GUANIMYCIN effectively controls acute bacterial diarrhoea in 24 hours

Guanimycin is a rational combination of two ideal antibacterials: streptomycin and sulphaguanidine, plus kaolin.

Guanimycin provides effective control in 24 hours of most acute diarrhoeas of bacterial origin, including acute gastro-enteritis, Sonne dysentery and sal-

monella food poisoning. The combination of two antibacterials minimizes the risk of resistant strains. Guanimycin is available in bottles to prepare 120 ml of suspension. Each 30 ml (three 10 ml doses) contains: 0.25 g streptomycin sulphate BP, 2 g sulphaguanidine BPC, 2 g light kaolin BP.

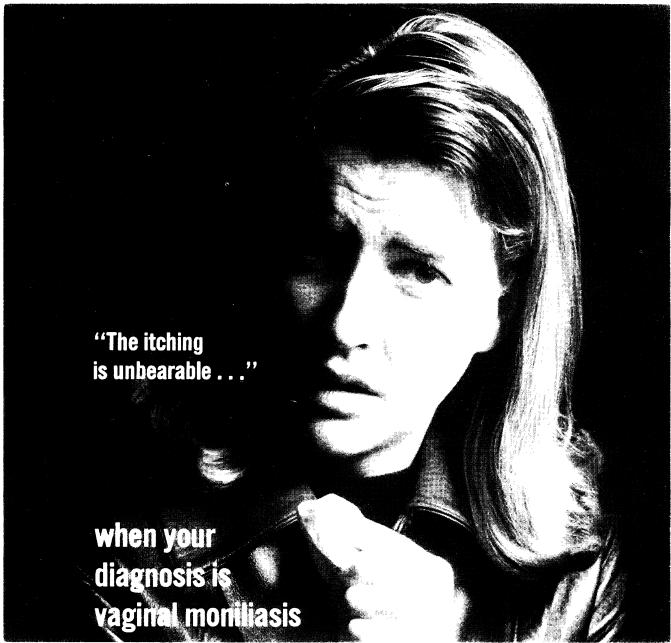

Detailed information is available on request.

Guanimycin is a Trade Mark of

Triptafen is a Trade Mark of ALLEN & HANBURYS LIMITED LONDON E2

Ferrograd C for all iron deficiency anaemias

You'll automatically ensure depleted body stores are replenished simply by continuing treatment and your patients will very rarely complain of side effects after the once-daily, before-food dosage.

As the haemoglobin level approaches normal during treatment with iron salts alone, absorption tends to decrease even though iron stores remain depleted. With high dose vitamin C, as in Ferrograd C, absorption of iron continues at a higher rate after Hb levels are normal so that the body stores are replenished.

Each Ferrograd C tablet contains the exsiccated equivalent of 525 mg ferrous sulphate BP (\equiv 105 mg Fe) in a Gradumet® and 500 mg vitamin C as sodium ascorbate.

Ferrograd C

Once-daily ferrous sulphate with high dose vitamin C for maximum absorption and replacement of iron stores

Embarrassment is short-lived with Synalar

Inflammatory dermatoses frequently respond to <u>Synalar</u> in 24-48 hours

Low concentration, optimal skin penetration, prolonged action.

Speed of action. Low concentrations of Synalar achieve optimal skin penetration, frequently with therapeutic response in 24-48 hours. This rapid action greatly reduces the incidence of scratching. The speedy restoration of the epidermal barrier lessens the risk of secondary bacterial infection.

Efficacy. Synalar has a 95% success rate in inflammatory dermatoses and in pruritic and allergic conditions of

the skin. It has often been successful in difficult skin conditions which, previously, had been unresponsive to other steroid preparations.

Range. The complete flexibility of the Synalar range makes the selection of treatment, according to the type and severity of the condition, a simple one. Synalar is available in cream, ointment, lotion and aerosol form, for the initial treatment of severe cases; for maintenance therapy and less severe dermatoses, *Synandone* is available as cream, ointment and lotion.

Imperial Chemical Industries Limited, Pharmaceuticals Division, Alderley Park, Macclesfield, Cheshire

The decision to make Lincocin your antibiotic of first choice in upper respiratory infections assures you the advantage of prompt and sustained antibacterial action against Gram-positive invaders – the pathogens most frequently involved in tonsillitis, pharyngitis, otitis media and sinusitis. Thorough penetration into soft tissue and bone means effective antibiotic action at the site of infection. Lincocin is not affected by penicillinase; it may also be given to patients allergic to penicillin. For these reasons Lincocin is more likely to produce permanent resolution of the condition.

Numerous clinical reports have shown that Lincocin controls the majority of commonly encountered upper respiratory infections: 94% success in sinusitis;⁸ 85% success in tonsillitis, pharyngitis and scarlet fever;^{3,4-9} 85% success in otitis media.^{1,2,10} Upper Respiratory Infections call for a decisive antibiotic – decide on Lincocin.

Lincocin

The logical successor to ACTH

SYNACTHEN DEPOT

tetracosactrin/zinc complex

A product of CIBA research

Synthetic polypeptide composed of the first 24 of the 39 amino-acids contained in natural ACTH

Constant potency

Dosage is by weight and no biological assay is necessary

Special long-acting formulation

permits less frequent administration than with gel-forms and variable viscosity is never a problem, at any temperature

Reduced allergenicity

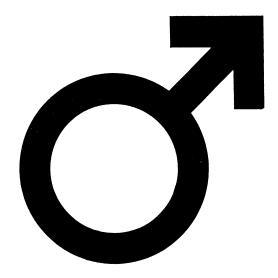

Chemical synthesis has eliminated contamination by foreign protein and removed the antigenic portion of porcine ACTH. The risk of sensitivity reactions to this preparation has thereby been virtually eliminated

CIBA

Basic NHS prices

Ampoules of 1ml containing 1mg Synacthen in a zinc phosphate complex 10 amps: 160s 0d. Also multi-dose vials 2mg/2ml 29s 0d each. Synacthen ampoules (short-acting) containing 0.25mg lyophilised Synacthen are available for diagnostic use. 6 amps: 70s 0d.

Sustanon makes a man a man again

in body and in mind

When gonadal activity is inadequate the young or middle-aged male may demonstrate diminished genital structure, and response, to the point of impotence. Understandably the repercussions reach far beyond the purely physical – often playing havoc with the patient's psyche, marriage and career.

Every physician knows how complex is diagnosis of the condition, with the patient frequently hiding the facts not only from his doctor but from himself. Even when the diagnosis is established, therapy is not straightforward and many factors must be considered. Nevertheless with Sustanon a clear, early and sustained response may occur at all levels, physical, mental, and emotional.

Sustanon is preferable to testosterone propionate as of course no single testosterone ester provides both lengthy activity and rapid onset of action. This Sustanon does. Its prolonged activity is such that only an occasional injection is needed to maintain the required therapeutic level.

Sustanon '100'

2 weeks' activity - contains 100mg testosterone per ml:

Testosterone Propionate B.P. 20mg Testosterone Phenylpropionate B.P. 40mg Testosterone Isocaproate 40mg

Sustanon '250'

4 weeks' activity—contains 250mg testosterone per ml:

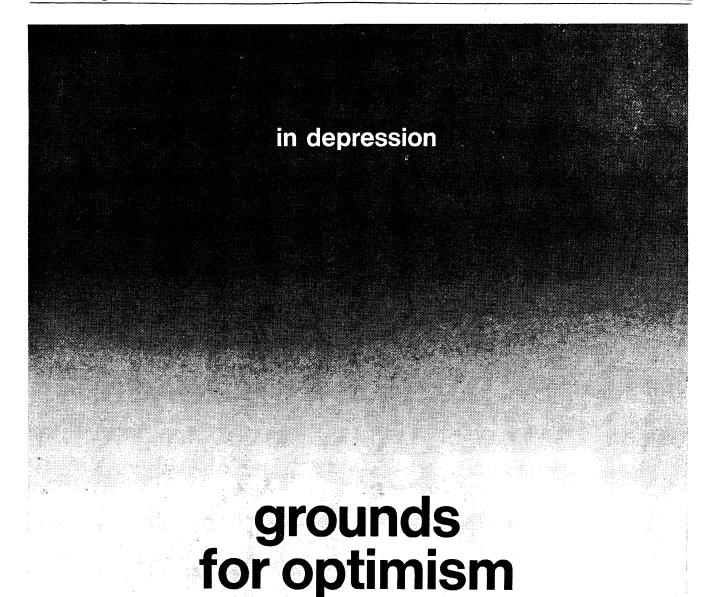

Testosterone Propionate B.P. 30mg
Testosterone Phenylpropionate B.P. 60mg
Testosterone Isocaproate 60mg
Testosterone Decanoate 100mg

Packs: Boxes of 3 ampoules of 1 ml in either strength.
Single 1 ml Orgaject disposable syringes in either strength.
Contraindication: in males, carcinoma of the prostate.

For the depressed patient, optimism about the chances of recovery begins with the first visit to the physician who shows an interest in his case. This optimism can be built upon with the aid of modern antidepressant drugs, enabling the physician to help his patient to a more speedy recovery.

In this respect, 'Concordin' often brings an initial elevation of mood within a week—the patient soon has grounds for greater optimism.

'Concordin' is available as tablets in two strengths:
'Concordin'-10 as white, film-coated tablets (marked 'C10') containing 10 mg protriptyline hydrochloride, in bottles of 100 and 500;
'Concordin'-5 as salmon-red, film-coated tablets (marked 'C5') containing 5 mg protriptyline hydrochloride, in bottles of 100 and 500.

'Concordin' offers many depressed patients these advantages:

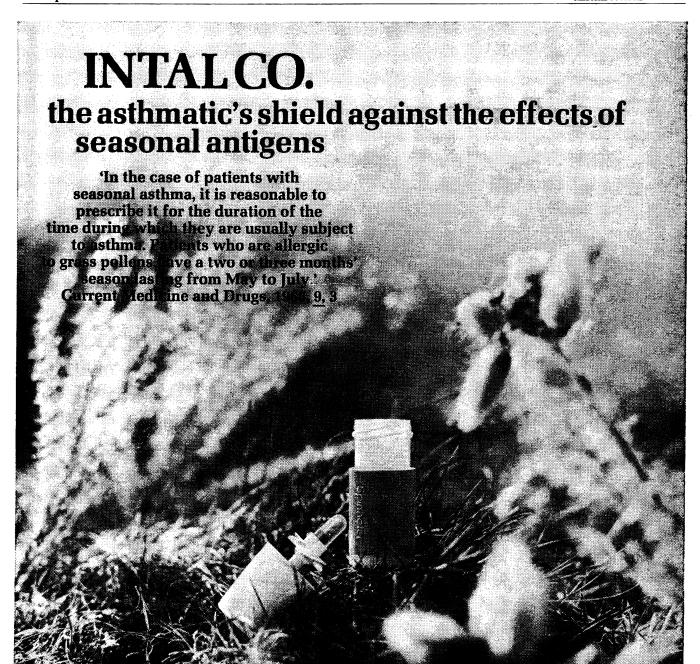

- speed of action— improvement often starts within a week
- virtual freedom from sedative activity the patient on 'Concordin' can continue with normal activities since drowsiness is rare
- no dietary restrictions —
 'Concordin' is not a MAOI and so the patient can enjoy full freedom in choice of food

A new recruit to the 'Septrin' ranks

'SEPTRIN'—

the major antibacterial discovery which represents an advance on antibiotic therapy—is now available as 'Septrin' Paediatric Suspension. 'Septrin' kills pathogens by a sequential double blockade of bacterial metabolism. 'Septrin' reduces or eliminates problems of bacterial resistance, disturbance of gut flora and other troublesome side-effects.

IN BRONCHITIS

and U.T.I. 'Septrin' produces an exceptionally rapid clinical effect, destroying a wide range of pathogenic bacteria. For children there are two preparations either the new 'Septrin' Paediatric Suspension (each 5 ml contains 40 mg of trimethoprim and 200 mg of sulphamethoxazele) available in bottles of 100 ml, or 'Septrin' Paediatric Tablets (each tablet contains 20 mg of trimethoprim and 100 mg of sulphamethoxazole).

PAEDIATRIC SUSPENSION I

THE PROVEN TREATMENT FOR PEPTIC ULCER

- * HEALS GASTRIC ULCERS
- * HEALS DUODENAL ULCERS

(Gut 1968-9. Gastroenterology 1968. 55.3)

- * CONTAINS CEDONA LIQUORICE
- * NO SALT & WATER RETENTION
- * LOW COST (N.H.S. COST 6/9 PER WEEK)

DEFINITELY HEALS GASTRIC ULCERS

CEDONA LIQUORICE (as in CAVED-(S) tablets) "gave similar rates of reduction* in ulcer size to carbenoxolone sodium but has the obvious advantage of not producing fluid retention or electrolyte imbalance".... "This is in marked contrast to the high incidence of side-effects reported with the use of crude liquorice or carbenoxolone sodium.

* CAVED-(S) 78%. Carbenoxolone Sodium 77% (GUT 1969. APRIL ISSUE)

THE STATISTICALLY EFFECTIVE TREATMENT FOR DUODENAL ULCERS

... "improvement... in a sufficient proportion of duodenal ulcers can be achieved with liquorice preparation (CAVED-(S) without glycyrrhizinic acid. Its freedom from side-effects justifies its prolonged use in refractory cases of duodenal ulcer." GASTROENTEROLOGY, VOL. 55, NO. 3, 436. 1968.

How would you like to get out of bed 3 or 4 times on a cold night-

In dealing with urinary frequency in the elderly the physician faces two problems. Such patients may often feel a need to micturate when urine volume is quite small or a fraction of the bladder's capacity: Cetiprin helps the doctor to control this need by blocking the innervation and increasing bladder capacity. The second problem is more intractable and requires the breaking of the established habit of frequent urination. In such cases the physician expects no immediate marked response and persists with treatment for at least 14 to 21 days. Cetiprin, time and the doctor's tolerance are all needed to overcome

The alert physician recognizes that frequency is more than a distressing condition per se. He sees in it a common cause of interrupted sleep and consequent impaired physique, and of lower morale - further conditions making in-roads into his already precious time. He sees - and prescribes CETIPRIN ®.

Dosage: For nightly tenesmus in the adult and geriatric patient two tablets at bedtime. In chronic cases it is advisable to start with 3-4 tablets at bedtime and reduce the dose when control is established.

Contraindications: Gastric retention; glaucoma; large residual urine retention.

CETIPRIN (emepronium bromide); Ethyl (3,3-diphenyl-1-methyl-propyl) dimethylammonium bromide. Tablets 50 mg. Manufacturer: AB Kabi, Stockholm, Sweden. Release the arthritic patient with BRUFEN

The arthritic patient is imprisoned by the pain and disability of his condition – as well as by limitations of the drugs used in its treatment. Brufen is an antirheumatic agent designed to bring the arthritic patient a new measure of freedom from these constraints. Pain and stiffness are relieved, joint size reduced, pressure tolerance increased, grip strength improved and the range of pain-free movement extended. In achieving these benefits Brufen appears to be singularly free from serious side-effects. Brufen (ibuprofen) is a non-steroidal compound which exhibits the high level of anti-inflammatory; analgesic and antipyretic activity necessary for effective treatment of rheumatoid arthritis, osteo-arthritis and allied conditions. At the same time Brufen is so well tolerated that it may be taken on waking to relieve morning stiffness. Brufen is an achievement of British research. Supplied as tablets of 200 mg. ibuprofen.

MEDICAL PRACTICE VACANCY
SKELMERSDALE NEW TOWN

A vacancy exists for the first of a number of doctors who will be required to practice from a health centre to be erected in the Digmoor area of the Skelmersdale New Town, where the population is expected to rise to nearly 13,000 by January 1, 1973.

This vacancy provides an excellent opportunity for a doctor experienced in general practice to form and organize a group practice. The area is designated, and a Type A. Initial Practice Allowance will be payable to the appointed doctor, subject to the usual conditions. He will be expected to commence, practice as soon as possible but, in any event, not later than the beginning of July, 1969, when the final phase of the health centre is due for compection. There is the offer of co-operation from the existing doctors in the New Town, and rota arrangements could be made.

Apply on Form E.C.16A (obtainable from the undersigned) not later than May 10, 1969.—The Clerk, Lancashire Executive Council, 42 West Cliff, Preston PRI 8HO.

COMMERCIAL APPOINTMENTS-see also p. xxviii

A Fruitful and Important **Medical Career**

Have you as a doctor seriously considered what an interesting and worthwhile career can be had in the scientifically and medically stimulating atmosphere of a medical team in the pharmaceutical industry?

This is an opportunity to join such a team working with pharmacologically active and medically interesting new compounds in different fields of medicine.

Our present research compounds have potential use in the treatment of hypertension, ischaemic heart disease and other vascular disorders, asthma and bronchitis, the relief of pain, as anti-convulsant therapy and many other

By being positively involved in the pre-clinical aspects and personally co-ordinating the early and subsequent clinical studies the doctor gets the opportunity of intellectual satisfaction and is deeply involved in the new and exciting subject of clinical therapeutics.

A doctor in the medical team can expect an attractive salary, together with a very generous non-contributory pension scheme and life assurance. A car is provided. If you would like to make a career in the pharmaceutical industry, please write in confidence to:

Julian H. Shelley, Medical Director, Boehringer Ingelheim Limited, Isleworth House, Great West Rd, Isleworth, Middx.

ZYMA (U.K.) LTD.

Due to the expansion of its activities in the United Kingdom, a progressive Swiss Company wishes to appoint a further

FULL-TIME MEDICAL ADVISER

Applicants should have sound clinical experience in hospital or general practice, and be in the 30-40 age group. Previous experience in the pharmaceutical industry would be an advan-

The activities will include liaison with the Medical Profession, the training of medical representatives, advice to the marketing department, and assistance to the Senior Medical Adviser.

The appointment will be based on Godalming, and will involve collaboration with the parent company in Switzerland-a knowledge of French would therefore be an advantage.

The initial salary will be negotiable. The Company operates a generous contributory pension and non-contributory life assurace scheme. A car is provided.

Applications (including if possible a recent photograph) will be treated in absolute confidence, and should be addressed to:

> The Managing Director, Zyma (U.K.) Ltd., Catteshall Lane, Godalming, Surrey.

(H.7835)

Commercial appointments—contd.

Medical Adviser

We wish to appoint an additional Medical Adviser to the Medical Department of this research-based international Company.

The work of the Department is interesting and varied and includes the planning and administration of clinical investigations into new drugs, liaison with the basic research and pharmaceutical divisions, the medical control of promotional literature, and the training of Medical Representatives. The successful applicant will be part of a medical team, but will have his own specific areas of responsibility with scope for initiative and original work.

Applications are invited from British registered medical practitioners, preferably under 35 years of age, with several years' postgraduate hospital experience. A sound knowledge of general medicine is essential, and some experience in clinical investigation would be advantageous but

The starting salary is negotiable, and will reflect qualifications and experience. General conditions of employment are excellent.

Applications, marked 'Confidential', should be addressed to:

The Medical Director, A. WANDER LIMITED, 42 Upper Grosvenor Street, London W.1.

INDUSTRIAL APPOINTMENTS—see also pp. xxvii and xxix

WORKS MEDICAL

Imperial Chemical Industries Limited, HOC Division, Wilton Works, Near Middlesbrough, Teesside, invite applications for a full-time Works Medical Officer.

The successful applicant will be responsible to the Division Medical Officer and will undertake the normal duties of an Industrial Medical Officer. He will work in a modern Medical Centre which contains the latest equipment for basic and ancillary services.

Salary will be commensurate with age and experience, but not less than that recommended by the British Medical Association for full-time Medical Officers in Industry.

Experience in any of the following would be an advantage; General Practice; Casualty Work; The Services; Industrial Medicine and/or D.P.H., D.I.H., or other postgraduate quali-

Application forms, together with further particulars, may be obtained from:

> Mr. A. F. Shepherd, Staff Manager, Imperial Chemical Industries Limited, Heavy Organic Chemicals Division, 'Organic House', P.O. Box 2. Billingham, Teesside.

THE NORTH BRISBANE HOSPITALS BOARD DEPUTY-DIRECTOR OF ANAESTHESIA

Applications are invited from registered medical practitioners for appointemnt to the position of Deputy-Director, Department of Anaesthesia, The North Brisbane Hospitals Board.

Salary classification \$A9,515 minimum to \$A9,725 maximum per annum.

Successful applicant will be required to contribute to the Public Service Superannuation Fund.

Further particulars may be obtained from the General Medical Superintendent.

Applications, giving full personal particulars, details of professional qualifications and experience, together with the names of at least three referees, should be forwarded to the Manager, The North Brisbane Hospitals Board, Base Hospitals Post Office, Brisbane, Queensland 4029, not later than May 31, 1969.

NORTH CANTERBURY HOSPITAL BOARD, CHRISTCHURCH, **NEW ZEALAND**

VISITING EAR, NOSE & THROAT SURGEON

Applications addressed to the Secretary, North Canterbury Hospital Board, Private Bag, Christchurch, NEW ZEALAND, will be received up to 9 A.M. on FRIDAY, MAY 30, 1969, for the position of VISITING EAR, NOSE AND THROAT SURGEON to the Board.

The appointee will be required to work an average of 10½ to 14 hours weekly in such of the Board's hospitals as required, with the right of private practice.

The Board serves a population of 310,000 and has three major hospitals in the City of Christchurch—Christchurch Hospital, 426 beds; The Princess Margaret Hospital, 252 beds; Burwood Hospital, 277 beds.

Salary will be at the rate of four-tenths of a nominal annual salary between \$NZ6,020 and \$NZ8,100, depending upon qualifications and experience. Applicants should preferably have been qualified for eight years, should possess a higher qualification appropriate to the specialty, and have had not less than five years' practical experience in the specialty. Appointment will be governed by the Board's By-laws and by the Hospital Employment Regulations.

Applications should contain full details of age, qualifications, positions held, etc., together with the names of three referees from whom confidential reports may be obtained by the Board. Further information available on request. ALL CORRESPONDENCE SHOULD BE AIRMAILED

ABU DHABI DEFENCE FORCE REGIMENTAL MEDICAL **OFFICERS**

Two doctors are required in June for service with the A.D.D.F. on initial one-year contract. Renewable.

This entails ten months' service and two months' leave, plus eight days' local leave.

Applicants should be British and should have completed five years' since qualification. They should have shown a main interest in Casualty/Trauma work. They should preferably have held an appointment as S.H.O. in a Casualty Department.

Pay is given in Bahrain Dinars where one BD equals 17s. 6d. Starting salary is BD 430 per month. There is a ration allowance of BD 40 per month which offsets the messing costs.

There is an interest free car loan scheme and an allowance of BD 30/m for private cars.

There is no income tax.

These posts are on a single basis.

The doctors will be attached to the regiments, and will follow them on their rotating duties in the desert and up country depots.

Successful applicants will be given a uniform allowance to cover all kit required.

Successful applicants will be required to attend a six-week course in spoken Arabic in England before joining for duty. This will be on full pay.

Interested applicants should apply in writing giving the fullest details of their professional career. Only applicants giving this information initially will be considered Reply to Box OV.1858, B.M.J.

Career opportunities in Canada

Canada's growth and development currently provides opportunities in many professions and occupations and Canada rewards ambition and hard work with one of the highest living standards in the world.

Life is good in this young, progressive country . . . especially for the family. Primary and secondary education is mostly free and through university scholarships, bursaries and interest-free loans, Canada is rapidly moving towards the day when no student will be denied an advanced education through lack of financial means. You, and your family will be protected, too, by a social welfare programme—family allowances, hospital and unemployment insurance and retirement pension.

Above all, Canada offers scope—for you and your children; space and opportunity to be what you want to be; the chance to find the right way of life in a friendly and hospitable land. And, Canada is only six hours away by plane—six days by sea.

Write today for information about working and living conditions in Canada Dept. 6BMJ26/4

Do you think Missionary Societies know how to run Hospitals? Whatever you answer, here is an opportunity to see for yourself and to render valuable Christian Service.

MOROKA METHODIST MISSION HOSPITAL, BOX 5, THABA'NCHU, ORANGE FREE STATE, S. AFRICA, 40 miles on a tarred road from Bloemfontein has:

- 1. AN INPATIENT POPULATION OF 130.
 2. AN O.P. ATTENDANCE OF 22,000 A YEAR.
 3. A LARGE RURAL AREA TO SERVE.
- 4. AN EXCELLENT NURSES' TRAINING SCHOOL.
- 5. A GHASTLY DESIGN.
 6. EXCELLENT EQUIPMENT.
- LABORATORY AND X-RAYS.
- 8. GOOD THEATRES.

o. GOOD THEATRES.

The Government and Province are generously putting up for us a 360-bed hospital, on which work has already started. We should like to be ready for this. WE NEED:

1. A PHYSICIAN PREFERABLY WITH AN INTEREST IN CHILDREN.

- 2. AN OBSTETRICIAN AND GYNAECOLOGIST.
- CONSULTANTS ARE NEEDED. A retired Consultant on a three-year tour could plan his Department on the right lines. We should be happy to hear from Senior Registrars.
- TWO JUNIOR MEDICAL OFFICERS WHO SHOULD HAVE HAD THREE YEARS' EXPERIENCE SINCE QUALIFYING. EXPERIENCE IN MODERN ANAESTHETIC TECHNIQUES WOULD BE AN ADVANTAGE.

We prefer people who can stay three years, but would consider a two-year contract. Housing and basic furniture would be provided at a modest rent. We are on a main electricity supply system. Salaries would be at the Provincial Scale, say £2,000 to £3,000 a year, depending on EXPERIENCE. Leave would be also on the Provincial Scale.

VERY IMPORTANT

WE BADLY NEED AN EXPERIENCED SECRETARY ACCOUNTANT TO RUN THE HOSPITAL OFFICE. CONDITIONS AS ABOVE. ENQUIRIES SHOULD BE ADDRESSED TO:

THE MEDICAL SUPERINTENDENT.

(H.7831)

VACANCY IN LIBYA

A vacancy exists with our Associate Company in Libya for a general duties Medical Officer with at least five years' postgraduate medical and surgical experience. Previous experience in Industrial medicine would be an advantage.

He will be based at one of the Company medical centres in Libya, where there are facilities for out-patient care and limited in-patient care of employees and their families. Laboratory and x-ray facilities are available and normally there is one other medical officer located there. A good salary will be paid.

Applications from married or single candidates will be accepted. For application form and further details, please write to:

> Chief Medical Officer, Esso Petroleum Company Limited, Victoria Street, London, S.W.1.

(17398)

MANAGEMENT SELECTION

Please state briefly, in writing, how each requirement is met. Nothing will be disclosed, unless you give permission after a confidential interview.

MEDICAL APPOINTMENTS— **CANADA**

Workmen's Compensation Board Vancouver, British Columbia

The Board is a statutory agency, wholly financed by industrial levies, which provides comprehensive compensation and rehabilitation services to people disabled through industrial accidents or diseases. Already employing about 20 physicians in rehabilitation and medical review work, the Board is recruiting in Pritoin to 611 the following constitutions and medical review work. ing in Britain to fill the following appointments:

Radiologist

not less than \$18,000

He will hold a postgraduate Diploma in Radiology and have directed the work of an x-ray unit. Preferred age around 40. (Ref. AM.21035/1)

Senior Medical Officer

not less than \$16,000

He should have a specialist postgraduate qualification (e.g., F.R.C.P., F.R.C.S.), at least ten years' experience in his specialty, and preferably be in his 40's. (Ref. AM.21035/2)

Medical Officers

not less than \$14,000

They should be in their 30's or 40's, with the experience and interest appropriate to industrial medicine and rehabilitation. (Ref. AM.21035/3)

The Board has a modern out-patient rehabilitation centre in Vancouver, with the staff and facilities to provide vocational rehabilitation through physical, occupational and remedial therapy services.

The positions are permanent, with pension and life assurance benefits; air fares and removal expenses will be paid by the Board.

Preliminary interviews will be held with an M.S.L consultant and a specialist medical adviser, and final interviews will be conducted by the Board's Chairman and Medical Director in London and other centres in early July. Please write, quoting the appropriate reference, to R. A. Owen.

Betnovate

the classic topical corticosteroid

A simple case for low-cost Betnovate-C Cream Top: eczema of thumb with recent secondary infection Bottom: after a week's treatment with Betnovate-C Cream under gauze dressing

Betnovate-C Cream

Presentation
Betnovate-C Cream.(0·1%
betamethasone as 17-valerate plus
3% clioquinol) in 15, 30 and
100 gram tubes.
Also available:— Betnovate-C
Ointment, Betnovate and
Betnovate-N Creams, Ointments and
Lotions, Betnovate-N Tulle,
Betnovate Scalp Application and
Betnovate Rectal Ointment.

Indications
All steroid-responsive dermatoses,
particularly those complicated by
mild fungal or bacterial infection.

Application
Apply a small quantity once or twice daily.

Adverse reactions
Betnovate preparations are usually
tolerated well but if signs of
hypersensitivity appear, application
should be stopped immediately. As
with all topical corticosteroids, if
Betnovate is used with occlusive
dressings on extensive areas, or for
prolonged periods, the possibility of
systemic absorption should be
considered. Absorption is more likely
in infants and children, and may
occur even in the absence of
occlusion.

Betnovate is a Glaxo trade mark Detailed literature available on request

No. 2 in a series

What is a *Nacton forte* condition

A Nacton forte condition presents all the clinical signs of peptic ulcer – although ulceration may not be demonstrable by radiological examination.

Epigastric pain, dyspepsia associated with meals.

Interrupted sleep.

Worry.

Antacids provide only transient relief.

The patient leads a life of tension – still smokes too much – doesn't eat properly.

You're probably seeing a lot of him.

Meanwhile his pain continues.

That's a Nacton forte condition

Nacton forte stops this kind of pain at source. Whether your patient really has an ulcer or just has all the unpleasant and inhibiting symptoms, it allows him to lead a normal life – enjoying a normal diet, normal sleep, and a normal working day. Nacton forte both eases symptoms and ensures a healing environment.

One small tablet taken 3 times a day and at bedtime:

- * Controls pain
- * Permits a more liberal diet
- * Eliminates routine need for antacids
- * Leaves the electrolyte balance of the body undisturbed
- * Naction forte a new presentation from Bencard provides the most convenient effective dose of poldine methylsulphate B.P. (4 mg.) in a single tablet form
- * Will not induce side-effects in most cases
- * Daily cost of treatment 9½d. (Basic NHS cost 20/- per 100 tablets).

This is just one of the *Nacton forte* conditions. Others are outlined elsewhere in this series.

Seven years' continuous therapy has shown no toxic effects on bone-marrow, liver or kidneys: nor have patients developed tolerance to the dosage used. Overdosage may induce characteristic atropine-like side-effects: close supervision is therefore recommended in the early stage of treatment with patients in whom tachycardia, difficulty in micturition or increase in ocular tension would present particular problems. Not intended for administration to children.
