dental and Ophthalmic Clinics and Works Surgery, where fully qualified staff are already engaged.

Duties include medical examination of staff at all levels, including those travelling overseas, and others covered by statutory regulations.

The post therefore demands a high degree of professional competence, coupled with the ability to establish close liaison with Divisional Managers on safety measures.

The Company operates a contributory pension scheme and the salary offered will be commensurate with the responsibilities involved and in accordance with B.M.A. recommendations.

Applications, giving age, full details of qualifications and experience, should be addressed to the:

Personnel Executive,  
Strowger Works,  
LIVERPOOL 7.

## MISCELLANEOUS

## BIOCHEMISTS

Mid-Herts Group Hospital Management  
Committee

**Senior Biochemist**  
holding appropriate science degree or other  
approved qualifications, required. The suc-  
cessful candidate will be based at Hill End  
Hospital, St. Albans, which is within easy  
reach of Central London. Duties consist of  
the routine and advanced biochemical in-  
vestigations for the Group and advanced in-  
vestigation from other laboratories in the  
area. Research experience an advantage.  
Intending applicants may visit the labora-  
tory by appointment. Salary £1,566, rising  
to £1,936 per annum. Applications, stating  
age, qualifications and experience, and nam-  
ing two referees to the Consultant Patho-  
logist, Hill End Hospital, St. Albans, Herts,  
as soon as possible. (6529)

## NON-MEDICAL POSTS

**Paper Harrow, Near Godalming, Surrey**  
Applications are invited for the post of  
**Psychiatric Social Worker or Social Case  
Worker**

at this Senior Home Office approved School.  
Applicants should have either the recog-  
nized qualifications for the above post or  
comparable experience to fit them for this  
work.

The person appointed would work from a  
London office, visit the school each week,  
and be expected to undertake intensive case  
work with parents where appropriate.

Salary according to age, qualifications and  
experience. Further particulars may be ob-  
tained from the Headmaster to whom appli-  
cations (giving names and addresses of two  
referees) should be addressed. (8051)

## continuous drip control of ulcer by tablet

PRODEXIN tablets give all the benefits of continuous intragastric drip therapy<sup>1</sup> without any of its disadvantages.

The slow suck down tablets are specially formulated to give prolonged antacid buffer effect, unaffected by stomach emptying rate.<sup>2</sup>

Immediate relief of pain is achieved by rapidly raising pH to 2 neutralising excess acid and controlling the acid secretion by slowly bringing up the pH to a desirable level of pH 3.5 and pH 4.5

### DOSAGE:

For continuous therapeutic effect one tablet at a time should be sucked slowly.  
For peptic ulcer one or more tablets an hour.

### References:
