So often the only prescription needed

You're called out in the middle of the night. The child has violent earache. She's terrified. And she's crying. And her parent's are at their wits' end. They are all concerned with only one thing — for you to stop the pain. But you know that to cure the symptoms, you have to attack the organisms that cause the infection. And you have to do it quickly — first time if possible.

Penbritin is the answer. In treating otitis media, slow or inadequate response can lead to dangerous complications, but Penbritin minimises this risk with its extremely broad spectrum of activity and bactericidal action. There are other broad spectrum antibiotics active against the organisms that cause otitis media, but they merely inhibit bacterial growth. And often the after effects of these antibiotics can be undesirable. Penbritin *kills* bacteria and does it with the safety of a penicillin.

The pleasant taste of Penbritin Syrup also ensures that children will happily take the full prescribed course of treatment, even after the pain has stopped.

In the treatment of otitis media, Penbritin is the answer. And so often the only prescription needed.

Availability: Penbritin (ampicillin B.P.). Paediatric Tablets containing 125 mg.; Capsules, 250 and 500 mg.; Syrup, 125 mg./5 ml.; Syrup Forte, 250 mg./5 ml.; Injections, 100 mg., 250 mg., 500 mg.

Dosage: Children under 2 years: 62.5—125 mg. 2—10 years: 125—250 mg. Adults: 250 mg.

All dosages q.d.s. a.c.

In severe infections these doses may be increased or Penbritin given by injection.

What Type of Work Can a General Practice Nurse do?

THE NEW GENERAL PRACTICE,

published on 24 June, answers these and many other questions. The book contains 22 articles published in the *B.M.J.* in the last two years, many of them describing pioneering work in the field of general practice. In his Introduction to the book Lord Platt says "Those who have already reorganized and reformed their practices will read this book with interest as they will be able to compare their own ideas with those of others, sometimes learning, sometimes having the satisfaction of knowing better."

Steroids orally? Fast relief with the betamethasone in **Betnesol**

Betamethasone as 17-valerate (Betnovate) is well established as a most effective topical steroid. Now Betnesol brings the advantages of a soluble form of betamethasone to systemic steroid therapy. Although betamethasone brings swift relief of inflammatory symptoms, it has a low incidence of side effects. Even during long-term therapy as in rheumatoid arthritis, betamethasone is unlikely to cause oedema and hypertension and has negligible effect on potassium balance.

Normally, corticosteroids are not very soluble. However, Betnesol Tablets when dropped into a glass of water dissolve to form a particle-free drink which is easy to take even during an attack of asthma. The complete solubility of Betnesol ensures maximum efficiency of absorption, the most consistent therapeutic response and no solid steroid particles to irritate the stomach. Betnesol adds solubility to all the other advantages of betamethasone.

Plus Alphosyl psoriasis curiae praescribitur quam quidquid aliud medicamentum.

It's the truth. Alphosyl is the most widely prescribed product used specifically for the treatment of psoriasis. Alphosyl Lubricating Cream is the newer form of Alphosyl, clinically proven for psoriasis — especially in the intertriginous areas.

In these areas where dry, scaly lesions cause constant friction and continuous

irritation, Alphosyl Lubricating Cream not only removes scales and crusts, but enhances lubrication of the skin folds to lessen irritation. It has proved effective even in resistant cases.

Alphosyl therapy (either Lotion or Cream) can now be adjusted to fit the patient's individual needs . . . or preference.

True value of long-term antihypertensive therapy emerges from 5-year study

A unique clinical trial* from a well-known British teaching hospital evaluated the long-term effects of reducing high blood pressure in more than 200 hypertensive patients, many of whom were treated for over 5 years with only one drug—

Ismelin®

The following important findings emerged from this balanced and comprehensive report.

Dramatic improvement in prognosis

"The outstanding feature among these results is of course the 5-year mortality of only 8 per cent—although scarcely less remarkable is the fact that all of the 11 patients who presented originally with malignant hypertension are still alive."

Increased efficacy with long-term usage

"Over the whole series an average of 83 per cent were at least moderately controlled and over 60 per cent showed excellent or good control, but it is of interest that the standard of control improved very strikingly among patients treated in excess of 4 years with only 5 per cent of failures in these groups."

* Angiology, 1967, 18: 705.

Minimal interference with normal routine

"The surviving patients present on the whole a fairly happy picture, for the great majority are leading unrestricted lives, free from hypertensive headache. Very few are troubled by their treatment and none have abandoned it. . . . Side effects were not troublesome and diarrhoea was readily controlled by codeine phosphate."

Success of the incorporation of silicones with nitrocellulose provides double skin protection in the treatment of bedsores, napkin rash and inflammation from body fluids

Dimethicone 350 BPC and nitrocellulose in new SYL Cream

Most silicone creams hitherto available depend for their skin protective functions solely on the properties of silicones. In Syl Cream these are greatly enhanced by the incorporation of a film-producing plasticising agent, nitrocellulose. Series of tests to determine water-repellent properties have demonstrated the superiority of Syl Cream over other formulations.

This unique silicone and nitrocellulose content provides a protection against aqueous irritants which is not destroyed by washing.

Syl Cream also contains the modern

quaternary ammonium antiseptic benzalkonium chloride, the action of which is to suppress ammonia-producing agents, so the Syl Cream assists healing while it protects.

Indications: Syl Cream is indicated in the following conditions:—

Bedsore; inflammation from body fluids (colostomy, ileostomy, napkin rash, pruritus due to urine leakage, diarrhoea, etc.); soreness from perspiration between the legs or under the breasts; eczematous skin eruptions, and to protect the skin around varicose ulcers; occupational dermatoses, and

to protect the hands against detergents, soaps, etc.; allergic dermatoses (contact dermatitis, sensitivity to antibiotics, local anaesthetics, etc.).

Syl Cream Active Constituents: Dimethic. 350 BPC 10.0%, Benzalk.Chlor. Soln. BP 0.02%, Nitrocellulose 1.5%.

Are doctors immortal?

Some patients seem to think that doctors never die. Or become ill. Or have accidents.

But as a doctor you know that your chances of falling sick, or breaking a leg tomorrow are the same as everyone else's. And the effect on your life and family is much graver.

Your practice, for instance, must be kept going. So your income plunges overnight. And your life becomes stifled by financial worries: how to keep your family, meet school fees, pay the mortgage. To a sick man worry is a poisonous enemy.

That's why it's so wise to insure against sickness or early death. Wiser still to insure with the company run exclusively for doctors and dentists: the Medical Sickness Society.

You know that one day you may need this insurance. So write today. Together we'll find the policy which will work hardest for you.

Do it now.

Senokot restores natural rhythm to the constipated colon

Senokot, standardized senna, has earned a reputation for effectiveness and safety. Over 150 references in medical journals and text books testify to its value. Senokot is suitable for all ages and is useful in pregnancy and in geriatric cases. It is predictable in its action and, taken in the correct dosage, is free from griping. Acting specifically in the colon, it induces controlled peristaltic action and restores the normal defaecation reflex leading to re-education of the bowel.

From dispensing packs, the basic NHS cost of a teaspoonful of granules or two tablets is about a halfpenny; thus treatment with Senokot is very economical.

In addition to granules and tablets, there is now a syrup presentation — a highly acceptable form, specially suited to the needs of children and elderly patients.

Tablets: 50, 100 and 200. Granules (chocolate flavoured): 56 and 170 grammes. Syrup: 150 millilitre bottle.

Medical Adviser Pharmaceuticals

A vacancy occurs in the U.K. subsidiary of Schering AG Berlin for a **MEDICAL ADVISER**, a post for which a very special blend of qualities is required.

The successful candidate will not necessarily be from the Pharmaceutical industry, but may at present be a General Practitioner or a Hospital Registrar. He will naturally have to possess superior organising ability and must be a methodical worker. An interest in Endocrinology, Gynaecology or Radiology would be an advantage and *ability to write medical copy would be extremely useful.*

The man we are looking for to fill this post must wish to make a career in industry. He should be under 35 years of age and be willing to travel in the U.K. and occasionally to Europe. It goes without saying he should have a pleasant personality and so have the ability to liaise with all levels of the profession on terms of equality based on a sound knowledge of his brief. The man appointed will be involved in

planning and organising clinical trials and answering the more complex queries received from the medical profession. He will also be expected to assist in the preparation of technical copy for promotional literature.

Before finalisation of the appointment the selected candidate will be offered the opportunity (without obligation on either side) of spending a few days with our organisation to give him some insight into the pharmaceutical industry and an idea of his future responsibilities and prospects. Salary will be by negotiation and the successful candidate will be required to undergo a probationary period of three months. A car will be provided and the appointee will be eligible for entry to a pension scheme after a period of twelve months.

If, on mature consideration, you feel you would be successful in such a post, and have the necessary initial qualifications, write in confidence to:

Dr. A. G. PITCHFORD,
The Medical Director,
SCHERING CHEMICALS LTD., Victoria Way, Burgess Hill, Sussex.

ESTABLISHED 85 YEARS

UNIVERSITY OF EXETER
Postgraduate Medical Institute

A full-time postgraduate course lasting ten weeks will begin on October 7, 1968. These courses are held three times a year starting in October, January and April. Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training.

It is sometimes possible to accept general practitioners for one or two weeks of a course, and attendance for this period is recognized under section 48 of the N.H.S. Act (1946). These courses are also recognized under the special scheme for the re-training for general practice of doctors who have been out of the Health Service for at least five years.

The fee for this course will be £40 (£83 for students from outside the United Kingdom). Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devonshire.

ROYAL GWENT HOSPITAL
Newport (Recognized F.R.C.S.)

Applications are invited for **THREE SENIOR HOUSE OFFICERS** in the accident and emergency department vacant on August 1. The department is in the charge of a full-time Consultant Surgeon as five S.H.O.s and all emergency cases are admitted through the department, which is responsible for initial resuscitation. The department is equipped with apparatus for cardiac monitoring, positive pressure ventilation, blood gas analysis, and blood volume computation with radioactive isotopes, as well as x-ray image intensifiers and a Berman F.B. locator.

The hospital has 428 beds, is the base hospital for the group and therefore has a large volume of acute cases in all specialties. It is being extensively redeveloped by a major capital building programme. A new intensive care unit will be in operation soon. There is a close connection with the teaching hospital at Cardiff, 10 miles to the west, and there is an extensive postgraduate education programme with a very good library. A new postgraduate centre is about to be built which will enhance further the facilities at present available. The appointment gives ample opportunity to the holder to avail himself of these facilities.

The successful candidate will be expected to be resident on the nights on which he is on first call, which will average he one night in five. If non-resident every assistance will be given to find suitable accommodation. There is a certain amount of married accommodation available in the control of the Hospital Management Committee. Applications, giving full particulars, and names and addresses of two referees, to Group Secretary, 64 Cardiff Road, Newport, Mon. (H.20500)

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966. The scales are set out below:

HOUSE OFFICERS: Each post in this grade shall be tenable for six months. £1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £150 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

SENIOR HOUSE OFFICERS: £1,450 per annum in the first year; £1,550 per annum in the second year; £1,650 per annum in the third or subsequent years. Deductions of £175 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

REGISTRARS: £1,650 per annum, rising by four annual increments of £100 to £2,050.

Deductions of £175 per annum for those with remuneration at the first two points on the scale, and £200 per annum for those on the third and subsequent points will be made in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £140 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £2,550.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

ADMINISTRATIVE**THE NORTH-EAST METROPOLITAN REGIONAL HOSPITAL BOARD**
offers a
CAREER IN MEDICAL ADMINISTRATION

An Assistant Senior Medical Officer is required to assist the Board's Senior Administrative Medical Officer in the medical administration of the hospital and specialist services of the Region. The work is largely concerned with aspects of the organization and planning of the hospital services in the Region which with the expansion in the building programme are in process of redevelopment.

For direct appointment to this grade, previous administrative experience, preferably in the hospital or public health service, is desirable.

Alternatively the Board is prepared to make a trainee appointment in the Medical Officer grade for a probationary period of one year during which suitability for promotion to the Assistant Senior Medical Officer grade will be assessed.

Candidates for the Trainee appointment need not have had any previous experience in medical administration. This affords an excellent opportunity for a young doctor to test his/her aptitude in the field of medical administration where there are good career prospects.

VACANCIES FOR MEDICAL GRADUATES INTERESTED IN RESEARCH AND ADMINISTRATION

The Medical Research Council invite applications from medical graduates preferably under the age of 40 years and interested in administrative aspects of research for vacancies (full-time or part-time) in the medical divisions of their headquarters office.

The Council, whose funds are provided through a parliamentary grant-in-aid, now approximately £15 million annually, sponsor an extensive programme of research, both at home and abroad, in their own establishments and at many hospitals, universities and other institutions.

The duties of the staff of the headquarters' medical divisions include maintaining liaison with members of the Council's scientific staff and others active in medical research, taking part in committee and conference activities and assisting, as required, in work in the fields of parliamentary affairs, public relations and publications. The day-to-day work is concerned in the main with the administration of matters relating to the Council's own research establishments and to their various schemes, such as research grants, fellowships and training awards, for the support of research in universities, hospitals and other institutions.

Applicants should be interested in administration and in the opportunity of keeping in touch with the latest developments in medicine and the biological sciences. The present salary scale in the age range 28 to 40 is £2,385 to £3,559, rising subsequently to £4,020 per annum with provision for superannuation. The appointment will be to the Council's established staff, subject to satisfactory completion of a probationary period of two years.

Applicants should write (giving full details of education, qualifications and experience, with the names and addresses of two professional referees) to the Personnel Officer, Medical Research Council, 20 Park Crescent, London W.1, before July 13, 1968, quoting ref.: E2/367/B. (20823)

UNIVERSITY OF QUEENSLAND**BANCROFT ANNIVERSARY FELLOWSHIP IN PARASITOLOGY**

To commemorate the 90th anniversary of the report of the discovery of the adult form of the causal nematode of Bancroftian Filariasis, now known as *Wuchereria bancrofti* (Cobbold), by Dr. Joseph Bancroft in Brisbane, the Wellcome Trust has provided funds to enable the University of Queensland to make an appointment in the Department of Parasitology for work in the field of medical parasitology. It is proposed that the work would comprise an experimental, epidemiological or clinical study relating to human helminthiasis, with particular reference to the zoonotic helminthiasis and the significance of eosinophil leucocytes and eosinophilia in various forms of nematode infection. The Fellowship will be open to graduates in medicine with a qualification which is registrable in Queensland, preference being given to applicants who have already had some experience in the field of tropical medicine and parasitology. The successful applicant will work in the Department of Parasitology on the University site at St. Lucia, Brisbane, but facilities will be available for hospital work through the Department of Medicine and the Department of Child Health. Facilities for field work in North Queensland can be arranged through the Queensland Institute of Medical Research, and in the Territory of Papua and New Guinea through the Institute of Human Biology at Madang as part of the International Biological Programme.

The salary will be in the range \$A5,400–\$A8,750 (depending on qualifications and previous experience), and tenure would normally be for a period of three years. F.S.S.U. superannuation benefits would also be available if desired. Economy class air fare to Australia would be payable.

Applications should be forwarded to the Registrar, University of Queensland, St. Lucia, Brisbane, 4067, together with a statement of qualifications, curriculum vitae, list of publications, and the names of three referees. The closing date is September 30, 1968. (19827)

School of Medicine

CHAIR OF PATHOLOGY

Applications are invited for the above-mentioned position in the new School of Medicine.

In conjunction with his colleagues in other Departments, the Professor will be responsible for the development of a newly instituted course in Human Biology, designed primarily for medical students and leading to the Degree of Bachelor of Science after three years initial study within the Medical School. In particular the Professor will have charge of the teaching of the principles of Pathology in the third year of this course. Such teaching will be offered for the first time in 1970. He will also be responsible for developing and teaching Pathology in a clinical setting in the subsequent years of the course.

Initially the Professor will act as Chairman of the group of staff responsible for certain subjects usually included in the term "Pathology," namely Morbid Anatomy, Immunology, Chemical Pathology, Virology, Experimental Pathology. Subsequently, separate Departments may be formed to be responsible for these subjects.

Medical salaries are at present under review and prospective applicants should make inquiries about the current position from the Registrar. It is probable that the Professor's salary will be not less than \$NZ9,200 per annum. In the case of new members of staff coming from overseas the practice is to pay salaries from an approved departure date.

An allowance is made towards travelling expenses. Upon the completion of five years' satisfactory service, return fares on an approved basis to country of origin may be granted to the person appointed and his dependent family, provided that such fares are not being met from some other source.

Further particulars of the appointment, details of F.S.S.U. arrangements and information as to the method of application may be obtained from the Association of Commonwealth Universities (Branch Office), Marlborough House, Pall Mall, London S.W.1.

WANGARATTA DISTRICT BASE
HOSPITAL
Australia

REGIONAL PATHOLOGIST

The Committee of Management invites applications for this post from Pathologists registrable in Australia, preferably with a higher qualification.

The Regional Laboratory caters for the Base Hospital (183 beds) and 12 satellites in North-East Victoria. It is new, well-equipped and air conditioned. Applicants should therefore be capable of supervising routine haematology, bacteriology, chemical pathology and histopathology, even if their interest lies mainly in one branch. Wangaratta is a pleasant country town of 16,000 people, 150 miles North-East of Melbourne on the Melbourne-Sydney highway. There is a wide range of educational, social and sporting activities available.

The salary scale is \$8,594 to \$10,583 (£4,000 to £4,900 per annum approx.) and is at present under review. The entry point would depend on experience and qualifications. In addition a substantial bonus is payable annually.

The successful applicant would be sponsored for assisted passages, and financial help would be given towards cost of removal. A partly furnished house is available at a rent of \$8 per week. For further details please write to the Medical Superintendent, Wangaratta District Base Hospital, Wangaratta, Victoria, Australia. (19551)

WELCOME TO JONKOPING, SWEDEN.

Long-term locum as junior Consultant Anaesthetist required in the County Hospital (867 beds) Jonköping, Sweden. Salary 4,677 Swedish crowns a month (£373). Furnished accommodation can be provided. Appointment for three months in the first instance. Applications, with details (preferably photostatic copies), of age, qualifications and experience, should be sent to Centralläsarett, Jonköping, Sweden. The city of Jonköping has more than 65,000 inhabitants. It is beautifully situated on the southern shores of the vast lake Vattern. The city has fine hotels, comfortable restaurants, highly differentiated business life, etc. Short distances and excellent roads to Stockholm, Gothenburg, Helsingborg, Malmö and Copenhagen provide for good opportunities to reach other interesting places. The region also has good railway and flight communications. Sjukhusdirektionen. (H.8544)

WHOLE-TIME OR PART-TIME PSYCHIATRISTS required for community psychiatric centre in the Kawartha Lakes recreational area of Ontario. Work involves in-patients, out-patients and child guidance. Orientation eclectic with a preference for psychotherapy. Part-time post offers excellent opportunity to establish in private practice in a pleasant, small city near Toronto with good recreational and educational facilities. Applicants must have at least four years of approved psychiatric experience since registration. Whole-time post carries a salary of up to \$18,000 per annum with one month paid annual leave, sick leave, superannuation and other fringe benefits. Part-time post remunerated at \$50 per three-hour session up to a maximum of six sessions weekly (\$15,000 per annum) without fringe benefits. Interviews arranged in United Kingdom. Apply, with full particulars, to Director of Psychiatry, Peterborough Civic Hospital, Peterborough, Ontario, Canada. (H.8285)
