When an infection causes concern

Chest infections. Sinusitis, tonsillitis and quinsy. Infected wounds and abscesses. In treating worrying or severe cases you can be more certain of first time success when you prescribe Magnapen.

Magnapen is effective against virtually all bacteria encountered in General Practice. So in severe infections you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations, or night calls to patients who may fail to respond to other antibiotics.

Full information on Magnapen is available on request.

24 hours in the life of an asthmatic treated with Bricanyl Inhaler—the longer-acting bronchodilator

Time is vitally important, particularly to the patient who suffers from Asthma. An attack of Bronchospasm is not only distressing but can be embarrassing on occasions and detrimental to normal everyday activities. The patient treated with Bricanyl Inhaler will enjoy greater confidence because reliability can be placed upon its long duration of action. This will facilitate planning of the days' activities with the knowledge that the risk of an attack is minimal. A simple 4 times daily dosage is the key to this freedom.

When skin irritation is more than just an itch cool it with Ficoid.[®]

It burns. It itches. It won't go away.
It makes the patient irritable.
Maybe it gets under your skin a little, too.
And it happens all the time.

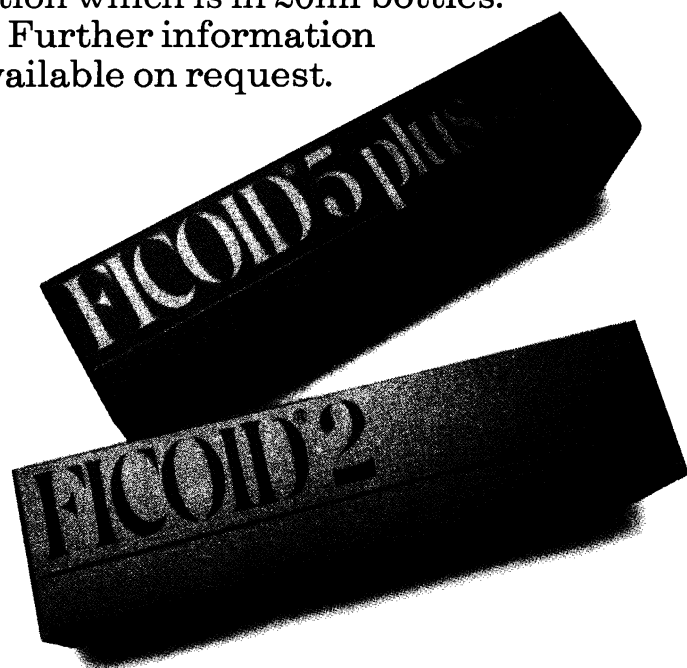

Ficoid is the way to sort it out. In the
Ficoid range of topical preparations you'll
find just the right formula for the occasion.

Basically, Ficoid is a topical steroid:
fluocortolone. It comes in two strengths.
It comes with clemizole hexachlorophenate
as antibacterial cover; and it comes as
cream or ointment.

Ficoid is cosmetically elegant and good
value for money. The patient will like it
for its cool, soothing texture; even more
when it relieves the irritation and
burning. To you, Ficoid offers a derma-
tologically sound product range designed
to simplify the treatment of common skin
conditions.

For ease of prescribing all the Ficoid
range comes in 30g tubes, except the
lotion which is in 20ml bottles.

A New Horizon in Asthma Therapy

Becotide INHALER
steroid control without steroid side effects

Effective treatment the equal of oral steroids

"Beclomethasone dipropionate is a potent active topical steroid with weak systemic effects. By exerting a selective, topical, anti-inflammatory effect on the bronchial mucosa membrane it is able, as this trial shows, to control asthma as well as prednisolone given by mouth."

(*Brit. med. J.*, 1972, 3, 314.)

Freedom from steroid side effects including adrenal suppression

"Of the 31 steroid-dependent patients (transferred to Becotide Inhaler), 29 showed loss of weight and 10 of these lost their Cushingoid facies."

Biochemical evidence of adrenal suppression was not observed . . ."

(*Curr. med. Res. Opin.*, 1972, 1, 173.)

Earlier treatment giving a less restricted life

"On the data presented here there seems to be no contra-indication to the use of this preparation (Becotide Inhaler) by mild asthmatics who would not normally be considered for the use of corticosteroids. As many of them had already failed to respond to disodium cromoglycate this new therapeutic approach may have much to offer, especially in paediatrics".

(*Brit. med. J.*, 1972, 1, 585.)

Becotide Inhaler is a metered aerosol delivering 50mcg beclomethasone dipropionate BP per inhalation.

Where there's
∇omiting and nausea
there's often another

But there's no two ways about treatment: Stemetil controls both

- Rapid, sustained relief of nausea and vomiting
- Intrinsic tranquillizing action simultaneously calms and relaxes

Migraine, vestibular disturbances, gastro-intestinal disorders, malignancy, cardiovascular disease – in these and many other organic and psychogenic conditions, anxiety, nervousness and tension are familiar concomitants of nausea and vomiting, and serve only to hinder definitive treatment of the underlying disorder. 'Stemetil'* not only stops the nausea and vomiting, but also effectively brings these accompanying emotional symptoms under control. Side-effects are minimal and transitory and the result is frequently such that the patient feels not just better, but better

than he's felt for a long time. Moreover, because it offers not just one, but two, essential effects, 'Stemetil' clearly makes economic, as well as therapeutic, sense.

Effective anti-inflammatory and analgesic action—without the gastric irritation that so often complicates therapy with aspirin and other anti-arthritic agents. This is the principal advantage that Benoral Suspension now brings to the treatment of acute and chronic arthritic conditions—including osteo-arthritis and rheumatoid arthritis—and many forms of soft-tissue (non-articular) rheumatism.

Moreover, because Benoral has a long duration of effect it allows a simple twice-daily dosage regimen which controls swelling and pain and affords significant relief from night discomfort and early morning stiffness. Can any other anti-arthritic offer so much?

How much tax relief are you turning down?

If your annual life insurance premiums don't at present add up to one-sixth of your income, you aren't getting as much tax relief as you're entitled to.

Why not take out a Nest Egg Plan for the difference? You will not only get tax relief on every pound you put in, but also a healthy tax-paid gain.

For example, assuming that present rates of interest and tax law continue, a man of 39 earning £7,000 and putting in £30 a month would get back £4,687 in 10 years – tax paid. That's a profit of £1,087 plus £540 tax relief. This could mean a gross return of 14.9% a year over 10 years.

Nest Egg Plans run for 10 years, but cancellation is possible without penalty after the first two years. You can also dip into your Nest Egg if you need cash at any time.

Nest Egg Plans are designed to allow you to use your full quota of tax relief on life insurance to maximum profit and without tying your money up.

It's the only scheme of its kind devised and operated by a clearing bank. Call in at any branch of Williams & Glyn's Bank, or post the coupon for further details.

Please send me details of your Nest Egg Plan.

and The Middlesex Hospital
London, W.1

VOCATIONAL TRAINING SCHEME
FOR GENERAL PRACTICE

Applications are invited for a 3 year appointment (N.H.S.) grade in a new Vocational Training Scheme for General Practice. 2 vacancies exist commencing 1st August, 1973.

The programme will include an initial month and the final year in an approved training practice in the Enfield area. The first year of the hospital programme will be spent at Chase Farm Hospital, Enfield, to include 6 months in general medicine and 6 months in either accident & emergency, obstetrics & gynaecology or paediatrics. The second year will be at the Middlesex Hospital, London, W.1, and will include dermatology, geriatrics, psychiatry, E.N.T. & ophthalmology. Throughout the three year course a half-day release scheme will operate to enable trainees to attend courses of lectures in General Practice. Married and single accommodation will be available, and during the year at Chase Farm Hospital the successful applicant will be required to be resident. It is anticipated that the scheme will shortly be approved by the Royal College of General Practitioners.

Applications (in triplicate) together with two recent testimonials, should be sent to the Hospital Secretary at Chase Farm Hospital, Enfield, by 27th June. Please quote reference 'M'. (52205) 22

GREAT YARMOUTH & LOWESTOFT
VOCATIONAL TRAINING SCHEME
FOR GENERAL PRACTICE

Applications are invited for a three year traineeship for General Practice, consisting of two years in hospital posts and a year as a trainee in General Practice.

The hospital posts will be in Great Yarmouth and will consist of six months appointments in General Medicine, Obstetrics and Gynaecology, Paediatrics and an optional period of the candidate's choice. The General Practice traineeship will be in an approved practice in the coastal area. A weekly study day programme, and a course of monthly evening meetings, both on General Practice topics, is held in collaboration with the Norwich Vocational Training Scheme, at both centres. The scheme is approved by the Department of Health and Social Security as qualifying for the Vocational Training Allowance, and by the Royal College of General Practitioners for the M.R.C.G.P. Married accommodation will be available throughout the hospital period.

Hospital posts will commence on 1st February, 1974 and the year in General Practice can be divided to give an initial period as a trainee, starting on 1st November, 1973.

Applications and requests for further information should be sent to the Secretary, Great Yarmouth and Lowestoft Vocational Training Scheme, Great Yarmouth, Norfolk by 6th July. The provisional interview date is 17th July. (51844) 22

A MAJOR ENGINEERING GROUP
with manufacturing facilities located in the
Central and East Midlands

wishes to appoint a

MEDICAL SERVICES EXECUTIVE

as head of its internal surgery arrangements and as co-ordinator of all its activities on the safety, welfare and environmental fronts.

The employee strength of the organisation is about 5,000 people and the company is recognized as a major employer and industrial leader in the towns where it operates. The Medical Services Executive will be expected to operate a comprehensive range of health screening and accident prevention/treatment activities and to advise on absenteeism stemming from illness. He will also help to put the Company in the forefront of industrial practice on such matters as pollutant control and the development of sensitivity to environmental considerations in its products, its manufacturing operations and its relations with its customers, employees and the public.

The post calls for medical qualification but additionally for a good deal of commitment, administrative competence and the capacity to secure co-operation from line managers and engineering specialists. The appointment is part of a campaign to give all aspects of the Company's operation a reputation compatible with its dominant market position and its highly regarded name.

Applicants should write to Box 6614 BMJ, giving a Curriculum Vitae and some indication of salary required, which in any case would not be less than B.M.A. recommended rates.

ROYAL GWENT HOSPITAL
Newport, Mon. (426 beds)
(Recognized F.R.C.S.)

2 SENIOR HOUSE OFFICERS
required on or about 1st August. Resident or non-resident. Married accommodation is available if required. The Department is in the charge of a full-time Consultant Surgeon, has five Senior House Officers and all emergency cases are admitted through the Department which is responsible for initial resuscitation. The Department is equipped with apparatus for cardiac monitoring, positive pressure ventilation, as well as X-ray intensifiers and a Berman F.B. Locator.

The Hospital is the base hospital for the Group, and therefore has a large volume of acute cases in all specialties. It is being extensively redeveloped by a major capital building programme and an intensive care unit is situated at the Hospital.

There is a close connection with the teaching hospital at Cardiff, 10 miles to the west, and there is an extensive postgraduate education programme with a very good library. A Postgraduate Centre is situated at the Hospital. The appointment gives ample opportunity to the holder to avail himself of these facilities.

The successful candidates will be expected to be resident on the nights he is on first call, which will — on average — be one night in five.

Apply quoting two referees to Group Secretary, 64 Cardiff Road, Newport, Mon. (25129) 51-8

SENIOR HOUSE OFFICER

in the Psychiatric Division of the Basingstoke District Hospital

PSYCHIATRY?
WHY NOT??

Many young doctors looking for a house job early in their careers would shy away from psychiatry, but it could be a good idea, particularly if you want to enter general practice.

Surveys of the workload in general practice have shown that up to 30% of patients consulting their practitioners have primary psychiatric problems and that in another 30% emotional difficulties are a prominent secondary factor.

So why not consider working for your D.P.M. or M.R.C.Psych. at a modern psychiatric hospital with a big new District General Hospital in its grounds? Set in the beautiful Hampshire countryside on the outskirts of Basingstoke New Town (2 miles) it is served by a frequent bus service, an excellent fast train service to Waterloo (45 minutes) and is only 50 miles to London on the new M3 motorway.

Besides general clinical psychiatry the hospital (1,100 beds) has a variety of interesting special units: Alcoholic, Mother and Baby, Psychiatric Intensive Care plus a rapidly expanding Community Psychiatric Nursing Service. It shares an active Postgraduate Education Centre with the District General Hospital, runs regular weekly Case Conferences and grants generous Study Leave to doctors attending the Wessex School of Psychiatry for the courses in the D.P.M. and M.R.C.Psych. The hospital also has its own Social Club and besides the usual varied sporting activities boasts an excellent nine hole Golf Course whilst Basingstoke itself has one of the best sports centres in the country.

Comfortable single or married accommodation is available.

Opportunities for Experienced Doctors to specialise in Psychiatry

As a Medical Officer in the Prison Medical Service you are responsible for the general medical care of the inmates of the establishment — borstal, prison or remand centre — to which you are attached. Current vacancies are at HM Prisons at Stafford, Maidstone and Bristol, HM Borstal, Lowdham Grange, and Grendon Psychiatric Prison, Bucks.

A good proportion of the work at many establishments lies in making medical and psychiatric assessments for the Department and the Courts, and, at some establishments, assistance is available from psychologists, social workers and pharmacists. You will also be concerned with the general hygiene and dietary requirements of the establishment. Surgical and psycho-therapeutic units employing part-time specialists are established at selected centres and use is made of the facilities available in NHS Hospitals for consultations and special investigations.

These posts provide a unique opportunity to research into mental and physical disorders.

Candidates must be fully registered as medical practitioners in the UK and possess good all-round medical and surgical experience. A knowledge of psychological medicine is desirable, and a Dip. P.M. an advantage.

Starting salary within the scale £4,498-£6,245 (plus £111 environment allowance) according to qualifications and experience. Promotion prospects. Non-contributory pension scheme. Rented accommodation may be available.

For full details and an application form (to be returned by 6th July, 1973) write to Civil Service Commission, Alencon Link, Basingstoke, Hants RG21 1JB, or telephone Basingstoke 29222, Ext. 500 or London 01-839 1992 (24 hour answering service), quoting S(Q)/630/2 (24962) 112

GREATER LONDON COUNCIL

SERVICES

Are you in your pre-registration year? -or recently fully registered?

Before you commit yourself to your permanent pattern of life, consider what the RAF has to offer

The chance to practise total medical care, as a GP

Your first job would probably be a Junior Medical Officer on a large RAF Station. There would be at least one other doctor. Between you, you would have a 'list' of 2000 to 3000 people - servicemen and their families. You would meet all the usual clinical problems of a GP - and get plenty of experience in paediatrics. As well as this, you would be actively involved in the practice of aviation medicine and gain experience in the preventive, occupational and social fields.

Conditions of work are extremely good. You would have a consulting room in a specially built *Medical Centre* - like a small hospital with its own treatment room, theatre and resuscitation room, and wards for a dozen or so short-stay patients. There is a full secretarial and nursing staff. Your clinical freedom would be absolute.

The chance to specialise, too

Because General Practice is so highly developed in the RAF, this does not mean you have no chance to specialise. The contrary is true. 47% of all RAF doctors are now working in specialist departments. On a 'full career' contract you have every opportunity to reach consultant status in your late or middle thirties; perhaps earlier.

The chance to study for higher qualifications

Any RAF doctor, whether specialist or GP (as long as he is not on the very shortest of contracts) can apply for six months study leave on full salary. On a permanent commission, he may have up to two years' external study leave.

The chance to travel

The RAF operates in many different conditions and climates. Abroad, the RAF doctor looks after RAF personnel and their families and, very often, the local population as well. Your gain in clinical experience would be marked.

The chance of a good social and family life

The RAF is a young community, with a full and active social life. There are facilities for almost every kind of sport and, which is most important, the time to enjoy your family while you are still a young man. Living conditions are excellent. If you are single you live in the Officers' Mess, which has all the amenities of a good hotel. If you are married, you will nearly always have a furnished house that goes with the job; rent for this is very modest, and it can save a large financial outlay at the beginning of your career.

A realistic pay scale

Pay is based on the average earnings of a civilian GP. Immediately after full registration, the present basic salary is £3942; after 5 years it rises to £4767; after 13 years to £5898. There are various other

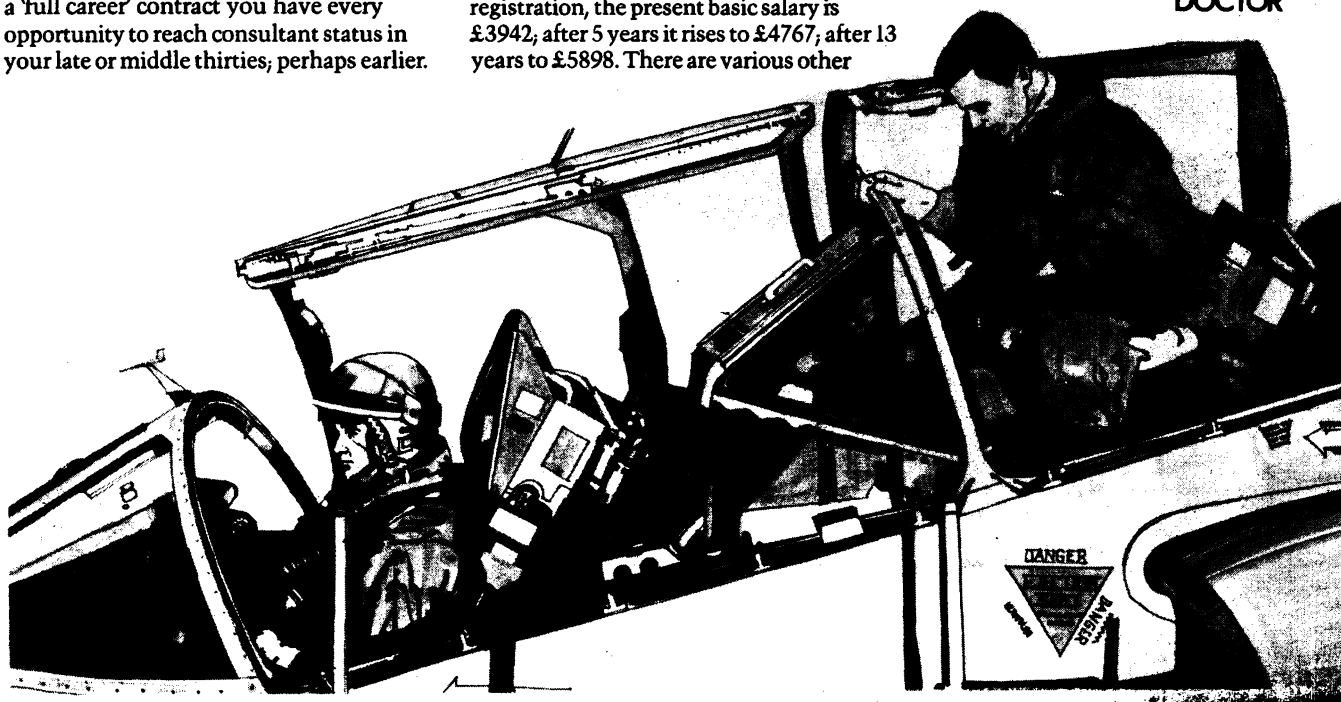

allowances; for instance, with children at boarding school the figures are £363 (net) for one child, £795 (net) for two children, £1314 (net) for three children. There are tax-free gratuities of £1500 after 3 years, or £3000 after 5 years. After service of 16 years or more there is a pension, payable for life, and a generous terminal grant.

For full information please write, giving your age, nationality, and date of full registration, to Group Captain D. G. M. Hills, OBE, MB, BS, DPH, RAF, Ministry of Defence, 1-6 Tavistock Square (724 KS1), London, WC1H 9NL. Or visit your nearest RAF Careers Information Office.

Below, a Senior RAF Medical Officer, at a flying Station in Germany. From time to time he flies as a passenger in combat aircraft, to gain experience of his patients' working environments. Basically, his job is to run a 4-doctor partnership covering two health centres with a total list of 6,000 patients. As well as the usual GP functions he has important responsibilities in environmental health and public health, and among his other preoccupations is the local operation of the RAF's aeromedical evacuation service for Germany, and the establishment of an aeromedical training centre. His own Station is a base for Harrier 'jump-jets', which must be ready to disperse at short notice into small, concealed groups. This doctor has been much concerned with the medical implications of this, and has set up a Mobile Field Medical Centre, with specially equipped cross-country ambulances.

Medical Officers

Zambia £6,770 + p.a.

You are offered the prospect of a tour of duty — for as little as one year — in Zambia, one which will give you both a wide range of professional experience and early responsibility (all in addition to a wide extension of your personal horizons). It is with the nation's major mining organisation, Nchanga Consolidated Copper Mines Ltd. with an international staff of technical specialists.

The company is responsible for providing full medical care to its employees — over 30,000 — and their families; the total of persons to be looked after is about 150,000.

There is a senior doctor staff of over 40, including a full complement of specialists and 150 fully qualified nurses. The modern facilities include 5 well-equipped hospitals (814 beds), 16 clinics and 8 main first aid dressing stations.

General Duty Medical Officers will be involved in preventive and curative medicine, surgery, anaesthetics, gynaecology/obstetrics, public health and nutrition; and although the mines have a strict safety code an amount of accident work can be expected.

Contracts may be negotiated for periods of one to three years. Locums can also often be arranged.

Salaries will depend on experience, but the minimum is K10,750 (£6,772) gross per annum. In addition there is a tax free settling-in allowance; subsidised Company private primary schools; a detached, furnished house with garden is provided for £1.50 per week; and children receiving secondary education overseas are granted up to K900 per child per year, tax free, towards school fees and two free return passages to visit their parents during holidays; interest free car loan available.

Exchange Control Regulations allow for the annual externalisation of up to 33½% of gross income.

VENTOLIN

for effective bronchodilatation without cardiac stimulation

Ventolin is available in a wide range of preparations, all of which contain salbutamol BP. This compound has a highly selective action on bronchial muscle, causing maximal dilatation with low dosage. Therapeutic doses of salbutamol are virtually devoid of effects on heart or blood pressure; this is now so well established that Ventolin is the only adrenergic bronchodilator that is indicated for the treatment of bronchospasm in patients with concomitant heart disease or hypertension.

Ventolin Inhaler for rapid, effective relief of asthmatic attacks.

Ventolin Tablets 2 mg and 4 mg for routine oral bronchodilator therapy.

Ventolin Syrup fruit flavoured for ready acceptability by children.

Ventolin Spandets sustained-action tablets, particularly suitable where nocturnal bronchospasm is a problem.

Ventolin sets a higher standard in bronchodilator therapy

Full information is available on request.

"... a valuable therapeutic advance in the difficult problem of aiding expectoration in the respiratory patient."

Brit. med. J., 1970, 3, 260

"The majority of patients found that their sputum was thinner and easier to expectorate, these changes being accompanied by less frequent and easier coughing and an increase in sputum volume."

Practitioner, 1971, 207, 672
