

"Yes, I feel better than I've felt for weeks, doctor"

## our anti-nauseant

Vertigo. Migraine. Gastric disturbance. Whatever the cause of nausea and vomiting, 'Stemetil' can be relied upon to bring welcome relief – quickly, effectively and with a tolerance one would expect of a preparation boasting more than 13 years' successful clinical use.

Full information is available on request

## does that little bit more

In addition to its anti-nauseant action, 'Stemetil' exerts a mild tranquillizing effect which helps the patient cope with both physical and mental discomfort. In fact, 'Stemetil' frequently makes patients feel not just better, but better than they've felt for some time. Moreover, because it combines two effects in the one prescription item, 'Stemetil' makes economic, as well as therapeutic sense.

# Prothiaden

## breaks the web of depressive illness

Prothiaden is an anti-depressant which not only treats depression, but also relieves the anxiety so often associated with depressive illness. A recent study\* has shown Prothiaden to be superior to amitriptyline in the treatment of depressive disorders, and to be much better tolerated. With Prothiaden, your patients will persevere with treatment – more of them will recover.

Most people with chronic  
asthma think the only way  
to control their symptoms  
is to keep their lungs  
dry. Many bronchodilators, however,  
are not only ineffective but also

**"A problem shared is a problem more than halved."**

Now you can more than halve your peptic ulcer problems by giving your ulcer patient Ulcedal together with his antacid for pain relief.....  
**because Ulcedal heals ulcers.**

The peptic ulcer patient has most probably been taking stomach tablets and mixtures to relieve his pain for some time. He may also need reassurance, and you may consider regular diet and a curb on alcohol and tobacco desirable. Ulcedal capsules taken regularly, together with his antacid when required, will more than halve the peptic ulcer problem ... his and yours.

Because Ulcedal heals ulcers.

Each Ulcedal capsule contains 450 mg. deglycyrrhizinized liquorice (DGL).

# MEDICINE IN A TROPICAL ENVIRONMENT

**Edited by A.G. Shaper, J.W. Kibukamusoke, M.S.R. Hutt.**

*Medicine in a Tropical Environment* is intended for medical students and doctors working in tropical and developing countries. The essays bring together specific problems of the tropical environment which have been the subject of recent investigation, and the authors write on them from personal experience. Little of the material on which the essays are based was available more than five years ago. To doctors in temperate climates preparing themselves for medical work in developing parts of the world *Medicine in a Tropical Environment* is essential reading.

## Are you avoiding income because of surtax?

Many investors are ignoring income potential in favour of other investments for fear of paying surtax. However, following the recent Budget, the first £2,000 of unearned income are to be free of all surtax.

This and the current high prices of equities, property and other "growth" investments make a guaranteed high return of over 7.25% after income tax doubly attractive.

Find out now how you can take immediate steps to benefit from these new tax allowances on unearned income by completing the coupon below and mailing it today.

## *Adagio cantabile...e sostenuto*

The diuretic you prescribe for patients needing long-term therapy should be gentle.

'Massive, rapid diuresis might produce considerable reductions in blood volume and blood pressure, which might be particularly dangerous in elderly patients.'\*

Such a diuretic should be combined with a potassium supplement, but there is a risk of small bowel ulceration or obstruction when patients take preparations which release a large concentration of potassium ions in the small bowel.

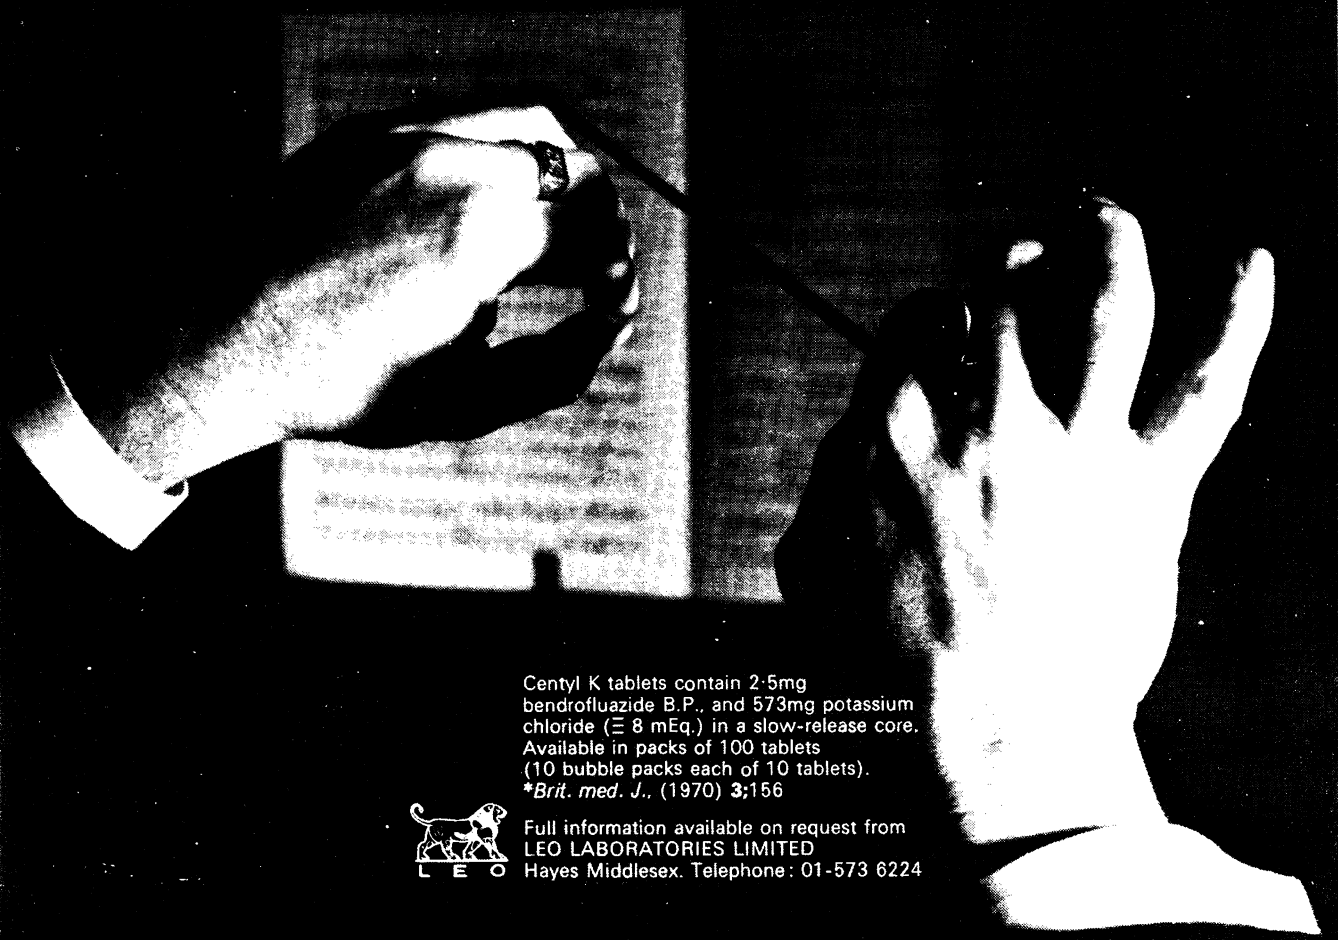

CENTYL K reduces the risk by combining the highly effective diuretic, bendrofluazide BP (a Leo discovery) with a slow-release potassium chloride supplement to provide greater safety during long-term maintenance therapy.

# When menstruation occurs do young girls want your help?

**Your requests  
for 25,000  
charts  
indicate they do.**

Adolescence is nowhere near as frightening when young girls are prepared for it. And preparing them for menstruation is simplified when you use the illustrated charts and booklets provided free by Tampax Limited. The coloured charts, prepared by R. L. Dickinson, M.D., graphically help them to understand the changes taking place in their bodies. These charts are laminated in plastic for permanence and suitable for grease pencil marking and erasure. The booklets – one for beginning menstruants, the other for older girls – tell them what menstruation is – and how easily they can adjust to it normally and naturally.

In just five years, more than 25,000 charts and 300,000 booklets have been requested by doctors and nurses to prepare youngsters for menstruation – and to help dispel the fears that made them think of menstruation as the "curse".

The Tampax tampon embodies a number of distinctive features to provide the utmost in menstrual protection. Designed for intravaginal use, it is softly compressed for efficient absorption and maximum comfort. It's placed in correct position hygienically by means of a satin-smooth container-applicator, prelubricated to facilitate insertion. It expands in three dimensions for complete protection. Its removal cord is chain stitched, for safety, to the entire length of the tampon. Both tampon and applicator are readily disposable in the toilet.

Because Tampax tampons are worn internally, there's no irritation, no chafing, no embarrassing menstrual odour. And for sports-active girls, particularly swimmers, tampons are a must.

Tampax tampons are available in Regular and Super absorbencies, with explicit directions for insertion and use enclosed in each package.

Please order your charts and booklets by writing to the address below.

## Important Notice

### re: Duodenal Ulcers

The reason for the failure of chemotherapy in the treatment of duodenal ulcers may well be due to underdosage. The dosage that the condition and recurrent episodes may demand of antacids, anticholinergics, carbenoxolone or sedatives is such that the resultant side effects cannot be tolerated. Whereas the standard dose for gastric ulcers may not always be effective with duodenal ulcers.<sup>1</sup>

It has now been established that Caved-S tablets prescribed in doses related to the condition of duodenal ulcer patients, can result in successful long term, safe and acceptable treatment with patients who have not responded to many other forms of therapy.

A metabolic study<sup>2</sup> and more than twenty hospital trials, and treatment with more than eight million patients in over forty countries has proven Caved-S deglycyrrhizinated liquorice is free from side effects of oedema, hypokalaemia etc.<sup>3, 4</sup>

An unpublished hospital trial, the results of which are in our hands, has been carried out with Caved-S tablets at increased dosage on forty severe duodenal ulcer patients (age range 40-65) who had all been referred for surgery has demonstrated recurrent episodes can be prevented. The report stated "Patients with severe duodenal ulcers who had been referred for surgery were divided into two groups and treated with either eight or twelve tablets daily, for eight or sixteen weeks respectively.

The higher dosage was statistically more effective than the lower dosage in preventing relapses . . ." Patients were followed up for a minimum of one year and it was concluded that,

**"HIGH DOSES OF DEGLYCYRRHIZINATED LIQUORICE (CAVED-S) SHOULD BE GIVEN TO PATIENTS WITH DUODENAL ULCERS BEFORE SURGERY IS ATTEMPTED".**

## ...you can help him cope with them

No traditional tranquillizer works in the way that Integrin does. Integrin not only relieves the symptoms but corrects the disturbed brain chemistry in anxiety – a factor making it “significantly superior to diazepam”<sup>1</sup>. Integrin gives rapid clinical improvement<sup>2</sup>, enhances mood and relieves depressive overlay<sup>3</sup>. And its dosage can be adjusted to suit individual patient response. ## AMOXIL

an excellent new antibiotic for routine treatment

URTI Chest infections UTI Skin and soft tissue infections

Amoxil is a new antibiotic with distinct advantages in routine treatment.

Amoxil has a broad spectrum of activity against the common bacterial pathogens encountered in practice and its bactericidal action means further confidence in its everyday use.

The most practical advantage of Amoxil is that its oral absorption is outstanding, giving extremely high serum and tissue levels, irrespective of the presence of food. This ensures rapid and decisive activity at all sites of infection, even the more inaccessible.

Extensive British clinical trials have demonstrated its efficacy and penicillin safety in the treatment of Upper Respiratory Tract Infections, Otitis Media, Bronchitis, Urinary Tract Infections, and Skin and Soft Tissue Infections.

Add to this a convenient t.d.s. dosage—ensuring undisturbed sleep—a wide range of highly acceptable presentations, treatment costing as little as 16p per day and it is easy to see why Amoxil is practical antibiotic therapy at its best.

# ASTHMA

BRITISH MEDICAL JOURNAL, 3 JUNE 1972

## A lifetime of freedom begins with Intal

Before INTAL, a diagnosis of asthma often meant a life sentence of constantly aborting attacks with bronchodilators, anti-histamines or steroids. Patients were constantly at risk from the relentless progress of lung damage and lived in perpetual fear of an asthmatic episode.

The discovery of INTAL (Sodium Cromoglycate BP) represents a turning point in the management of this distressing complaint. Newly diagnosed patients, as well as those of long standing, benefit from this entirely new approach to therapy. INTAL actually prevents the onset of asthmatic attacks, and is notably free from serious side effects.

By preventing asthma attacks the possibility of consequent lung damage may be avoided enabling the patients to lead a fuller, happier life. If they remember their daily INTAL – they can forget their asthma.

INTAL – supplied in SPINCAPS® (each containing 20 mg Sodium Cromoglycate BP). For use in a special insufflator – SPINHALER®.

Interest rates offered to big investors and small savers alike are many and varied, but each investment has its own particular set of terms and conditions.

Some investments tie up your savings for a fixed period of years, whilst others offer prompt withdrawal facilities.

Some are designed to provide regular income; others offer capital growth. Either may or may not be taxable.

Both may incorporate life assurance and the income tax relief then obtainable can further improve the attractiveness of the investment.

It's all very confusing unless you are a financial expert. How else can you choose a plan to suit your own particular needs and be safe in the knowledge that the Company to which you are to entrust your savings is absolutely secure?

Whether you are interested in saving a monthly sum out of salary, or making a single investment, you would be wise to consult the experts at the M.I.A. They are there to help you, as they have helped thousands of your colleagues—their advice is free and entirely without obligation.

# Hypertension. Introduce her to treatment gently with Neo-NaClex-K.

**When a patient is new to hypertension, Neo-NaClex-K makes it a lot easier to live with.**

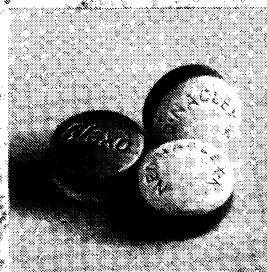

Easier, because just once-a-day treatment can control the mild to moderate case.

Easier, because her sleep won't be disturbed by diuresis during the early days of treatment.

Easier, because postural hypotension won't be something she'll wake up to.

And even in severe hypertension you can still keep her on Neo-NaClex-K in conjunction with minimal doses of a more potent antihypertensive. So you can control the severe condition with less risk of side effects.

Neo-NaClex-K is a unique two layered tablet containing bendrofluazide to lower blood pressure safely and surely, plus a potassium supplement to replace any loss. And right from the start, it provides a gentle introduction to the long-term treatment your new hypertensive patient may need.

# Medical Advisers

## for the Employment Medical Advisory Service

The Employment Medical Advisory Service is a division of the Department of Employment. The appointments are in areas based in or near London, Birmingham, Bristol, Cardiff, Glasgow, Edinburgh, Leeds, Manchester, Newcastle-upon-Tyne and other large centres.

An Adviser's duties will include investigations and formal surveys, advice about working conditions, and medical supervision of young people who are not fully fit for employment and of people undergoing training or rehabilitation. This is very wide-ranging work of growing importance. It will take an Adviser into many different work-places, particularly factories, and will require him to give advice on occupational medicine to workers (and their representatives) and employers, as well as maintaining liaison with medical practitioners and hospitals on the medical aspects of their patients' work.

So far as is geographically possible Advisers will work in groups and nurses may be appointed to some groups. Clerical and supporting staff will be provided. Laboratory facilities either through the NHS or the EMAS Central Reference Laboratory will be available. Statistical assistance is also available.

Applicants (men or women) must be fully registered medical practitioners in the United Kingdom. Experience in industrial medicine or in allied subjects such as toxicology, pulmonary physiology or psychiatry is desirable and the possession of higher qualifications will be an advantage. A current driving licence is essential.

The salary scale (under review) is £4,031 to £5,490 (plus £175 in inner London). In some circumstances the starting salary can be up to the maximum. There are good prospects of promotion as the Service develops with salaries up to £6,490. The pension is non-contributory and previous public service superannuation rights will normally be transferable.

For full details of these posts and an application form (to be returned by 26 June), write to the Civil Service Commission, Alencon Link, Basingstoke, Hants, or telephone BASINGSTOKE 29222 ext. 500 or London 01-839 1696 (24 hour 'Ansafone' service) quoting S/7946/1.

## Flora margarine can help prevent heart disease.

In 1972, one in four deaths will be caused by coronary heart disease. Many victims dying before retiring age.

Some premature deaths might be prevented, however, by substituting Flora margarine, the spread highest in polyunsaturated fats, for animal fats in normal diet.

For 50% of Flora's fat content is natural cis-cis linoleic essential fatty acid.

And it is widely accepted that substituting polyunsaturated fats for

saturated fats can lower the risk of coronary heart disease.

Because of its cholesterol-reducing properties, Flora margarine is particularly effective as part of the dietary treatment of hyperlipidaemia.

For people at risk from coronary heart disease, indeed for almost anyone, Flora margarine makes very good advice.

# Now you can prescribe aspirin

## LONG-TERM in rheumatoid arthritis

# Levius

Each tablet contains 35,000 microgranules of aspirin individually protected by a coating of inert ethylcellulose

*Magnification x 15*

The ethylcellulose coating is designed to protect the gastric mucosa against the irritant action of aspirin without reducing the effectiveness of the drug. Aspirin is released through the coating of the microgranules at a controlled rate enabling relief of pain to be prolonged.

*Microcapsules magnified 250 times.  
The coating can be clearly seen*

**long-term aspirin**

# Levius

Levius:  
each tablet contains 500mg. of acetylsalicylic acid  
in micro-encapsulated form.

Levius: registered trade mark
