# Why Penbritin is so powerful against bronchitis

Because many organisms can cause the different types of bronchitis, it is imperative to use an antibiotic which is active against all of them ... for in General Practice treatment often has to begin before the causative organism can be identified. Penbritin's activity covers all penicillin-sensitive organisms, and Gram-negative organisms as well. Penbritin is bactericidal. Unlike most other broad-spectrum antibiotics which merely inhibit bacterial growth, Penbritin kills bacteria. This is an advantage in the treatment of any patient—and virtually essential when treating children, the old and others whose natural defences are inadequate.

Penbritin has the safety of a penicillin. It is free from dangerous or permanent side-effects\*... of special interest in the treatment of children.

Penbritin's broad spectrum, bactericidal action and comparative safety, endorsed by many world references, establish it as a powerful force against bronchitis.

Penbritin is also highly effective in other respiratory tract infections including: Sinusitis · Pharyngitis · Laryngitis · Tonsillitis Pneumonia.

\*Contra-indication: Penicillin allergy. Side-effects: As with other penicillins. Full information is available on request.

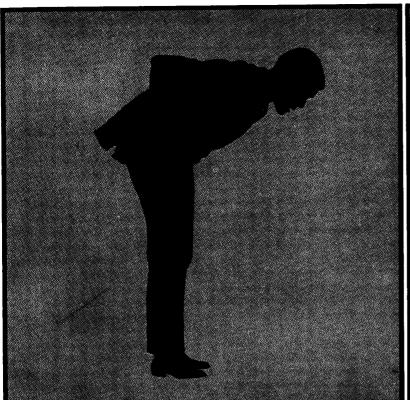

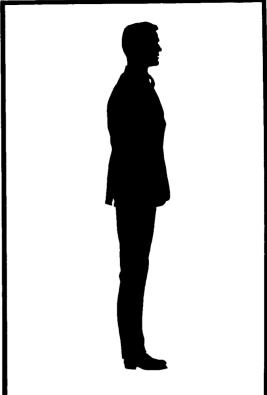

Penbritin (ampicillin B.P.) is a product of British research at

Beecham Research Laboratories, Brentford, England.

originators of the new penicillins

### When your peptic ulcer patient is doubled up with pain...

### Straighten him out with NACTON

Nacton prevents peptic ulcer pain at source—right around the clock. Which means that Nacton gets patients back to work and helps them sleep better. A clinical trial shows a striking increase in the comfort of patients at night.

### Nacton also

<ul> <li>gives the ulcer a better chance to he</li> </ul>
---

- ☐ lets the patient eat as he chooses
- enables him to dispense with antacids.

Because Nacton has no anaesthetic effect, it will not mask the warning pain of an impending perforation. And at the correct dosage, Nacton has no side-effects.

Full information on Nacton (regd.) (poldine methylsulphate B.P.), including advice on dosage, is available from the Bencard Medical Department.

### in hay fever daytime treatment with 'BANISTYL'

### One tablet three times daily effective in most cases Little if any soporific effect Well tolerated by patients of all ages

'Banistyl' is generally well tolerated at the recommended dosage levels; side-effects are usually of a mild and transient nature. Somnolence is infrequent and generally not marked; when it does occur, it frequently subsides after the first few days of treatment or may be controlled by dosage adjustment. Other side-effects which have been reported and which are usually of little significance include nausea, epigastric pain, vertigo, diarrhoea and headache.

Although there is no evidence to suggest that 'Banistyl' is embryopathic, it is a sound medical principle to avoid, wherever possible, prescribing a new drug during the first three months of pregnancy.

Certain activities, including control of vehicles or machinery, should not be undertaken by a patient starting a course of 'Banistyl' until it is evident that the drug has no soporific or other central nervous system side-effects, or until any such effects have subsided.

'Banistyl' is supplied as tablets containing the equivalent of 20 mg. dimethothiazine (as mesylate).

What makes your antacid patients Prodexin patients?

FAST RELIEF FROM DISCOMFORT-SUSTAINED ACTION

PRODEXIN TABLETS WORK FAST to relieve the sharp and sudden pain of dyspepsia; relief begins within two minutes of placing the tablet on the tongue.

PRODEXIN TABLETS WORK STEADILY to relieve prolonged recurring pain in peptic ulceration or pregnancy heartburn. The antacid action of aluminium glycinate lasts for several hours and it has high buffering capacity, holding the pH of the gastric contents within the desirable 3 to 5 range.

The small, pleasant tasting Prodexin tablet can either be dissolved slowly in the mouth to simulate drip therapy or chewed for extra-rapid relief.

No significant side-effects have been encountered.

# Break the threadworm life-cycle with single-dose Pripsen

Threadworms often infect families, one child can infect the others.

A single dose of Pripsen, taken by each member of the family, can eradicate threadworm infection. Pripsen treats the affected child and protects others against infection. As a precaution against possible re-infection a second dose of Pripsen should be given after two weeks.

Pripsen (piperazine phosphate and standardized senna) is also effective against roundworms.

Tube of 10G (one full dose). Tins of 80G (dose measure enclosed). Pripsen can be mixed with milk or water.

### VARICOSITY?

### She'll willingly take your advice if it means wearing fashionable Burson Lightweights

A woman's psychological need for fashion often makes her reluctant to accept your advice to wear elastic stockings. Burson Lightweights have been specially created to provide the answer.

Undetectable in wear, they are truly acceptable to the most fashion-conscious woman—yet are completely effective in relieving the pain and discomfort of a mild varicose condition and are approved by the N.H.S.

Made of alternating strands of strong, supple elastic with strands of sheer nylon, Burson Lightweights combine strength and resilience with stretch in **both** directions. Horizontal stretch eases the pressure of distended veins; vertical stretch aids the natural flow of blood

back to the heart. Available under N.H.S. (on the EC 10 form) in six normal stocking sizes scientifically adjusted to fit all leg shapes, they come in a pleasing shade.

Thus, in specifying Burson Lightweights when prescribing for mild varicosity, you will ensure your patient's relief from discomfort—whilst preserving her confidence and femininity.

### a striking demonstration of Lincocin penetration

**Heart Tissue** 

Lung tissue

Assay organism: Streptococcus hæmolyticus Assay organism: Staphylococcus aureus

Luna tissue

Assay organism: Diplococcus pneumoniae

Since antibiotic effectiveness is dependent upon concentration at the site of infection, it is obvious that antibiotic diffusion and tissue penetration are of supreme importance. The accompanying photographs of an experiment in animals demonstrate Lincocin's capacity in this respect.

A healthy dog weighing 9.5 kg, was injected intramuscularly with 25 mg./kg, of lincomycin hydrochloride (base equivalent). After 90 minutes tissue samples were excised and placed on Petri dishes in which the agar had previously been seeded with pathogenic strains of Staphylococci, Streptococci and Pneumococci, respectively. Following incubation these photographs were taken of the plates containing either heart or lung tissue. The clear zones show that within 90 minutes Lincocin had penetrated these tissues in concentrations sufficient to inhibit growth of the pathogenic inocula.

Lincocin Capsules: Each capsule contains lincomycin hydrochloride monohydrate equivalent to 500 mg. lincomycin base, in bottles of 12 and 100.

Lincocin Sterile Solution: In 2 ml. ampoules. Each 2 ml. contains lincomycin hydrochloride monohydrate equivalent to 600 mg. lincomycin base.

Lincocin Syrup 250: Each 5 cc. contains 250 mg. lincomycin (as lincomycin hydrochloride monohydrate), in bottles of 60 cc.

### In angina pectoris <u>Inderal</u> is the only drug which protects the heart from the oxygen-wasting effects of emotion and effort

The results are: increased effort tolerance and a new concept in long-term relief

The action of Inderal is unique: where other treatments attempt either to improve blood flow by dilating the arteries, or simply to sedate the patient, Inderal, through adrenergic beta-receptor blockade, protects the heart from the action of adrenaline. There is a slowing of the heart rate and a reduction in the oxygen needs of the myocardium.

This represents a new concept of long-term relief of angina, rather

than just a treatment of the condition as and when it arises.

Inderal is unique in another way. It is the only treatment consistently proved in double-blind clinical trials. Trials have, in fact, produced an 80% success figure, with more painfree days and increased effort tolerance. They also show that Inderal (unlike other forms of angina therapy) is of considerable value in very severe cases of angina.

We shall be pleased to send you complete information on Inderal. Please write to us.

Imperial Chemical Industries Limited, Pharmaceuticals Division, Alderley Park, Macclesfield, Cheshire. xii

### THE EVIDENCE...

A recent article\* gives a guide to the choice of the appropriate oral contraceptive for the individual patient. The observation is made that potency cannot be inferred from milligram dosage. It is also stated that most of the side-effects experienced with oral contraceptives are related to the oestrogen/ progestogen balance of the compound and it classifies Lyndiol 2.5 centrally between the most strongly progestogenic and the most strongly oestrogenic oral contraceptives. It is these facts which constitute the basis of Organon's claim that Lyndiol 2.5 is a truly low-dose oral contraceptive and is a truly well-balanced preparation.

\*'Today's Drugs'. Brit.med.J., **1**, 690 (1968)

Further support for the suitability of Lyndiol 2.5 in the majority of patients comes from the first randomised double-blind crossover trial conducted on a number of oral contraceptives\*\*. The study, which made detailed comparisons between 4 leading oral contraceptives in 1673 cycles of therapy. and which confirmed that Lyndiol 2.5 has only minimal side-effects, is a further aid to the selection of a suitable oral contraceptive.

\*\*Acta Obst. Gynec. Scand., **46**, Suppl. 8 (1967)

### THE CONCLUSION... LYNDIOL 2.5

Lyndiol 2·5 tablets contain 2·5mg lynestrenol and 0·075mg mestranol Wallets of 22 tablets (one month's supply). Full literature and samples on request.

### In the elderly, the special problems of constipation ...

Constipation in the elderly can present special problems of treatment. Weakened abdominal muscles . . . the dangers inherent in straining . . . refusal to co-operate . . . the presence of pain, to which anal fissures or haemorrhoids may contribute . . . the need for enemas and suppositories . . . the risk of faecal impaction, with consequent manual removal . .

Clinical trials have shown the distinctive value of Dorbanex in the treatment of the elderly patient. In a recent trial in a geriatric ward', *Dorbanex* achieved 23% more bowel openings than did standardised senna, and 61% more than miscellaneous laxatives. The stool formation "allowed easy defaecation without an increase in faecal incontinence". Suppositories were needed only five times during 644 patient-days of treatment, and side-effects were negligible and transient.

"Dorbanex was readily accepted by all patients, even those with some degree of senile dementia to whom the administration of other medicaments has proved difficult". In this trial Dorbanex achieved an average of more than one bowel opening every day—an increase of more than 50% over the openings achieved by standard aperients. No patient complained of griping, whoreas other medicaments had caused several such complaints. No suppositories were needed, and in 360 patient-days of treatment only one manual removal was performed.

Dorbanex can simplify management of the patient posing these problems by providing comfortable, reliable and trouble-free evacuation. *Dorbanex* produces a soft but well-formed stool without griping or other unpleasant side-effects, reduces the need for enemas and suppositories, helps to prevent faecal impaction, and makes defaccation easier without increasing faecal incontinence.

### nave a straightforward solution

Now available in three forms—as capsules and in two strengths of liquid—Dorbanex provides in one preparation a balanced treatment for constipation. By softening the stool and stimulating peristalsis, Dorbanex prepares the way for pain-free evacuation.

1. Practitioner (1966) 196: 702 2. Brit. Hosp. J. & S. S. Review (1966) 77: 727

Composition Dorbanex is available in three forms—as capsules and in two strengths of liquid DORBANEX CAPSULES: each capsule contains 1:8-dihydroxyanthraquinone 25 mg. poloxalkol 200 mg. DORBANEX LIQUID: each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone 25 mg. poloxalkol 200 mg. DORBANEX FORTE: each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone 25 mg. poloxalkol 200 mg. DORBANEX FORTE: each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone 75 mg. poloxalkol 200 mg. DORBANEX CAPSULES. Adults, one or two capsules. Children, one capsule. DORBANEX LIQUID: Adults, one or two teaspoonfuls. Children, half to one teaspoonful, as required. Before or after surgery: two to four teaspoonfuls or two to four capsules. DORBANEX FORTE: one teaspoonful, or as directed by the physician. Treatment should be taken

at bedtime. Contra-indications In common with other gastro-intestinal evacuants, Dorbones should not be given when acute, painful conditions of the abdomen are present, or the cause of constipation is suspected to be obstruction of the small or large intestine. Side-affects Dihydroxyanthraquinone may cause a temporary harmless, pink or red colouring of the urine and, in prolonged use or high dosage, of the mucosa of the large intestine. Doses larger than two easpoonfuls may cause slight gastro-intestinal discomfort in a few patients. ### Success of the incorporation of silicones with nitrocellulose provides double skin protection in the treatment of bedsores, napkin rash and inflammation from body fluids

### Dimethicone 350 BPC and nitrocellulose in new SYL Cream

Most silicone creams hitherto available depend for their skin protective functions solely on the properties of silicones. In Syl Cream these are greatly enhanced by the incorporation of a film-producing plasticising agent, nitrocellulose. Series of tests to determine water-repellent properties have demonstrated the superiority of Syl Cream over other formulations.

This unique silicone and nitrocellulose content provides a protection against aqueous irritants which is not destroyed by washing.

Syl Cream also contains the modern

quaternary ammonium antiseptic benzalkonium chloride, the action of which is to suppress ammonia-producing agents, so the Syl Cream assists healing while it protects.

Indications: Syl Cream is indicated in the following conditions:-

Bedsores; inflammation from body fluids (colostomy, ileostomy, napkin rash, pruritus due to urine leakage, diarrhoea, etc.); soreness from perspiration between the legs or under the breasts; eczematous skin eruptions, and to protect the skin around varicose ulcers; occupational dermatoses, and

to protect the hands against detergents, soaps, etc.; allergic dermatoses (contact dermatitis, sensitivity to antibiotics, local anaesthetics, etc.).

Syl Cream Active Constituents: Dimethic. 350 BPC 10.0%, Benzalk. Chlor. Soln. BP 0.02 %, Nitrocellulose 1.5 %. *Presentation:* 60 g. tubes at 3/1 and

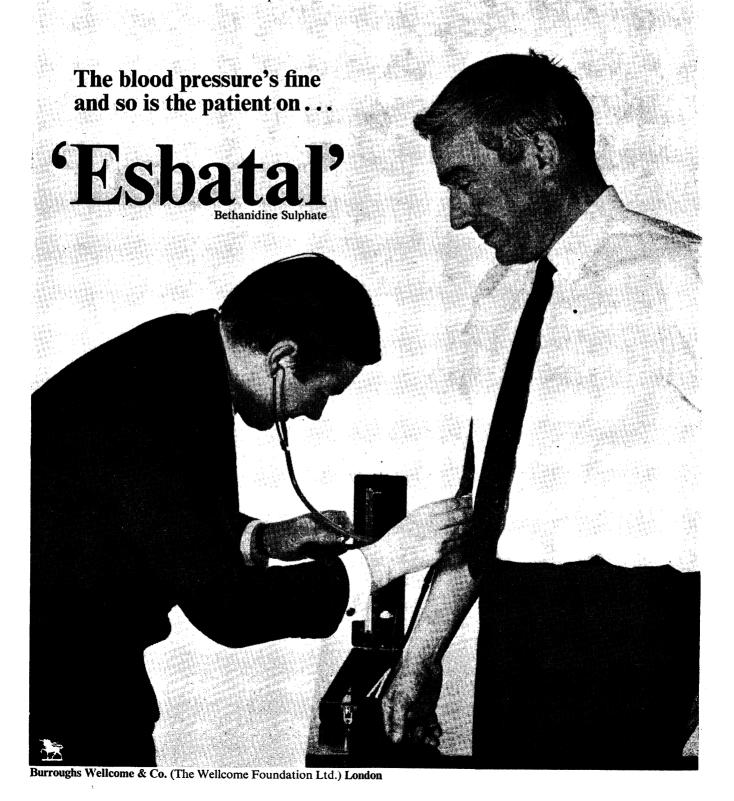

500 g. jars at 20/- at basic N.H.S. prices plus P.T.

See how recent evidence has confirmed the overall superiority of **Betnovate** 

### See how recent evidence has confirmed the "overall superiority" of **Betnovate**

In 1964 the first clinical report of the "overall superiority" of Betnovate (betamethasone 17-valerate) appeared in the *Lancet*, **1**, 1177. Since 1964 many more clinical reports from many parts of the world have been published. They confirm the "overall superiority" of Betnovate to the more recent topical steroids. The following are extracts from two of the latest: "... betamethasone 17-valerate ointment was impressively better than the fluocortolone preparation in the treatment of psoriasis, whether occluded or not, and in eczema when used without occlusion," and in the treatment of psoriasis and a number of other dermatoses"... betamethasone 17-valerate is superior to fluocinolone acetonide." Good reasons why one clinical report said Betnovate "closely approaches the criteria of the ideal topical corticosteroid."

### **Tricloryl Syrup** safe sedation for children and the elderly

Tricloryl Syrup (triclofos) has a number of advantages as a hypnotic and a daytime sedative, particularly in the young and the elderly. Tricloryl Syrup, a non-barbiturate, is palatable, well tolerated, effective and free from a tendency to cause 'hangover' and other side effects. For children its pleasant fruit flavour means it can be taken as a palatable drink from a cup or feeding bottle. For the elderly, too, a syrup is often the most acceptable method of medication but Tricloryl is also available in tablet form. Tricloryl has all the advantages of chloral hydrate without its unpleasantness.

Presentation

Tricloryl Syrup: 60 ml and 1 litre bottles Tricloryl Tablets: bottles of 100 and 500

### Unique tablet for the safer management of hypertension Neo-NaClex-K

The treatment of mild hypertension is of necessity a life-long procedure. For many patients treated with thiazides, particularly the elderly or those with hepatic cirrhosis or heart failure, the necessity for a potassium supplement is well recognised. Neo-NaClex-K contains bendrofluazide and potassium in a unique two layered combination. The white layer of the tablet contains 2.5 mg bendrofluazide which is released shortly after the tablet is swallowed - thus providing smooth and sustained control of the blood pressure. The coloured layer of the tablet contains 630 mg potassium chloride as small crystals embedded in a protective matrix. These crystals are released very slowly so that no great concentration of potassium is reached at any one point in the gastrointestinal tract - therefore minimising the danger of gastric irritation or small bowel ulceration.

Presentation Neo-NaClex-K Tablets: bottles of 25, 100 and 500 tablets

### Footloose and fungus-free— that's **Tinaderm** users

Your athlete's foot patients like the swift relief Tinaderm (tolnaftate) brings from burning, itching and discomfort - often within 48 hours - followed by rapid clearance of lesions. That's because Tinaderm penetrates the lesion to kill the fungus, rather than just suppressing the symptoms. There are two economicalto-use Tinaderm preparations - cream and powder. Tinaderm Cream can be safely applied to raw areas and does not sting, stain or have an odour. Tinaderm Powder is particularly useful where perspiration is excessive. It should be sprinkled liberally into footwear, socks and stockings which may act as reservoirs of infection. Good reasons to prescribe Tinaderm - the topical antifungal that usually works even when others fail. Presentation

Tinaderm Cream: 15 gram tubes
Tinaderm Powder: 50 gram sprinkler tins
Tinaderm preparations are manufactured and
distributed by Glaxo Laboratories Ltd for
Schering Corporation, USA

Betnovate, Tricloryl, NaClex, Ostermilk and Tinaderm are trade marks

### Hazard Ahead...

but with care, one that is readily overcome.

The 'Hazards' facing you and your family are not so easily tackled, but with the same care you can provide for your self and your dependants with the right type of insurance.

Understandably, you may not know where to start, but the Medical Insurance Agency, with its knowledge of the insurance market and of the needs of the medical and dental professions, will help you to find the policy that is exactly right for you.

#### **COMMERCIAL APPOINTMENTS**

## **CLINICAL TRIALS SUPERINTENDENT**

£3,500

Our client is the substantial British subsidiary of a large European pharmaceutical company. The company is strongly research-based and has a high reputation for the quality of its products.

The medical staff is still small and a doctor is now required to take special responsibility for field trials. He will be assisted by a trials administrator in extending the range and volume of the current work, which is already well established.

There will also be the opportunity to join in the other work of the medical department and to take a clinical assistantship. The way is open for career advancement.

The ideal candidate will be aged around thirty with a general medical background. He should have some experience of administration and the personal qualities to work in a team and with specialists and practitioners throughout the country. A genuine interest in clinical medicine is of course essential.

An initial remuneration of around £3,500 is envisaged, plus car (or arrangements in lieu) and pension scheme. Moving expenses will be paid.

The offices are in an agreeable part of the London

(ref.: PF23/2648/JMB.)

The identity of candidates will not be revealed to our client without prior permission. Applicants should forward brief details, quoting the reference number to:

P. A. Management Consultants Ltd. Personnel Services Division, 60a Knightsbridge, London, S.W.1.

(17950)

## **SANDOZ** MEDICAL ADVISER WITH EXPERIENCE IN PSYCHIATRY

Applications are invited from British male registered medical practitioners with several years postgraduate experience in psychiatry, at least to Registrar level, for this post in the Company's Medical Research Department in London. A sound knowledge of general medicine and therapeutics is essential, and a higher qualification, or previous experience in the pharmaceutical industry, would be advantageous.

The work of the Department is varied and interesting. It is concerned with the planning and administration of clinical trials in the British Isles, the submission of information to official committees and close liaison with basic research units and other divisions of the Company.

The Company operates an excellent Pension Scheme, with life assurance cover, and provides other additional benefits. A progressive salary will be negotiated.

Applications, marked 'In Confidence', should be made in writing to: The Research Manager, Sandoz Products Limited, Sandoz House, 23 Great Castle Street, London, W.1.

#### INDUSTRIAL APPOINTMENTS

## MEDICAL OFFICER

The JOHN LEWIS PARTNERSHIP, with approximately 17,000 Partners engaged mainly in the retail trade, provides a comprehensive medical service for the group, which is in a period of rapid growth. It offers an opportunity to an enthusiastic, well-qualified Doctor with a genuine interest in the Partnership's philosopy, to reinforce its well-established medical team.

This is a full time appointment based on Central London and involving some travel within the U.K.

Pay will be in accordance with the British Medical Association's recommendations.

The Partnership's unique character encourages a friendly atmosphere. All members have a voice in its affairs, enjoy first class amenities and share the profits. Career prospects are excellent.

Written applications:

Director of Personnel, JOHN LEWIS PARTNERSHIP, Oxford Street, London W.1.

Those selected for interview will be advised by May 18.

#### **INDUSTRIAL APPOINTMENTS**

(see also p, xxxi)

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, 1966, which is available on request from the Secretary.

### DUNDFE AND DISTRICT OCCUPATIONAL HEALTH SERVICE

OCCUPATIONAL HEALTH SERVICE

MEDICAL OFFICER

A Medical Officer is required for this Scottish group service, which covers 60 factories in Angus and Fife and is also responsible for the student health service of the University of Dundee.

Because of the wide range of industry served, this post is particularly suitable for a doctor wishing to extend his experience and knowledge of industrial medicine. There is a close link with the Scottish occupational health laboratory in Dundee.

Possession of the D.I.H. or D.P.H. is preferable, and a current driving licence is essential. Salary will be within the B.M.A. scale, commencing salary being related to previous experience and qualifications.

The doctor will be responsible to the Medical Director, to whom applications should be addressed at 5 Airlic Terrace, Dundee.

#### SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966. The scales are set out below:

HOUSE OFFICERS: Each post in this grade shall be tenable for six months, £1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the second year; £1,300 per annum for posts held during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £150 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

SENIOR HOUSE OFFICERS: £1.450 per annum in the first year; £1.550 per annum in the second year; £1.650 per annum in the third or subsequent years. Deductions of £1.75 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

REGISTRARS: £1,650 per annum, rising by four annual increments of £100

to £2,050.

Deductions of £175 per annum for those with remuneration at the first two points on the scale, and £200 per annum for those on the third and subsequent points will be made in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officers, and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £2,550.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £1,850 per annum rising by fourteen annual increments of £100 to £3,250.
Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

CONSULTANTS: £3,200 per annum rising by five annual increments of £185, and then by four further increments of £190 to £4.885.
Deductions of £300 per annum in respect of lodging only for voluntary residence, (No deductions for lodging will be made for compulsory residence.)

Doctors with satisfactory training will not be excluded from consideration for appointment to consultant posts on the grounds that they have spent little or no time as senior registrars.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff. Memoranda on the following subjects of particular interest have been issued by the Ministry of Health: Standard of Residential Accommodation, Telephone Charges, Removal Allowances, Study Leave.

Further details may be obtained from the Hospital Secretary, or summaries the Memoranda may be obtained from the Secretary, British Medical Association. (August, 1967)

# Ovulen 1 mg., the most widely prescribed oral contraceptive in Britain today.

**Doctor experience** Since Ovulen 1mg. was introduced in 1963 physicians have found it to be not only effective, but extremely well tolerated. More prescriptions are written for Ovulen 1mg. than any other oral contraceptive in Britain.

Clinical experience Clinical research on Ovulen 1mg. has been continuous. It was subjected to clinical trials in over 2,500 women before it was made commercially available; to date more than 16,000 women have been involved in trials totalling more than 190,000 cycles of experience.

Patient experience Millions of women in Britain and overseas are using this low-dose oral contraceptive. One reason is the trouble-free protection it affords—acceptability rates in clinical trials have been as high as 95.4 patients in every 100, over a period of more than four years.

Company experience In the fifteen years since Searle developed the first oral contraceptive the company's products in this field have been accepted by many millions of women.

Ovulen contains 1mg. ethynodiol diacetate and 0.1mg. mestranol.

Ovulen is a Trade Mark.

## General **Practitioners** required in Manitoba **Canada**

General Practitioners are required by a busy General and Industrial Medicine Group in Thompson, Manitoba, Canada. This is a highly industrialized community showing rapid growth and offering excellent educational and recreational facilities. The present group consists of five practitioners, but it is hoped that number will increase to nine by the end of 1968. Salaries range from \$15,000 to \$17,500 (Canadian funds) annually, depending on experience, with regular increases thereafter. A monthly car allowance is also provided and suitable housing can be made available immediately upon arrival. All regular expenses of medical practice are the responsibility of the Thompson Clinic, not of the individual doctors. In order to maintain a progressive group expansion, partnerships are offered after a reasonable term. Only those on the Home List of the G.M.C. are subject to reciprocal registration in the Province of Manitoba without initial formal examinations and hospital internship. Reply stating qualifications, age, marital status, background and date available to:

### Dr. J. B. Johnston, The Thompson Clinic, Thompson, Manitoba, Canada

For specific information on living and working conditions in Manitoba, contact your local Canadian Immigration Office.

### NATIONAL HEART FOUNDATION OF AUSTRALIA FELLOWSHIPS AND GRANTS FOR RESEARCH

Applications, closing June 30, 1968, are invited for financial assistance for research in cardiovascular and related fields. The work may be pursued in any of the basic medical sciences or as a clinical investigation. Awards will be made in the form of Fellowships, Grants-in-Aid, Research Studentships and Overseas Travel Grants.

**FELLOWSHIPS** 

The following types of Fellowship will be open to University graduates to engage in full-time research in approved laboratories and/or clinics: Research Fellowships: for graduates up to 35 years of age who have shown promise of ability in research; snown promise of ability in research; tenable in the first instance for one to two years; salary will be within the range \$5,300-\$7,260 per annum.

Senior Research Fellowships: for graduates with substantial experience

and proven ability in research; ten-able for three to five years; salary will be within the range \$7,470— \$9,120 per annum.

Overseas Research Fellowships: for graduates with at least two years' experience, and significant achievement, in research; normally tenable for three years of which the first two will be spent overseas and the third in Australia; salary will be in accordance with qualifications and of tenure. A travelling allowance equivalent to tourist class return air fare for the Fellow and his family

will be paid.

Overseas Clinical Fellowships: for graduates with appropriate cardiovascular experience and a higher vascular experience and a nigner qualification seeking advanced clinical training at approved overseas institutions for one or two years. Salary and allowances similar to Overseas Research Fellowships.

The Warren McDonald International Fellowship: to enable a senior overseas research worker of proven ability to travel to Australia and spend one year with an active Australian research group. Applica-tion must be in the form of nominations, by Heads of Australian departments or institutions. Stipend up to \$9,120 per annum plus travel grant.
GRANTS-IN-AID

These will be awarded only to nonprofit institutions in Australia which possess the requisite basic research facilities. Grants may be made for one or two calendar years to support a particular research programme, normally under the supervision of a full-time responsible investigator and with the approval of the Head of the relevant Department.

A grant may cover salaries for fulltime or part-time research assistants and for technical and other assistants,

equipment and supplies.

RESEARCH STUDENTSHIPS

RESEARCH STUDENTSHIPS
Provisions may be made under
Grants-in-Aid for approved projects,
for the appointment of research
students proceeding to the degree of
Doctor of Philosophy. The allowance
payable to research students will be
\$2,400 per annum with annual increments of \$200.

OVERSEAS TRAVEL GRANTS
These will be awarded to experi-

These will be awarded to experienced research workers and clinicians to enable them to gain experience of overseas developments in cardiovascular medicine and research. They cover the cost of tourist air fares only and additional stipends or

allowances will not normally be paid.
Application forms and brochures containing further information may be obtained from the Medical Director, obtained from the Medical Director, National Heart Foundation of Australia, Box 691, Post Office, Canberra City, A.C.T., or from the Registrars of Australian Universities. Applications received after the closing date cannot be considered. Applications close on June 30, 1968.

## for smoother, long-term control of hypertension

Supplied as 250 mg tablets and, for emergency use, as an injection. Detailed information is available to physicians on request.

Merck Sharp & Dohme Limited, Hoddesdon, Hertfordshire Telephone, Hoddesdon 67123

EFFECTIVE, because Nulacin achieves continuous neutralisation of hyperacidity. As peptic ulcers arise and recur only in the presence of free acid, Nulacin not only relieves symptoms but is the ideal long-term medical treatment.

SIMPLE, because Nulacin is specially designed to dissolve slowly in the mouth and produce a continuous intragastric milk-alkali drip in the ambulant patient. One tablet provides up to 30 minutes' relief from excess acid.

SAFE, because clinical experience has shown that Nulacin produces no electrolyte disturbances and can be used in all patients with peptic ulcers.

NULACIN is a unique combination of whole milk protein and fats with dextrins, maltose and suitable antacids and provides economical, long-term medical treatment for peptic ulcer.

Further information is available from Horlicks Pharmaceuticals Ltd., Winkfield, Windsor, Berks
