# The right-first-time antibiotic for Urinary Tract Infections

Penbritin is right because it is active against the three principal urinary pathogens—*E. coli.*, *Proteus mirabilis* and *Strep. faecalis*. This contrasts with the antibacterials and sulphonamides. Penbritin also minimises the risk of relapse, since it destroys bacteria rather than merely inhibiting them.

Penbritin is right because its safety is well proven. Penbritin can be confidently prescribed where safety must be a prime consideration—in pregnancy, women of child-bearing age, and patients with impaired renal function. This contrasts with the trimethoprim/sulphamethoxazole combinations.

The wide range of presentations—capsules, tablets, syrups, and injectables enables you to prescribe Penbritin in the right form for any patient. Following the recent price reduction the average daily cost of treating a urinary tract infection with Penbritin is just 18p.

Penbritin is right because it is clinically proven. Seventy-three papers reporting 1,200 patients, show overall success rates of 82% in acute and 65% in chronic infections. These figures confirm Penbritin as the right-first-time antibiotic.

**Adult dosage:** 500 mg t.d.s.  $\frac{1}{2}$ –1 hour a.c.

**Contra-indications:** Penicillin hypersensitivity

**Side-effects:** as with other penicillins

# A name to conjure with.

*'Largactil'* has been a name to conjure with in psychiatric medicine for over sixteen years. An influence of such magnitude and long duration can be explained by examining this legendary name.

*'Largactil'* was so named because of its LARGE variety of ACTions; apart from being the first major tranquillizer, it acts in two other pharmacologically distinct ways – as a potentiator of central nervous depressants, including analgesics, narcotics and sedatives, and as an anti-emetic.

*'Largactil'* has achieved success in the fields of psychiatry, general medicine and anaesthetics in an ever-widening range of indications. These include major and minor psychoses; as an adjuvant to E.C.T.; drug withdrawal; senile dementia; the control of terminal pain and nausea and vomiting.

Alone, or as an adjuvant –

# Lentizol

## a significant improvement in antidepressant therapy

Amitriptyline is one of the most widely-prescribed of all psychotropic agents. But like any drug, it works properly only when taken as prescribed. And published work<sup>1</sup> clearly shows that as many as 48% of outpatients default in taking tranquillisers and antidepressants. Even among inpatients, some 19% default in this way<sup>2</sup>. A recent study reported in the Practitioner<sup>3</sup>, indicates that a once-daily dosage regimen is less likely to be abused.

### **Lentizol:**

#### **simplifying dosage to reduce patient default**

Lentizol is a sustained-release form of amitriptyline designed to be taken once daily, at bedtime. Thus Lentizol offers a new simplicity of dosage to reduce patient default. Instead of having the trouble – and possible embarrassment – of taking three doses during each day, the patient simply takes one dose at bedtime.

#### **Often lessens the incidence of daytime drowsiness**

Lentizol has a sedative effect within a short time after the daily dose is taken. This can be very helpful to those depressed patients who have difficulty in getting off to sleep. Its sleep-enhancing effect is spread over the early

hours of the morning, too, so that Lentizol also benefits patients whose condition causes early-morning waking. By daytime, Lentizol will continue to provide symptom relief until the next daily dose is taken, with less risk of drowsiness.

#### **No increase in treatment cost**

One Lentizol 50 mg. capsule at bedtime will replace treatment by one 25 mg. amitriptyline tablet t.d.s. This means that the daily cost of Lentizol is equivalent to the daily cost of standard amitriptyline.

#### **Clinical assessment in progress**

Clinical appraisals of Lentizol are being carried out by a number of investigators throughout the United Kingdom. Early results<sup>4</sup> indicate that Lentizol produces an improvement in patients who would be expected to respond to amitriptyline. Lentizol is widely preferred because of the simple, convenient dosage regimen. Also some workers have found it possible to discontinue night-time sedatives.

Lentizol is supplied as capsules of 50 mg. and 25 mg. amitriptyline in a sustained release formulation, each strength in packs of 50 and 250. Further information is available on request.

# Why P.D. can now be the treatment of choice for renal failure

## 1 SEFTON AUTOMATIC P.D. EQUIPMENT REMOVES THE NEED FOR CONSTANT NURSING ATTENTION

Although the Sefton machine can be set up and programmed by nursing staff the cycle of treatment is entirely automatic. The gravity fed fluid

intake is precisely measured. Retention period and drainage are under accurate control. The fluid is warmed to body temperature for complete patient comfort. The machine is fully fail-safe for complete patient protection.

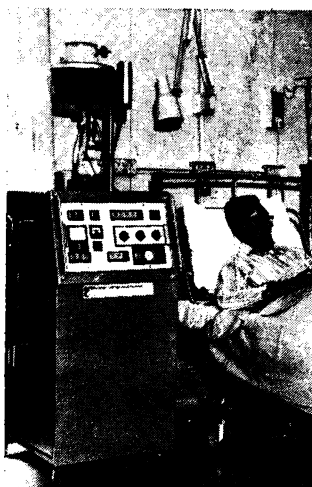

Regardless of ward distractions the Sefton P.D. machine gives constant treatment as prescribed.

## 2 SEFTON AUTOMATIC P.D. EQUIPMENT REDUCES INFECTION RISKS TO VIRTUALLY NIL

The use of only one sterile circuit eliminates the many connections and re-connections unavoidable by the manual P.D. method.

## 3 SEFTON AUTOMATIC P.D. EQUIPMENT GREATLY REDUCES DIALYSIS FLUID COSTS

The Sefton equipment is available with an autoclave which produces P.D. fluid in bulk, in the hospital, with great savings in cost.

## The New General Practice 2

What important developments are there in General Practice? Does the General Practice Team work successfully? What is the Family Doctor's future role in the Hospital Service? These and other questions are answered in *The New General Practice 2* which, published two years after the first volume in this series, also deals with topics such as the use of computers, plans for the new towns, and Scandinavian developments in general practice. This second volume contains 27 articles published in the *B.M.J.* in the last two years. The introduction has been written by Professor J. D. E. Knox, Professor of General Practice at Dundee University.

PRICE £1.25 (U.S.A. \$3.50), including postage

## Diseases of the Joints

Arthritis and rheumatism are common complaints, even if patients are often vague about the exact meaning of the terms they use. In the last few years the diagnosis of joint disorders has become more exact, while the introduction of local and systemic steroid therapy and the powerful non-steroidal anti-inflammatory drugs has revolutionized treatment. In an attempt to bring doctors up to date in this field, the *B.M.J.* published in 1969 a series of short articles giving practical advice on the common disorders of the joints. The articles have now been revised by their authors and collected together to form this handbook on the management of arthritis.

## Road Accidents and the Family Doctor

Road accidents are now acknowledged to be one of the major epidemics of our time. It has been estimated that many accident deaths could be saved by skilled treatment at the site of the accident, and recently doctors in Britain and abroad have been playing an increasingly active part in this. This booklet, which reprints a series of articles which appeared in the *B.M.J.*, contains contributions on organization and medical equipment, the management of soft-tissue injuries, resuscitation, fractures of the spine, and extrication of persons trapped in a vehicle. The introduction is written by Mr. Norman Capener, Chairman of the Medical Commission on Accident Prevention.

**colofac**<sup>®</sup>  
mebeverine  
relieves irritable colon directly

A paper in the *Lancet*\* described how difficult it is to reach a conclusive diagnosis of irritable (or spastic) colon. So often these patients first complain of diarrhoea plus other vague abdominal symptoms. Examination frequently reveals gas in the colon. Further enquiry may reveal a history of repeated attacks of abdominal pain, discomfort after meals in addition to disordered bowel function. This is strongly indicative of irritable (or spastic) colon.

Colofac is specific for irritable (or spastic) colon and can be started immediately. It relieves colon spasm by a direct action on smooth muscle. It is totally unrelated to the anticholinergic or atropine-like drugs and is free from their typical effects – dry mouth, blurred vision, urinary retention. Colofac acts selectively on smooth muscle in spasm. It has no effect on normal gut motility.

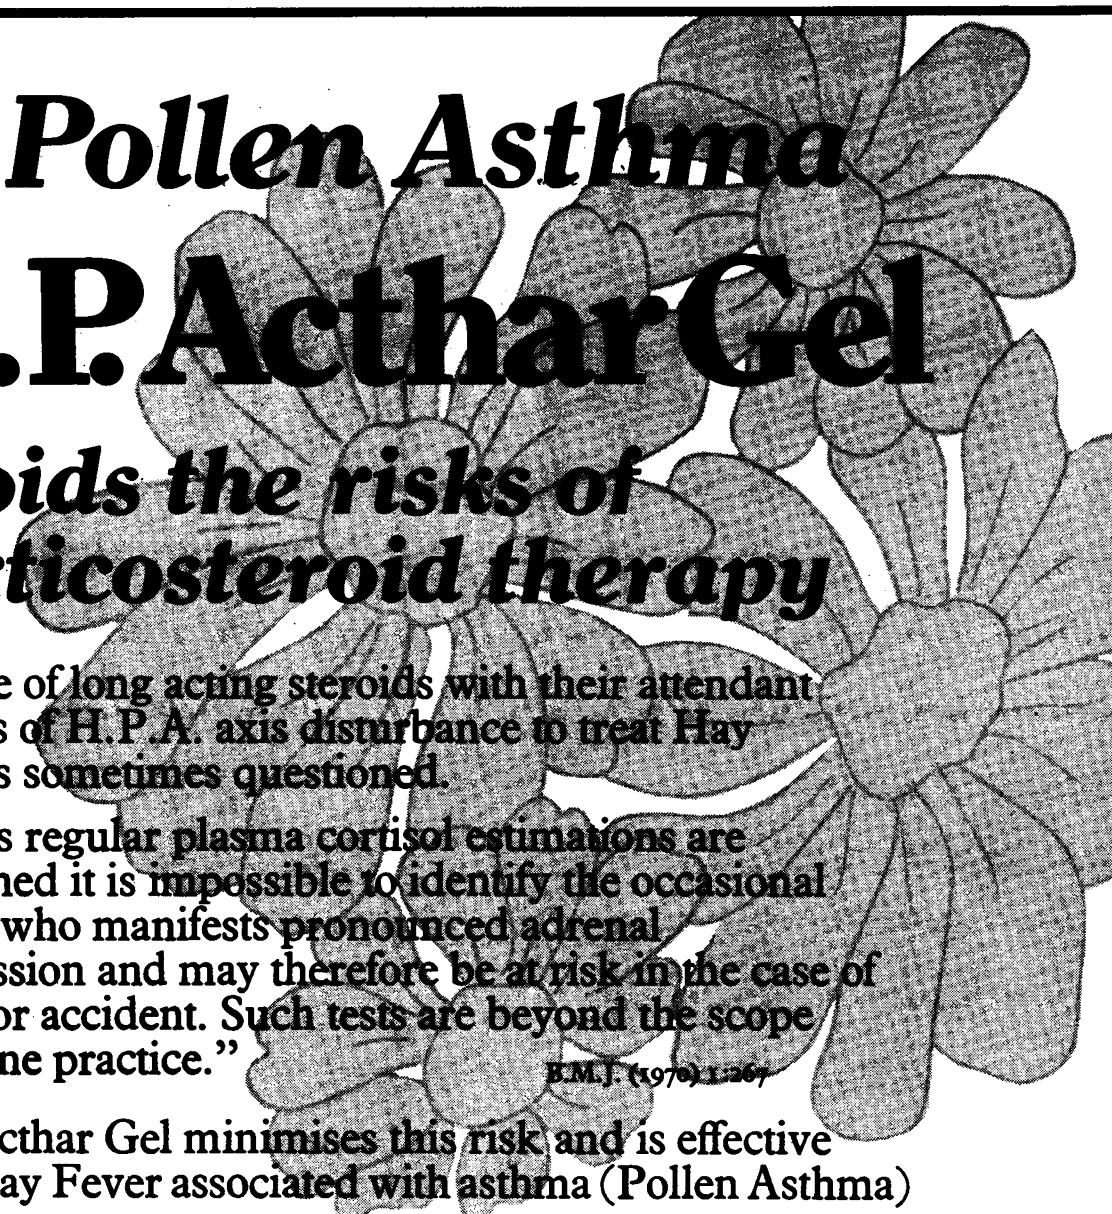

Colofac is supplied as tablets of 100mg mebeverine. *Lancet*, 2, 753-756 1969 Further information is available on request.

The use of long acting steroids with their attendant dangers of H.P.A. axis disturbance to treat Hay Fever is sometimes questioned.

'Migraine does not destroy life but can destroy the joy, value and rewards of living.'<sup>1</sup>

Dihydroergotamine-Sandoz is a new tablet formulation that makes migraine prophylaxis simpler and more practicable than ever before. Dihydroergotamine has a vasoconstrictor action on distended extracranial arteries similar to that of ergotamine,

while being largely free from its uterotonic and pressor actions. In one trial<sup>2</sup>, Dihydroergotamine 2 mg. administered regularly 3 times a day was used to treat 80 patients with migraine. Improvement was recorded in 58 (72.5%); migraine disappeared in 32 patients and was greatly or partially reduced in the remaining 26.

# from asthmatic attack

BRITISH MEDICAL JOURNAL, 26 JUNE 1971

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes - thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports<sup>1-22</sup> confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced - even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school,

exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0.1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator - SPINHALER.

**Neo-NaClex-K**—a unique tablet for the safer management of all grades of hypertension

Neo-NaClex-K is a unique two-layered bendrofluzide/potassium chloride tablet which is helping doctors to treat all grades of hypertension more effectively and safely. In mild cases it can be used alone to lower blood pressure. And in severe cases it can be used in conjunction with other more potent drugs to enable the dosage and side effects of the latter to be substantially reduced.

Neo-NaClex-K is particularly well-suited to the long-term management of hypertension in the elderly because side effects are very rare, and the special formulation of the tablet ensures that no great concentration of the potassium chloride is reached in the stomach and small intestine at any one time.

## Complan— when nutrition is a problem

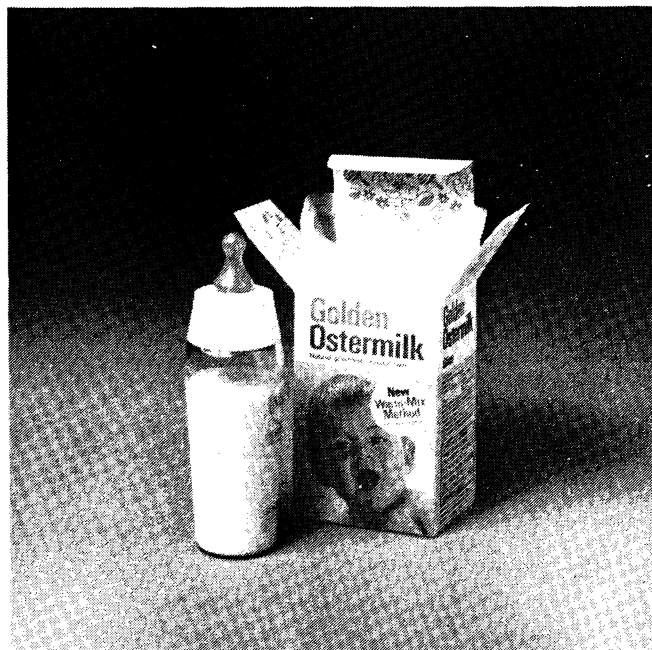

Complan greatly simplifies nutritional problems in hospitals and the home. Complan contains the protein, carbohydrates, fats, vitamins and minerals necessary to maintain a nutritional state in the patient as near normal as possible.

Patients who are unable or unwilling to swallow solid food may be completely nourished by Complan alone — administered as a drink or as a tube feed.

Recommend Complan in the home, as a supplement to ordinary food when patients need extra nourishment. It is quick and simple to prepare and digests easily — even when the stomach is upset.

### TRAINING IN RADIOLOGY

A non-residential systematic course of instruction in Radiology will be given at the Christie Hospital and Holt Radium Institute from 4th October, 1971 to September, 1972. Whilst still suitable for the D.M.R.T. (R.C.P. S.) it will be specifically designed to fulfil the new requirements of the first examination for Fellowship of the Faculty of Radiologists. The fee for one year's tuition is £37.50. Students for this Fellowship must spend a further two years in the Radiology department of a recognised hospital before proceeding to the final examination.

Applicants must be registered medical practitioners with the postgraduate experience required by the Faculty of Radiologists or by the London Conjoint Board (for the D.M.R.T.). Special consideration will be given to candidates with higher qualifications in Medicine or Surgery. Applicants may be eligible for S.H.O. or registrar appointments depending on experience and married or single accommodation may be available.

Further information from: Dr. E. C. Eason, Director of Radiotherapy, The Christie Hospital or Holt Radium Institute, Withington, Manchester, M20 or Dean of Postgraduate Medical Studies, University of Manchester, Manchester, M13 9PL. (19840) 2

## PRACTICES (Executive Council)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

### MIDDLESEX EXECUTIVE COUNCIL

**VACANCY - BARNET (ARKLEY)**  
Applications invited for vacancy occasioned by resignation of Female practitioner. Doctor resigns 30th September, 1971. List at present approximately 1,740. Intermediate Area. Practice premises will not be available for purchase.  
Apply on Form E.C.16A before 3rd July, 1971, to: The Clerk, Middlesex Executive Council, Dept. S 4th Floor, International Life House, Olympic Way, Wembley, Middx. HA9 0LF. (H5673) 3

### NATIONAL HEALTH SERVICE COUNTY OF AYR EXECUTIVE COUNCIL IRVINE NEW TOWN

Applications are invited from registered medical practitioners to establish a new practice in a development planned within the Dregthom/Bourtreehill area of Irvine New Town.

Projected population build-up is as follows: By December, 1971 - 500; By April, 1972 - 1,200; By April, 1973 - 3,300; By April, 1974 - 6,500; By April, 1975 - 10,800.

It is hoped that initially, temporary consulting and residential accommodation will be available on rental. A Health Centre is planned for 1975, and the appointed practitioner will be expected to move to health centre accommodation when it becomes available. It is anticipated that the successful applicant will lead in the development of general medical services in the community and will assume a partner or partners as the need arises.

Type "D" initial practice allowance will be payable to a doctor with the necessary qualities and experience. For payment of this allowance, the experience expected is normally about ten years as a qualified doctor, of which two years have been spent in hospital appointments, and five in a busy general practice in the United Kingdom. The allowance may continue for three years, and guarantees that the doctor's net annual professional income from all sources, after allowing for practice expenses actually incurred and accepted by the Scottish Home and Health Department, will be made up if necessary, to an amount accepted by the Department as the amount of his previous net annual professional income from all sources, subject to a maximum of £5,290 net per annum.

Further information and forms of application may be obtained from The Clerk, County of Ayr Executive Council, 56 London Road, Kilmarnock, with whom completed forms should be lodged by 12th July, 1971. (H5654) 3

## COMMERCIAL APPOINTMENTS

# Clinical Research Pharmacologist (with Honorary Hospital Appointment) Up to £4,000 + car

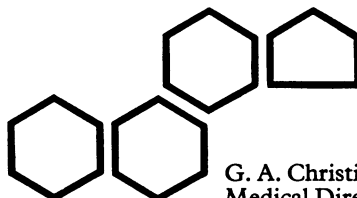

Syntex Pharmaceuticals Ltd. is the U.K. subsidiary of the internationally based Syntex Corporation, world leaders in steroid research and development.

Rapid expansion of our research programme into new fields of interest has created the need for a research pharmacologist, who will be responsible for initiating, progressing and analysing clinical trials on existing and future products at both early and late stages of development. The position will carry an honorary clinical appointment, at Registrar or Senior Registrar grade, in the Central Middlesex Group of Hospitals.

This is a new post, and its success will depend on the ability of the successful applicant to work unobtrusively and smoothly in co-operation with senior Medical and Surgical Staff. He will be personally responsible for clinical trials, including supervision of patients, but will be backed by the facilities of Syntex and the expertise of its Department of Clinical Research. Some post-graduate lecturing, to groups of doctors in and around London, will also be involved.

Applications are invited from registered medical practitioners aged 30 to 40, preferably with post-graduate (research) experience, and a higher medical qualification.

The initial period of employment, subject to the usual conditions, will be for 1 year, renewable thereafter. The salary offered is negotiable according to qualifications and experience but will be in the range of £3,000 to £4,000; a company car is provided. Additional benefits include non-contributory pension and life assurance schemes. In the first instance please apply to:

## ROYAL GWENT HOSPITAL Newport, Mon. (432 beds) (Recognised F.R.C.S.)

Two  
SENIOR HOUSE OFFICERS  
required on or about 1st August. Resident or non-resident. House is available if required. The Department is in the charge of a full-time Consultant Surgeon, has five Senior House Officers and all emergency cases are admitted through the department, which is responsible for initial resuscitation. The Department is equipped with apparatus for cardiac monitoring, positive pressure ventilation, as well as X-ray intensifiers and a Berman F. B. Locator.

The hospital is the base hospital for the Group, and therefore has a large volume of acute cases in all specialties. It is being extensively re-developed by a major capital building programme. A new intensive care unit has recently been opened.

There is a close connection with the teaching hospital at Cardiff, 10 miles to the west, and there is an extensive postgraduate education programme with a very good library. A Postgraduate Centre has recently been opened. The appointment gives ample opportunity to the holder to avail himself of these facilities.

The successful candidate will be expected to be resident on the nights on which he is on first call, which will on average be one night in five.

Applications giving full particulars and names and addresses of two referees to Group Secretary, 64 Cardiff Road, Newport, Mon. (48207) 19-8

## SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below:

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

**SENIOR HOUSE OFFICER:** £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

**REGISTRAR:** £2,328 per annum x £144(3) x £126(1) — £2,886.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

**SENIOR REGISTRAR:** £2,760 per annum x £126(1) x £174(1) x £177(1) x £174(1) x £177(1) — £3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

**MEDICAL ASSISTANT:** £2,520 per annum x £144(1) x £156(3) x £144(10) — £4,572.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

**CONSULTANT:** £4,512 per annum x £201(8) x £210(1) — £6,330.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

**COMPULSORY RESIDENCE:** The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association. November 1970

## NATIONAL HEALTH SERVICE HOSPITAL ADVISORY SERVICE

# Medical Staff: Consultants

Consultants in mental handicap are invited to apply for a period of service (varying between six months and two years) with one of the professional teams of the Hospital Advisory Service.

The aim of the Hospital Advisory Service is to improve the standards of hospital care of patients and at present the Service is concentrating on long stay hospitals. There are four visiting teams, each consisting of one doctor, two nurses, one social worker and one administrator. The method of working is that each team visits a hospital, or group of hospitals and, in co-operation with the staff of the hospital, studies the conditions therein. Subsequently the team prepares a report jointly on its findings and recommendations. The work is interesting and exacting, and of necessity team members usually work away from their homes except at weekends.

Applicants must have a thorough knowledge of the hospital service, must be fully registered as medical practitioners in the United Kingdom, and must be of Consultant grade.

Appointments will normally be made from medical practitioners now employed in the hospital service, who will be seconded to the Hospital Advisory Service and will return to their present posts at the end of their period of secondment. The length of the period will be by arrangement, but will not be more than two years. Exceptionally, medical practitioners who do not currently hold a post in the National Health Service may be appointed for a similar period of service.

For seconded staff existing salary arrangements (including increments due and scale improvements negotiated nationally during secondment) and existing superannuation arrangements will apply. Consultants outside the health service may be appointed on the National Health Service Consultants' scale of remuneration. When on duty National Health Service subsistence allowances at Class 1 level and first class travel allowances will be payable.

Applications in writing, giving details of age, experience and qualifications, and the names of two referees to whom the applicant is not in any way related should be sent to: The Principal Establishment Officer and Director of Personnel, Room 410, Ivybridge House, 1-5 Adam Street, WC2N 6AB, by 13th July 1971. A whole-time registered medical practitioner (or possibly two part-time) required for a post based on Lymington and New Milton. The work is entirely within a delightful area between the New Forest and the sea.

The duties are those of a School Medical Officer to the schools in the area and attendance at local authority clinics, including child health clinics. The opening in the Autumn of 1971 of a new health centre at New Milton creates the opportunity for a closer integration of the personal medical services in the area. The doctor will initially be allocated two sessions a week at the health centre to undertake developmental paediatrics and other examinations, generally to cater for the preventive needs of the health centre patients and to extend the co-operation between the general practitioners and the local authority.

Previous experience or the Diploma in Child Health would be an advantage. Salary on the Medical Whitley Council scale £2493 to £3342 per annum.

Application forms, returnable by 5th July, 1971, and further details are obtainable from the County Medical Officer, The Castle, Winchester. Please quote reference MA2579/AM. (10028) 56

**COUNTY COUNCIL OF THE COUNTY OF STIRLING**  
**HEALTH DEPARTMENT**

Applications are invited from registered Medical Practitioners for  
the following appointments:-

**1) SENIOR MEDICAL OFFICER**

Applicants should preferably hold the D.P.H. and the possession of  
additional relevant qualifications will be considered an advantage.

Duties will include the development and administration of health  
services for the elderly as well as liaison with local mental hospitals  
and the County Social Work Department regarding health aspects of  
the care of the mentally disordered. There will also be opportunities  
for experience in other aspects of the work of the County Health  
Department, such as participation in health education, pre-  
symptomatic screening services and the control of communicable  
disease.

Health Centres and multi-purpose clinics provide excellent facilities  
for co-operation with the other branches of the Health Service  
locally, with whom there are good working relations.

Salary scale — £3,453/£4,116 with placing according to experience,  
etc. Car allowance.

**2) MEDICAL OFFICER IN DEPARTMENT**

Duties will be mainly in child welfare, school health, pre-  
symptomatic screening services and health education. Much of this  
work is conducted in Health Centres, multi-purpose clinics and  
schools throughout the County. The successful applicant will also  
have the opportunity of becoming familiar with other aspects of  
public health work. Possession of either D.P.H. or D.C.H. would be  
an advantage but is not essential.

For suitable applicants without the D.P.H. consideration may be  
given to leave of absence at minimum salary to attend a diploma  
course following an initial period of service.

Salary scale — £2,493 — £3,342 with appropriate placing. Car  
allowance.

Both appointments are subject to Whitley Council Conditions of  
Service with medical examination for superannuation purposes.  
Application forms (Ref. H.97 M.O.) obtainable from the undersigned  
should be returned not later than Friday, 30th July, 1971. James D.  
Kennedy, County Clerk, County Offices, Viewforth, Stirling. 56

**THE BRITISH LEPROSY RELIEF ASSOCIATION (LEPRA)** invites applications from Medical practitioners to work in Leprosy.

Previous tropical, public health of Leprosy experience would be an advantage but is not essential since training will if necessary be given.

Successful candidates will probably be between 30 and 35 years old, and in view of the extensive touring required, bachelor status may be preferable. Any candidate interested in research would have the opportunity to co-operate with Leprosy research units in the United Kingdom.

LEPRA is particularly concerned to attract doctors who will be able to work as specialists in Leprosy endemic areas mainly in Africa in very close association with the Health Ministries concerned.

The initial contract will be for 3 to 5 years with normal leave. Apply with full curriculum vitae (3 copies) and the names of two referees to the General Secretary, LEPRA, 50, Fitzroy Street, London, W.1. (10269) 61-1

### Sir Charles Gairdner Hospital – Western Australia DIAGNOSTIC RADIOLOGIST

Applications are invited from suitably qualified Medical Officers for appointment as Diagnostic Radiologist. Applicants should hold a specialist qualification for diagnostic radiology either M.C.R.A., or F.F.R., or equivalent, and preferably have a special interest in chest diseases or neuroradiology. The appointee will be responsible directly to the Head of the Department and will be required to undertake some teaching at undergraduate and registrar level.

The Sir Charles Gairdner Hospital is a three hundred and forty bed general hospital (expanding to five hundred beds later this year), which is being progressively developed to become the major teaching hospital associated with the Faculty of Medicine of the University of Western Australia. It is anticipated that the Hospital will expand to over one thousand beds in the ultimate. A new Medical School is being constructed in the grounds. Radiological facilities are at present being expanded, which has resulted in this newly created position. Further staff expansion can be anticipated in the near future.

The position is geographically full-time and is eight-tenths salary plus 15% loading (in lieu of superannuation), and carries a right to private practice within the Hospital. The adjusted salary will be within the range \$9423 – \$9820 – \$10,369 – \$11,122 – \$11,536 – \$11,856 – \$12,394 – \$12,972 – \$13,354, depending upon qualifications and experience. A Departmental Trust Fund provides some support for research and postgraduate study.

Further conditions of service, including provision of travelling expenses and details of the Hospital are available on request from the Head of the Department.

**\*\*Information pertaining to the City of Perth and the State of Western Australia may be obtained from the Agent General for Western Australia, 115 Strand, London, W.C.2.**

A Radiologist representing the Department is visiting London and will be pleased to interview prospective applicants up to the 5th July. Contact should be made through the Agent General's office. \*\* Applications should be addressed to the undersigned and forwarded prior to the 31st July 1971.

**"All the  
coal-cellar stairs in one go—  
for the first time  
in 5 years"**

T/29

A simple achievement.  
Yet a tremendous one for the  
angina patient. Because without  
Trasicor he could only manage  
five stairs before pain  
stopped him.

Trasicor gives the angina  
patient a new lease of life.  
Protects his heart from the  
effects of excessive sympathetic  
stimulation due to physical  
and emotional stress.

But Trasicor does more  
than just relieve anginal pain.  
It exerts a continual beneficial  
action on the heart, even at rest,  
producing a fundamental  
improvement in the heart's  
efficiency. Moreover, because  
Trasicor is less likely to  
provoke heart failure than  
previous beta-blockers it can  
be used earlier and more  
widely in angina.

Tablets  
**40mg (for angina)**  
20mg (for arrhythmias)  
in 100's and 500's.  
Also ampoules 2mg

**Prescribing Notes**

*Presentation:* Grey/Green capsules each containing 10 mg. oxyperline. *Indication:* Anxiety neurosis. *Usual Adult Dose:* One capsule t.d.s. with a further one at bedtime if required. *Safety Factors:* Drowsiness and dizziness may occur at high dosage. No serious toxic reactions have been reported. Integrin may be potentiated by alcohol and other tranquillisers and patients should observe caution when driving. Care is needed if Integrin is prescribed for patients who are, or have recently been taking MAO inhibitors. *Pack & Price:* Containers of 100 capsules. Basic NHS Cost of one week's treatment (1 capsule t.i.d.) : 36p.

Integrin is a registered trade mark. Full medical literature is available on request  
Winthrop Laboratories, Surbiton-upon-Thames, Surrey.

# Integrin for anxiety!

## Found effective in 90% of patients

In recent G.P. studies, Integrin was found effective in 9 out of 10 cases. In a double-blind comparison Integrin gave relief to 9% *more* patients than did chlordiazepoxide.

## Gives more profound relief from anxiety

Seventy eight patients, most of whom were already on tranquillo-sedatives, were switched to Integrin. Their average anxiety-rating dropped to less than a third of its previous level!

In another trial Integrin gave *complete*, as opposed to partial, relief of anxiety to 35% of patients; chlordiazepoxide to only 20%.

## Lifts any depressive overlay

In contrast to the tranquillo-sedatives, Integrin actually enhances mood and restores a normal sense of well-being.

## Most patients respond within a week

Clinical trials report that up to 90% of patients obtain relief from anxiety within the first week of treatment.

# Fucidin Ointment

2% sodium fusidate B.P. in a neutral ointment base.

**The logical topical antibiotic for primary and secondary bacterial skin infections.**

Fucidin Ointment has proved clinically effective in a wide variety of common skin infections. 'Its rapid, reliable, bactericidal action against most strains of staphylococcus and streptococcus combined with its good skin tolerance and proven penetration,' make it a logical topical treatment wherever infection is present or threatens the skin.

Available in packs of 10g and 25g.
