Sustanon makes a man a man again

in body and in mind

When gonadal activity is inadequate the young or middle-aged male may demonstrate diminished genital structure, and response, to the point of impotence. Understandably the repercussions reach far beyond the purely physical — often playing havoc with the patient's psyche, marriage and career.

Every physician knows how complex is diagnosis of the condition, with the patient frequently hiding the facts not only from his doctor but *from himself*. Even when the diagnosis is established, therapy is not straightforward and many factors must be considered. Nevertheless with Sustanon a clear, early and sustained response may occur at all levels, physical, mental, and emotional.

Sustanon is preferable to testosterone propionate as of course no single testosterone ester provides both lengthy activity and rapid onset of action. This Sustanon does. Its prolonged activity is such that only an occasional injection is needed to maintain the required therapeutic level.

Sustanon '100'

2 weeks' activity - contains 100mg testosterone per ml:

Testosterone Propionate B.P. 20mg
Testosterone Phenylpropionate B.P. 40mg
Testosterone Isocaproate 40mg

Sustanon '250'

4 weeks' activity - contains 250mg testosterone per ml:

Testosterone Propionate B.P. 30mg
Testosterone Phenylpropionate B.P. 60mg
Testosterone Isocaproate 60mg
Testosterone Decanoate 100mg

Packs: Boxes of 3 ampoules of 1 ml in either strength.
Single 1 ml Orgaject disposable syringes in either strength.
Contraindication: in males, carcinoma of the prostate.

Further information available on request.

Keeping Pace with Progress

Export-Import DDR 102 Berlin Schicklerstr. 5/7 German Democratic Republic

A programme of complex problem solutions for public health and education

Information:
K.F.A. Limited
Official
Representative in
the United Kingdom
of the Chamber of
Foreign Trade of
the GDR Birkett
House 27, Albemarle
Street London Wi
England

intermed Export-Import the new nationally owned foreign-trade enterprise of the GDR for the supply of equipment for health services and educational institutions.

intermed gives evidence of the new profile of GDR foreign-trade relations planned for many years ahead. In its capacity as partner for the supply of complete equipment, solution of problems and systems for public health and education the foreign-trade enterprise intermed will play an essential part in providing the answer to all structural problems in these fields of economy of our partner countries.

Thanks to its concentrated offer intermed is in a position to provide essential commercial advantages on international markets thus meeting the requirements of the technical scientific revolution and the international development in public health and education.

That means:

We are keeping pace with progress.

Fats in a healthy diet

Diet is believed to be one of a number of important factors contributing to coronary disease. Fats, particularly animal fats, are one of the critical diet factors in this respect.

A doctor may therefore wish to recommend changes to help correct the balance of the diet. It is thought that not more than 40% of calorie intake should be in the form of fats, and that the highest possible proportion of these fats should be polyunsaturated.

The earlier in life such a diet is begun, the more beneficial

it is thought to be.

The pure, selected vegetable oils in Flora margarine give it a very high content of polyunsaturates which fit it admirably to a regime of this character. And the very acceptable palatability of New, soft Flora makes it a part of the diet that is easy to keep to.

*NEW, SOFTER FLORA

*New Flora vegetable oil margarine contains 50% of polyunsaturates (natural cis-cis linoleic), ratio of polyunsaturates to saturates 2:1.

Trends in Clinical Pathology

Essays in Honour of Gordon Signy

It is no pious collection of personal tributes but a survey of the old and the new disciplines in clinical pathology since the second world war—research in atherosclerosis and ischaemic heart disease, progress in medical virology, microbiology and cytology, the impact of antibiotics on medical bacteriology, chemical pathology and also molecular defence, haematology in mid-century, including haemostasis and blood transfusion. The place of fibrin in the story of hyalin is another modern study, so also is that on automation. The outlook on some members of the family Enterobacteriaceae is changing, and the 'old' forensic medicine is indeed new. And those pathologists working in the under-developed countries are not forgotten. The contributors are internationally renowned.

very dear reasons' for using Septrin in urinary tract infections

Abstracted from a Leading Article, Brit med J, (1969) 1, 525.†

- Trimethoprim not only attains therapeutic tissue levels, but is excreted unchanged in high concentration in the urine.
- All Gram-negative bacilli occurring in the urine, except Pseudomonas aeruginosa, are usually highly sensitive to it.
- Its minimum inhibitory concentration is extremely low.
- Trimethoprim and a sulphonamide, by blocking successive stages in the same bacterial metabolic process, exert a strong synergic effect, and this action is bactericidal.

These clinical trial results were obtained in treating hospital inpatients with U.T.I.

85% cure rate SEPTRIN

70% cure rate ampicillin

40% cure rate sulphadimidine

(Cure criterion-eradication of the original organism 1 week

after treatment). Brit med J. (1969) 1, 541.

SEPTRIN Tablets, SEPTRIN Paediatric Suspension and SEPTRIN Paediatric Tablets contain trimethoprim and sulphamethoxazole. Full information is available on request. Wellcome & Co., Dartford, Kent. (The Wellcome Foundation Ltd.)

Septrin-an advance on the antibiotics

In nocturnal frequency Cetiprin is significantly successful-statistically, and socially

"Nocturnal frequency of micturition is present in 64% of the total elderly population (70% of males and 61% of females of 65 years and over)".1

The results of a double-blind crossover trial of CETIPRIN (emepronium bromide) suggest

that "the drug may alter the established habit of rising at night to pass urine". CETIPRIN increases bladder capacity and delays the first desire to void urine, but as frequency of urination may have become established as a habit as well as a

physiological weakness, it is wise to persist with treatment for at least 14 to 21 days. Improvement in the patient's condition is manifest by the enjoyment of uninterrupted sleep and a new feeling of physical and mental well-being.

DOSAGE

Adults and Geriatric patients:

- 1. Nightly tenesmus: 100 mg at bedtime. In chronic cases it may be necessary to use 200 mg and reduce the dose when control is established.
- Urinary frequency and severe incontinence in old people: 100-200 mg three times daily.
- 1, 2. Brit. med. J. 2, 216 (1969).

CONTRAINDICATIONS

Flaccid bladder with residual urine; glaucoma; gastric retention. Rarely, dryness of the mouth is an unwanted effect.

CETIPRIN (emepronium bromide);

Ethyl (3, 3-diphenyl-l-methyl-propyl) dimethylammonium bromide. In addition to the 50 mg tablet a 100 mg tablet is now available. Manufacturer: AB Kabi, Stockholm, Sweden.

Smith Kline & French Laboratories Ltd Welwyn Garden City, Hertfordshire

A major achievement of British research now established in the treatment of rheumatic disease

BRUFEN

Brufen is the tangible result of an extensive programme of research aimed at developing and investigating new compounds for the treatment of rheumatic disease. Over a period of fifteen years, thousands of non-steroidal compounds were evolved and tested. Of the few which reached an advanced stage of pre-clinical assessment, it was Brufen that demonstrated the required high level of antirheumatic activity together with an exceptional freedom from toxic effects.

Brufen has been evaluated in controlled clinical trials and its activity found comparable to the most powerful non-steroidal antirheumatic agents already in use. The remarkable freedom from adverse effects, particularly gastric upset, has been confirmed. Brufen has become widely used in the treatment of arthritic conditions both in hospitals and in general practice.

Today, Brufen is well recognised as a highly effective antirheumatic agent whose therapeutic value is undiminished by frequent or serious side-effects. Its benefits are well known to thousands of arthritic patients.

new freedom for the arthritic

Brufen is available as tablets, each containing 200 mg. of ibuprofen. Full information is available from Medical Products Marketing,

Break the threadworm life-cycle with single-dose Pripsen

Threadworms often infect families, one child can infect the others.

A single dose of Pripsen, taken by each member of the family, can eradicate threadworm infection. Pripsen treats the affected child and protects others against infection. As a precaution against possible re-infection a second dose of Pripsen should be given after two weeks.

Pripsen (piperazine phosphate and standardized senna) is also effective against roundworms.

Tube of 10G (one full dose). Tins of 80G (dose measure enclosed). Pripsen can be mixed with milk or water.

PRIPSEN

single-dose anthelmintic

A suggestion that may be helpful to your patients who wear dentures

People with dentures are finding that they can now chew gum without having an adhesion problem. This is the result of improvements in formulation that do not in any way change quality or flavour.

There are exceptions, but nearly everyone with dentures can chew Wrigley's Spearmint, Doublemint and Juicy Fruit.

If you would like to receive a complimentary professional supply, for testing by your patients, write to:
The Wrigley Company Ltd.,
East Lane, Wembley, Middx.

"Those new tablets, doctor...so easy to swallow...and..."

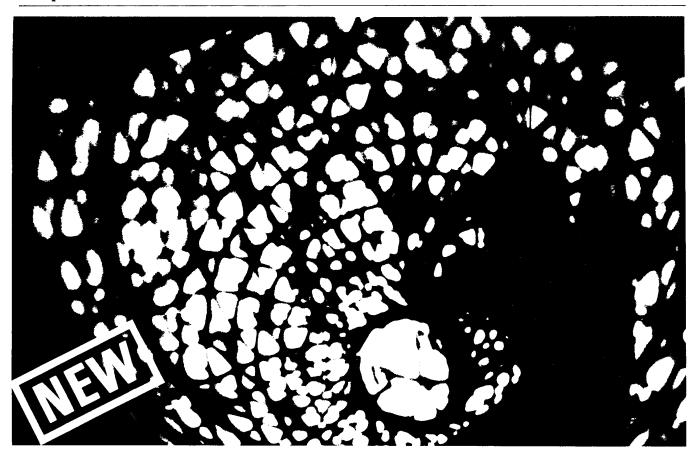

That's because Ceporex Tablets are so small. Ceporex is the first cephalexin available in tablet form. And Ceporex Tablets are easily identified because the name's on each tablet. Ceporex Tablets are presented in two strengths, 250 mg and 500 mg. The 250 mg tablets are the ones to prescribe in infections such as acute cystitis, pharyngitis and tonsillitis; in more serious infections, such as pyelonephritis or acute bronchitis, Ceporex 500 mg tablets provide convenient treatment.

But you don't have to prescribe only Ceporex Tablets. You can prescribe Ceporex 250 mg capsules or Ceporex 500 mg capsules, or there's Ceporex Syrup 250 mg/5 ml. What's important is that they all contain cephalexin, the more completely absorbed oral antibiotic.

For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd, Greenford, Middlesex

"Our Jimmy's got ear-ache again, doctor"

It's his third attack in as many months, and he's only four. Neither Jimmy nor his mother is very pleased. That's why the doctor's prescribing Ceporex this time.

In ENT infections, like otitis media, Ceporex Syrup gives an over-all success rate of 88%. Ceporex is the first cephalexin syrup. Children like its pleasant fruit flavour and not-too-sweet taste. Ceporex absorption is rapid and virtually complete, giving high serum and tissue levels within an hour. Ceporex kills most of the common sensitive pathogens responsible for ENT infections, including penicillin-resistant staphylococci; and many gram-negative organisms. Ceporex is well tolerated because of its quick absorption and low toxicity and can be considered in patients hypersensitive to the penicillins. There is little chance of antibiotic rashes developing. For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd, Greenford, Middlesex.

Glaxo 🎄

Successful treatment starts with Ceporex

"It's that backache again!"

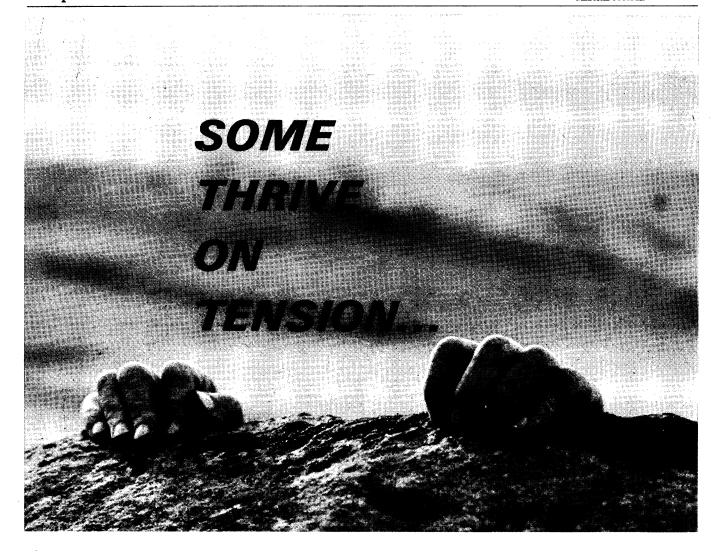

Jane Smith's usually a lively thirty-year-old. But for the last six months she's had recurring bouts of acute pyelonephritis. Her doctor's tried a number of treatments but they only produced temporary remissions. This time he's prescribing Ceporex. He's saving both Jane and himself a lot of needless worry.

Inurinary tract infections, like acute pyelonephritis, Ceporex has a success rate of over 80%. Ceporex rapidly kills the common gram-negative organisms responsible for most urinary tract infections. It achieves outstanding success against most strains of *E. coli*. It also kills most gram-positive organisms which may be present, including penicillin-resistant strains. The success rate of Ceporex is aided by its rapid and virtually complete absorption which gives very high serum, tissue and urine levels within an hour. Ceporex is well tolerated because of its quick absorption and low toxicity and can be considered in patients hypersensitive to the penicillins. There is little chance of antibiotic rashes developing. For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd, Greenford, Middlesex.

Glaxo Successful treatment starts with Ceporex

...but where it's a problem, FENTAZIN calms without dulling mental acuity

Some people can accept, or even enjoy, a high degree of tension in their lives, but others respond with severe anxiety or agitation when faced with much less challenging situations.

In patients suffering from severe tension and anxiety, particularly where agitation is present, FENTAZIN—perphenazine BP—has been proved over many years to be an efficient tranquilliser which seldom causes sedation or interferes with mental acuity.

FENTAZIN – the ideal tranquilliser in severe anxiety or agitation.

Full information is available on request.

Fentazin is a Trade Mark of ALLEN & HANBURYS LIMITED LONDON E2

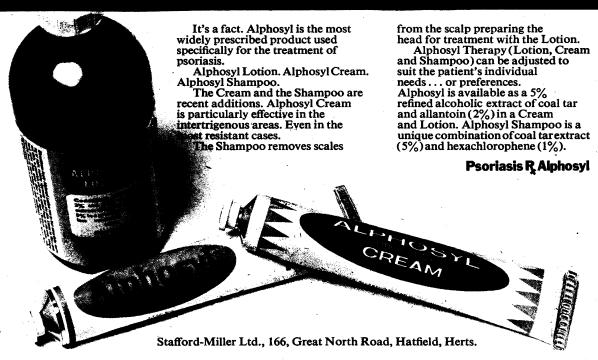

MINILYN

is the new low-dose oral contraceptive from Organon. It contains only 50 micrograms of ethinyloestradiol and 2.5 mg of lynestrenol. Change to Minilyn means change to a balanced lowdose oral contraceptive.

Hippolyte Baillière...

began to sell medical books in Paris in the early nineteenth century. In 1826 he opened a London office and, not long after, published his first medical textbook.

So began the publishing enterprise that was to become Baillière, Tindall & Cassell.

During our long career we have published medical books of many shapes and sizes, including some that are among the classics of medical literature.

Today we have many fine books on our list, and many of our authors are leaders in their fields. Some current authors and their books include:

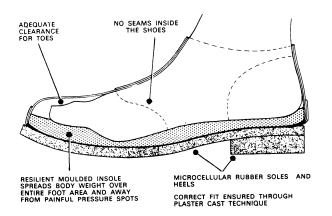

Goligher · Surgery of the Anus, Rectum & Colon Mayer-Gross, Slater & Roth · Clinical Psychiatry Andrewes & Pereira · Viruses of Vertebrates Scheuer · Liver Biopsy Interpretation Bennett & Elliott · The Physiology & Medicine of Diving & Compressed Air Work

The company has expanded and flourished in the years since its beginning, but we are still constantly on the look-out for new authors. If you would like to write a book on your subject, and you think there is a need for it, why not write to us?

Baillière Tindall & Cassell Ltd

A new breed of shoes are now available for your patients.

They have individually moulded insoles which due to their exact fit to the bottom of the foot, spread the body weight over the entire foot area, and reduce pain from pressure spots.

Originally developed for rheumatic feet, their comfort and ultra light weight make them very suitable for Diabetics, patients with Geriatric conditions and in fact most patients with tender and deformed feet.

These shoes are made from plaster casts of the feet. Casts can easily be made by hospital staff from a kit supplied or alternatively a full cast taking and fitting service is offered throughout the country.

Long term illness is unpleasant. Long term debt is unnecessary.

You have to face the fact that when you can't work your income soon drops.

But when illness or accident strikes you the bills still have to be paid.

Too often illness means long term debt. Which is unnecessary. For a small monthly sum you could ensure that when your income falls due to incapacity the Medical Sickness Society will start sending you a monthly cheque to replace it.

And the cheques will continue either until you're fit enough to return to work or until normal retirement age, whichever is earlier. And we can't cancel the policy because of long or frequent claims.

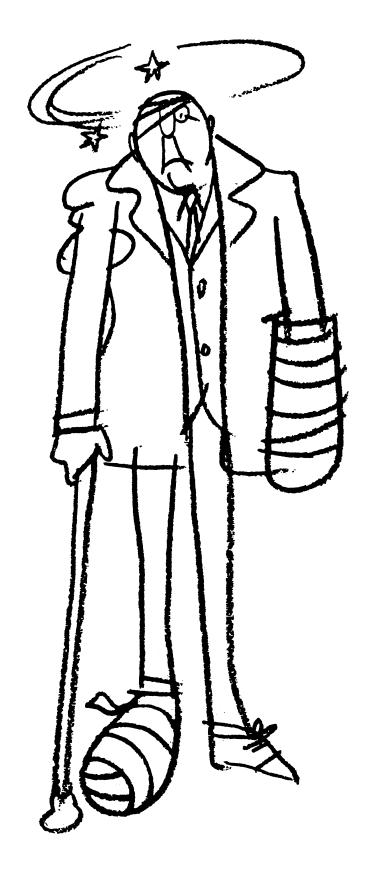

If you have not got around to ensuring that we take over your financial worries when incapacity stops you working write to us today quoting reference number 5013. You will be surprised how little this essential cover will cost.

COMMERCIAL APPOINTMENTS

Medical Adviser Chemotherapeutics

The international success of our semi-synthetic penicillins has provided us with the resources to increase our research and development effort substantially. A large part of this is in the field of antibiotics and another doctor will shortly be required to join the Chief Medical Adviser who specialises in chemotherapeutics. He will gain experience in initiating and monitoring clinical trials, assessing potential new products and advising on promotional material. He will also help to train medical representatives.

Ideally, the doctor appointed will be in his early thirties and will have spent at least two years of his experience, after qualifying, in hospital posts. He should have a genuine interest in research and the ability to work with professional colleagues of all levels. No previous pharmaceutical industry experience is necessary. There will be some home and overseas travel.

An attractive starting salary will be offered and a car provided. Additionally there is a generous profit sharing scheme and membership of a particularly good non-contributory pension and life assurance scheme.

Please send a brief resumé of your career to:

Mr H. P. G. Hinde, Personnel Director, Beecham Pharmaceutical Division, Beecham House, Great West Road, Brentford, Middlesex.

(16782)16

SMITH & NEPHEW PHARMACEUTICALS LTD. SMITH & NEPHEW RESEARCH LTD.

Assistant physician

The Medical Department serving the two Companies is entering into a phase of planned expansion and has now reached one of the stages of recruiting a further physician. Applications are now invited for the new

Great emphasis is placed on the scientific basis of the work of the Department and candidates for this vacancy will require to have a scientific degree, such as a preclinical B.Sc., or be able to provide other evidence of familiarity with scientific method as well as a registerable medical qualification. Although the work mainly centres on the development of new drugs, the human aspects of adhesives and plastics technology and other research areas play a part.

Attendance at appropriate meetings and the submission of material for publication will be encouraged. Career prospects in the Industry are good. Travel, some of which may be abroad, will be necessary.

Candidates may be men or women - it is unlikely that anyone over 35 will be appointed. The salary, which will be negotiated, will be attractive and will depend on qualifications and ability. Previous experience in the Pharmaceutical Industry is unnecessary. Conditions of service are above average and a car will be provided.

Applications, in writing, including a curriculum vitae, should be addressed to:

The Medical Director SMITH & NEPHEW PHARMACEUTICALS LTD. Bessemer Road, Welwyn Garden City, Herts.

Members of the Smith & Nephew Associated Companies.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

The Borough, which comprises Wimbledon, Merton & Morden and Mitcham, is a pleasant one within very easy reach of central London and the Surrey countryside.

Candidates should have had previous experience of Local Health and School Health Services. The salary scale will be £2610 x £90 (3) and £95 (3) to £3165 per annum plus London Weighting allowance of £90 per annum. An essential user car allowance and telephone rental are also attached to the post. Commencing point on the scale will be fixed having regard to present salary and experience.

Application forms obtainable from Medical Officer of Health, The Vestry Hall, Mitcham, Surrey. Completed application forms, together with the names of three persons to whom reference may be made, should be returned to the Medical Officer of Health not later than Friday, 8th May.

SYDNEY ASTIN. Town Clerk.

SERVICES

What's in the R.A.F.

Interesting out-of-the-rut medicine

The typical R.A.F. station doctor is a G.P. - with probably a lot of experience in pediatrics! He also has important responsibilities in aviation medicine, public health and industrial health. He does much more preventive work than most civilian doctors are able to do. There are wide opportunities for hospital practice - 47% of R.A.F. doctors are now working in specialist departments.

The chance to travel

You could live and work abroad, in many different conditions and climates, treating not only R.A.F. personnel and their families, but local populations. Your gain in clinical experience would be marked.

... a fair crack of the whip for the Doctor's wife

A Doctor's wife is a Doctor's wife. She should not also have to be his telephone-answerer, appointment-maker, dispenser and general auxiliary! In the R.A.F., these things are done by professionals: the typical R.A.F. doctor, on a typical R.A.F. station, works in a fully equipped Medical Centre, which he shares with another doctor; between them they would probably have about 12 staff-secretarial as well as

£3,000 (tax free) after 5 years

In the first case, you would probably join the R.A.F. for 5 years. If you decide to go back to civil life at the end of this time, you would take with you a tax-free honorarium; at present £3,000. (You might of course wish to stay on: you can apply after the first year.) Now for income: suppose you are a married man of 25, fully registered. If you were in the R.A.F., your income would be at least £2,829 p.a. The R.A.F. would probably provide you with a house, furnished right down to the last coffee-cup.

To find out more please write, giving your age, nationality, qualifications and date of full registration with General Medical Council, to The Directorate General of Medical Services, RAF (MA1 (RAF)), Ministry of Defence (724QS9), 1-6 Tavistock Square, London W.C.1.

Western Australia State Public Services Mental Health Service

Psychiatrists

Applications are invited from Psychiatrists for appointment to positions in short and long term hospitals and clinics in the

SALARY: \$A9,816—\$A10,578 (gross) per annum. In addition, sessional work in Clinics is available.

QUALIFICATIONS: Applicants must be eligible for membership of the Australian and New Zealand College of Psychiatrists or possess a diploma in Psychological Medicine from a recognized body.

CONDITIONS OF SERVICE: Three months' long service leave after seven years' continuous service, three weeks' annual leave plus 13 Statutory Public Holidays, generous cumulative sick leave entitlements, superannuation benefits and other general conditions applicable to permanent public servants.

TRANSPORT: Passages for appointee and dependent family under 16 years of age arranged plus a reasonable amount for removal of essential personal effects, subject to the appointee entering into an agreement to serve the State for one to three years according to amount of assistance given.

GENERAL: Further details from the Director, Mental Health Service, 3 Havelock Street, West Perth, Western Australia, Western Australia 6005. (16382)

UNIVERSITY OF ADELAIDE **ELDER PROFESSOR OF ANATOMY AND HISTOLOGY**

Applications are invited for the above-mentioned appointment in 1971 in succession to Professor A. A. Abbie, who will retire at the end of 1970.

SALARY: At present \$A12,000 a year with superannuation on the F.S.S.U. basis. Academic salaries in Australian universities, which have not been revised since 1967, are currently under active review by an authority established by the Commonwealth Government. In addition the professor, if he holds a medical qualification registrable in South Australia, will receive on account of that qualification a special allowance not subject to superannuation contributions at the rate of \$A900. ance, not subject to superannuation contributions, at the rate of \$A900 a year.

by the Chair and formal terms of appointment. Any further information desired, including a statement of the Current research activities of the department, may be had on request to the Registrar.

APPLICATIONS (in duplicate) giving the particulars listed in Paragraph 7 of the Statement should reach the Registrar of the University at North Terrace, Adelaide, South Australia, not later than June 15, 1670 (1612) 1970. (16813)

UNIVERSITY OF WESTERN AUSTRALIA

DIRECTOR, STUDENT HEALTH COUNSELLING

Applications for appointment to this new post are invited from persons well qualified in general medicine who have a particular interest in the problems of young people. It is expected that the Student Health Counselling Service will work in close association with the existing Counselling Services and the Physical Education Division and that the emphasis will be on health counselling activity and health education and on teaching students how to keep fit. The function of the Director will be largely diagnostic and advisory. Initially his staff will comprise a nursing sister and a secretary typist. a nursing sister and a secretary typist.

The salary range for the post is \$A10,197-12,360 p.a. Benefits include superannuation similar to F.S.S.U., fares to Perth for appointee and family, removal allowance, liberal annual, sick and long-service leave entitlements, subsidized temporary accommodation, housing loan

Further detailed information including conditions of appointment and details of application procedure is available from the Registrar, University of Western Australia, Nedlands, Western Australia, 6009, or the Secretary-General, Association of Commonwealth Universities (Appts), 36 Gordon Square, London, WC1H OPF.

Applications close 30 May 1970. (16814)

UNIVERSITY OF QUEENSLAND Australia

READERS (2) IN ANATOMY

Applicants must be medically qualified and should have a sound academic record and considerable postgraduate experience in the teaching of Anatomy at University level. They should hold a higher degree and/or have made significant original contributions to some branch or branches of Anatomy or to related subjects such as neurophysiology, histopathology, cytogenetics, etc. Some administrative experience will be an advantage but is not essential. Although a rapidly expanding undergraduate body means that undergraduate teaching will form a substantial part of the duties of a Reader, the research interests of the successful applicant are adequately catered for in terms of time, material and equipment. It is intended to develop further postgraduate work already undertaken by the Department. It would be expected that a Reader would take charge of the teaching work in one or more branches of the subject, but he would have a considerable degree of freedom in the choice of his research fields.

The salary will be within the range \$A9180-\$9900 per annum. (Salaries

The salary will be within the range \$A9180-\$9900 per annum. (Salaries are currently being reviewed.)

The University provides Superannuation similar to F.S.S.U., housing assistance, study leave and travel grants for a permanent appointee of Lecturer status and above.

Additional information and application forms will be supplied upon request to the Secretary-General, Association of Commonwealth Universities (Appts), 36 Gordon Square, London, WC1H OPF.

Applications close in London and Brisbane on 29 May 1970. (16816)

To take charge, as superintendent, of the Mental Hospital, To take charge, as superintendent, of the Mental Mospital, Belize City. Duties include those of superintendent involving training of nurses and custodial staff, and of consultant of psychiatric and neurological conditions. Emoluments quoted above include an inducement allowance, normally tax free, of £1,072. Contract 2-3 years.

ASSISTANT ANAESTHETIST £3,180/Barbados

Possession of the D.A. or equivalent, plus not less than one year's post-registration experience in the practice of anaesthesia essential. Emoluments quoted above include an inducement allowance of £1,080. Private practice is not permitted. Age limit 57 years. Contract 2-3 years.

MEDICAL OFFICER £2,462-3,050/Anguilla

For general duties including surgery and public health. Emoluments quoted above include an inducement allowance, normally tax free, of £912-£1,500. Contract 1 year.

ANAESTHETIST £2,986/St. Kitts

Required at the Joseph N. France General Hospital to administer anaesthetics during normal operating sessions and whenever the need arises and to share duty on the wards with other doctors. He should possess the D.A. or higher qualification in anaesthetics. Emoluments quoted above include an inducement allowance, normally tax

SPECIALIST OPHTHALMOLOGIST £3,282/St. Lucia

He will be responsible for holding clinics and operating sessions at the Victoria Hospital, Castries (150 beds) and clinics at rural hospitals and health centres in the island. Diploma in ophthalmology or equivalent is essential. Emoluments quoted above include an inducement allowance normally tax free, of £1,332 and a non-pensionable specialist allowance of £200. Private practice is permitted. In addition, a non-pensionable allowance, equal to 75% of fees paid into the public Treasury in respect of services rendered within the hospital, is payable. Contract 2-3 years.

MEDICAL OFFICER Up to £2,700 Tristan da Cunha

To replace sole medical officer on isolated South Atlantic To replace sole medical officer on isolated south Atlantic island of Tristan da Cunha. Knowledge of dentistry would be an advantage. In addition to the emoluments quoted above, a payment of £400 will be made to the officer while he is resident on the island. A gratuity of $12\frac{1}{2}\%$ of emoluments is also payable. No income tax. 4 days paid leave for each month of residential service. Contract I year.

GENERAL DUTY MEDICAL OFFICERS

Are required in British Honduras, Kenya, Malawi, St. Kitts, St. Vincent, Swaziland, Turks and Caicos Islands, Uganda and Zambia. Salaries vary with local living costs, but with some exceptions range from £1,650-2,900. Appointments are normally on contract for

TRAINING SCHEME FOR RECENTLY QUALIFIED **DOCTORS**

In return for an undertaking to serve for at least 2 years in the developing countries the Ministry offers a course of training to recently qualified doctors approaching completion of their pre-registration year. The scheme is designed to fit them for service overseas and is attractive professionally and financially. During the training period of 12-15 months the doctor will receive a retaining fee of 4220 no. in addition to his hospital salary. £220 p.a. in addition to his hospital salary.

MINISTRY OF OVERSEAS DEVELOPMENT
