

IMPORTANT NOTICE TO THE PROFESSION.

DR. RIDGE'S FOOD is rich in solids and earthy salts. The phosphates of potash and magnesia exist naturally, and are not introduced by any chemical process. As nature has produced them, so are they conserved and kept free. The nitrogenous substances are varied, consisting chiefly of soluble albumen and gluten. In the preparation of this Food, the outer covering of the grain used is carefully removed, for it is well known that the smut (which is a species of puccinia) lives upon the surface of wheat, and is apt to cause diarrhoea in children. The Food is so thoroughly desiccated that neither the *Acarus Farina* nor the *Vibrios* can live in it. This renders this article of diet superior to all others, for it not only builds up healthy tissue, but prevents the introduction of any vegetable or animal parasite, which is often the cause of the incessant diarrhoea of children. Medical men, by sending their card to the Manufactory at Bermondsey, can receive a tin of food for trial, free of charge.

Sold in Packets and Canisters by respectable Chemists and Grocers.

THE VICHY WATERS COMPANY, 27, Margaret Street, Cavendish Square,
AND 61, QUADRANT, REGENT STREET, LONDON, W.

PEPSINA PORCI.

Messrs. BULLOCK & REYNOLDS

Beg to direct the attention of the Profession to the experiments upon Medicinal Pepsin by Professor Tuson, recorded in the *Lancet*, August 13th, 1870, which incontestably prove the very great superiority of their preparation in point of digestive power over every other Pepsin, British or Foreign. Dose—two to four grains.

Messrs. BULLOCK and REYNOLDS will be happy to forward, post free, a Reprint of Professor Tuson's Paper on application.

3, HANOVER STREET, HANOVER SQUARE, W.

SILVER MEDAL AWARDED 1867.—JUROR 1869.

MORSON'S PREPARATIONS OF PEPSINE. MEDICINAL PEPSINE

(Poudre Nutritive, or "Pepsine Acide Amylactée" of the French Codex).
Contains the active digestive principle of the gastric juice, purified and rendered permanent and palatable. Dose—15 to 20 grains.

PEPSINA PORCI,

A concentrated and NEUTRAL preparation of Pepsine, free from any disagreeable taste or smell. Dose 5 to 10 grains.
