CANCER RESEARCH

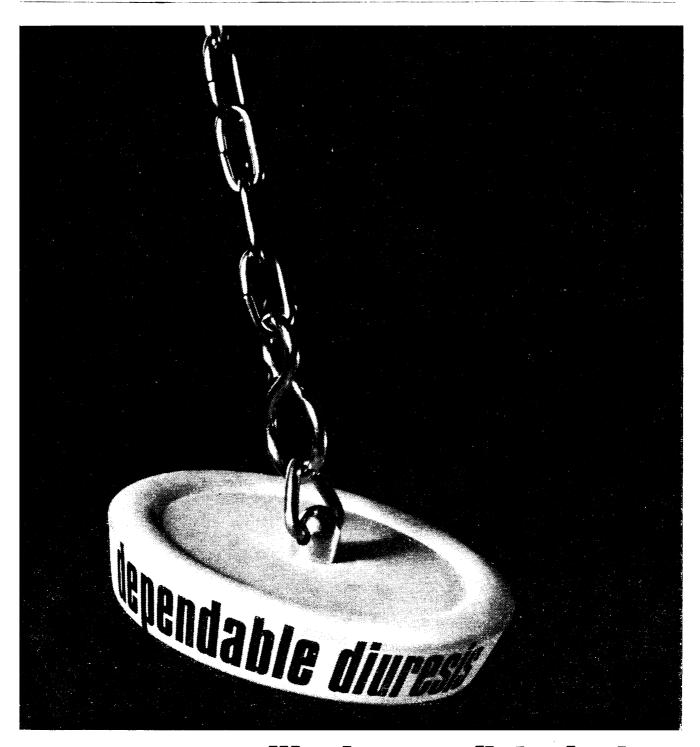

You may be asked from time to time to suggest a deserving cause as the subject of a bequest. Please remember that every year the British Empire Cancer Campaign for Research has to find more and more money for cancer research work not only in this country but in many parts of the Commonwealth. All this money must come from voluntary donations and bequests. The appropriate words to use in a will are: "I bequeath to the British Empire Cancer Campaign for Research the sum of £....." or "I devise and bequeath the residue of my estate to the British Empire Cancer Campaign for Research".

For further information please write to Sir Joseph Lockwood, Hon. Treasurer, British Empire Cancer Campaign for Research, Dept. BM.L, 11 Grosvenor Crescent, London SW1.

BRITISH EMPIRE CANCER CAMPAIGN FOR RESEARCH

...with sleep undisturbed

Due to its unsurpassed effectiveness and short duration of action, 'Saluric' generally provides a dependable diuresis which is substantially complete before the patient retires, allowing an undisturbed night's sleep.

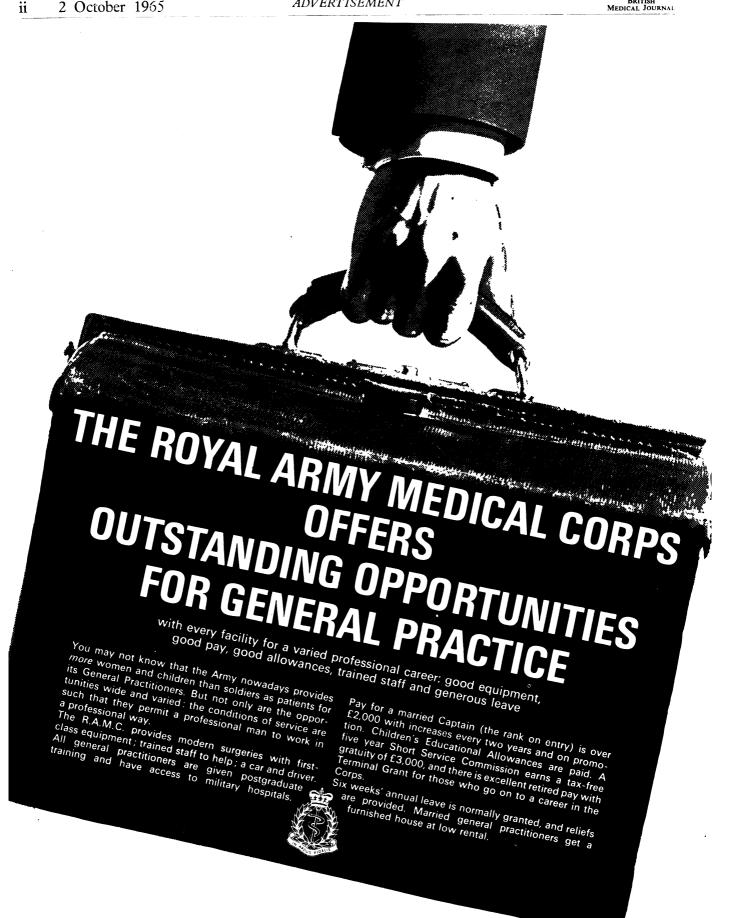

CHLOROTHIAZIDE BP

Available as 0.5 G tablets and , for emergencies , as 'Lyovac Saluric' for intravenous administration , in vials containing 0.5 G chlorothiazide as the sodium salt. Detailed information is available to physicians on request.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTFORDSHIRE

iii

Manufacturer's Information

Brand Name

AQUAMOX†—R TABLETS

Each tablet contains 50 mg. quinethazone+0.125 mg.

reserpine.

Active Ingredients

Quinethazone Reserpine.

Indications

Mild to moderate hypertension, with or without oedema. It is effective either alone or in combination with certain other hypertensives.

Administration

Average adult dosage: 1 to 2 tablets orally, once a day. A single morning dose generally is sufficient.

Side-effects

Various side-effects have been reported in a small percentage of those treated with AQUAMOX†-R Quinethazone with Reserpine. Few of these effects have forced cessation of treatment.

Contraindications

Anuria and oliguria. Since reserpine may increase gastric secretion and motility, its use alone or in combination requires caution and is sometimes contraindicated in patients with a history of peptic or duodenal ulcer or other gastrointestinal disturbances.

Presentation and Cost

Packs of 25 tablets, 16/- (basic N.H.S.). Packs of 100 tablets, £3 2s. od. (basic N.H.S.).

Manufacturer

Lederle Laboratories, a division of Cyanamid of Great Britain Limited, Bush House, Aldwych, London, W.C.2.

CONGENITAL HEART DISEASE - in two volumes

By Jesse E. Edwards, M.D., University of Minnesota Medical School; Lewis S. Carey, M.D., University of Minnesota Medical School; Henry N. Neufeld, M.D., Tel-Hashomer Government Hospital, Israel; and Richard G. Lester, M.D., Medical College of Virginia, Richmond, Va.

A superb new two-volume work offering inestimable aid in arriving at sound clinical diagnoses of congenital lesions of the heart. The internationally famous name of Jesse Edwards as editor-in-chief makes the authoritativeness of the book assured.

Two volumes totalling 960 pages.

More than 2,500 illustrations.

This new edition of Price's Textbook is virtually a new work. The sections dealing with infection, antibacterial agents, diseases due to infection and infestation, chemical and physical agents, disorders of metabolism, diseases of the endocrine glands, of the blood, of joints, of the skeleton and of connective tissue have all been entirely re-written. All other sections have been carefully revised and brought up to date with much new material.

The format has been completely changed—the two-column layout has greatly improved the appearance of the printed page and made it easier and less tiring to read. A number of carefully selected references follow the various sections; these are to review articles which will help the reader in search of more detailed information than a textbook can provide.

Despite these changes the book, now in its forty-third year, retains its original aimto provide a convenient and comprehensive reference book in which the practising physician, the clinical teacher, the general practitioner, and the student may find the accepted views and practice of contemporary British medicine.

.NEW 400-DOSE MEDIHALER

When Riker introduced Medihaler it was the world's first pressurised aerosol for inhalation therapy . . . first with a measured dose . . . first with a dry spray of premicronised particles for optimum effect in bronchospasm. Now Riker announce another first—the 400-dose Medihaler. More compact, yet giving one third more treatment from each unit new Medihaler is the result of continuous development and of successful use by doctors the world over. With it the cost per dose is reduced 15 per cent, to less than \frac{1}{2}d.

Although each unit lasts so much longer, hygiene is improved because with each prescription the patient receives a complete unit. The empty unit, including adapter is thrown away. In addition, the dustcap completely encloses the mouthpiece.

In bronchospasm, Medihaler continues to provide an immediacy and degree of relief unsurpassed by any other method-including injection. Now it is even easier and more convenient for the patient to use.

Basic NHS Prices

Standard Pack (complete unit)

RASTINON

IS THE FIRST CHOICE IN INITIATING ORAL ANTIDIABETIC THERAPY

For the maturity-onset diabetic whose blood sugar levels are inadequately controlled by diet, Rastinon provides control at normoglycaemic levels.

Given in divided doses after meals, Rastinon is rapidly absorbed and this ensures the maximum effect when the need is greatest. As hypoglycaemia is an exception with Rastinon, nocturnal hypoglycaemia will not present a hazard even with high doses.

Since side effects are few and minor the unsurpassed ratio of safety to effectiveness makes Rastinon the first choice for initiating oral antidiabetic therapy. Rastinon tablets each contain 0.5 g. tolbutamide B.P.

In Urinary Tract Infections the references

Over 400 publications from 29 countries endorse Penbritin (Ampicillin) as a broad-spectrum antibiotic. Its success in respiratory diseases, infections of the urinary and gastro-intestinal tracts, skin and soft tissues, venereal diseases and typhoid may be attributed to its high activity and bactericidal action.

The black and red capsule contains 250mg, ampicillin B.P.

This summary of published clinical papers illustrates the outstanding success of Penbritin in urinary tract infections. When Penbritin is used for the treatment of primary infections, a success rate of 80-90% may be anticipated, with rapid attainment of urine sterility in even more instances. In 26 papers* reporting chronic and recurrent infections, where the flora is often complex and other antibacterials have failed, Penbritin is successful in nearly 70% of cases: in such infections these results are outstanding and are attributed to Penbritin's high tissue and urine concentrations together with its bactericidal effect. In bacteriuria of pregnancy and many post-operative urinary infections, Penbritin is also an antibiotic of choice. It is recommended that Penbritin is only used after bacterial sensitivity testing has indicated that the organism is sensitive.

* A full list of references is available from the BRL Medical Department on request.

Availability: capsules, paediatric tablets, syrup and vials for injection.

Usual Dosage Urinary Tract Infections: 500mg. 8 hourly

In severe infections the dosage should be increased.

Consistently successful in the vast majority of cases

Synalar is the most extensively evaluated and clinically proven topical steroid

Many clinicians have drawn attention to the more rapid and more complete remissions frequently achieved with 'Synalar'.

Hitherto unresponsive or difficult cases will often yield. An extensive range of formulations assists flexibility in management and provides economy with efficiency.

Basic N.H.S. costs:-Cream and ointment 5G. 3/5d, 15G. 8/6d and 30G. 14/10½d. Lotion 20 ml. 10/8d. Aerosol 30 ml. 9/-.

For better topical steroid therapy in more patients

CREAM • OINTMENT • LOTION • AEROSOL also available with Neomycin as 'Synalar'-N and with Chinoform as 'Synalar' with Chincform.

Triominic

Oral Nasal Decongestant WANDER

'Triominic' timed-release tablets and orange-flavoured syrup contain antihistamines and a decongestant in balanced proportions to ensure relief from nasal congestion for between 6 and 8 hours. The active constituents of 'Triominic'—the original *oral* decongestant—reach the nasal mucosa systemically. This obviates the rebound congestion which may follow the topical use of decongestants.

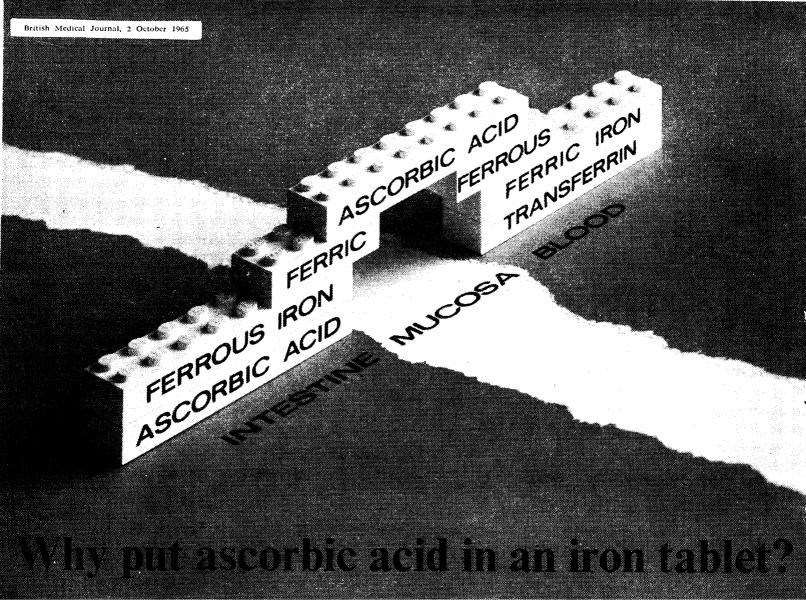

Formula per timed-release tablet.

Phenylpropanolamine hydrochloride50	mg.
Mepyramine maleate B.P25	mg.
Pheniramine maleate25	mg.

Part I S.7

'Triominic' is also available as an orange-flavoured syrup.
Basic N.H.S. prices: 50 tablets 5/9½;
4 fl. oz. 2/2 (ex dispensing packs).

Literature and sample on request

The "Sidros Absorption Bridge" is built with Lego

TO HELP YOUR PATIENT

The "Sidros Absorption Bridge" illustrates today's views on iron absorption. Iron is absorbed from the intestine only in its ferrous state. It is oxidized to the ferric salt on entering the mucosa and has to be reduced to ferrous iron before it can cross the barrier between mucosa and blood stream. Ascorbic acid acts as a reducing agent in this process. 1,2,3

Each Sidros tablet contains 300 mg. ferrous gluconate and 30 mg. stabilized ascorbic acid.

Dosage: 1-2 tablets three times daily.

Stabilized ascorbic acid is present in SIDROS to keep iron in its absorbable ferrous state in the alkaline environment of the bowel and to act as a reducing agent in the mucosa.

And to help you

Fewer complaints.... The incidence of side effects with ferrous gluconate is one-fifth of that with ferrous sulphate.⁴

1. Brit. Med. J. (1953), 1, 886. 2. Amer. J. Clin. Nutr. 1955, 3, 3 3. Nature (1963), 199, 384 4. Lancet (1955), 1, 740

MEETS TODAY'S REQUIREMENTS FOR MAXIMUM IRON ABSORPTION

HORLICKS LIMITED, Pharmaceutical Division, Slough, Bucks

which hypertensive patients are best treated with 'Esbatal'?

All new patients requiring an adrenergic neurone-blocking agent

- "Bethanidine sulphate is an important and potent hypotensive drug, and by its use the regime of many patients has been simplified and side-effects avoided". J. Irish med. Ass., 1965, 56, 9.
- "While expecting the symptoms of adrenergic neurone blockade, we have been pleasantly surprised by the lack of other side-effects, and especially by the absence of diarrhea". *Lancet*, 1962, ii, 897.

Male hypertensives

'Esbatal' does not cause impotence, but as with other adrenergic neurone-blocking agents, failure of ejaculation may occur. When this causes concern, withdrawal of 'Esbatal' for 24 hours usually reverses this side-effect. Good control of blood pressure is regained rapidly on resuming treatment. (See Lancet, 1964, ii, 659.)

Patients in whom other forms of hypotensive therapy cause diarrhea

".... a useful alternative to established means of therapy. It seldom causes diarrhea, and the dose is easily manipulated. *Lancet*, 1964, ii, 659.

When rapid control of blood pressure is essential

- ".... it has the advantage of more rapid action and excretion so that its dose can be increased more rapidly and the blood pressure brought under control more quickly". Brit. med. J., 1964, ii, 865.
- "Bethanidine sulphate is of particular value for the rapid reduction of high blood pressure" J. Irish med. Ass., 1965, 56, 9.

Rapid action—
Simpler management—
Minimal side-effects

PHARMACEUTICAL PRODUCTS

Readers are reminded that prescribers' literature and clinical information are always available from advertisers on request.

An analysis of the nutritional properties of Mackeson

Of course, dark beers have long been regarded as a valuable aid in building up strength after illness. But Mackeson has the important advantage of being more acceptable to invalids and convalescents because of its taste.

Instead of having a bitter taste

it is smooth and mild in flavour and consequently 'goes down' much better with the patients.

Calorific Value: 276 calories per pint, essentially equal to three quarters of a pint of milk.

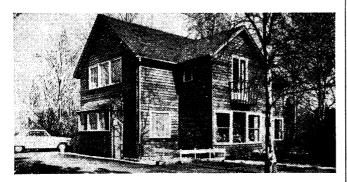

Lactose Sugar: One of the main ingredients, easily digested and quickly assimilated even by weakened digestive systems. Nitrogenous Matter: as protein break-down products, e.g. peptides and amino acids.

B-Group Vitamins: contains valuable water-soluble members of this group of vitamins.

PRACTICE MADE PERFECT WITH A COLT HOUSE

More than any other householder, a doctor needs flexibility of design. Colt houses offer this and a lot more besides. The timeless beauty of red cedar. A standard of finish which is almost unknown in the building industry today. A home which is warmer in winter and cooler in summer. Freedom forever from large maintenance bills. And guaranteed delivery dates. Browse through the generously illustrated brochure and book of plans and you'll see just how adaptable Colt houses are to your plans for home or surgery. The price is only 2/-.

CIBA Limited, Basle, Switzerland

To support a growing programme of research involving the development and evaluation of potential therapeutic agents, we propose to appoint:

two new medical advisers to our clinical research department.

Applicants should have a strong background in some branch of clinical medicine, internal medicine being particularly appropriate. In addition they should have an interest, and preferably some experience, in clinical research. Since the work will specifically involve clinical-pharmacological studies, knowledge or experience in this area will be a particular recommendation. Close collaboration with our Pharmacology Department will be encouraged.

A good knowledge of either English or German is essential, and both are desirable. French is also an asset.

Initial appointments will be made with seniority appropriate to experience and salaries and other terms of service will be negotiable with the individual appointee. Work will be centred on Basle, but will involve some international travel.

Applications will be treated confidentially and should be made to the Personnel Department of CIBA Limited, Basle (Switzerland), for the attention of the Director of Clinical Research.

(12276)

Oversea-contd.

LAGOS UNIVERSITY TEACHING HOSPITAL

Applications are invited from suitably qualified medical practitioners for the posts of:

(a) SENIOR REGISTRAR IN PAEDIATRICS (b) REGISTRAR IN PAEDIATRICS (c) SENIOR HOUSE OFFICER IN PAEDIATRICS

- **QUALIFICATIONS:**
 - (a) Candidates should have had considerable experience in the specialty chosen and hold appropriate higher qualification.
 - (b) Candidates should have held the post of Senior House Officer in the appropriate Department.
 - (c) Candidates must be registered medical practitioners.
 - Salary: (a) £1,776 by £68 to £1,980 per annum. (b) £1,452 by £60 to £1,512 per annum.

(c) £1,392 per annum.

Contract gratuity will be paid at the rate of £37 10s. for every completed period of three months satisfactory service. Special allowance of £270 or £300 per annum will also be paid where applicable.

Appointment will normally be for one tour of twelve months in the first instance, renewable in the case of Registrar for a second tour; and in the case of Senior Registrars for up to three tours by mutual agreement.

Leave will be granted at the end of each tour at the rate of either three and a half or five days for each completed month of service as applicable. Partly furnished accommodation will be provided at a rental not exceeding £150 per annum.

Application forms and further particulars are obtainable from the Secretary to the Overseas Representative, Lagos University Teaching Hospital, 38/39 Amberley House, Norfolk Street, London, W.C.2, to whom completed forms should be returned not later than October 23, 1965.

The closing date for the receipt of applications in Kuala Lumpur and London is October 30, 1965.

NCHANGA CONSOLIDATED COPPER MINES LIMITED (Zambia)

MEDICAL OFFICERS

Applications are invited from registered medical practitioners.

The successful applicants will be required to work as general duty medical officers in the two hospitals of Nchanga Consolidated Copper Mines Limited. These are the North Hospital, which has 250 beds and serves the non-fee paying members of the mining community, and the South Hospital with an approximate bed capacity of 70, which serves the members of the Company's Contributory Medical Scheme.

Some experience in general practice will be an advantage. The medical officers will work under the direction of the Company's Chief Medical Officer.

Salary will depend upon qualifications and experience but will be not less than £3,000 per annum.

The appointment will be for three years, at the end of which period a gratuity is paid calculated on five per cent of the first year's salary, five-and-a-half per cent of the second year and six per cent of the third year's salary. A bonus of five per cent is paid annually in December of each year.

Travelling and transport expenses are paid at the beginning and end of the contract period.

Housing is available with furniture at a nominal rent. An educational allowance is payable for children attending secondary education outside Zambia.

Excellent sporting facilities, including golf, tennis, riding and swimming, are available at Nchanga.

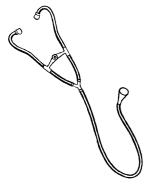

Applications must be submitted to:

The Appointments Officer (Dept. 000/93) Nchanga Consolidated Copper Mines Limited 7 Rolls Buildings London E.C.4.

(12918)

Oversea-contd.

MEDICAL SERVICE (11)

The developing countries overseas are in urgent need of doctors. A break from normal routine by accepting an appointment is offered with the opportunity to see something of the world and to gain valuable and interesting experience. These appointments are offered with attractive salaries, normally with an overseas allowance and a gratuity on completion of contract. There are also educational allowances for children and free family passages. Accommodation is provided free, or at a low rental, and income tax is usually low. In most cases superannuation rights can be preserved or maintained.

Here are some examples of posts available:

Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulant patient

66In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy.?? Med. Times, N.Y., 1958, 1, 74
