IF ANY PATIENTS ARE IN NEED OF HELP-

the members of the Medical Profession are reminded that the Distressed Gentlefolk's Aid Association can provide assistance under

Distressed Gentlejokk's Alta Association can provide assistance under three main headings:

The long-term sick and infirm—middle-aged as well as aged who unfortunately are not blessed with loving relatives or friends who can care for them.

The frail and aged—who with financial help can still be cared for

The middle-aged—who through illness or misfortune are in grave financial distress, especially women with young families deprived of their husbands' support through sudden illness or death.

DISTRESSED GENTLEFOLK'S AID ASSOCIATION

Patron: Her Majesty Queen Elizabeth the Queen Mother. President: H.R.H. The Duchess of Kent Vicarage Gate House, London W.8

ADVERTISEMENTS

PHARMACEUTICAL PRODUCTS

Readers are reminded that prescribers' literature and clinical information are always available from advertisers on request.

Breathtaking...

'Expansyl Spansule' capsules give protection against bronchospasm on a simple morning-and-bedtime regimen.

Designed for routine use, the 'Spansule' Capsule ensures continuous prophylactic release of an adequate amount of ephedrine, without the occurence of limiting side effects. 'Expansyl' also relieves the anxiety induced by the constant threat of distressing attacks.

EXPANSYL gives routine day-long protection against bronchospasm without barbiturate sedation

Each 'Expansyl Spansule' Sustained-release Capsule contains ephedrine sulphate 50 mg., 'Stelazine' 2 mg., and 'Histryl' 5 mg. Literature containing prescribing information is available on request.

"Expansyl", "Stelazine" (brand of trifluoperazine dihydrochloride), "Histryl" (brand of diphenylpryaline hydrochloride) and "Spansule" (brand of sustained-release capsules) are trade marks.

SL: PA117 col.

THE PATIENT UNDER PRESSURE This man is continually under heavy pressure at work. At home, he has problems. He finds it difficult to escape from stress. Anxiety and tension have begun to distort his reactions. He is restless and takes offence without reason at the office. At home a similar story—he snaps at the children indiscriminately. Diagnosis—anxiety state.

'Stelazme Spansule' Capsules 2 mg.; Tablets 1 mg.; Syrup, each teaspoonful (5 ml.) containing 1 mg. 'Stelazine'; Ampoules 1 mg./1 ml.

he needs the true tranquillizing effect of ${\bf STELAZINE}$

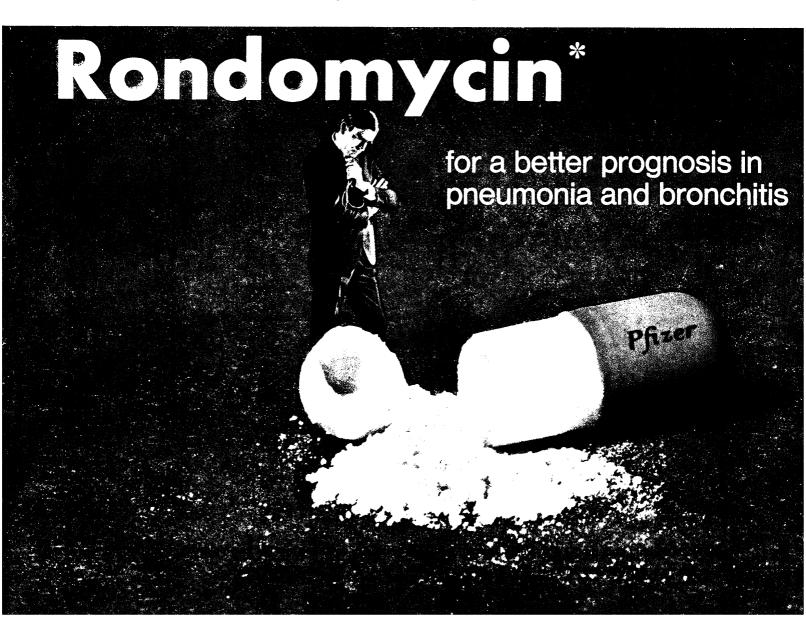

What's in it for you?

Intense activity against *Mycoplasma pneumoniae*, now shown to be associated with over 20% of acute respiratory infections - notably pneumonia and bronchitis^{1,2}. This organism is totally insensitive to all penicillins³.

The capacity to clear purulent sputum quickly, even when previous therapy has failed.

Shorter exacerbations⁵, resulting in a decisive check on progressive lung-tissue damage.

Choice of two equally dependable dosage regimens - one capsule four times daily or two capsules twice daily.

BROXIL

would be my choice in routine penicillin therapy

BECAUSE of its Excellent Clinical Results

There are 380 published references to Broxil in world literature. These confirm its success in infections such as tonsillitis, pharyngitis, otitis media, boils and carbuncles, which in an overwhelming proportion of cases are caused by Gram-positive organisms (staphylococci, streptococci and pneumococci).

BECAUSE of its Specific Activity

Broxil is highly bactericidal to the majority of these organisms, destroying them without disrupting the normal intestinal flora.

BECAUSE of its High Blood Levels

Broxil gives blood levels double those achieved by penicillin V and at least as high as intramuscular injections of penicillin G.

BECAUSE, in its syrup form, it is particularly suitable for children.

Broxil is readily accepted and tolerated by children, and side effects are minimal.

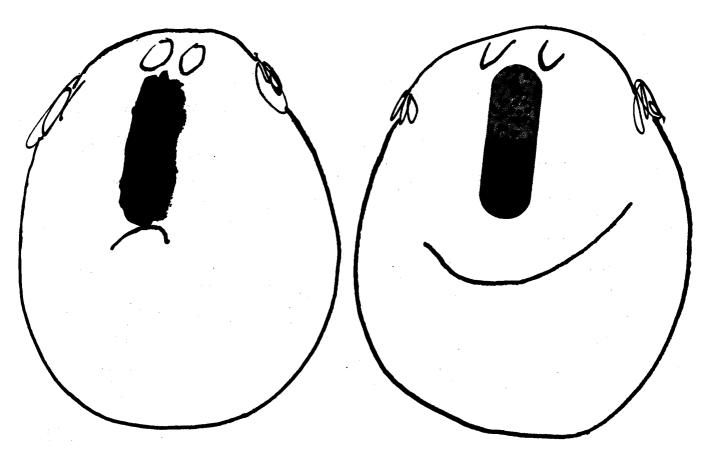

Availability: 125 and 250 mg. tablets and capsules. 60 ml. syrup (125 mg./5 ml.)

Dosage: Children: 62.5—125 mg. every 4—6 hours. Adults: 125—250 mg. every 4—6 hours. Prophylactic Dose: Adults: 125 mg. twice daily. Children: 62.5—125 mg. twice daily.

people who catch colds-need not suffer from them

'Eskornade' swiftly dries up excess secretion, shrinks engorged mucosa and controls allergic reactions such as rhinorrhoea, lacrimation, itching eyes and sneezing.

Eskornade means colds clear and dry-all day

Each 'Eskornade Spansule' Sustained-release capsule contains isopropamide as the iodide 2.5 mg., phenylpropanolamine hydrochloride 50 mg., and diphenylpyraline hydrochloride ('Histryl') 5 mg. 'Eskornade' syrup is also available. Literature containing prescribing information is obtainable on request.

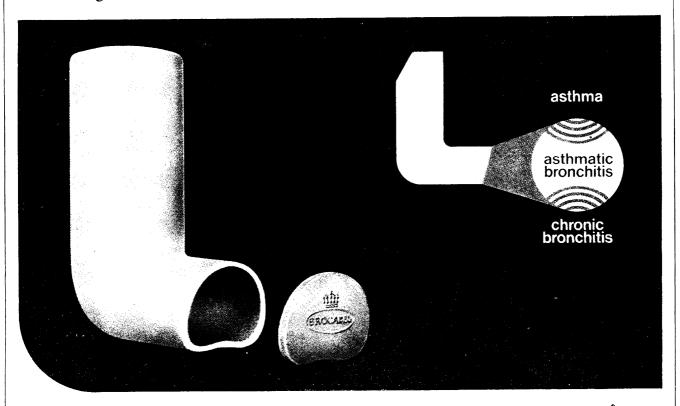

brontisol*

night long relief

Brontisol is a metered dose aerosol in an inert propellant, combining & sympathomimetic, anticholinergic, antihistaminic and antiserotonin properties. The recommended adult dosage is 1-3 puffs every 4 to 5 hours as directed by the physician. Brontisol is a new concept in the treatment of generalised airways obstruction, since it not only produces marked bronchodilation, but also controls hypersecretion and reduces swollen mucosa. Brontisol combines a rapid, pronounced action with a long duration of effect. Maximum effect is reached within 5-10 minutes and remains at this level for at least 4 hours. A significant therapeutic responce can frequently be demonstrated for up to 6 hours. Brontisol can also block continuous spasmogenic effects for up to nine hours.

CHILD CARE

To be published 1 January, 1967

This book is the second to be published from a series of articles that have appeared in the "Current Practice" section of the *British Medical Journal*. It gives practical up-to-date advice on problems faced by general practitioners. The articles that make up the book cover the period from infancy to adolescence, and in their scope cover child-care in the broadest sense, with sections on normal development, adoption, puberty, and behaviour disorders as well as the diagnosis and management of childhood diseases. The authors are consultant paediatricians or leading authorities in their fields, but the emphasis throughout has been on a practical approach. It is hoped that the book will be a useful guide for all family doctors.

BRONCHITIS-ASTHMA-EMPHYSEMA

Clinical evidence confirms that this new theophylline-niacinamide complex achieves rapid therapeutic blood levels for faster dilation of the bronchioles and substantial improvement in vital capacity in most cases of chronic bronchitis, asthma and emphysema.

Significant Treatment Advantages:

The unique Anaphylline complex is a loose bonding of theophylline and niacinamide which affords a soluble theophylline through all pH ranges. No more ionization of theophylline salts with precipitation of the theophylline in the acid of the stomach. Now direct immediate absorption of the theophylline complex for faster, higher and longer blood levels.

* MORE RAPID ABSORPTION FOR QUICKER PATIENT RESPONSE

Evidence from clinical trials indicates that Anaphylline achieves therapeutic blood levels faster than theophylline salts and within 15 minutes of oral administration.

* MORE PROLONGED BLOOD LEVELS FOR SUSTAINED RELIEF

Rapid, initial blood levels achieved are followed by a steady, sustained rise reaching peak achievement at 60 minutes, with gradual, but uniform decline thereafter.

* SUPERIOR PATIENT TOLERANCE

Achievement of these blood levels is not accompanied by any increase in the side-effects normally associated with the ophylline treatment.

INDICATIONS

For use as a bronchodilator to control the symptoms of chronic bronchitis, chronic asthma, emphysema and other pulmonary disorders.

DOSAGE:

Adults 1 to 2 tablets to be taken 3 or 4 times daily, preferably after meals. (Children 6-12 yrs., half to 1 tablet.)

FORMULA

Theophylline-Niacinamide complex containing 100 mg. theophylline and 150 mg. niacinamide in single tablet form.

CLINICAL REFERENCES

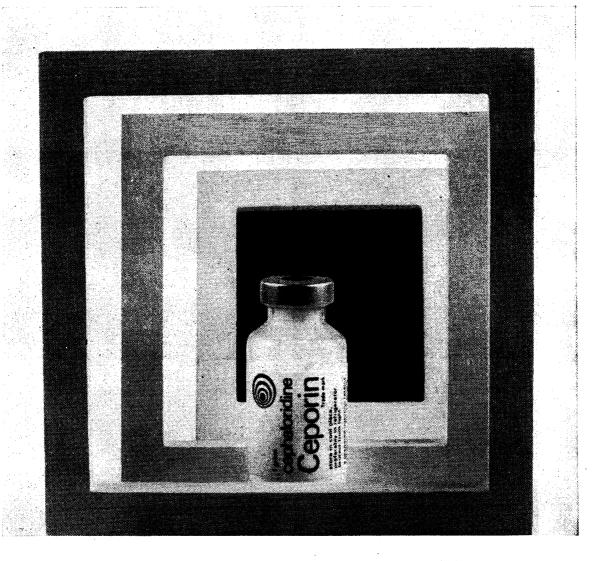

1. A Niacinamide-Theophylline Compound: Human Absorption & Blood Level Studies (in press). 2. A Niacinamide-Theophylline Compound: Clinical and Spirometric effects (to be published).

BASIC N.H.S. COST

100 tablet pack 9/4d., 500 tablet pack 37/4d. – providing highly economic yet effective, lower cost maintenance therapy for the mild to moderate bronchitic patient.

Samples available on request from:

Professional Relations Division, STAFFORD-MILLER LTD., 166, GT. NORTH ROAD, HATFIELD, ENGLAND. By arrangement with: REED & CARNRICK, Kenilworth, N.J., U.S.A. Est. 1860.

What makes this antibiotic so valuable to the hospital physician?

Spectrum?

Exceptionally broad. It covers most grampositive organisms — including the penicillinresistant staphylococci — and many gramnegative organisms.

Action?

Intensely bactericidal. It gives a rapid kill of bacteria at or near the minimum inhibitory concentration.

Safety?

Wide clinical usage has confirmed the laboratory evidence of Ceporin's low toxicity — a particularly valuable attribute in the treatment of the very young or the very old — and it is usually well tolerated by patients allergic to penicillin.

This combination of attributes is invaluable in many situations where other antibiotics —

including penicillin — might prove ineffective or dangerous. A recent analysis of results from over 2000 cases has shown high success rates in a wide variety of infections — including urinary and respiratory tract infections, septicaemias and soft tissue infections. Many reports mention the rapid clinical response obtained with Ceporin after other antibiotics had failed.

Presentation

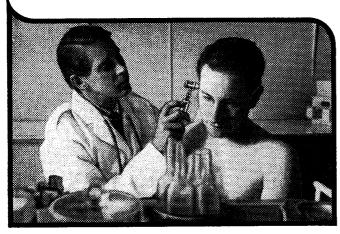

Ceporin is issued in vials containing 250 mg, 500 mg and 1 gram of cephaloridine, packed singly and in boxes of five.

Ceporin is a Glaxo trade mark

Detailed literature is available from Glaxo Laboratories Ltd Greenford, Middlesex

A doctor's life with a difference can be found in the

ROYAL ARMY MEDICAL CORPS

Excellent opportunities are provided for general practice under good conditions of service. The professional opportunities are very wide and varied and include caring for the wives and children of soldiers.

All aspects of medical care—preventive medicine, general and hospital practice are closely integrated. Surgeries are organised by groups and groups are supported by hospitals so that Medical Officers are able to follow up those of their patients admitted to

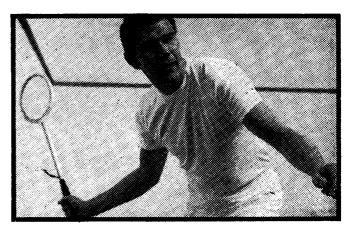

hospital. These modern surgeries have every facility. Good equipment, trained staff, and a locum provided for six weeks' annual leave. Post-graduate training is given.

For the married man it matters greatly how his wife feels about the Service. The community spirit of Army life, especially overseas, embraces an Officer's family as much as himself. Such extra emoluments as Marriage Allowance, Education Allowance, Disturbance

Allowance, and Local Overseas Allowance, show the importance attached by the Army to helping the Officer with a family. Most married Medical Officers get a furnished house at low rental.

Pay for a married Captain (the rank on entry) is over £2000. There are increases every two years and on promotion. Promotion to Major can normally be expected after 5 years and to Lieut-Colonel after 13 years (or shorter, where an antedate is given for experience in

hospitals and general practice). Commissions granted may be permanent or Short Service. A Short Service commission earns a tax-free gratuity of £3000 for 5 years' service, £1500 for 3 years. Regular commissions are pensionable on the normal basis.

For further information please write or pay a visit to: Colonel A. D. Young, D.S.O., M.B., Ministry of Defence (AMD2), Dept. 470, Lansdowne House, Berkeley Square, London, W.1.

'DICONAL' tablets

for the relief of intractable pain – when morphine would normally be given

"Dipipanone has turned out to be the nearest approach to the ideal oral analgesic for patients who wish to be kept alert."

Practitioner (1962), 189, 198

Each 'Diconal' tablet contains
Dipipanone Hydrochloride B.P., 10 mg —
to relieve pain

Cyclizine Hydrochloride B.P., 30 mg. to prevent nausea and vomiting

(The precautions and contra-indications are the same as for morphine.

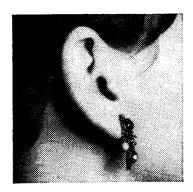

'Diconal' brand Tablets are subject to the D.D.A.)

Indicated in carcinomatosis, after operations, and in patients not responding to morphine or pethidine

THE PRACTITIONER

The Leading Monthly Medical Journal

January 1967 Special Number

FAVOURITE PRESCRIPTIONS IN GENERAL PRACTICE

This Special Number of **The Practitioner** provides a unique record of what general practitioners are prescribing—and why. Twenty practitioners, drawn from all parts of the country from both rural and urban practices; have cooperated in providing a concise synopsis of their prescribing habits. Hitherto consultants have had the say as to what should be prescribed. As is abundantly clear from this Special Number, what the consultant recommends is by no means always what the family doctor prescribes. The wealth of information contained in this Special Number will prove of outstanding value to all members of the profession, whether they are consultants or general practitioners.

This special number also contains other important articles of general medical interest and all the usual features:

Current Therapeutics. General Practitioners Ferum. Notes and Queries. Practical Notes. Continental Notes. Motoring

Notes. Travel Notes. Bridge Notes. World Health News. Reviews of Books. New Preparations. Financial Notes

PAYNOCIL is strongly analgesic, antipyretic and anti-rheumatic in both short and long term treatment.

Paynocil is double-strength aspirin—10 grains per tablet—in a lemon-flavoured glycine base. The glycine disperses the tablet instantly on the tongue, and distributes the aspirin rapidly into the stomach in minutely fine particles—minimising the risk of gastric irritation.

Paynocil tablets are sealed in protective metal foil.

JUNIOR PAYNOCIL for children, a quarter-strength tablet of the same formula, is available in similar foil strips.

WARNING

"A photosensitive reaction to sunlight has been observed in a few patients on LEDERMYCIN demethylchlortetracycline. This reaction occurs chiefly on the exposed parts of the body and although reversible by discontinuing therapy, patients should avoid exposure to intense sunlight."

Filte id. Hademark

By courtesy of the Victoria and Albert Museum.

As an example of English pottery there is no improving on this Wedgewood vase and stopper (circa 1870) in Jasper Ware. The applied medallions are after the antique and show: Apollo with Citharoedus, Silenuswith panther, Apollo and Marsegas, and Ceres with Cupid... and as a cough suppressant there is no improving on Pholoodine; but the addition of Pseudo-ephedrine provides the advantage of easier breathing, making SEDNINE an ideal treatment for all forms of cough.

For comprehensive cough control **SEDNINE** combines:

Pholcodine

reliable anti-tussive, non-constipating, safe for adult or child with:

Pseudoephedrine

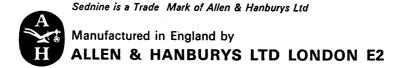

effective decongestant and bronchodilator less likely to produce cardiovascular or CNS side effects than ephedrine.

Formula

Each adult dose (10 ml) contains: Pholcodine BP 15 mg Pseudoephedrine HCI 60 mg

Presentation

Bottles of 142 ml (5 fl oz) and 2 litres

One prescription for the total cold syndrome, including cough.

By prescribing new Rinurel Linctus you provide for your patients a convenient and pleasant method of relieving feverish discomfort, nasal congestion and the dry, unproductive cough that often accompanies the common cold.

New Rinurel Linctus contains the analgesic/ antipyretic paracetamol, the decongestant phenylpropanolamine, the antihistamine phenyltoloxamine and pholocodine, the effective anti-tussive. Available in bottles of 4 fl. oz.

William R Warner & Co Ltd Eastleigh Hampshire Telephone Eastleigh 3131

Most people have problems. But people with problems become patients when they allow their worries and tensions to get on top of them. Whether it's a minor emotional upset or a more severe neurosis, these patients will be helped by your prescription for SERENID-D*(oxazepam, Wyeth) SERENID-D controls anxiety and related symptoms of tension, irritebility

and depression quickly (usually within 7-10 days) and safely (side effects such as drowsiness or ataxia rarely occur). Why not add SERENID-D to the list of drugs you prescribe routinely? **Dose:** for the majority of patients 15 mg. t.d.s. Bottles of 100 and 500.

John Wyeth & Brother Ltd., Taplow, Maidenhead, Berkshire

BRITISH MEDICAL ASSOCIATION

ASSISTANT SECRETARY
The Council of the British Medical Association invites applications from registered medical practitioners for the post of Assistant Secretary. Preferential consideration will be given to candidates not over the age of 40.

The salary scale for this appointment is £3,200, rising by five annual increments to a maximum of £4,200 per annum, but in fixing the starting salary regard may be had to the successful candidate's age and experience. There are prospects of future advancement to a higher grade on selection. The Association's Superannuation Scheme will apply on substantive appointment.

stantive appointment.

The appointment will be for a probationary period of six months in the first instance, and thereafter may be terminated by six months' notice

on either side.

Applications, giving details of qualifications and experience, and accompanied by the names of three persons to whom reference may be made, should be addressed to the Secretary of the Association, B.M.A. House, Tavistock Square, London W.C.I, and must be received not later than February 6, 1967.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

BEVERLEY-EAST YORKSHIRE

Applications are invited for an urban/rural vacancy due to resignation on March 31. 1967. Intermediate area. Rota system. List approximately 1,663, Surgery and residential accommodation may be available temporarily to rent.

ccommonation in property of rent.

Apply, on Form E.C.16A, before January, 1947, to H. Sharpe, Clerk, East Riding of orkshire Executive Council, 65 Toll Gavel, (H.3593)

RE-ADVERTISEMENT BURNLEY—LANCS

Applications are invited for medical vacancy due to impending resignation in January, 19'7. Present list 3.458 (approximately). Urban practice, in 'open' area. Combined residential and practice premises may be available for purchase, or possibly rental. Rota arrangements currently in operation. Applications (on form E.C.16A. obtainable from the Council) to be submitted by not later than January 9, 19'7, to T. A. Watson. Clerk of Burnley Executive Council, 79/81 Church Street, Burnley. (H.3700)

GENERAL MEDICAL SERVICES VACANCY—TORPHINS, ABERDEENSHIRE

Applications are invited from doctors to fill a vacancy in the medical list at Torphins, Aberdeenshir. The leistrict to be served is rule 166, was 1,311, of whom 674 were mileage patients. The successful candicate will be expected to take up duty not later than March 19, 1967.

Further particulars,
Further particulars, and forms of application, which must be submitted not later than January 21, 1967, may be obtained from the Clerk, Executive Council for the Counties of Aberdeen and Kincardine, 24 Rubislaw Terrace, Aberdeen. (H.3681)

NATIONAL HEALTH SERVICE EXECUTIVE COUNCIL FOR THE CITY OF EDINBURGH

OF EDINBURGH

Applications are invited from registered medical practitioners for succession to the whole or parts of a single-handed practice in the Trinity district. List at November 21, 1966, was 1,225. The house at which the ductor resides and from which he practises will not be available for purchase. Forms of application and further particulars may be obtained from the Clerk to the Council, "Drumsheugh House," 37a Drumsheugh Gardens, Edinburgh 3, with wom applications should be lodged by Wednesday, January 11, 1967. Canvassing in any form will lead to disqualification. (H.3682)

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966.

The scales are set out below:

HOUSE OFFICERS: Fach post in this grade shall be tenable for six months, £1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £175, £180 or £190 per annum for compulsory residence, or £220 per annum for voluntary residence. (These deductions are at present under review.)

SENIOR HOUSE OFFICERS: £1450 per annum in the first year: £1.550 per annum in the second year: £1.650 per annum in the third or subsequent years. Deductions of £210 per annum for compulsory residence and of £255 per annum for voluntary residence. (These deductions are at present under review.)

REGISTRARS: £1,650 per annum, rising by four annual increments of £100

to £2.050. Deductions of £255 per annum for compulsory residence and £300 per annum for voluntary residence. (These deductions are at present under review.) On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £140 per annum shall be payable to house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £2,550.

Deductions of £295 per annum for compulsory residence and of £325 per annum for voluntary residence. (These deductions are at present under review.)

On assimilation to the salary scale for senior registrars increments to a maximum of two shall be given for cach year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £1.850 per annum rising by fourteen annual increments of £100 to £3,250. Deductions of £295 per annum for those with remuneration at or below the third incremental point of the scale; and £330 per annum for those above that point for compusory residence; and of £325 or £375 per annum respectively for voluntary residence. (These deductions are at present under review.)

CONSULTANTS: £3,700 per annum rising by five annual increments of £185, and then by four further increments of £190 to £4,885.
Deductions of £410 per annum for compulsory residence and of £460 per annum for voluntary residence. (These deductions are at present under review.)

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff. Memoranda on the following subjects of particular interest have been issued by the Ministry of Health:

Standard Residential Accommodation, Telephone Charges, Removal Allowances, Study Leave.

COMMERCIAL APPOINTMENTS (see also p. xxx)

clinical trials manager

A young doctor is required by THE BAYER PRODUCTS COMPANY for a job involving the initiation, planning and organization of clinical trials. In addition he will also act as adviser to the Company's Medical Information Department. Applicants should have some experience of conducting and organising clinical trials and should be capable of obtaining the co-operation and participation of clinicians in such projects.

An attractive commencing salary attaches to this position and prospects of further advancement are excellent. Salary increments and promotion prospects are determined by merit and ability, rather than by age and seniority. The Company has an outstanding record of growth and is staffed by young energetic people, a high proportion of whom are academically and professionally qualified.

Flease write, giving brief details of your education and career to date, to Alan Picton, Staff Manager (Administration),

THE BAYER PRODUCTS COMPANY

Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulant patient

66In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy. 99

Safe, Simple, **Effective**

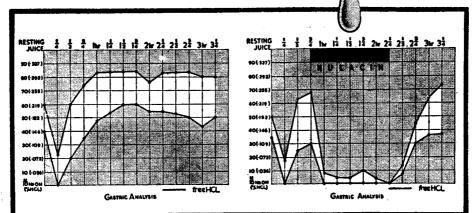

NULACIN TABLETS provide a safe. simple and effective treatment of peptic ulcer.

In treating peptic ulcer a Ryle's tube may be passed through the nose and into the oesophagus and a mixture of milk and antacid allowed to flow continuously over the affected area. This form of therapy can only be employed in those patients who are in bed and for the ambulant patient Nulacin tablets are preferable. Nulacin tablets are prepared from whole milk combined with dextrins and maltose, together with the trisilicate, oxide and carbonate of magnesium and calcium carbonate. Nulacin tablets when allowed to dissolve slowly in the mouth provide milk-alkali drip therapy. In fact, Nulacin tablets have revolutionized the treatment of peptic ulcer.

ALCOHOL & ROAD TRAFFIC

PROCEEDINGS OF THE
THIRD INTERNATIONAL CONFERENCE
ON ALCOHOL AND ROAD TRAFFIC
HELD UNDER THE AUSPICES OF
THE BRITISH MEDICAL ASSOCIATION IN
SEPTEMBER 1962

AN IMPORTANT REFERENCE BOOK for police surgeons, lawyers, forensic scientists, police officers, criminologists, doctors, sociologists, psychologists, insurance offices, analytical chemists and others whose work brings them into contact with the problem of alcohol and road traffic.

In September 1962, the world's leading authorities met together in London to discuss problems of alcohol and road traffic. The 56 papers which were presented at this conference, the subsequent discussions, and the reports of nine special working parties set up to discuss particular issues, have been collected together in these proceedings to form the most comprehensive and authoritative statement available on this important and topical subject.

The proceedings contain the most up-to-date information on the relation of alcohol, tranquillizers and other drugs to road accidents, the role of alcoholism, the most recent chemical methods of detection including breath analysis, A.D.H. and gas chromatography, police procedure with drinking drivers, and presentation of evidence in courts of law.

Obstetrics in General Practice

Published July 1966

This book is made up of a series of articles printed in the "Current Practice" section of the BRITISH MEDICAL JOURNAL. It is designed to give a lucid and practical account of obstetrics as it is carried out in the patient's home or in a maternity unit, with special emphasis on the role of the general practitioner and his relationship to the consultant obstetrician and the hospital. The principal authors are consultant obstetricians, but to ensure that the general practitioner's own view and special experience should be represented the consultant contributors were asked to prepare their articles in collaboration with general practitioners. The book as a whole is a product of such co-operative effort. It will prove a useful guide to this important branch of medical practice.
