There may be more to his insomnia than sleepless nights

'Tryptizol' can help to relieve the anxiety-depression that disturbs sleep.

Insomnia is one of the most frequent presenting symptoms of the anxiety-depressive syndrome. In addition to its antidepressant action, 'Tryptizol' has a rapidly apparent anti-anxiety effect. It can quickly relieve the sleep disturbance associated with depression, usually obviating the need for hypnotics. While the patient is encouraged by this early improvement, 'Tryptizol' can effectively treat other distressing symptoms of the illness, such as agitation, anorexia, lack of interest, and lowered mood.

Tryptizol®

Amitriptyline hydrochloride/MSD

a single solution to a dual problem

'Tryptizol' is supplied as tablets containing 10 mg, 25 mg, and 50 mg amitriptyline hydrochloride/MSD. The 50 mg tablet is especially convenient when a relatively large dose is prescribed at bedtime. 'Tryptizol' is also available as a syrup, and as an injection. Detailed information is available to physicians on request.

VENTOLIN

for effective bronchodilatation without cardiac stimulation

Ventolin is available in a wide range of preparations, all of which contain salbutamol BP. This compound has a highly selective action on bronchial muscle, causing maximal dilatation with low dosage. Therapeutic doses of salbutamol are virtually devoid of effects on heart or blood pressure; this is now so well established that Ventolin is the only adrenergic bronchodilator that is indicated for the treatment of bronchospasm in patients with concomitant heart disease or hypertension.

Ventolin Inhaler for rapid, effective relief of asthmatic attacks.
Ventolin Tablets 2 mg and 4 mg for routine oral bronchodilator therapy.
Ventolin Syrup fruit flavoured for ready acceptability by children.
Ventolin Spandets sustained-action tablets, particularly suitable where nocturnal bronchospasm is a problem.

Ventolin sets a higher standard in bronchodilator therapy

When an infection causes concern

Chest infections. Sinusitis, tonsillitis and quinsy. Infected wounds and abscesses. In treating worrying or severe cases you can be more certain of first time success when you prescribe Magnapen.

Magnapen is effective against virtually all bacteria encountered in General Practice. So in severe infections you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations, or night calls to patients who may fail to respond to other antibiotics.

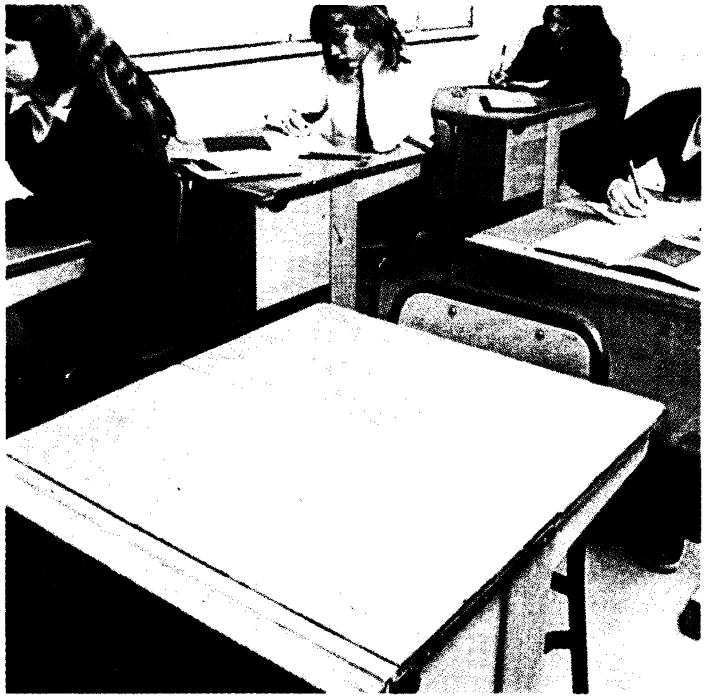
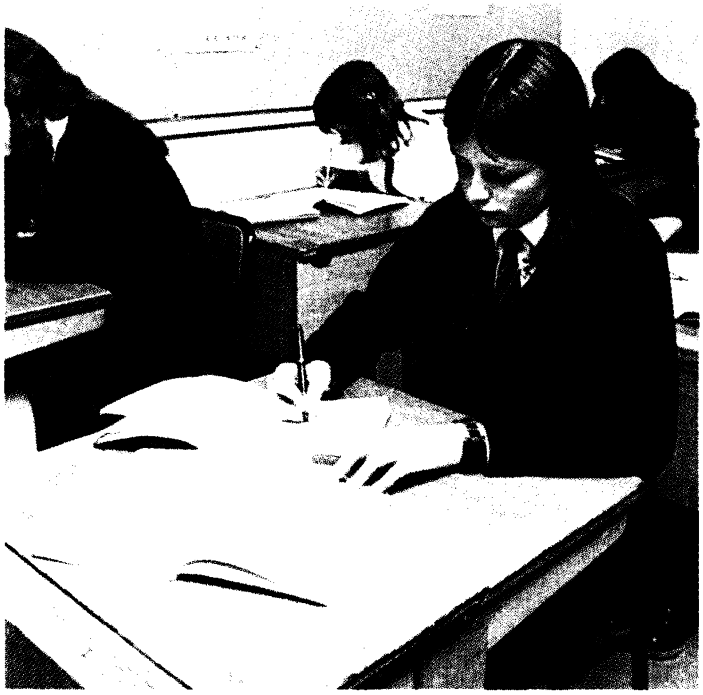
Intal doesn't relieve asthmatic attacks





It prevents them

All too often the asthmatic child loses valuable school time through frequent attacks. Yet—regularly inhaled—INTAL could *prevent* them.

More than 150 clinical trials have proved INTAL to be one of the most effective methods of providing continuous prophylaxis without troublesome side-effects.

Leading authorities are agreed that it is now justifiable for all new asthmatics to be given the benefit of a trial of INTAL - and they may never have attacks again.

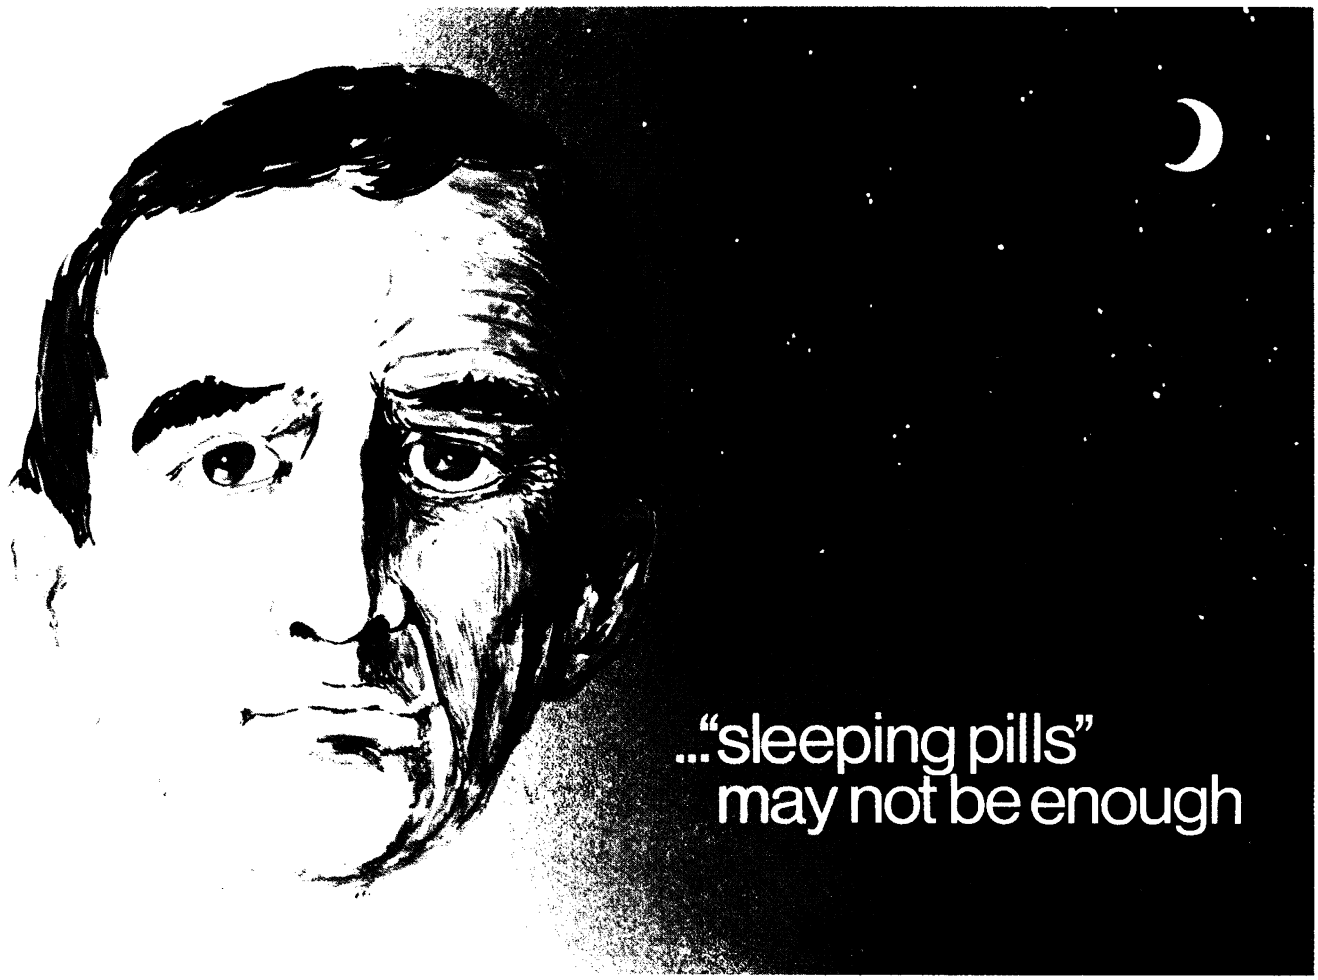
When waking hours stretch far into the night...



‘Surmontil’

provides complete treatment to make sleep easy again

In the many patients whose sleep problem stems from depression, ‘Surmontil’ offers significant advantages over other forms of therapy.

- **Causal as well as symptomatic relief**
  Unlike hypnotics, ‘Surmontil’ does more than just rapidly relieve sleeplessness. It gets to the root of the problem by acting on the underlying depression.
- **Preservation of normal sleep patterns**
  ‘Surmontil’ acts without reducing REM sleep time. Because of this the sleep which it promotes is both sound and natural.
- **Reduced daytime anxiety**
  Besides its immediate sleep-inducing and gradual mood-elevating actions ‘Surmontil’ also has a rapid effect on the anxiety which invariably accompanies depression.
- **Conveniently taken in a single nightly dose**
  The good tolerance of ‘Surmontil’ means that the total daily requirement for effective relief of depression may be conveniently taken in a single night-time dose.

‘Surmontil’ helps worried, dejected patients sleep easy again

Registered medical practitioners are invited to apply for a course in preparation for this diploma. The course starts in October 1973; instruction is part-time for eight University terms, occupying two half days a week for the first two terms and three half days for the remaining six terms. Attendance at this course will also serve to prepare suitable applicants for Membership of the Royal College of Psychiatrists. Further particulars from Professor Neil Kessel, Department of Psychiatry, University Hospital of South Manchester, West Didsbury, Manchester, M20 8LR, to whom application should be made as soon as possible.
Candidates should normally hold training posts in the N.H.S. These may be at one of the two teaching hospitals, United Manchester Hospitals and the University Hospital of South Manchester, which offer a number of posts in the S.H.O. and Registrar grades, or at other psychiatric units in the Manchester Region. Special provisions for extended part-time clinical work can somtimes be made for married women. MANCHESTER POST-GRADUATE TRAINING SCHEME IN ANAESTHETICS
Training Programmes in Anaesthesia will be offered in the Manchester Region from July, 1973. The aim is to provide training in accordance with individual needs and in fulfilment of the recommendations of the Faculty of Anaesthetists for the first three years' training in the specialty. Applications are, therefore, invited from graduates without previous anaesthetic experience and also from those who wish to be considered for inclusion in the Scheme at Registrar level. No commitment beyond the initial twelve months of appointment is necessary but every effort will be made to arrange a three-year programme if required, subject to satisfactory progress. Trainees in the Scheme will be assisted in terms of career guidance and attendance at Courses.
All posts in the Manchester region are within the Scheme, including teaching hospital posts. As posts do not all become vacant simultaneously it is anticipated that entry to the Scheme will be possible at times suitable to individual applicants.
Initial enquiries are now invited, and should be addressed to the **Dean of Post Graduate Medical Studies, Gateway House, Piccadilly South, Manchester M60 7LP.** (23574) 4

THE HANS BERGER CENTENARY SYMPOSIUM ON EPILEPSY
Edinburgh
1st to 5th July, 1973

The Hans Berger Centenary Symposium on Epilepsy is to take place at the Appleton Tower, University of Edinburgh from 1st to 5th July, 1973. The theme of the meeting is "The Natural History and Management of Epilepsy" and the programme will include separate sessions on Basic Mechanisms of Epilepsy, Natural History of Epilepsy, Surgical Aspects of Epilepsy and Epilepsy in the Community. A series of demonstrations on current research in epilepsy and a library, museum lithographic and photographic exhibit on epilepsy and the life on Hans Berger are to be associated with the programme. There will also be an exhibition of scientific instuments, pharmaceutical products and books related to the theme of the meeting.

The Symposium has been approved under section 63 of the Health Service and Public Health Act 1968 and accordingly grants will be made towards the fees and expenses of eligible general medical practitioners who attend. It should however be noted that, as the fee for the course is in excess of the standard rate of the fee payable by the Scottish Home and Health Department to the University concerned, the doctor is responsible for meeting the excess amount. Since the course is less than ten sessions, general medical practitioners from outside Scotland wishing to attend should seek prior approval of their attendance from the appropriate Health Departments. (See Paragraphs 5 and 9 of Memorandum PGS\2 (revised July 1973) or G.P.R.C.1).

Further information, including copies of the registration programme, day registration programme, travel and accommodation details, etc, is available from the Secretariat, Hans Berger Centenary Symposium on Epilepsy, Kurt Fleischmann and Associates, 164 North Gower Street, London NW1 2ND. INDUSTRIAL APPOINTMENTS (See also p. xvii and xviii)

NATIONAL COAL BOARD
MEDICAL SERVICE
DEPUTY AREA MEDICAL OFFICER

The Board are seeking able young doctors who are interested in making a career in occupational medicine. Candidates should preferably be under thirty-five years of age and have some experience in one or more of the following specialties — chest diseases, casualty surgery, dermatology, community or occupational medicine.

The range of occupational hazards in the coal industry is wide. It is therefore the Board's firm policy progressively to improve the working environment. The doctor's role in this work is a challenging one calling for competence both in clinical and preventive medicine. The Board's Medical Service is closely associated with the Institute of Occupational Medicine in Edinburgh, in the setting up of which the Board played the leading part.

Full training in occupational medicine will be given. In addition to close personal supervision of training within the mining industry programmed to meet individual needs, the Board will arrange for short study periods in other industries totalling one month in each of the first three years. It would be expected that candidates should obtain the Diploma in Industrial Health or some higher qualification in two years from appointment.

There are three vacancies in the Yorkshire, Nottingham/Leicester and Lancashire/Staffs coalfields. The salary on appointment would probably be between £4,000 and £4,500 depending on age and experience, but the range extends up to £5,550. Promotion is based on ability.

Please reply in writing to the Director of Staff Administration, Room 202, Hobart House, Grosvenor Place, London SW1X 7AE.

UNIVERSITY OF OXFORD
Oxford Orthopaedic Engineering Centre

DIRECTOR

Applications are invited for the post of Director of this new centre which will be located at the Nuffield Orthopaedic Centre and work in close collaboation with the departments of Orthopaedic Surgery and Engineering Science of the University of Oxford. The Centre is being established by the University with funds provided by the Department of Health and Social Security. It will be concerned with the applications of Engineering to assist the physically disabled during diagnosis or treatment, and in their homes or at work. Candidates should, therefore, have a background in Physical Science or Medicine, and be interested in guiding the work of the Centre towards practical developments that will help the disabled.

A new building will be provided for the Centre and this will include laboratories, a drawing office, and mechanical and electronic workshops. In addition, the Centre will have access to facilities in other departments of the University and the Nuffield Orthopaedic Centre. Temporary accommodation is available to enable the Centre to begin work bfore the new building is complete.

It is hoped to appoint the Director in time to enable him to comment on the design of the building.

The Director's stipend will be on the scale for readers, i.e. £4,143 — £5,247 p.a. (or, if medically qualified, £4,869 — £5,964 p.a.).

Those interested should obtain further particulars from Professor R. B. Duthie, Nuffield Orthopaedic Centre, Oxford or Professor D. W. Holder, Engineering Laboratory, Parks Road, Oxford, who should receive applications giving the names of two referees by 9th June, 1973. (H11944) 25

THE ROYAL NORTH SHORE
HOSPITAL OF SYDNEY
Kolling Institute of Medical Research

DIRECTOR

Applications are invited from Medical Graduates for the position of full-time Director of the Kolling Institute of Medical Research within the Royal North Shore Hospital, which is a teaching hospital of the University of Sydney.

The long established institute has built up a reputation in areas of Biochemical and Scientific orientation but future activities will be directed more towards the development of Medical Research.

The Director of the Institute will be employed by the Board of The Royal North Shore Hospital of Sydney which may fill the position by invitation.

Salary and Conditions of Employment will be similar to those of the Medical Officers Hospital Specialists award operating in New South Wales. The range at present is $A14080 to $19,160 per annum. Conditions include long service leave, superannuation benefits and regular conference and study leave.

It is expected that the Director will undertake some clinical duties in respect of which he may be granted limited right of private practice within the Hospital. He will have overall direction of the work of the Institute and will be expected to assist other Research Workers within the Hospital.

There have been Professorial sub-units in Medicine and Surgery in the Hospital for years. Full Professorships in these fields are on establishment and are in the process of being filled. It is anticipated that a relationship will be developed between the Director of the Kolling Institute and the Clinical Professors which will be discussed by all concerned after appointment.

FULL-TIME MEDICAL STAFF

DIRECTORS OF ANAESTHESIA

Applications are invited from Specialist Anaesthetists for appointment to the above positions.

Salary $595.10 per fortnight ($15,522 per annum).

The duties of the positions will include, but are not limited to, the following —

(a) To act as Directors of the activities of the Department of Anaesthesia within the Royal Children's or Royal Women's Hospitals.

(b) To act as Specialist Anaesthetists within the department as required.

(c) To act as assistants to the Medical Superintendent, in any administrative duties relating to the Department of Anaesthesia or the hospital generally.

Though appointed specifically to either the Royal Children's or Royal Women's Hospitals and responsible to the Medical Superintendent of that hospital for anaesthetic services, the appointees will also be responsible to, and under the overall direction of the Director of Anaesthesia of the North Brisbane Hospitals Board.

The successful applicants will be required to contribute to the Public Service Superannuation Fund.

Further particulars and application forms may be obtained from the General Medical Superintendent. Applications should be addressed to the Manager, North Brisbane Hospitals Board, Base Hospitals Post Office, Brisbane, 4029, and will be received until 30th June, 1973. (H11913) 118

Medical Officer

North Western Australia
£11,000 + p.a.

Hamersley Iron Pty. Ltd., part of the Conzinc Riotinto of Australia Group, is already one of the world's largest iron ore producers. Associated with this project are two coastal townships at Dampier and Karratha some thousand miles north of Perth, Western Australia. The population of these two modern towns is about 5,000, with average age of 29.

Your main duties will be to share medical responsibility on a week-about call basis for both towns. Work mainly involves accidents and obstetrics and some quarantine clearance of overseas vessels. There is a fully equipped 19 bed Government hospital with staff of 8 at Dampier. No equipment is needed and there are few night calls or house visits.

It is essential that you are eligible for immediate registratration with the Medical Board of Western Australia and must have a Bachelor of Medicine and surgery degree, coupled with post-graduate diplomas in obstetrics and anaesthetics. You should have had a minimum of 5 years' experience in either hospital or private practice, which included a large percentage of obstetric work.

The total salary including area allowance is about £11,000 p.a. (£1.00 = A$1.75). Fringe benefits include either single or married, fully furnished accommodation at nominal rent, 5 weeks' annual leave, Company car, etc.

Anaesthetist

This appointment with Roan Consolidated Mines in Zambia will appeal to a Doctor whose prime interest is anaesthetics. The practitioner appointed will spend 80% of his time giving anaesthetics in the two hospitals run by the company for their mine employees and dependants. The remaining 20% of his time will be taken up by relieving his colleagues in general medical duties.

The hospitals and clinics run by the company provide for about 50,000 local and 2,000 expatriate personnel in the town of Luanshya. The team of 11 practitioners includes a specialist surgeon, gynaecologist/obstetrician and an orthopaedist. Operating sessions are held five days a week. Members of the team provide mutual relief, so that off-duty hours can be maximised for all. The hospitals have air conditioned theatres, piped oxygen and Boyle type anaesthetic machines. The medical staff is under the administrative control of a qualified Chief Medical Officer. (For those interested we can show a half-hour film about our medical facilities in Zambia.)

Employment will be on a renewable contract basis for three years. Salary will be negotiated depending on experience and qualifications. A Diploma of Anaesthetics is preferred.

Additional benefits include ■ paid return passages and leave passages (after two years' service) for applicants and families ■ baggage and settling-in allowances ■ furnished accommodation at low rental ■ free life assurance ■ children's education allowances ■ paid leave which accrues at the rate of 55 days p.a. ■ car provided. Excellent facilities exist for practically all sport and leisure activities on the Copperbelt which enjoys a healthy temperate climate with sunshine all year round.

Immediate interviews are offered but because of documentation procedures it will be about three months before the man appointed will take up his duties in Zambia.

Please write giving concise details of qualifications and experience, quoting reference AM.619, to:

MENTAL HEALTH AUTHORITY — VICTORIA

CAREERS IN PSYCHIATRY

Applications are invited from medical practitioners registered or registrable in the State of Victoria (i.e., graduates of medical schools in the Australian states, New Zealand, Great Britain or Ireland) for positions of medical officer in the services conducted by the Mental Health Authority.

On appointment, medical officers will usually be appointed to a provincial hospital (Ballarat, Ararat, Beechworth, Traralgon, Bendigo, Warrnambool or Shepparton) where they will undertake general medical duties under supervision of senior staff, and will gain basic knowledge of and supervised experience in psychiatry. They will also be given the opportunity of participating in inservice training especially designed for their needs.

After a year at a provincial centre (or 1 ½ years if they are appointed in the middle of the calendar year), medical officers are eligible for transfer to the Melbourne metropolitan area, where they will have the opportunity of working in acute admitting hospitals and other special units, including, during their third year, a six months placement at the Parkville Psychiatric Unit, which is conducted in association with the Department of Psychiatry of the University of Melbourne. They will be given the opportunity of attending the courses of training provided in order to prepare themselves for examinations leading to the D.P.M. (University of Melbourne) and/or M.A.N.Z.C.P.

The salary range for medical officers is from $7,367 to $11,429, but salary scales are under review at the present time and a substantial increase is expected. Commencing salary within the quoted range is determined by previous experience.

On successfully obtaining a postgraduate qualification, there are ample opportunities for promotion to senior clinical and administrative posts within the service on a career basis.

A furnished house complete with floor coverings, blinds and curtains is available with most positions, at a reasonable rental. There is, however, no objection to medical officers living out should they prefer to do so.

Enquiries and applications should be addressed to the:

DEPUTY CHAIRMAN,
MENTAL HEALTH AUTHORITY,
300 QUEEN STREET,
MELBOURNE, VICTORIA, 3000, AUSTRALIA.

Applications should state date of birth and be accompanied by a detailed curriculum vitae, including full details of medical qualifications, (i.e. nature of qualification, name of medical school or examining body, and date) together with the names and addresses of three referees from whom a confidential report may be obtained, and should also state whether the applicant is married or single and, if married, the size of his family.

Under certain circumstances, the Authority will consider reimbursing the fares and removal expenses of appointees from overseas.

DIRECTOR OF INFORMATION SERVICES

A Director is required to head a new Department of Information Services which is to be established by the Regional Board by the amalgamation and extension of the existing computer and statistical sections. A major objective of the Department is the development of a comprehensive medical information service and of computer applications in medical and managerial fields. The University of Dundee, which is collaborating in the project in relation to the medical applications, is likely to grant the successful candidate an appropriate honorary appointment.

Candidates should have experience at a responsible level in computer management, systems analysis and/or medical information services and the possession of a relevant professional qualification will be an advantage.

Salary:— £3,942 x £192(1) x £189(4) — £4,890 per annum. National Health Service Terms and Conditions of Service and Superannuation.

Further particulars and application forms from the Principal Officer, Scottish Hospital Administrative Staffs Committee, Woodburn House, Canaan Lane, Edinburgh EH10 4SG, with whom applications must be lodged not later than 31st May, 1973. (23594) 138

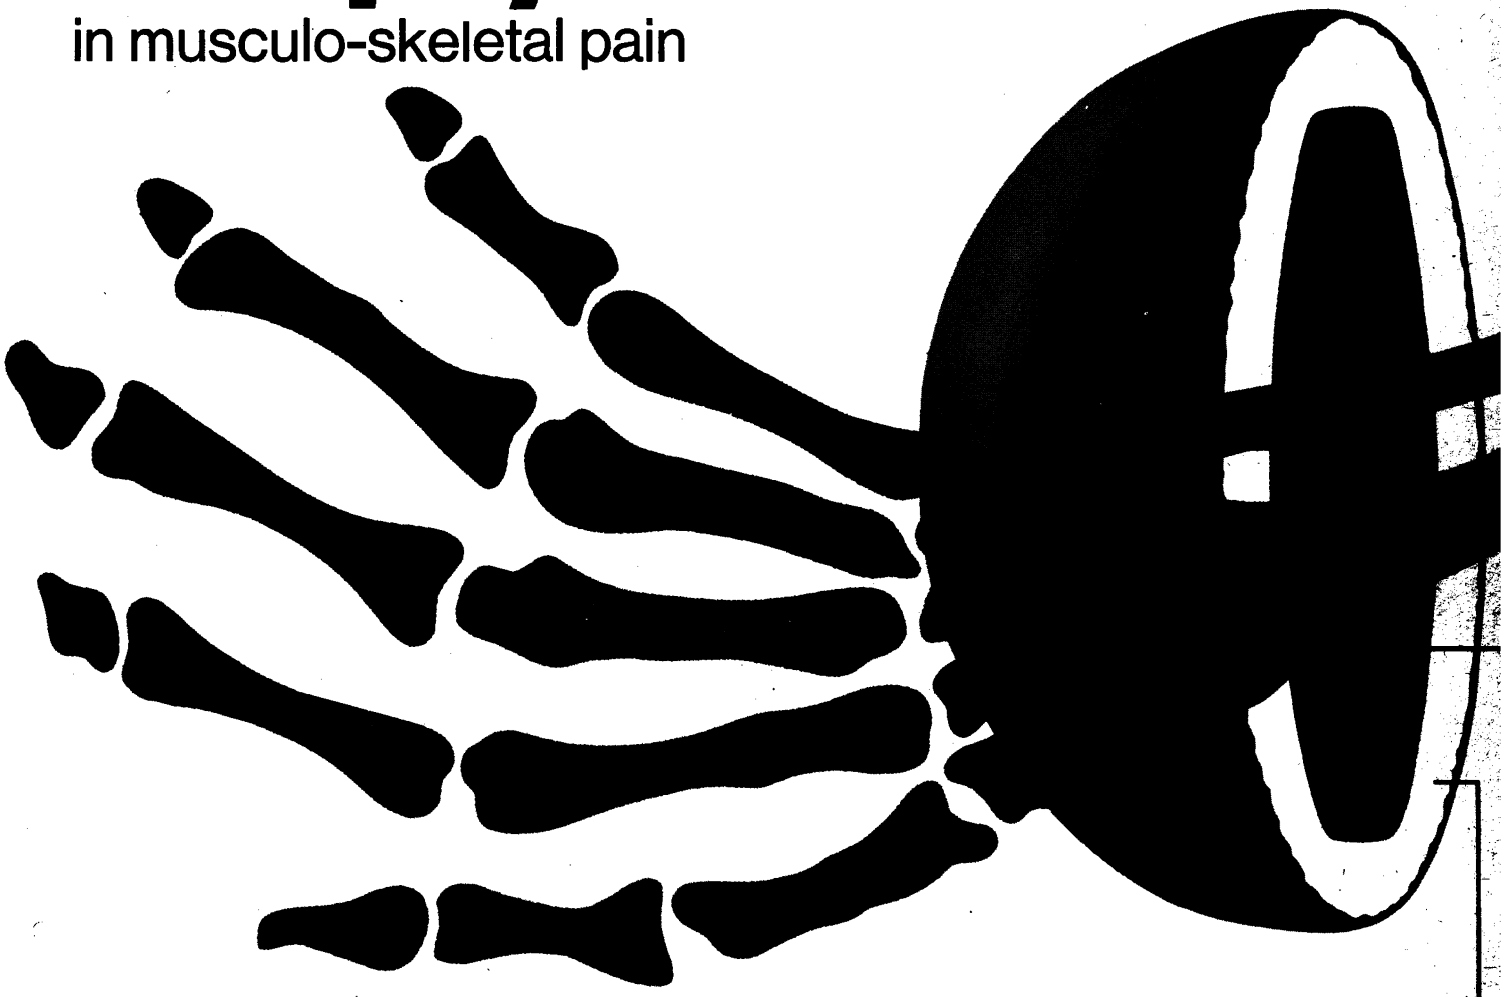
Aspirin as you like it— well tolerated in high doses Safapryn*

in musculo-skeletal pain



In a recent double-blind trial[1] involving 40 patients with arthritic and rheumatoid conditions, treatment with Safapryn resulted in rapid relief of pain, improvement of joint movement, and alleviation of tenderness.

Better tolerated than standard aspirin [2,3]

"...the really important result of the trial [with Safapryn] was its freedom from clinical evidence of gastric irritation and from overt or occult bleeding."[2]

...nfection
...let's keep it that way"

In urinary tract infection, antibiotics and other agents usually give prompt relief of acute symptoms. But all too often the infection is left smouldering, only to flare up again perhaps months later.

And even if the initial treatment is completely successful, the patient remains at risk from re-infection.[1,2]
Yet this risk diminishes with time. If the patient can be kept free of infection, there should be progressively less chance of another flare-up.[1,2]

Hiprex can help to buy this valuable time. *Hiprex,* given for months, meets the need for long-term therapy.

When the "hot" urinary tract infection cools down — finish the job with

Hiprex

1 *Postgraduate Medical Journal* (1971) Supplement vol. **47**: 31.
2 *New England Journal of Medicine* (1970) **282**: 1443.

Composition Each tablet contains hexamine hippurate 1g. **Indications** The treatment of urinary tract infections, such as pyelitis, cystitis and urethritis, but excluding acute pyelonephritis. The treatment of chronic pyelonephritis, and as maintenance therapy after successful antibiotic treatment of acute pyelonephritis. The treatment of asymptomatic bacteriuria, including that occurring during preganancy. Prophylaxis before and after urological surgery. **Dosage** Adults: 1 tablet twice daily. Children: 6-12 years: ½ tablet twice daily. In refractory cases the dosage may be increased to: 1 tablet three or four times daily in adults, ½ tablet three or four times daily in children aged 6-12 years. Tablets may be halved but should not be crushed. **Alkalinuria** Some patients may have an alkaline urine as a result of a predominantly vegetarian diet or occasionally due to to *Proteus* or *Pseudomonas* infection. In these cases, additional acidification may be necessary to lower the urinary pH to the level required to degrade the hexamine moiety. Administration of ascorbic acid 2 g. daily in divided doses (either as powder or as tablets) is recommended in these cases. **Side-effects** Occasionally, rashes, gastric irritation, or irritation of the bladder may occur. With prolonged administration at high dosage, the latter may lead to haematuria. All side-effects are reversible on withdrawal of the drug. **Treatment of side-effects** If the symptoms of infection such as painful micturition or bladder irritation do not subside within seven days of starting treatment, or if such symptoms develop on prolonged treatment at high dosage, this probably indicates drug-induced bladder irritation. Prompt relief can be obtained by the consumption of copious quantities of water and 2-3 teaspoonfuls of bi-carbonate of soda. **Contra-indications** Hepatic insufficiency, severe dehydration, severe renal failure (serum creatinine level >5 mg%) or metabolic acidosis. *Hiprex* may be used where mild to moderate renal insufficiency is present. *Hiprex* is also contra-indicated as the principal therapeutic agent in acute parenchymal infections of the kidney. *Hiprex* should not be administered concurrently with sulphonamides owing to the danger of crystalluria, or with alkalising agents such as mixtures of potassium citrate.

clobetasol propionate

a top performer in psoriasis & stubborn eczemas

Psoriasis

After 8 days' treatment with clobetasol propionate

When the next patient presents with a psoriasis or eczema requiring a more effective steroid than has so far been available, take the opportunity to assess the merits of Dermovate yourself.

Dermovate contains clobetasol propionate, a new Glaxo steroid that has been the subject of clinical trials in over 1,100 referred patients with these conditions.

In psoriasis, a notably stringent test of topical steroid efficacy, thorough comparison with the modern steroids suggested Dermovate superior.

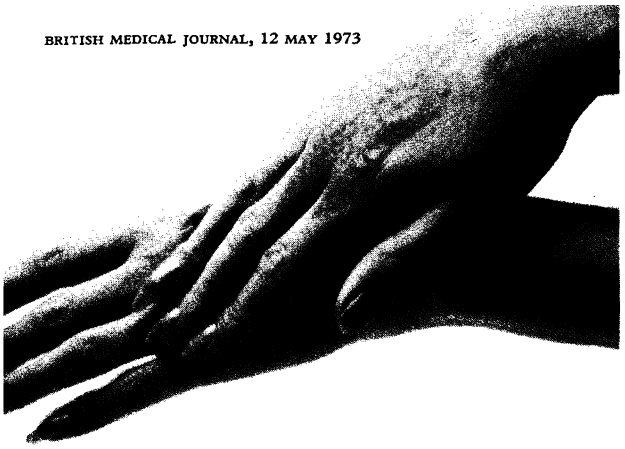
Dermovate also proved second to none in various other stubborn, inflammatory dermatoses.

So next time psoriasis or a recalcitrant eczema looks like becoming a clinical problem, why not put Dermovate to the test?

A sample and detailed information are available on request from:
Medical Department, Glaxo Laboratories Ltd, Greenford, Middlesex

Glaxo

Dermovate (clobetasol propionate 0·05% w/w) is available as cream or ointment in 25 and 100 gram tubes



When skin irritation is more than just an itch cool it with Ficoid.®

It burns. It itches. It won't go away.
It makes the patient irritable.
Maybe it gets under your skin a little, too.
And it happens all the time.

Ficoid is the way to sort it out. In the Ficoid range of topical preparations you'll find just the right formula for the occasion.

Basically, Ficoid is a topical steroid: fluocortolone. It comes in two strengths. It comes with clemizole hexachlorophenate as antibacterial cover; and it comes as cream or ointment.

Ficoid is cosmetically elegant and good value for money. The patient will like it for its cool, soothing texture; even more when it relieves the irritation and burning. To you, Ficoid offers a dermatologically sound product range designed to simplify the treatment of common skin conditions.

For ease of prescribing all the Ficoid range comes in 30g tubes, except the lotion which is in 20ml bottles.
