## —for skin protection in cases of bedsores, napkin rash cracked skin, itching and other skin disorders

Vasogen Silicone has high water repellent properties and protects the skin from irritants induced or aggravated by contact with aqueous liquids, body fluids and exudations. It is effective also in the treatment of sore buttocks, excoriation, plaster sores, maceration, some conditions of eczema and can be used after colostomy. Vasogen Silicone is easy to apply and is almost invisible on the skin. It provides an acceptable protective barrier that is maintained effectively for lengthy periods.

## DIABETES MELLITUS

EDITED BY L. J. P. DUNCAN

Diabetes is a disease which leaves no organ or tissue of the body unaffected. ¶ Its study is therefore of importance to all medical practitioners. ¶ This book, deriving from the opening symposium of the University of Edinburgh Pfizer Foundation for Post-Graduate Medical Research, discusses the disease under 4 headings: INSULIN, DIABETIC ANGIOPATHY, EPIDEMIOLOGICAL and THERAPEUTIC ASPECTS. ¶ Recent research in these fields is discussed in papers by leading authorities from Britain, USA, Germany, Switzerland and Africa. ¶ This book carries on Edinburgh University Press's reputation for excellent production and aims to set a new standard in the design and production of medical books. To take one example, the plates have been reproduced by 300 screen offset, which gives them a degree of fineness seldom found in books published outside the United States. ¶ 189 pp. 44 plates & drawings. 42s.

## how much does **loneliness** weigh?

Loneliness is just one of the emotional stresses that may lead to compulsive overeating. In treating the obese patient, merely curbing the appetite is unlikely to provide a complete answer: the stresses must be countered and adequate compensation provided for the solace formerly derived from overeating. *Durophet-M* does just that. It contains not only laevo- and dextro-amphetamine (ratio 1:3) — probably the most effective appetite depressant available — but also methaqualone, a calmative to counter the underlying emotional factors that motivate the compulsive overeater. In obesity, with its attendant hazards to health, these agents together provide more effective weight loss than do simple appetite depressants. Dosage is simple — just one capsule daily.

### **DISEASES OF MUSCLE**

by J. N. Walton, T.D., M.D., F.R.C.P., *July and August, 1966*

This outstanding REVIEW ARTICLE by one of the world's leading authorities on the muscular diseases will undoubtedly be hailed as a most important contribution towards the better understanding of the nature and inter-relationship of these baffling disorders. Taking each type of myopathy in turn, the author reviews its clinical manifestations, its pathological features, and its genetic background in the light of the most recent research. He concludes with a valuable commentary on differential diagnosis and a comprehensive bibliography containing more than 300 references.

The selective abstracting service offered by the journal is already widely known. The institution of the current series of Review Articles has greatly increased its popularity. These articles, like the abstracting service which they are designed to supplement, are directed as much towards the general reader as to the specialist, providing him with authoritative surveys of the growing points of medicine, each complete with an up-to-date bibliography. ## SINGLE-DOSE TREATMENT FOR BOTH THREADWORMS AND ROUNDWORMS

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis... The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects."

"Pripsen... is a highly effective agent against ascariasis."

"Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and, in the remaining 14, repeated dosage... resulted in a 100% cure-rate... Apart from one patient... there were no undesirable side-effects in this series, which included babies of 4 and 5 months."

## The PORTOGEN could make life more tolerable for some of your patients

Many patients suffering from chronic respiratory insufficiency are debarred from normal activities by their dependence on a supply of supplementary oxygen.

**THE PORTOGEN** has been designed to provide such a supply in extremely portable and handy form. It contains sufficient oxygen to last for 25 minutes at a continuous flow of 4 litres per minute, and yet the complete outfit, including 100 litre cylinder, regulator, control valve, gauge, and neat, ever-ready carrying case weighs little more than 3lbs.

**THE PORTOGEN** also constitutes a readily available source of oxygen for use in all kinds of respiratory emergencies, and is therefore eminently suitable for your surgery and your car.

**THE PORTOGEN** is simple and safe. Very little instruction is needed in its use, and cylinders may either be exchanged through a chemist, or recharged by the patient from a standard 48 cu. ft. cylinder in his home.

For further information, get in touch with your nearest Branch of British Oxygen. Our representative will be glad to call on you by arrangement.

# approach to therapy

## Faster, more intensive action in relieving skin inflammation.

This graph demonstrates the influence of Ultralanum and other topical corticoids applied to an experimentally induced inflammation on the skin of volunteers. From the graph it can be clearly seen that the action of Ultralanum is more intensive, since a return to normal skin colour was achieved after 4 hours, whereas it was between 6-8 hours for the other preparations. Furthermore, a marked reduction in the degree of inflammation could be observed with Ultralanum after as little as one hour.

\*Comparison of anti-inflammatory activity of topical corticoids (modified vasoconstriction test) (1957) Brit. J. Dermatol. **69**, 11. (1962) Arch. Derm. **86**, 611, modified by Kolb (to be published).

Ultralanum is a highly effective corticoid ointment which has proved itself superior to other topical corticoids.

Ultralanum achieves excellent results, not only in cases which respond to topical corticoid therapy, but also on occasions, in chronic conditions which were previously resistant to such treatment.

### How Ultralanum's unique biphasic action is of benefit to you and your patients.

Ultralanum contains fluocortolone and fluocortolone caproate. Experiments employing the labelled substances have shown that the former penetrates rapidly into the skin, the latter only slowly.

This results in a dual action providing

rapid, often dramatic relief together with sustained therapeutic effect. Thus, following an initial improvement in the condition, therapy may often be maintained with one application daily. Patients are more likely, therefore, to follow the prescribed regimen with correspondingly better clinical results.

### How Ultralanum sets new standards of economy and convenience in use.

Ultralanum, with its single daily maintenance application offers economy and convenience to the patient.

Further economy is encouraged by the availability of 10 g. packs which avoid expensive "bathroom cabinet wastage" of unused medicament.

### Composition

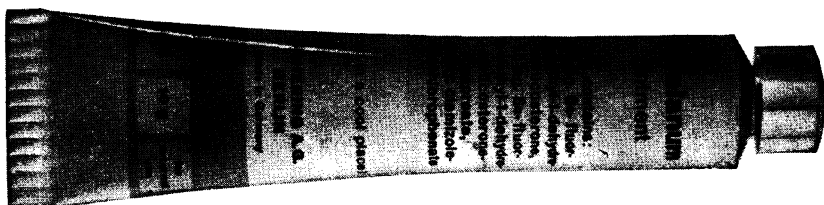

ULTRALANUM PLAIN contains 0.25% fluocortolone and 0.25% fluocortolone caproate.

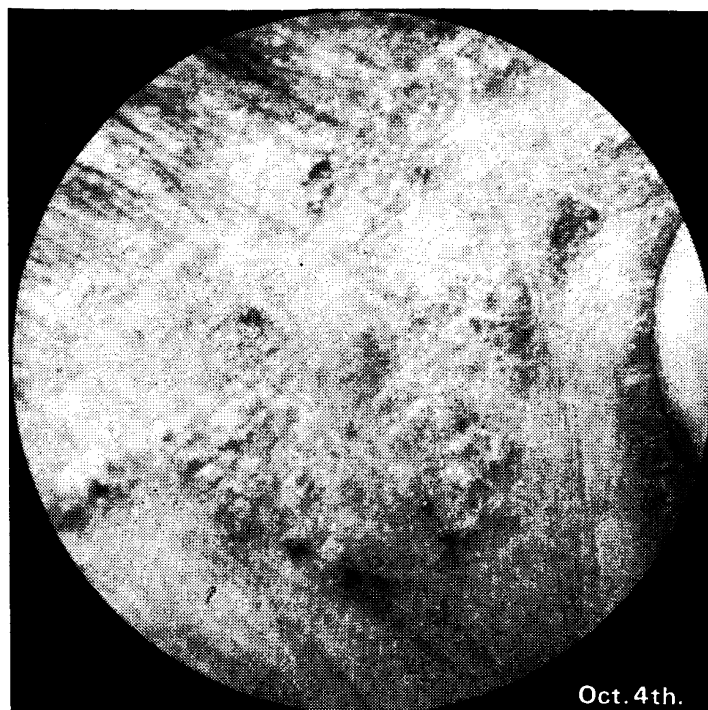

ULTRALANUM—with 2.5% clemizole-hexachlorophane for those cases for which an antibacterial agent is required.

## Psoriasis... rapid response to Alphosyl

... even in previously intractable cases. A patient of 48 who had a generalised psoriasis for 20 years was essentially clear in six weeks.<sup>2</sup> A girl of 10 with a strong familial history of psoriasis, cleared almost completely after three weeks' application of Alphosyl Cream.<sup>2</sup> These are just two typical cases from the extensive clinical records underlining Alphosyl's outstanding effectiveness in bringing psoriasis under control.

**New Alphosyl lubricating cream.** A new water-in-oil dosage form, Alphosyl Lubricating Cream is particularly significant in the treatment of the dry, extremely scaly psoriatic lesion confined to the small site and the intertriginous area. Alphosyl cream is especially helpful in clearing psoriatic plaques exposed to constant friction. By enhancing lubrication of the skin folds, it serves to lessen irritation and facilitate healing. Clearing is prompt, even in previously resistant cases. The effectiveness of Alphosyl in this form is attributable in large measure to its unique cream base. This consists of a combination of saturated and unsaturated free fatty acids, naturally occurring triglycerides and esters that resemble the lipid constituents of normal healthy skin. The vehicle also contains hydrophylic-lipophilic bipolar substances which

Oct 9th.

enhance the moisture uptake and retention of the amphoteric proteins of the stratum corneum. Significantly, it has been shown that squalane, one of the components of the base, is most effective in dissolving a cement substance in psoriatic scales.

**Formula:** Allantoin 2% + 90% alcoholic extract of coal-tar (5=1) 5% in a vanishing type cream base or a smooth, non-greasy lotion base.

# Effective absorbency is vital in vaginal tamponage

Thousands of women every year are turning to Tampax as they become convinced it's a better method of caring for the menstrual flow. Of utmost importance to them, of course, is the competence of Tampax as an effective absorbent.

Tampax is made exclusively of soft surgical cotton, compressed for easy, correct and comfortable insertion by an individual, hygienic container-applicator. In place, this special cotton absorbs the flow by strong capillary action along its entire length. With bulky perineal pads only a small central section is actually used. With Tampax, a woman gets total absorbency.

Your patients will welcome the tidy convenience of Tampax and will soon recognise, as have millions of other women around the world, its many other advantages. With Tampax, the problem of menstrual odour is virtually eliminated. It is easily disposable by flushing away, as are the container-applicator tubes. Bathing and showering are made aesthetically possible. Even sitting and walking are more comfortable.

If you have patients who are having psychological or emotional difficulties over menstruation, perhaps you can ease their problem by recommending Tampax. Its use, comfortable and practical as it is, can improve a woman's or girl's whole attitude toward the complex of menstruation.

Tampax is available in Regular and Super absorbencies to meet the varying needs during the menstrual period.

## *Two birds with one stone?*

It is now widely accepted that recurrent cystitis may indicate the presence of a much more serious condition—chronic 'silent' pyelonephritis. Consequently, in order to avoid subsequent relapse and, even more important, to prevent progressive renal impairment, therapy must be aimed at eradicating *both* conditions. Negram can help you achieve this. Specifically bactericidal against the common urinary pathogens, Negram is well tolerated for long-term use. It can help you kill two birds with one stone—even where other antibacterial agents have failed.

***"We've found a marvellous doctor, mum"***

Just married, with a new home, she developed a bad case of cystitis. A new doctor had to be found and now she's so delighted with the way he cured her condition that she's telling her mother all about him and his treatment. Well—not all. For she doesn't know why he chose Negram. Or why he insisted on her finishing her course of treatment even after the symptoms had all gone. If she did she'd be even more impressed with him than she is already.

# pain

## *Distalgesic erases pain*

Two tablets of Distalgesic taken three or four times daily bring prompt and lasting relief in pain of varying degrees. Distalgesic maintains its effect at this dosage level even in long-term use, such as in the aches and pains of rheumatism. It can be effective against more severe pain, often delaying the need for parenteral narcotics. Distalgesic itself is non-narcotic, does not cause constipation or addiction and does not irritate the gastric mucosa.

Distalgesic tablets each contain 32.5 mg. *dextropropoxyphene hydrochloride*, described as the most promising alternative to codeine, and 325 mg. *paracetamol*, generally regarded as the safest of the antipyretic analgesics.

# PENBRITIN K.S.

Brings bacterial enteritis  
firmly under control

PENBRITIN K.S., a new product from Beecham Research Laboratories, combines all the advantages of broad spectrum antibiotic therapy with a soluble, well absorbed sulphonamide (sulphadimidine) that is effective against certain bacterial strains insensitive to ampicillin. This formulation, with Kaolin, provides a highly effective treatment that brings bacterial enteritis firmly under control by eliminating both the cause and symptoms of diarrhoea.

- The systemic action of Penbritin and sulphadimidine removes infection in the wall of the intestine – the most important site of infection.
- The unabsorbed Penbritin and sulphadimidine deal effectively with bacteria in the lumen of the gut.
- Kaolin adsorbs toxins, consolidates stools and exerts a demulcent action on inflamed mucosa.

PENBRITIN K.S. gives the broadest coverage against entero-pathogenic bacteria.

Each 20ml. dose contains Penbritin (ampicillin B.P.) 0.375g./Sulphadimidine B.P. 1.0g./Light Kaolin B.P. 5.0g.  
*Availability:* 60ml. bottles with dosage measure provided. A bottle is sufficient for one course of treatment.

# Obstetrics in General Practice

*Published July 1966*

This book is made up of a series of articles printed in the "Current Practice" section of the **BRITISH MEDICAL JOURNAL**. It is designed to give a lucid and practical account of obstetrics as it is carried out in the patient's home or in a maternity unit, with special emphasis on the role of the general practitioner and his relationship to the consultant obstetrician and the hospital. The principal authors are consultant obstetricians, but to ensure that the general practitioner's own view and special experience should be represented the consultant contributors were asked to prepare their articles in collaboration with general practitioners. The book as a whole is a product of such co-operative effort. It will prove a useful guide to this important branch of medical practice.

### PRACTICES

(Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

#### BURES (SUFFOLK)

A small rural practice in an attractive part of East Anglia on the border of Suffolk and Essex is open to application from medical practitioners. The practice is at Bures, eight miles north of Colchester and has a list of 1,360 most of whom are dispensing patients. Surgery and residential accommodation are on offer to the successful applicant. Situated close to the "Constable country," the practice covers many picturesque rural villages and for expansion the successful applicant could look to a development area five miles to the North-west. It is an opening suitable for the middle-aged doctor who desires to work in a quiet rural area or for the doctor who is willing to expand.

Details, and application Form E.C.16A, can be obtained from the Clerk, West Suffolk Executive Council, Crescent House, Angel Hill, Bury St. Edmunds, Suffolk. Completed applications must be received not later than August 15, 1966. (H.8157)

#### SECOND RE-ADVERTISEMENT LONDON BOROUGH OF SOUTHWARK BONAMY STREET/DELAFORE ROAD DEVELOPMENT

Applications are invited from practitioners for a medical practice (no patients) in the Bonamy Street/Delafore Road Development. By the end of 1967 it is anticipated that some 1,000 units will have been erected allowing for population in excess of 3,000 persons. The occupants are expected to move into the development area gradually at fortnightly intervals during the period from September, 1966, until the end of 1967.

Surgery premises are to be provided by the London Borough of Southwark. The lease of the surgery will be for a term of 21 years at a rental of £500 per annum, exclusive of rates, for the first seven years. Under the proposals of the new Doctors' Charter it is likely that reasonable rents and rates will be reimbursed.

It is anticipated that the surgery premises will be ready in August, 1966, and that by the end of September, 1966, 300 people will have become residents on the site.

The fitting out of the surgery will be carried out in conjunction with the practitioner appointed, and the Borough Council is prepared to spend up to £400 for the surgery front; fixtures and fittings and any expenditure in excess of this will be the responsibility of the doctor appointed.

The area will be designated for one practitioner and will carry an initial practice allowance if the practitioner selected is eligible therefor.

Application Forms E.C.16A obtainable from the Clerk, Inner London Executive Council, Insurance House, Insurance Street, W.C.1.

Completed applications to be received by the Council not later than 12 noon, Monday, August 8, 1966. (H.8185)

#### NATIONAL HEALTH SERVICE EXECUTIVE COUNCIL FOR THE CITY OF EDINBURGH

Applications are invited from registered medical practitioners for succession to the whole or parts of the under-noted three practices from October 1, 1966.

(1) Practice in the Abbeyhill district, list at July 1, 1966, 2,011. The surgery premises from which the doctor, who is withdrawing his name from the Council's medical list, practises will be available for purchase. The house at which the doctor resides will also be available for purchase.

(2) Practice in the Craigentinny district, list at July 1, 1966, 1,041. The house at which the doctor, who is retiring, resides and from which he practises, will be available for purchase.

(3) Practice in the Newington district, list at July 1, 1966, 1,362. The house at which the doctor, who is retiring, resides, and from which he practises, will not be available for purchase.

Forms of application and further particulars may be obtained from the Clerk to the Council, "Drumsheugh House," 37A Drumsheugh Gardens, Edinburgh, 3, with whom applications should be lodged by August 10, 1966. (H.8106)

#### NATIONAL HEALTH SERVICE GLAMORGAN EXECUTIVE COUNCIL RE-ADVERTISED VACANT PRACTICES AT TREORCHY AND CWMPARC (RHONDDA), GLAM

Applications invited from medical practitioners for two vacant practices suitable for a two-doctor partnership or two single-handed practitioners. The practices have always been a partnership. The combined number on lists at April 1, 1966, was 4,991. Surgery and residential accommodation may be available.

Further particulars, and form of application, which must be submitted not later than August 8, 1966, may be obtained from the undersigned.—P. D. White, Clerk of the Glamorgan Executive Council, 7th Floor, Churchill House, Churchill Way, Cardiff. (H.7992)

#### NATIONAL HEALTH SERVICE GLAMORGAN EXECUTIVE COUNCIL VACANT PRACTICE AT NOTTAGE, PORTHCAWL, GLAM

Applications invited from medical practitioners for vacancy (surgery and residential) List approximately 1,236 (all prescribing). House and surgery available for purchase. Further particulars and form of application, which must be submitted not later than August 15, 1966, may be obtained from the undersigned.—P. D. White, Clerk of the Glamorgan Executive Council, 7th Floor, Churchill House, Churchill Way, Cardiff. (H.8184)

#### OLDHAM, LANCASHIRE (DESIGNATED AREA)

Applications invited for urban vacancy arising January 1, 1967. Present list, 2,338 patients. House and surgery available. Holiday, locum and week-end rota schemes in operation. G.P. maternity hospital and G.P. hospital in area. Further details available on request. Apply on Form E.C.16A, obtainable from the Clerk, Oldham Executive Council, Barclay's Bank Chambers, Church Lane, Oldham, Lancs. not later than August 15, 1966. (H.8060)

#### SOUTHWARK (NEW KENT ROAD AREA)

"Open" area. Retiring practitioner, male. List at present approximately 1,770. Surgery premises will not be available.

Application forms, E.C.16A, obtainable from the Clerk, Inner London Executive Council, Insurance House, Insurance Street, London W.C.1. Completed applications to be received by the Council not later than 12 noon, Monday, August 8, 1966. (H.8113)

### GENERAL PRACTICE

#### NATIONAL HEALTH SERVICE (SCOTLAND)

Lothians and Peebles Executive Council South-Eastern Regional Hospital Board Combined General Practice Principal Hospital Appointment Livingston New Town

An integrated medical service is planned for this new town, and applications are invited from registered medical practitioners to fill a new post which will combine general practice and hospital work, with the opportunity also to participate in the Local Authority health services. One similar post has already been filled.

The practitioner will have his own list of patients as a principal under the general medical services, and will hold a part-time appointment (five sessions weekly) in the district general hospital (Bangour General Hospital, West Lothian) in the grade of Medical Assistant, with placing dependent upon experience. An initial practice allowance supplemented by inducement payment will be available in addition to capitation and other fees for general medical services, and sessional payments in respect of hospital and local authority employment.

A dwelling-house will be available to rent from the Livingston Development Corporation. Temporary surgery accommodation will likewise be available until completion of a comprehensive health centre.

Further information regarding this post may be had from the Clerk, Lothians and Peebles Executive Council, 25 Stafford Street, Edinburgh 3, with whom applications, giving full details of age, qualifications and experience, together with the names and addresses of three referees, must be lodged not later than August 31, 1966. (H.7896)

**Accident and Emergency—contd.****READING AND DISTRICT HOSPITAL  
MANAGEMENT COMMITTEE**  
Reading Area Accident and Orthopaedic Service

Two vacancies will shortly occur in the above service at Battle Hospital, Reading.

1. HOUSE SURGEON (House Officer grade)
2. HOUSE SURGEON (Senior House Officer grade)

This unit is the only accident service for a population of 400,000, and the bulk of the work consists of major trauma, although there is also a small amount of "cold" orthopaedics. Each successful candidate will be part of a team whose duties will be divided between the wards, operating theatres and the Accident Reception Department. The latter is newly built and very well equipped, including resuscitation rooms and two operating theatres.

The posts offer extremely good experience in the management of acute trauma, and there are good facilities for postgraduate study. Both posts are recognized for the F.R.C.S.

Modern flat probably available. Written applications, giving two referees, to the Hospital Secretary, Battle Hospital, Oxford Road, Reading. (18757)

**ANAESTHETICS****LIVERPOOL REGIONAL HOSPITAL BOARD**

- (a) Walton Hospital (1 post)
- (b) Ormskirk and North Liverpool Groups (1 post)
- (c) North Wirral, Birkenhead, and Central Wirral Groups (1 post)

Applications are invited for three posts of **MAXIMUM PART-TIME CONSULTANT ANAESTHETIST**.

The person appointed to post (b) will undertake four sessions in the Ormskirk Group, four sessions in the North Liverpool Group and one in the Southport Group. In post (c) duties initially will be mainly at Victoria Central Hospital, Surgical Unit, Wallasey, but some duties will be at other hospitals in the North Wirral Group and at St. Catherine's and Children's Hospitals, Birkenhead, and at Clatterbridge Hospital, Bebington. A review of the anaesthetic services in the three groups is to be undertaken resulting, it is hoped, in the seasonal time being shared between fewer hospitals, and it is likely that the duties of the person appointed to this post will be changed. Applicants must have at least five years recognized training and experience in anaesthesia, and must be Fellows of the Faculty of Anaesthetists.

Application form and further information from Dr. R. Glyn Thomas, Senior Administrative Medical Officer, Liverpool Regional Hospital Board, 55 Castle Street, Liverpool, 2. Applications to be returned not later than August 18, 1966—Vincent Collinge, Secretary to the Board. (19705)

## PHARMACOLOGISTS

The recent completion of new pharmacological research  
laboratories in the Research Institute of MAY & BAKER  
LTD, Dagenham, Essex, has provided openings for phar-  
macologists at both the senior and less experienced level.

Applicants for the senior posts should have a number of  
years' research experience and probably a Ph.D. degree or  
medical qualification. They should be interested in the  
development of new medical products as well as funda-  
mental pharmacological research, be able to provide stimu-  
lating suggestions to their colleagues in biochemistry and  
synthetic organic chemistry, and to organize and supervise  
the running of small units of less experienced pharmacolo-  
gists.

There are also vacancies for pharmacologists or physio-  
logists with less experience who wish to work in active  
collaborative teams comprising a pharmacologist, bio-  
chemist and chemist engaged in the development of new  
therapeutic agents as well as fundamental pharmacological  
problems.

Work is carried out in modern well-equipped labora-  
tories, a personal line of research is encouraged as well as  
publication in scientific journals and attendance at meetings  
of scientific societies.

The starting salary, which will be a matter for individual  
discussion, will be in the range of £2,000 to £3,000 for an  
experienced pharmacologist and in the range of £1,000 to  
£1,500 for less experienced staff.

Anyone interested in discussing these appointments  
further should write to the Personnel Officer, enclosing a  
brief curriculum vitae, and quoting reference No.  
BM/85/66. The enquiry will be treated in strictest con-  
fidence. (18762)

## THE NORTH-EAST METROPOLITAN REGIONAL HOSPITAL BOARD

offers a

### CAREER IN MEDICAL ADMINISTRATION

An Assistant Senior Medical Officer is required to assist the Board's Senior Administrative Medical Officer in the medical administration of the hospital and specialist services of the Region. The work is largely concerned with aspects of the organization and planning of the hospital services in the Region which, with the expansion in the building programme, are in the process of redevelopment.

For direct appointment to this grade previous administrative experience, preferably in the hospital or public health service, is desirable.

Alternatively the Board is prepared to make a trainee appointment in the Medical Officer grade for a probationary period of one year during which suitability for promotion to the Assistant Senior Medical Officer grade will be assessed.

Candidates for the trainee appointment need not have had any previous experience in medical administration. This affords an excellent opportunity for a young doctor to test his/her aptitude in the field of medical administration, where there are good career prospects.

Salary scales:

**Medical Officer:** £1,880 at age 29 or less, rising to £2,085 at age 33 by £60(1) by £65(4) by £70(1) to £2,475.

**Assistant Senior Medical Officer:** £2,475 by £100(3) by £105(3) to £3,090.

Application forms, to be returned by August 19, from Secretary, North-East Metropolitan Regional Hospital Board, 40 Eastbourne Terrace, London W.2. (AMBassador 8011, Ext. 143). Please quote Ref. 593.

**ST. ANDREW'S HOSPITAL NORTHAMPTON**

**FOR NERVOUS AND MENTAL DISORDERS**

President: The Earl Spencer  
Medical Superintendent: James Harper, M.B., F.R.C.P. (Edin.), D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from eighteen guineas per week. Private rooms with special nurses can be provided, either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recreation and Occupation Centre, known as Gloucester House, was opened in 1962, which comprises an occupational therapy department, a swimming pool, a squash court, and a library with an adjoining reading room.

**WANTAGE HOUSE**

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available.

**MOULTON PARK**

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch. For terms and further particulars apply to the Medical Superintendent (Telephone No.: 34354 Northampton) who can be seen in London by appointment.
