TAMAR INDIEN,

A laxative, refreshing, and medicated Fruit Lozenge, very agreeable to take, and never causing irritation. Its physiological action assures the immediate relief and specific cure of

CONSTIPATION,

CEREBRAL CONGESTION, HEADACHE, INDIGESTION, BILE, HÆMORRHOIDS, etc., etc., by augmenting the peristaltic movement of the intestines without producing undue secretion of the liquids. Its stools are not serous, but composed entirely of mucus and abundant fecal matter. Unlike pills and the usual purgatives, it does not predispose to intestinal sluggishness, and the same dose always produces the same effect, that is to say, never needs increasing. These properties render "Tamar" invaluable to the weak and debilitated, and especially to ladies previous and subsequent to their accouchement. It is recommended by the most eminent Physicians of Paris, notably Drs. BELIN and TARDIEU, who prescribe it constantly for the above complaints, and with the most marked success. Prepared by E. GRILLON, 122, London Wall, E.C.; and also by Messrs. BARCLAY and SONS, Farringdon Street, London, and nearly all respectable Chemists. Price 2s. 6d. per box (stamped), by post 2s. 8d.
