Lethargy and fatigue are often a problem after childbirth, in convalescence, mild depression, over sedation, the menopause and in many old patients. The gentle action of Ritalin quickly restores mental and physical activity.

Tablets of 10 mg. Basic NHS price 100 -7/10d.

When you hear "Doctor, I always feel so tired" the answer may be Ritaling Methylphenidate-hydrochloride the well tried*

antilethargic

*In wide usage since 1955

IPEXON is an expectorant, demulcent, bronchodilating linctus indicated for the symptomatic treatment of productive cough

FORMULA
Guaiphenesin
(glyceryl guaiacol ether)
Ephedrine Hydrochloride
Sucrose
Glycerin
Aromatic flavoured vehicle to 5 ml.

PRESENTATION
IPEXON Expectorant is
available in bottles of 4 fl. oz.
A plastic measuring spoon is
included in each pack so that
doses can be measured accurately.

DOSAGE
Adults 5 ml. (1 teaspoonful)
3 to 4 times daily.
Children 2—12 years of age—
2.5 ml. (½ teaspoonful) 3 to 4 times daily. Under 2 years of age 2.5 ml.
(½ teaspoonful) once or twice daily.

IPEXON Expectorant is an excellent combination of drug properties for use in the management of respiratory diseases in which difficulty in raising sputum is experienced.

AN EVANS MEDICAL PRODUCT

Making foods for babies is an all-absorbing job (so we do nothing else)

We are lucky. We enjoy our work. That's why for 30 years we have specialised in making baby foods, and the baby foods we make are now famous. All over the world babies are thriving on Gerber... and loving it. For the Gerber range is so wide that even mothers with difficult babies can find the dietetically correct foods

in forms that their babies will accept. Gerber supply foods for every stage of a baby's development, from first cereals to strained and junior. Our 'Cradle-to-Table' service.

No other leading manufacturer does this.

Mothers find it helpful. They tell us
it gives them confidence. May we send you copies of
our medically approved booklet

'Your Baby's Food', for the home guidance of mothers attending your clinic? (There is

very little about Gerber in it!). Our address is:

The Gerber Baby Council,

10 New Fetter Lane, London, EC4.

Babies are our business-our only business

Manufacturer's Information

New Product

A non-stimulating appetite suppressant

Brand Name

PONDERAX

Active Ingredient

Each coated tablet contains 20 mg. of trifluoromethyl-3'-phenyl-1-ethylamino-2-propane hydro-

chloride.

Approved name: Fenfluramine.

Indications

Obesity, overweight associated with diabetes and hypertension and when stimulant drugs are

contraindicated.

Contraindications

Pregnancy, where the avoidance of drugs is the

general rule.

Dosage

Average 2 tablets at a time in the morning. Ponderax being very well tolerated and without any risk of addiction, in severe cases the dosage can be

increased from 3-5 throughout the day.

Side-effects

None are known.

Availability

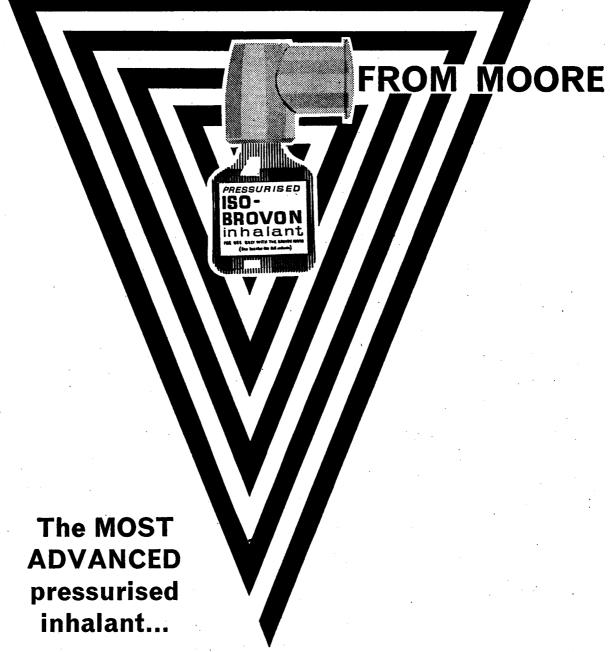

Bottles of 50 and 100 tablets.

Manufacturer

Selpharm Laboratories Ltd., 15 Hanover Square,

London, W.1.

"Steri-Drape"

SURGICAL DRAPES

the first practical replacement for cloth

"Steri-Drape" Surgical Drapes are completely impermeable transparent plastic surgical drapes. Backed with an exclusive pressure-sensitive co-polymer adhesive which is chemically inert, they stick instantly and evenly, and they are specially treated to prevent electrostatic build-up. Unlike cloth, these drapes positively wall off the operative site—right to the incision. The incision is made directly through the drape and extended if necessary without further 'prepping'. Or a second incision can be made.

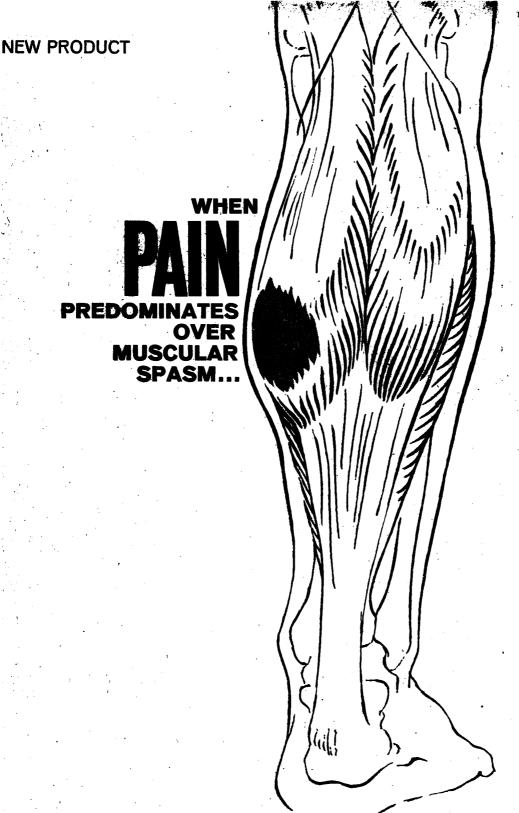

Bacteria-laden moisture from the skin cannot seep through to contaminate gloves or instruments. Aseptic conditions are maintained throughout the operation—and towel clips are not essential—eliminating another possible source of infection. The transparency of "Steri-Drape" Surgical Drapes enables the surgeon to see clearly the operative area and landmarks. X-ray pictures are quite clear. Afterwards, "Steri-Drape" Surgical Drapes peel off easily and leave no residue.

Ready-to-use "Steri-Drape" Surgical Drapes are prepacked in individual, sterile packs. A complete range of incise, aperture and towel drapes is available in various sizes.

MEDICAL PRODUCTS GROUP

NOW CARISOMA COMPOUND, FROM WALLACE LABORATOR PROMPTLY PROVIDES PAIN RELIEF AND MUSCLE RELAXATION AT THE SAME TIME

Carisoma Compound, a combination of carisoprodol with paracetamol, contains a pain-relieving component additional to the unique, proven, analgesic and muscle relaxant, 'Carisoma'. Carisoma Compound is indicated for the relief of all cases of muscular stiffness and spasm where pain is the predominating factor. It is particularly effective for strains and sprains. Recent studies in the United Kingdom have demonstrated

the efficacy of carisoprodol in muscular pain and spasm: DOSAGE: The usual dosage is one or two tablets three times daily AVAILABILITY: Pink tablets each containing carisoprodol 175 mg. + paracetamol 400 mg. Bottles of 50 and 250.

for ageing arteries

CYCLOSPASMOL

Cyclospasmol is indicated for the elderly and delicate patient showing signs of mental confusion, passing strokes and memory loss due to vascular impairment. Peripheral vascular disorders will also benefit from Cyclospasmol therapy. Cyclospasmol is a safe and effective vasodilator. It does not affect blood pressure and can be given in the presence of coronary vascular disorders. The daily dosage is usually 4 x 200 mg. which may be raised to 1600 mg. with safety. The maintenance dosage is 400 mg. daily.

Senior Virologist

Beecham Research Laboratories are seeking a man to lead a newly created section within the Department of Immunochemistry. This is a senior appointment and is unlikely to be filled by anyone aged much less than 30. There will be opportunities for further promotion.

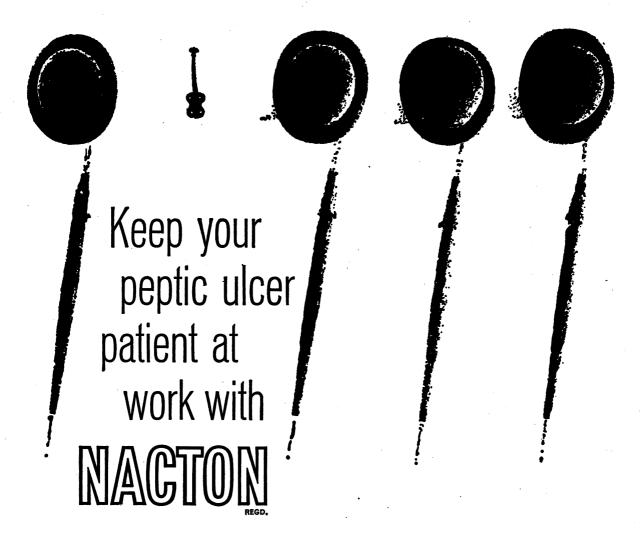

Applications are invited from scientists with good academic and research records. Some knowledge of the animal tests used in the virus field would be an advantage as would experience of both tissue and egg culture techniques.

An attractive starting salary will be offered and the successful candidate will join a branch of the Beecham Group. He will become eligible for the Group's generous profit sharing and non-contributory life assurance and pension schemes.

The research establishment is situated in pleasant countryside near Betchworth in Surrey, but applications, quoting reference SV/MJ, should be sent in the first instance, to:

The Personnel Manager,

Beecham Research Laboratories, Great West Road, Brentford, Middlesex.

Nacton halves gastric acid secretion: lessens gastric spasm without side-effects in therapeutic doses

During a 3-year follow-up trial* with Nacton when the patients' food was entirely of their own choosing:

- Antacids were found unnecessary
- Duodenal deformity was reduced in 42% of the patients
- Average loss of time from work was reduced from 4 weeks to only half a day per year.

14 November 1964

Whether your patient is an overworked housewife whose irritability and insomnia are making her life intolerable • OR a harassed clerk whose worries about his job and difficulties at home are threatening to overwhelm him • OR a cantankerous old granny who cannot adjust herself to dependence on her offspring • OR a middle-aged woman at the climacteric suffering from psychogenic symptoms • OR a problem child whose temporary lapse into enuresis is aggravating other behaviour disturbances

gives your patient a fresh start

Allegron rapidly relieves mental and emotional symptoms. It lifts the gloom of the depressed patient and frees her from guilt, self-reproach and anorexia. At the same time Allegron eases tension and helps the nervous, irritable patient to live peacefully and sleep soundly. Allegron brand of nortriptyline hydrochloride gives your patient a fresh start.

Allegron is not a monoamine oxidase inhibitor. It is available as tablets of 25 and 10 mg. and liquid containing 10 mg. per 5 ml. Further information available on request.

continuous drip control of ulcer

by tablet

PRODEXIN tablets give all the benefits of continuous intragastric drip therapy ¹ without any of its disadvantages.

The slow suck down tablets are specially formulated to give prolonged antacid buffer effect, unaffected by stomach emptying rate.₂

Immediate relief of pain is achieved by rapidly raising pH to 2 neutralising excess acid and controlling the acid secretion by slowly building up the pH to a desirable level of pH3.5 and pH4.5

DOSAGE:

For continuous therapeutic effect one tablet at a time should be sucked slowly. For peptic ulcer one or more tablets an hour.

PLEASE REMEMBER CANCER

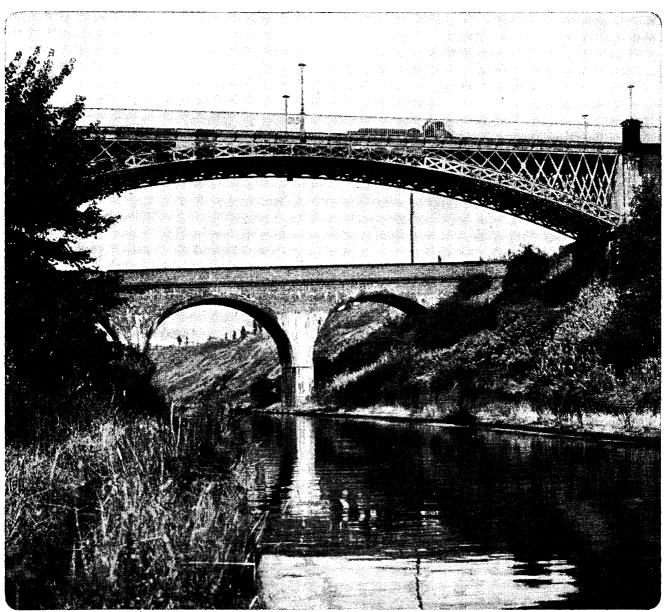

You may be asked from time to time to suggest a deserving cause as the subject of a bequest. Please remember that every year the British Empire Cancer Campaign for Research has to find more and more money for cancer research work not only in this country but in many parts of the Commonwealth. All this money must come from voluntary donations and bequests. The appropriate words to use in a will are: "I bequeath to the British Empire Cancer Campaign for Research the sum of £....." or "I devise and bequeath the residue of my estate to the British Empire Cancer Campaign for Research".

For further information please write to Sir Joseph Lockwood, Hon. Treasurer, British Empire Cancer Campaign for Research, Dept. (BM L9), 11 Grosvenor Crescent, London SW1.

The cast-iron Galton Bridge at Smethwick was designed by Thomas Telford, and built in 1829. It carries the road over the Birmingham Canal.

SIDROS—FOR THE PATIENT DEFICIENT IN IRON well tolerated iron compound plus reducing agent to aid absorption

In the treatment of iron-deficiency anaemia many iron salts can produce the desired increase in haemoglobin level. Some also have a tendency to produce side-effects, and there can be a great deal of wastage through non-absorption.

sides is designed to overcome these disadvantages, and provides a reliable treatment for irondeficiency anaemia.

Ferrous gluconate Each Sidros tablet contains 300 mg of ferrous gluconate which produces a highly satisfactory clinical response and is very well tolerated.

Ascorbic acid Sidros also contains stabilized ascorbic acid (30 mg per tablet) which is known to aid absorption by maintaining iron in the reduced state.

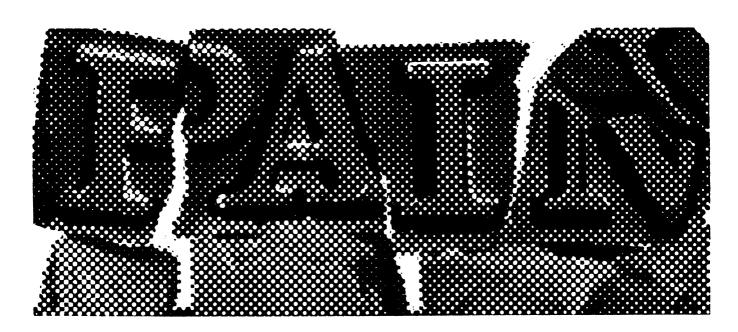

The basic NHS price of 100 Sidros tablets is 2/8 as dispensed from 1000 tablet bottle. Samples of Sidros are available on request.

SIDROS is effective, well absorbed, well tolerated and economical

eracks under DOLOXENE?

Three qualities highlight 'Doloxene' as an outstanding analgesic.

Potent 'Doloxene' is comparable with the more effective analgesics in use today. Its action is maintained over long courses of treatment—it will often delay the use of opiates.

Safe 'Doloxene' is free from the side-effects that have limited the value of classic analgesics such as morphine, codeine and the salicylates.

Purely analgesic 'Doloxene' has one significant pharmacological action—analgesia. It is not antipyretic, neither does it suppress the cough reflex.

'Doloxene' brand Dextropropoxyphene Hydrochloride is available as 'Pulvules' of 65 mg.

'DOLOXENE COMPOUND-65'

is indicated when pain is accompanied by fever or inflammation. Formula: 'Pulvules' containing 'Doloxene' 65 mg., Phenacetin 162 mg., Aspirin 227 mg., and Caffeine 32·4 mg.

Significant reductions in blood pressure

Eutonyl is a major advance in the control of hypertension. Mood elevation may occur, due to MAO inhibition. Side effects are not common, and are rarely intolerable. The simple dosage gives positive control. Eutonyl (pargyline hydrochloride, Abbott) treats severe essential hypertension by reducing peripheral resistance, without significantly affecting cardiac output. It has been shown to produce an antihypertensive response in some 80—85% of cases, and it is as successful against the more severe as against the moderately severe cases. In clinical trials, 90% of patients remained on Eutonyl, for side effects are rarely sufficiently severe to require the withdrawal of therapy. Eutonyl gives significant reductions in the blood pressure—especially the diastolic pressure—in the sitting and lying positions, as well as standing.

The concurrent use of Enduron® (methyclothiazide, Abbott)

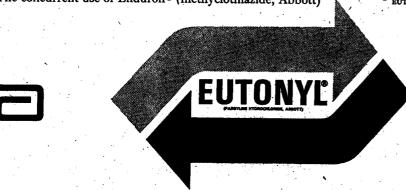

permits the use of a lower dosage of Eutonyl, thus further reducing the likelihood of side effects. Enduron particularly enhances the sitting and lying response to Eutonyl.

Information on these points is more fully covered in the physician's reference book, which contains a bibliography of 74 published references. This book should be consulted on dosage, side effects and precautions.

Instruction cards are available advising patients of the dietary restrictions (notably cheese and alcohol) and other precautions which they should observe while taking Eutonyl, which is an MAO inhibitor.

Eutonyl (pargyline hydrochloride, Abbott) is supplied in Filmtab® tablets under the names Eutonyl (25 mg, orange) and Eutonyl-Ten (10 mg, pink). Enduron (methyclothiazide, Abbott) is supplied in square grooved tablets of 5 mg.

new for the most effective management of inflammatory dermatoses

In the treatment of inflammatory dermatoses, Remiderm, which combines a highly effective antiseptic, halquinol, with the well-established topical corticosteroid, triamcinolone acetonide, rapidly relieves the inflammatory, pruritic or allergic symptoms, and at the same time, protects the lesion from secondary infection. Where infection is already present Remiderm hastens recovery by controlling the causative organisms, but, unlike the antibiotic-corticosteroid combinations, Remiderm has not been found to cause skin sensitization and cannot induce the development of antibiotic-resistant bacteria.

Remiderm is available in two forms: cream and ointment. Each contains triamcinolone acetonide 0.025% and halquinol (Squibb chlorhydroxyquinoline) 0.75%. Packs: 15 gm. tubes, 7/9 basic NHS price.

In coronary heart disease 'Atromid'-S is the rational approach

The broad-spectrum lipid lowering activity:—

- □ LOWERS elevated serum triglyceride levels
- □ DECREASES elevated serum cholesterol levels
- □ IMPROVES the α/β lipoprotein ratio
- □ REDUCES the low density lipoprotein (Sf 20-400) fraction

At the same time 'Atromid'-S has a favourable effect on the abnormal thrombotic factors of such patients.

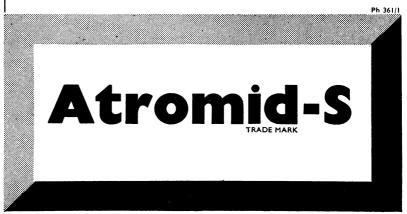

"'Atromid'-S appears at present to be the best available treatment of hyperlipidaemia." Practitioner, 1964, 192, 429.

A practical and safe approach to the problem of atherosclerosis

'Atromid'-S is presented as red, soft gelatin capsules each containing 250 mg. ethyl 2-(p-chlorophenoxy) -2-methylpropionate. Average daily requirement is 8 capsules taken in divided doses after food.

Imperial Chemical Industries Limited Pharmaceuticals Division Alderley Park Macclesfield Cheshire

The illustration (circa 1400 A.D.) depicts the stage of life of an Aztec of ancient Mexico where he suffers from the "pains of middle age". The position of the spear heads indicate the various parts of the body which were particularly afflicted, e.g., his eyes begin to fail, his heart becomes weak and his muscles begin to ache. The Aztecs found that these grumbling pains began rather earlier in their life span than we find

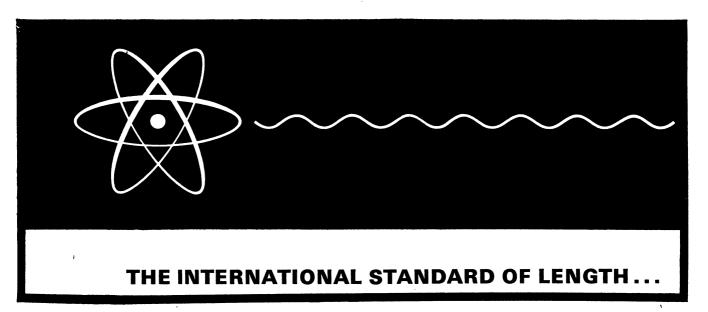

in ours. Today, of course; much can be done to relieve the querulousness of old age and the use of drugs such as

'Largactil'

is helping considerably to make this stage of life happier and more useful.

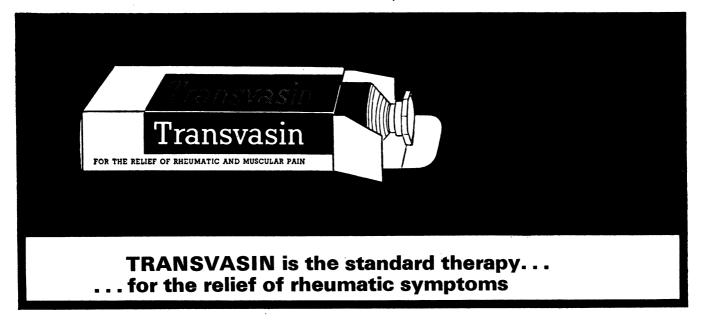

... is the Metre, which is defined as equal to 1,650,763.73 times the wavelength in vacuo of the orange line emitted by the atom of krypton of mass 86, in dry air at 15°C and at standard atmospheric pressure.

This definition of the Metre was accep-

ted by the International Committee of Weights and Measures in 1958. The International Prototype Metre, which was established in 1889, was the distance between two transverse graduation lines engraved on a platinum-iridium bar, kept at Sèvres, near Paris.

Patients suffering from rheumatic lesions obtain rapid relief with Transvasin, the well-proven and economical therapy. The esters of nicotinic, salicylic and paminobenzoic acids penetrate the skin

and are concentrated at the point of injury, producing superficial erythema and deep hyperaemia. Transvasin is a most valuable adjuvant in the treatment of both osteo- and rheumatoid-arthritis.

the advantages of mc

oxygen mask

RELIABILITY

Oxygen is delivered direct to the patient's nose and mouth. The small volume prevents accumulation of carbon dioxide. The semi-rigid plastic holds the mask away from face if oxygen supply fails. No danger of suffocation.

COMFORT

Mask is light, transparent and edged with plastic foam. This makes close fit, without the discomfort of wire. Swivelling inflow pipe reduces drag from tubing of cylinder.

ECONOMY

Only 2 1/min. of oxygen are required. Blood gas analyses show that the blood becomes normally saturated at this low flow.

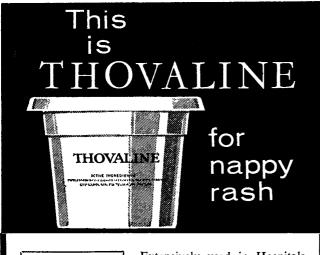

ADAPTABILITY

The mask can easily be adapted to fit young children by folding up the lower corner and fixing with adhesive tape.

USED BY LEADING HOSPITALS THROUGHOUT THE COUNTRY Cost. MC masks are individually packed in polythene bags containing full instructions and are available at quantity discounts or 3/6 singly. The improved efficiency and great economy in oxygen more than repay the slight extra initial

Doubt and the Pill'

Oral contraception has gained widespread appeal through the marital confidence it now makes possible.

The number of patients seeking consultation and the increasing number of converts to the method, make it clear that temporary side-effects are accepted, for the most part, as a small price to pay for the peace of mind and assurance the method provides.

Where natural caution and reticence exist, the assurance of patient and physician alike is best served by discerning choice of the product.

14 November 1964 ADVERTISEMENT BRITISH MEDICAL JOURNA

⁶⁶ Doctor,
I feel awful ⁹⁹

Once she might have been diagnosed as "anxiety state". Today, you know she might be a depressive, but it doesn't seem as simple as all that. The truth of the matter is that patients don't always fit neatly into diagnostic categories. They may suffer from such diverse symptoms as depression, agitation, loss of appetite and tension-fatigue at the same time.

The great strength of 'Aventyl' is that its beneficial actions range widely over the symptoms which plague these

problem patients. 'Aventyl' is not merely an antidepressant, nor is it a combination of drugs. It is a *single substance* which relieves a constellation of mental and emotional symptoms embracing depression, anxiety and their effects on awareness and mood.

'Aventyl' is not a monoamine oxidase inhibitor, and no serious side-effects have been reported at the recommended dosage.

'AVENTY L' lightens the troubled mind

'Pulvules' of 10 mg, and 25 mg. Liquid: 10 mg. in each 5 ml., in bottles of 120 and 480 ml.

Full information will be sent on request.

PRINCESS ALEXANDRA HOPITAL **BRISBANE**

REGISTRAR IN PATHOLOGY

Applications are invited from suitably qualified medical practitioners for a position as a Registrar in the Department of Pathology at the above teaching hospital. Previous experience, although desirable, is not essential.

The relatively recently opened Princess Alexandra Hospital is the second largest base hospital in Queensland, with a present accommodation for over 800 acute patients and over 300 chronic and geriatric cases. The University of Queensland operates medical and surgical units for teaching and research at the hospital.

The Department of Pathology is modern, spacious, well equipped and air-conditioned throughout. It contains four main divisions, namely Bacteriology, Biochemistry, Haematology and Surgical Pathology/ Morbid Anatomy, and is fully recognized by the College of Pathologists of Australia for the purpose of training pathologists. The successful candidate will receive a comprehensive training in pathology logy.

The salary scale, which is at present under review, is £A.2,600 minimum to £A.2,975 maximum per annum. This salary is nominal and is subject to basic wage adjustments, at present £A.75 10s, per annum. Under certain circumstances an appointee may be eligible for a further £A.100 living-out allowance. Commencing salary will depend on qualifications and experience.

Further information may be obtained from the Director of Pathology, Dr. R. A. Caldwell, but applications, giving full details of qualifica-tions and experience, together with the names and addresses of at least two referees, should reach the Manager, South Brisbane Hospi-tals Board, Ipswich Road, Woolloongabba, Brisbane, Queensland, by December 19, 1964. (8823)

PHARMACEUTICAL PRODUCTS

Readers are reminded that prescribers literature and clinical information are always available from advertisers on request.

ONE ORAL BROAD-SPECTRUM ANTIBIOTIC STARTS WITH INJECTION-LIKE PERFORMANCE AND ENDS WITH UP TO 2 EXTRA DAYS' PROTECTION

DEMETHYLCHLORTETRACYCLINE LEDERLE

.. by giving up to 3.5 times the in vitro tetracycline activity, combined with lower rate of serum decay and slower renal clearance ... a depot-like effect resulting from favourable protein binding... providing higher, sustained, rapid in vivo response ... and without risk of pain induration, abscess formation, and added cost of intramuscular therapy.

For adults: capsules/tablets 150 mg (1 q.i.d. or 2 b.i.d.). For children: pleasantly flavoured paediatric drops, 60 mg/cc (3 mg/drop), and syrup, 75 mg/5 cc teaspoonful (3-6 mg/lb/day).

Calcium-sandoz Effervescent Tablets

in osteoporosis

of postmenopausal or senile origin

Effervescent Tablets (orange flavoured):

calcium gluconogalactogluconate Calcium-Sandoz | (0.38 g. Ca equivalent to 4 g. calcium gluconate) and 20 mg. ascorbic acid

2 to 5 effervescent tablets daily

"Studies are reported here waich suggest that calcium desciency is an important factor

in many cases of postmenopausal and senile osteoporosis. Many patients with these for ns of osteoporosis absorb and retain calcium abnormally avidly when on a high calcium intake in the form of supplements (calcium gluconate Sandoz), ald moreover may continue to retain it avidly for a least three and a half years. Symptoms of the disease are relieved and no further fractures take place."

Lancet (1961) 1, 1015
