Eli Lilly and Company Limited Basingstoke England

success is the rule with 'Ilosone'
decisively effective in bacterial respiratory infections[†]

[†] Over 92% of patients presenting with bronchitis (bacterial complications), tonsillitis, acute sinusitis and acute streptococcal pharyngitis responded to 'Ilosone'.

SUSTAC

for the treatment of
angina pectoris gives the
patient lasting confidence

One SUSTAC tablet gives continuous and controlled release of glyceryl trinitrate independent of pH for 12 hours after ingestion. This uniform release of the drug ensures day and night protection against

anginal attacks, thus eliminating much of the fear associated with the condition.

BASIC N.H.S. COST

30 tablets 2.6 mg. (1/25th gr.) 8/6d

30 tablets 6.4 mg. (1/10th gr.) 10/6d

COLOMYCIN

for infections due to
Gram-negative
organisms

Clinical reports on COLOMYCIN clearly show that it is a valuable addition to the antibiotic armamentarium. Its outstanding value is in the treatment of Gram-negative urinary and other systemic infections (with the exception of proteus), particularly those cases which have been found resistant to antibiotics in current use.

COLOMYCIN INJECTIONS (Colistin methane sulphonate) for urinary tract and other systemic infections.

COLOMYCIN TABLETS (Colistin Sulphate) for gastro-intestinal infections.

COLOMYCIN SYRUP (Colistin Sulphate in Syrup form) for gastro-intestinal infections, particularly in babies and children. 200 mg. in 80 ml. Basic N.H.S. price 14/6d.

BEOGEX

CO₂—an entirely new concept
for efficient
bowel clearance

BEOGEX is a suppository which liberates a pre-determined amount of carbon dioxide, causing distension of the lower bowel. This induces evacuation by causing inhibition of the external sphincter and promoting peristalsis in smooth, co-ordinated waves.

INDICATIONS

For chronic simple constipation; constipation due to prolonged bed rest and treatment by drugs. May also be used pre- and post-operatively, the

discomfort associated with straining being avoided. Safe for use during any stage of pregnancy and in cases of threatened abortion or placenta praevia. BEOGEX Paediatric suppositories are produced at half adult size.

BASIC N.H.S. PRICE

BEOGEX Packs of 6 enfolded suppositories—1/10d plus 5½d P.T.

Packs of 60 enfolded suppositories—14/-

continuous drip control of ulcer by tablet

PRODEXIN tablets give all the benefits of continuous intragastric drip therapy¹ without any of its disadvantages.

The slow suck down tablets are specially formulated to give prolonged antacid buffer effect, unaffected by stomach emptying rate.²

Immediate relief of pain is achieved by rapidly raising pH to 2 neutralising excess acid and controlling the acid secretion by slowly building up the pH to a desirable level of pH3.5 and pH4.5

DOSAGE:

For continuous therapeutic effect one tablet at a time should be sucked slowly.
For peptic ulcer one or more tablets an hour.

**For young doctors:
clinical freedom,
modern equipment
and complete
medical responsibility.
Where?**

On land and sea. At home and overseas, as a Medical Officer in the Royal Navy.

Here is a medical career that can give you more scope and responsibility than most doctors get in civilian life—while still in your mid-twenties.

You will have the most modern equipment; clinical freedom; the opportunity to gain wide experience, both in the traditional fields of medicine and in the new sciences of nuclear, underwater and aviation medicine. And you could study for higher degrees, specialise in one of many medical subjects and even aim for consultant status—all at the expense of the Royal Navy.

But you're more than a doctor. You're a Naval Officer too. You lead an active, varied life; have a very special status; exceptional opportunities for sport, travel and the outdoor life. And your pay and prospects are excellent. For example, your *starting* salary would be considerably higher than that of a civilian hospital registrar. And marriage and other allowances can add considerably to your income. You enter initially for a Short Service Commission—with the opportunity of a Permanent Commission after 1 year.

3 Ways of Entry

1. As a fully registered doctor; any civilian experience counts towards your seniority.
2. During your pre-registration year.
3. As a student any time after passing 2nd M.B. For fully registered women doctors there is a special Short Service Commission.

If you would like more information, write to the address below, giving details of your age and qualifications. A personal interview can be arranged if desired.

LEDERMYCIN[†] 300

Demethylchlortetracycline Lederle †regd. trademark **MG TABLETS**

and 'Eaton Agent' pneumonia

Enter the *Mycoplasma pneumoniae*

There was a story about a scientist who discovered a cure for which there was no known disease. Though it was only meant for a laugh, this is not wholly incongruous. Something quite similar has actually happened.

When LEDERMYCIN Demethylchlortetracycline was introduced in 1959, we had full confidence it would prove extremely effective in a host of acute and chronic

infections due to a wide range of Gram-positive and Gram-negative organisms. And it did. What we did not anticipate was that it would prove effective in pneumonia due to *Mycoplasma pneumoniae*.

The reason is simple: the disease itself was not invented—rather, it was not clearly defined—for another four years. Not until 1963 was enough known about it that the causative agent could be assigned a taxonomic designation.

Here are the principal links in the chain of events

1942 'Primary atypical pneumonia' officially established by the Surgeon General of the U.S. Army to distinguish nonbacterial pneumonias of unknown aetiology.

1944 'Eaton agent' isolated from pleural secretions of patients with nonbacterial pneumonia.

1957 'Eaton agent' definitely implicated as the cause of much primary atypical pneumonia.

1961 LEDERMYCIN Demethylchlortetracycline shown highly effective in "Eaton agent" pneumonia.

1962 'Eaton agent' identified as one of the so-called pleuropneumonia-like

organisms (PPLO), already assigned the generic name *Mycoplasma*.

1963 *Mycoplasma pneumoniae* proposed as species name for 'Eaton agent'.

So, enter *Mycoplasma pneumoniae*.

And, as a corollary, exit 'Eaton agent'? Not necessarily. Familiar names often die hard.

Mycoplasma pneumoniae has ceased to be merely a clinical conversation piece. It is estimated that the newly-named organism may be responsible for as many as half of all hospitalized adult cases of pneumonia. It easily qualifies as a public health problem of some importance.

The recommended dosage for LEDERMYCIN in 'Eaton agent' pneumonia is 900 mg daily given as one 300 mg tablet T.I.D.

not only a potent diuretic but also highly convenient

The convenience of Lasix is best appreciated in the less severe conditions calling for diuretic therapy. If the patient is working, he can have daily treatment with Lasix, without affecting either his working hours or his sleeping hours. For this type of patient a teatime dose is recommended. Lasix is rapidly effective, and its action is usually over in four to five hours. When the patient goes to bed he can be sure of undisturbed sleep. Lasix lets the patient work all day and sleep all night.

Hoechst Pharmaceuticals Limited, Portland House, London SW1

Robinul[®] glycopyrronium bromide (glycopyrrolate ROBINS) Patent No. 865,453

Robinul-PH[®] (Robinul with phenobarbitone)

Robinul acts quickly in relieving ulcer pain and establishes a near-ideal healing environment at the ulcer site.

Robinul reduces or eliminates the free HCl under both basic conditions and conditions of stress by virtue of a "medical vagotomy". By exerting a more specific pharmacological action on the gastro-intestinal tract than any other organ system, blurred vision, dry mouth etc. are avoided or occur only rarely when Robinul is given in the recommended dosage range.

Indications: In addition to its primary indications for duodenal and gastric ulcer, Robinul is indicated for other G-I conditions which may benefit from anticholinergic therapy. Robinul-PH is indicated when these situations are complicated by mild anxiety or tension.

Dosage: Should be adjusted according to individual patient response. Average dose is 1 or 2 tablets three times a day,

in the a.m., early p.m., and at bedtime. In acute conditions with severe manifestations, larger dosage of plain Robinul may be indicated until symptoms subside. Thereafter, dosage should be reduced to the minimum required for maintenance of symptomatic relief.

Precautions: Administer with care to patients with incipient glaucoma. Contraindicated in acute glaucoma, prostatic hypertrophy, and in the presence of urinary bladder neck obstruction and in pyloric obstruction or stenosis with significant gastric retention. Robinul-PH is contraindicated in patients sensitive to phenobarbitone or with advanced hepatic or renal disease.

Packaging: ROBINUL (pink) and ROBINUL-PH (white) tablets are available in bottles of 50 and 500.

Reference: Practitioner (1965) Vol No. 195 Pp 335-339 Ann N.Y. Acad Sci (1962) 99: 153 Amer J. Med Sci. (1963) 246: 325.

In chest infections
Ceporin

provides effective, safe
broad-spectrum activity

Cephaloridine . . . "is not inactivated by penicillinase and has a remarkably broad spectrum."

Practitioner, 1965, 195, 408

In serious infections of the respiratory tract, especially mixed infections, the unique activity of Ceporin can be used to particularly good advantage. The common infecting organisms in bronchitis and bronchopneumonia are highly sensitive to the bactericidal action of Ceporin, including penicillinase-producing staphylococci. This is why Ceporin frequently gives dramatic clearance of infection, rendering the sputum sterile and providing rapid relief of symptoms. Ceporin can be safely used in patients hypersensitive to penicillin. In all patients and in all indications the injections are remarkably painless and make the whole

dose available to the body.

Other indications for Ceporin include urinary tract infections, meningitis, septicaemia, bacterial endocarditis and soft tissue infections.

summer-long protection against HAY FEVER with

D-VAC Pollens 3 dose course

Sufferers from 'classical' hay fever and pollen asthma can look forward to relief next summer after desensitisation with D-VAC Pollens. This provides fundamental treatment of pollen allergy, giving a high degree of protection in the majority of patients and halting any tendency to deterioration. Long-term relief will be obtained in most cases from a pre-seasonal course given in each of three successive years.

D-VAC Pollens, Bencard emulsified 'depot' pollen vaccine, is the latest development in desensitising vaccines. The course of three carefully graded injections—fewer than for any other available—has been shown to be at least as effective as the much longer course with aqueous vaccine. Injection from a specially designed syringe ensures the controlled release of active emulsion through surrounding 'shield' emulsion. Local or systemic reactions are therefore rare provided that the recommended technique of administration is employed under antihistamine cover.

D-VAC Pollens is prepared from extracts of 12 varieties of common grass pollens (Bencard group B2), which are responsible for over 80% of cases of 'classical' hay fever and pollen asthma. Two alternative courses are available:

Primary Course (D-VAC Pollens Nos. 1, 2 and 3—250, 750 and 3,500 Noon units respectively): designed for patients who have not received pollen vaccine treatment in the last five years, or who are known to be highly sensitive to grass pollens, and for children (aged 6-12 years).

Advanced Course (D-VAC Pollens Nos. 2, 3 and 4—750, 3,500 and 7,500 Noon units respectively): designed for patients aged over 12 who have had pollen vaccine treatment in the last five years and whose symptoms are not very severe.

(Patients known to exhibit very strongly positive skin test reactions or suffering from atopic eczema should first be referred to an allergy clinic.)

The 3 injections are administered pre-seasonally at intervals of exactly 4 weeks, the first dose being given in February or March. Full technical details (administration, precautions, possible reactions, etc.) are supplied with each dose, or on request.

TO BE SURE

of obtaining D-VAC Pollens, it is advisable to prescribe and order before 31st December: no order can be accepted after 21st January.

Prescriptions and orders, for D-VAC Pollens 'Primary' or 'Advanced', should state the exact date (between 14th February and 12th March) on which the first dose is to be injected. The first dose will be despatched to arrive by this date. (D-VAC Pollens is not available outside the U.K.)

Clinically Unexcelled

Clinical use throughout the world has established CHLOROMYCETIN* (Chloramphenicol B.P. Parke-Davis) as an antibiotic of outstanding efficacy in a wide variety of bacterial, viral and rickettsial infections. CHLOROMYCETIN possesses extremely high anti-microbial activity, crosses tissue barriers readily, diffuses widely and rapidly through nearly all body tissues and fluids, and is well tolerated. It is rapidly absorbed and bacterial resistance is minimal. And because of these notable properties, therapy with CHLOROMYCETIN generally results in prompt response and rapid recovery.

Available in Kapseals* of 250 mg and Palmitate Suspension containing the equivalent of 125 mg Chloromycetin per 4 ml teaspoonful.

Worried about serum cholesterol?

The association between elevated serum cholesterol levels and an increased liability to ischaemic heart disease is widely recognised. Yet serum cholesterol is but one facet in a highly complex disorder, and there are other factors no less important such as elevated triglyceride levels, increased platelet stickiness and plasma fibrinogen levels, and reduced fibrinolytic activity.

'ATROMID'-S has the ability to rectify these lipid and thrombotic deviations and for that reason it is gaining increasing attention as a valuable aid in an entirely new approach to the problems of coronary heart disease.

'ATROMID'-S is presented as red, soft gelatin capsules each containing 250 mg. clofibrate (ethyl 2-(p-chlorophenoxy)-2-methylpropionate). Average dosage is 8 capsules per day after meals.

do
you
tackle*

**FLAT
FOOT?**

TRADITIONAL METHOD
ANY SHOE with external wedge. Any external wedge to heel disturbs plane of forepart and heel.

OUR METHOD
INNERAZE keeps sole and heel in perfect alignment.

...do you recommend an external wedge on the shoes?
But the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's. As the diagram on the left clearly shows, any external wedge to heel disturbs the plane of forepart and heel. Surely it's more logical to have a wedge built-in between the inner and the outer sole—where it can correctly corset the foot, remain invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made—on remedial lasts specially adapted to accommodate the internal wedge. That is why they are the only practical and thoroughly effective solution to this problem.

POWER SAFETY COVERAGE **ERYTHROCIN®**

ERYTHROCIN (erythromycin, Abbott) is a suitable first-line treatment for the majority of bacterial infections encountered in general practice. It provides powerful yet safe coverage against many causative organisms, leaving the broad spectrum antibiotics free for the specific cases in which they alone are effective.

POWER The potency of Erythrocin against the cocci is considerably more than that of tetracyclines or chloramphenicol.

SAFETY Erythrocin combines this effectiveness with a remarkable degree of safety. It is, in fact, the least toxic and least allergenic antibiotic currently in use.

COVERAGE Erythrocin is effective in a high percentage of the common bacterial infections. Its wide clinical spectrum of activity covers most Gram-positive organisms—especially Staphylococci, Streptococci, Pneumococci and Clostridia—and Gram-negative organisms such as Neisseria and some strains of Haemophilus influenzae.

By prescribing Erythrocin preparations by name you ensure that your patients receive erythromycin in safe, well-absorbed forms that produce effective blood levels rapidly.

Filmtab®

ERYTHROCIN® tablet 250

ADULTS: Filmtab® Erythrocin stearate 250 mg 1 tablet every 4 to 6 hours.

ERYTHROPED® Suspension

CHILDREN: Erythrocin ethyl succinate 200 mg/5 ml $\frac{1}{2}$ to 1 tsp every 4 to 6 hrs. 60 ml bottle (24 dose of 100 mg).

Also available: Filmtab ERYTHROCIN 100; ERYTHROCIN Suspension; ERYTHROCIN I.M. Injection

PURE PRECISE PREDICTABLE

Burroughs Wellcome & Co. (*The Wellcome Foundation Ltd.*) London

for the patient who complains . . . and complains . . .

allegron

nortriptyline hydrochloride

quickly relieves depression in any guise

The true condition of the depressed and anxious patient may often be hidden behind a variety of misleading symptoms until her appearance in the surgery becomes a problem in itself.

Allegron simplifies treatment

It is one drug especially suited to treating those mental and emotional states often associated with refractory physical symptoms.

Allegron acts quickly

It lifts the underlying depression, calms any anxiety and relieves psychosomatic symptoms by removing their cause.

Allegron is well tolerated

It is without the restrictions of the MAOI's, and is one of the safest of psychotropic drugs.

Usual adult dosage: 25 mg. three times daily.

Tablets of 25 mg. (No. 1011) and 10 mg. (No. 1010) base equivalent. Liquid 10 mg. base equivalent per 5 ml. (No. 5010).

More information available on request.

MOGADON* AND NATURAL SLEEP

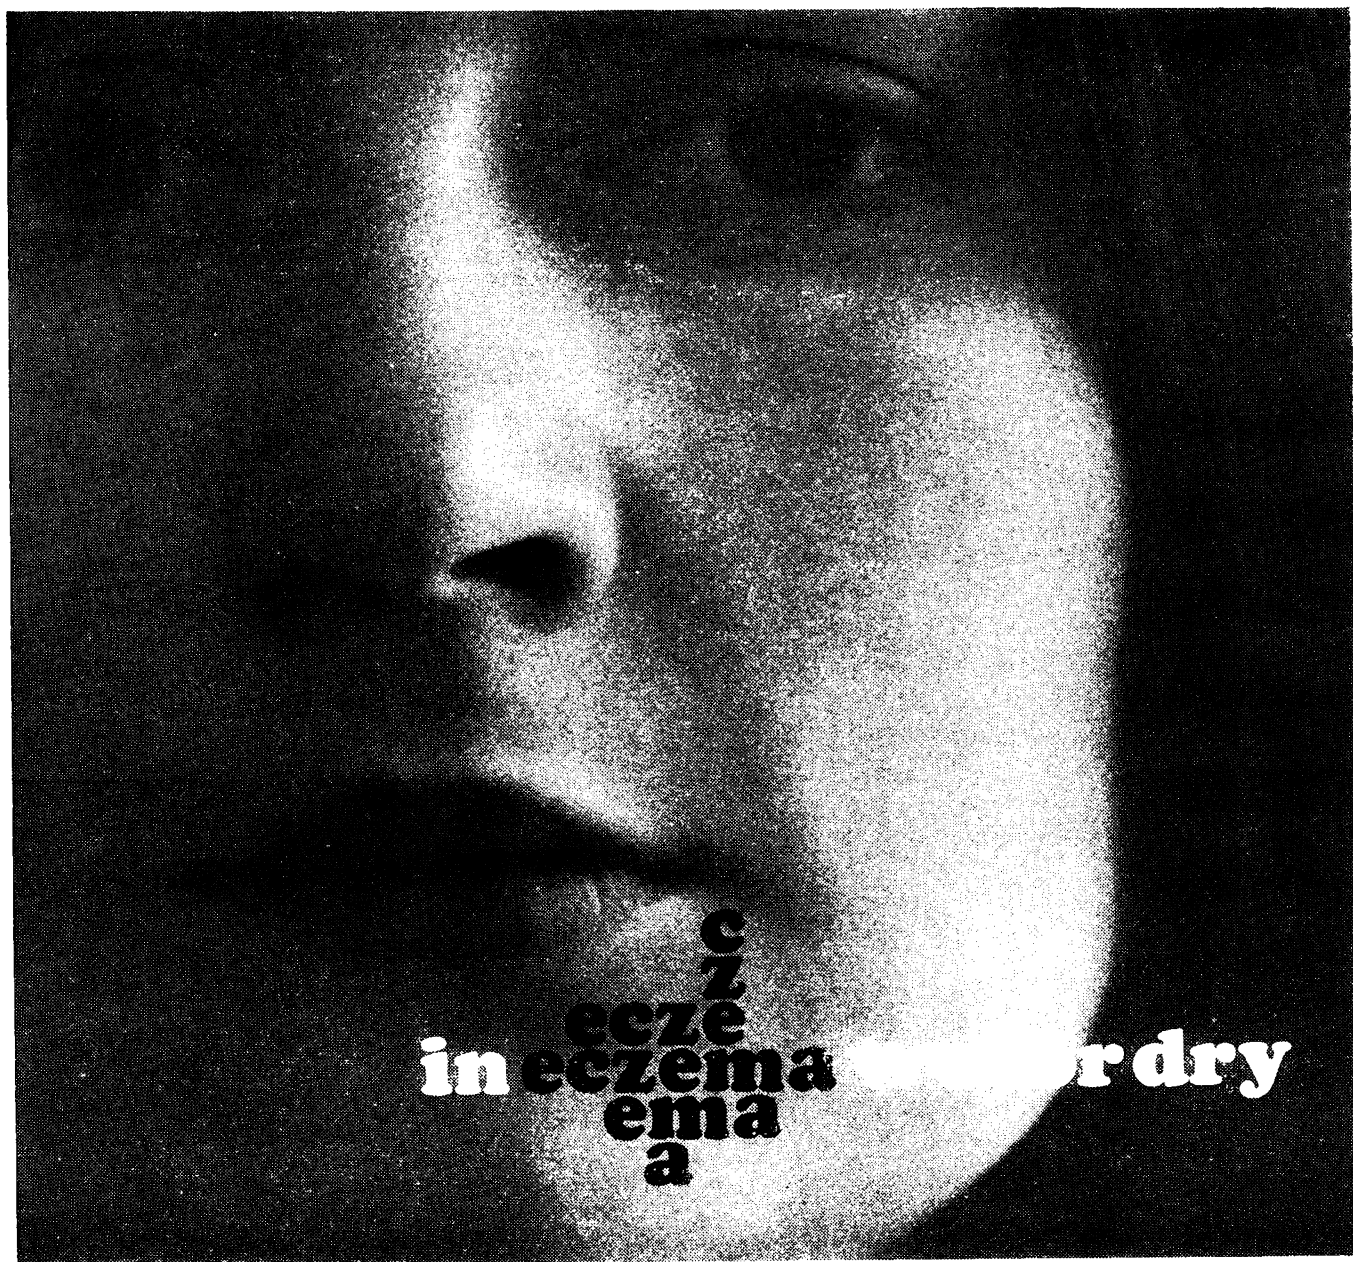

Striking advances have recently been made into the knowledge of sleep with the aid of the electroencephalogram, and it is now recognised that sleep does not consist of a quantitative reduction in cortical activity but of a qualitative change. Hypnotics, by their generalised depressant action on all the brain structures, greatly reduce cortical activity and sleep takes on an abnormal pattern. The development of Mogadon, however, has now made the treatment of insomnia possible without any significant lessening of cortical activity. The sleep induced closely resembles natural sleep; there is no disturbance of the normal rhythmical balance that exists between the sleep and wake processes and the patient will awake refreshed, without hangover and without mental confusion.

Mogadon
the
successor
to the
hypnotics

HYDRODERM^{REGD}

and other common skin conditions

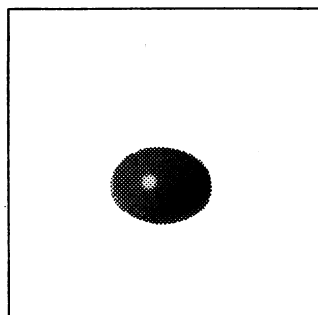

More than two and a half thousand prescriptions daily testify to the value of 'Hydroderm' in the treatment of eczema and other common skin conditions. In practice, 'Hydroderm' has generally been found suitable for the treatment of wet, as well as dry, lesions.

Each gramme contains 10 mg hydrocortisone, 5 mg neomycin sulphate and 1000 units zinc bacitracin. Detailed information is available to physicians on request.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTFORDSHIRE

There's more in this tablet than tetracycline

for, it also contains a highly effective antifungal antibiotic nystatin, which can prevent the monilial superinfection often found when tetracycline alone is given

Thus, the patient receiving this Mysteclin tablet can be protected against monilial side-effects such as diarrhoea; ano-genital pruritus and thrush.¹

Triogesic

WANDER

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1,2} and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight^{3,4} and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

CANADA

Bustling with activity...

BURSTING WITH OPPORTUNITY

Canada, the second largest country in the world, is surging ahead with massive expansion and development schemes. Millions of dollars are being spent on modernizing and equipping every aspect of Canadian industry. There is no shortage of money or materials, only manpower. Canada is crying out for people who have the spirit and determination to make a better life for themselves. All the opportunity in the world is to be found in Canada . . . and yet you're only six flying hours, or six days by sea, away from it. Assisted passage loans are readily available.

Work life IN CANADA

Wages and salaries are among the highest in the world. Cost of living is comparable to the U.K. Jobs with special skills are plentiful. Nearly all Canadians enjoy a five-day working week, with annual vacations and public holidays. There are no housing problems.

Family life IN CANADA

Nowhere else can you or your family enjoy a higher standard of living. More than two-thirds of all Canadian families have a car. Eighty per cent. have a television set, and virtually every household has at least one radio, a telephone, and central heating.

Children's life IN CANADA

Brought up in the comfort of a secure and happy environment, children have the benefit of free education to university entrance. When children reach adult life the chances are they will have an even greater opportunity to live a full and happy life.

Social life IN CANADA

The average person will quickly feel at home in the community in which they settle, almost half the population is of British stock. Single persons soon meet people of a similar age and outlook both at work and through social activities. Canadians really enjoy their leisure time. Facilities for hunting, fishing, swimming, football, skating, sailing—every pastime you can name—are freely available.

CANADA NEEDS SURGEONS PHYSICIANS AND ALSO LABORATORY TECHNICIANS AND RADIOGRAPHERS

Some like it hot

But tropical climates give us greater research problems than insect repellents and sun-tan lotions. Amoebiasis was one such problem; an effective, non-toxic amoebicide was the target of intensive research by Boots Research Department for a long time. After much work — research, investigation, clinical trials — Furamide was introduced. It gives a cure rate of over 90% in cases of intestinal amoebiasis without causing serious side effects.

No injections, no enemas, no special diet — just a simple dosage schedule of 1 tablet three times a day for 10 days.

Furamide

In containers of 15 and 250 tablets.

"BRITISH MEDICAL JOURNAL"

ASSISTANT EDITOR

The Council of the British Medical Association invites applications from registered practitioners for the appointment of a Medical Assistant Editor to the *British Medical Journal*, starting on April 12, 1966, or possibly earlier. The initial salary will be £2,783 a year, rising by annual increments of £150 to £3,833 a year. In exceptional circumstances the initial salary may be above the minimum of the scale. The appointment will be for a probationary period of six months in the first place. The Association's superannuation scheme will apply on substantive appointment.

Candidates are expected to have a wide knowledge of medicine and must present evidence of literary ability and/or journalistic experience. A knowledge of one or more foreign languages is desirable. Applicants should send full particulars of qualifications and experience, together with the names and addresses of three persons to whom reference may be made, to the Editor of the *British Medical Journal*, B.M.A. House, Tavistock Square, London W.C.1, not later than December 31, 1965. Envelopes should be marked "British Medical Journal—Assistant Editor."

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

PRACTICE VACANCY BINGLEY, YORKSHIRE

Applications are invited for urban vacancy in "open" area adjacent to the Dales district. List at present 2,177. Doctor resigns February 3, 1966. Access to two G.P. Maternity Units in the immediate vicinity. Further information (i.e., as to accommodation, practice income, etc.) can be obtained on request, and applications on Form E.C.16A (obtainable from the undersigned) should be submitted not later than November 26, 1965, to B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield. (H.3557)

PRACTICE VACANCY CROSSHILLS, NR. KEIGHLEY (Skipton R.D.)

Applications are invited for vacancy due to resignation on February 11, 1966, at Crosshills, located between Skipton and Keighley in the Yorkshire Dales, near site of proposed new district hospital. "Open area." List 2,500. Residential and surgery accommodation available for purchase. Successful applicant required to take over not later than February 12, 1966. Applications, on Form E.C.16A (obtainable from the undersigned), should be submitted to B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield, by not later than December 3, 1965. (H.3676)

FULHAM (NEW KINGS ROAD AREA)

"Open" area. Resigning practitioner, male. List at present approximately 2,160. Surgery premises will be available for sale or rental. Application forms E.C.16A obtainable from the Clerk, Inner London Executive Council, Insurance House, Insurance Street, W.C.1. Completed applications to be received not later than 12 noon, Monday, November 29, 1965. (H.3677)

COUNTY OF SUTHERLAND EXECUTIVE COUNCIL NATIONAL HEALTH SERVICE SCOURIE (Re-advertised)

Applications are invited from registered medical practitioners for appointment to a vacancy which has arisen owing to the resignation of the practitioner in the Parish of Edrachillis. The list, at October 1, 1965, was 748. The practice, which is single-handed, rural, dispersing practice, attracts a substantial mileage payment. House and surgery (in Scourie) owned by Executive Council, available to rent. Further information and forms of application obtainable from the undersigned, with whom the completed forms should be lodged not later than Saturday, December 4, 1965.—G. A. B. Sutherland, Clerk, County of Sutherland Executive Council, Main Street, Golspie, Sutherland. (H.3654)

ORPINGTON, KENT

Applications invited for vacancy (urban) due to resignation. List at present approximately 1,230. Residence and surgery not available. Apply, on E.C.16A, before December 4, 1965, to undersigned.—F. E. Miles, Clerk, Executive Council, South-East London and Kent, 11 Station Road, Maidstone. (H.3655)

**UNIVERSITY AND
RESEARCH
APPOINTMENTS**

(See also under "Overseas")

**BATH HOSPITAL MANAGEMENT
COMMITTEE**

Applications are invited for the post of **CLINICAL RESEARCH REGISTRAR IN SURGERY**

at the newly formed Department of Clinical Measurement and Research at St. Martin's Hospital.

The successful candidate will be supported by the British Empire Cancer Campaign, and receive an honorary contract as a Registrar by the South-Western Regional Hospital Board.

The appointment will be for one year in the first instance, and the candidate will be expected to work for a higher degree during his tenure of the post.

Applications, with the names of two referees, should be forwarded to the Secretary, St. Martin's Hospital, Combe Down, Bath, by December 3, 1965. (3339)

**BRADFORD ROYAL INFIRMARY
Bradford 9**

RESEARCH ASSISTANT
(Registrar salary scale). Male or female, in Chemotherapy required December 1, 1965. The work is associated with the treatment of solid tumours, chiefly in the breast, and offers experience in haematology. A suitable post for anyone reading for a higher qualification.

Applications, stating age, qualifications and details of past and present appointments (with dates), together with the names and addresses of three referees, to the Secretary, Royal Infirmary, Bradford 9. (2826)

KING'S COLLEGE HOSPITAL MEDICAL SCHOOL
(University of London), Denmark Hill, S.E.5

Applications are invited from medical graduates for the post of

LECTURER IN BACTERIOLOGY

Salary on the scale £1,580 to £2,535, depending upon age, experience, and status of the person appointed.

Applications (six copies), together with the names of three referees, should be sent not later than December 6, 1965, to the Secretary, from whom further particulars may be obtained. (3129)

APPLICANTS ARE ADVISED NOT to send original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

**POSTGRADUATE MEDICAL SCHOOL
OF LONDON**

LECTURER IN MEDICINE (Rheumatology) (Consultant status.)

Applications are invited for a vacancy on the staff of the Department of Medicine (Rheumatology). Duties include teaching and research. Salary scale £2,975 to £3,760. F.R.S.S.U. Appointment for five years in the first instance.

Applicants (7 copies) by December 16, 1965, to the Dean, Postgraduate Medical School, Ducane Road, W.12. (3190)

THE UNITED OXFORD HOSPITALS

Applications are invited for the post of

REGISTRAR

in the Medical Research Council Blood Coagulation Research Unit at the Churchill Hospital. Duties will be the clinical care of haemophilic patients and research in blood coagulation. The post will be tenable for one year in the first instance, eligible for extension for a second year and will be paid by the United Oxford Hospitals (six sessions) and by the M.R.C. (five sessions).

Applications, on forms obtainable from the Administrator, Radcliffe Infirmary, Oxford, should be returned to him not later than November 27, 1965. (2629)

THE UNIVERSITY OF LIVERPOOL**CHAIR OF BACTERIOLOGY**

The Council of the University invites applications for the full-time Chair of Bacteriology. The salary will be within the range approved for clinical professorial appointments.

Further particulars may be obtained from the undersigned, by whom 16 copies of an application (one in the case of overseas candidates) should be received not later than January 3, 1966.—H. H. Burchall, Registrar. (3133)

THE UNIVERSITY OF MANCHESTER

UNIVERSITY OF EXETER Postgraduate Medical Institute

A full-time postgraduate course lasting 10 weeks will begin on January 12, 1966. These courses are held three times a year starting in October, January, and April. Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics, and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given the opportunity to do so, while other students receive teaching in each of the main clinical departments in turn. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training.

Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devon. (2289)

STUDENT PRIZES AND TRAVELLING FELLOWSHIP IN PSYCHIATRY

The Mental Health Research Fund awards annually to medical students and doctors in their pre-registration year three Monetary Prizes and a Travelling Fellowship as the result of an essay competition on a subject relating to mental health, and a subsequent interview.

Applicants gaining the top three places in the essay competition will be given prizes of £100, £50 and £25 respectively. The Travelling Fellowship, tenable in a psychiatric or other department abroad for up to one year, will be awarded as the result of an interview combined with consideration of the candidate's undergraduate record. Persons interviewed will be chosen from the top ten in the essay competition. The travelling fellowship will normally be taken up at the end of the pre-registration year or, in the event of it being awarded to a medical student, may be taken up after qualification.

The subject for the essay this year is "A young adult entering hospital for treatment of a mental disorder has now much greater chance of being returned to the community in a short space of time than he had thirty years ago. Discuss the reasons for this and its effect on patient and community."

The Panel of Examiners consists of two members of the Research Committee of the Mental Health Research Fund and one member of the Association of Teachers of Psychiatry in Undergraduate Medical Schools.

Essays should be sent, before March 1, 1966, to the Secretary, Research Committee, Mental Health Research Fund, 38 Wigmore Street, London W.1 (Tel. WELbeck 4103), from whom further details may be obtained. (H.3487)

MORGANWNG HOSPITAL, BRIDGEND**APPOINTMENT OF SENIOR HOUSE OFFICER**

Applications are invited for the above post at the Morganwng Hospital, Bridgend, which has an admission rate of over 1,400 patients annually and is responsible for extensive domiciliary and out-patient services throughout the county based on close liaison with the several local authorities concerned. The hospital possesses full facilities for all modern treatment backed by a comprehensive range of diagnostic aids which include psychological department, electroencephalographic department with electroencephalographic apparatus, etc.

An active rehabilitation programme is in course of development associated with a large industrial therapy scheme, patients social clubs, etc.

The post provides excellent opportunities for study for the D.P.M. and staff in training are expected to attend the tutorials in psychology, psychiatry and neurology regularly carried out by the senior staff. In addition, clinical conferences, journal club meetings and courses for general practitioners are held regularly. Considerable use is made of films for training purposes, and the hospital possesses own cine apparatus. There is an up-to-date medical library in a well appointed medical conference centre. A child guidance clinic is closely associated with the hospital and Mansel Castle for cases of mental subnormality is within the same management group.

The hospital is situated in very pleasant surroundings within easy reach of the sea, and midway between Cardiff and Swansea. Married or single accommodation is available.

The hospital may be visited by arrangement with the Medical Superintendent, and a brochure and details of training schemes will be sent on request.

Applications, giving full details of qualifications and experience, together with the names and addresses of two referees, to be sent to the Group Secretary, Morganwng Hospital, Bridgend, Glamorgan. (H.3683)

Surgery—contd. on p. 1

Before you commit yourself to a practice, work 3 or 5 years in the R.A.F.

You'll do some interesting, out-of-the-rut medicine, see a bit of the world, live well, and 'retire' with up to £3,000, tax free.

When is the right time for you to make the big, once-and-for-always decisions about the way it's best for you to work and live your life? Straight away, now, at once? Or when you have had the chance to do a little out-of-hospital doctoring 'on your own', seen some common ailments, and got a bit of capital together? Many people feel that it is only prudent not to be in too much of a hurry. If you are one of them, here is a thought for you:

You don't, now, have to choose either an R.A.F. career or a civilian one. You can have both. And there are good reasons why you should—not only for your own sake and your family's, but in the interests of the profession and the public generally.

After 3 or 5 years you'll know, far better than you can know now, where your particular talents and interests lie, and what sort of a future—personal as well as professional—you want to make for yourself. If you're a round peg, you'll know what a square hole looks like.

A short spell in the R.A.F. is, in fact, a *breathing-space*. It gives you the chance to make up your mind about all sorts of things.

Your first job in the R.A.F. (which you'll get three months after you join) will probably be Junior M.O. at a Station—rather like being an "Assistant with a view". In a typical case, you'd be one of two doctors, with, between you, 1500 to 2500 people to take care of. These would be the officers and men serving with you on the Station, and their families, plus any civilians who might be working there.

You'd have a much shorter list than you would as a civilian G.P., and to this extent you would live a less strenuous life. To compensate, you would give much more comprehensive care. It is this—and the variety of your work—that makes practice in the R.A.F. so interesting.

In the R.A.F., you combine several functions. You are in medical care not only of people, but of the environment they live in, and of the work they do. In proportion, you do less curative work, and more preventive work than most civilian doctors.

A lot of people hold the view that this is the way all medicine should be practised: with the closest possible intermingling of the doctor and his patients.

This is the choice you face

Think of two doctors, both aged 40. One went to his practice straight from his teaching hospital, and has been there ever since. The other went from hospital into the R.A.F. on a 5-year commission. He lived—and lived well—in the tropics with his family for 2½ years, and visited 7 countries on leave or duty: two European, three Asian, and two Australasian. All this, of course, was some time ago—he's been in civilian practice 10 years now; he's as well established as the other doctor. But which of the two has got more out of life, and has the richer memories to look back upon?

In many ways, the transition from hospital into the R.A.F. seems much more 'natural' than the movement to civilian practice. You move from one form of community life to another—and the two communities have much in common: both are young, cheerful, energetic, rather self-contained—and at the same time very professional, with a marked sense of purpose about what they do.

If you can feel, now, that you are going to miss Medical School when you leave it, think about going into the R.A.F.: Service life would probably be 'right' for you.

The vulgar matter of £ s d . . .

Next year, if you were in the R.A.F. as a married officer aged 25, your pay and allowances would be over £2,000. You would get regular 'rises' and regular promotion. And your cost of living would be low: if you were single, living in the Mess, you would get the equivalent of first-class hotel accommodation for, perhaps, 2/- a day out of your pay; if you were married, and the R.A.F. provided you with a house furnished right down to the last coffee cup, and they probably would—the rent would be £192 p.a.

Leave the Service after 3 years, and you get a gratuity of £1,500, tax-free; stay on for 5, and you get £3,000. With this, you could put down a deposit on a house and furnish it very well indeed, attic to cellar.

Five years from now. You'd probably still be the right side of thirty. What a start to a career!

The time for bold decisions is when you are young and free

Today, because you are young and at the beginning of your career, you can take a short time out from the main stream of civilian practice just by deciding to do it.

Now, you are free to go. In a few years time, you probably won't be. At this stage in life, you have none of the commitments that might make an older man hold back: things like a practice with your 'name on it'; obligations to a community that you have become a part of; the ownership of property . . . and suchlike hostages to fortune.

All these things will, quite properly, come along in due time. When they do, it will be time for you to settle down.

Meanwhile, at the parting of the ways, you have this chance. Now is the time to find out about it. The best thing is to write off straight away. If you can't, tear this page out and put it in your pocket to remind you.

Do not let this chance go by default

The address to write to is: Wing Commander D.G.M. Hills, O.B.E., M.B., B.S., D.P.H., R.A.F., Ministry of Defence (MA1/HN206L), 1-6 Tavistock Square, London, WC1. Please give your age and qualifications.

The Royal
Air Force

Surgery—contd. from p. xlvii**ST. GILES' HOSPITAL**

Camberwell, S.E.5

Applications, stating age, experience, and qualifications, naming three referees, to Secretary, 146 Hagley Road, Birmingham 16, by December 6, 1965. (2663)

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body 1963, which is available on request from the Secretary.

CENTRAL NOTTINGHAMSHIRE WATER BOARD**MEDICAL ADVICE TO THE BOARD**

Applications are invited from medical practitioners with degree and registration being appointed for the purpose of giving medical advice to the board in the three areas, Headquarters Division (Mansfield and District), Newark Division or Worksop Division.

The Board may appoint one or more medical practitioners in each of the three divisions.

It is anticipated that the duties will largely fall into the following categories:

(a) The examination of new entrants to the Board's Service and the necessary examinations for superannuation purposes.

(b) The examination of employees after a period of sickness and when the question of retirement on grounds of ill health is under consideration.

(c) Other medical advice which the Board may from time to time require.

In all cases fees as approved by the B.M.A. will be payable.

Applications should be sent to the undersigned as soon as possible, and in any case not later than November 30, 1965.—L. R. Gray, Clerk Treasurer, Great Central Road, Mansfield. (H.3550)

THE SHIPPING FEDERATION

Applications invited for appointment as **FULL-TIME INDUSTRIAL ASSISTANT MEDICAL OFFICER**.

in the London area. Preferably not over 35. Starting salary £1,800 to £2,000 per annum depending upon experience, and rising by £100 per year to £3,200. Possible maximum, in charge. Normally, office hours are worked. Pension scheme.

Apply, with full particulars, to The Shipping Federation Ltd., 146-150 Minories, London E.C.3. (H.3684)

COMMERCIAL APPOINTMENTS—see also p. lii**MEDICAL ADVISER**

for a well-established West London Company manufacturing a wide range of ethical pharmaceuticals. Initial salary will be negotiable, plus Company car and fringe benefits. Preferred age: 35-40.

The Medical Adviser will be responsible for maintaining contacts with Hospital Consultants, advising on the application of the Company's products particularly in the fields of endocrinology, vitamins and intravenous nutrition. He will also advise the Board on research and clinical trials.

The successful candidate will be a qualified Medical Practitioner, and M.R.C.P. is highly desirable for this appointment, coupled with the ability to discuss, advise and gain acceptance of the Company's products.

Please write briefly in the first instance, quoting Reference No. 2344, to:

**ASHLEY ASSOCIATES LIMITED**

6 CURZON PLACE, PARK LANE, LONDON W1

RETAINED TO ADVISE ON THIS APPOINTMENT

The strictest confidence will be observed and no details of candidates will be passed to clients without candidates' permission.

AND AT: PETER HOUSE, MANCHESTER 1

(3132)

REGIONAL MEDICAL ADVISERS

Applications are invited from experienced Medical Practitioners with a good BRITISH qualification to join the young and progressive BRITISH Subsidiary of an internationally famous Pharmaceutical Company.

Successful candidates will be in the age group 30 to 40. Their experience and qualifications will embrace General Practice, ability to give lectures on selected subjects to their professional colleagues, and an understanding of clinical trial procedures.

The Medical Advisers will be based on their own homes, but will report to the company Medical Director at the West London H.Q. Considerable travel will be involved. There will be ample opportunities to attend medical conferences and seminars.

This is an exciting and well paid career opportunity for doctors who have a vocational aptitude for teaching.

A good company car is provided and side benefits are attractive and competitive.

The salary will be in the region of £2,750, depending upon qualifications and experience.

Please write in confidence, giving full details of background, qualifications, and experience, to the Medical Director.—Box V.606, B.M.J.

Industrial Appointments—contd.

NATIONAL COAL BOARD EAST MIDLANDS DIVISION

Applications are invited from men with an interest in occupational health for two posts of Assistant Area Medical Officer:

- For the Chesterfield/Mansfield locality.
- For the Nottingham Area/Headquarters Radiological Service.

The successful applicants will be required to reside in the vicinity and will work in the coalfields of Nottinghamshire and North Derbyshire.

Both posts will provide opportunity for the practice of all aspects of industrial medicine in a well equipped industrial health service. Visits below ground will be necessary. Previous experience in industry is not essential but experience in general practice and/or casualty work would be an advantage. Encouragement will be given to study for the Diploma in Industrial Health.

Applicants for post (b) will be given special training in the diagnosis of industrial pulmonary disease so that in due course promotion will be open to a good candidate in either sphere.

Salary will be in the range of £1,800 to £2,150 with prospects of promotion within the service to the next senior post carrying a maximum salary of £3,400. There is a compulsory contributory superannuation scheme with flow-through arrangements with several public bodies.

Applications, stating the choice of post, and giving names of two referees, by November 30, 1965, to Divisional Chief Staff Officer, National Coal Board, East Midlands Division, Sherwood Lodge, Arnold, Nottingham.

APPOINTED FACTORY DOCTORS FACTORIES ACT, 1961

CANCER INSTITUTE
Melbourne, Australia

MEDICAL DIRECTOR
The Board of Directors of the Institute will proceed to the appointment of Medical Director to take up duties on September 16, 1966, or as soon thereafter as possible.

The objectives of the Board as stated in Part II of the Cancer Act, 1958, are as follows:

To provide facilities for research and investigation with respect to the causation, prevention, diagnosis and treatment of cancer and allied conditions.

To undertake such research and investigation.

To provide out-patient and in-patient hospital treatment at the Institute.

To arrange for out-patient provision, at any hospital within the meaning of the Hospitals and Charities Act 1958, of special clinics at which patients may seek relief of conditions in respect of which appropriate treatment is available at the Institute.

To provide hostels, or make other arrangements where necessary, for the accommodation of out-patients undergoing treatment at the Institute or at any clinic associated with it.

To provide at the Institute and, at any clinic established at any hospital, to arrange for the provision of—

(i) Teaching facilities for medical students;

(ii) Postgraduate instruction for medical practitioners; and

(iii) Instruction of nurses, technicians and physiotherapists.

with regard to cancer and allied conditions, including the diagnosis and treatment of those conditions.

To co-ordinate all activities arising from the foregoing objects.

In furtherance of these objectives, the work of the Institute is primarily clinical care of the patient and research, and embraces radiotherapy, chemotherapy, surgery, and other medical requirements, and research relating to cancer.

Applications for this position are hereby invited from duly qualified medical practitioners possessing a senior qualification in any branch of medicine, interested in clinical administration, and possessing suitable personal qualifications, and attracted to the objectives set out above.

Full-time salary at present £A.5,783 per annum. Other conditions include superannuation (equivalent to F.S.S.U.), long service leave, sick leave, and recreational leave. Retiring age 65 years.

The Medical Director is ex officio a Member of the Board and of the Executive Committee of the Board of the Institute. Full conditions of appointment, statement of organization, activities, staff, and duties and responsibility, may be obtained on application to the Manager and Secretary.

Applications should be sent from the undersigned, at 278 William Street, Melbourne, close on February 23, 1966.

The Board reserves the right to fill this appointment by invitation.—R. K. Churches, Manager and Secretary. (H.326)

GENERAL PRACTITIONER REQUIRED to join two other doctors in a modern, well equipped clinic in Southern Ontario, Canada. Excellent open hospital within community, situated on Lake Erie, serving 25,000 population. Salary \$12,000 yearly with opportunity of joining group in future. Address all replies to the McBirnie-Cleland Clinic, 218 Catharine Street, Port Colborne, Ontario, Canada, stating particulars and availability. (H.3207)

HAWERA HOSPITAL BOARD

(New Zealand)

FACULTY OF ANAESTHETISTS OF THE ROYAL COLLEGE OF SURGEONS OF ENGLAND

BOARD OF FACULTY ELECTION Notice is hereby given that an election of one Fellow in the Faculty to the vacancy on the Board occasioned by the resignation of Dr. B. L. S. Murtugh will take place at the College on Wednesday, March 9, 1966, at 7.30 p.m.

The following will be eligible for election to the Board on complying with the conditions of the Regulations:

(a) All Fellows in the Faculty by election, provided they have been medically qualified for 15 years.

(b) All Fellows in the Faculty who have been medically qualified for 15 years and Fellows by examination for 10 years.

Copies of the requisite Notice to be signed by the candidate and three Fellows in the Faculty may be obtained on application to me, and must be received by me duly completed by Monday, December 20, 1965. The names of the candidates will be published in the medical journals on or about Friday, January 14, 1966. A voting paper will be sent by post to each Fellow whose address is registered at the College on Wednesday, January 19, 1966. Fellows are requested to give notice, without delay, of any change of address, so that their voting papers may not be misdirected.—R. S. Johnson-Gilbert, Secretary, Lincoln's Inn Fields, London W.C.2. (313)

MISCELLANEOUS

BIOCHEMISTS

SOUTH-EASTERN REGIONAL HOSPITAL BOARD
Scotland

Applications are invited for the post of **BIOCHEMIST** to the Regional Paediatric Laboratory for Clinical Chemistry being built at the Royal Hospital for Sick Children, Edinburgh.

If the successful applicant is a science graduate without medical qualification the appointment will be as a Principal Grade Biochemist. If the successful applicant has a medical qualification he will be graded as a Consultant Biochemist (whole-time or maximum part-time).

The laboratories to which this appointment is being made are due for completion early in 1966, and the appointment of the head of the laboratory is being made now, so as to allow the successful candidate's preference to be taken into account without deciding on the equipment of the new laboratory.

It is envisaged that the successful candidate will also be a part-time senior lecturer in the university and that his contract with the regional board will include a specific allocation of sessions for academic duties. In certain circumstances, however, the appointment to the regional board without a university component.

Further details on application. Apply by December 18, 1965, giving particulars of age, qualifications, and previous experience, together with the names of three referees, to the Secretary, 11 Drumsheugh Gardens, Edinburgh 3. (H.3636)

HOMES**ASCOT NURSING HOME**

Burleigh Road, Ascot. Tel. Ascot 715

A nursing home with extensive gardens registered for medical and psychiatric patients. A limited number of geriatric patients accepted. Accommodation in single rooms, many with private bathrooms. Apply Medical Director.

ELMLEIGH, 114 HARLESTONE ROAD, Northampton. Telephone 51245. Mother and Baby Home (16). (Affiliated to National Adoption Society.) Pre- and post-natal care. Hospital and private confinements. Non-institutional, pleasant surroundings. Single rooms available. Practical and sympathetic advice given on adoption if required. All enquiries in confidence. Apply Hon. Secretary.

NORTHUMBERLAND HOUSE

Finchley, N.3. Tel. Finchley 5283
A psychiatric Nursing Home. Elderly patients accepted. Moderate inclusive terms. Apply Resident Physician.

ST. ANDREW'S HOSPITAL, NORTHAMPTON**FOR NERVOUS AND MENTAL DISORDERS**

President: The Earl Spencer
Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from eighteen guineas per week. Private rooms with special care can be provided, either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recreation and Occupation Centre, known as Gloucester House, has been opened recently which includes an occupational therapy department, a swimming pool, a squash court, and a library with an adjoining reading room.

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available.

MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch. See terms and particulars in the prospectus to the Medical Superintendent (Telephone No.: 34354 Northampton), who can be seen in London by appointment.

ANOTHER 'FIRST' FROM RIKER.....

....NEW 400-DOSE MEDIHALER

When Riker introduced *Medihaler* it was the world's first pressurised aerosol for inhalation therapy . . . first with a measured dose . . . first with a dry spray of premicronised particles for optimum effect in bronchospasm. Now Riker announce another first—the 400-dose *Medihaler*. More compact, yet giving one third more treatment from each unit new *Medihaler* is the result of continuous development and of successful use by doctors the world over. **With it the cost per dose is reduced 15 per cent, to less than ½d.**

Although each unit lasts so much longer, hygiene is improved because with each prescription the patient receives a complete unit. The empty unit, including adapter is thrown away. In addition, the dustcap completely encloses the mouthpiece.

In bronchospasm, *Medihaler* continues to provide an immediacy and degree of relief unsurpassed by any other method—including injection. Now it is even easier and more convenient for the patient to use.

Basic NHS Prices

Standard Pack
(complete unit)

<i>Medihaler-iso</i> (Isoprenaline Sulphate B.P. 4 mg./ml.—0.08 mg. per dose)	14/4
<i>Medihaler-iso</i> Forte (Isoprenaline Sulphate B.P. 20 mg./ml.—0.4 mg. per dose)	17/-
<i>Medihaler-epi</i> (Adrenaline Acid Tartrate B.P. 14 mg./ml.—0.28 mg. per dose)	14/4
