Logical alternative

'Kefzol' i.m. (cefazolin sodium) - greater effect than any single penicillin

Gram-positive: wider range of activity against Gram-positive organisms, including penicillinase producers.

Gram-negative: active against Gram-negative organisms, especially those increasingly resistant to penicillins, such as E.coli, Klebsiella and P. mirabilis.

...m. to the penicillins

Low toxicity: low incidence of side effects. Well tolerated.

Indications: hospital infections of the respiratory tract, urinary tract, skin, soft tissue, bones and joints and in obstetrics and gynaecology, due to susceptible organisms.

More convenient: effective in a simple twice daily dose of 500mg.

Ear, Nose and Throat Infections

Prescribe Penbritin with Confidence for infections in children

Confidence is born of experience. And experience with Penbritin in the treatment of ear, nose and throat infections has established an outstanding record of safety and effectiveness.

Penbritin gives you broader cover than penicillin V—yet retains all the benefits of penicillin safety.

And Penbritin has none of the tooth-staining problems associated with the use of tetracyclines in young children.

'Orudis' in arthritis

Optimal efficacy and tolerance now further confirmed by two new studies

Activity equal to that of phenylbutazone

"... in 47 patients with osteoarthritis of the hip, it has been shown that there is little to choose in efficacy between ketoprofen ['Orudis'] 200mg daily and phenylbutazone 300mg daily... Side-effects were mild..."¹

Comparative clinical studies with indomethacin³ and ibuprofen⁴ have already shown that 'Orudis' affords both significant therapeutic effect and low toxicity in the treatment of arthritis.

Tolerance markedly superior to that of aspirin

"... a trial with gastroscopic examinations has allowed the adoption of the hypothesis that the new anti-inflammatory product ketoprofen ['Orudis'] is better tolerated by the gastric mucosa than acetylsalicylic acid..."²

The latest comparisons with two further widely prescribed agents provide additional cogent evidence of its ability to meet the criteria for optimal drug management.

New product

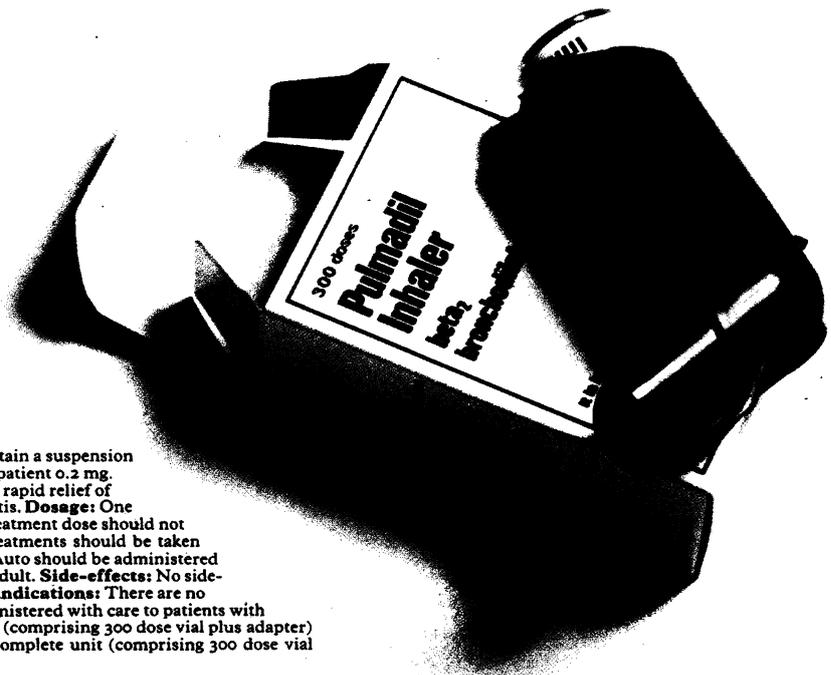

Pulmadil is a unique new bronchodilator for inhalation. It comes from Riker. Seven years have been spent developing Pulmadil. Already over 20 publications have appeared.

Pulmadil Inhaler relieves the asthmatic attack very fast indeed. It is exceptionally selective.*

Pulmadil is rapidly removed from the blood by uptake into smooth muscle. Unlike long-acting agents it is metabolised by the body's enzyme C.O.M.T. Plasma half-life is under 5 minutes. So there is little if any chance of accumulation should overuse occur.

*Cardiac effect minimal even with 36 inhalations.

LINCTIFED EXPECTORANT effective expectoration in bronchitis

Are asthmatic attacks ruining her lungs?

Asthmatic attacks can damage lungs.

Sometimes the bronchioles lose their elasticity, the ability to expel phlegm is impaired and there is increased risk of infection.

Sometimes the alveoli themselves may suffer damage.

Aerosol bronchodilators can help, but only when the attack is under way, and there may already be damage.

Only Intal prevents the attack and eliminates these problems.

With Intal, there is no danger of side effects, no risk of misuse and no diminution of therapeutic effect.

Put them on Intal.

The hypertensive patient's feeling of well-being...

should be protected

Success in treating hypertension depends so much on the co-operation of the patient. He usually feels perfectly well in himself—and obviously he wants to stay that way.

Yet many antihypertensive agents interfere with daily living. But with 'Aldomet', side effects have been infrequent—in particular, dizziness from postural or exertional hypotension rarely occurs.

No wonder 'Aldomet' is prescribed more than any other anti-hypertensive.

- lowers blood pressure more physiologically by reducing peripheral resistance
- usually does not directly affect heart or kidney function
- other disturbing side effects such as diarrhoea, impotence, or failure to ejaculate are uncommon
- acts rapidly and smoothly, usually without hazardous drops in blood pressure
- dosage is simple, and easily established
- a sedating effect, common in the beginning of therapy, usually disappears on continued treatment

- More comprehensive relief.
Mucodyne creates conditions conducive to the removal of sticky mucus, by acting upon the fibrillar protein-polysaccharide network basic to pathologically viscous mucus. In so doing Mucodyne brings about a reduction in the size and number of mucus producing cells.
- More effective relief.
By restoring more normal conditions, Mucodyne removes sticky mucus without the problem of rebound secretion seen with expectorants.
- More rapid relief
Mucodyne removes sticky mucus fast—response is seen often within 48 hours.*

A NEW LOOK AT INFECTIOUS DISEASES

from the British Medical Journal

Infectious diseases remain as much a medical challenge as ever, and the articles collected in book form under the title *A New Look at Infectious Diseases* cover many aspects of diagnosis and treatment. The widespread use of newer antibiotics, and increased risk of spread by travel are all dealt with, as well as the problems of diagnosis produced by present day doctors' unfamiliarity with many diseases, which were formerly so common and widespread.

**VOCATIONAL TRAINING SCHEME
FOR GENERAL PRACTICE**

These Hospital Sections offer vocational training for General Practice based at St. Helier Hospital, Carshalton, with a secondment to Queen Mary's Hospital, Carshalton for paediatrics experience. Both hospitals are near to the Surrey countryside and within easy reach of London.

The scheme is recognized for the M.R.C.G.P., the D.Obst. R.C.O.G. and D.C.H. and the programme of training will be as follows:

3 months in General Practice; 6 months in Accident and Emergency; 6 months in Obstetrics; 6 months in Paediatrics (at Queen Mary's Hospital for Children, Carshalton, Surrey); 6 months in Geriatrics/General Medicine; 9 months General Practice.

The Hospital Training will be given in established posts in the Senior House Officer Grade.

Regular meetings of trainers and trainees will be held throughout the three years, and a half day release scheme can be arranged during the general practitioner training.

Attachments to other clinical specialties relevant to General Practice can be offered during the Hospital appointments, and similar attachments to local authorities and other practices can be arranged during General Practice training. Training in Psychiatry will be optional for those candidates desiring it.

Excellent Postgraduate Centre and library facilities are available at St. Helier Hospital, and Queen Mary's Hospital for Children. Married accommodation may be available if required.

Applications for the next vacancy in this scheme in August, 1974 giving full details of previous medical experience and including the names of two referees, should be sent to the Hospital Secretary, St. Helier Hospital, Wrythe Lane, Carshalton Surrey, not later than 6th July, 1974. (59632) 21

The Company of People

**STERLING-WINTHROP
GROUP**

**Medical
Adviser
in Hospital Medicine**

Winthrop Laboratories, one of the leading ethical pharmaceutical companies in the U.K., has recently set up a new division exclusively concerned with hospital medicine.

Applications are invited from registered medical practitioners either in the pharmaceutical industry or hospital work—at about registrar level—in an appropriate medical discipline. General practitioners or other physicians are invited to apply, provided they have been out of the hospital environment for less than three years, and have retained a particular interest in pharmacology and therapeutics.

The Company's wide range of products includes antibiotics, psychotropics, hypoglycaemics, anti-rheumatics and analgesics. In these fields the doctor appointed would be expected to become medically expert; to appraise carefully and report on medical publications; to give medical advice and to set up new clinical trials; to advance clinical knowledge of the products.

Attendance at conferences, meetings and symposia, and liaison with leading researchers in the various fields will be encouraged.

The work is varied, interesting and challenging. Initial training will be given. There will be scope for initiative and the developing of personal interests. Salary, depending on experience, age and qualifications, will be between £5,000-£6,000 plus a car and other benefits.

Please write briefly and in complete confidence to:

COMMERCIAL APPOINTMENTS

Medical Management

UK & Overseas from £6000+car

We seek two physicians with broad clinical experience and a strong sense of medical purpose—to take up a new challenge contributing directly to medical progress on an international scale.

The work will entail the medical management of a range of therapeutic products researched and developed by a well-known and respected ethical pharmaceutical company. The scope is far-ranging and varied, and includes:

- liaison with research scientists to plan the medical development of potential new therapeutic agents.
- organisation and critical assessment of medical trials conducted mainly in the UK, but also overseas (notably in Canada, South Africa, Australia, New Zealand and Scandinavia).
- careful evaluation of published papers and other reports on specific groups of medicines.
- supplying data to the department's information bank on these products, including details of any adverse reactions or side-effects.
- exercising medical judgement in relation to marketing and promotional activities.
- attendance at conferences and symposia to keep at the forefront of medical knowledge in the relevant product fields.
- lecturing to non-medical personnel on the medical aspects of the products.

Applicants should be within the age range 28–45 and possess a broad clinical and therapeutic knowledge, an alert mind, a positive attitude towards responsibility, challenge and hard work, and a successful career record to date. Knowledge of another European language, previous involvement in medical trials, or management experience in a group practice would be advantageous, but by no means essential.

The starting salary is likely to be around £6000 but could be substantially more for candidates of outstanding merit. Other major benefits include a car, free BUPA membership, free life, accident and disability insurances, contributory superannuation scheme, and generous financial assistance with relocation.

The successful candidates will work in pleasant offices at the Company's modern headquarters in outer London.

Please write in complete confidence for an application form, or phone if you would like to discuss the positions further:

ELECTIONS

NOTICE OF BY-ELECTION
GENERAL MEDICAL COUNCIL
MEDICAL ACTS 1956 to 1969

NOTICE IS HEREBY GIVEN that pursuant to the Medical Acts 1956 to 1969 an ELECTION OF ONE MEMBER OF THE GENERAL MEDICAL COUNCIL is about to be held to fill a vacancy caused by the resignation of one of the members who represent the fully registered medical practitioners resident in ENGLAND AND WALES.

Every fully registered medical practitioner is qualified to be nominated as a candidate.

Each candidate must be nominated by a separate nomination paper.

Every fully registered medical practitioner resident in ENGLAND AND WALES is entitled to take part in nominating ONE candidate.

Every nomination paper must state the name, registered address, and registered qualification or qualifications of the candidate nominated; it must be signed by not fewer than six fully registered medical practitioners resident in ENGLAND AND WALES, as nominating such candidate; and the registered address and registered qualification or qualifications of each one so signing must be appended to his signature. Every nomination paper, accompanied by a declaration in writing signed by the candidate acknowledging that he consents to be nominated, must be delivered by post or otherwise, on or before July 12, 1974, addressed to the Registrar of the Council from whom forms of nomination may, on application by post or otherwise, be obtained. Copies of the Electoral Scheme which governs the election may also be obtained from the Registrar.

Every nomination paper in respect of which any of these Regulations has not been complied with, or which is not received by me on or before July 12, 1974, will be invalid.

If more than one person is nominated an electoral roll will be prepared of those fully registered medical practitioners who are qualified by residence on August 9, 1974, to vote in the election. Any other person who becomes fully registered or is fully registered and becomes qualified by residence to vote in the election after that date but before the last day fixed for the return of voting papers will be entitled to obtain a voting paper on application by letter to the Registrar provided that he signs an undertaking that he has not and will not mark more than one voting paper in the election.

School Medical Officer

TO THE LORD MAYOR TRELOAR TRUST
AND TO THE
TRELOAR HAEMOPHILIA CENTRE AT ALTON

The Trust administers two Schools supplying the needs of 135 boys and 90 girls suffering from physical handicaps. These Schools provide academic education from the ages of 11 and 9 years respectively and include 'O' level examinations as well as 'A' level examinations at the girls' school with vocational courses for boys.

There are over 50 haemophiliacs, being the largest group in the country, thus providing a unique opportunity for the study of this disease and the promotion of its treatment. The successful applicant will be required to take part in present and future planned research projects which are conducted in co-operation with a number of Haemophilia Centres.

Lack of experience in the treatment of Haemophilia will not debar, as supplementary training will be provided by doctors at the Oxford Haemophilia Centre with whom there are close working arrangements.

Applications are invited for the whole time post which, subject to review at one year, will be on a permanent basis. Salary scale £5,000 x £200(3) to £5,600 (with adjustments as agreed nationally) with supplementary benefits, including if necessary, the provision of free married accommodation.

The successful applicant will be responsible to the Director of the Designated Haemophilia Centre at Alton for the haemophiliacs and to the Trustees for the general care and supervision of the children at both Schools.

The appointment will be made jointly by the Hampshire Area Health Authority and the Lord Mayor Treloar Trust.

Further information obtainable from the Secretary to the Trustees, Lord Mayor Treloar Trust, Froyle, Alton, Hampshire to whom applications giving full details of qualifications and experience, with names and addresses of two referees should be sent by 1st July, 1974.

Birmingham Regional Training Scheme
in Pathology**

**Applications are invited for
6 REGISTRARSHIPS**

(Some posts resident, some non-resident) in the above scheme. When finance becomes available this new scheme will embrace all Registrar appointments in the Birmingham Region, with nine posts in haematology, nine in histopathology, six in medical microbiology and three in chemical pathology. There are at present vacancies in all disciplines. Trainees will be able to spend three years at Registrar level, one of these in a teaching and two in non-teaching hospitals. There are opportunities to gain experience in more than one discipline of pathology if this is desired.

Advisory groups of Consultants and academic staff will supervise closely training in each discipline. There is a two-year half-day release course for the Primary examination for membership of the Royal College of Pathologists which covers all disciplines. Regular seminars are held for those who are working for the Final examination of the College. Trainees in chemical pathology will attend the course of the M.Sc. in clinical chemistry and they will be encouraged to take this examination. They will be given a year off service to undertake the related project.

Chances of promotion to the Senior Registrar level in the Birmingham Region are excellent. There are six established Senior Registrar posts in haematology, five in general histopathology, one in paediatric histopathology, two in neuropathology, six in microbiology and two in chemical pathology. All these posts rotate between teaching and non-teaching hospitals.

FOR SENIOR REGISTRARS
IN MENTAL SUBNORMALITY**

Applications are invited for the posts of Senior Registrar in Mental Subnormality (two posts). Duties for one post initially at Monyhull Hospital, Birmingham and for the other at Lea Castle Hospital, Wolverley. The posts are intended to run in parallel with a scheme already in existence for Senior Registrars in Child Psychiatry. It is intended that the successful applicants will spend nine months at each of either two or three hospitals for the mentally subnormal in the Birmingham area depending on the length of training required. During this period, there will be an opportunity to take part in the assessment and management of the multiple handicapped children and also to work in special units for the cerebral palsied, deaf/blind and rehabilitation units for adolescent and adult mentally handicapped. Three sessions per week will be spent over the whole training period in attending a child psychiatric out-patient clinic this placement to remain constant, regardless of movement between subnormality hospitals, in order to maintain continuity. The facilities of the newly opened Institute of Mental Subnormality at Lea Castle Hospital are available to trainees. D.P.M. required. Accommodation, married or single, will be made available as conveniently as possible or successful candidates must reside within Birmingham area. Candidates invited to arrange to meet the Director of the Institute of Mental Subnormality (Tel: Kidderminster 850251) to discuss the appointment and at the same time they will be given an opportunity of viewing the various units in which they would be working and to visit the hospitals involved. **AYLESBURY AND HIGH WYCOMBE DISTRICTS
Department of Mental Health of the Elderly**

CLINICAL ASSISTANT

Up to 9 clinical assistant sessions are available at Tindal General Hospital, Aylesbury, the headquarters and assessment unit of the Department of Mental Health of the Elderly.

This Department has been in existence for four years and has made rapid developments in hospital and community services. There are two consultant psychiatrists, and registrars rotate into the Department from the main psychiatric hospital. The clinical assistant at present in this post acts as overall co-ordinator of the running of the assessment unit, as well as helping with domiciliary and pastoral visits.

Though some previous experience in psychiatry would be an advantage it is not essential. Arrangements can be made for the holder to be involved in psychiatric training locally, in Oxford, or in London; the present holder has obtained both D.P.M. and M.R.C.Psych, whilst working in the Department, which has category II accreditation from the Royal College.

Mental health of the elderly is an expanding field, yet with few formal training posts available, so that this post offers real prospects of further progress if so desired. There is a small night duty involvement with the post; this need not involve living-in, provided the person appointed is within reasonable distance of Tindal General Hospital.

Applications to The Administrative Officer, Tindal General Hospital, Aylesbury, Bucks.

Salary £435 per annum per session.

Interested persons are invited to visit the Department by appointment — telephone Aylesbury 4351, Ext. 49.

Applicants should state the number of sessions they can offer: six is the minimum acceptable number.

JOINT ROTATIONAL TRAINING SCHEME
IN SURGERY
(Non-resident)

A programme of basic training in surgery in
general will be inaugurated on 1st August,
1974. The scheme will comprise three years
training in general surgery and the
specialties, the first year in a Glasgow
teaching hospital, the 2nd year in a designated
district hospital, and the third year in a
teaching hospital but with rotation through
the specialties.

Trainees who successfully complete the
three years basic training will then be able to
apply for advances or specialist training posts
in their chosen specialty.

When the scheme is fully established it is
anticipated that there will be an intake each
year of 17 trainees and appointments will be
reviewed annually.

COMMUNITY MEDICINE

TRAINING IN COMMUNITY MEDICINE
 NORTHERN CONSORTIUM
 Of the

Mersey, Northern, North Western, Trent and Yorkshire Regional Health Authorities and the Department of Health and Social Services, Northern Ireland.

A two-year programme of in-post training is planned to begin in September 1974 for doctors who wish to prepare for a career in community medicine and the first part of the Membership examination of the Faculty of Community Medicine of the Royal Colleges of Physicians.

The training programme is sponsored by the Mersey, Northern, North Western Trent and Yorkshire Regional Health Authorities and the Department of Health and Social Services, Northern Ireland, in conjunction with the appropriate departments of the Universities of Leeds, Leicester, Liverpool, Manchester, Newcastle, Nottingham and Sheffield and the Queen's University of Belfast.

The training programme will offer a planned programme of experience and training at district, area and regional levels in the same locality. This in-service training will be integrated with a modular academic course provided jointly by the participating university departments, each department contributing in the subjects of its special experience and interest. There will be one module of two or three weeks duration per term for the six terms of the training programme. In addition trainees will be attached for tutorial purposes to the university department closest to their place of work and between modules will normally spend the equivalent of one day a week in academic studies under the guidance of a tutor covering parts of the syllabus agreed by all the teaching departments.

Applications are invited from registered medical practitioners with at least one year's post-registration clinical experience. The training posts established will be equivalent to registrar in the clinical specialties (salary 2,850 x £171 to £3,531). This is a non-resident appointment but some Authorities may be able to help with the provision of accommodation on a voluntary basis for which an appropriate charge would be made.

Administrative arrangements for the scheme are being co-ordinated initially by the Postgraduate Medical Education Section of the Trent Regional Health Authority from which application forms and further details may be obtained. Application forms should be returned to the Trent Regional Health Authority at the address given below by the 8th July 1974. Applicants will be free to express in order of preference by which of the participating authorities they would wish to be employed. If applicants require further advice or details of local regional arrangements they are at liberty to contact the Regional Medical Officers' department at the following addresses:

Mersey Regional Health Authority, Wilberforce House, The Strand, Liverpool L2 7RW

Northern Regional Health Authority, Renfield Road, Walker Gate, Newcastle upon Tyne NE6 4PY

North Western Regional Health Authority, Gateway House, Piccadilly South, Manchester M60 7LP

Trent Regional Health Authority, Fulwood House, Old Fulwood Road, Sheffield S10 3TH

Yorkshire Regional Health Authority, Park Parade, Harrogate HG15 5AH. Enquiries about arrangements in Northern Ireland should be addressed to:

The Chief Medical Officer, Department of Health and Social Services (Northern Ireland) Dundonald House, Upper Newtownards Road, Belfast BT4 3SF. (59966) 110

NORTH CANTERBURY HOSPITAL BOARD Christchurch, New Zealand

DIAGNOSTIC RADIOLOGIST
Applications are invited for this position. Applicants should possess a postgraduate radiological qualification, be experienced in all aspects of diagnostic radiology, have been qualified for not less than eight years and have had at least five years practical experience in radiology.

The successful applicant would be based at either the Christchurch or The Princess Margaret Hospital, which are both teaching institutions. The Christchurch Hospital, with approximately 430 beds, is currently being rebuilt and a large new X-ray Department, which will be comprehensively re-equipped, is due to open in 1976. The Princess Margaret Hospital, with 320 beds, was opened in 1959 and has a well equipped, modern Department. All types of special radiological investigations are carried out in these procedures, bronchography, percutaneous lung-biopsies, etc. There is also a highly developed consultant service, including regular film viewing sessions in the X-ray Department. The Board's hospitals are recognized for radiological training and an establishment of four registrars is maintained.

Radiologists also participate in the teaching of undergraduate medical students, in the Christchurch Clinical School, and of candidates for medical and surgical qualifications.

Salary will be within the specialists scale of \$NZ11,595 to \$NZ15,528 per annum. The commencing salary within this scale will be determined by the Medical Officers salaries grading committee.

The North Canterbury Hospital Board serves a population of approximately 330,000. Christchurch itself has an equitable climate, is close to the sea and within easy reach of the mountains, where skiing and tramping are readily available. It is also noted for its excellent cultural and sporting facilities.

Assistance towards fares and removal expenses can be given. Conditions of appointment and schedule of duties available on air-mailed request from The Chief Executive, North Canterbury Hospital Board, Private Bag, Christchurch, New Zealand with whom applications close at 9.00 a.m. on Wednesday, 7th August, 1974. Anaesthetist

This is an opportunity for an experienced Anaesthetist to join Roan Consolidated Mines Limited at Mufulira on the Zambian Copperbelt. The successful applicant will be responsible for approximately six routine theatre lists per week and will normally share emergency anaesthetic calls with at least one experienced colleague. In addition, he will be expected to instruct junior medical officers in the principles and practice of anaesthesia and will also be involved in a limited amount of student nurse teaching, associated with a registered nurse training school established in 1970. In common with other specialist medical officers employed, duties will include a minimal amount of general medical work.

The Company, one of the world's major copper producers, provides medical services for approximately 55,000 local and 2,500 expatriate employees and dependants. There are two well-equipped hospitals, totalling 460 beds, and the full establishment of medical officers is 15, including those with higher qualifications working in their specialised fields.

Employment is on a renewable contract basis – for three-year periods. A competitive starting salary will be negotiated depending on experience and qualifications.

Additional benefits include ■ tax free settling-in allowance ■ tax free children's education and travel allowances ■ generous leave conditions with return passages paid every two years ■ free life assurance ■ car provided.

Department of Physical Medicine
and Rehabilitation

The University of Alberta Hospital is seeking a Chairman for its Department of Physical Medicine and Rehabilitation. This individual will be responsible for an in-patient ward of 38 beds, and an approximate annual out-patient load of 24,200 visits. This department also encompasses Psychiatric Occupational Therapy, Speech Therapy, Audiology, and a Traveling Rehabilitation Team that visits rural hospitals. The department is approved for postgraduate training in Physiatry, and participates in the training of physiotherapists and occupational therapists in conjunction with the School of Rehabilitation Medicine. The successful applicant will receive an academic appointment in the University of Alberta either in the Faculty of Medicine, or the School of Rehabilitation Medicine or both. In addition to this, he will receive an appointment with the Glenrose Provincial General Hospital. This latter institution involves rehabilitation, convalescent programs, and schooling for multiple-handicapped children. The nature of appointments to these various institutions would be dependent upon the individual's interests and training, and the academic rank would be commensurate with his training and experience.

The facilities of these combined institutions offer an excellent challenge to develop and expand city-wide services and educational programs in rehabilitation.

DALMANE

A new and powerful treatment for insomnia

Getting to sleep

Clinical trials¹⁻³ have shown that Dalmane cuts the time taken to get to sleep by half; reducing it from an average of 36.2 to 13.9 minutes in one trial¹ and from 63.4 to 27 minutes in another.²

Staying asleep

Trials^{1,2,4} have shown that Dalmane patients enjoy a longer night's sleep with fewer nocturnal awakenings. Dalmane has increased the average night's sleep by 65 minutes⁵ and 93.3 minutes⁶ and in a third trial to an average of over 8 hours.¹

Patient preference

The low incidence of side-effects such as hangover with Dalmane is undoubtedly one reason why many patients prefer it.⁷ In one study⁸ Dalmane produced exactly the same incidence of hangover as placebo.

Safety

Dalmane, a non-barbiturate, has a high mean lethal dose in mice and rats,⁹ suggesting that overdosage would be unlikely to present undue problems of management or threat to life. Human toxicity studies¹⁰ in which healthy men were given large doses of Dalmane for some time confirmed that it is well tolerated.

Becotide INHALER is indicated for a wide range of patients with bronchial asthma

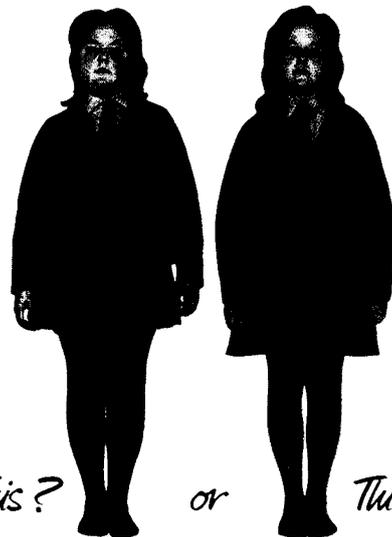

Patients whose asthma is becoming worse and whose response to bronchodilators is consequently waning;

Patients who are not controlled or are inadequately controlled by sodium cromoglycate in addition to bronchodilators;

Children with severe asthma;
Severely asthmatic patients who are dependent on systemic steroids or ACTH for their well being.

This ?

or

This ?

The clinical evidence for Becotide Inhaler is extensive and convincing...

Topical treatment with beclomethasone dipropionate by means of an aerosol (Becotide Inhaler) thus provides excellent control of patients with asthma.

(*Practitioner*, 1973, 211, 86)

Clinically, the steroid aerosol (Becotide Inhaler) provided the expected benefits observed when oral corticosteroids are given to asthmatic patients.

(*Curr. med. Res. Opin.*, 1972, 1, 173)

For those who are poorly controlled on bronchodilators or DSCG, this treatment (Becotide Inhaler) can give complete or comparative freedom from airways obstruction without risk of adrenal suppression or other side effects.

(*Brit. med. J.*, 1973, 3, 161)

Beclomethasone dipropionate (Becotide Inhaler) appears to be an effective drug in the treatment of severe childhood asthma in those patients who need corticosteroid therapy in addition to disodium cromoglycate.

(*Arch. Dis. Childh.*, 1973, 48, 671)

With the addition of this important drug (Becotide Inhaler) to our armamentarium, the long-term treatment of children with oral steroid is no longer desirable.

(*Arch. Dis. Childh.*, 1973, 48, 663)

Patients 13, 16 and 17 were all controlled on prednisolone in excess of 10mg per day and were unable to reduce the dose of prednisolone below that level without clinical deterioration. They now remain as well, if not better, controlled on the steroid aerosol (Becotide Inhaler) in a dose of 100mcg four times a day and all have normal basal plasma-hydrocortisone levels.

Burinex* K

the only
short-acting diuretic
with built-in
potassium supplementation

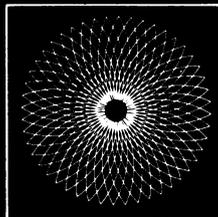

- Burinex K is positively indicated as a diuretic
- ★ in patients undergoing concurrent treatment with digitalis
 - ★ in the treatment of chronic congestive heart failure
 - ★ for maintenance therapy

The time of administration can be suited to the daily routine of the ambulant patient. An early evening dosage allows the patient to retire to bed in a state of therapeutic dehydration—minimising nocturia and nocturnal dyspnoea.

The short period of diuretic activity

allows for natural compensatory absorption of dietary potassium during the prolonged diuretic-free phase (some 21 hours per day).

Burinex K reduces the number of tablets the cardiac patient has to take, thus avoiding confusion and medication errors.

Burinex K is bumetanide (0.5 mg) with slow-release potassium chloride (573 mg)
