The ${\rm LD}_{50}$ of Mogadon in the mouse is 1800 mg/kg; this is equivalent to the huge dosage, in the mouse, of 360 tablets per kg body weight. The lethal dose in humans is unknown but clinical experience and extrapolation of experimental evidence in animals indicates that it is vastly greater than the normal clinical dose.

when teen-agers want to know about menstruation one picture may be worth a thousand words

Never are youngsters more aware of their own anatomy than when they begin to notice the changes of adolescence. And never are they more susceptible to misinformation from friends and schoolmates.

To negate half-truths, give teen-agers the facts—using illustrations from charts like the one pictured above. They'll help answer teen-agers' questions about anatomy and physiology. These $8\frac{1}{2}$ " x 11" coloured charts of the female reproductive system were prepared by R. L. Dickinson, M.D. and are supplied free by Tampax Limited. Laminated in plastic for permanence, they are suitable for grease pencil marking. And to answer their social questions on menstruation, we also offer 2 booklets; "Let's talk about you", for very young girls, which answers questions that have actually been asked of our Educational Staff, and "Accent on You", which explains menstruation and its part in womanhood for the older girl.

Tampax tampons are a convenient—and hygienic—answer to the problem of menstrual protection.

They're convenient to carry, to insert, to wear, and to dispose of. By preventing menstrual discharge from exposure to air, Tampax tampons prevent the embarrassment due to menstrual odour. Worn internally, they cause none of the irritation and chafing associated with perineal pads.

Tampax tampons are available in Regular and Super absorbencies, with explicit directions for insertion enclosed in each package.

Simply write to the address below for your free set of charts and sample booklets. These booklets may then be reordered in any quantity you need for your patients' personal use.

SANITARY PROTECTION WORN INTERNALLY

MADE ONLY BY TAMPAX LIMITED, HAVANT, HAMPSHIRE

New oestrogen-free normenon

the third dimension in conception control

Which patients are best suited to **Normenon?**

- (i) patients who have experienced unduly troublesome side-effects with currently available oral contraceptives.^{1, 2}
 - e.g. nausea weight gain headache, migraine depression
- (ii) patients who have exhibited disorders in the past suggesting that the administration of oestrogen is undesirable.^{3, 4}
 - e.g. liver disorder varicose veins
- (iii) patients with 'anxieties' associated with
 - (a) the oestrogen component^{3, 5, 6}
 - or (b) pituitary-ovarian suppression.3.7
- (iv) young married women of unproven fertility.8
- (v) the postpartum patient who wishes to breast-feed her baby.9

The contraceptive protection provided by Normenon is **less** than that of the combined oral contraceptive¹⁰ (e.g. Norinyl-1) and better than that of the I.U.D. (intra-uterine device).¹¹

- * For patients where maximum contraceptive protection is the uppermost consideration, a *combination* oral contraceptive (e.g. Norinyl-1) should be selected.
- * Patients with pre-existing menorrhagia may experience increased menstrual irregularity with Normenon and would be better suited to a "progestogenic" combination oral contraceptive (e.g. Norinyl-2)

A letter from the Committee on Safety of Drugs (Brit. med. J. 1968 4:120; Lancet 1968 2:828) requested doctors to report on the Committee's "yellow cards' any pregnancies occurring in women taking oral contraceptives. Please observe this procedure with any pregnancies occurring in patients taking Normenon.

Normenon

continuous-progestin conception regulator—a pill-a-day, every day.

each tablet contains 0.5 mg Chlormadinone Acetate, a progestational agent devoid of oestrogenic or androgenic effects. 12, 13 available in special calendar dispenser-wallets of 42 tablets (SIX weeks' supply)

Norinyl-1

ultra-low dose "balanced" conception regulator.14

each tablet contains 1 mg Norethisterone B.P. and 0.05 mg Mestranol B.P. available in easy-to-follow wallets of 21 tablets (one month's supply)

Norinyl-2

low-dose "progestogenic" conception regulator.14

each tablet contains 2 mg Norethisterone B.P. and 0.1 mg Mestranol B.P available in easy-to-follow wallets of 21 tablets (one month's supply)

How do General Practitioners spend their time?

Do Appointment Systems Work-and How do Patients use them?

What Type of Work Can a General Practice Nurse do?

THE NEW GENERAL PRACTICE,

answers these and many other questions. The book contains 22 articles published in the B.M.T. in the last two years, many of them describing pioneering work in the field of general practice. In his Introduction to the book Lord Platt says "Those who have already reorganized and reformed their practices will read this book with interest as they will be able to compare their own ideas with those of others, sometimes learning, sometimes having the satisfaction of knowing better."

International Hospital **Equipment Medical Engineering and** Services Exhibition **Earls Court**

This year for the first time in Britain the European Federation Congress of the International College of Surgeons was to have been held at Olympia concurrently with the 7th International Hospital Equipment Medical Engineering and Services Exhibition

Owing to industrial action taken by the staff of Olympia Exhibitions Limited. the organizers have found it necessary to make alternative arrangements and both they and the International College of Surgeons have now transferred the proceedings to the Earls Court Exhibition Building.

Business Meetings of the executive of the International College of Surgeons will commence at 09.15 hours and 14.00 hours on both Tuesday 3 and Wednesday 4 of June with scientific meetings following on Thursday 5. These will continue at Earls Court on Friday morning with proceedings also being held at the Royal Northern Hospital. Further meetings will also be held at the Royal Northern Hospital on the morning of Saturday 7.

It is estimated that at least 400 members of the International College of Surgeons will attend the Congress, at which a number of eminent overseas surgeons will deliver papers at the scientific meetings. Registrations for enrolments have been received from delegates from over nineteen countries. As usual there will be a series of lectures and films

This biennial Exhibition has gained considerably in importance on each occasion since it was first inaugurated, and there is every indication that this year will be no exception even considering present circumstances. The Exhibition is a very popular event with industry for the launching of new products ranging from flooring, Laundry, machinery, beds and air-conditioning to data processing computers and all the latest x-ray apparatus and diagnostic equipment

The advertisers whose equipment would have been displayed at Olympia take this opportunity to inform all those who wished to visit their Stands of these new arrangements. They nevertheless wish to assure doctors and hospital administrators attending the Congress that 15,000 feet of Exhibition space has been made available at Earls Court. If they are unable to exhibit there, they extend a welcome at their respective showrooms.

John Elworthy much prefers his second wife

So does the re-vitalized Mrs. Elworthy herself, her family and her friends.

Taking a new look at the menopause, doctors are questioning the desirability—and even the logic—of suppressing with sedatives and tranquillizers an essentially metabolic condition.

Mixogen gives complete mastery of the whole menopausal condition.

They have it on authority that today '... when the average woman can expect to reach her threescore years and ten, it would seem unrealistic to deny hormone treatment, which not only alleviates all the troublesome and antisocial symptoms of the menopausal and postmenopausal phases but is also a prophylactic measure against osteoporosis, senile vaginitis, hypertension, and coronary heart disease, to mention but a few hazards of oestrogen depletion.'1

Plain oestrogen therapy, which may give endometrial bleeding and nausea, is surpassed by Mixogen.

'Perhaps the best way of avoiding oestrogenic bleeding is to use one of the oestrogentestosterone combinations, of which the original—*Mixogen*—is the best.'2

- 1. Brit. med. J (1965), i, 1249.
- 2. Brit. med. J. (1965), i, 1496.

Contraindication: oestrogen-dependent tumours. Side-effects: none in recommended dosage.

Formula: Ethinyloestradiol B.P. 0.0044 mg and Methyltestosterone B.P. 3.6 mg per tablet.

Packs: Bottles of 25, 100 and 250.

Literature, samples and further information on request.

The logical successor to ACTH

SYNACTHEN DEPOT

tetracosactrin/zinc complex

A product of CIBA research

Synthetic polypeptide composed of the first 24 of the 39 amino-acids contained in natural ACTH

Constant potency

Dosage is by weight and no biological assay is necessary

Special long-acting formulation

permits less frequent administration than with gel-forms and variable viscosity is never a problem, at any temperature

Reduced allergenicity

Chemical synthesis has eliminated contamination by foreign protein and removed the antigenic portion of porcine ACTH. The risk of sensitivity reactions to this preparation has thereby been virtually eliminated

CIBA

Seborrhoeic dermatitis of the scalp completely controlled in 81·1%_of cases*

Seborrhoeic dermatitis of the scalp often proves difficult to control. Conventional shampoos frequently fail to improve the condition. It may have important clinical associations such as acne, otitis externa, blepharitis and seborrhoeic dermatitis of the face and body. For many people seborrhoeic dermatitis of the scalp and dandruff are demoralising and a source of embarrassment. The effective way of controlling your patients' seborrhoeic dermatitis and dandruff, is by prescribing SELSUN. When success in clearing the condition boosts your patients' ego, so much the better.

YOU KNOW IT WORKS-AND IT'S PRESCRIBABLE ON E.C.10.

xii

ZYLORIC'PUts 90ut into reverse w are excreted in much more soluble forms. Consequently the amount of uric acid passing through the kidney is not increased as with the uricosuric agents. Thus 'Zyloric' lowers serum uric acid, and at the same time prevents kidney damage—a major cause of death in 25 per cent of patients with chronic gout.

By markedly reducing the production of serum uric acid 'Zyloric' permits the gradual resorption of urates from tissues. Slowly and steadily the deposition of urates is reversed, joints become more mobile and tophi regress.

introducing

nedihaler

With Medihaler-duo, Riker makes a further notable contribution to bronchodilator therapy. Medihaler-duo enables the physician to make a more positive approach to reversal of airway obstruction in bronchial asthma and chronic bronchitis.

Medihaler-duo takes advantage of the finding that the bronchodilator effect of isoprenaline can be significantly enhanced by the action of phenylephrine. As a result, it is possible to obtain a greater response to treatment than would be experienced from comparable doses of isoprenaline administered alone. Moreover, this enhanced bronchodilator effect is achieved without significant change in pulse rate or blood pressure at recommended dosage. These results have been confirmed in clinical trials 1,2,3,4,5,6,7. With Medihalerduo, relief is immediate in onset and often prolonged for three or more hours. Effect on the cardiovascular system has been found to be insignificant even in patients with uncomplicated hypertension.

in bronchial asthma and chronic bronchitis.

Composition Medihaler-duo contains a suspension of isoprenaline hydrochloride 8 mg./ml., phenylephrine bitartrate 12 mg./ml. and delivers to the patient a measured dose containing 0.16 mg. isoprenaline hydrochloride and 0.24 mg. phenylephrine bitartrate.

Contra-indications There are no absolute contra-indications, but Medihaler-duo should be used with caution in the presence of cardiac disease, hypertension or hyperthyroidism.

Side-effects Overdosage may cause dry mouth, palpitations, or nervousness.

Dosage Each puff from Medihaler-duo delivers a measured dose. One to three puffs should be sufficient to provide relief in most cases. It should not be necessary for the patient to take further treatment for at least thirty minutes, or more than eight treatments a day.

Children Medihaler-duo should be administered to children only under the supervision of a responsible adult. Basic NHS price Standard pack (complete 400-dose unit) 17/- plus Purchase Tax.

The invisible wedge that helps correct flat feet...

Do you recommend an external wedge? Those outside wedges soon wear away, and very often the child is made to feel self-conscious because his shoes look different from other children's. They also disturb the plane of forepart and heel. Surely it's more logical to have a wedge built in between the inner and outer sole where it remains invisible and completely unaffected by wear or repair of the shoe. That is how Startrite INNERAZE shoes are made—on remedial lasts specially adapted to accommodate the internal wedge. That is why they are the only practical and thoroughly effective solution to this problem. Information from Mr. C. James, Fitting Consultant, Start-rite Shoes Ltd., Crome Road, Norwich, NOR 60A.

LOCUM ASSISTANT
PHYSICIAN

This is a whole-time, residential appointment from July, 1969, until at least October 1, 1969. The Centre has 500 beds and admits adult patients whose major disability is epilepsy. Most patients are employed within the Colony. The primary responsibility of the successful applicant would be for the general medical care, including minor casualties, of 500 patients, working under the direction of the Senior Physician. Depending on the interests of the applicant, there would be opportunities for private study or for investigating the problems of epilepsy, or community care of disabled patients.

The salary scale, depending on the experience and qualifications of the applicant, would be up to £3,172 per annum. A furnished bungalow would be available at a moderate rent.

Further particulars may be obtained from the House Governor and Secretary—telephone number Chalfont St. Giles 3991. In view of the unusual nature of the post prospective applicants might be well advised to communicate with the Senior Physician and arrange to discuss the appointment with him. (18019)

MINISTRY OF OVERSEAS EVELOPMENT

The Need

GENERAL DUTY MEDICAL OFFICERS

For duty both in large new hospitals and in the outlying districts of the Developing Countries overseas, for contract appointments of 2 to 3

The Opportunity Overseas service offers a unique chance for world travel, an opportunity to widen professional experience, and to acquire a broader understanding of the world and its people.

The Advantages Doctors' skill and knowledge will be used to the full on people who have a crying need for their service. Salaries reflect the local cost of living at

their service. Salaries reflect the local cost of living and are normally higher than one would expect to receive in the United Kingdom. There are generous gratuities on satisfactory completion of contract, education allowances for children, free family passages. Accommodation provided usually at a low rent. In most cases superannuation rights can be preserved or maintained.

Salaries Vary widely from country to country with the local cost of living. However, with certain exceptions they range from approximately £1,650 to £2,900 per annum.

Training Scheme for Recently Qualified Doctors

In return for an undertaking to serve for at least two years in the developing countries overseas the Ministry offers a course of training to recently qualified doctors. offers a course of training to recently qualified doctors which is designed to fit them for service overseas and which will be attractive professionally and financially. During the period of training of 12 to 15 months the doctor will receive a retaining fee of £200 per annum in addition to his hospital salary. Write now for full

The Oil Industry Medical Society

Tripoli, Libya

I. Surgeon 2. Physician/ **Paediatrician**

The Oil Industry Medical Society requires the services in Tripoli of a Surgeon and a Physician and Paediatrician due to expansion of existing services and commitments.

The successful candidates will work in the Society's small well-equipped, modern hospital in Tripoli which provides out-patient and in-patient care for the employees of a number of companies engaged in the oil industry and their dependants. They will be responsible for the care of patients within their specialities and will be required to share the general and routine work (including pre-employment and periodic medical examinations of employees and their dependants) and duty call with the four other doctors on the staff.

Salary, inclusive of allowances, will be payable in Libyan pounds within a scale equivalent to £6,500-£8,000 sterling per annum and initial salary will be determined in accordance with experience and qualifications. Libyan income-tax is currently 8% of gross earnings. A generous allowance of household and personal effects may be shipped to Libya at Society expense and paid home leave is provided annually with free return air passage for employees and families.

Qualifications for post 1:

F.R.C.S. and experience at a responsible level in general surgery, orthopaedics, urology and traumatology. Ability to do some E.N.T. work would be an advantage.

Qualifications for post 2:

M.R.C.P. and preferably D.C.H with experience at a responsible level in general medicine and paediatrics.

Interviews will be held in London in June and successful candidates will be offered initial contracts of 2 years renewable by mutual agreement.

Please write giving full details of qualifications, experience, age, and present salary to B. R. Allen, Mobil Oil Company Limited, 54/60 Victoria Street, London S.W.1.

(29545)

No. 3 in a series

What is a *Nacton forte* condition

A Nacton forte condition can start after a peptic ulcer has apparently healed. The patient had an ulcer some time ago. Now he's back with all the old symptoms. Epigastric pain. Dyspepsia associated with food. He thinks it's his ulcer again. And he's beginning to think that the pain is a life sentence.

That's a *Nacton forte* condition

Nacton forte stops peptic ulcer pain at source. It allows your patient to lead a normal life-enjoying a normal diet, normal sleep, and a normal working day. If ulceration has recurred, Nacton forte will both ease the symptoms and create the healing environment most likely to ensure continued remission.

One small tablet taken 3 times a day and at bedtime:

- * Controls pain
- * Permits a more liberal diet
- * Eliminates routine need for antacids
- * Leaves the electrolyte balance of the body undisturbed
- * Nacton forte a new presentation from Bencard provides the most convenient effective dose of poldine methylsulphate B.P. (4 mg.) in a single tablet form
- * Will not induce side-effects in most cases
- * Daily cost of treatment 9½d. (Basic NHS cost 20/- per 100 tablets).

This is just one of the Nacton forte conditions. Others are outlined elsewhere in this series.

Seven years' continuous therapy has shown no toxic effects on bone-marrow, liver or kidneys: nor have patients developed tolerance to the dosage used. Overdosage may induce characteristic atropine-like side-effects: close supervision is therefore recommended in the early stage of treatment with patients in whom tachycardia, difficulty in micturition or increase in ocular tension would present particular problems. Not intended for administration to children

Further information available from

Just anxiety... or depression as well?

'Anxiety is frequently intermingled with depression . . *Clin.Trials J.,* 1965,2,317 (Nov)

When symptoms of anxiety and depression co-exist, the anxiety is usually easy to recognise, but the depressive state is often less obvious.

In anxiety-depressive conditions, 'Tryptizol', a well-established antidepressant with an intrinsic tranquillising action, has proved of considerable value. In many cases, the patient becomes calmer, mood is lifted, and sleep and appetite improve.

TRYPTIZOL

Amitriptyline hydrochloride BP

the antidepressant with intrinsic tranquillising properties

Supplied as 25 mg and 10 mg tablets; also as a syrup and an injection.

INTERNATIONAL APPOINTMENTS DIVISION CHARTER CONSOLIDATED LIMITED

7, ROLLS BUILDINGS, LONDON E.C.4.

MEDICAL OFFICERS

Vacancies, each on an initial contract basis of three years, exist on the copper and base metal mines of the Anglo American Corporation Group in Zambia. A minimum salary of K6400 is offered (£3,733). The vacancies are with The Rhokana Corporation Limited at Kitwe, Nchanga Consolidated Copper Mines Limited at Chingola, Bancroft Mines Limited at Chililabombwe and the Zambia Broken Hill Development Company Limited at Kabwe.

Each Medical Officer is responsible to the Company's Chief Medical Officer and duties are of a general practice nature including hospital care of patients, obstetrics, anaesthetics and surgery. Salaries shown for these appointments are the minima and due regard will be given to qualifications and experience.

Benefits include a car allowance with an initial interest free loan for the purchase of a car, a 5% Christmas bonus, a terminal gratuity and generous educational allowances for children at secondary schools outside Zambia. Attractive Company housing is provided at a nominal rental and Anglo American will arrange passages to and from Zambia for successful applicants.

The work is varied and interesting. There is the opportunity for an active community life and outstanding sporting and recreational facilities.

Hospitals of the Group provide a comprehensive health service for employees and their dependents (both expatriate and local members of the community). The Anglo American Corporation Group in Zambia employ over thirty medical officers working in diversified units of group practice including preventive and curative medicine. Company hospitals are modern and well equipped.

Rhokana Corporation Limited at Kitwe has a 70 bed contributory fee paying hospital and a 325 bed free hospital. There is a general diagnostic radiological service and pathological laboratory. There are 15 doctors, including a Chief Medical Officer, Specialist Surgeon, Physician, Anaesthetist and Pathologist.

Bancroft Mines Limited at Chililabombwe is a 200 bed hospital. There is an operating theatre, dispensary, X-Ray and physiotheraphy departments. There are six medical officers including a Chief Medical Officer. A Consulting Physician, Surgeon and Orthopaedic Surgeon visit the hospital at regular intervals.

Nchanga Consolidated Copper Mines Limited at Chingola has a 36 bed contributory fee paying hospital and a 262 bed free hospital. Each hospital has an operating theatre, dispensary, X-Ray, physiotheraphy and pathological laboratory facilities. The staff consists of one Chief Medical Officer, one Resident Surgeon, one Resident Physician and seven Medical Officers. Regular visits are made by a visiting Physician, Radiologist and Anaesthetist.

Zambia Broken Hill Development Co. Ltd. at Kabwe operate 3 clinics for employees and their dependants and has facilities at the Government Hospital for the hospitalisation of Mine patients under the care of the Mine's Medical Officers who number three including the Chief Medical Officer.

The Group also offers from time to time locum appointments for minimum periods of 2 months. Terms and conditions differ from the more permanent positions but they are no less attractive. Write giving full details and names of two medical referees to address above (Ref; A8181/FF).

E.C.F.M.G. NOT REQUIRED. POSITIONS OPEN FOR PSYCHIATRISTS preferably with D.P.M. or equivalent in this busy 1,300-bed State psychiatric hospital located in scenic Western Montana, U.S.A. Unit programme in operation, offers unlimited opportunities for those interested in developing therapy programmes. Salaries from \$16,680 through \$24,204 per annum depending on position. Furnished family housing, Social Security, and State Retirement systems, liberal vacation, sick leave and holiday policy.

Send complete résumé to Stanley J. Rogers, M.D., Director, Montana Division of Mental Hygiene, Warm Springs, Montana, U.S.A., 59756.

Now there's a complete range of Betnovate haemorrhoidal preparations for the treatment of external and internal haemorrhoids, anal fissure, peri-anal eczema and mild proctitis.

New Betnovate Compound Suppositories and Betnovate Rectal Ointment both contain betamethasone 17-valerate—the most successful topical corticosteroid. Not only does Betnovate achieve a faster and more complete clearance in relatively responsive conditions, but also it often succeeds when other topical steroids fail. 1, 2, 3

With ORLEST

the new combined 28-day oral contraceptive

she won't have to remember

Until now a woman taking a combined oral contraceptive has had to play something of a memory game. Three weeks on the pill, then stop. One week off, then start.

Now Orlest* 28 1 mg. is presented as a simple 'no interruption' course—and not a sequential treatment. The 28-day course consists of 21 yellow tablets containing both norethisterone acetate 1 mg. (a low progestogen formula) and ethinyloestradiol 0.05 mg. (an established oestrogen) and 7 white tablets containing a placebo which are taken during the normal menstruation period. Extensive tests have shown that Orlest has an appreciably low incidence of side effects.

With Orlest there are no more starting day problems. Virtually eliminates

With Orlest there are no more starting day problems. Virtually eliminates patient error. No more forgetting.
