

New power to stop pain crippling

No previous agent
has combined
such power to control
arthritic pain and
improve joint function
with such freedom from
serious side effects

Description and Presentation

PRINALGIN alclofenac (4-allyloxy-3-chlorophenylacetic acid) is a powerful new analgesic which shows marked anti-inflammatory action in animal experiments. Clinically, it has been compared favourably with phenylbutazone, indomethacin, pentazocine and morphine in well controlled double-blind trials. PRINALGIN tablets, each containing alclofenac 500 mg are available in packs of 100 and 500. (Basic N.H.S. cost of 100: £2.26)

Prescribing Information

Indications: Pain, especially in arthritis and rheumatism.

Dose: One or two tablets every 4-6 hours.

In arthritic and rheumatic conditions 2 tablets 3 times daily, reducing this initial dose as symptoms are controlled.

Side Effects: PRINALGIN is very well tolerated and there are no serious side effects. There are occasional reports of nausea and indigestion but these are rarely sufficient to warrant cessation of treatment. Occasionally cutaneous intolerance occurs but this is reversible on withdrawal of the drug. One case of possible hypersensitivity to PRINALGIN has been reported.

Precautions

There are no special precautions to be taken in the administration of PRINALGIN but, as with any drug, it should be administered with caution in cases of impaired renal or hepatic function and in diabetes.

Although animal tests in several mammalian species have revealed no teratogenic effects, as with all new drugs

PRINALGIN is not recommended during the first trimester of pregnancy.

The effect of PRINALGIN upon joint pain and function ranks with that of phenylbutazone or indomethacin, yet PRINALGIN has caused no serious side effects in any of the 4,500 patients treated in clinical trials.

PRINALGIN does not cause gastric erosions, blood dyscrasias or liver damage and has no hormonal actions.

Clinical experience with chemotherapeutic agents*

Studies of 6,500 cases treated with cephalexin

A further 5,000 patients had been treated with cephalexin and reported in the world literature since a review of more than 1,500 cases was presented to the Sixth International Congress on Chemotherapy.

The infections reported were of the urinary tract (2,238); lower respiratory tract (1,235); ear, nose and throat (892); skin and soft tissue (610); genitals (959); septicaemia (28); endocarditis (4); osteo-articular infections (87); biliary tract infections (13); peritonitis (11); and intestinal infections (45). Satisfactory responses included (a) clinical and bacteriological cure and, (b) clinical cure or marked clinical improvement without full bacteriological clearance. A summary of the results obtained in urinary tract infections is given in the table.

Urinary tract infections treated with cephalexin

Infection	Number	Per cent satisfactory response
Cystitis, acute or simple	216	92
Cystitis, chronic or complicated	105	57
Pyelonephritis, acute or simple	222	88
Pyelonephritis, chronic or complicated	440	77
Unspecified	1,255	87

*Proceedings of the VIIth International Congress of Chemotherapy, Prague, August 1971 (In Press)

In most of the acute infections treated, cephalexin had given excellent results. In certain chronic infections, particularly of the lung and bone, the response was not so rapid, but when treatment had been prolonged, clinical results had been very good. The adoption of higher doses, 4 G to 6 G or more daily, had widened the scope of cephalexin in the field of severe infections such as septicaemia and endocarditis. The results so far obtained with such infections had been encouraging although the number of cases treated was relatively small.

Even when cephalexin had been used in high dosage or for long periods, the tolerance had been good. Only rarely had treatment been discontinued because of side effects. When side effects had occurred they usually had been mild, many disappearing during treatment. Changes in haematological and biological parameters had been infrequent. There had been no evidence of nephrotoxicity. Cephalexin had been used success-

In acute cystitis 92% success rate with cephalexin

Recent reports* show that some 2,238 urinary tract infections have been treated with cephalexin, achieving 92% success rate in acute or simple cystitis and 88% success rate in acute or simple pyelonephritis.

Other clinical studies from the same publication state that "A significantly better result was obtained with cephalexin in the treatment of

sulphonamide-resistant chronic urinary tract infection than with tetracycline or ampicillin."

Ceporex is available as 250mg and 500mg tablets, capsules and syrups.

Ceporex

is cephalexin from Glaxo

*Proceedings of the VIIth International Congress of Chemotherapy, Prague, August 1971 (In Press)

fully and safely in patients with impaired renal function, although accumulation of the antibiotic might occur in such patients unless dosage were decreased according to the creatinine clearance.

'Good results' in urinary tract cases

A significantly better result was obtained with cephalixin in the treatment of sulphonamide-resistant chronic urinary tract infection than with tetracycline or ampicillin. Reporting these findings, investigators from the University of Turku, Finland, stated that they had treated with a regimen of 1G or 2G cephalixin for 14 days, 40 hospital patients of an average age of 73.9 years.

All of these patients had previously received various chemotherapeutic agents. Twenty-two of the patients were female and 18 male; seven had abnormal renal function.

The criterion for infection was a count of 10^5 organisms per ml of urine; and for cure, sterile urine three days after the end of treatment.

Of the 21 patients who were given 250mg of cephalixin four times a day, 13 were cured; and of the 19 patients who received 500mg four times daily, 10 were cured. Side effects were minimal. *Candida* was isolated from the urine of one male, and one female developed *Candida* vaginitis.

In the second part of the trial two groups of 20 patients (of average age 70 years) who also had sulphonamide-resistant urinary tract infection received either tetracycline or ampicillin. A 40 per cent cure rate was obtained in each group – compared with 60 per cent among the patients treated with cephalixin.

For your detailed reading
Ceporex cephalixin

Contra-indication

Ceporex is contra-indicated in persons who have shown hypersensitivity to cephalosporins.

Precautions

In patients treated with Ceporex, a false-positive reaction for glucose in the urine may occur with Benedict's or Fehling's solutions, or with 'Clinitest' tablets, but not with enzyme-based tests such as 'Clinistix'.

Ceporex is usually tolerated well by patients allergic to penicillin, but cross-reaction can occur occasionally.

As with other antibiotics, Ceporex should be administered with caution in patients with a history of allergy, especially to drugs. When renal function is markedly reduced, Ceporex will accumulate in the serum and tissues unless dosage is suitably reduced.

Laboratory experiments with animals and clinical experience show no evidence of teratogenicity, but as with all drugs, caution is needed during pregnancy.

Adverse reactions

A small proportion of patients receiving Ceporex may experience gastrointestinal disturbances such as nausea, vomiting, diarrhoea, anorexia and general abdominal discomfort. As with all broad-spectrum antibiotics, superinfection (sometimes monilial) can occur, and may present as vulvo-vaginitis.

Reversible neutropenia has occurred in a few patients, but is very rare.

Generalised drug rashes – urticarial or maculopapular – are uncommon.

Administration and dosage

Ceporex is administered orally. Treatment should continue for at least two days after the temperature has returned to normal and symptoms have subsided. However, in chronic, recurrent or complicated upper urinary tract infections a course of at least two weeks' duration may be necessary.

When renal function is considerably impaired, the dosage should be reduced. If the creatinine clearance is 20 to 50ml/minute, the adult dosage of Ceporex should not exceed 3 grams/day; if between 5 and 20ml/minute, not more than 1.5 grams daily; if the clearance is below 5ml/minute, dosage should not exceed 500mg/day.

Patients receiving intermittent dialysis should be given an additional 500mg of Ceporex after each dialysis, i.e., a total dosage of up to 1 gram on that day.

Ceporex stands for clinical success and low incidence of side effects

Recent clinical results with cephalixin confirm the extremely low incidence of side effects accompanying the high clinical success rate.

"Even when cephalixin had been used in high dosage for long periods, the tolerance had been good. Only rarely had treatment been discontinued because of side effects. When side effects had occurred they usually had

been mild, many disappearing during treatment."*

"No cross sensitivity was seen with cephalixin in the eight patients with a history of penicillin hypersensitivity."*

It all adds up to the simple fact that in acute cystitis and pyelonephritis, you can trust Ceporex to reduce the risks and improve the results.

Brighter prospect for angina patients

Atromid-S trial results

Two double-blind trials.

One in the North East of England, the other in Scotland, involving 1214 patients, 55 physicians, up to 5 years duration — show that in the angina or angina plus infarct sub-groups the death rate and rate of non-fatal infarcts was reduced by about half. In both trials 'Atromid'-S was shown to be remarkably safe even after long-term continuous treatment.

The results speak for themselves.

	SCOTTISH TRIAL	NORTH EAST TRIAL
Death rate reduced by	62%	55%
Non-fatal infarcts reduced by	44%	39%
All events reduced by	53%	47%

How Atromid-S reduces mortality and morbidity in angina patients

Results of both trials in patients with angina only

Rate/1 200 patient months

	NORTH EAST		SCOTTISH	
	Atromid-S	Placebo	Atromid-S	Placebo
DEATHS	1.87	3.99	1.54	2.40
NON-FATAL INFARCTS	1.95	5.13	1.58	2.26
	(P < 0.05)			

Despite the unexpectedly and unusually low mortality rate in the Scottish trial (expected rate 4-9%), the 'Atromid'-S treated group showed a better result than placebo in patients with angina but without infarction.

"Both trials agree in showing a significant reduction in mortality, especially in sudden deaths, and in total events when clofibrate ['Atromid'-S] is given to patients who had angina."

Brit. med. J., (1971), 4, 784-786

Results of both trials in patients with myocardial infarction plus angina

Rate/1 200 patient months

	NORTH EAST		SCOTTISH	
	Atromid-S	Placebo	Atromid-S	Placebo
DEATHS	3.36	7.87	1.44	6.86
	(P < 0.01)		(P < 0.01)	
NON-FATAL INFARCTS	5.30	6.86	2.99	6.87

These results clearly indicate a significant reduction in mortality and a lowering of the non-fatal infarct rate (more marked in the Scottish trial) in this group of patients.

"... it is nevertheless clear that patients taking clofibrate ['Atromid'-S] were protected (against death) if they had a history of angina or of both angina and myocardial infarction."

Brit. med. J., (1971), 4, 767-775

THE NEW GENERAL PRACTICE 2

from the British Medical Journal

What important developments are there in General Practice? Does the General Practice Team work successfully? What is the Family Doctor's future role in the Hospital Service? These and other questions are answered in **The New General Practice 2** which, published two years after the first volume in this series, also deals with topics such as the use of computers, plans for the new towns, and Scandinavian developments in general practice. This second volume contains 27 articles published in the **B.M.J.** in the last two years. The introduction has been written by Professor J. D. E. Knox, Professor of General Practice at Dundee University.

In urinary tract infections

Lick them with liquorice !

The nausea, vomiting and gastric side effects associated with nitrofurantoin are now effectively prevented by the addition of deglycyrrhizinated liquorice in CEDURAN tablets. In 82 patients¹ previously completely intolerant of nitrofurantoin, there was virtually a total absence of gastric side-effects when they were treated with CEDURAN. In a recent survey² of the sensitivities of urinary pathogens, nitrofurantoin was one of the only three preparations recommended as primary oral treatments. And in a further report,³ nitrofurantoin had the lowest number of resistant strains of the agents studied.

At the first sneeze of summer...

RYNACROM[®]

Sodium Cromoglycate BP for hay fever

In the form of Intal, Sodium Cromoglycate is already proven as a valuable anti-allergic therapy.^{1,2} The introduction of Rynacrom now makes Sodium Cromoglycate available for the control of symptoms of hay fever. Administration is by a specially-designed nasal insufflator that is recharged with a Rynacrom capsule at each application.

Clinical trial results show that Rynacrom significantly reduces rhinorrhoea and nasal obstruction in hay fever and that the treatment is easy and well accepted by patients.³ A characteristic feature of this therapy is the

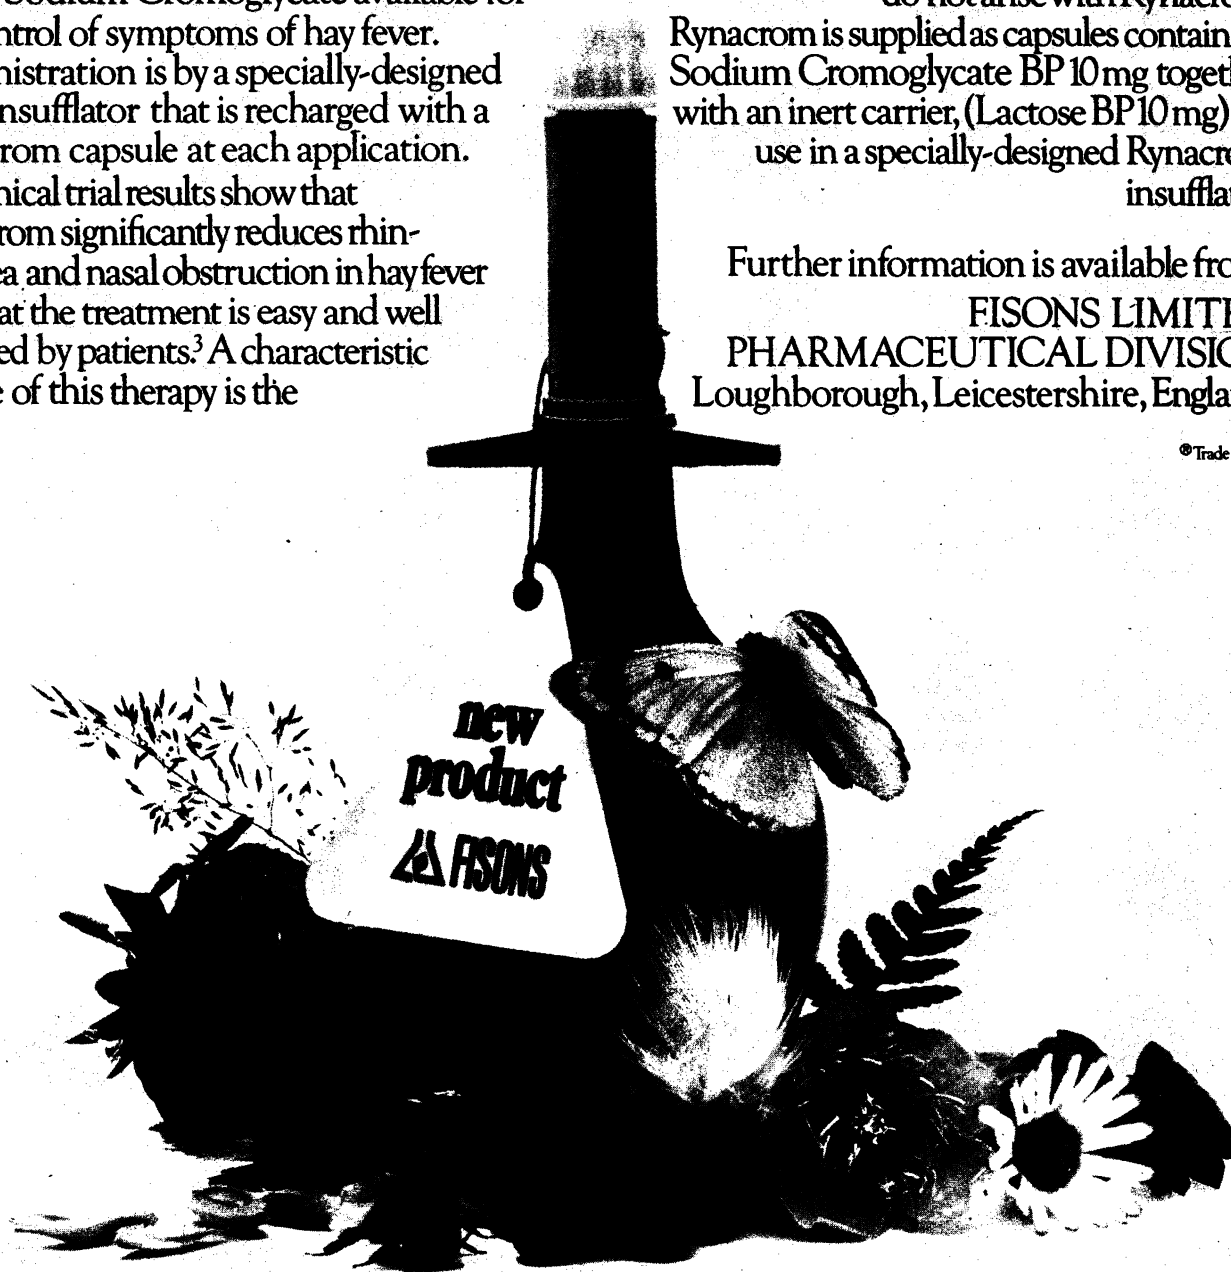

extremely low incidence of side effects.^{1,2,3}

For this reason many of the problems of conventional hay fever therapy do not arise with Rynacrom.

Rynacrom is supplied as capsules containing Sodium Cromoglycate BP 10 mg together with an inert carrier, (Lactose BP 10 mg) for use in a specially-designed Rynacrom insufflator.

Anything less than full support for topical hydrocortisone is undesirable

In addition to the production of contact dermatitis, the dangers of the selective action of topical antibiotics in the treatment of infected dermatoses are now well-recognised.⁽¹⁾

Experimental studies⁽¹⁾ have shown, that even in healthy subjects, pyoderma developed following occlusive treatment with neomycin. It was concluded that these experiments "do emphasize the dangers which can follow the alteration of the normal flora of the skin." In view of the variety of hazards associated with topical antibiotics, it was also stated: "...serious doubt must now be cast on their routine use."

In Betadine® H/C Cream, povidone-iodine provides ideal support for hydrocortisone because it kills all pathogenic and potentially pathogenic organisms within 15 seconds of contact. "It does not allow the emergence of antibiotic resistant strains as it kills pathogenic organisms in an unselective manner."⁽²⁾

Betadine Ointment, which has no hydrocortisone

acetate content, is also available when purely antimicrobial therapy is required.

Just Published

GYNAECOLOGY IN GENERAL PRACTICE

from the British Medical Journal

As in other branches of medicine, the pattern of gynaecological problems likely to be encountered by the general practitioner will probably change in the future. Moreover, many doctors now in practice were taught little about some of the topics which are important today and are likely to become even more so.

In 1971 the *B.M.J.* published a series of articles in the "Medical Practice" section discussing the management of various gynaecological disorders in a domiciliary setting. These have now been collected together as a booklet entitled *Gynaecology in General Practice* and provides a useful and up-to-date account of gynaecology in general practice.

Hypertension. Introduce her to treatment gently with Neo-NaClex-K.

When a patient is new to hypertension, Neo-NaClex-K makes it a lot easier to live with.

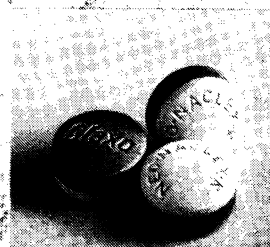

Easier, because just once-a-day treatment can control the mild to moderate case.

Easier, because her sleep won't be disturbed by diuresis during the early days of treatment.

Easier, because postural hypotension won't be something she'll wake up to.

And even in severe hypertension you can still keep her on Neo-NaClex-K in conjunction with minimal doses of a more potent antihypertensive. So you can control the severe condition with less risk of side effects.

Neo-NaClex-K is a unique two layered tablet containing bendrofluazide to lower blood pressure safely and surely, plus a potassium supplement to replace any loss. And right from the start, it provides a gentle introduction to the long-term treatment your new hypertensive patient may need.

Recent Advances in Geriatric Medicine

A 3-day Residential Course
12th-14th September, 1972
Walton Suite, Southern General Hospital
Speakers on this course will be well known authorities in various aspects of Geriatric Medicine from America, Europe and the United Kingdom and they will be discussing the advances in their respective fields. The Registration Fee of £15 includes single bedroom accommodation in a Hall of Residence, breakfast, morning coffee, lunch and afternoon tea, but not other meals. Wives may attend the Course as Associate Members and a fee of £7.50 will be charged for their accommodation. A social programme is planned.

Applications should be made to the Dean of Postgraduate Medicine, The University of Glasgow, Glasgow G12 8QQ, with a remittance enclosed. Cheques should be made payable to the University of Glasgow. A proportion of places will be reserved for applicants from outside the United Kingdom and anyone desiring further information should write to the Dean of Postgraduate Medicine. (19641) 2

THE M.R.C.P. EXAMINATIONS

We deal exclusively with these examinations. The course is completely up to date and contains: Communications discussing all aspects of Internal Medicine *X-rays, E.C.G.'s, and pathology forms, all with model answers *Colour slides and viewer with questions and model answers *Essay and short note questions *Multiple choice questions with detailed analyses of answers *Personal guidance and assessment is given throughout. Write for details and your initial assessment to: Medical Tutors Ltd, 113 Seven Sisters Road, London. N.7. 2

INSTITUTE OF BASIC MEDICAL SCIENCES

Royal College of Surgeons of England

British Postgraduate Medical Federation

(University of London)

A limited number of students will be accepted for a six-week course of tutorials in anatomy, pharmacology, physiology, pathology and biochemistry from 29th August to 6th October, 1972.

This course is suitable only for students who have already completed a general course of instruction in the basic medical sciences. The fee will be £60.

A course of lectures in physiology, pharmacology, physics, clinical chemistry and clinical measurement, extending over a period of eight weeks, will begin on 1st January, 1973.

This course is designed for postgraduate students wishing to specialise in anaesthesia and will include tutorials and demonstrations for small groups. The fee will be £70.

All enquiries and applications should be made to Mr. W. F. Davis, Secretary, Institute of Basic Medical Sciences, Royal College of Surgeons of England, Lincoln's Inn Fields, London WC2A 3PN. Telephone 01-405 3474, Ext. 43. (19608) 2

ROYAL COLLEGE OF PHYSICIANS

"GROWING POINTS IN MEDICINE"

The programme for the session on Wednesday 12th April is as follows. It will begin at 2.00 p.m. and continue until about 6.00 p.m. with a break for tea. There is no charge for the session and all doctors are welcome to attend.

Required 1st June, 1972. Valuable experience in medicine, surgery and casualty work, particularly for practitioners intending to enter general practice. Furnished or unfurnished house available at reasonable charge.
Apply: Hospital Secretary, Devizes and District Hospital, Devizes, Wiltshire. (30490) 11

SITUATIONS WANTED

FORMER REGISTRAR with experience in obstetrics and gynaecology wishes work in a lincenced private clinic in Bristol, Reading, and London area. Work in connection with the Abortion Act not objected to. Box 4381 BMJ. 13

M.S., F.R.C.S. seeks assistantship/associateship/succession in private surgical practice, London. Box 4179 BMJ 13

South-Eastern Regional Hospital Board, Scotland Vocational Training for General Practice

Applications are invited for places in the rotational training schemes in preparation for General Practice which is due to begin in this Region on 1st October, 1972. These posts will all be in the senior house officer grade and they cover a three year training period, the first and third years being in hospital specialties as noted below.

- Based on the Edinburgh Northern Group of Hospitals**
Four vacancies are due to be filled. The successful candidates will do:—
 - a five-month period of training in General Medicine at the Western General Hospital or the Northern General Hospital.
 - a five-month period in Accident and Emergency at the Western General Hospital.
This first period will be followed by one year as a trainee in General Practice.
 - a period of six months in Obstetrics and Gynaecology at the Eastern General Hospital.
or
a period of six months in Paediatrics at the Western General Hospital.
 - a period of six months in Geriatrics at the Eastern General Hospital.
or
a period of six months in research at the Western General Hospital.
- Based on the Royal Infirmary of Edinburgh**
Two vacancies are due to be filled in this scheme. The successful candidates will do:—
 - a five-month period of training in General Medicine.
 - a five-month period in the Geriatric Assessment Unit.
This first period will be followed by one year as a trainee in General Practice.
 - a period of six months in Obstetrics and Gynaecology.
 - a period of six months in Accident and Emergency.
- Based on the Fife Hospitals**
Two vacancies are due to be filled in this scheme. The successful candidates will do:—
 - a five-month period in General Medicine at Milesmark Hospital, Dunfermline.
 - a five-month period in Obstetrics and Gynaecology at Dunfermline Maternity Hospital.
This first period will be followed by one year as a trainee in General Practice.
 - a period of six months in Paediatrics at the Victoria Hospital, Kirkcaldy.
 - a period of six months in the Accident and Emergency Department, Kirkcaldy.

In each of these schemes arrangements are being made for training and experience in other specialties of interest to general practitioners. This will be done by release schemes for example to the Out-Patient Departments in E.N.T., Ophthalmology and Dermatology. Candidates should indicate whether they wish to be considered for all schemes or one particular scheme.

Further particulars may be obtained from the Secretary to the Regional Hospital Board at 11 Drumsheugh Gardens, Edinburgh, with whom applications should be lodged not later than 29th April, 1972. Applications should be typewritten and should give particulars of age, qualifications and previous experience, together with the names and addresses of two referees. (19586) 11

FELLOWSHIP AWARDS

BRITISH HEART FOUNDATION AND AMERICAN HEART ASSOCIATION

The British Heart Foundation invites applications for Research Fellowships for cardiovascular research in the United States for the academic year 1973/74.

The Fellowships are open to graduates in medicine or science who are British subjects resident in the United Kingdom. The stipend offered is \$9,000 per annum, increased by \$600 for each dependant. Economy travel to and from the United States for the Fellow and one dependant will be paid by the Foundation. The applicant is expected to have made provisional arrangements with the host institution in the United States before submitting an application.

Further particulars and forms of application may be obtained from the Medical Administrator, British Heart Foundation, 57 Gloucester Place, London W1H 4DH, to whom completed forms should be returned not later than 31st August, 1972.

(H5488)

14-2

RESEARCH AWARDS

BRITISH HEART FOUNDATION RESEARCH AWARDS

The British Heart Foundation invites applications for medical and scientific research grants for investigations in the field of cardiovascular disease and related subjects. Application forms and further details may be obtained from the Medical Administrator, British Heart Foundation, 57 Gloucester Place, London W1H 4DH. The closing date for the receipt of completed forms and details is 5th May, 1972 for consideration at the next meeting of the Research Funds Committee.

(H5487)

No late applications will be considered

14-3

Clinical Research

Squibb, which is one of the world's leading and expanding pharmaceutical companies is looking for an experienced doctor to work in the U.K. Medical Department. The post will encompass the whole range of medical advisory duties, but most of the time will be spent in the development of new and existing drugs in both the United Kingdom and to a lesser extent Scandinavia.

Ideally we hope to find a doctor between the ages of 30 and 45 with previous experience in the industry. Preference would be given to someone with a specialist knowledge of psychotropic drugs, but none of these factors are essential.

In order that he should keep up to date with progress in medicine, he will be encouraged to attend courses, symposia etc., and to take up a clinical assistantship at a nearby hospital.

Prospects are good, the salary is attractive and there are numerous company benefits including a car, non-contributory pension fund, life assurance and free membership of B.U.P.A.

Applications with details of education and experience should be sent to:

Dr. G. R. Daniel, Medical Director,
E. R. Squibb & Sons Limited, Regal House, London Road, Twickenham TW1 3QT

(H5412) 15

Roussel Laboratories Limited

Roussel Laboratories Limited is a member of a large international group researching, developing, manufacturing and marketing throughout the world a wide range of pharmaceutical and other compounds.

As a result of increasing research activity in the United Kingdom and the impending development of new pharmaceutical compounds, we wish to appoint a clinical pharmacologist to our Research Staff and an additional medical adviser to our Headquarters Staff.

CLINICAL PHARMACOLOGIST

The Clinical Pharmacologist will work in a research environment in newly built laboratories and will be responsible to the Director of Research and Development. He will be part of a young and dynamic team supported by the necessary scientific disciplines. He can expect to collaborate with scientists in other parts of the group research activity at home and overseas. The R. & D. Division at Swindon is conveniently situated for contact with several university centres including Oxford, Bristol and Cardiff. Candidates should hold a British medical qualification, be registered with the G.M.C., and either be trained in clinical pharmacology or have been involved in metabolic work, human pharmacology or toxicology and be anxious to undergo further training in their speciality.

MEDICAL ADVISER

The Medical Adviser will be joining a small team of doctors and scientists at the Company's headquarters in North-west London. He will be responsible to the Director of Medical Services and will assist in the planning and execution of clinical evaluation of compounds emanating from the R. & D. Division and from other sources. He will share the servicing of existing products and representative training. He will liaise with R. & D. and with the Marketing department. Applicants should hold a British medical qualification, be registered with the G.M.C. and preferably have had previous experience in general practice. Experience in the industry, whilst an advantage, is not essential provided the applicant is enthusiastic and determined to make a career in this work. The doctor who is appointed to this position will be expected to travel at home and overseas and to be keen to meet and converse with doctors at all levels of seniority.

The doctors appointed will be required to join the Company's contributory superannuation scheme and will be entitled to free life, accident and BUPA insurance. A company car will be provided and salary will be negotiated. Financial assistance will be given if home removal is necessary.

Applications marked "Private and Confidential" should be sent to:

Dr. F. Fried, The Director of Research and Development, Roussel Laboratories Ltd.,
Kingfisher Drive, Covingham, Swindon, Wilts.
(19609)

Dr. N. O. Eve, The Director of Medical Services,
Roussel Laboratories Ltd., Roussel House,
Wembley Park, Middlesex HA9 0NF

SPECIAL APPOINTMENTS

DOMICILIARY SERVICE IN BROMLEY

Applications are invited from F.P.A. trained doctors for domiciliary visiting in the London Borough of Bromley. A one doctor, one nurse team will be required to work approximately 2½/3 hours per week with some evening work. Rates of pay will be: Long Visit £1.80, Short Visit 90p, Unproductive Visit 60p. A short visit is defined as less than a quarter of an hour, a long visit is more than a quarter of an hour. All applicants must be car owners. Mileage rate 5p per mile.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body which is available on request from the Secretary.

HARLAND AND WOLFF LIMITED BELFAST

Industrial Medical Officer

A full-time Medical Officer is required for our Belfast Works.

The successful candidate will be between the ages of 30/45 and will have had experience in Casualty Work.

Administrative and/or Service experience would be an advantage as would the possession of a D.P.H. or D.I.H. but the latter will not be obligatory.

A successful candidate without the D.I.H. will be granted study leave, after about 2 years service, to take this qualification.

Salary will be related to qualifications and experience and will be within the B.M.A. Recommended Scale.

Particulars and names of two referees should be sent to arrive as soon as possible, to:-

THE PERSONNEL DIRECTOR
HARLAND AND WOLFF LIMITED, BELFAST BT3 9DU
(H5436) 16

INDUSTRIAL APPOINTMENTS

INDUSTRIAL MEDICINE

Additional medical officers are required by Michelin for its well established occupational health service. One will be based at the Company's largest UK factory in Stoke-on-Trent and the other will cover the Company's two factories in Northern Ireland at Newtownabbey and Ballymena.

These posts are likely to be suitable for recently qualified practitioners who are keen to enter the field of occupational medicine. If necessary, arrangements will be made for the selected candidates to undertake the Certificate in Industrial Health course at Dundee University. Additionally, general management and further professional training will be undertaken within the Company before taking full responsibility for the posts.

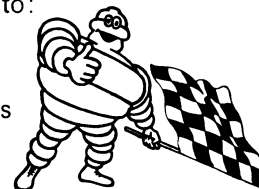

Salary not less than BMA recommended rates. Assistance, where appropriate, with housing and removal is available.

Details of training and any experience should, in the first instance, be sent to:

D. C. Jeffrey, (S.96/BMJ)

Michelin Tyre Co. Ltd,
Stoke-on-Trent ST4 4EY.

Initial interview arrangements will be made at places and times to suit applicants.

APPOINTMENTS

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1969, No. 163).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years; subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £2,328 per annum x £144(3) x £126(1) - £2,886. Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £2,760 per annum x £126(1) x £174(1) x £177(1) x £174(1) x £177(1) - £3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,721 per annum x £156(1) x £168(3) x £156(9) x £153(1) - £4,938.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

CONSULTANT: £4,512 per annum x £246(1) x £258(5) x £261(2) x £270(1) - £6,840.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

These posts will provide a ten-month appointment in the senior house officer grade in Medicine at the Royal Infirmary of Edinburgh or at the Western General Hospital, Edinburgh. Subject to satisfactory reports at the end of this period the trainees will be appointed in the Registrar grade without further advertisement and will spend one year in General Medicine in the Deaconess Hospital, Edinburgh, or in the Milesmark Hospital, Dunfermline. On completion of this year the training programme will be completed by a further appointment in the Registrar grade for six months to the Department of Neurology at the Northern General Hospital, Edinburgh, and six months in the Diabetic and Dietetic Department at the Royal Infirmary, Edinburgh. The appointment will run from 1st October, 1972 to 31st July, 1975.

Applications, which should be typewritten giving particulars of age, qualifications and previous experience, together with the names and addresses of two referees, should be lodged with the Secretary, 11 Drumsheugh Gardens, Edinburgh EH3 7QQ, within two weeks of the date of this advertisement. (19590)

48-8

UNITED MANCHESTER HOSPITALS
Manchester Royal Infirmary, Manchester 13

Applications are invited for four posts of **ROTATING SENIOR HOUSE OFFICERS** to commence 18th May 1972, 7th June, 1972; 1st July, 1972; 22nd July, 1972 respectively. These are training posts recognized for the F.R.C.S. requirements and which rotate between general surgery, accident surgery and orthopaedic surgery. The appointments are full time mainly non-resident and tenable for six months renewable for a second six months.

Application form obtainable from the Assistant Administrator, Surgical Area, Manchester Royal Infirmary, Manchester M13 9WL, to be returned by 22nd April, 1972. (30860) 48-8

WREXHAM, POWYS AND MAWDACH HOSPITAL MANAGEMENT COMMITTEE

RESIDENT SENIOR HOUSE OFFICERS (Required from 1st May, 1972)

The above post is a rotational appointment in Traumatology (including Accident Department) Orthopaedic and General Surgery at the Wrexham Hospitals under the supervision of the Consultant in Traumatology and Orthopaedic Surgery and the Consultant Surgeons. Excellent facilities for further studies are available at the Wrexham Postgraduate Centre — residents interested in Orthopaedics and/or General Surgery may participate in the teaching activities of the respective Departments including visits to the Robert Jones and Agnes Hunt Orthopaedic Hospital, Oswestry, and tutorials held by the Consultant General Surgeon. The post is approximately of 18/24 months duration and is recognized for the Diploma F.R.C.S. (England, Edinburgh, Glasgow and Ireland). Married accommodation is available if required.

Application forms available from Hospital Secretary, Maelor General Hospital, Wrexham to be returned within 7 days. (19427) 48-8

OVERSEA

Medical doctor

Philips-Duphar is as a pharmaceutical chemical industry part of the group of Philips' companies.

As a result of an increase in the number of original products in research and development in the pharmaceutical division, it has become necessary to increase the size of our central clinical research department.

We are looking for a qualified medical doctor with some post-graduate experience in a specialty, general practice or research in an university or pharmaceutical company.

The succesful applicant will be involved in the planning, design, execution and evaluation of clinical trials and human pharmacological experiments at all stages of research from the first human studies onwards. He would be expected to take full responsibility for his division of research. A certain amount of European and intercontinental travel is involved.

Our research laboratories are situated about 20 km. from the centre of Amsterdam and it would be possible to live in an urban, suburban or rural environment according to preference. Assistance will be given, if needed, in finding accommodation and in choosing schools for children. In addition Dutch lessons will be provided for the succesful applicant and his wife.

Fringe benefits and salary will compare favorably with similar positions in the industry.

Applicants should apply in writing to Mr. T. Benschop, Personnel Department of the N.V. Philips-Duphar, P.O. Box 2, Weesp, Holland.

N.V. PHILIPS-DUPHAR.

LOCUM ANAESTHETIST required for Hong Kong Group Practice six months from mid-April. Duties primarily anaesthetics, but some general practice. Salary £300 per month plus living and car allowance. Order from: The Subscription Manager, British Medical Journal.

TOWN of Rainy River, Ontario, serving an area of 480 sq. miles and a population of 3,000. 180 miles from Winnipeg. This is a tourist, forestry, fishing and railroading area. There is one resident doctor serving the area only part-time due to ill-health. A modern, attractive medical centre available in the 16 bed hospital. Schools, Churches — Recreation facilities. This area is designated as underserved by the Ontario Department of Health and physicians who will establish practice here may apply to the Department for a contract with a guaranteed annual income of \$33,000 or Incentive Grant of \$20,000. Apply to: H. A. Solomonian, Clerk-Treasurer, P.O. Box 220, Rainy River, Ontario. 807-852 3244. 61-1

U.S.A. Orthopaedist to join group of two Mid-Eastern U.S. Substantial guarantee first year. Full partnership third year. E.C.F.M.G. necessary for immediate state licensure. Apply Dr. W. R. Barton, Central Union Building, Wheeling, West Virginia 26003, or call collect (area code 304) 2321522. 61-1

UNITED STATES. Hospital Internships and Residencies available. University and non-university affiliated hospitals. Wide choice. Submit curriculum vitae to: International Medical Exchange, 1250 Portland Avenue, Rochester, New York, 14621, U.S.A. Interviews may be arranged. 61-1

UNITED HOSPITAL OF THE WEST INDIES

RESIDENT IN CASUALTY
Applications are invited from RESidents (Post-registration Officers) for posts of Resident in our Casualty Department. The post is tenable for six months but a candidate recruited from outside Jamaica and for whom a return passage (by sea or air) is provided, will be offered a contract for one year covering two appointments of six months each.

Salary will be paid at the rate of \$4,956 per annum, less a deduction of \$312 per annum for board and lodging. In addition, a duty allowance of \$400 per annum is payable. Permission to live away from the Hospital will be given if easy communication with the Casualty Department can be arranged. Where an officer on contract is not superannuated or superannuable, such officer will be eligible for a Gratuity equivalent to 10% of salary, in respect of every three months of actual satisfactorily completed service with the Hospital. Gratuity is payable at the end of the agreed period of service. The Casualty Department not only deals with emergencies for this Hospital but also offers very valuable training and experience in dealing with all the diseases that are common in this community, especially paediatrics, gynaecology and adult medicine. The following are the full complement of permanent posts in the Department: A Consultant, a Registrar and six Post-registration House Officers.

Applications should be sent immediately to the Hospital Manager and Secretary, University Hospital of the West Indies, Mona, Kingston 7, Jamaica, West Indies, together with the names and addresses of three

referees. The successful candidate would be expected to assume duties on the 1st July, 1972. (H5514) 61-1

UNIVERSITY HOSPITAL OF THE WEST INDIES

REGISTRARS IN MEDICINE

Applications are invited for the posts of Registrar in the Department of Medicine, University Hospital of the West Indies, Mona. The post is tenable for one year in the first instance with renewable contracts on negotiation. The University has a 500 bed Hospital with 100 medical beds, situated on the University Campus outside of the Metropolitan Area. There is a wide range of clinical medicine available. Successful applicants will work in close conjunction with the University's Consultants in the supervising and day-to-day care of in-patients, and assist in out-patient clinics. In addition, successful applicants will be required to assist in under-graduate teaching. Close to the Hospital is an M.R.C. Unit in Tropical Metabolism. The staff of this unit is willing to advise and assist in prospective research projects for individuals who wish to pursue research while at the University Hospital. The successful candidate (Overseas) will be provided with a single passage from and to the country of recruitment (up to the maximum of the cost of an economy fare from the United Kingdom to Jamaica) at the expiration of the contract. The salary attached to the posts is J\$5,256.00, J\$5,556.00 and J\$5,856.00 per annum depending on experience and qualifications.

Gratuity: Where an officer on contract is not superannuated or superannuable, such officer will be eligible for a gratuity to the extent of 10% of salary in respect of every three months of satisfactorily completed service with the Hospital. Gratuity is payable at the end of service.

Accommodation: The Board provides furnished accommodation at a rental of the equivalent of 10% of salary (up to a maximum rental of J\$360.00 (£180) per annum) in addition to a flat charge of J\$10.00 (£5) per month for furniture plus J\$6.00 (£3) per month for electricity. However, payment of a house allowance at the rate of J\$500.00 (£250) per annum for married officers and J\$400.00 (£200) per annum for unmarried officers will be made only if Hospital accommodation is not available.

In the case of one-year appointments, passages are normally provided for one person only. Officers on two year contracts are eligible for passages for their families up to a maximum of three children. The successful candidates would be expected to assume duties on 1st July, 1972.

Further information and conditions of service may be obtained from the Hospital Manager and Secretary, University Hospital of the West Indies, Mona, Jamaica, to whom applications, stating age, marital status, nationality, details of qualifications and experience, together with the names and addresses of three referees should be sent immediately. (H5512) 61-1

MICHAEL STARR INTERNATIONAL LTD

OPPORTUNITIES FOR QUALIFIED MEDICAL PRACTITIONERS IN NEW YORK, U.S.A.

Opportunities exist for five interns in the 275-bed White Plains Hospital, New York. Salary offered \$10,000 per annum (approximately £3,850). The appointments are for rotating internships, including at least four months medicine or a four month surgery programme, adaptable to individual requirements.

White Plains is a modern hospital situated in a beautiful residential area less than 30 minutes from New York City, with excellent educational facilities, shopping areas and convenient transport. Two-bedroom and four-bedroom flats are available at \$127 and \$155 per month respectively (approximately £48 and £59).

Dr. Lippman of White Plains Hospital will be interviewing in London on 14th and 15th April.

Please telephone to arrange an appointment. Interviews will be held at Suite 4, 38 Savile Row, London, W.1. Telephone 01-734 4316. 61-1

MEDICAL DIRECTOR

Applications are invited for the position of Medical Director in the Victoria General Hospital, Halifax, Nova Scotia, Canada.

The Medical Director will be responsible to the Executive Director for co-ordinating of Clinical Departments, Medical Services, and Educational Activities; also Paramedical Services and Education.

MINIMUM QUALIFICATIONS:

A graduate of a recognized school of Medicine as well as a diploma in hospital administration, hospital services administration, social medicine, or an equivalent. Consideration will be given to applicants with medical or hospital administration experience in lieu of a diploma in one of the above mentioned.

SALARY:

Commensurate with qualifications and experience.

For further information write to:

Executive Director
Victoria General Hospital,
Halifax, Nova Scotia,
Canada.

Application forms may be obtained from the Nova Scotia Civil Service Commission, P.O. Box 943, Johnston Building, Halifax, Nova Scotia, Canada. (19117) 61-1

WORLD HEALTH ORGANISATION AND COUNCIL OF EUROPE FELLOWSHIPS 1973

A small number of fellowships for study abroad will be awarded in 1973 by the World Health Organisation and the Council of Europe. These are available to registered medical practitioners, dental practitioners, state registered nurses and other professional personnel engaged in the health services, medical education, or medical research in the United Kingdom.

The fellowships are awarded normally for periods of two weeks to one month. Only in exceptional cases can periods longer than this be considered. In each case the fellows are given a monthly allowance of approximately £110 per month (the amount varying with the country or countries visited), together with all travelling expenses.

Applicants should be of at least five years standing in their profession and able to assess critically their visits and studies abroad so as to utilise the experience for the benefit of the health services of the United Kingdom. They will be expected to continue in the health services of the United Kingdom for at least three years after holding a fellowship.

Application forms for fellowships to be taken up in 1973 may be obtained:

- By those resident in Scotland from:
The Secretary,
Scottish Home and Health Department,
12/14 Carlton Terrace, Edinburgh EH7 5DG.
- By those resident in Wales:
The Secretary, Y Swyddfa Gymreig,
Welsh Office,
Health Department, Cathays Park, Cardiff CF1 3NQ.
- By those resident in Northern Ireland from:
The Secretary, Ministry of Health and Social Services,
Dundonald House, Upper Newtownards Road, Belfast 4.
- By others from:

The Secretary,
Room B102,
Department of Health and Social Security,
Alexander Fleming House, Elephant and Castle,
London, S.E.1.

Envelopes should be marked "W.H.O. and Council of Europe Fellowships." The completed application form should be returned to the office from which it was obtained not later than Saturday, 27th May, 1972. (19524) 61-1

AUSTRALIA MEDICAL OFFICER

St. Mary's (Tasmania)

Part-time Superintendent of the St. Mary's District Hospital in north-east Tasmania (with an annual retainer of \$A2055) plus a very substantial

PRIVATE PRACTICE

The Hospital Board also makes available an attractive, fully furnished house at a monthly rental of \$A63.70 and this includes the use of a surgery at the residence. This is the only private practice in the town and it covers quite a large rural district. As it goes with the post of hospital superintendent, there are no costs for "goodwill".

The Hospital has 32 beds for general medical and midwifery cases and complete base facilities exist at Launceston 80 miles away.

Interested doctors in U.K. should write to the Agent General for Tasmania, 458 Strand, London WC2R 0RJ, for application forms and further information. Initial enquiries should arrive before 26th April. (19573)

61-1

MEDICAL DIRECTOR

A challenging opportunity awaits the right physician in St. John's, Newfoundland, Canada.

Construction of a new 340 bed active treatment facility is scheduled to begin this year. This, together with the existing hospital (presently 350 beds) will form part of a Health Sciences Complex on the Campus of Memorial University. The existing hospital is fully accredited and is the major teaching hospital for the new Medical School.

The Medical Director will be responsible for the professional service departments and activities of the organized medical staff. The successful applicant will be involved in undergraduate and/or postgraduate medical education. A major opportunity presents itself for participation in the planning and organization of the Complex.

Applicants should be graduates of a recognized Medical School with postgraduate training in hospital or health care administration. However, consideration will be given to physicians without formal administrative preparation, but who have had appropriate experience.

Salary commensurate with qualifications and experience. Application outlining qualifications, experience, etc. should be forwarded to:-

SECRETARY,
GENERAL HOSPITAL CORPORATION,
FOREST ROAD,
ST. JOHN'S - NEWFOUNDLAND

(H5499)

Trends in Clinical Pathology

Essays in Honour of Gordon Signy

This book is no pious collection of personal tributes but a survey of the old and the new disciplines in clinical pathology since the second world war — research in atherosclerosis and ischaemic heart disease, progress in medical virology, microbiology and cytology, the impact of antibiotics on medical bacteriology, chemical pathology and also molecular defence, haematology in mid-century, including haemostasis and blood transfusion. The place of fibrin in the story of hyalin is another modern study, so also is that on automation. The outlook on some members of the family Enterobacteriaceae is changing, and the 'old' forensic medicine is indeed new. And those pathologists working in the under-developed countries are not forgotten. The contributors are internationally renowned.

NON-MEMBERS' RATE: Minimum charge £2.45 for twelve words and a Box Number; or £2.40 for eighteen words including name and address or telephone number. Additional words at the rate of 80p for each six or less. Box Number address counts as six words, and 5p to be added for postage.

PUBLIC APPOINTMENTS: Hospitals; Public Health; the Services; University and Research and other medical situations; Practices (Executive Councils) and Non-Medical Posts. Minimum charge £2 for four lines and 50p for each additional line. Box Number address counts as one line, and 5p to be added for postage.

COMMERCIAL AND INDUSTRIAL APPOINTMENTS: Minimum charge £2.80 for four lines and 70p for each additional line. Box Number address counts as one line, and 5p to be added for postage.

EDUCATIONAL NOTICES, MEETINGS AND HOMES: Minimum charge £2.20 for four lines and 55p for each additional line. Box Number address counts as one line, and 5p to be added for postage.

GENERAL AND COMMERCIAL (TRADE): Notices; Accommodation; Consulting Rooms; Houses and Property; Travel; Hotels; Nursing, Medical and Secretarial Agencies; Commercial. Minimum charge £2.70 for eighteen words. Additional words at the rate of 90p for each six or less. Box Number address counts as six words, and 5p to be added for postage.

SEMI-DISPLAY ADVERTISEMENTS

£9 per single column inch and pro rata

All classified advertisements, subject to approval, will appear in the forthcoming issue provided they reach this office not later than 10 a.m. on the Friday of the week preceding date of issue. Semi-display advertisements must reach this office by 10 a.m. on the Tuesday of the week preceding date of issue.

Cancellation and corrections of advertisements must be received before 12 noon on the Friday of the week preceding date of issue (issues affected by public holidays excepted).

It is requested that when stamped addressed envelopes are enclosed in response to advertisements advertisers will ensure that a reply is sent.

Every effort is made to ensure the accuracy of advertisements appearing in the Journal. No recommendation is implied by acceptance, and the Editor of the *British Medical Journal* reserves the right to refuse, discontinue or interrupt the insertion of any advertisement.

NOTICE TO READERS

REPLIES TO BOX NUMBERS. The names and addresses of advertisers under box numbers are held by us in strict confidence and cannot be disclosed. Each Box Number should be addressed separately. Two or more replies can be enclosed in one envelope. The replies will be forwarded to the advertisers in plain envelopes.

NOTICE TO SUBSCRIBERS

United Kingdom and Irish Republic. The annual subscription rates for members of the medical profession who are not members of the B.M.A. is £21.00. Subscriptions can be ordered direct from the Subscription Manager, *British Medical Journal*, B.M.A. House, Tavistock Square, London WC1H 9JR, or through any leading subscription agent or bookseller.

Overseas. The rate for non-members is £15 direct from the Subscription Manager. Orders can also be placed through any leading subscription agent or bookseller.

North America. A B.M.J. "Air Express" service is available to subscribers in Canada and the U.S.A. at the inclusive annual subscription rate of Canada \$68.00 and U.S. \$65.00. The non-member subscription rate to the B.M.J. by surface mail is in Canada \$39.00; U.S.A. \$36.00, including postage. Readers in the U.S.A. can send their subscription orders, with or without payment to: *British Medical Journal*, 1172 Commonwealth Avenue, Boston, Mass. 02134.

A lifetime of freedom begins with Intal

Before INTAL, a diagnosis of asthma often meant a life sentence of constantly aborting attacks with bronchodilators, anti-histamines or steroids. Patients were constantly at risk from the relentless progress of lung damage and lived in perpetual fear of an asthmatic episode.

The discovery of INTAL (Sodium Cromoglycate BP) represents a turning point in the management of this distressing complaint. Newly diagnosed patients, as well as those of long standing, benefit from this entirely new approach to therapy. INTAL actually prevents the onset of asthmatic attacks, and is notably free from serious side effects.

By preventing asthma attacks the possibility of consequent lung damage may be avoided enabling the patients to lead a fuller, happier life. If they remember their daily INTAL – they can forget their asthma.

INTAL – supplied in SPINCAPS® (each containing 20 mg Sodium Cromoglycate BP). For use in a special insufflator – SPINHALER®.

Additional information is available from:
FISONS LIMITED – PHARMACEUTICAL DIVISION
Loughborough, Leicestershire.

A name to conjure with.

'Largactil' has been a name to conjure with in psychiatric medicine for over sixteen years. An influence of such magnitude and long duration can be explained by examining this legendary name.

'Largactil' was so named because of its LARGE variety of ACTIONS; apart from being the first major tranquillizer, it acts in two other pharmacologically distinct ways – as a potentiator of central nervous depressants, including analgesics, narcotics and sedatives, and as an anti-emetic.

'Largactil' has achieved success in the fields of psychiatry, general medicine and anaesthetics in an ever-widening range of indications. These include major and minor psychoses; as an adjuvant to E.C.T.; drug withdrawal; senile dementia; the control of terminal pain and nausea and vomiting.

Alone, or as an adjuvant –
are you making **FULL** use of
'Largactil'?

Full information is available on request

most widely
prescribed topical
antibiotic—FUCIDIN®

Seborrhoeic Dermatitis

Fucidin® H Gel

**for the treatment of inflamed, weeping skin conditions
where a greasy preparation is undesirable**

Fucidin H Gel – fusidic acid against infection, hydrocortisone acetate B P against inflammation, in a fat free, true gel base, combining the qualities of both cream and lotion.

Because of its formulation, Fucidin H Gel should prove particularly suitable in the treatment of such conditions as **'weeping' eczemas, seborrhoeic or contact dermatitis, and infected acne.** It is particularly suited for use on the scalp.

2% fusidic acid with 1% hydrocortisone acetate B P in an aqueous gel base.
Available in 10 & 25G tubes.

'weeping' Eczemas

Full information is available on request.
